

A N N O U N C E M E N T

on bank account statements

OTP Bank Plc. shall notify the Account Owner of the itemized transactions of its bank account (in the context of its subsequent information obligation) by means of a bank account statement.

The bank account statement contains the booked crediting and debiting entries of the settlement and cash transactions made on the bank account on the given day/in the given period. We provide information on payment orders executed on the given day or on the last day of the indicated period, but not posted, on the following statement. A separate term deposit notice is prepared for non-retail clients on HUF term deposit contracts.

The Business Regulations on payment services, and the bank account agreements and other agreements provide for the frequency of sending the bank account statement and the method of making it available. The bank account statement shall also serve as an invoice.

Subsequent information via the bank account statement may be provided in the form of an authentic paper-based bank account statement, in the case of retail clients via OTPdirekt Internet service or via the OTP Internet banking service electronically, or in the case of Clients of OTP Bank Plc. belonging to the enterprise and municipality clientele, upon the Client's choice, in the form of authenticated electronic bank account statement via OTPdirekt Internet service or via the OTPdirekt Electra Terminal.

I. Contents of the bank account statement

The bank account statement contains the following:

- a) the data necessary for the issuance of invoice: name, address, tax number, VAT group identifier of the invoice issuer, date of issue of the invoice, serial number of the bank account statement, number of copies of the bank account statement;
- b) the tax number of the Account Owner, and in the case of a group (VAT) taxable persons, the group tax number, if the tax passed on to the taxable person purchasing the product or using the service is HUF 2 million or more;
- c) the address of the Account Owner notified to OTP Bank Plc., the contact details of OTP Bank Plc. via electronic channels, the telephone numbers of OTPdirekt;

 - r) the amount of accrued on demand interest, which will be credited to the account when due
 - s) the amount of accrued costs, fees, commissions, loan interest, which will be charged with a later due date;
 - t) blocked part of balance amount in an itemized manner (start and end date of blocking, blocking number, contract number, comment, blocked amount) and indicated also as a total value, of which amount blocked due to securities (at the Client's request or based

on OTP Bank Plc.'s procedure, interest-bearing, but not usable amount) shall be indicated separately;

- u) accrued credit / debit transactions due to bank card transactions and instant transfers / e.g. provision of coverage for the amount of a bank card payment transaction /;
- v) the amount of deposit guaranteed by the state (amount deposited before 30 June 1993, which in the case of retail forint accounts is indicated on the year-end statement);
- w) information on the amount of the duty in HUF established for taxable financial transactions executed on the bank account, included in the bank account statement – established on the basis of Act CXVI of 2012 on Financial Transaction Duty – and payable by OTP Bank Plc. to the National Tax and Customs Administration;
- x) information on deposit insurance;
- y) additional account information
 - a call for the settlement of debt if the account balance is negative or has been overdrawn in excess of the credit facility;
 - aggregation by currency in the case of FX accounts (aggregation by currency of the on sight and term balances of accounts held in different currencies belonging to the same foreign currency account agreement);
 - information and marketing messages

II. Specific provisions for the authenticated electronic bank account statement

OTP Bank Plc. provides its Clients belonging to the enterprise and municipality clientele with the option to request an authentic paper-based or authenticated electronic bank account statement for the transactions on their HUF and FX bank accounts.

The authenticated electronic bank account statement is a service provided in accordance with the terms and conditions specified in the respective Public Announcement applicable for the Client.

The service may be used by concluding a contract for the service or for the service package included in the relevant division Public Announcement, covering also the authenticated electronic bank account statement, starting from the date specified in the contract.

In the case of multiple bank accounts, it is also possible, if requested, for the method of sending the bank account statement to be different for each account, i.e. to continue to request a paper statement for the selected bank account(s) (HUF term deposit notice belonging to the HUF bank account can be used in the same way as the bank account statement – on paper or in electronic form).

In addition to the authenticated electronic bank account statement, a paper-based bank account statement may only be requested as a duplicate, to which the fee specified in the division Public Announcements in force at any given time shall apply. The authenticated electronic statement and term deposit notice can be downloaded and printed several times. The printed electronic document is not authentic.

The authenticated electronic bank account statement and the forint term deposit notice are available through the OTPdirekt Electra Terminal and / or the OTPdirekt internet service.

The availability of the bank account statement via the OTPdirekt internet service is guaranteed retrospectively for a minimum of 6 months. In the case of OTPdirekt Electra Terminal,

downloading of the statement is guaranteed for 6 months. As regards the content of the authenticated electronic statement is exactly the same as the paper-based bank account statement.

OTP Bank Plc. shall continue to hand over the paper-based documents on the postal payments attached to the bank account statement as before (within the framework of deposit box renting, withheld correspondence or by post).

The authenticated electronic bank account statement complies with the legal requirements, has an advanced electronic signature and a time stamp:

- a) Electronic invoice: an invoice generated in electronic form and transmitted electronically.
- b) Advanced electronic signature: an electronic signature that is
 - uniquely linked to the signatory,
 - capable of identifying the signatory,
 - created using electronic signature creation data that the signatory can, with a high level of confidence, use under his sole control,
 - linked to the data signed therewith in such a way that any subsequent change in the data is detectable.
- c) Time-stamp: data in electronic form which binds other data in electronic form to a particular time establishing evidence that the latter data existed at that time.

Brief summary of the technical requirements of the use of the service and the technical characteristics of the system used:

Format of the electronic document: The format of the electronic document is independent of the operating system and the device, therefore, according to preliminary surveys, OTP Bank Plc. supports downloading with the well-known and widely used Adobe® Reader®* downloadable from the Internet free of charge, which is one of the most suitable tools for visual presentation of the document and verification of the electronic signature and time stamp. Namely, from version 7 onwards, Adobe® Reader® is able to check and display the electronic signature(s) and time stamp of any pdf document with standard tools if the settings are correct (with or without attachments). PDF auditing and display is a generally accepted international practice, which is described in more detail, inter alia, at the following website of Adobe: <http://www.adobe.com/security/digsig.html>. The Client is also entitled to use other software suitable for displaying the pdf file and/or electronic signature. OTP Bank Plc. is not liable for any damages arising from the use of any software used by the Client.

Each electronic document has an xml attachment, which, as regards the format of which, meets the relevant requirements of the Hungarian National Tax and Customs Administration. This attachment also contains the details of the bank account statement, in the layout as detailed in the annex to the Public Announcement.

Retention period: OTP Bank Plc. retains the master copy of the authenticated electronic bank account statement – which is perfectly identical to the copies that can be downloaded by OTP Bank Plc.'s Clients – for the period specified in the applicable legislation. However, the authentication keys expire in a shorter time. However, statements with expired key remain documentary within the retention period, and the verification of the authenticity is ensured by the

time stamp placed at the time of signing. There are no “original” and “copy” duplicates of the authenticated electronic document, the copies kept by OTP Bank Plc. and OTP Bank Plc.’s Clients are identical. OTP Bank Plc.’s clients may save and archive the authenticated document in their own electronic administration systems without any restrictions. Within the online reporting period, the electronic document can be downloaded from the electronic interface provided. Outside of the online data reporting period, but within the retention period, OTP Bank Plc. provides the document to its clients on a case-by-case basis, offline (via a suitable data carrier) by charging the fee specified in the respective Division Public Announcements.
