a) assets subject to special rules because of their illiquidity:

The Fund's portfolio did not contain any assets subject to a special management rule due to their illiquidity, neither in the current nor in the previous period.

b) presentation of liquidity management arrangements

The Fund Manager has not entered into any new contractual arrangements on behalf of the Fund for the performance of liquidity management functions in relation to the Fund's portfolio, neither during the current period nor in the preceding period.

The Fund Manager generally maintains the liquidity of the Fund in liquid Hungarian government securities maturing within one year or in withdrawable fixed-term deposits, subject to the limits set out in the Management Regulations.

In the course of liquidity management, the Fund Manager examines funds with liquidity surpluses or liquidity deficits in order to reduce transaction costs and enters into market price sales transactions between the funds for the benefit or the detriment of their Hungarian government securities holdings. Thus, in the first instance, liquidity management is carried out between the funds managed by OTP Fund Management, mainly with discount Treasury bills. If there is then a net exposure remaining in the funds, further liquidity management transactions will be carried out with external counterparties by the Fund Manager in the form of market price transactions.

c) the current risk profile of the Fund and the risk management systems employed by the Manager to manage these risks

Information on the risk profile of the Fund is provided in the "Significant Risk Factors" and "Presentation of Risk Factors" chapters of the Fund's Prospectus and Management Regulations.

The Company's liquidity policy is designed in accordance with Articles 46-48 of Commission Delegated Regulation (EU) No 231/2013 of 19 December 2012 supplementing Directive 2011/61/EU of the European Parliament and of the Council as regards exemptions, general operating conditions, depositary, leverage, transparency and supervision (the "AIFM Regulation").

The Company's liquidity policy has been developed in accordance with Article 24 of the Government Decree 79/2014 (14.III.) on the organisational, conflict of interest, business conduct and risk management requirements for UCITS fund managers ("Decree 79/2014").
