Formula for calculating the EBKM, if term remaining to maturity is less than 365 days:

$$\text{Elhelyezett betét} = \sum_{i=1}^n \frac{(k + bv)i}{1 + r \times (t_i / 365)}$$

where

n: number of interest payments,

r: the EBKM value,

t_i: days remaining from day of placing the deposit to disbursement no. "i",

(k+bv)i: amount of interest disbursed and deposit repaid at disbursement no. "i".

Formula for calculating the EBKM, if term remaining to maturity is at least 365 days:

$$\text{Deposit placed} = \sum_{i=1}^n \frac{(k + bv) i}{(1 + r)^{(t_i / 365)}}$$

where

n: number of interest payments,

r: the EBKM value,

t_i: days remaining from day of placing the deposit to disbursement no. "i",

(k+bv)i: amount of interest disbursed and deposit repaid at disbursement no. "i".

Formula for calculating the EBKM, if the deposit is placed in multiple installments:

$$\sum_{i=1}^n \frac{B_i}{(1 + r)^{(t_i / 365)}} = \sum_{j=1}^m \frac{K_j}{(1 + r)^{(t_j / 365)}}$$

n: number of deposit installments,

B_i: amount of deposit installment no. "i",

t_i: days remaining from day of first deposit placement to deposit placement no. "i",

r: the EBKM value,

m: number of disbursements,

t_j: days remaining from day of first deposit placement to disbursement no. "j",

K_j: amount of disbursement no. "j".

The specific EBKM value is contained in the effective Public Announcement per scheme.

32. OTP Bank Plc. may require resolution by the city council that for the period of repaying the loan, in the years of the term, the requested credit, loan and its charges are scheduled and approved by the municipality in its budget, prior to other development expenses.

33. In the credit or loan agreement, instead of its payment account kept in HUF, the Client may designate its payment account kept with OTP Bank Plc. in foreign currency as account to be debited. The Client shall ensure that the funds necessary to settle the loan amount and its charges are available on the payment account kept in HUF or in foreign currency.

The Client shall indemnify OTP Bank Plc. for damages arising from performance which is not in line with the agreement, including repayment made at a time other than specified in the agreement.

If the use of a real estate is mixed, that is, it can be deemed as an Income-Generating Commercial Real Estate or a Residential Real Estate, the Client shall report it as separate pieces of real estate in its data reporting (based on the floor space intended to be used for each purpose for example), if this breakdown is practicable. In case the breakdown is not practicable for a mixed-use real estate, the Client shall classify it according to its dominant

use in its data reporting provided to the Bank. This paragraph shall not affect the Client's obligation to provide data to the Bank only in respect of Income-Generating Commercial Real Estate under these Business Regulations.

All real estate – either existing or under development – shall be deemed Income-Generating Commercial Real Estate if it has been acquired, built, developed or reconstructed by a non-natural person, and

IV.B. General conditions of agreements concluded as from 15 March 2014

1. Based on a credit agreement, for a fee, OTP Bank Plc. shall keep a credit facility available to the Client, and it shall conclude loan agreements or perform other credit transactions (e.g. bank guarantee, factoring, letter of credit) in HUF or foreign currency, from the date when the credit facility opens to the extent of the amount kept available, provided that the requirements specified in the credit agreement are met.

Based on the loan agreement, OTP Bank Plc. shall provide the amount specified in the loan agreement, and the Client shall repay the loan on a later date according to the loan agreement, and shall pay interest and other charges. The loan agreement may provide that the loan amount shall be paid within a certain period after the agreement is concluded, or when certain conditions are fulfilled. OTP Bank Plc. shall keep the loan amount at the disposal of the Client until the time specified in the loan agreement expires or condition is met, and the Client shall pay a fee to OTP Bank Plc. on the loan amount kept at its disposal for the period when the loan amount kept at its disposal.

OTP Bank Plc. shall provide foreign currency loan in the currencies specified in the Public Announcement, while the disbursement to the Client may occur in HUF or in foreign currency. 2. OTP Bank Plc. shall conclude credit and loan agreements based on the written credit application of the Client (in point IV.B of these Business Regulations, "credit application" refers to the request relating to both the credit agreement and the loan agreement), provided that OTP Bank Plc. assesses the Client to be creditworthy. Admittance of the credit

application by OTP Bank Plc. shall not be a commitment to conclude the credit or loan agreement, to disburse the loan, or to perform credit transactions, it shall only mean undertaking to proceed with the substantive assessment. Assessment of the credit application of MLE, Public Service and Municipality Clients shall be for a fee, the credit assessment fee shall be paid by the Client when submitting the credit application.

OTP Bank Plc. shall determine the aspects of assessing the creditworthiness of the Client at its own discretion, for Municipality Clients it shall also consider legal regulations applicable to municipalities.

4. For Municipality Clients, the municipality shall state that concluding the transaction giving rise to debt is not subject to the restriction provided for in Section 10 (3) of Act CXCV of 2011 on the Economic Stability of Hungary, except for loans with maturity within the calendar year.
5. In case of Municipality Clients, OTP Bank Plc. shall accept the obligation undertaken by the mayor (with financial countersignature of the person authorized by the financial lead or the notary) based on authorization according to a resolution of the city council.
6. The credit agreement or agreement on other credit transaction may be concluded, and a shorter or longer term credit (loan) relationship by concluding the loan contract may be established if the Client qualifies as creditworthy based on the assessment by OTP Bank Plc.
7. OTP Bank Plc. shall also monitor the creditworthiness of the Client during the contractual relationship on an ongoing basis. For the prior and ongoing assessment of creditworthiness, OTP Bank Plc. shall primarily use the information obtained by it during its business relationship with the Client, numeric and other data submitted to it regularly (financial statements, general ledgers, interim data provision, descriptive information, etc.), data retrievable from account keeping, the credit application and its annexes, as well as experience gained via on-site visits. The bank organisational unit assessing the credit application may request further information before its decision or for adopting its decision.
8. As a prerequisite of establishing the credit (loan) relationship, OTP Bank Plc. may require the Client to open a payment account with the bank and achieve a specified level of account turnover thereon.

Account turnover shall mean in respect of MSE Clients the total amount of items received (credited) to the payment accounts/accounts of the Client in the 10 full months from the month after the date of the credit agreement, not including crediting arising from disbursement of credits, book transfers between own accounts (including its security accounts and savings payment accounts), as well as from transferring back term deposits.

Annual account turnover shall mean in respect of MLE, Public Service and Municipality Clients the total amount of debit transactions subject to commission performed on the payment account(s) of the Client during the 12 months commencing on the date specified in the relevant agreement.

9. The credit agreement or agreement on other credit transaction, or the loan agreement is valid only if it is put down in writing. The agreement shall contain the method and conditions of using the credit or other financial service. If any material conditions may not be specified when concluding the credit agreement, the Parties shall specify those in the loan agreement or in a further credit transaction agreement based on the credit agreement.

OTP Bank Plc. may require the credit (loan) agreement as well as the associated security agreements to be recorded in a notarial document.

10. The credit agreement, loan agreement or credit transaction contract comes to existence when it has been signed by both OTP Bank Plc. and the Client in accordance with their representation authority.
11. The Client shall pay commitment fee at the rate specified in the credit or loan agreement for any amount kept at disposal based on the credit or loan agreement but not used. If the Client waives the further keeping at disposal of the amount in writing, the obligation to pay commitment fee shall cease, effective from the first working day after the waiving statement is received by OTP Bank Plc., to the extent of the amount waived.
12. While the credit is kept at disposal (provided that it fulfilled all (disbursement) conditions), based on the credit agreement and within the amount of the credit facility, the Client may conclude a credit transaction agreement or may use loan amounts based on the loan agreement, unless the credit (loan) agreement provides otherwise.
13. For the credit transactions performed under the credit or loan agreement, the Client shall pay interest, fees, commissions and other costs at the rate specified in the agreement, or, if those are not provided for specifically in the agreement, it shall pay the conditions included in the Public Announcements.
14. OTP Bank Plc. is entitled to modify interest rates, fees, costs (including specific amounts, lower and upper limits of the respective fees, costs as defined in the agreement), and other contractual conditions unilaterally, provided that it is justified by any
 - a) change, introduction, entry into force, entry into effect or repeal of any legislation, other legal measures of state control, legal instrument of the European Union, court or official decision or order, recommendation or guidance containing provisions applicable to the legal relationship of the Parties subject to the Business Regulations (including but not limited to all domestic or foreign legal act listed above which imposes any government tax on the services subject to this Business Regulations), or the official or court interpretation thereof, or
 - b) change of law governing or affecting the activity or conditions of operation of OTP Bank Plc., change of central bank regulation or other regulations mandatory for the bank, increasing of public dues (e.g. tax, duty) of the creditor, change of rules on required reserves, or

- c) change of interbank credit interest rates, central bank prime rate, central bank repo and deposit interest rates, consolidated or service-related consumer price index, change of money market fundraising options, change of capital market and money market interest rates, change of yield of securities publicly issued by the creditor bank, unfavorable relative movements of FX SWAP and other yield curves, raise of interest rates of OTP Bank Plc. client term deposits, change of the yield of government securities, of risk factors of investment credit, deferred financial performance and securities lending, of exchange rates applied for settlement of the transaction, of cost of funds for OTP Bank Plc., of costs of providing credit, proven change of costs incurred by OTP Bank Plc. determined by third parties in relation to services provided to the Client, or
- d) change of factors of the risk taken for the Client, according to bank client rating, cover assessment and risk taking policies with contents provided for by the law, including change of Client creditworthiness, of collateral value, as well as change of risk factors for certain credit products and of OTP Bank Plc. interest rate risk premium,
- e) market collapse occurs. Market collapse means any situation when, due to money market disturbances or other reasons not imputable to the bank, the interest base may not be determined, because the interest base is not available on the interest rate quotation date.

15.1. OTP Bank Plc. is entitled to initiate the amendment of the reference interest rate applied in respect of the contract if the quotation of the reference interest rate will be terminated in the future or its future applicability becomes impossible for any reason. In this case, OTP Bank Plc. recommends the alternative reference interest rate to be applied as well as the alternative margin – if it is justified by the economic balance of the contract – to the Client in writing. In case the Client does not accept the recommendation of OTP Bank Plc, or consultations regarding the alternative reference interest rate and the alternative margin have no result within 60 days upon the day OTP Bank Plc.'s recommendation was sent, OTP Bank Plc. is entitled to terminate the contract within 90 days upon the day OTP Bank Plc.'s recommendation was sent.

15.2. OTP Bank Plc. is entitled to unilaterally modify the reference interest rate and the margin applied in respect of the Agreement – by informing the Client – in a way that the amount of interest payable until maturity using the amended reference interest rate and margin always equals the amount of interest payable using the previous reference interest rate and margin.

16. Interest rates, fees, costs (including specific amounts, lower and upper limits of the respective fees, costs as defined in the agreement), and other contractual conditions may only be modified by OTP Bank Plc. unilaterally, to the detriment of the Client, if it is justified by the change of requirements or conditions specified for OTP Bank Plc. in point IV.B.14. of these Business Regulations.

The agreement may not be modified unilaterally so that any new fee or cost is introduced. The calculation method of the respective interest, fee or cost elements as defined in the agreement may not be modified unilaterally, to the detriment of the Client.

OTP Bank Plc. may also modify unilaterally the conditions of the agreement concluded with the Client, provided that it is not detrimental for the Client.

17. Publication of any agreement modifications by OTP Bank Plc. in relation to interest rates, fees, costs or other contractual conditions

- a) OTP Bank Plc. shall publish any modifications according to point IV.B.14. 15 days prior to their effective date at the latest, via Public Announcements posted on premises open for clients.
- b) For business policy reasons, any modification which is favorable for the Client may be made by OTP Bank Plc. to take effect immediately, by publishing in Public Announcements.

18. Automatic modification of fees or costs

- a) the fees, costs charged under the agreement (including the minimum and maximum limit of the fees and costs determined as a percentage rate) shall automatically be modified each year by the previous year annual consumer price index (inflation rate) published on the website of KSH (which name is "Központi Statisztikai Hivatal" in Hungarian) as from the 15th day of the month following the publication on the website (considering the mathematical rounding rules).

Rounding rules applied by OTP Bank:

- i. If fees, costs specified in HUF are
 1. fixed amounts, including minimum and maximum limits, they shall be rounded to integer,
 2. percentage rates, they shall be rounded to three decimal places.
 - ii. If fees, costs specified in foreign currency are
 1. fixed amounts, including minimum and maximum limits, they shall be rounded to two decimal places,
 2. percentage rates, they shall be rounded to three decimal places.
- b) If fees or costs of the service, transaction, financial instrument provided to the Client are modified by the third party contributing to performance, the fees and costs (e.g. postal costs) charged by OTP Bank Plc. shall be modified as from the date of the modification.

The rule on the 15 days prior notification of the Client does not apply to automatic modification of the fees or costs, OTP Bank Plc. shall notify Clients of the automatic modification on the date it occurs at the latest, by publishing a public announcement or a modification of its relevant public announcement.

For business policy reasons, OTP Bank Plc. may deviate from the automatic fee and cost modification, and may apply fees and costs which are more favourable for the Client.

Furthermore, if in any year OTP Bank Plc. did not apply the automatic modification of costs and fees in respect of the Client, it is entitled to apply automatically the unapplied automatic modification of costs and fees in any one subsequent year or several subsequent years (in a cumulative manner) in the existing legal relationships with the Client.

OTP Bank Plc. shall notify Clients of any automatic modification of fees or costs via Public Announcements posted on premises open for clients (or by other direct means as defined in the agreement).

19. If OTP Bank Plc. introduces new services, financial instruments, transactions subject to the Business Regulations, which are made available by it to the Client and are explicitly accepted by the Client, this does not qualify as unilateral agreement modification.
20. OTP Bank Plc. shall dispatch written notifications and other documents to the address provided by the Client for this purpose. OTP Bank Plc. shall not be required to dispatch documents for the Client as registered mail or mail with return receipt.
21. If the credit, loan, interest, commissions, fees and other costs are paid late, OTP Bank Plc. may charge default interest as specified in the agreement or the public announcements.
22. Unless the credit or loan agreement provides otherwise, interest, commissions, fees and other costs charged by OTP Bank Plc. shall be due posteriorly, on the last working day of the calendar month.

Start date of charging the interest is the date of disbursement of the loan (other credit), last date is the day preceding the crediting of the last repayment installment.

Interest, commitment fee and other fees depending on a time period are calculated based on the following formula:

$$\frac{\text{principal (credit (loan) amount) x number of calendar days x interest rate}}{360 \text{ days}^* \times 100}$$

*For GBP (English pound) credits, it is calculated with 365-day calendar year, while in other cases with 360-day calendar year.

If the last repayment installment is due during the month, settlement of the related interest and other charges shall also be due on the maturity date, unless the credit or loan agreement provides otherwise.

23. If the Client used the loan only partially, and the loan is to be repaid in multiple installments according to the agreement, the unused amount shall be deducted from the last repayment installment(s), unless agreed otherwise.
24. In case of prepayment, the Client shall notify its prepayment intention at least 15 days in advance in writing (precisely specifying the repayment value date and amount) to the branch having provided the credit. Prepayment qualifies as agreement modification, and OTP Bank Plc. may charge agreement modification fee.

Unless the agreement provides otherwise, the Client may terminate the credit agreement concluded for an indefinite term in writing with 15 days notice. Such termination of the credit agreement shall not terminate the agreements concluded based on the credit agreement, but the obligation of OTP Bank Plc. to keep a credit facility at disposal shall cease. A credit agreement concluded for a definite term may be terminated by the Client and the Bank with mutual agreement.

Unless the agreement provides otherwise, the Client may terminate the loan agreement in writing with 15 days notice, if before the termination it has fulfilled all its obligations to OTP Bank Plc. arising from the loan agreement.

25. If the amount received on the credit account of the Client via transfer or cash desk payment exceeds the amount of the obligation due from credit or other banking service, OTP Bank Plc. shall record the excess amount until the next due date separately as overpayment, and shall credit that on the credit account on the next due date considering the rules of the Civil Code. The Client may request crediting before the due date in writing, according to the conditions regarding agreement modification and prepayment.

If due to lack of funds on the account designated for fulfilling obligations, OTP Bank Plc. needs to submit collection order based on authorization letter for other account(s), and as a result the collected amount exceeds the amount of obligation due from credit or other banking service, OTP Bank Plc. shall credit the difference in all cases in HUF currency on the payment account of the Client kept with OTP Bank Plc. In the absence of an account kept with OTP Bank Plc., it shall transfer it back to the account kept with another financial service provider, from which the highest amount was collected.

If deposit is received to the already terminated credit account of the Client, after withholding the obligation due from credit or other banking service, OTP Bank Plc. shall credit the remaining amount on the payment account of the Client kept with OTP Bank Plc. In the absence of an account kept with OTP Bank Plc., it shall transfer it back to the account kept with another financial service provider, from which the transfer was received.

26. The Client may request to modify (prolong) the maturity of the loan, if necessitated by the development of its financial situation. Application for the modification shall be submitted sufficient time (minimum 30 working days) before maturity, so that OTP Bank Plc. has sufficient time to assess the feasibility of the application and to adopt a decision. For the prolongation, OTP Bank Plc. may charge the fee shown in the effective Public Announcement applicable to the respective clientele.

27. Upon establishing and during the business relationship, OTP Bank Plc. may at any time and with respect to any of its receivables, irrespective of the conditions and due date of the Client's liabilities, require the Client to provide security or supplement any security already provided to the extent necessary to ensure the recovery of the receivables of OTP Bank Plc. When requiring security, OTP Bank Plc. may decide on the value at which it shall accept each security. The Client shall immediately arrange for the provision of security when prompted by OTP Bank Plc.

28. Types of securities, provisions regarding value assessment

28.1 OTP Bank Plc. may decide at its own discretion, considering also the options available for the Client, the securities it requires regarding the respective transaction.

OTP Bank Plc. may debit the costs of value assessment to the payment account of the Client kept by it.

The value assessment cost is contained in the effective Public Announcement of OTP Bank Plc.

28.4

OTP Bank Plc. shall only accept any value assessment prepared by third party valuers other than OTP Jelzálogbank Zrt. after naturalization by OTP Jelzálogbank Zrt.

Instead of value assessment or naturalization, the Client may request the validation of the value assessment prepared by a third party valuator, in which case it agrees that the valuation/value established based on the validation may influence the amount and/or conditions of risk assumed by the Bank.

The market value and credit collateral value of the real estate considered to be authoritative by OTP Bank Plc. is the value assessed during validation/naturalization by OTP Jelzálogbank Zrt. If OTP Jelzálogbank Zrt. does not consider the value assessment prepared by a third party valuator to be appropriate for using it for validation/naturalization, then a new value assessment shall be prepared which is done by OTP Jelzálogbank Zrt.

Naturalization is a full scope professional valuation opinion prepared by OTP Jelzálogbank Zrt. with the application of on-site inspection, using a value assessment prepared by a third party valuator other than OTP Jelzálogbank Zrt.

Validation is commenting in a simplified procedure by OTP Jelzálogbank Zrt. on a value assessment prepared by a third party valuator other than OTP Jelzálogbank Zrt. without the application of on-site inspection. The naturalization / validation cost shall be borne by the Client, and is contained in the effective Public Announcement of OTP Bank Plc. OTP Bank Plc. may debit the naturalization / validation costs to the payment account of the Client kept by it.

28.5

Updating the value assessment for residential real estate:

Residential real estate is a real estate (or ownership thereof) established for flat and registered or pending to be registered as residential house or flat in the land registry, with the associated parcel of land, provided that a use permit has been issued for it.

An exception to this rule is the financing for purchase of real estate sold at an auction, in which case OTP Bank Plc. shall accept the value assessment for 12 months.

If 90 days have elapsed from the date of the on-site inspection performed during the value assessment, and subsequently

- a) the pledge agreement regarding the security is concluded between the Client and OTP Bank Plc.,
- b) the valuated supplementary security is included,
- c) the valuated securities are exchanged, released,

then prior to these events OTP Bank Plc. may require the value assessment to be updated by OTP Jelzálogbank Zrt. The cost of updating shall be borne by the Client.

If the Client and OTP Bank Plc. conclude another transaction with inclusion of the valuated real estate as security after 90 days have elapsed from the date of the on-site inspection performed during the value assessment, but within 12 months, then OTP Bank Plc. may require the value assessment to be updated by OTP Jelzálogbank Zrt. prior to concluding the transaction. The cost of updating shall be borne by the Client. When assessing the assumption of new risk, an existing comprehensive value assessment can be accepted for 12 months from the date the document was issued in case of credit transactions for the sale of agricultural land.

If the value assessment is not updated within 12 months from the date of the on-site inspection performed during the value assessment (or, in case of auctioned real estate, the related value assessment is older than 12 months), then afterwards OTP Bank Plc. shall not accept either the original value assessment or its update, but shall require performance of a new, full scope value assessment. The cost of this shall be borne by the Client.

The cost of updating is contained in the effective Public Announcement of OTP Bank Plc. OTP Bank Plc. may debit the cost of updating to the payment account of the Client kept by it.

If 12 months have elapsed from the date of the on-site inspection performed during the value assessment, and subsequently

- a/ the pledge agreement regarding the security is concluded between the Client and OTP Bank Plc.,

- b/ the valuated supplementary security is included,
- c/ the valuated securities are exchanged, released,

then prior to these events OTP Bank Plc. may require the value assessment to be updated by OTP Jelzálogbank Zrt. The cost of updating of the value assessment shall be borne by the Client.

If the Client and OTP Bank Plc. conclude another transaction with inclusion of the valuated real estate as security after 12 months have elapsed from the date of the on-site inspection performed during the value assessment, but within 36 months, then OTP Bank Plc. may require the value assessment to be updated by OTP Jelzálogbank Zrt. prior to concluding the transaction. The cost of updating of the value assessment shall be borne by the Client.

If the value assessment is not updated within 36 months from the date of the on-site inspection performed during the value assessment, then afterwards OTP Bank Plc. shall not accept either the original value assessment or its update, but shall require performance of a new, full scope value assessment, the cost of which shall be borne by the Client.

The cost of updating is contained in the effective Public Announcement of OTP Bank Plc. OTP Bank Plc. may debit the cost of updating to the payment account of the Client kept by it.

28.7 OTP Bank Plc. requires revision of the value of immovable assets during the term of real estate pledge (monitoring). For commercial real estate, revision of the value assessment (monitoring) shall mean, as considered from the date of the on-site inspection,

- a) simplified revision performed annually,
- b) full scope revision performed every three years,
- c) as well as extraordinary comprehensive revision performed in extraordinary cases (including without limitation the situation when significant changes occur on the real estate market, or when based on information available to OTP Bank Plc. the value of the real estate has decreased significantly as compared to the average market price)

in respect of the real estate.

The annual revision of the value of commercial real estate is performed in a value assessment based on a simplified on-site inspection, while full scope revisions means that the original value assessment is repeated completely.
