

NOTICE

Pursuant to the Business Rules of the corporate division, for corporate clients
of OTP Bank Plc on the "FATCA (Foreign Account Tax Compliance Act)"
agreement
concluded between Hungary and the United States of America and
promulgated
in Act XIX of 2014

Effective from: 1 January 2023
Published: 1 January 2023

Pursuant to the agreement concluded between the governments of Hungary and the United States of America (hereinafter: USA) on 4 February 2014 and promulgated on 15 May 2014 (hereinafter: "Agreement"), both countries commit to ensure that the financial institutions (banks, investment service providers, insurers etc.) registered in each country supply data each year on their clients and their accounts that are tax residents of the other country under its own laws.

It is the purpose of FATCA to reduce tax evasion of US citizens and to be able to levy taxes on their savings kept abroad and the yield thereof. Hungary has undertaken to implement the FATCA Regulation.

For the purposes of this notice, "Withholdable Payment" means any fixed or determinable annual or periodical gains, profits and income that is from sources within the United States, including but not limited to the following payments: interest, dividends, rents, salaries, wages, premiums, annuities, compensations, remunerations, emoluments.

US tax resident account holders

Pursuant to the above, in Hungary such a Legal Entity or other organisation is considered a US tax resident, which:

- was established in the United States, has a registered seat in the United States, has a US TIN (Taxpayer Identifying Number) (Specified US Person), or
- was established in Hungary or abroad, but whose beneficial owner is a US Tax Resident natural person (any natural person is considered a US Tax Resident who is a citizen or a resident of the United States).

Documents to be submitted to certify non-US tax residence

If the account holder does not dispose of data suggesting US Tax Residence by the above or is a non-US tax resident, no document other than the declaration on tax residence needs to be submitted.

If the account holder is registered in the USA and is considered a Specified US Person or its beneficial owner is a US Tax Resident and conducts passive activity, their declaration may only be reportable or declining until they prove the opposite by providing documents.

Non-US Tax Residence may be certified with official documents issued by any nominated state authority (such a government, office, self-government) containing the client's name and either the address of their registered seat in a jurisdiction (or the Dependent Territories of the United States) where - according to the information of the client - they are resident, or a jurisdiction (or the Dependent Territories of the United States), where the client was established or incorporated.

In the case of US Tax Residence of the beneficial owner the submission of the documents as contained in the notice "For private individuals (natural persons, individual entrepreneurs, prime producers) on the "FATCA (Foreign Account Tax Compliance Act)" agreement concluded between Hungary and the United States of America and promulgated in Act XIX of 2014" is required.

Formal requirements regarding documents

The declaration of the client as a private document providing conclusive evidence may be submitted to the bank by post (regardless of whether the client is staying in Hungary or abroad):

Pertaining to the formal requirements of the documents regarding US Tax Residence of the beneficial owner, the rules as set forth in the notice "**For private individuals (natural persons, individual entrepreneurs, prime producers) on the "FATCA (Foreign Account Tax Compliance Act)" agreement concluded between Hungary and the United States of America and promulgated in Act XIX of 2014"**" shall be observed.

At the submission of any other document serving as proof of non-US residence of the client, the system of requirements as set forth in the General Business Rules of the Bank shall be observed.

In the case of clients staying outside the territory of Hungary, the Bank may require the client to submit a public document, a document endorsed with an Apostille clause or an authentic document certified by a notary public or the authority of the Embassy of Hungary.
