15 May 2026

SOCIETE GENERALE

as Issuer and Guarantor
(incorporated in France)

and

SG ISSUER

as Issuer
(incorporated in Luxembourg)

Debt Instruments Issuance Programme

For guidance on using this Base Prospectus and navigating between the different sections hereof, please refer to the "*Base Prospectus - User Guide*" section of this Base Prospectus (which is intended to assist investors in review of this Base Prospectus but which should nevertheless be read in conjunction with the other sections of this Base Prospectus).

Under the Debt Instruments Issuance Programme (the **Programme**), each of Societe Generale and SG Issuer (each an **Issuer** and together the **Issuers**) may from time to time issue Notes (the **Notes**) denominated in any currency agreed by the Issuer of such Notes (the **relevant Issuer**) and the relevant purchaser(s).

This document constitutes a base prospectus (the **Base Prospectus**) and has been approved by the Luxembourg *Commission de Surveillance du Secteur Financier* (the **CSSF**) which is the Luxembourg competent authority for the purposes of Regulation (EU) 2017/1129, as amended (the **Prospectus Regulation**). The CSSF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation and such approval shall not be considered as an endorsement of the Issuers, the Guarantor and of the quality of the securities that are the subject of this Base Prospectus. The CSSF gives no undertaking as to the economic and financial soundness of the Notes issued under the Programme or the quality or solvency of the Issuers, in accordance with the provisions of Article 6(4) of the Luxembourg act on prospectuses for securities dated 16 July 2019, as amended. Such approval does not extend to money market instruments (as defined in the Prospectus Regulation) having a maturity of less than one year or to Notes (which are not publicly offered) to be admitted to trading on the Euro MTF (as defined below).

Application has also been made to the Luxembourg Stock Exchange for Notes issued under the Programme to be admitted to trading on (i) the Luxembourg Stock Exchange's regulated market and to be listed on the Official List of the Luxembourg Stock Exchange and (ii) the multilateral trading facility Euro MTF of the Luxembourg Stock Exchange (the **Euro MTF**). The regulated market of the Luxembourg Stock Exchange is a regulated market for the purposes of the Markets in Financial Instruments Directive 2014/65/EU of 15 May 2014 (as amended, **MiFID II**) (a **Regulated Market**).

The Euro MTF is not a Regulated Market and accordingly the CSSF is not the competent authority for the approval of this Base Prospectus in connection with Notes issued under the Programme which are admitted to trading on the Euro MTF, but the Euro MTF is subject to the supervision of the CSSF. The CSSF has neither reviewed nor approved any information in this Base Prospectus pertaining to Notes admitted to trading on the Euro MTF. The CSSF therefore assumes no responsibility in relation to the issues of Notes admitted to trading on the Euro MTF.

Notes issued under the Programme may also be unlisted or listed and admitted to trading on any other market, including any other Regulated Market in any Member State of the EEA and/or offered to the public in any Member State of the EEA. The applicable Final Terms in respect of the issue of any Notes will specify whether or not such Notes will be listed and admitted to trading on any market and/or offered to the public in any Member State of the EEA and, if so, the relevant market.

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, and the issue price of Notes which are applicable to each issuance (as defined in the General Terms and Conditions of the Notes) of Notes will be set out in a final terms document (the **Final Terms**) which (except in the case of Exempted Swiss Public Offer Note or Exempt Offer Note) (all as defined in the sections entitled "General Terms and Conditions of the English Law Notes", "General Terms and Conditions of the French Law Notes" and "General Terms and Conditions of the Swiss Law Notes") will be delivered to the CSSF.

This Base Prospectus has been approved on 15 May 2026 and is valid until 15 May 2027 and must during such period and in accordance with Article 23 of Regulation (EU) 2017/1129, as amended, be completed by a supplement to the Base Prospectus in the event of any new significant factors, material mistakes or material inaccuracies. The obligation to supplement the Base Prospectus in

the event of significant new factors, material mistakes or material inaccuracies does not apply when the Base Prospectus is no longer valid.

This Base Prospectus will be filed with SIX Exchange Regulation Ltd (prospectus office) as competent review body under the Swiss Financial Services Act (the "**FinSA**") for automatic acceptance of this Base Prospectus as an issuance prospectus in accordance with article 54(2) of the FinSA. The CSSF has neither reviewed nor approved any information in this Base Prospectus pertaining to Notes listed on SIX Swiss Exchange.

The Notes and any guarantee thereof have not been and will not be registered under the United States Securities Act of 1933, as amended (the **Securities Act**) or under the securities law of any state or political sub-division of the United States, and trading in the Notes has not been approved by the Commodity Futures Trading Commission (the **CFTC**) under the United States Commodity Exchange Act of 1936, as amended (the **CEA**). No person has registered and no person will register as a "commodity pool operator" of any Issuer under the CEA and the rules thereunder (the **CFTC Rules**) of the CFTC, and no Issuer has been and no Issuer will be registered as an investment company under the United States Investment Company Act of 1940, as amended, and the rules and regulations thereunder (the **Investment Company Act**). Other than with respect to certain U.S. Exempt Securities (as defined herein), the Notes are being offered and sold in reliance on an exemption from the registration requirements of the Securities Act pursuant to Regulation S thereunder (**Regulation S**).

Accordingly, except for U.S. Exempt Securities (as defined herein), the Notes may only be offered, sold, pledged or otherwise transferred in an "offshore transaction" (as defined under Regulation S) to or for the account or benefit of a person who (a) is not (i) a U.S. person as defined in Regulation S (Regulation S U.S. Person) unless the applicable Final Terms specify that a U.S. person as defined in paragraph 7701(a)(30) of the Internal Revenue Code of 1986 (IRS U.S. Person) is also applicable, or (ii) if in the case of SGI Index Linked Notes, Advised SGI Index is applicable or if in the case of Portfolio Linked Notes, Dynamic Portfolio is applicable, a person who is either a Regulation S U.S. Person or an IRS U.S. Person unless the applicable Final Terms specify that only a Regulation S U.S. Person is applicable; (b) is not a person who comes within any definition of U.S. person for the purposes of the CEA or any CFTC Rule, guidance or order proposed or issued under the CEA (for the avoidance of doubt, any person who is not a "Non-United States person" defined under CFTC Rule 4.7(a)(1)(iv), but excluding, for purposes of subsection (D) thereof, the exception for qualified eligible persons who are not "Non-United States persons", shall be considered a U.S. person), and (c) is not a "U.S. person" for purposes of the final rules implementing the credit risk retention requirements of Section 15G of the U.S. Securities Exchange Act of 1934, as amended (the **U.S. Risk Retention Rules**) (a **Risk Retention U.S. Person**) (such a person or account as described herein, a **Permitted Transferee**).

With the exception of U.S. Exempt Securities, the Notes are available only to Permitted Transferees. Certain issues of English Law Notes, or as the case may be, Swiss Law Notes, of Societe Generale (**U.S. Exempt Securities**), as specified in the applicable Offering Circular (as defined below), may be offered and sold only (a) in offshore transactions to non-U.S. persons in reliance upon Regulation S under the Securities Act, and/or (b) to qualified institutional buyers (**QIBs**) acting for their own account or for the account of one or more QIBs, in each case, in reliance upon Rule 144A under the Securities Act. No issues of Notes issued by SG Issuer will be U.S. Exempt Securities. Information specific to any issue of U.S. Exempt Securities (including information on the form of the Notes and applicable selling and transfer restrictions) shall be set out in an offering circular supplementing this Base Prospectus (**Offering Circular**) in connection with the offer and sale of such U.S. Exempt Securities.

In case of any issue of U.S. Exempt Securities, all references herein to "Final Terms" shall include, or be interpreted to mean, the applicable Offering Circular.

THE NOTES OFFERED HEREBY HAVE NOT BEEN AND WILL NOT BE REGISTERED WITH, OR APPROVED BY, ANY UNITED STATES FEDERAL OR STATE SECURITIES OR COMMODITIES COMMISSION OR REGULATORY AUTHORITY. FURTHERMORE, THE FOREGOING AUTHORITIES HAVE NOT PASSED UPON OR ENDORSED THE MERITS OF THIS OFFERING OR THE ACCURACY OR ADEQUACY OF THIS BASE PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.

U.S. Treasury regulations issued under Section 871(m) of the U.S. Internal Revenue Code of 1986 (the **Section 871(m) Regulations**) generally impose a 30% withholding tax on dividend equivalents paid or deemed paid (within the meaning of the relevant Section 871(m) Regulations) to a non-United States holder (a **Non-U.S. Holder**) with respect to certain financial instruments linked to U.S. equities or indices that include U.S. equities (**U.S. Underlying Equities**). Specifically, and subject to special rules from 2017 through 2026 set out in Notice 2024-44 (the **Notice**), the Section 871(m) Regulations will generally apply to Notes issued on or after 1 January 2017 that substantially replicate the economic performance of one or more U.S. Underlying Equities as determined by the Issuers on the date for such Notes as of which the expected delta of the product is determined by the Issuers based on tests in accordance with the applicable Section 871(m) Regulations (for the purposes of the Notice, such Notes are deemed "delta-one" instruments) (the **Specified Notes**). A Note linked to U.S. Underlying Equities which the Issuer has determined not to be a Specified Note will not be subject to withholding tax under Section 871(m) Regulations. Investors are advised that the Issuer's determination is binding on all Non-U.S. Holders of the Notes, but it is not binding on the United States Internal Revenue Service (the **IRS**) and the IRS may therefore disagree with the Issuer's determination.

The applicable Final Terms will specify if the Notes are Specified Notes, and, if so, whether the relevant Issuer or its withholding agent will withhold tax under Section 871(m) Regulations and the rate of the withholding tax. Investors should note that if the Issuer or any withholding agent determines that withholding is required, neither the relevant Issuer nor the withholding agent will be required to gross up any amounts withheld in connection with a Specified Note. Investors should consult their tax adviser regarding the potential application of Section 871(m) Regulations to their investment in the Notes.

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the jurisdiction in which the Notes are transferred or other

jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for financial instruments such as the Notes. Potential investors are advised to consult their own tax adviser on the tax impacts of the acquisition, holding, disposal and redemption of the Notes. The requirement to pay such taxes may reduce the effective yield on the Notes and may also have an adverse impact on their value.

MiFID II PRODUCT GOVERNANCE/TARGET MARKET – The Final Terms in respect of any Notes may include a legend entitled "MiFID II product governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under Commission Delegated Directive 2017/593 (EU) (the "**MiFID II Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID II Product Governance Rules.
For the avoidance of doubt, the Issuer is not a MiFID regulated entity and does not qualify as a distributor or a manufacturer under the MiFID II Product Governance Rules.

UK MiFIR product governance / target market – The Final Terms in respect of any Notes may include a legend entitled "UK MiFIR product governance" which will outline the target market assessment in respect of the Notes, and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the **UK MiFIR Product Governance Rules**) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

Notification under Section 309B(1)(c) of the Securities and Futures Act 2001 of Singapore, as modified or amended from time to time (the **SFA)** – Unless otherwise stated in the Final Terms in respect of any Notes, in connection with Section 309B of the SFA and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the **CMP Regulations 2018**), the relevant Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309(A)(1) of the SFA), that the Notes are capital markets products other than prescribed capital markets products (as defined in the **CMP Regulations 2018**) and Specified Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

Use of Terms under Section 309C(1) of the SFA – In connection with Section 309C(1) of the SFA, any reference to "capital protected" or "principal protected" (or any related terms or derivative of such terms) in this Base Prospectus shall have no effect on any products offered or sold in Singapore and shall be replaced with "principal repayment at maturity.

GENERAL DESCRIPTION OF THE PROGRAMME

The following description does not purport to be complete and is taken from, and is qualified in its entirety by, this Base Prospectus and, in relation to the Terms and Conditions of any particular ***Tranche of Notes,*** *the applicable Final Terms.*
The following description constitutes a general description of the Programme for the purposes of Article 25(1) of Commission Delegated Regulation (EU) No 2019/980 as amended implementing the Prospectus Regulation.

Words and expressions defined in the sections headed "General Terms and Conditions of the English Law Notes" or, as the case may be, "General Terms and Conditions of the French Law Notes" or, as the case may be, "General Terms and Conditions of the Swiss Law Notes" shall have the same meanings in this general description.

Hyperlinks of websites referred to in the Base Prospectus are exclusively for information purposes and must not be regarded as part of the Base Prospectus itself, unless the information to which they refer is incorporated by reference in the Base Prospectus.

- SG Issuer
Issuer Legal Entity Identifier (LEI): 549300QNMDBVTHX8H127

Guarantor
Societe Generale

Arranger
Societe Generale

Dealers
Societe Generale, SG Option Europe and any other Dealers appointed in accordance with the Programme Agreement.

Listing Agent, Principal Paying Agent, Registrar, Transfer Agent and Exchange Agent
Societe Generale Luxembourg S.A.

Paying Agents
Societe Generale (Paris); Societe Generale, Paris, Zurich Branch; Societe Generale, New York Branch; Societe Generale Luxembourg S.A.; Societe Generale, Sucursal en España; Societe Generale Securities Services S.p.A.; Computershare Investor Services (Jersey) Limited (for Notes cleared with Euroclear UK & Ireland Limited); and/or any such additional or successor paying agent appointed in accordance with the General Terms and Conditions of the English Law Notes , the General Terms and Conditions of the French Law Notes and the General Terms and Conditions of the Swiss Law Notes.

The Issuers may appoint or (as the case may be) maintain an additional paying agent in each jurisdiction where Uncertificated Notes are registered and, if appropriate, for so long as any Uncertificated Notes are listed on the Luxembourg Stock Exchange, the Issuers will maintain a paying agent with a specified office in Luxembourg, all as specified in the applicable Final Terms.

In respect of EUI Notes, the Issuers may appoint or (as the case may be) maintain an additional paying agent in the United Kingdom.

In respect of Swiss law governed Uncertificated SIS Notes and Bearer SIS Notes, and other Notes listed on SIX Swiss Exchange, Societe Generale, Paris, Zurich Branch shall act as Principal Swiss Paying Agent, together with further additional Swiss Paying Agents which may be specified in the applicable Final Terms.

2. DESCRIPTION

Debt Instruments Issuance Programme

Notes issued under the Programme are intended to constitute "non-equity securities", within the meaning of Article 2(c) of the Prospectus Regulation.

3. METHOD OF DISTRIBUTION

Notes may be distributed to qualified investors and/or non-qualified investors, and in each case on a syndicated or non-syndicated basis. For ETP linked Notes and ETF linked Notes for which the Underlying ETP or ETF is referencing Cryptocurrency Assets, such Notes may not be distributed to retail investors other than well-informed investors. “Well-informed investors” are defined as institutional investors, professional investors and investors who have confirmed in writing that they adhere to the “well-informed” investor status, and who either invest a minimum of EUR 100,000 in securities linked to virtual assets or have been the subject of an assessment made by a credit institution within the meaning of Regulation (EU) No 575/2013, by an investment firm within the meaning of MiFID II, by a management company within the meaning of Directive 2009/65/EC or by an authorised alternative investment fund manager

within the meaning of Directive 2011/61/EU, certifying the investor's expertise, experience and knowledge in adequately appraising an investment in securities linked to virtual assets.

Notes may be offered at a price as specified in the applicable Final Terms which:

(a) will be the Issue Price or the Issue Price of which up to a maximum amount specified in the applicable Final Terms, represented by a distribution fee payable upfront by the Issuer to the distributors; or

(b) will be the market price which will be determined by the Dealer on a daily basis (and, as the case may be, in accordance with market conditions then prevailing including the current market price of the Underlying(s)); provided that the Dealer may determine that, for the predetermined period immediately after the Issue Date, as specified in the applicable Final Terms, will be the Issue Price and/or will evolve between the Issue Date and the last day of the Offer Period on a linear basis in such way specified in the applicable Final Terms on the last day of the Offer Period and will be provided by the Dealer to any Noteholders upon request; or

(c) will be fully subscribed by the Dealer and thereafter offered to the public in the secondary market in France, at the Issue Price, during the Offer Period; or

(d) will evolve between dates specified in the applicable Final Terms in order to reach a specific maximum level on a specific date, in accordance with the following formula:

Offer Price (t) = OfferPriceBase x (1 + ConvergencePercentage x Nb(t) / 360)

Where:

OfferPriceBase means a number specified in the applicable Final Terms;

Offer Period means the period specified in the applicable Final Terms;

ConvergencePercentage means a percentage specified in the applicable Final Terms; and

Nb(t) means the number of calendar days between the Issue Date and the date "t" on which the value of the Notes is calculated (both dates included);or

(e) will evolve between dates specified in the applicable Final Terms, in accordance with a predetermined schedule and providing for each relevant period together with its relevant offer price.

(f) will be determined by the Dealer on a continuous basis in accordance with the market conditions then prevailing and depending on market conditions, the offer price shall be equal to, higher or lower than the Issue Price; or

(g) will be provided by the Dealer by way of quotes made available in the market specified in the applicable Final Terms,

and which, in all cases, may be increased by such fees, if any, as disclosed in the applicable Final Terms.

4. CURRENCIES

The payment obligations in respect of any Notes may be in any currency or currencies agreed between the Issuer and the relevant Dealer, subject to compliance with any applicable laws and regulations.

Payments in respect of Notes may, subject to compliance as aforesaid, be made in and/or linked to, any currency or currencies other than the currency in which the Notes are denominated.

5. ISSUE PRICE

Notes may be issued on a fully-paid or a partly-paid basis and at an issue price (expressed either (i) as a percentage of the Aggregate Nominal Amount or (ii) as an amount per Note of the relevant Specified Denomination) which is at par or at a discount to, or premium over, par (as specified in the applicable Final Terms).

6. REDEMPTION

The applicable Final Terms for Notes other than Eligible Notes, will indicate either that the Notes cannot be redeemed prior to their stated maturity (other than in specified instalments, if applicable, or for taxation reasons, regulatory reasons, an administrator/benchmark event, a force majeure event or following an Event of Default or in the event of an optional outstanding Notes trigger call or, in relation to Secured Notes only, following the occurrence of a Collateral Disruption Event) or that such Notes (if Physical Delivery Notes) may be settled at maturity or otherwise by receipt by the holder(s) of a cash amount and/or by delivery of the relevant Deliverable Assets or that such Notes will be redeemable at the option of the relevant Issuer and/or the Noteholders upon giving not less than thirty nor more than forty five days' irrevocable notice (or such other notice period (if any) as indicated in the applicable Final Terms) to the Noteholders or the relevant Issuer, as the case may be, on a date or dates specified prior to such stated maturity and at a price or prices and on such terms as may be agreed between the Issuer and purchaser(s) as indicated in the applicable Final Terms.

The applicable Final Terms may provide that Notes may be redeemable in two or more instalments of such amounts and on such dates as indicated in the applicable Final Terms.

Eligible Non Structured Notes and Eligible Structured Notes which are issued by Societe Generale only, may only be early redeemed upon the occurrence of a Tax Event or Special Tax Event or a MREL Disqualification Event, or at the option of the Issuer, as specified in the applicable Final Terms.

Notwithstanding the above, redemption, purchase or cancellation of Eligible Notes prior to their Maturity Date will be subject to the prior written permission of the Relevant Resolution Authority.

The Notes may also be redeemed early following the occurrence of certain disruption, adjustment, extraordinary or other events linked to the Underlying assets.

7. MATURITIES OF THE NOTES

Any maturity as indicated in the applicable Final Terms subject to such minimum or maximum maturities as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Issuer or the relevant Specified Currency.

Notes issued by SG Issuer having a maturity of less than one year from the date of issue are subject to certain restrictions on their denomination and distribution (see the paragraph "*Certain Restrictions – Notes having a maturity of less than one year*" below).

8. REDENOMINATION / CONVERSION OF CURRENCY AND/OR CONSOLIDATION

The applicable Final Terms may provide that certain Notes may be redenominated in/converted into euro. The relevant provisions applicable to any such redenomination/conversion are contained in the General Terms and Conditions of the English Law Notes, in the General Terms and Conditions of the French Law Notes and in the General Terms and Conditions of the Swiss Law Notes.

Notes denominated in a currency that may be redenominated/converted into euro may be subject to consolidation with other Notes denominated in euro.

9. STATUS OF THE NOTES

Notes issued by Societe Generale will constitute direct, unconditional, unsecured and unsubordinated obligations of Societe Generale ranking as Senior Preferred Obligations (the **Senior Preferred Notes**).

Senior Preferred Notes, including where applicable any related Coupons, will constitute direct, unconditional, unsecured and senior obligations of the Issuer ranking at all times as senior preferred obligations (as provided for in Article L. 613-30-3-I-3° of the French *Code monétaire et financier* (the **Code**)):

(i) pari passu with:

(a) all direct, unconditional, unsecured and senior obligations of Societe Generale outstanding as of the date of entry into force of the Law on 11 December 2016; and

(b) all present or future senior preferred obligations (as provided for in Article L. 613-30-3-I-3° of the Code) of Societe Generale issued after the date of entry into force of the Law on 11 December 2016;

(ii) junior to all present or future claims of Societe Generale benefiting from statutorily preferred exceptions; and

(iii) senior to all present or future:

(a) senior non-preferred obligations (as provided for in Article L. 613-30-3-I-4° of the Code) of Societe Generale;

(b) subordinated obligations and deeply subordinated obligations of Societe Generale.

In the event any judgment is rendered by any competent court declaring the judicial liquidation of Societe Generale or Societe Generale is liquidated for any other reason:

- the rights of payment of the holders of Senior Preferred Notes and, where applicable, any related Coupons shall be subordinated to the payment in full of all present or future holders of, or creditors in respect of, claims benefiting from statutory preferred exceptions (**Preferred Creditors**); and

- subject to such payment in full, the holders of Senior Preferred Notes and, where applicable, any related Coupons shall be paid in priority to any present or future holders of, or creditors in respect of, obligations referred to in (iii) above; and

- in the event of incomplete payment of Preferred Creditors, the obligations of Societe Generale in connection with the Senior Preferred Notes and, where applicable, any related Coupons will be terminated.

The holders of Senior Preferred Notes and, where applicable, any related Coupons shall be responsible for taking all necessary steps for the orderly accomplishment of any such liquidation of Societe Generale in relation to any claims they may have against Societe Generale.

Notes issued by SG Issuer (other than Secured Notes) will constitute direct, unconditional, unsecured and unsubordinated obligations of SG Issuer.

Secured Notes will be issued by SG Issuer only.

The provisions relating to Secured Notes are more fully described in the section "*Additional Terms and Conditions relating to Secured Notes*".

10. EVENTS OF DEFAULT

For Eligible Notes that are issued by Societe Generale only, the Noteholders will not be able to accelerate the maturity of such Notes upon the occurrence of an Event of Default.

11. CERTAIN RESTRICTIONS

Each issue of Notes denominated in a currency in respect of which particular laws, guidelines, regulations, restrictions or reporting requirements apply will only be issued in circumstances which comply with such laws, guidelines, regulations, restrictions or reporting requirements in full force (see "*Subscription, Sale and Transfer Restrictions*") including the following restrictions applicable at the date of this Base Prospectus.

Notes having a maturity of less than one year

Notes issued by SG Issuer having a maturity of less than one year will, if the proceeds of the issue are accepted in the United Kingdom, constitute deposits for the purposes of the prohibition on accepting deposits contained in Section 19 of the FSMA unless they are issued to a limited class of professional investors and have a denomination of at least £100,000 or its equivalent, see "*Subscription, Sale and Transfer Restrictions*".

Under the Luxembourg act dated 16 July 2019 on prospectuses for securities (the **Luxembourg Prospectus Act**), which implements the Prospectus Regulation, prospectuses relating to money market instruments having a maturity at issue of less than twelve months and complying with the definition of securities (as defined in the Prospectus Regulation) do not constitute a prospectus for the purposes of the Prospectus Regulation.

12. TYPE OF NOTES

No debt securities that are exchangeable or convertible into shares (under Article 19 of Commission Delegated Regulation (EU) 2019/980) will be issued under this Base Prospectus.

Under the current regimes, any benchmark to which a Note refers will be provided by an administrator included in the FCA's register of administrators in accordance with Article 36 of Regulation (EU) 2016/1011, as amended, as it forms part of domestic law by virtue of the EUWA (the **UK Benchmarks Regulation**).

Fixed Rate Notes

Fixed rate interest will be payable on such date(s) as indicated in the applicable Final Terms and on redemption and will be calculated on the basis of such Day Count Fraction as may be agreed between the relevant Issuer and the relevant Dealer(s) as indicated in the applicable Final Terms.

Partly Paid Notes

The Issue Price of Partly Paid Notes will be payable in more than one instalment.

Partly Paid Notes may not be redenominated and can only be sold back to Societe Generale.

While any part payments of the subscription moneys due from the holder of Partly Paid Notes are overdue, no interest in a Temporary or Permanent Global Note representing such Notes may be exchanged for Definitive Bearer Notes.

If any Noteholder fails to pay any part payment due on any Partly Paid Notes within the time specified, the relevant Issuer may have a right to redeem such Notes if so specified, and on the terms set out, in the applicable Final Terms.

Arrangements have been put in place for potential investors to be informed of the essential characteristics of Partly Paid Notes, including (without limitation) the partly paid feature and the potential consequences for investors of failing to pay outstanding instalments.

Floating Rate Notes

Floating Rate Notes will bear interest at a rate determined (i) on the same basis as the floating rate under a notional interest rate swap transaction in the relevant Specified Currency governed by an agreement evidenced by a confirmation incorporating the 2021 ISDA Definitions (as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series) or (ii) on the basis of a reference rate appearing on an agreed screen page of a commercial quotation service.

The margin (if any) relating to such floating rate will be agreed between the relevant Issuer and the relevant Dealer(s) for each issue of Floating Rate Notes and specified in the applicable Final Terms.

Floating Rate Notes may also have either a minimum interest rate or a maximum interest rate or both.

Interest will be calculated on the basis of such Day Count Fraction as may be agreed between the relevant Issuer and the relevant Dealer(s) as indicated in the applicable Final Terms.

Physical Delivery Notes

Payments in respect of Physical Delivery Notes (whether in respect of principal and/or interest and whether at maturity or otherwise and whether fully or partially) and any delivery of any Deliverable Asset(s) in respect of Physical Delivery Notes will be made in accordance with the terms of the applicable Final Terms, subject always to applicable securities laws.

Zero Coupon Notes

Zero Coupon Notes will not bear interest other than in the case of late payment.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Where the relevant Issuer has the right to effect such a conversion, this will affect the secondary market and the market value of the Notes since the relevant Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing.

Dual Currency Notes

Payments in respect of Dual Currency Notes (whether in respect of principal and/or interest and whether at maturity or otherwise) will be made in such currency or currencies, and based on such rate or rates of exchange, as the relevant Issuer and the relevant purchaser(s) may agree (as indicated in the applicable Final Terms).

Other provisions in relation to Floating Rate Notes and Structured Notes

Floating Rate Notes and Structured Notes may also have a maximum interest rate, a minimum interest rate or both, or be subject to a rate multiplier, in each case as set forth in the applicable Final Terms.

13. TYPE OF STRUCTURED NOTES

Structured Notes

Structured Notes will provide investors with an exposure to one or more Underlyings. Payments of any amounts in respect of Structured Notes will be calculated by reference to such Underlying. Item "Type of Structured Notes" of the applicable Final Terms will specify the relevant type of Underlying of the Structured Notes. Any Structured Note may be exposed to more than one Underlying, in which case more than one type of Structured Note will be specified. For each such Underlying and type of Note, the relevant Additional Terms and Conditions will apply. The application of such Additional Terms and Conditions will also be specified in item "Type of Structured Notes" of the applicable Final Terms.

The applicable Final Terms will specify the relevant Underlying and state where information on the relevant Underlying, in particular on its past and future performance and on its volatility, can be found and whether or not the relevant Issuer intends to provide further information on the Underlying.

Each type of Underlying for Structured Notes is further described below.

Share Linked Notes and Depositary Receipts Linked Notes

Payments in respect of Share Linked Notes and Depositary Receipts Linked Notes will be calculated by reference to one or more shares or depositary receipts as agreed between the relevant Issuer and the relevant Dealer(s) and specified in the applicable Final Terms. Share Linked Notes and Depositary Receipts Linked Notes may also provide for redemption by physical delivery of the Deliverable Asset(s) as set out in the Additional Terms and Conditions for Share Linked Notes and Depositary Receipts Linked Notes. Share Linked Notes and Depositary Receipts Linked Notes may be subject to early redemption or adjustment if certain corporate events, delisting, merger or de-merger, nationalisation or insolvency occur, all as more fully described in the Additional Terms and Conditions for Share Linked Notes and Depositary Receipts Linked Notes.

Index Linked Notes

Payments of principal and/or of interest at maturity or otherwise in respect of Index Linked Notes will be calculated by reference to the performance of one or more Indices as the relevant Issuer and the relevant Dealer(s) may agree and as indicated in the applicable Final Terms.

Index Linked Notes may be subject to early redemption or adjustment as more fully described in the Additional Terms and Conditions for Index Linked Notes.

Index Linked Notes are linked to the performance of an index that is not composed by the relevant Issuer. In accordance with the Commission Delegated Regulation (EU) No 2019/980 as amended, the applicable Final Terms contains the name of the Index and an indication of where to obtain information about the index.

SGI Index Linked Notes

Payments of principal and/or of interest at maturity or otherwise in respect of SGI Index Linked Notes will be calculated by reference to one or more Societe Generale Indices as the relevant Issuer and the relevant Dealer(s) may agree and as indicated in the applicable Final Terms.

SGI Index Linked Notes may be subject to early redemption or adjustment as more fully described in the Additional Terms and Conditions for SGI Index Linked Notes.

SGI Index Linked Notes are linked to the performance of an index that is composed by Societe Generale or any other legal entity belonging to the Societe Generale group (an **SGI Index**).

As at the date of this Base Prospectus, the administrator of the SGI Indices, Societe Generale, is included in the register of administrators and benchmarks established and maintained by European Securities and Markets Authority (**ESMA**) pursuant to Articles 34 and 36 of the current Regulation (EU) 2016/1011 (the **EU Benchmarks Regulation**).

In respect of the description of each SGI Index, this Base Prospectus contains in the section *"Description of Societe Generale Indices ("SGI Indices")"* in accordance with Commission Delegated Regulation (EU) No 2019/980 as amended, an index description including the essential characteristics to enable an investor to fully understand the index and its dynamics and make an informed assessment.

It should be noted that additional SGI Indices may be used as underlyings following the publication of a supplement in accordance with the provisions of Article 23 of the Prospectus Regulation, containing an index description of such additional Indices.

ETF Linked Notes

Payments in respect of ETF Linked Notes will be calculated by reference to one or more exchange traded funds as agreed between the relevant Issuer and the relevant Dealer(s) and specified in the applicable Final Terms. Subject to applicable laws and regulations, ETF Linked Notes may also provide for redemption by physical delivery of the Deliverable Asset(s) as set out in the Additional Terms and Conditions for ETP Linked Notes and for ETF Linked Notes. ETF Linked Notes may be subject to early redemption or adjustments, all as more fully described in the Additional Terms and Conditions for ETP Linked Notes and for ETF Linked Notes.

ETP Linked Notes

Payments in respect of ETP Linked Notes will be calculated by reference to the performance of one or more exchange trade products as the relevant Issuer and the relevant Dealer(s) may agree and as indicated in the applicable Final Terms. ETP Linked Notes may also provide for redemption by physical delivery of the Deliverable Asset(s) as set out in the Additional Terms and Conditions for ETP Linked Notes and for ETF Linked Notes. ETP Linked Notes may be subject to early redemption or adjustment as more fully described in the Additional Terms and Condition for ETP Linked Notes and for ETF Linked Notes.

Reference Rate Linked Notes

Payments in respect of Reference Rate Linked Notes will be calculated by reference to one or more reference rate as agreed between the relevant Issuer and the relevant Dealer(s) and specified in the applicable Final Terms.

Reference Rate Linked Notes may be subject to early redemption or adjustment as more fully described in the Additional Terms and Conditions for Reference Rate Linked Notes.

Foreign Exchange Rate Linked Notes

Payments in respect of Foreign Exchange Rate Linked Notes will be calculated by reference to one or more foreign exchange rate as agreed between the relevant Issuer and the relevant Dealer(s) and specified in the applicable Final Terms.

Foreign Exchange Rate Linked Notes may be subject to early redemption or adjustment as more fully described in the Additional Terms and Conditions for Foreign Exchange Rate Linked Notes.

Commodity Linked Notes

Payments in respect of Commodity Linked Notes will be calculated by reference to one or more commodities and/or commodity indices as agreed between the relevant Issuer and the relevant Dealer(s) and specified in the applicable Final Terms.

Commodity Linked Notes may be subject to early redemption or adjustment as more fully described in the Additional Terms and Conditions for Commodity Linked Notes.

Fund Linked Notes

Payments in respect of Fund Linked Notes will be calculated by reference to units, interests or shares in a single fund or basket of funds on such terms as may be agreed between the relevant Issuer and the relevant Dealer(s) and specified in the applicable Final Terms. Subject to applicable laws and regulations, Fund Linked Notes may also provide for redemption by physical delivery of the Deliverable Asset(s) as set out in the Additional Terms and Conditions for Fund Linked Notes.

Fund Linked Notes may be subject to early redemption or adjustment, as applicable, or if certain corporate events occur, all as more fully described in the Additional Terms and Conditions for Fund Linked Notes.

Credit Linked Notes

Payments in respect of Credit Linked Notes will be linked to the credit, and possibly the CDS spread, of a specified entity or entities and will be issued on such terms as may be agreed between the relevant Issuer and the relevant Dealer(s) and specified in the applicable Final Terms.

In the event of the occurrence of certain circumstances (which may include, amongst other things, Bankruptcy, Failure to Pay, Obligation Acceleration, Obligation Default, Repudiation/Moratorium or Restructuring) in relation to a Reference Entity or, with respect to Basket Notes and Tranche Notes, Reference Entities, in each case as specified in the applicable Final Terms, the obligation of the relevant Issuer to pay principal at maturity, may be replaced by (i) an obligation to pay other amounts which are equal to either certain fixed amount(s) as specified in the applicable Final Terms or amounts calculated by reference to the value of the Deliverable Asset(s) (which may, in each case, be less than the par value of the Notes at the relevant time) and/or (ii) an obligation to deliver the Deliverable Asset(s), all as more fully described in the Additional Terms and Conditions for Credit Linked Notes. In addition, interest-bearing Credit Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstances.

Credit Linked Notes may be subject to early redemption or adjustment as more fully described in the Additional Terms and Conditions for Credit Linked Notes.

Inflation Linked Notes

Payments in respect of Inflation Linked Notes will be calculated by reference to inflation indices as agreed between the relevant Issuer and the relevant Dealer(s) and specified in the applicable Final Terms.

Inflation Linked Notes may be subject to early redemption or adjustment as more fully described in the Additional Terms and Conditions for Inflation Linked Notes.

Bond Linked Notes

Payments in respect of Bond Linked Notes will be linked to the credit of a specified obligation (the "Bond" as specified in the applicable Final Terms) issued by a specified issuer (the "Bond Issuer" as specified in the applicable Final Terms) and will be issued on such terms as may be agreed between the relevant Issuer and the relevant Dealer(s) and specified in the applicable Final Terms.

In the event of the occurrence of certain circumstances (which may include, amongst other things, Bond Acceleration, Bond Default, Bond Failure to Pay or Bond Restructuring) in relation to a Bond or Bonds (with respect to Basket of Bond Linked Notes) in each case as specified in the applicable Final Terms, the obligation of the relevant Issuer to pay principal at maturity may be replaced by (i) an obligation to pay other amounts which are equal to either certain fixed amount(s) as specified in the applicable Final Terms or amounts calculated by reference to the value of the underlying assets (which may, in each case, be less than the par value of the Notes at the relevant time). In addition, interest-bearing Bond Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstances.

Bond Linked Notes may be subject to early redemption or adjustment as more fully described in the Additional Terms and Conditions for Bond Linked Notes.

Non Equity Security Linked Notes

Payments in respect of Non Equity Security Linked Notes will be calculated by reference to one or more non equity securities or futures contracts thereon as agreed between the relevant Issuer and the relevant Dealer(s) and specified in the applicable Final Terms. Non Equity Security Linked Notes may be subject to early redemption or adjustment, as more fully described in the Additional Terms and Conditions for Non Equity Security Linked Notes.

Future Linked Notes

Payments in respect of Future Linked Notes will be calculated by reference to one or more future contracts as agreed between the relevant Issuer and the relevant Dealer(s) and specified in the applicable Final Terms. Future Linked Notes may be subject to early redemption or adjustments, as more fully described in the Additional Terms and Conditions for Future Linked Notes.

Portfolio Linked Notes

Payments in respect of Portfolio Linked Notes will be calculated by reference to a portfolio of underlyings as the relevant Issuer and the relevant Dealer(s) may agree and as indicated in the applicable Final Terms.

Portfolio Linked Notes may also provide for redemption by physical delivery of the Deliverable Asset(s) as set out in the Additional Terms and Conditions for Portfolio Linked Notes. Portfolio Linked Notes may be subject to early redemption or adjustment as more fully described in the Additional Terms and Condition for Portfolio Linked Notes.

Dividend Linked Notes

Payments in respect of Dividend Linked Notes will be calculated by reference to dividends linked to one or more shares, depositary receipts and/or indices as agreed between the relevant Issuer and the relevant Dealer(s) and specified in the applicable Final Terms. Dividend Linked Notes may be subject to early redemption or adjustment as more fully described in the Additional Terms and Conditions for Dividend Linked Notes.

Preference Share Linked Notes

The redemption Amount payable in respect of Preference Share Linked Notes will be calculated by reference to the performance of a single specified preference share of the Preference Share Issuer as agreed between the relevant Issuer and the relevant purchaser(s) and specified in the applicable Final Terms. Preference Share Linked Notes may be subject to early redemption as more fully described in the Additional Terms and Conditions for Preference Share Linked Notes.

Warrant Linked Notes

The redemption amount payable in respect of Warrant Linked Notes will be calculated by reference to the performance of warrants issued by the Warrants Issuer as agreed between the relevant Issuer and the relevant purchaser(s) and specified in the applicable Final Terms.
Warrant Linked Notes may be subject to early redemption as more fully described in the Additional Terms and Conditions for Warrant Linked Notes.

Sustainable Notes

Use of proceeds

The net proceeds from each issue of Notes by Societe Generale will be used for the general financing purposes of the Group.
If in respect of any particular issue of Notes, an amount equivalent to the net proceeds of the issue will be applied to finance or refinance, in whole or in part, loans and investments (such assets being the **Eligible Green Assets** or **Eligible Social Assets**, together, the **Eligible Assets**) that meet the eligibility criteria for the Eligible Green Categories and/or Eligible Social Categories, as defined in the sustainable financing framework of the Issuer, as amended and supplemented from time to time (the **Framework**), such use will be stated in the Final Terms of such Notes (the **Sustainable Notes**).

RISK FACTORS

The discussion below is of a general nature and is intended to describe various risk factors associated with an investment in the Notes. You should carefully consider the following discussion of risks, and any risk factors included in the information incorporated by reference herein.

The Issuers and the Guarantor believe that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the failure of the relevant Issuer or the Guarantor to pay interest (if any), principal or other amounts on or in connection with any Notes may occur or arise for other reasons which may not be considered significant risks by the Issuers or the Guarantor based on information currently available to them or which they may not currently be able to anticipate.

Words and expressions defined elsewhere in this Base Prospectus shall have the same meanings when used in this section.

In each category of Risk Factors, the most material risk factors are listed in a manner that is consistent with each Issuer's assessment of the materiality of the risk factors, based on the probability of their occurrence and the expected magnitude of their negative impact.

1. RISKS RELATING TO THE GROUP

1.1 Risks related to the global macroeconomic, geopolitical, market and regulatory environments

These risks are detailed on pages 160 to 164 of the 2026 Universal Registration Document, both incorporated by reference (see Section "Information Incorporated by Reference").

1.2 Credit and counterparty credit risks

These risks are detailed on pages 165 and 166 of the 2026 Universal Registration Document incorporated by reference (see Section "Information Incorporated by Reference").

1.3 Market and structural risks

These risks are detailed on pages 166 and 167 of the 2026 Universal Registration Document incorporated by reference (see Section "Information Incorporated by Reference").

1.4 Non-financial risks (including operational) risks and model risks

These risks are detailed on pages 169 to 171 of the 2026 Universal Registration Document incorporated by reference (see Section "Information Incorporated by Reference").

1.5 Liquidity and funding risks

These risks are detailed on page 168 of the 2026 Universal Registration Document incorporated by reference (see Section "Information Incorporated by Reference").

1.6 Other risks

These risks are detailed on page 172 of the 2026 Universal Registration Document incorporated by reference (see Section "Information Incorporated by Reference").

2. RISKS RELATING TO THE ISSUERS AND THE GUARANTOR

2.1 Factors that may affect Societe Generale's ability, as Issuer or Guarantor, to fulfil its obligations under the Notes

In case of Notes issued by Societe Generale, if Societe Generale defaults or goes bankrupt, the Noteholders may suffer a partial or total loss of the amount invested. If Societe Generale is subject to measures in respect of the regulations relating to the statutory bail-in mechanism (bail-in), their debt may be reduced to zero, converted into equity (shares) or debt securities or undergo a maturity postponement. Their investment is not covered by any guarantee or compensation system. Societe Generale's credit ratings are an assessment of its ability to honour its commitments. Consequently, any actual or anticipated downgrading of Societe Generale's credit ratings may affect the market value of the Notes.

Societe Generale unconditionally and irrevocably guarantees the payment of all amounts due under the Notes by SG Issuer and as a result the Noteholders are exposed to the credit risk of Societe Generale as Guarantor. Societe Generale's credit ratings are an assessment of its ability to honour its commitments. Consequently, any actual or anticipated downgrades of Societe Generale's credit ratings may affect the market value of the Notes.

Even though Senior Preferred Notes that are issued only by Societe Generale are senior to the Senior Non-Preferred Obligations of Societe Generale, they may still be exposed to potential losses as a result of the resolution of Societe Generale in accordance with the applicable resolution law (Senior Preferred Notes and Senior Non Preferred Obligations are defined in Condition 2 of the English Law Notes, of the French Law Notes and of the Swiss Law Notes).

2.2 Factors that may affect SG Issuer's ability, as Issuer, to fulfil its obligations under the Notes

In case of Notes issued by SG Issuer, SG Issuer's activity consists *inter alia* in issuing debt securities and the funds collected are systematically deposited with Societe Generale in the form of either term loans or swap contracts and pursuant to which SG Issuer will receive from Societe Generale the amounts due under the Notes. SG Issuer's ability to make payments under the Notes will therefore depend primarily on the performance of its obligations by Societe Generale under such hedging transactions entered into between SG Issuer and Societe Generale.

If SG Issuer defaults or goes bankrupt, as a result of the limited recourse clause on SG Issuer, included in the terms and conditions of the Notes, the Noteholders have no recourse against SG Issuer and any amount due and unpaid by SG Issuer must be claimed against Societe Generale as Guarantor.

If the resolution authorities take structural bail-in measures in accordance with the regulations relating to the recovery and resolution of credit institutions and investment firms, against securities issued by Societe Generale or SG Issuer (statutory bail-in) or against structured securities of Societe Generale (contractual bail-in) then the investment of the Noteholders may be reduced to zero, converted into equity (shares) or debt securities or be subject to a maturity postponement and in such case the obligations of Societe Generale as Guarantor shall be adjusted to such reduction, conversion or postponement. Their investment is not covered by any guarantee or indemnity system.

2.3 Information in relation with the lack of independence of each Issuer and, as the case may be, the Guarantor - Conflict of interest

Societe Generale will act as issuer under the Programme, as the Guarantor of the Notes issued by SG Issuer, as Calculation Agent and also as provider of hedging instruments to each Issuer. As a result, investors will be exposed not only to the credit risk of Societe Generale but also to operational risks arising from the lack of independence of Societe Generale, in assuming its duties and obligations as the Guarantor, Calculation Agent and provider of the hedging instruments. Whilst compliance procedures require effective segregation of duties and responsibilities between the relevant divisions within the Guarantor, the possibility of conflicts of interest arising cannot be wholly eliminated.

The Group provides a full array of capital market products and advisory services worldwide including the issuance of "structured securities" where the amounts due under the Notes are linked to the performance of underlying assets, and may possess or acquire material and/or confidential information about the underlying assets and/or the reference entities which is not public knowledge and which are or could be important to the Notes.

Such business activities and such material and/or confidential information may cause consequences adverse to the Noteholders. The Issuers, the Guarantor and any other member of the Group have no obligation to disclose such information about such underlying assets or the obligors to which they relate or the reference entities.

The Calculation Agent, the Arranger, the Dealers, the Paying Agents, the Registrar, the Transfer Agent and the Exchange Agent may be all part of the Group. A deterioration of Societe Generale's credit risk would have a negative impact on the obligations of each of the entities listed above in relation to the Notes. If one of these entities does not respect its obligations towards the relevant Issuer and/or the Guarantor, this could have a negative impact on the value of the Notes and the Noteholders may therefore lose part or all of their investment in the Notes.

2.4 French Insolvency Law

Societe Generale is a société anonyme with its corporate seat in France. In the event that Societe Generale becomes insolvent, insolvency proceedings will be generally governed by the insolvency laws of France to the extent that, where applicable, the "centre of main interests" (as construed under Regulation (EU) 2015/848, as amended) of Societe Generale is located in France. The Directive (EU) 2019/1023 on preventive restructuring frameworks, on discharge of debt and disqualifications, and on measures to increase the efficiency of procedures concerning restructuring, insolvency and discharge of debt, and amending Directive (EU) 2017/1132 has been transposed into French law by the Ordonnance 2021-1193 dated 15 September 2021. Such ordonnance, applicable since 1st October 2021, amends French insolvency laws notably with regard to the process of adoption of restructuring plans under insolvency proceedings. According to this ordonnance, "affected parties" (including notably creditors, and therefore the Noteholders) shall be treated in separate classes which reflect certain class formation criteria for the purpose of adopting a restructuring plan. Classes shall be formed in such a way that each class comprises claims or interests with rights that reflect a sufficient commonality of interest based on verifiable criteria. Noteholders will no longer deliberate on the proposed restructuring plan in a separate assembly, meaning that they will no longer benefit from a specific veto power on this plan. Instead, as any other affected parties, the Noteholders will be grouped into one or several classes (with potentially other types of creditors) and their dissenting vote may possibly be overridden by a cross-class cram down.

Both the scopes of the Directive (EU) 2019/1023 and the ordonnance do not cover financial institutions, unless the competent authority chooses to make them applicable. In such a case, the application of French insolvency law to a credit institution as Societe Generale is also subject to the prior permission of the Autorité de contrôle prudentiel et de résolution before the opening of any safeguard, judicial reorganisation or liquidation procedures. This limitation will affect the ability of the Noteholders to recover their investments in the Notes.

Should such proceedings be opened, the commencement of insolvency proceedings against Societe Generale would have a material adverse effect on the market value of the Notes issued by Societe Generale. As a consequence, any decisions taken by a class of

affected parties could negatively and significantly impact the Noteholders and cause them to lose all or part of their investment, should they not be able to recover all or part of the amounts due to them from the Issuer.

2.5 Risk relating to the Issuer substitution

Societe Generale or SG Issuer may be replaced by each other or (with respect to English Law Notes only) by any subsidiary or any other third party as principal obligor in respect of the Notes without the consent of the relevant Noteholders; provided certain conditions are satisfied (*inter alia* no withholding tax triggered by the substitution, guarantee by Societe Generale to be maintained as the case may be). Any such substitution may impact the value of the Notes and consequently the Noteholders may lose part or all of their investment in the Notes.

2.6 Risks of interruption or malfunction of Societe Generale information and communication systems due to cyber criminality

Societe Generale and SG Issuer rely largely on Societe Generale's group information and communication systems to carry out their businesses. Any interruption or malfunction in the security of Societe Generale's systems, which could be caused in particular by a breakdown or operational failure of its financial intermediaries or external service providers which it uses to carry out or facilitate its securities operations or by malicious and/or fraudulent acts using digital means to reach data, data treatments and data users and constituting a cybercrime, could lead to malfunctions or interruptions in Societe Generale Group's information and communication. Even if the Societe Generale's group has developed means aiming at preventing the occurrence of such events, these risks cannot be totally excluded. If such interruptions, malfunctions, malicious and/or fraudulent acts occurred, Societe Generale and/or SG Issuer might not be able to perform its obligations under the Notes or might perform them only partly. In those cases, pursuant to the General Terms and Conditions of the Notes, Societe Generale and/or SG Issuer, upon notification to the Noteholders, would suspend the performance of its obligations without this constituting an event of default and without interest accruing on the Notes. Consequently, investors may lose part or all of their investment in the Notes.

2.7 Risk relating to the applications of international financial sanctions

Economic or financial sanctions, trade embargoes or similar measures (the "Sanctions") may be enacted, administered or enforced by the United Nations, the United States of America, the United Kingdom or the European Union (or any present or future member state thereof) (or by any agency of any of above mentioned) against countries, entities and/or individuals. Sanctions usually aim at prohibiting payments to be made to the relevant countries, entities and/or individuals, and as such may affect the capacity of the Issuers, the Guarantor, the paying agents and/or the clearing systems to effectuate the payments due under the Notes in whole or in part. The Sanctions may be different from one of the jurisdictions or organizations mentioned above to another, they may have an extra territorial effect. The way of complying with the Sanctions also largely rely on the interpretation made by the authorities in charge of the implementation of these Sanctions. In that context, pursuant to the General Terms and Conditions of the Notes, Societe Generale and/or SG Issuer, upon notification to the Noteholders, would suspend the performance of its obligations without this constituting an event of default and without interest accruing on the Notes. Consequently, investors may lose part or all of their investment in the Notes.

3. RISKS RELATED TO THE NOTES

3.1 Risks related to the characteristics of the Notes
3.1.1. Risks linked to Notes including a risk of capital loss

For Notes which include a risk of capital loss, the redemption value of such Notes may be less than the amount initially invested. In a worst case scenario, investors may lose their entire investment. Moreover, regardless of the level of the capital protection, the investor may lose part or all of the initially invested amount, if the Notes are sold by the investor before the maturity date.

3.1.2 Risks linked to Notes offering a full capital protection at maturity date

For Notes which offer a full capital protection (100%) of the Specified Denomination at maturity date, the investor may, however, lose part or all of the initially invested amount if the Notes are sold by the investor before the maturity date (since the value of the Notes during their lifetime may be lower than the amount of the capital protection due to market fluctuations).

3.1.3 Notes issued by Societe Generale that are Eligible Notes

The qualification of Notes issued by Societe Generale as Eligible Notes is subject to uncertainty

The Notes issued by Societe Generale specified in the applicable Final Terms as Eligible Notes are intended to be eligible liabilities available to meet the MREL Requirements as the case may be (all as defined in Condition 2 of the English Law Notes, of the French Law Notes and of the Swiss Law Notes) (the **"Eligible Notes"**). If they are not Eligible Notes (or if they initially are Eligible Notes and subsequently become ineligible due to a change in the criteria required from eligible liabilities available to meet the MREL Requirements), then a MREL Disqualification Event as the case may be will occur and the Notes may be subject to early redemption subject to the Relevant Resolution Authority's written permission and as a result, investors may lose part of or their entire investment.

Risks linked to the absence of events of default with respect to Eligible Notes issued by Societe Generale

For Eligible Notes, the Noteholders will not be able to accelerate the maturity of such Notes. Accordingly, if Societe Generale fails to meet any obligations under such Notes, investors will not have the right of acceleration of principal and accrued interests. Upon a payment default, the sole remedy available to Noteholders and, where applicable, Couponholders for recovery of amounts due in respect of any payment of principal or interest on such Notes will be the institution of judicial proceedings to enforce such payment. Notwithstanding the foregoing, the Issuer will not, by virtue of the institution of any such proceedings, be obliged to pay any sum or sums sooner than the initially scheduled due date but with a potential further deterioration of its financial situation until then. Therefore, the liquidity and market value of the Notes may be adversely affected and investors who sell Notes on the secondary market could lose all or part of their investment.

There is a significant degree of regulatory uncertainty regarding the potential occurrence of a MREL Disqualification Event affecting Eligible Notes

A MREL Disqualification Event will apply in respect of Eligible Notes, as further described in Condition 2 and Condition 6.2.5 of the English Law Notes, of the French Law Notes and of the Swiss Law Notes).

The Capital Requirements Regulation II and the BRRD II (as defined below) give effect to the total loss-absorbing capacity (**TLAC**) Term Sheet published by Financial Stability Board (**FSB**) and modify the minimum requirements for own funds and eligible liabilities (MREL) and TLAC eligibility. Whilst there are a number of similarities between the MREL requirements and the FSB's final principles regarding TLAC, there are certain differences. Societe Generale is currently unable to predict whether all or part of the Eligible Notes may cease to comply with the minimum requirements for own funds and eligible liabilities and/or total loss absorbing capacity requirements applicable to Societe Generale and/or the Societe Generale Group and thus be excluded fully or partially from the MREL Requirements.

A change in the classification of the Notes under the MREL Requirements, that was not reasonably foreseeable by Societe Generale at the Issue Date of the Notes, and that would be likely to result in or has resulted in the Notes being fully or partially excluded from the eligible liabilities available to meet the MREL Requirements could result in a MREL Disqualification Event. The occurrence of such MREL Disqualification Event may have a material adverse effect on the value of the Eligible Notes and Noteholders may receive less than the full amount due under such Notes.

3.1.4 Notes subject to optional redemption by the Issuer

The Final Terms may specify that Notes can be subject to an early redemption which can be triggered at the Issuer's sole discretion either on certain predefined dates or at any time during the life of the Notes. The possibility of an early redemption of the Notes at the Issuer's discretion may limit the market value of such Note. Before or during each period during which the Issuer may elect to redeem the Notes, their market value will not rise substantially above their redemption price for Notes and the Noteholders will not benefit from the subsequent performance of the underlying(s).

Notwithstanding the above, for Eligible Notes, the redemption, purchase or cancellation prior their Maturity Date will be subject to the prior permission of the Relevant Resolution Authority.

3.1.5 Notes subject to automatic redemption

The Final Terms may specify that the Notes can be subject to an automatic redemption for Notes if the level of the underlying(s) becomes higher than, equal to or below one or more predefined level(s) on either predefined dates or at any time during the life of the Notes. As a result, for those Notes when the level of the underlying(s) reaches the predefined level(s), the Noteholders will not benefit from the performance of the underlying(s) subsequent to such event.

3.1.6 Early redemption at the option of the Issuer following a Tax Event, Special Tax Event, Regulatory Event, an Administrator/Benchmark Event or Force Majeure Event or for a decrease in issuance size, a MREL Disqualification Event

The applicable Final Terms of Notes other than Eligible Notes, will indicate either that the Notes cannot be redeemed prior to their stated maturity (other than in specified instalments, if applicable, or for taxation reasons, regulatory reasons, an administrator/benchmark event, a force majeure event or following an Event of Default or in the event of an optional outstanding Notes trigger call or, in relation to Secured Notes only, following the occurrence of a Collateral Disruption Event) or that such Notes will be redeemable at the option of the relevant Issuer and/or the Noteholders upon giving not less than thirty nor more than forty five days' irrevocable notice (or such other notice period (if any) as indicated in the applicable Final Terms) to the Noteholders or the relevant Issuer, as the case may be, on a date or dates specified prior to such stated maturity and at a price or prices and on such terms as may be agreed between the Issuer and purchaser(s) as indicated in the applicable Final Terms.

Eligible Non Structured Notes which are issued by Societe Generale only, may only be early redeemed upon the occurrence of a Tax Event, Special Tax Event or a MREL Disqualification Event, or at the option of the Issuer, as specified in the applicable Final Terms.

This could result in Noteholders receiving an early redemption amount which may be lower than the amount initially invested (regardless of the level of capital protection at maturity, if any) and being redeemed earlier than they had anticipated and the Noteholders will not benefit from the performance of the underlying asset(s) subsequently to such event.

The early redemption of Eligible Notes may not occur if the Relevant Resolution Authority refuses to give its permission, and if so, the market value of the relevant Eligible Notes may be affected negatively, and investors may incur losses in respect of their investments in such Notes.

3.1.7 Risks related to adjustment, substitution or cancellation of the Notes

The Terms and Conditions of the Notes give the Calculation Agent a certain discretion to determine whether any event(s) affecting the Notes or the underlying(s) has occurred in accordance with such Terms and Conditions. The Calculation Agent also has certain discretion in order to determine the consequences thereof for the Notes, the underlying(s) or the hedging transactions, including determination of the price of the underlying(s) and the choice between (a) mechanisms to adjust or substitute the underlying(s), (b) the deduction of the increase in the cost of hedging of any amount due, (c) the monetisation and, consequently, the de-indexation of the formula of the Notes for all or part of the amounts due under the Notes on the underlying(s) and/or (d) the early redemption of the Notes by the Issuer, without any obligation to take into account the interest of the Noteholders. In the absence of manifest or proven error, these adjustments, substitutions or cancellation decisions will be binding upon the relevant Issuer, the Guarantor, the Agent and the Noteholders. Each of these measures imposed on the Notes may result in the total or partial loss of the amount invested (regardless of the level of capital protection of the Notes, if any).

3.1.8 Trading in the Notes and/or Underlyings may be suspended, interrupted or terminated

If the Notes are listed on one (or more) regulated or unregulated markets, the trading of such Notes may – depending on the rules applicable to such markets – be suspended or interrupted by the respective stock exchange or a competent regulatory authority upon the occurrence of a number of reasons, including violation of price limits, breach of statutory provisions, occurrence of operational problems of the stock exchange or generally if deemed required in order to secure a functioning market or to safeguard the interests of investors. Furthermore, trading in the Notes may be terminated, either upon decision of the stock exchange or a regulatory authority.

Where trading in an Underlying of the Notes is suspended, interrupted or terminated, trading in the respective Notes may also be suspended, interrupted or terminated by the Issuer and any existing orders for the sale or purchase of such Notes may be cancelled by the Issuer. Investors should note that the Issuer has no influence on trading suspension or interruptions of the Underlying and that investors in any event must bear the risks connected therewith. In particular, investors may not be able to sell their Notes where trading is suspended, interrupted or terminated, and the stock exchange quotations of such Notes may not adequately reflect the price of such Notes. All these risks would, if they materialise, have a material adverse effect on the value of the Notes and investors may therefore lose part or all of their investment in the Notes.

3.1.9 Risk of leveraged exposure

The redemption formula of certain Notes may embed a leverage factor (which will be specified in the applicable Final Terms) increasing the exposure to the relevant underlying and will amplify both return and losses. While the use of leverage allows for potential multiples of a return (assuming a return is achieved) when the applicable underlying moves in the anticipated direction, it will conversely magnify losses when such underlying moves against expectations of investors. Prospective investors should note that Notes will involve a higher level of risk, and that whenever there are losses such losses may be higher than those of a similar security which is not leveraged. Investors should therefore only invest in such Notes if they fully understand the effects of the leverage that may be embedded in such Notes whose market value may be significantly more volatile than the market value of Notes that do not have this feature.

3.1.10 Risks relating to the Paying Agent

Any payments to Noteholders will be made by the Paying Agent on behalf of the Issuers. The Issuers shall transfer to the Paying Agent such amount as may be due under the Notes on or before each date on which such payment in respect of the Notes becomes due.

If the Paying Agent, while holding funds for payment to the Noteholders, is declared insolvent, the Noteholders may not receive all (or any part) of amounts due to them from the Paying Agent in which case the Noteholders will have to claim any payment directly from the Issuer.

3.1.11 Hedging and trading activity by the Issuers, the Guarantor and other members of the Group could potentially affect the value of the Notes

In the ordinary course of their business, whether or not they will engage in any secondary market making activities, the Issuers, the Guarantor and/or any other members of the Group may effect transactions for their own account or for the account of their customers and hold long or short positions in any underlying or reference asset(s), reference entities or obligors or related derivatives.

These transactions may affect the Issuers' hedging positions which could in turn impact the market value of the Notes and consequently investors may lose part or all of their investment in the Notes.

3.1.12 Exchange rate risks - Currency Unavailability

The relevant Issuer will pay principal and interest amounts on the Notes in the Relevant Currency. This presents certain risks relating to currency conversions if Noteholders' financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Relevant Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Relevant Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Relevant Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency equivalent value of the principal payable on the Notes and (3) the Investor's Currency equivalent market value of the Notes.

The Issuer may issue Dual Currency Notes where the amount of principal and/or interest payable are dependent upon movements in currency exchange rates or are payable in one or more currencies which may be different from the currency in which the Notes are denominated. Accordingly, an investment in Dual Currency Notes may bear similar market risks to a direct foreign exchange investment and prospective investors should take advice accordingly.

Governments and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, Noteholders may receive less interest or principal than expected, or no interest or principal.

In addition, due to the imposition of these exchange controls, the Notes settlement currency's disuse or other circumstances beyond the control of the relevant Issuer or the Guarantor (as applicable) or pursuant to a unilateral decision taken by the clearing systems to no longer accept Notes settlement currency as a settlement currency for their operations, it might become impossible for the Issuer and/or the Guarantor to perform their obligations in the Notes settlement currency. In that context, pursuant to the General Terms and Conditions of the Notes, Societe Generale and/or SG Issuer upon notification to the Noteholders would have the right to perform its obligations without this constituting an event of default or without interest accruing on the Notes until the events making the currency unavailable ceases to exist or if earlier, the thirtieth calendar day following the scheduled due date for payment (which may be later than the initially scheduled maturity date of the Notes) without this constituting an event of default and without interest accruing on the Notes.

Moreover, the Issuer and/or the Guarantor may decide to replace the Notes settlement currency by euro or USD and deduct from the amounts paid to the noteholders any cost to the Issuer and/or the Guarantor of unwinding any hedging arrangements related to the Notes and any transaction, payment or other costs and expenses arising directly out of the occurrence of the above mentioned event or the related payment of the amounts due under the Notes following the occurrence of these events which may result in the Noteholders receiving less than the amounts they would have received in the absence of occurrence of such currency related events.

3.1.13 Partly-Paid Notes

The relevant Issuer may issue Notes where the issue price is payable in more than one part payment by the investor. Failure by the investor to pay any subsequent part payment could result in an investor losing some or all of his investment. In the event that investors purchase Partly-Paid Notes on the secondary market prior to all the part payments being made and these Notes being fully paid up, such investors incur the risk to be required to pay such remaining part payments in addition to the price they paid to purchase these Notes.

3.1.14 Fixed/Floating Rate Notes

Fixed/Floating Rate Notes are Notes which bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Such a feature to convert the interest basis, and any conversion of the interest basis, may affect the market value of such Notes as the change of interest basis may result in a lower interest return for Noteholders. If the Issuer converts from a fixed rate to a floating rate in such circumstances, the spread on the floating rate may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing rates on those Notes and could affect the market value of an investment in the relevant Notes.

3.1.15 Notes issued at a substantial discount or premium

The market values of Notes issued at a substantial discount to or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. The longer the remaining term of such Notes, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

3.1.16 Risks relating to Physical Delivery Notes

In the case of Notes which are redeemable by delivery of assets, if a Settlement Disruption Event occurs or exists on the due date for redemption of the Notes and prevents delivery of the asset, the Issuer shall, in lieu of delivering the Physical Delivery Amount, pay, in respect of each Note, the fair market value of the number of Underlying(s) (the **Fair Market Value**) to be delivered converted into the Specified Currency at the current exchange rate, if applicable. The Fair Market Value will be determined by the Calculation Agent on the basis of the market conditions on the first Business Day following the Delivery Period.

3.1.17 Risks relating to Notes referencing a benchmark

In accordance with the provisions of Condition 4 of the General Terms and Condition of the Notes, the Rate of Interest in respect of the Floating Rate Notes may be determined by reference to Reference Rates that constitute "benchmarks" for the purposes of the current EU Benchmarks Regulation and/or the current UK Benchmarks Regulation, as applicable.

Interest rates and indices which are deemed to be "benchmarks" are the subject of national and international regulatory guidance and reform aimed at supporting the transition to robust benchmarks. Most reforms have now reached their planned conclusion (including the transition away from LIBOR), and "benchmarks" remain subject to ongoing monitoring. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, to be subject to revised calculation methods, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a "benchmark".

The EU Benchmarks Regulation, among other things, applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU when this benchmark complies with specific requirements.

The UK Benchmarks Regulation, among other things, applies to the provision of benchmarks and the use of a benchmark within the UK. Notwithstanding the provisions of Condition 4.2.3.5 of the General Terms and Conditions of the Notes, which seek to mitigate any adverse effects for the Noteholders, the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable could have a material impact on any Notes linked to or referencing a "benchmark", in particular:

- an index that is a "benchmark" may not be permitted to be used by a supervised entity (including the Issuer) in certain ways if its administrator does not obtain authorisation or registration or, if based in a non-EU jurisdiction, the administrator is not recognised as equivalent or recognised or endorsed and the transitional provisions do not apply; and

- if the methodology or other terms of the "benchmark" could be changed in order to comply with the requirements of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable. Such changes could, among other things, have the effect of reducing or increasing the rate or level or otherwise affecting the volatility of the published rate or level of the "benchmark" and as a consequence,

Noteholders could lose part of their investment or receive less income than would have been the case without such change.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of "benchmarks", could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements.

Such factors may have the following effects on certain "benchmarks": (i) discourage market participants from continuing to administer or contribute to the "benchmark"; (ii) trigger changes in the rules or methodologies used in the "benchmark" or (iii) lead to the disappearance of the "benchmark".

Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to or referencing a "benchmark".

Investors should be aware that, if a benchmark were discontinued or otherwise unavailable, the rate of interest on Notes which are linked to or which reference such benchmark will be determined for the relevant period by the fall-back provisions applicable to such Notes – please refer to the risk factor entitled "The occurrence of an Index Event could have a material adverse effect on the value of and return on any such Notes linked to or referencing such "benchmarks" below). Depending on the manner in which a benchmark rate is to be determined under the Terms and Conditions, this may in certain circumstances (i) result in the application of a backward-looking, risk-free overnight rate, whereas the benchmark rate is expressed on the basis of a forward-looking term and includes a risk-element based on inter-bank lending or (ii) if Screen Rate Determination applies, result in the effective application of a fixed rate based on the rate which applied in the previous period when the benchmark was available. Any of the foregoing could have an adverse effect on the value or liquidity of, and return on, any Notes linked to or referencing a "benchmark".

The EU Benchmarks Regulation has been amended to introduce a harmonised approach to deal with the cessation or wind-down of certain benchmarks by conferring the power to designate a statutory replacement for certain benchmarks on the European Commission, such replacement being limited to contracts and financial instruments. In addition, the transitional provisions applicable to third country benchmarks had been further extended until the end of 2025 by Commission Delegated Regulation (EU) 2023/2222 of 14 July 2023.

Beyond this date, such third-party benchmarks that are in scope of the EU Benchmarks Regulation may only be used in the European Union if the relevant benchmarks administrators have applied for 'equivalence', 'recognition' or 'endorsement' by 31 December 2025, unless such application is refused by ESMA, or the relevant benchmarks are references in relevant contracts and instruments executed on or before 31 December 2025.

Regulatory authorities and central banks have strongly encouraged the transition away from IBORs, such as LIBOR and EURIBOR, and have required 'risk free rates' replace such IBORs as primary benchmarks. This includes (amongst others) (i) for historic GBP LIBOR, the Sterling Overnight Index Average (**SONIA**), as the primary sterling interest rate benchmark, (ii) for historic USD LIBOR, the Secured Overnight Financing Rate (**SOFR**) as the primary US dollar interest rate benchmark, (iii) for historic EONIA and EURIBOR (still-current), a Euro Short-Term Rate (**€STR** or **EuroSTR**) as the euro risk-free rate, (iv) for historic CHF LIBOR, the Swiss Average Rate Overnight (**SARON**), as the primary Swiss france interest rate benchmark and (v) for historic JPY LIBOR, the Tokyo Overnight Average Rate (**TONA**), as the primary Japanese yen interest rate benchmark. Similar initiatives have replaced the LIBOR rates in other currencies -– i.e. Hong Kong Dollar (**HIBOR**), Australian dollar (**BBSW**) and Canadian dollar (**CDOR**) – to transition over to identified alternative risk free rates.

In addition, the EU Benchmarks Regulation has been further amended. The final text was published in the Official Journal of the European Union on 19 May 2025 and is applicable since 1 January 2026. One of the key changes to the regime is that only benchmarks defined as critical or significant (determined based on quantitative or qualitative criteria), EU Paris-aligned benchmarks, EU Climate Transition benchmarks, and certain commodity benchmarks remain in scope of the mandatory application of the EU Benchmarks Regulation. An exemption applies for certain FX benchmarks. Other benchmarks have fallen out of mandatory EU Benchmarks Regulation scope (other than certain limited provisions in relation to statutory replacement of a Benchmark, connected with cessation and/or non-representativeness). However, administrators may request voluntary application of the rules (opt-in) by requesting their competent authority to designate one or more of the benchmarks that they offer, subject to a EUR 20 billion eligibility threshold.

Whilst the revised regime introduced a number of changes primarily to the scope of the EU Benchmarks Regulation, for benchmarks that are in scope of the revised regime, similar risks apply to benchmarks that used to be in scope of the previous regime. Benchmarks that have fallen out of scope of the revised regime (which have not been opted-in) are no longer regulated in the same way since 1 January 2026. This means that previously mandatory requirements, for example, regulating governance, conflicts of interest, oversight functions, input data requirements, methodology and transparency of the methodology, requirements for contributors and in relation to input data, have fallen away. Among other things, there is a risk that this could mean that the methodology of such benchmarks may be less robust, resilient or transparent (potentially being capable of being materially amended without consultation). These provisions could have a significant impact on the value or liquidity of, and return on, certain Notes issued under the Programme linked to or referencing such benchmarks.

The UK Benchmarks Regulation is also expected to be repealed and reformed in the near future. It remains to be seen what, if any, changes will be proposed and consequently what, if any, impact any such changes may have on the Notes. One recent change however is the specification of two new critical benchmarks for the purposes of the UK Benchmarks Regulation. In November 2024, the Critical Benchmarks Regulation 2024 were published, resulting in the WMR Closing Spot Rates (also commonly known in the market as the WMR London 4PM London Closing Spot Rate or WMR 4PM Fix) and the ICE Swap Rate (ISR), being specified as 'critical' for the purposes of the UK Benchmarks Regulation. As a result of this specification, the administrators of these benchmarks will become subject to more stringent regulatory requirements under the UK Benchmarks Regulation, reflecting the important of the benchmarks to the operation of financial markets. The FCA will also have greater powers to intervene to address any potential market disruption. These specifications also mean that the FCA could, where the relevant criteria were met, use the additional powers specified in the UK Benchmarks Regulation to support the orderly wind-down of a critical benchmark. For example, the FCA can mandate the administrator of a critical benchmark to continue publishing the benchmark under certain conditions where the administrator gives notice of its intention to cease providing the benchmark. Previously, the only benchmark specified as critical under the UK Benchmarks Regulation was LIBOR which ceased to exist as a benchmark at the end of September 2024.

In case of occurrence of an Index Event the applicable floating rate of interest could have a material adverse effect on the value of and return on any such Notes linked to or referencing such "benchmarks" without any requirement that the consent of Noteholders be obtained

Pursuant to the terms and conditions of the Notes, occurrence of certain events affecting the benchmarks (each an Index Event) such as loss of any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the Reference Rate or the administrator or sponsor of the Reference Rate, the permanent cessation of the Reference Rate or the loss of representativeness of the Reference Rate will trigger the application of certain fallbacks arrangements including if an inter-bank offered rate (such as EURIBOR) or other relevant reference rate (which could include, without limitation, any mid-swap rate) becomes unavailable, or if the Issuer, the Calculation Agent, any Paying Agent or any other party responsible for the calculation of the Rate of Interest (as specified in the applicable Final Terms) are no longer permitted lawfully to calculate interest on any Notes by reference to such benchmark under the current EU Benchmarks Regulation and/or the current UK Benchmarks Regulation, as applicable or otherwise.

Such fallback arrangements include the possibility that the rate of interest could be set by reference to a Replacement Rate with or without the application of an Adjustment Spread (which, if applied, could be positive or negative, and would be applied with a view to reducing or eliminating, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to investors arising out of the replacement of the relevant benchmark) (both as defined in Condition 4.2.3.7 of the General Terms and Conditions of the English Law Notes, the General Terms and Conditions of the French Law Notes and the General Terms and Conditions of the Swiss Law Notes), and may include amendments to the Terms and Conditions of the Notes to ensure the proper operation of the successor or replacement benchmark, all as determined by the Rate Determination Agent or the Calculation Agent.

No consent or approval of the Noteholders shall be required in connection with effecting any successor rate or alternative rate (as applicable) or with any other related adjustments and/or amendments to the Terms and Conditions of the Notes (or any other document) which are made in order to effect any successor rate or alternative rate (as applicable).

Investors should note that, the Rate Determination Agent or the Calculation Agent will have a certain discretion to determine the Replacement Rate and as the case may be the Adjustment Spread in the circumstances described above. Any such adjustment could have unexpected commercial consequences and, due to the particular circumstances of each Noteholder, any such adjustment may not be favourable to such Noteholder.

The reform and replacement of IBORs with risk-free rates may cause the relevant IBOR to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. These risk-free rates have a different methodology and other important differences from the IBORs they have or will replace. Any of these developments could have a material adverse effect on the value of and return on Notes linked to any such rates. Noteholders may therefore lose part or all of their investment in the Notes.

The market has developed in relation to risk free rates as reference rates for Floating Rate Notes.

The Terms and Conditions of the Notes allow Notes referencing *inter alia* SONIA, SOFR, the Euro short term rate (€STR), SARON, TONA to be issued. The market has developed in relation to risk free rates, as reference rates in the capital markets, and their adoption as alternative to the relevant interbank offered rates. However, the market or a significant part thereof may still adopt an application of risk free rates that differs significantly from that set out in the Terms and Conditions and used in relation to Floating Rate Notes that reference a risk free rate issued under this Base Prospectus.

The development of the use of these risk free rates as interest reference rate for bond markets, as well as continued development of risk free rates-based rates for such markets and of the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of the Notes. Interest on Notes which reference a risk free rate is only capable of being determined shortly prior to the relevant Interest Payment Date.

In addition, the Issuer or Calculation Agent has no control over the determination, calculation or publication of these risk-free rates. There can be no guarantee that they will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of Noteholders.

The mismatch between the adoption of such reference rates in the bond, loan and derivatives markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of any Notes.

These risk-free rates may fail to gain market acceptance and any market of the Notes indexed on these rates may be illiquid and unpredictable. Investors should not rely on indicative or historical data concerning these risk free rates. The investors are exposed to some discretion of the Calculation Agent to determine the interest rate that will replace the benchmarks that will cease to be published or used and to calculate the amount of interest needed to calculate the amounts due under the Notes on the basis of the risk-free rates.

Investors will not know in advance the interest amount payable on Notes which is calculated by reference to the risk free rates

The Rate of Interest or Rate in respect of the Notes may be calculated by reference to risk free rates such as SONIA, SOFR, €STR, SARON or TONA overnight funding rates with Interest Periods longer than overnight and will be calculated on the basis of (a) the arithmetic mean of such rate over the relevant Interest Period, where such rate is fixed for a certain number of days prior to the end of such Interest Period or (b) a compounded risk free rate (i) in respect of the Interest Period, provided that the risk free rate used as the basis for calculation is that which was observed a specified number of days prior or (ii) in respect of a period that starts a specified number of days prior to the relevant Interest Period and ends the same specified number of days prior to the end of such Interest Period or (c) calculated by reference to the level of the risk free rate published by its Administrator or authorised distributors. As a consequence of these calculation methods, the amount of interest payable on each interest payment date will only be known a short period of time prior to the relevant interest payment date. Investors therefore will not know in advance the interest amount which will be payable on such Notes and there is a possibility that such amount could be lower than expected.

3.1.18 Risks relating to legal, tax and regulatory changes

The Terms and Conditions of the Notes (including any non-contractual obligations arising therefrom or connected therewith) are based on relevant laws in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to such laws, or the official application or interpretation of such laws or administrative practices after the date of this Base Prospectus.

Legal, tax and regulatory changes could occur during the term of the Notes that may adversely affect the Notes, the underlying, related derivatives or the collateral assets in the case of Secured Notes. The regulatory environment is evolving, and changes in the regulation of any entities may adversely affect their value. Regulators and self-regulatory organisations and exchanges are authorised to take extraordinary actions in the event of market emergencies. The regulation of securities and derivatives transactions is an evolving area of law and is subject to modification by government and judicial action. The effect of any future regulatory change on the underlying, related derivatives or on the collateral assets could be material, including clearing and margin requirements for derivatives and consequently may adversely affect the value of the Notes. Investors may therefore lose part or all of their investment in the Notes.

3.1.19 Limited recourse against SG Issuer

Each holder of Notes issued by SG Issuer is deemed to have acknowledged and undertaken, on its acquisition of such Notes, that, in the event of a payment default by SG Issuer of any amount due in respect of any Notes (such payment defaults, **Defaulted Payments**), such holder shall not institute any proceeding, judicial or otherwise, or otherwise assert a claim against SG Issuer to enforce such Defaulted Payments and waives all rights to institute such proceedings or make such claims in respect of such Defaulted Payments against SG Issuer.

Nevertheless, Noteholders will continue to be able to claim against the Guarantor in respect of any unpaid amount.

As a consequence, prospective investors in Notes issued by SG Issuer should note that in the case of Defaulted Payments the entitlement of the Noteholders will be limited to the sums obtained by making a claim under the Guarantee, and the relevant provisions of the Guarantee.

3.1.20 Waiver of set-off

Pursuant to the General Terms and Conditions of the Notes, the Noteholders waive any right of or claims of set-off, netting, compensation, retention and counterclaim (and, for the avoidance of doubt, including all such rights, claims and liabilities arising under or in relation to any and all agreements or other instruments of any sort or any non-contractual obligations, in each case whether or not relating to the Notes) in relation to the Notes, to the extent permitted by applicable law. As a result, the Noteholders will not at any time be entitled to set-off the Issuer's obligations under the Notes against obligations owed by them to the Issuer.

3.1.21 Risks relating to Notes denominated in Renminbi (RMB)

RMB foreign exchange control risk

RMB is not completely freely convertible at present, and the conversion of RMB into other currencies is subject to exchange controls imposed by the PRC government. New PRC regulations may be promulgated or any existing RMB clearing and settlement arrangements may be terminated or amended in the future which may have the effect of restricting availability of RMB outside the PRC. The limited availability of RMB outside the PRC may affect the liquidity of Notes denominated in RMB.

The current size of RMB denominated financial assets outside the PRC is limited. The control of currency conversion and movements in RMB exchange rates may adversely affect RMB denominated assets which may in turn affect notes linked to such assets.

RMB currency risk

All payments of RMB under the Notes to the Noteholders will be made solely by transfer to a RMB bank account maintained in Hong Kong or a financial centre outside the PRC in which a bank clears and settles Renminbi (**RMB Settlement Centre**) in accordance with the prevailing rules and regulations and in accordance with the Terms and Conditions of the Notes. The Issuer cannot be required to make payment in relation to Notes denominated in RMB by any other means (including in any other currency or by transfer to a bank account in the PRC), unless a Renminbi Currency Event (i.e. if RMB becomes illiquid, or if any amount can no longer be converted into RMB or from RMB into another currency or if it becomes impossible to transfer amounts in RMB between accounts in Hong Kong or from within Hong Kong to accounts outside Hong Kong) is specified as being applicable in the applicable Final Terms.

In addition, there can be no assurance that the access to RMB for the purposes of making payments under the Notes or generally may remain or will not become restricted. If it becomes impossible to convert RMB from/to another freely convertible currency, or transfer RMB between accounts in Hong Kong (or any other RMB Settlement Centre), or to remit RMB into or out of the PRC, or the general RMB exchange market becomes illiquid, any payment of RMB under the Notes may be delayed or the Issuer may make such payments in another currency selected by the Issuer using an exchange rate determined by the Calculation Agent, or the Issuer may redeem the Notes by making payment in another currency.

RMB exchange rate risk

The value of RMB against other currencies fluctuates and is affected by changes in the PRC and international political and economic conditions and by many other factors. As a result, the value of any payments of RMB (in any applicable foreign currencies) may vary with the prevailing exchange rates in the marketplace. If the value of RMB depreciates against other currencies, the value of an investor's investment in such other currencies will decline. Depreciation of RMB against such currency could cause a decrease in the effective yield of the Notes denominated in RMB below their stated coupon rates and could result in a loss when the return on Notes denominated in RMB is translated into such currency. In addition, there may be tax consequences for investors as a result of any foreign currency gains resulting from any investment in Notes denominated in RMB.

RMB interest rate risk

Where applicable, the value of payments of RMB under the Notes may be susceptible to interest rate fluctuations, including Chinese RMB Repo Rates and/or the Shanghai Interbank Offered Rate (**SHIBOR**). The PRC government has gradually liberalised the regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility. Furthermore, due to the foreign exchange control imposed by the applicable PRC laws and regulations and the prevailing market conditions, the RMB interest rate in the markets outside the PRC may significantly deviate from the RMB interest rate in the PRC.

Payments with respect to Notes denominated in RMB may be made only in the manner designated in such Notes

Noteholders may be required to provide certification and other information (including RMB account information) in order to be allowed to receive payments in RMB in accordance with the RMB clearing and settlement system for participating banks in Hong Kong. All payments to investors in respect of Notes denominated in RMB will be made solely (i) for so long as Notes denominated in RMB are represented by Global Notes or Registered Global Notes held with the Common Depositary or Common Safekeeper, as the case may be, for Clearstream Banking S.A. and Euroclear Bank SA/NV or any alternative clearing system, by transfer to a RMB bank account maintained in Hong Kong or (ii) for so long as Notes denominated in RMB are in definitive form, by transfer to a RMB bank account maintained in Hong Kong in accordance with prevailing rules and regulations. Other than described in the Terms and Conditions of the Notes, the Issuer cannot be required to make payment by any other means (including in any other currency or in bank notes, by cheque or draft or by transfer to a bank account in the PRC).

3.1.22 Meetings of Noteholders

The General Terms and Conditions of the Notes contain provisions for calling meetings (including by way of conference call or by use of a video conference platform) of Noteholders to consider matters affecting their interests generally (see Condition 16 (*Meetings of Noteholders,* of the English Law Notes, of the French Law Notes and of the Swiss Law Notes). These provisions permit defined majorities to bind all Noteholders, including Noteholders who did not attend and vote at the relevant meeting, Noteholders who did not consent to the Written Resolutions and Noteholders who voted in a manner contrary to the majority. General meetings or written consultations may deliberate on any proposal relating to the modification of the conditions of the Notes subject, in the case of French Law Notes, to the limitations provided by French law. Only holders of French Law Notes will, in certain circumstances, be grouped for the defence of their common interests in a separate legal entity called "Masse" (as defined in Condition 16 (*Meeting of Noteholders*)). If the applicable Final Terms specify "No Masse", Noteholders will not be grouped in a masse having legal personality governed by

the provisions of the French *Code de commerce* and will not be represented by a representative of the masse. While it is not possible to assess the likelihood that the Conditions will need to be amended during the term of the Notes by a meeting of the Noteholders, if a decision is adopted by a majority of Noteholders and such modifications impair or limit the rights of Noteholders, this may negatively affect the market value of the Notes and Noteholders may therefore lose part or all of their investment in the Notes, although the probability of such a decision being taken by Noteholders is considered to be low. In case of Eligible Notes (issued by Societe Generale only), the prior written permission of the relevant Resolution Authority will be needed to effect any modification decided by Noteholders.

3.2 Risks relating to the market of the Notes

3.2.1. Market value of the Notes

The trading market for the Notes may be volatile and may be adversely impacted by many events

The market for debt securities is influenced by the economic and market conditions, interest rates, currency exchange rates and inflation rates in Europe and other industrialised countries and areas. There can be no assurance that events in France, Europe or elsewhere will not cause market volatility or that such volatility will not adversely affect the price of Notes or that economic and market conditions will not have any other adverse effect.

Such factors may mean that the trading price of the Notes is below the Final Redemption Amount, and accordingly Noteholders, may receive an amount or an asset with a value significantly lower than the amount that they invested to purchase the Notes.

3.2.2 Risks relating to the secondary market of the Notes

If the Notes are subject to market making agreements, the aim is to ensure the liquidity of the Notes on the markets where they are traded, assuming normal market conditions and normally functioning IT systems. Certain exceptional market circumstances may adversely affect the liquidity of the Notes. Noteholders may not be able to sell their Notes easily or may have to sell them at a price that significantly affects the amount they earn. This may result in a partial or total loss of the amount invested.

Certain Notes have materially relevant liquidity risk. Certain exceptional market circumstances may adversely affect the liquidity of the Notes. Noteholders may not be able to sell their Notes easily or may have to sell them at a price that significantly affects the amount they earn. This may result in a partial or total loss of the amount invested.

There may be no market on which Notes may be traded, which may have a material adverse effect on the price at which such Notes can be resold and may result in the total or partial loss of the amount invested. The Notes may be completely illiquid and may not be able to be resold.

For Eligible Notes, in addition, any market making of such Notes is subject to the prior permission of the Relevant Resolution Authority.

3.2.3 Reinvestment risks

The Notes may be redeemed or be subject to cancellation at a time when an investor generally would not be able to reinvest the proceeds at an expected yield as high as the return on the Notes being early redeemed or cancelled, as the case may be, and may only be able to do so at a significantly lower yield. Prospective investors should consider reinvestment risk in light of other investments available at that time.

3.2.4 The use of proceeds of the Notes identified as Sustainable Notes in the Final Terms may not be suitable for the investment criteria of an investor

The Final Terms in respect of Notes identified as sustainable notes (the **Sustainable Notes**) may provide that the Issuer will apply an amount equivalent to the net proceeds of the issue to finance or refinance, in whole or in part, loans and investments (such assets being the **Eligible Green Assets** or **Eligible Social Assets**, together, the **Eligible Assets**) that meet the eligibility criteria for the Eligible Green Categories and/or Eligible Social Categories, as defined in the sustainable financing framework, as amended and supplemented from time to time (the **Framework**) which is available on the website of Societe Generale.

At the date of this Base Prospectus, the Framework aligns with (i) the Green Bond Principles (as of June 2025), Social Bond Principles (as of June 2025) and the Sustainability Bond Guidelines (as of June 2021) published by the International Capital Markets Association. The Framework and the definitions used therein may be modified to adapt to any update that may be made, in particular, to the Green Bond Principles, Social Bond Principles and Sustainability Bond Guidelines. Such changes may have a negative impact on the market value and the liquidity of any Sustainable Notes issued prior to their implementation.

Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment was adopted by the Council and the European Parliament (the **Taxonomy Regulation**), and supplemented by Delegated Regulation (EU) 2021/2139 (as amended) and Delegated Regulation (EU) 2023/2486 to establish a single EU-wide classification system (the **EU Taxonomy**). The EU Taxonomy provides companies and investors with a common language to determine which economic activities can be considered environmentally sustainable, i.e. (i) contributing substantially to one or more of the six environmental objectives of the Taxonomy Regulation (the “substantial contribution criteria”), (ii) doing no significant harm to any other environmental objectives (the “do no significant harm”), (iii) complying with minimum safeguards, and (iv) complying with technical screening criteria. In addition, Regulation (EU) No 2023/2631 on European green bonds and optional disclosures for bonds marketed as environmentally sustainable and for sustainability-linked bonds, which entered into force on 20 December 2023 and is applicable since 21 December 2024 (the **EuGB Regulation**), introduced a voluntary label for issuers of “green” use of proceeds bonds where the proceeds will be invested in economic activities aligned with the Taxonomy Regulation.

Based on the Second Party Opinion, Eligible Green Assets under the Framework comply with the substantial contribution to climate change mitigation criteria and strive to comply with minimum safeguards of the EU Taxonomy. The "do no significant harm" criteria have not been assessed by the Second Party Opinion provider. As at the date of the Base Prospectus, as supplemented, Eligible Green Assets under the Framework of the Group are not aligned with the eligibility criteria of the EU Taxonomy and there is a risk that the use of proceeds of any Green Notes or Sustainability Notes will not satisfy Noteholders' expectations or requirements with respect to investment criteria or guidelines with which the Noteholders or their investments are required to comply under their own by-laws or other governing rules or investment portfolio mandates regarding the Taxonomy Regulation. In addition, the Green Notes or Sustainability Notes issued under the programme do not constitute European Green Bonds within the meaning of the EuGB Regulation. It could result in a reduced demand from investors for such Green Notes or Sustainability Notes, as well as a decrease in their market value or their liquidity.

Additionally, (i) the fact that the maturity of an Eligible Asset may not match the minimum duration of any Sustainable Notes and/or (ii) the fact that during the life of the Sustainable Notes, Eligible Assets may be removed from the pool of Eligible Assets, to the extent required (e.g. in case of projects divestment or cancellation, in case of amortized or redeemed loans, if an activity ceases to meet the eligibility criteria or for any other reason beyond the control of the Issuer), in which case an amount equivalent to the net proceeds, in whole or in part, may not be allocated to Eligible Assets and be rather allocated in money market instruments, cash and/or cash equivalent instruments without any undertaking of the Issuer as to a maximum period of time for such allocation, and/or (iii) the withdrawal of any second party opinion or certification attesting that the Issuer is not complying in whole or in part with any matters for which such second party opinion or certification is opining or certifying on may have an adverse effect on the value of such Sustainable Notes and/or result in adverse consequences for certain Noteholders with portfolio mandates to invest in securities to be used for a particular purpose and as a result, would have to dispose of the Sustainable Notes at their prevailing market value and could lose part of their investment in such Sustainable Notes.

Any of the above events will not (i) constitute an event of default nor (ii) lead to an obligation of the Issuer to redeem the Sustainable Notes in any manner whatsoever or be a relevant factor for the Issuer in determining whether or not to exercise any optional redemption rights in respect of any Notes nor (iii) give a right to the Noteholder to request the early redemption of the Sustainable Notes held by it or give rise to any other claim or right or (iv) have any impact or the regulatory classification of the Notes under the Relevant Rules and/or MREL Requirements and payments of principal and interest (as the case may be) on the relevant Sustainable Notes will not depend on the performance of the relevant project, and such Notes will not have any preferred right against such assets.

Sustainable Notes will be subject to the Bail-in Tool and to write down and conversion powers, and in general to the powers that may be exercised by the Relevant Resolution Authority, to the same extent as any other Note having the same ranking which is not a Sustainable Note. Eligible Notes under MREL Requirements may also be Sustainable Notes.

Likewise, Eligible Notes that are Sustainable Notes will be fully subject to the application of MREL Requirements and, as such, proceeds from Sustainable Notes qualifying as Eligible Notes should cover all losses in the balance sheet of Societe Generale regardless of their "green", "social" or "sustainable" label. Additionally, their labelling as Green Notes, Social Notes or Sustainability Notes (i) will not affect, as the case may be, the regulatory treatment of such Notes as Eligible Notes for the purposes of MREL Requirements , and (ii) will not have any impact on their status as indicated in the Terms and Conditions of the Notes.

Any:

(i) failure to hold in its books an amount in Eligible Assets equivalent to 100% of the outstanding nominal amount of the Notes or to apply an amount equivalent to the outstanding aggregate nominal amount of the Notes to finance and/or refinance, in part or in full, Eligible Assets;
(ii) withdrawal of any opinion or certification or any opinion or certification being superseded by an opinion or certification stating that Societe Generale has not complied, in whole or in part, with any matters on which the original opinion or certification had opined or certified; and/or
(iii) lack of Eligible Assets in which Societe Generale may invest; and/or
(iv) event or circumstances resulting in the Sustainable Notes no longer being listed or admitted to trading on any stock exchange or securities market,
will not constitute an event of default, does not affect the regulatory treatment of the Sustainable Notes and may have a material adverse effect on the value of Sustainable Notes and the value of any other securities which are intended to finance Eligible Assets and could also result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose. As a result, these investors may have to dispose of the Sustainable Notes at their prevailing market value which may be less than the investors' initial investment in the Sustainable Notes. Investors may therefore lose part or all of their investment.

3.2.5 Risk linked to a high rate of inflation

Investors' attention is drawn to the fact that in the event of a high rate of inflation between the time when they acquired the Notes and the time when they will receive any returns on the Notes, the amount (if any) payable to investors may not allow investors to purchase assets, goods or services that they would have been able to purchase at the time of their investment in the Notes. Consequently, prospective investors should consider the risk of high inflation rates before investing in the Notes.

4. RISK FACTORS RELATING TO STRUCTURED NOTES

4.1 Common risks relating to all Structured Notes

Risks relating to the Underlying(s) - gap risk

The amounts due under the Structured Notes are calculated by reference to the prices of the Underlying(s) depending on the indexing formula for these amounts, it being specified that the past performance of an Underlying does not in any way prejudge its future performance. Potential investors are exposed to the risk of losing all or a substantial part of the amount invested. The issuers or owners of assets underlying the Notes do not participate in the offer of the Notes and have no obligation to take into account the interests of the Noteholders, when they take decisions likely to affect the value of these assets.

The relevant level, value or price of one or more Underlying(s) may change suddenly and significantly during the trading day or at the opening of the market. Such change may be positive or negative and is known as the "Gap Risk". If the price of the Notes includes a premium, this will be calculated to take account of the cost to the Issuer or its Affiliates of unwinding its hedging positions in relation to the Notes on early redemption of the Notes and the Gap Risk associated with the relevant level, value or price of the Underlying(s). Noteholders will not receive a refund of this premium if an Automatic Early Redemption Event occurs, which could significantly reduce the return a Noteholder stands to receive on its investment.

Potential limitation in the benefit of the performance of the price of the Underlying(s)

If the applicable Final Terms provide that the exposure of the Notes to one or more Underlyings is limited or capped at a certain level or amount, the relevant Notes will not benefit from any upside in the value of any such Underlying(s) beyond such limit or cap. In this case, Noteholders will not receive as much from their investment as they would have done if they had invested directly in the Underlying(s) or in alternative Notes without such features. The likelihood of this occurring is dependent on the likelihood of the Underlying(s) performing such that the limit or cap affects the Notes.

Absence of rights in respect of the Underlying(s)

The Notes do not represent a claim against any Underlying (or any issuer, sponsor, manager or other connected person in respect of an Underlying) and Noteholders will not have any right of recourse under the Notes to any such Underlying (or any issuer, sponsor, manager or other connected person in respect of an Underlying). The Notes are not in any way sponsored, endorsed or promoted by any issuer, sponsor, manager or other connected person in respect of an Underlying and such entities have no obligation to take into account the consequences of their actions on any Noteholders and such consequences may have a negative impact on the value of the Notes. Noteholders may therefore lose part or all of their investment in the Notes. Investors in Physical Delivery Notes should also refer to "Risks relating to Physical Delivery Notes" above. In addition, Societe Generale, SG Issuer and/or any entity of the Societe Generale's group may take any action in respect of the Underlying(s) and the Noteholders will have no right or claim against Societe Generale, SG Issuer and/or any entity of the Societe Generale's group in respect of any amount that may be recovered by Societe Generale, SG Issuer and/or any entity of the Societe Generale's group in respect of such Underlying.

4.2 Risks relating to Structured Notes linked to an Index

The policies of the sponsor of an index as regards additions, deletions and substitutions of the assets underlying the index and the manner in which the index sponsor takes account of certain changes affecting such underlying assets may affect the value of the index.

The policies of an index sponsor with respect to the calculation of an index could also affect the value of the index. An index sponsor may discontinue or suspend calculation or dissemination of information relating to its index. Any such actions could affect the value of the Notes and Noteholders may therefore lose part or all of their investment in the Notes.

An index sponsor may at any time during the life of the Notes discontinue or suspend calculation or dissemination of information relating to its index. As a consequence investors in Index Linked Notes are exposed to the risk of discontinuance of the operational capacity and expertise of the Index Sponsor to ensure the calculation and maintenance of the index according to the methodology in force throughout the life of the Notes.

4.2.1 Risks relating to Structured Notes linked to an SGI Index

The composition of certain indices to which the Notes are linked, and the methodologies used in relation to these indices, can be determined and selected by Societe Generale or one of its related companies. In the choice of these methodologies, it can be expected that Societe Generale or the relevant related company of Societe Generale will take into account its own objectives and interests and / or those of the Group, and no guarantee can be given that the methodologies chosen will not be less favorable for the interests of investors than the methodologies used by other index sponsors in comparable circumstances.

If the hedging activities of Societe Generale or one of its related companies are disrupted in relation to a particular index, Societe Generale or the related company concerned may decide to end the calculations of this index, sooner than would another index sponsor in comparable circumstances. This could cause adjustments, de-indexation, substitution of the Index or the early redemption of the Notes.

4.2.2 Conflicts of interest in connection with proprietary indices

Societe Generale acts as sponsor of proprietary indices (SGI Indices). These indices are calculated by an external calculation agent in accordance with rules, which describe the methodology for determining the composition and calculation of these proprietary indices (the Rules).

(i) With regard to proprietary indices composed in a discretionary basis by Societe Generale or an affiliate of Societe Generale to which Notes are linked, Societe Generale may face a conflict of interest between its obligations as issuer of these Notes and as a

composer of these indices, given that the determination of the composition of these indices may have an impact on the value of the Notes. Consequently, investors may lose part or all of their investment in the Notes.

(ii) With regard to proprietary indices composed by a third party to which the Notes are linked, Societe Generale may face a conflict of interest between its obligations as issuer of these Notes and as a sponsor of these indices, insofar as it can modify or supplement the Rules, in accordance with the Rules, which may have an impact on the value of the Notes. Consequently, investors may lose part or all of their investment in the Notes.

(iii) With regard to proprietary indices composed by the application of a mathematical formula in a non-discretionary manner by Societe Generale or any third party, Societe Generale may face a conflict of interest between its obligations as issuer of these Notes and as a sponsor of these indices, insofar as it may modify, in accordance with the Rules, certain parameters (such as the funding spread) or provide the assessment of certain components, which may have an impact on the value of the Notes. Consequently, investors may lose part or all of their investment in the Notes.

4.3 Risks relating to Structured Notes linked to a Fund

4.3.1 Risks relating to underlying Funds

Some Funds may have little or no oversight and regulation, which can increase the likelihood of fraud and negligence on the part of Fund managers and / or investment advisers, their brokerage firm or the banks.

The Funds may include complex tax structures and deferrals in the distribution of important tax information.

The Funds on which Structured Notes may be indexed may not publish information on their transactions and portfolios.

The members of the Group may from time to time obtain information on specific Funds, which may not be available to the general public in the ordinary course of their business, and not in relation to the offer of Notes (including as funds which are managed by managers part of Societe Generale group). As part of the ordinary course of their business, Group members may recommend, or decide not to recommend, certain specific Funds to their customers, which may appear, currently or in the future, among the underlying Fund(s) used in the redemption formula of Structured Notes. All the positions that may be taken by the members of the Group in respect of the expected future performance of one or more funds (including in respect of funds which are managed by managers part of Societe Generale group) do not constitute an indication of the future performance of this/these funds.

4.3.2 Fund managers' investment strategies

The fund managers (including a manager that is part of Societe Generale group) do not participate in the offer of the Notes in any way and have no obligation to take into account the interest of the Noteholders in taking measures which could have an impact on the value of the shares or units of the underlying Fund(s) and therefore on the value of the Notes. Consequently, investors may lose part or all of their investment in the Notes.

The manager and / or investment advisor of the Underlying Fund who implements the investment strategy of the Fund may decide to invest in financial assets or instruments which themselves carry risk with a view to maximising profits, including by borrowing amounts that may represent more than 100% of the Fund's asset value. The manager and / or investment adviser may be all the more encouraged when his remuneration is indexed to the performance of the Fund. These elements can have a significant negative impact on the share / share of the underlying Fund and therefore on the value of the Notes. Consequently, investors may lose part or all of their investment in the Notes.

4.3.3 Fund managers and/or investment advisors of the underlying Fund(s)

The performance of underlying Fund(s) will depend to a considerable extent on the performance of the fund's managers and/or investment advisors of the Fund(s). Investors in Fund Linked Notes are therefore exposed to the risk of fraud and misrepresentation by unaffiliated fund managers or investment advisers. In addition, the fund managers and/or the investment advisors may be removed or replaced, the allocation of assets may vary from time to time and the various positions of the investments of the underlying Fund(s) may be economically offsetting, all of which may affect the performance of the underlying Fund(s).

The fund managers and/or the investment advisors may manage or advise other funds and/or accounts and may have financial and other incentives to favour such other funds and/or accounts over the underlying Fund(s). Also, the fund managers and/or the investment advisors may manage or advise for their own accounts and the accounts of their clients and may make recommendations or take positions similar or dissimilar to those of the underlying Fund(s) or which may compete with the underlying Fund(s).

4.3.4 Fees, deductions and charges will reduce any amounts due by the Issuer under the Notes

Fund fees and expenses will be deducted from the net asset value of the fund that may offset the Fund's trading profits, and hence reduce the value of the Fund units.

Accordingly, to the extent that any amount due by the Issuer under the Notes is linked to the net asset value of a fund, such amount payable to Noteholders will be less than it would have been absent these fees, deductions and charges.

4.3.5 The illiquidity of the underlying Fund's investments or the occurrence of certain extraordinary events may cause the determination of any amounts due by the relevant Issuer under the Notes to be reduced or delayed.

The intermediary amounts or final redemption amounts and other relevant amounts due to investors in Fund Linked Notes depend on the redemption proceeds of the units / shares of the Fund which will be paid by the underlying under a valid redemption order given by a hypothetical investor with effect as of the relevant valuation date. Substantial redemption orders on units/shares of an underlying Fund on a particular day (including by Societe Generale in liquidating the hedge relating to Structured Notes) could require such funds to liquidate positions more rapidly than would be otherwise desirable and have a negative impact on the market value of the Notes. Many funds have provisions whereby redemption requests are scaled back if the aggregate amount of such requests reaches a predetermined limit or where redemption orders can be delayed or suspended discretionarily.

Investments of the underlying Fund may also not be readily saleable on or shortly after a redemption order if they are illiquid.

If the proceeds from the redemption of the units or shares have not been paid by the underlying Fund on the initially Scheduled Maturity Date or on any early redemption date, the payment of any amount due by the relevant Issuer may be postponed after the maturity date up to a maximum period of two years or as specified in the Final Terms. If at the expiry of this period, the underlying Fund has not paid in full the redemption proceeds or the units or shares, the amount due under the Notes shall be determined by the Calculation Agent on the basis of what has actually been paid by the underlying Fund. The amount received by the investors in the Notes may be as low as zero.

4.3.6 Risks relating to master-feeder structure

The underlying Fund(s) may invest as a "feeder" fund of a "master" fund, alongside present and future additional investors or feeder funds. A "feeder" fund usually refers to a fund which pools the investment capital raised from investors and invests (or "feeds") such capital in an overarching umbrella fund (usually known as a "master" fund), which will be responsible for the investments in its portfolio.

The underlying Fund(s) may be materially affected by the actions of such other investors and feeder funds investing in the master fund, particularly if they have large investments in the master fund. If such other investors or feeder funds with a large investment in the master fund redeem from the master fund, illiquidity in certain securities or markets could make it difficult for the master fund to liquidate positions on favourable terms to effect such redemption, which could result in losses or a decrease in the net asset value of the unit/share of the master fund and hence in the market value of the Notes. In addition, to satisfy such redemptions, the sub-manager may need to liquidate the master fund's most liquid investments; leaving remaining investors (including the underlying Fund(s)) invested in more illiquid instruments. Such withdrawals may also leave the master fund with a less diversified pool of investments. This may increase the overall portfolio risk of the master fund, and, ultimately, the Notes. Conversely, the sub-manager of the master-fund may refuse a redemption request if it believes that such request, if fulfilled, would have a material adverse impact on the remaining investors of the master fund. This may negatively impact the liquidity of the master fund and, therefore, the performance of the underlying Fund(s) and the value of the Notes. Consequently, depending on the performance of the underlying Fund(s), Noteholders may lose part or all of their investment in the Notes.

4.4 Risks relating to Structured Notes linked to Credit

Noteholders are exposed, from a date specified in the applicable Final Terms, which may be earlier than the date of their decision to invest in the Notes or the Issue Date, to events related to the creditworthiness of the Reference Entities. Upon the occurrence of such events, the amount paid or the value of the underlying assets received at maturity of the Notes (after deduction of the costs, break funding charges, loss of funding, tax and duties) determined by reference to the value of the debt of the Reference Entity may be less than the invested amount. In addition, interest-bearing Credit Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstances.

In certain circumstances the period between the date on which the existence of a Credit Event is established and valuation may be as long as 180 days. Therefore, settlement, or as the case may be, notice that no amount is due under the Credit Linked Notes, may occur several months after the relevant Credit Event on a date which may be much later than the Scheduled Maturity Date of the Notes.

4.4.1 Risk in respect of Tranche Notes

Tranche Notes are Notes which are exposed to the credit risk of a list of Reference Entities, starting from an attachment point and ending on a detachment point (both expressed in percentages by reference to such list of Reference Entities). The principal and interest payable to the Noteholder will start to be impacted when the sum of losses incurred on the list of Reference Entities will have reached the attachment point, and 100% of the principal and interest payable to the Noteholder will be fully lost when the sum of losses will have reached the detachment point. The sum of such losses is expressed in percentages by reference to the list of Reference Entities.

Compared to an investment in a basket of the same list of Reference Entities, investment in Tranche Notes creates a leverage effect on the credit risk exposure of the Reference Entities. When the trigger threshold for a credit event is reached, the principal and interest payable to the Noteholder will be impacted more strongly the closer the detachment point is and the faster the detachment point is reached. The leverage effect comes from the impact of each affected Reference Entity in Tranche Notes once the attachment point has been reached. The leverage effect depends on the width of the tranche (detachment point minus attachment point) and is much higher compared to the impact the same Reference Entity has in a basket of Reference Entities which are not Tranche Notes.

4.4.2 Risk in respect of Basket Notes

In respect of Basket Notes, the greater the number of Reference Entities subject to a Credit Event, the lower the amount due under the Notes will be. Conversely, the fewer the Reference Entities, the greater the impact of a Credit Event affecting one of them will be on the Final Redemption Amount.

4.4.3 Risk in respect of Credit Linked on bespoke Basket Notes

In respect of bespoke Basket Notes, the greater the number of Reference Entities subject to a Credit Event, the lower the Final Redemption Amount will be. Conversely, the fewer the Reference Entities, the greater the impact of a Credit Event affecting one of them will be on the Final Redemption Amount.

The concentration of the Reference Entities in any one industry or geographic region would subject the Notes to a greater degree of risk with respect to economic downturns relating to such industry or geographic region.

4.4.4 Increased risk in respect of First-to-Default Notes

First-to-Default Notes are Notes where the credit risk to the Noteholder is materialised on the occurrence of the first credit event of any Reference Entity in a basket of Reference Entities. Given that the credit risk to the Noteholder can materialise on the occurrence of the first credit event of any Reference Entity in the basket, the Noteholder can lose a significant part or all of its investment in the Notes as soon as one single Reference Entity in the basket becomes subject to a credit event. In addition, the more Reference Entities there are in the basket of Reference Entities, the more likely it is that a credit event can occur, and the greater the degree of risk that the Noteholder may lose its entire principal invested in the Notes.

4.4.5 Valuation and settlement in case of Credit Event

Under the terms of the Notes, where Societe Generale acts as Calculation Agent, it may, for the purposes of determining the amount due under the Credit Linked Notes under the Quotation Dealers Method or the Physical Delivery Amount (each as defined in Condition 2 of the Additional Terms and Conditions for Credit Linked Notes) following one or more Credit Event(s), select obligations with the lowest price of any obligations which meet the relevant criteria. This may affect the value of the Notes and Noteholders may therefore lose part or all of their initial investment in the Notes.

4.4.6 Floating recovery

Where Floating Recovery is specified in the related Final Terms, the terms of the Credit Linked Notes provide that the Calculation Agent will, depending on the election mentioned in the related Final Terms, determine the Final Value either by obtaining quotations from Quotation Dealers in respect of Selected Obligation(s) or by reference to Transaction Auction Settlement Terms (as defined in Condition 2 of the Additional Terms and Conditions for Credit Linked Notes). In this regard, investors should note that: (A) the Final Value as determined by reference to Transaction Auction Settlement Terms may be lower than the Final Value determined otherwise and will typically reduce the amount due under the Notes; and (B) (i) if Transaction Auction Settlement Terms are not published or (ii) a Fallback Settlement Event (as defined in Condition 2 of the Additional Terms and Conditions for Credit Linked Notes) occurs within a certain period and if it is not possible to obtain quotations from Quotation Dealers for the Selected Obligations (as defined in Condition 2 of the Additional Terms and Conditions for Credit Linked Notes) within a further period, the Final Value of the Selected Obligations will be deemed to be zero and therefore the amount due under the Notes will be equal to zero.

4.4.7 Fixed Recovery

Where Fixed Recovery is specified in the applicable Final Terms (which can be zero), the terms of Credit Linked Notes provide that the Final Value of a Reference Entity in respect of which a Credit Event Determination Date has occurred will be equal to the fixed percentage of the Specified Denomination specified in the applicable Final Terms (which can be zero).

This percentage may be lower than the recovery value, which would have been determined by reference to prices quoted by market participants or by using an auction valuation method in respect of such Reference Entity, or even be equal to zero.

4.4.8 Deferral of valuation and/or payments

In certain circumstances the period between the date on which the existence of a Credit Event is established and valuation may be as long as 180 days therefore, settlement, or as the case may be, notice that no amount is due under the Credit Linked Notes, may occur several months after the relevant Credit Event on a date which may be much later than the Scheduled Maturity Date of the Notes. If this occurs, this could adversely affect the value of the Notes and Noteholders may therefore lose part or all of their initial investment in the Notes. Also it is possible that no payment on the Notes may be due to the Noteholders on the Scheduled Maturity Date.

4.5 Risks relating to Structured Notes linked to a Bond

Noteholders are exposed as from a date specified in the Final Terms (which may be earlier than the date of their decision to invest in the Notes or the Issue Date) to events (specified in the Final Terms) relating to the creditworthiness of the relevant Bond Issuer. In the event of the occurrence of one of these events, the amount paid or the value of the Bond received, at maturity of the Notes (after deduction of costs, breakage cost funding charges, loss of funding, taxes and duties) determined by reference to the value of the Bond(s) may be less than the amount invested. In addition, interest-bearing Bond Linked Notes may cease to bear interest on or prior to the date of occurrence of such events. Investors' attention is drawn to the fact that no, or a reduced amount of, Cash Redemption Amount may be due under the Bond Linked Notes and settlement (whether American Settlement or European Settlement is specified

in the applicable Final Terms) may occur several months or years after the relevant Bond Event and on a date which may be later than the Scheduled Maturity Date of the Notes.

4.5.1 Ranking of the Bonds

Depending on the ranking, the obligations of the Bond Issuer and/or as the case may be the Bond Guarantor, may rank junior in priority of payment to unsubordinated creditors, to holders of subordinated obligations expressed by their terms to rank in priority to the Bonds and/or to creditors preferred by mandatory and/or overriding provisions of law. In the event of incomplete payment to creditors that rank senior to the ranking of the Bonds, the obligations of the Bond Issuer and/or the Bond Guarantor, as the case may be, in connection with the Bonds may be terminated. The ranking of the Bonds may accordingly increase the credit risk on the Bond Issuer and/or the Bond Guarantor as the case may be and as a result may increase the likelihood of the occurrence of a Bond Event(s). If a Bond Event(s) occurs, this could have an adverse effect on the value of and return on the Notes. Consequently, Noteholders may lose part or all of their investment in the Notes.

4.5.2 Risk in respect of Basket Bond Linked Notes

In respect of Basket Bond Linked Notes, the greater the number of Bonds in the basket subject to a Bond Event, the lower the amount due under the Notes will be. Conversely, the fewer the Bonds in the basket, the greater the impact of a Bond Event affecting one of them will be on the Final Redemption Amount. The concentration of the Bond Issuers in any one industry or geographic region would subject the Notes to a greater degree of risk with respect to economic downturns relating to such industry or geographic region.

4.5.3 Floating recovery

Where Floating Recovery is specified in the related Final Terms, the Calculation Agent will determine the Bond Final Value by obtaining quotations from Quotation Dealers in respect of the Bonds. In this regard, investors should note that: (i) the Bond Final Value as determined by the Calculation Agent may be lower than the Bonds' market value determined otherwise and will typically reduce the amount due under the Notes and (ii) such Bond Final Value cannot exceed 100% (unless otherwise specified in the applicable Final Terms) of the Bond Notional Amount irrespective of the Bonds market value determined otherwise.

4.5.4 Fixed Recovery

Where Fixed Recovery is specified in the related Final Terms, the Additional Terms and Conditions for Bond Linked Notes provide that the Bond Final Value of a Bond in respect of which a Bond Event Determination Date has occurred will be equal to the fixed percentage of the Specified Denomination specified in the related Final Terms.

This percentage may be lower than the recovery value, which would have been determined by reference to prices quoted by market participants or by using an auction valuation method in respect of such Bond or may even be equal to zero.

4.5.5 Exposure to a hypothetical transaction and Breakage Cost Amount

The Notes may include reference in the applicable Final Terms to:

(i) a hypothetical transaction deemed entered into between Societe Generale and a hypothetical counterparty, in order to hedge amounts (whether principal, interest or any other amounts) that would have been paid (x) on the Bond, in accordance with its original terms as at the Issue Date of the Notes, from (and including) the Issue Date of the Notes to (and including) the maturity date of the Bond (such amounts being deemed payable by Societe Generale or any of its affiliates to the hypothetical counterparty) and (y) on the Notes from (and including) the Issue Date of the Notes to (and including) the Scheduled Maturity Date (as defined in the applicable Final Terms) of the Notes (such amounts being deemed payable by the hypothetical counterparty to Societe Generale or any of its affiliates) (the "**Reference Transaction**"); and/or

(ii) a breakage cost amount, being an amount determined by the Calculation Agent equal to the fees, costs and expenses arising directly or indirectly, in connection with (i) terminating, unwinding, realizing or enforcing any repurchase transaction (if any) with the Bond as underlying asset, the purpose of which is to refinance the relevant Bond and (ii) entering into, trading or increasing any repurchase transaction (or any transaction with similar purposes) with the Collateral Assets (if any) as underlying asset, the purpose of which is to refinance the Collateral Assets (if any) (the "**Breakage Cost Amount**").

If a Bond Event Determination Date occurs in respect of a Bond, the amount payable to Noteholders (the "**Cash Redemption Amount**"), may be reduced, potentially down to zero, by the Reference Transaction Price (being the amount, as determined by the Calculation Agent, due in terminating, liquidating or re-establishing the Reference Transaction) and/or the Breakage Cost Amount. Noteholders may therefore lose all or part of their investment in the Bond Linked Notes.

4.5.6 Market Trigger Event

If Market Trigger Event is specified as applicable in the related Final Terms and the Calculation Agent determines that the secondary mid price of the Notes has fallen below a certain level for a certain period, the Notes may be early redeemed at an amount equal to the Market Trigger Event Bond Market Value (which may be as low as zero) minus the Market Trigger Event Reference Transaction Price (which may be a positive or negative amount) resulting in a redemption amount payable on the Notes as low as zero, this amount being subject to a floor value equal to zero. As a consequence, the investor may lose all or part of the invested amount.

4.6 Risks relating to Structured Notes linked to a Foreign Exchange Rate

The performance of Foreign Exchange Rates, currency units or units of account are dependent upon the supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, fiscal and monetary policy, government debt, currency convertibility and safety of making financial investments in the currency concerned, speculation and intervening measures taken by governments and central banks. Such measures include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates as well as the availability of a specified currency. Any such measures could have a negative impact on the performance of a Foreign Exchange Rate and consequently the value of the Notes.

Currency exchange risks can be expected to heighten in periods of financial turmoil. In periods of financial turmoil, capital can move quickly out of regions that are perceived to be more vulnerable to the effects of a crisis with sudden and severely adverse consequences to the currencies of those regions as a result. In addition, governments around the world have recently made, and may be expected to continue to make, very significant interventions in their economies, and sometimes directly in their currencies. It is not possible to predict the effect of any future legal or regulatory action relating to a currency. Further interventions, other government actions or suspensions of actions, as well as other changes in government economic policy or other financial or economic events affecting the currency markets – including the replacement of entire currencies with new currencies - may cause Foreign Exchange Rates to fluctuate sharply in the future, which could have a negative impact on the value of the Notes.

4.7 Risks relating to Structured Notes linked to Preference Shares or Warrants

The market value of the Preference Shares or Warrants to which Notes may be linked will fluctuate up or down depending on the performance of the relevant underlying(s) or basis of reference to which the Preference Shares or Warrants are linked (the Preference Share Underlying or Warrant Underlying) such as equity, debt or derivative securities, indices, investments, funds, exchange traded funds, commodities, credit, baskets of securities or indices, currencies and portfolios. The composition of the relevant Preference Share Underlying(s)/Warrant Underlying(s) may be designed to change over time as a result of performance or other factors.

As a result, if the performance of the Preference Share Underlying/Warrant Underlying is negative, the value of the Preference Share Linked Notes/Warrant Linked Notes will be adversely affected. Purchasers of Preference Share Linked Notes/Warrant Linked Notes risk losing all or a part of their investment if the value of the Preference Shares/Warrants falls.

The basis and rate of taxation in respect of Preference Share Linked Notes/Warrant Linked Notes and reliefs depend on each investor's individual circumstances and could change at any time. This could have a negative impact on the return of the Preference Share Linked Notes/Warrant Linked Notes. In the event that the Preference Share Linked Notes/Warrant Linked Notes pay a coupon other than on redemption (such term including early or final redemption), prospective investors should be aware that such coupon will likely be subject to income tax.

4.8 Risks relating to Structured Notes linked to Inflation

The level of an Inflation Index may lag or otherwise not track the actual level of inflation in the relevant jurisdiction.

Inflation Indices may not correlate with other indices and may not correlate perfectly with the rate of inflation observed by purchasers of the Inflation Linked Notes in such jurisdiction. The value of the Inflation Linked Notes which are linked to an Inflation Index may be based on a calculation made by reference to such Inflation Index for a month which is several months prior to the date of payment on the Inflation Linked Notes and therefore could be substantially different from the level of inflation at the time of the payment on the Inflation Linked Notes.

Upon the occurrence of certain events in relation to an Inflation Index, e.g., the Inflation Index level has not been published or is discontinued or is corrected or such Inflation Index is rebased or materially modified, then depending on the particular event, the Issuer may determine the level, substitute the original Inflation Index, adjust the terms and conditions of the Inflation Linked Notes or redeem the Inflation Linked Notes. Any such event and its consequences may have an adverse effect on the value of the Inflation Linked Notes.

4.9 Risks relating to Structured Notes linked to exchange traded product (ETP) and to exchange traded fund (ETF)

4.9.1 Exchange traded products and Exchange traded funds are subject to market trading risks

An ETP or an ETF faces numerous market trading risks, including but not limited to the potential lack of an active market, losses from trading in secondary markets, periods of high volatility, limited liquidity and disruption in the creation or redemption process of such ETP or such ETF. If any of these risks materialises, this may lead to the ETP or ETF shares trading at a premium or discount to its fair market value.

4.9.2 Action or non-performance by the ETP issuer, the sponsor of the ETP or the Calculation Agent or by the management company, fund administrator or sponsor of an ETF that may adversely affect the Notes

In case of an ETP Linked Notes, the ETP issuer and/or the sponsor of the ETP and in case of an ETF Linked Notes, the management company, fund administrator or sponsor of an ETF will have no involvement in the offer and sale of the Notes and will have no obligation to any purchaser of such Notes. In its day-to-day operations and its investment strategy, an ETP will rely on the ETP issuer,

the sponsor of the ETP and the Calculation Agent and an ETF will rely on the fund advisor, the investment advisor, the management company and/or on third parties providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments used by such ETF to employ its investment strategy. The insolvency or non-performance of services of any such persons or institutions may expose an ETP or an ETF to lose value. Failure of procedures or systems, as well as human error or external events associated with, in case of an ETP, an ETP's issuer, sponsor or Calculation Agent and in case of an ETF, an ETF's management and/or administration, may reduce the value of the ETP or the ETF and affect the market value of the Notes.

4.9.3 Credit risk of the issuer of the ETP or the ETF

The value of the ETP Linked Notes or the ETF Linked Notes is dependent on the value of the ETPs or the ETFs, which will depend in part on the creditworthiness of the issuer of the ETPs or of the ETFs, which may vary over the term of the relevant Notes. A change in the creditworthiness of the issuer of the ETPs or of the ETFs may therefore affect the performance of the ETPs or ETFs respectively, and the value of Notes linked to ETPs or ETFs (as the case may be). Consequently, depending on the performance of such ETPs or ETFs, Noteholders may lose part or all of their investment in the ETP Linked Notes or the ETF Linked Notes.

4.9.4 Exposure to the ETP Underlying

ETPs usually aim to track the performance of an underlying financial instrument or basket thereof, which may include, without limitation, listed equities, commodities, interest rates, foreign exchange rates, debt instruments, derivatives or any index thereof (the **ETP Underlying**). In addition, when compared to exchange traded funds, exposure to ETPs may involve a higher level of leverage and/or short exposures and/or more concentrated exposures.

Prospective investors should also consider the risk factors in respect of the risks involved in investing in ETPs including, without limitation, risks relating to the ETP Underlying and to the underlying economics of the ETPs. Consequently, prospective investors should review the ETP Documents and consult with their own professional advisers if they consider it necessary.

4.9.5 Risk that the ETP does not accurately track its underlyings' performance

Where the Notes are linked to an ETP, Noteholders are exposed to the performance of such ETP and not necessarily the performance of the ETP Underlying. Accordingly, investors who purchase Notes that are linked to an ETP may receive a different return than if such investors had directly invested into the ETP units or the ETP Underlyings.

4.9.6 Where the underlying asset is an exchange traded fund, there is a risk that such Exchange Traded Fund will not accurately track its underlying share or index

Where the Notes are linked to an exchange traded fund (an ETF) and the investment objective of such ETF is to track the performance of a share or an index, the investors of such Notes are exposed to the performance of such ETF rather than the underlying share or index such ETF tracks. For certain reasons, including to comply with certain tax and regulatory constraints, an ETF may not be able to track or replicate the constituent securities of the underlying share or index, which could give rise to a difference between the performance of the underlying share or index and such ETF. Accordingly, investors who purchase Notes that are linked to an ETF may receive a lower return than if such investors had invested in the share or the index underlying of such ETF directly.

4.9.7 Exchange traded funds not actively managed

If the investment objective of an ETF is to track the performance of an index or other asset, such ETF will invest in instruments included in, or that are representative of, the index or other asset it is tracking regardless of their investment merits. The performance of such ETF may be affected by general movements in market segments related to the index or other asset it is tracking, and such general movements in market segments may therefore affect the value of Notes linked to such ETF. Consequently, depending on the performance of such ETF, Noteholders may lose part or all of their investment in the ETF Linked Notes.

4.9.8 Exchange traded funds may engage in securities lending

Securities lending involves the risk that the ETF may lose money because the borrower of the ETF's loaned securities fails to return the securities in a timely manner or at all or that insufficient collateral has been posted in respect of such securities lending transaction. Securities lending carried out by the ETF may therefore affect its performance and the value of Notes linked to such ETF. Consequently, depending on the performance of such ETF, Noteholders may lose part or all of their investment in the ETF Linked Notes.

4.9.9. Specific risks relating to Cryptocurrency Assets ETP or ETF

ETP linked Notes and ETF linked Notes for which the Underlying ETP or ETF is referencing Cryptocurrency Assets may not be distributed to retail investors other than well-informed investors (as defined in Paragraph 3 (*Method of Distribution*) in the "*General Description of the Programme*" section).
Where the Underlying ETP or ETF references one of more cryptocurrency assets (each a **Cryptocurrency Asset**), the following additional risk factors apply. For the avoidance of doubt, Cryptocurrency Assets include, without limitation, cryptocurrencies such as Bitcoin or Ethereum. An ETP or ETF that references Cryptocurrency Assets seeks to provide exposure to one or more Cryptocurrency Assets, and the Notes may be linked to the performance of such ETP or ETF (together, the "ETP Linked Notes or ETF Linked Notes").

Factors that impact the Market Value of Cryptocurrency Assets:

The market value of Cryptocurrency Assets is not related to the business of financial performance of any specific company, government or tangible asset. Their valuation depends on a range of factors, including (without limitation) market expectations for the value of the Cryptocurrency Assets network, the number of Cryptocurrency Assets transactions, and the overall usage of Cryptocurrency Assets as an asset. This means that a significant component of the value of Cryptocurrency Assets is speculative. As a result, prices can be highly volatile and may change materially intraday. Noteholders could experience significant price swings, illiquidity and/or losses in respect of the Underlying ETP or ETF. There can be no assurance that any Cryptocurrency Asset will maintain its value; in extreme cases, its value may decline rapidly, including to zero. Accordingly, Noteholders may lose part or all of their investment in the ETP Linked Notes or ETF Linked Notes.

Several factors may affect the price of Cryptocurrency Assets. These factors include, but are not limited to: supply and demand, investors' expectations regarding the rate of inflation, interest rates, currency exchange rates, or future regulatory measures (if any) that restrict the trading of Cryptocurrency Assets or its use as a form of payment. The issuance of Cryptocurrency Assets is determined by a computer code, not by a central bank, and prices can be extremely volatile. There is no assurance that Cryptocurrency Assets will preserve their long term purchasing power or that merchant or institutional acceptance will continue to develop. The value of the Underlying ETP's or ETF's investments in Cryptocurrency Assets could decline rapidly, including to zero. Consequently, depending on the performance of such ETP or ETF, Noteholders may lose part or all of their investment in the ETP Linked Notes or ETF Linked Notes.

New or less established Cryptocurrency Assets may compete with, reduce the relevance of, or displace the Cryptocurrency Asset to which the ETP or ETF is linked. Shifts in user preferences, developer ecosystems or perceived utility may adversely affect demand for the referenced Cryptocurrency Asset. Such competitive dynamics may cause the value of the Underlying ETP or ETF to fall materially and, in extreme circumstances, to zero, in which case Noteholders may lose part or all of their investment.

The market for Cryptocurrency Assets remains nascent and may comprise a limited number of participants and trading venues. Concentrated participation and trading on a small number of venues may result in pronounced price movements, dislocations and periods of illiquidity, which in extreme market conditions, may contribute to a total loss of the invested amount in the ETP Linked Notes or ETF Linked Notes.

Trading hours:

Cryptocurrency Asset markets generally operate on a 24/7 basis, whereas trading in the Notes will be limited to the applicable trading venue's hours and calendar. Noteholders may be unable to buy or sell the Notes, or otherwise react to price movements in Cryptocurrency Assets, outside the Notes' trading hours. Such features may adversely affect the return on, value and liquidity of the Notes and, in extreme market conditions, may contribute to a total loss of the invested amount.

Technology, protocol and cybersecurity risk (including forks):

The technology that Cryptocurrency Assets rely on is comparatively new and not yet fully tested. Cryptocurrency Assets are often based on decentralized networks and open source network protocols. In this context, it is possible and also necessary to update, amend or change the protocol from time to time, which can lead to a so-called "fork" of the Cryptocurrency Asset. Generally, a fork can be described as an update for the existing protocol of a Cryptocurrency Asset. Forks can be divided into so-called "hard-forks", where the newer protocol is not compatible with the older one, and "soft-forks", where the newer protocol is compatible with the older one. Therefore, a "hard-fork" can result in a split of the chain and a creation of a new Cryptocurrency Asset. Software bugs, vulnerabilities, consensus failures, cyber-attacks, fraud, theft, loss or compromise of private keys or custody arrangements, operational failures at service providers (including trading venues, custodians or wallet providers) or sustained disruptions may impair network functionality, fragment liquidity or adversely affect price discovery and valuations. Noteholders should be aware that changes, such as a fork, new developments in the technology or operational risks may affect the value of Cryptocurrency Assets and could have a material adverse effect on the return on and value of the Notes and their liquidity. Consequently, depending on the performance of the Underlying ETP or ETF referencing Cryptocurrency Assets, Noteholders may lose part or all of their investment in such ETP Linked Notes or ETF Linked Notes.

Regulatory and legal risk:

The legal and regulatory frameworks applicable to Cryptocurrency Assets, service providers and trading venues continue to evolve across jurisdictions. Changes in laws, regulations, supervisory guidance, tax treatment, licensing requirements or enforcement practices (including the classification of certain Cryptocurrency Assets) may restrict, or have the effect of restricting, trading, transfer, custody or other activities related to Cryptocurrency Assets or to the operation of ETPs or ETFs that reference them. Such changes (or uncertainty regarding such changes) may adversely affect valuations and liquidity of the Underlying ETP or ETF. Adverse regulatory developments could contribute to a total loss of the invested amount in the ETP Linked Notes or ETF Linked Notes.

4.10 Risks relating to Structured Notes linked to a Reference Rate

The performance of the Reference Rates is dependent on economic factors, including inflation rates in the relevant countries, economic forecasts, international political factors, monetary and fiscal policy, government debt, speculation and actions taken by governments and central banks. Such factors could have a negative impact on the performance of the Reference Rate and consequently on the value of the Notes. These factors can be expected to intensify in periods of financial turmoil.

4.11 Risks relating to Future Linked Notes

An investment in Future Linked Notes may bear similar market risks as a direct investment in the relevant future contract(s). The value of the future contract(s) underlying the Notes may vary over time and may increase or decrease by reference to a variety of factors which include the factors affecting the Future Underlier, as defined in the Additional Terms and Conditions for Future Linked Notes.

Futures contracts have a predetermined Expiry Date as defined in the Additional Terms and Conditions for Future Linked Notes. If the applicable Final Terms specify that Roll Adjustment applies, the Notes are valued by reference to futures contracts that have an Expiry Date that does not correspond to the term of the Notes, consequently the Calculation Agent will roll the Future Contracts (the **Roll Adjustment**) which means that the future contracts that is the closest to expiration (the **Active Future Contract**) will be replaced before it expires by a future contract that has an Expiry Date later in the future (the **Next Active Future Contract**).

On each Rolling Date, the price of the Active Future Contract may be lower than (respectively higher than) the price of the Next Active Future Contract if the future curve is in contango (respectively in backwardation). The Roll Adjustment may as a consequence have either a positive or negative impact on the value of the Notes. This may result in a partial or total loss of the investment in the Notes.

In addition to the effects of contango and backwardation, each "roll" may generate costs that will be taken by the Calculation Agent. These costs correspond to the expenses incurred in replacing the futures contract (transaction costs) and may have an adverse effect on the return of the Notes.

Prospective purchasers of Notes should be aware that in respect of Notes on futures contract that are rolled, the potential negative impact on the value of the Notes induced by the roll may lead to a performance of the Notes lower than the performance that would have been generated by Notes on the Future Underlier itself.

4.12 Risks relating to Portfolio Linked Notes

The market value of Portfolio Linked Notes will fluctuate up or down depending on the performance of the relevant components of the Portfolio such as equity, debt or derivative securities, indices, investments, funds, exchange traded funds, commodities, credit, baskets of securities or indices, currencies and portfolios. Such performance may be affected by changes in the value of the different components in the Portfolio to which the relevant issue of Portfolio Linked Notes relates. This value may be affected by (i) the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which any component comprising the Portfolio may be traded, (ii) risks highlighted in section "Risk Factors" (Risk factors relating to Structured Notes) relating to individual types of underlyings which are included in the relevant Portfolio and (iii) other factors set out elsewhere in "*Risk Factors*". The composition of the Portfolio may be designed to change over time as a result of performance or other factors.

As a result, if the performance of the Portfolio is negative, the value of the Portfolio Linked Notes reference will be adversely affected. Purchasers of Portfolio Linked Notes risk losing all or a part of their investment if the value of the Portfolio falls.
Consequently, prospective investors, when considering investing in Portfolio Linked Notes, should also consider the risk factors linked to the Portfolio Components.
In addition, there may be correlation between price movements of one component and the price movements of another component of the Portfolio that may have a negative impact on the value of the Portfolio. As such, the value of Portfolio Linked Notes can therefore be volatile and this may result in Noteholders losing all, or a substantial part, of their investment.
In addition, Portfolio Linked Notes may be subject to a number of costs which would negatively impact the value of the Portfolio Linked Notes.

- **Exposure to the Dynamic Portfolio**

Holders of Notes linked to a Dynamic Portfolio are exposed to the risk of changes in the market value of such Notes resulting from both changes in the prices of the assets comprising the Dynamic Portfolio and recommendations for replacement or weighting of the assets comprising the Weighting Advisor's Portfolio. Consequently, depending on the performance of such Dynamic Portfolio and the market value of Notes linked to such Dynamic Portfolio, Noteholders may lose part or all of their investment in such Notes.

- **Risks relating to the Weighting Advisor**

Investors in Portfolio Linked Notes are exposed to the risk of the operational capacity and expertise of the Weighting Advisor to provide recommendations for replacement or weighting of the assets comprising the Portfolio throughout the life of the Notes.

Even though the Issuer and the Calculation Agent have designated the Weighting Advisor, the Weighting Advisor shall act in the exclusive interest of the Noteholders. Consequently, the Weighting Advisor is exclusively responsible to the Noteholders for any recommendations for replacement or weighting of the assets comprising the Portfolio or for any fraud, negligence or misrepresentation.

In addition, in the event of termination of the Weighting Advisory Agreement, investors are exposed to the risk of de-indexation to the Dynamic Portfolio and a monetary return, replacement of the Weighting Advisor or early redemption of the Notes. The occurrence of any of these events may impact on the market value of the Notes and may result in the total or partial loss of the amount invested in the Notes.

Noteholders should refer to the Weighting Advisory Agreement for more information.

- **Risk of conflict of interests between the Issuers, the Guarantor, the Calculation Agent and the Weighting Advisor and the Noteholders**

The Issuers, the Guarantor, the Calculation Agent or the Weighting Advisor, may engage in trading and other business activities relating to the Portfolio Components without regard to the Notes and that are not for the Noteholders' accounts or on behalf of the Noteholders. Such trading and other business activities could create conflicts between the interests of the Issuers, the Guarantor, the Calculation Agent and the Weighting Advisor on the one hand, and the interests of the Noteholders on the other hand, which could have an adverse impact on the value of and return on the Notes. Consequently, investors may lose part or all of their investment in the Notes.

4.13 Risks relating to Structured Notes linked to a Dividend

Prospective investors in Dividend Linked Notes should be aware that, depending on the specific terms and conditions of the relevant Dividend Linked Notes, (i) they might only receive a limited amount of interest or no interest at all, (ii) payment of principal or interest could occur at a time other than that stipulated, (iii) they could lose all or a substantial part of their investment. In addition, dividend levels can be subject to significant fluctuations which bear no relation to fluctuations in interest rates, currencies or other indices, and the timing of such variations can impact the real yield realised by investors, even in cases where the average level is in accordance with expectations.

In general, the earlier the change in the dividend amount or the amount resulting from a formula occurs, the greater the impact on yield. The market price of such Notes can be volatile and might depend on the length of the residual maturity and the volatility of the dividend amounts.

5. ADDITIONAL RISKS ASSOCIATED WITH SECURED NOTES (ISSUED BY SG ISSUER ONLY)

5.1 Risks relating to the Collateral Assets

- There is no guarantee that the Collateral Assets will be sufficient to ensure that, following enforcement of a Pledge Agreement, the amounts available for distribution or the value of the Collateral Assets available to be delivered will be sufficient to pay all amounts due to Noteholders in respect of the relevant Secured Notes. In addition, Collateral Percentage may be lower than 100%. In that case the Noteholders will still have a claim against the Guarantor for any unpaid amounts.

- The value of the assets used as collateral value can be 3 per cent lower than the required collateral value. This tolerance threshold amplifies most of the risks associated with Secured Notes described herein and in particular the risk that following enforcement of a Pledge Agreement, the amounts available for distribution or the value of the Collateral Assets available to be delivered by the Security Trustee or the Security Agent will not be sufficient to pay all amounts due to Noteholders in respect of the relevant Secured Notes. In that case, the Noteholders will still have a claim against the Guarantor for any unpaid amounts.

- **Lack of diversification of the Collateral Assets**

In case of low diversification of the Collateral Assets in a Collateral Pool pursuant to the Eligibility Criteria and the Collateral Rules, any depreciation in the value of such assets in the period between the most recent Collateral Test Date and the realisation of the Collateral Assets will have a proportionally larger impact on any shortfall as the amount recovered in respect of the Collateral Assets on their sale will be dependent on the then current market value of a smaller range of Collateral Assets.

- **"Haircut" applied to Collateral Assets**

A “Haircut” (if specified in the applicable Final Terms) means the percentage amount by which the value of each type of Collateral Asset contained in a Collateral Pool is discounted. One Haircut value may be specified in the applicable Final Terms per type or class of Collateral Asset. The level(s) of Haircut specified in the applicable Final Terms is intended to reflect the risk of a depreciation in the value of Collateral Assets in the period between the most recent Collateral Test Date and the date on which such Collateral Assets may be realised. Investors should note that the value of a Collateral Asset may change over time and the Haircut applied to the Collateral Assets may become outdated and may not provide suitable protection against a potential depreciation in value of the relevant Collateral Asset.

- **Illiquid Collateral Assets**

Certain of the Collateral Assets may be illiquid and not easily or not at all realisable in certain market circumstances or can only be sold at a discounted value. In that case, investors may receive the delivery of the Collateral Assets as if Physical Delivery of Collateral Assets were applicable in relation thereto.

5.2 Secured Note Acceleration Event and Enforcement of the security

A Noteholder (or, in the case of French Law Notes only, the Representative of the Masse) is only entitled to send a Collateral Enforcement Notice if neither SG Issuer nor the Guarantor has paid all amounts due to such Noteholder within a period of 3 Collateral Business Days following the occurrence of the relevant Secured Note Acceleration Event.

During the 3 Collateral Business Days period there may be a depreciation in the value of the relevant Collateral Assets, thus reducing the amount available to satisfy the claims of Noteholders upon realisation of the Collateral Assets. In addition, the Collateral Assets may suffer a fall in value between the time at which the Collateral Enforcement Notice is sent by a Noteholder (or, in the case of French Law Notes only, the Representative of the Masse) and the time at which the Collateral Assets are realised in full or, where Physical Delivery of Collateral Assets is applicable, delivered.

5.3 Frequency of Collateral Test Dates

The lower the frequency of the periodic Collateral Test Dates specified in the applicable Final Terms and hence the greater the period of time between each such periodic Collateral Test Date (or even in the absence of any Collateral Test Date) the more likely it is that upon enforcement of the relevant Pledge Agreement, the proceeds of enforcement that a Noteholder will receive or, where Physical Delivery of Collateral Assets is applicable, the value of the Collateral Assets delivered, will be less than the amounts due to Noteholders in respect of the relevant Secured Notes. This could have an adverse effect on the value of and return on the Notes. Consequently, Noteholders may lose part or all of their investment in the Notes.

5.4 Correlation between the value of the Collateral Assets and the creditworthiness of SG Issuer and the Guarantor

In the event that there is a positive correlation between the value of the Collateral Assets and the creditworthiness of SG Issuer and the Guarantor, the value of the Collateral Assets may vary in the same way as the creditworthiness of SG Issuer and the Guarantor.

A default by SG Issuer and/or the Guarantor in relation to their obligations under the Secured Notes may be associated with a fall in the value of Collateral Assets securing such Secured Notes.

The value of Collateral Assets required to be posted in the Collateral Pool will be based on the Secured Note Market Value which takes into account SG Issuer's and the Guarantor's creditworthiness whereas, following an Event of Default, the Market Value determined by the Calculation Agent (which determines the claim that a holder of Non-Waived Notes has on SG Issuer and/or the Guarantor), will not take into account SG Issuer's or the Guarantor's creditworthiness and will not decrease following such Event of Default. As a result, the claim of the Noteholders against the Issuer/Guarantor may be significantly higher than the value of the Collateral Assets.

5.5 Specific risk due to the difference between the aggregate nominal value of the Non-Waived Notes and Market Value of the Notes following an Event of Default for the Nominal Value Type of Collateralisation

When pursuant to the applicable Final Terms the value of the Collateral Assets required to be posted in the Collateral Pool is based on the aggregate nominal value of the Secured Notes, the value of such Collateral Assets will not track the Market Value of the Secured Notes, consequently following the occurrence of an Event of Default, the value of Collateral Assets may be significantly lower than the claim of the Noteholders on SG Issuer and/or the Guarantor. Consequently, Noteholders may lose part or all of their investment in the Notes.

5.6 Subordination of Noteholders to payment of expenses and other payments

Following the enforcement of security, the rights of holders of Non-Waived Notes to be paid amounts from the proceeds of such enforcement and the realisation of the related Collateral Assets or, where Physical Delivery of Collateral Assets is applicable, to be delivered Collateral Assets, will be subordinated to and therefore rank behind claims relating to any amounts payable to Secured Parties ranking prior to the holders of Non-Waived Notes in accordance with the relevant order of priority and any rights of preference existing by operation of law.

5.7 Risk of a delay in the realisation of the Collateral Assets in the event of the insolvency of the Issuer, the Security Trustee, the Security Agent and/or the Collateral Custodian

In the event of the insolvency of SG Issuer, the Security Trustee, the Security Agent or the Collateral Custodian, the realisation of the Collateral Assets may be delayed either by the appointment of an insolvency administrator or other insolvency official in relation to SG Issuer, the Security Trustee, the Security Agent or the Collateral Custodian or by measures ordered by a competent court. Such delay could adversely affect the position of the Noteholders in the event of a depreciation in the value of the Collateral Assets during such period. Consequently, Noteholders may lose part or all of their investment in the Notes.

The Collateral Custodian, the Disposal Agent, the Substitute Paying Agent, the Security Trustee and the Security Agent are (unless otherwise specified in the applicable Final Terms) part of the same group and in the event of the insolvency of one entity it is possible that another entity may also be insolvent. Such circumstances may lead to a delay in the realisation of the Collateral Assets. However, the agreements in which such entities are nominated will contain provisions permitting their replacement.

5.8 Risk relating to Variable Collateralisation

When the Collateral Agent has the option to adjust the Collateralisation Percentage of Secured Notes with Variable Collateralisation during the terms of such Notes, the Collateralisation Percentage may be set as low as zero.

Investors in Secured Notes with Variable Collateralisation may be exposed partially or fully to the credit risk of the Guarantor. In particular, where the Collateralisation Percentage is at zero, investors may be fully exposed to credit risk on the Guarantor and their investment may not be collateralised by any Collateral Assets. Consequently, Noteholders may lose part or all of their investment in the Notes.

Investors should be aware that the secondary market value of Secured Notes with Variable Collateralisation is dependent on various factors, including the prevailing value of the implied funding spread of the Guarantor and the implied market cost of collateralisation. Investors seeking to have their Notes repurchased before maturity may be adversely affected by these factors and the repurchase price may be less than their original investment.

BASE PROSPECTUS USER GUIDE

INTRODUCTION

The purpose of this section (the "**User Guide**") is to provide a simple tool for investors to help them navigate throughout the various documents made available in relation to Notes issued by Societe Generale and SG Issuer (the "**Products**" or a "**Product**") under the Base Prospectus.

DOCUMENTATION

For each issue of Notes issued under the Base Prospectus, the following documents are made available to the potential investors systematically:

The Base Prospectus

This document:

- contains the information relating to the issuers and to the guarantor of the Notes, the general risk factors;

- describes the general terms and conditions of the Notes;

- details all the possible specific characteristics of the Notes, including all possible payoff formulae used to calculate the interest and/or the redemption amount(s) due early or at maturity, and a wide range of underlying assets.

These possible payoff formulae are set out, according to the relevant issuance and underlying asset(s), in the General Terms and Conditions of the English Law Notes ,the General Terms and Conditions of the French Law Notes or the General Terms and Conditions of the Swiss Law Notes, the Additional Terms and Conditions relating to Formulae or the relevant Additional Terms and Conditions for Structured Notes.

The Supplement(s) if any

This document is issued for every significant new factor, material mistake or inaccuracy relating to the information included in the Base Prospectus which is capable of affecting the assessment of the Notes and is made available on the website of the Luxembourg Stock Exchange (www.luxse.com) and on the website of the Issuers (http://prospectus.socgen.com).

The Final Terms (or Offering Circular in case of U.S. Exempt Securities)

This document is issued for each specific issue of Notes and may include, when the context requires it, a summary specific to such issue of Notes (referred to as **issue specific summary**) and contains:

- the general characteristics, e.g. relevant identification codes, specified denomination, etc.;

- the financial characteristics, e.g. coupons, redemption formula(e), automatic early redemption mechanism (if any) and the related definitions corresponding to a particular Product, as described in the Base Prospectus;

- the underlying asset(s) to which the Product is linked;

- the relevant dates, e.g. issue date, maturity date, coupon payment date(s), valuation date(s); and

- with respect to an Offering Circular in case of U.S. Exempt Securities only, any additional information that the Issuer deems relevant for the particular Product.

Information specific to any issue of U.S. Exempt Securities (including information on the form of the Notes and applicable selling and transfer restrictions) shall be set out in an Offering Circular in connection with the offer and sale of such U.S. Exempt Securities. In case of any issue of U.S. Exempt Securities, all references herein to "Final Terms" shall include, or be interpreted to mean, the applicable Offering Circular.

In case of an issue of Non-exempt Offer in Switzerland, the Final Terms will be published and filed with SIX Exchange Regulation Ltd. as review body as soon as possible after the final information relating to the relevant Notes is available. In case of Notes to be admitted to trading in Switzerland, a publication and filing with SIX Exchange Regulation Ltd. will take place no later than on the date the relevant Notes are admitted to trading.

The Base Prospectus, the applicable Final Terms and the issue specific summary are available on the website of the Luxembourg Stock Exchange (www.luxse.com), when the Notes are admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and on the website of the Issuers (http://prospectus.socgen.com), when the Notes are Non-exempt Offers.

} 7. Sections providing **additional general information**

Notes issued under the Base Prospectus rely on **many generic sections** of the Base Prospectus detailed above, but depending on the characteristics of the Notes, **not all sections of the Base Prospectus will be relevant to a specific issuance of Notes**.

HOW TO READ THE FINAL TERMS

The applicable Final Terms are divided in three parts:

- Part A, named "CONTRACTUAL TERMS", which provides the specific contractual terms of the Product;

- Part B, named "OTHER INFORMATION", which provides other information specific to the Notes ; and

- Only in the case of Non-exempt Offers, a third part is annexed to the applicable Final Terms constituting the issue specific summary of the Notes.

Exhaustive information on the Products defined in Parts A and B of the applicable Final Terms is available in the Base Prospectus. The following diagram provides the links between the various clauses in Parts A and B of the applicable Final Terms and the corresponding sections of the Base Prospectus.

A. HOW TO READ THE ADDITIONAL TERMS AND CONDITIONS RELATING TO FORMULAE

The section "ADDITIONAL TERMS AND CONDITIONS RELATING TO FORMULAE" is the section of the Base Prospectus where all payoff formulae are detailed.

This section contains:

- an exhaustive list of Products with their respective Product Formulae, regrouped in Families of Products (*Condition 3 of the Additional Terms and Conditions relating to Formulae*);

- an exhaustive list of Reference Formulae *(Condition 4 of the Additional Terms and Conditions relating to Formulae);*

- the definitions of all Variable Data needed as input in the different Product Formulae (*Condition 5 of these Additional Terms and Conditions relating to Formulae);* and

- the definition of all add-ons that may be used as an additional feature of a Product Formula (*Condition 1.4 of these Additional Terms and Conditions relating to Formulae)*.

For ease of reading, the Products with similar characteristics are regrouped in **Families of Products** (such as "**Vanilla**").

Each Product is identified with a **Reference of the Product** and a **Product Name** (such as "3.2.1 European Calls")

Each Product Amount describes an amount due under the Notes:
- during the life of the product: the **Structured Interest Amount** (coupons)
- in case of an automatic early redemption: the **Automatic Early Redemption Amount** or "**AERA**"
- at maturity: the **Final Redemption Amount** or "**FRA**"

Each Product Formula of each Product Amount will be based on a **Reference Formula** (such as "Performance" forming part of "4.1 Family of "SimpleLevel")

EXAMPLES OF APPLICABLE FINAL TERMS: FOCUS ON PART A – *PAYOFF FORMULA*

The best way for an investor to understand a Product is to start reading the applicable Final Terms as they provide all the main information relating to the Notes.

Two case studies can be found below, aiming to provide a step-by-step guide for reading the Final Terms. The numbers specified before each section below reference the corresponding clauses in the applicable Final Terms.

CASE STUDY #1: CALL STANDARD
Product identified by its **Reference of the Product**
9. (iv) Reference of the Product: 3.2.5
3 possible Product Amounts:
Structured Interest Amount (*if any*)
Automatic Early Redemption Amount (*if any*)
Final Redemption Amount
Expressed as = Specified Denomination x Product Formula
15 .(i) Structured Interest Amount(s): Not Applicable
19. (i) Automatic Early Redemption Amount: Not Applicable
20. Final Redemption Amount:
Unless previously redeemed, the Issuer shall redeem the Notes on the Maturity Date, in accordance with the following provisions in respect of each Note:
Scenario 1:
If on Valuation Date(1), AverageBasketLevel(1) is higher than or equal to 90% then:
FinalStrike_1
Final Redemption Amount = Specified Denomination × [90% + 100% x (AverageBasketLevel(1) – 90%)]
FinalParticipati
FinalStrike_
ConstantRedemptionLevel F
Other information
Underlying(s)
Dates
Variable Data
Scenario 2:
If on Valuation Date(1), AverageBasketLevel(1) is lower than 90%, then:
Final Redemption Amount = Specified Denomination x 90%
ConstantRedemptionLevel F
26. (i) Underlying(s):
k = 1: Index 1
k = 2: Index 2
k = 3: Index 3
k = 4: Index 4
27. (i) Definitions relating to dates:
Valuation Date(0): [DD/MM/YYYY]
Valuation Date(1): [DD/MM/YYYY]
Each Product Formula is based on reference performances or levels (**Reference Formulae**)
27. (ii) Definitions relating to the Product: Applicable, subject to the provisions of the Additional Terms and Conditions relating to Formulae
AverageBasketLevel(1) means the Arithmetic Average, for k from 1 to 4, of Level(i, k).as defined in Condition 4.3 of the Additional Terms and Conditions relating to Formulae.
Level(1,k) (k from 1 to 4) means (S(1,k) / S(0,k)) as defined in Condition 4.1 of the Additional Terms and Conditions relating to Formulae.
S(i,k) (i from 0 to 1) (k from 1 to 4) means in respect of any Valuation Date(i) the relevant Closing Price as defined in Condition 4.0 of the Additional Terms and Conditions relating to Formulae.

CASE STUDY #2: ATHENA, APOLLON
Product identified by its **Reference of the Product**
9. (iv) Reference of the Product: 3.3.4 with Option 1 applicable
3 possible **Product Amounts**:
Structured Interest Amount *(if any)*
15 .(i) Structured Interest Amount: Not Applicable
Automatic Early Redemption Amount *(if any)*
19. (i) Automatic Early Redemption Amount: Applicable
Unless previously redeemed, if an Automatic Early Redemption Event has occurred, then the Issuer shall redeem early the Notes on Automatic Early Redemption Date(i) (i from 1 to 7), in accordance with the following provisions in respect of each Note:
Automatic Early Redemption Amount(i) = Specified Denomination × [100% + 9.25% x i]
ConstantRedemptionLevel_AER
Coupon_AERA
Final Redemption Amount
Expressed as = Specified Denomination x Product Formula
20. Final Redemption Amount:
Unless previously redeemed, the Issuer shall redeem the Notes on the Maturity Date, in accordance with the following provisions in respect of each Note:
FinalBarrier
Scenario 1:
If on Valuation Date(8), Performance(8) is higher than or equal to -40% then:
Final Redemption Amount = Specified Denomination × [100% + 9.25% x 8]
ConstantRedemptionLevel_FR
Coupon_FRA
Scenario 2:
If on Valuation Date(8), Performance(8) is lower than -40%, then:
Final Redemption Amount = Specified Denomination × [100% + Performance(8)]
ConstantRedemptionLevel_FR
Other information
Underlying
Dates
Variable Data
26. (i) Underlying(s):
Share 1
27. (i) Definitions relating to dates:
Valuation Date(0): [DD/MM/YYYY]
Valuation Date(i) (i from 1 to 8): i = 1: [DD/MM/YYYY], ….,i = 8: [DD/MM/YYYY]
Each Product Formula is based on reference performances or levels (**Reference Formulae**)
27. (ii) Definitions relating to the Product: Applicable, subject to the provisions of the Additional Terms and Conditions relating to Formulae
Automatic Early Redemption Event is deemed to have occurred, as determined by the Calculation Agent, if on a Valuation Date(i) (i from 1 to 7), Performance(i) is higher than or equal to 0%
BarrierAutocall(i)
Performance(i) (i from 1 to 8) means (S(i) / S(0)) – 100 % as defined in Condition 4.1 of the Additional Terms and Conditions relating to Formulae.
S(i) (i from 0 to 8) means in respect of any Valuation Date(i) the Closing Price of the Underlying as defined in Condition 4.0 of the Additional Terms and Conditions relating to Formulae.

IMPORTANT INFORMATION

This Base Prospectus is established pursuant to Article 8 of Regulation 2017/1129/EU dated as of 14 June 2017, as amended (the **Prospectus Regulation**) and for the purpose of giving information with regard to the Issuers, the Guarantor and the Notes which is necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profit and losses and prospects of the Issuers and the Guarantor.

Certain information contained in this Base Prospectus and/or information incorporated herein by reference has been extracted from sources specified in the sections where such information appears. The Issuers confirm that such information has been accurately reproduced and that, so far as they are aware, and are able to ascertain from information published by the relevant third party, no facts have been omitted which would render the reproduced information inaccurate or misleading. Final Terms will (if applicable) specify the nature of the responsibility (if any) taken by the Issuer for any information relating to any underlying to which the Notes may be linked.

This Base Prospectus is to be read in conjunction with any Supplement thereto and all information which is deemed to be incorporated herein by reference (see "*Information Incorporated by Reference*"). This Base Prospectus shall be read and construed on the basis that such information is incorporated by reference and form part of this Base Prospectus.

None of the Arranger or any Dealer has independently verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility is accepted by the Arranger or any Dealer as to the accuracy or completeness of the information contained or incorporated by reference in this Base Prospectus or any other information provided by either of the Issuers or the Guarantor in connection with the Programme or the Notes. None of the Arranger or any Dealer accepts any liability in relation to the information contained or incorporated by reference in this Base Prospectus or any other information provided by either of the Issuers or the Guarantor in connection with the Programme or the Notes.

No person is or has been authorised by any of the Issuers, the Guarantor, the Arranger or any of the Dealers to give any information or to make any representation not contained in or not consistent with this Base Prospectus or any other information supplied in connection with the Programme or the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by any of the Issuers, the Guarantor, the Arranger or any of the Dealers.

Neither this Base Prospectus nor any other information supplied in connection with the Programme or any Notes (a) is intended to provide the basis of any credit or other evaluation or (b) should be considered as a recommendation or a statement of opinion (or a report on either of those things) by any of the Issuers, the Guarantor, the Arranger or any of the Dealers that any recipient of this Base Prospectus or any other information supplied in connection with the Programme or any Notes should purchase any Notes. Each investor contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the relevant Issuer and (if applicable) the Guarantor. Neither this Base Prospectus nor any other information supplied in connection with the Programme or the issue of any Notes constitutes an offer or invitation by or on behalf of any of the Issuers, the Guarantor, the Arranger or any of the Dealers to any person to subscribe for or to purchase any Notes.

Neither the delivery of this Base Prospectus nor the offering, sale or delivery of any Notes shall in any circumstances imply that the information contained herein concerning any of the Issuers or the Guarantor is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme or the Notes is correct as of any time subsequent to the date indicated in the document containing the same. The Arranger or any of the Dealers expressly do not undertake to review the financial condition or affairs of any of the Issuers or the Guarantor during the life of the Programme or to advise any investor in the Notes of any information coming to their attention. Investors should review, *inter alia*, the most recently published information incorporated by reference into this Base Prospectus when deciding whether or not to purchase any Notes.

IMPORTANT INFORMATION RELATING TO THE USE OF THIS BASE PROSPECTUS AND OFFER OF NOTES GENERALLY

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. None of the Issuers, the Guarantor, the Arranger or the Dealers represent that this Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering.

In particular, unless specifically indicated to the contrary in the applicable Final Terms, no action has been taken by the Issuers, the Guarantor, the Arranger or the Dealers which is intended to permit a public offering of any Notes outside the European Economic Area (**EEA**) or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Note comes must inform themselves about, and observe, any such restrictions on the distribution of this Base Prospectus and the offering and sale of Notes (see "*Subscription, Sale and Transfer Restrictions*").

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each prospective investor should consult its legal

advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

INDEPENDENT REVIEW AND ADVICE

Each prospective investor in the Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes.

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each prospective investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules. Prospective investors should also conduct such independent investigation and analysis regarding the Issuer, the Guarantor, the Notes and all other relevant market and economic factors as they deem appropriate to evaluate the merits and risks of an investment in Notes.

A prospective investor may not rely on the Issuers, the Guarantor, the Arranger or the Dealer(s) or any other member of the Group in connection with its determination as to the legality of its acquisition of the Notes or as to the other matters referred to above.

ASSESSMENT OF INVESTMENT SUITABILITY

Each prospective investor in the Notes must determine the suitability of that investment in light of its own financial circumstances and investment objectives, and only after careful consideration with its financial, legal, tax and other advisers. In particular, each prospective investor should:

(i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable Supplement;

(ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;

(iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes;

(iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and

(v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured and appropriate addition of risk to their overall portfolios. A prospective investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the prospective investor's overall investment portfolio. Some Notes which are complex financial instruments may be redeemable at an amount below par in which case investors may lose the value of part or their entire investment.

NO LEGAL AND TAX ADVICE

Neither the Issuer nor the Guarantor are giving legal or tax advices to the investors. Each prospective investor should consult its own advisers as to legal, tax and related aspects relating to an investment in the Notes. A Noteholder’s effective yield on the Notes may be diminished by the tax on that Noteholder of its investment in the Notes.

LEGALITY OF PURCHASE

None of the Issuer, the Agents or any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective purchaser of the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective purchaser with any law, regulation or regulatory policy applicable to it.

TAXATION

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the jurisdiction where the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available in relation to the tax treatment of financial instruments such as the Notes. **The tax legislation of the investor’s Member State and of the Issuer’s country of incorporation**

may have an impact on the income received from the securities. Prospective investors are advised to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, holding, disposal and redemption in respect of Notes. Only such adviser is in a position to duly consider the specific situation of the prospective investor.

NO GROSS-UP RISK

If a withholding or deduction is required by the Tax Jurisdiction and if the applicable Final Terms specify that the Gross-up provision is not applicable, the Issuer will not be required to pay such additional amounts. In this case, neither the Issuer nor any paying agent nor any other person will be required to pay additional amounts to cover the amounts so withheld or deducted. Consequently, investors will receive such payments net of such withholding tax. In such case, investors should note that they will take the risk of any applicable withholding tax and each Noteholder shall be responsible for supplying or filing (as applicable) in a timely manner any documentary evidence or forms as the investor may be entitled to and as may be required in order to obtain relief or reduction of taxes imposed by way of withholding or deduction on payments under the Notes.

In addition, neither the Issuer nor any paying agent nor any other person will be required to pay additional amounts to cover any amounts withheld or deducted on account of any United States withholding taxes, including taxes under FATCA and Section 871(m) as discussed below. Consequently, investors will receive payments net of any applicable United States withholding taxes.

UNITED STATES IMPORTANT NOTICE

The Notes and any guarantee thereof have not been and will not be registered under the Securities Act or under the securities law of any state or political sub-division of the United States, and trading in the Notes has not been approved by the CFTC under the CEA. No person has registered and no person will register as a "commodity pool operator" of any Issuer under the CEA and the CFTC Rules, and no Issuer has been and no Issuer will be registered as an investment company under the Investment Company Act. Other than with respect to certain U.S. Exempt Securities, the Notes are being offered and sold in reliance on an exemption from the registration requirements of the Securities Act pursuant to Regulation S.

Accordingly, except for U.S. Exempt Securities, the Notes may only be offered, sold, pledged or otherwise transferred in an “offshore transaction” (as defined under Regulation S) to or for the account or benefit of a person who (a) is not a U.S. Person, as defined in the General Terms and Conditions; and (b) is not a person who comes within any definition of U.S. person for the purposes of the CEA or any CFTC Rule, guidance or order proposed or issued under the CEA (for the avoidance of doubt, any person who is not a “Non-United States person” defined under CFTC Rule 4.7(a)(1)(iv), but excluding, for purposes of subsection (D) thereof, the exception for qualified eligible persons who are not “Non-United States persons”, shall be considered a U.S. person) and (c) is not a "U.S. person" for purposes of the final rules implementing the credit risk retention requirements of Section 15G of the U.S. Securities Exchange Act of 1934, as amended (the **U.S. Risk Retention Rules**) (a **Risk Retention U.S. Person**) (such a person or account, as described herein a **Permitted Transferee**). With the exception of U.S. Exempt Securities, the Notes are available only to Permitted Transferees.

Information specific to U.S. Exempt Securities (including information on the form of the Notes and applicable selling and transfer restrictions) shall be set out in the applicable Offering Circular in connection with the offer and sale of such U.S. Exempt Securities.

THE SECURITIES OFFERED HEREBY HAVE NOT BEEN AND WILL NOT BE REGISTERED WITH, OR APPROVED BY, ANY UNITED STATES FEDERAL OR STATE SECURITIES OR COMMODITIES COMMISSION OR REGULATORY AUTHORITY. FURTHERMORE, THE FOREGOING AUTHORITIES HAVE NOT PASSED UPON OR ENDORSED THE MERITS OF THIS OFFERING OR THE ACCURACY OR ADEQUACY OF THIS BASE PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.

This Base Prospectus is not a prospectus for the purposes of Section 12(a)(2) or any other provision of or rule under the Securities Act.

Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to United States persons, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 (the **Code**) and the U.S. Treasury regulations promulgated thereunder.

This Base Prospectus has been prepared on the basis that, except to the extent subparagraph (ii) below may apply, any offer of Notes in any Member State of the EEA (each, a **Relevant State**) will be made pursuant to an exemption under the Prospectus Regulation from the requirement to publish a prospectus for offers of Notes. Accordingly any person making or intending to make an offer in that Relevant State of Notes which are the subject of an offering contemplated in this Base Prospectus as completed by final terms in relation to the offer of those Notes may only do so (i) in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer, or (ii) if a prospectus for such offer has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State and (in either case) published, all in accordance with the Prospectus Regulation, provided that any such prospectus has subsequently been completed by final terms which specify that offers may be made other than pursuant to Articles 1 (4) and/or 3 (2) of the Prospectus Regulation in that Relevant State, such offer is made in the period beginning and ending on the dates specified for such purpose in such prospectus or final terms, as applicable and the Issuer has consented in writing to its use for the purpose of such offer. Except to the extent subparagraph (ii) above may apply, neither the Issuer nor any Dealer has authorised, nor does it authorise, the making of any offer of Notes in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

SWITZERLAND IMPORTANT NOTICE

The Notes described in this Base Prospectus and related offering documents do not constitute a participation in a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes (**CISA**). Therefore, the Notes are not subject to authorization and supervision by the Swiss Financial Market Supervisory Authority FINMA (**FINMA**) and investors in the Notes issued under this Programme will not benefit from protection under the CISA or supervision by FINMA. The Notes do not benefit from any depositor protection under article 37b of the Swiss Federal Law on Banks and Savings Banks. Investors in the Notes will bear a credit risk on the Issuer of the Notes or in the case of guaranteed Notes, on the Guarantor.

WITHHOLDING TAX IN SWITZERLAND

The statements herein regarding withholding tax considerations in Switzerland are based on the laws in force in Switzerland as of the date of this Base Prospectus and are subject to any changes in law.

The following information is of a general nature only, is not intended to be, nor should it be construed to be, legal or tax advice, and does not purport to be a comprehensive description of all the Swiss tax considerations which may be relevant to a decision to purchase, own or dispose of the Notes. The information contained herein is limited to Switzerland interest withholding tax issues and prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Swiss tax law, to which they may be subject and as to their tax position, as a result of the purchase, ownership and disposal of the Notes.

Under Swiss withholding tax laws currently in force, there is no Swiss interest withholding tax on payments of principal, premium or interest, nor on accrued but unpaid interest in respect of the Notes, nor is any Swiss interest withholding tax payable upon redemption or repurchase of the Notes on the basis that the Issuer and Guarantor are not resident or deemed to be resident for withholding tax purposes in Switzerland.

IMPORTANT – SWISS RETAIL INVESTORS

If the Final Terms in respect of any Notes state "Prohibition of Sales to Swiss Retail Investors" as Applicable, no key information document according to the FinSA or any equivalent document under the FinSA has been prepared in relation to the Notes, and, therefore, the Notes may not be offered or recommended to clients in Switzerland qualifying as retail clients within the meaning of the FinSA and who have to be provided with a key information document or equivalent document pursuant to the FinSA.

KINGDOM OF BAHRAIN IMPORTANT NOTICE

In relation to investors in the Kingdom of Bahrain, Notes issued in connection with the Base Prospectus, together with any Final Terms and related offering documents must be in registered form and must only be marketed to existing account holders and accredited investors as defined by the Central Bank of Bahrain ("**CBB**") in the Kingdom of Bahrain where such investors make a minimum investment of at least U.S.$ 100,000, or any equivalent amount in other currency or such other amount as the CBB may determine.

This offer does not constitute an offer of securities in the Kingdom of Bahrain in terms of Article (81) of the Central Bank and Financial Institutions Law 2006 (decree Law No. 64 of 2006). The Base Prospectus, together with any Final Terms and related offering documents have not been and will not be registered as a prospectus with the CBB. Accordingly, no Notes may be offered, sold or made the subject of an invitation for subscription or purchase nor will the Base Prospectus, together with any Final Terms or any other related documents or material be used in connection with any offer, sale or invitation to subscribe or purchase securities, whether directly or indirectly, to persons in the Kingdom of Bahrain, other than as marketing to accredited investors for an offer outside Bahrain.

The CBB has not reviewed, approved or registered the Base Prospectus, together with any Final Terms or related offering documents and it has not in any way considered the merits of the securities to be marketed for investment, whether in or outside the Kingdom of Bahrain. Therefore, the CBB and the Bahrain Bourse assume no responsibility for the accuracy and completeness of the statements and information contained in this document and expressly disclaim any liability whatsoever for any loss howsoever arising from reliance upon the whole or any part of the content of this document.

No offer of Notes will be made to the public in the Kingdom of Bahrain and the Base Prospectus, together with any Final Terms or related offering documents must be read by the addressee only and must not be issued, passed to, or made available to the public generally.

Each of the responsible persons (as defined in "important information" below) accepts responsibility for the information given in this Base Prospectus and confirms that, having taken all reasonable care to ensure that such is the case, the information contained in this Base Prospectus is, to the best of its knowledge, in accordance with the facts and does not omit anything likely to affect its import.

"Accredited Investors" are defined as:

(a) individuals holding financial assets (either singly or jointly with their spouse) of U.S.$ 1,000,000 or more, excluding that person's principal place of residence;

(b) companies, partnerships, trusts or other commercial undertakings, which have financial assets available for investment of not less than U.S.$ 1,000,000; or

(c) governments, supranational organisations, central banks or other national monetary authorities, and state organisations whose main activity is to invest in financial instruments (such as state pension funds).

Individuals and commercial undertakings may elect in writing to be treated as accredited investors subject to meeting at least two of the following conditions:
(a) The investor has carried out trading/investing transactions, in significant size (i.e. value of transactions aggregating USD 200,000) over the last 12-month period;

(b) The size of the investor's financial assets portfolio including cash deposits and financial instruments is USD 500,000 or more; and/or

(c) The investor works or has worked in the financial sector for at least one year in a professional position, which requires knowledge of the transactions or services envisaged (i.e. the position was professional in nature and held in a field that allowed the client to acquire knowledge of transactions or services that have comparable features and a comparable level of complexity to the transactions or services envisaged).

Kingdom of Saudi Arabia Important Notice

"This document may not be distributed in the Kingdom except to such persons as are permitted under the Rules on the Offer of Securities and Continuing Obligations issued by the Capital Market Authority.

The Capital Market Authority does not make any representation as to the accuracy or completeness of this document, and expressly disclaims any liability whatsoever for any loss arising from, or incurred in reliance upon, any part of this document. Prospective purchasers of the notes offered hereby should conduct their own due diligence on the accuracy of the information relating to the notes. If you do not understand the contents of this document, you should consult an authorised financial advisor.

TAXATION IN FRANCE

The statements herein regarding withholding tax and transfer tax considerations in France are based on the laws in force in France as of the date of this Base Prospectus and are subject to any changes in law.

The following information is of a general nature only, is not intended to be, nor should it be construed to be, legal or tax advice, and does not purport to be a comprehensive description of all the French tax considerations which may be relevant to a decision to purchase, own or dispose of the Notes. The information contained herein is limited to French withholding tax and transfer tax issues and prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including French tax law, to which they may be subject and as to their tax position, as a result of the purchase, ownership and disposal of the Notes.

Withholding taxes

Withholding taxes on payments made by Societe Generale as Issuer outside of France

***The following may be relevant to holders of Notes who do not concurrently hold shares in Societe Generale*.**

Payments of interest and other income made by Societe Generale with respect to the Notes will not be subject to the withholding tax provided by Article 125 A III of the French tax code (**FTC**) unless such payments are made outside France in a non-cooperative State or territory within the meaning of Article 238-0 A of the FTC (a **Non-Cooperative State**) other than those mentioned in 2° of 2 *bis* of the same Article 238-0 A. If such payments under the Notes are made outside France in a Non-Cooperative State other than those mentioned in 2° of 2 *bis* of Article 238-0 A of the FTC, a 75 per cent. withholding tax will be applicable (subject to certain exceptions and to the more favourable provisions of an applicable double tax treaty) by virtue of Article 125 A III of the FTC. The list of Non-Cooperative States is published by a ministerial executive order and is updated on annual basis.

Furthermore, according to Article 238 A of the FTC, interest and other income on such Notes will not be deductible from Societe Generale's taxable income if they are paid or accrued to persons domiciled or established in a Non-Cooperative State or paid to an account held with a financial institution established in such a Non-Cooperative State (the **Deductibility Exclusion**). Under certain conditions, any such non-deductible interest and other income may be recharacterised as constructive dividends pursuant to Articles 109 *et* seq. of the FTC, in which case such non-deductible interest and other income may be subject to the withholding tax provided by Article 119 *bis* 2 of the FTC at (i) a rate of 12.8 per cent. for payments to beneficial owners who are individuals who are not French tax residents, (ii) the standard corporate income tax rate set forth in the second paragraph of Article 219-I of the FTC (i.e. 25 per cent.) for payments to beneficial owners who are legal persons who are not French tax residents or (iii) a rate of 75 per cent. for payments made outside France in a Non-Cooperative State other than those mentioned in 2° of 2 *bis* of Article 238-0 A of the FTC (subject to certain exceptions and to the more favourable provisions of an applicable double tax treaty).

Notwithstanding the foregoing, neither the 75 per cent. withholding tax provided by Article 125 A III of the FTC nor the Deductibility Exclusion will apply in respect of an issue of Notes if Societe Generale can prove that the main purpose and effect of such issue of Notes was not that of allowing the payments of interest and other income to be made in a Non-Cooperative State (the **Exception**). Pursuant to the *Bulletin Officiel des Finances Publiques -Impôts* BOI-INT-DG-20-50-30, no. 150 and BOI-INT-DG-20-50-20, no. 290,

an issue of Notes will benefit from the Exception without the Issuer having to provide any proof of the purpose and effect of such issue of Notes, if such Notes are:

(i) offered by means of a public offer within the meaning of Article L. 411-1 of the French monetary and financial code for which the publication of a prospectus is mandatory or pursuant to an equivalent offer in a State other than a Non-Cooperative State. For this purpose, an "equivalent offer" means any offer requiring the registration or submission of an offer document by or with a foreign securities market authority; and/or

(ii) admitted to trading on a French or foreign regulated market or multilateral securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider or any other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; and/or

(iii) admitted, at the time of their issue, to the operations of a central depositary or of a securities delivery and payment systems operator within the meaning of Article L. 561-2 of the French monetary and financial code, or of one or more similar foreign depositaries or operators provided that such depositary or operator is not located in a Non-Cooperative State.

Withholding taxes on payments made to individuals fiscally domiciled in France

Pursuant to Article 125 A I of the FTC, where the paying agent (*établissement payeur*) is established in France and subject to certain exceptions, interest and other assimilated income received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France are subject to a 12.8 per cent. withholding tax, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG, CRDS and solidarity levy) are also levied by way of withholding at a global rate of 18.6 per cent. on such interest and other assimilated income received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France, subject to certain exceptions.

WITHHOLDING TAX IN LUXEMBOURG

The statements herein regarding withholding tax considerations in Luxembourg are based on the laws in force in the Grand Duchy of Luxembourg as of the date of this Base Prospectus and are subject to any changes in law.

The following information is of a general nature only, is not intended to be, nor should it be construed to be, legal or tax advice, and does not purport to be a comprehensive description of all the Luxembourg tax considerations which may be relevant to a decision to purchase, own or dispose of the Notes. The information contained herein is limited to Luxembourg withholding tax issues and prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject and as to their tax position, as a result of the purchase, ownership and disposal of the Notes.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present herein to a withholding tax or a tax of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

Non-resident holders of Notes issued by SG Issuer

Under Luxembourg general tax laws currently in force, there is no Luxembourg withholding tax on payments of principal, premium or interest made to non-resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident holders of the Notes.

Resident holders of Notes issued by SG Issuer

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the "**Relibi Law**"), there is no Luxembourg withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by Luxembourg resident holders of the Notes.

Under the Relibi Law payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg will be subject to a withholding tax of 20 %. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent.

Payments of interest under the Notes coming within the scope of the Relibi Law will be subject to a withholding tax at a rate of 20%.

SERVICE OF PROCESS AND ENFORCEMENT OF CIVIL LIABILITIES

The Issuers are corporations organised under the laws of Luxembourg and France, respectively (each a **Relevant Jurisdiction**). All of the officers and directors named herein reside outside the United States and all or a substantial portion of the assets of the relevant Issuer and of such officers and directors are located outside the United States. As a result, it may not be possible for investors to effect service of process in connection with a cause of action under the laws of a jurisdiction other than England and Wales and/or Switzerland outside the Relevant Jurisdiction upon the relevant Issuer or such persons, or to enforce judgments against them obtained in courts outside the Relevant Jurisdiction predicated upon civil liabilities of the relevant Issuer or such directors and officers

under laws other than those of the Relevant Jurisdiction, including any judgment predicated upon United States federal securities laws.

IMPORTANT – EEA RETAIL INVESTORS

If the Final Terms in respect of any Notes states "Prohibition of Sales to EEA Retail Investors" as Applicable, the Notes, are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2016/97/EU (as amended or superseded, the **Insurance Distribution Directive** or the **IDD**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the **EU PRIIPs Regulation**) for offering or selling those Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling those Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS

If the Final Terms in respect of any Notes states "Prohibition of Sales to UK Retail Investors" as Applicable, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold, distribute or otherwise made available to any retail investor in the UK. For these purposes, a "retail investor" means a person who is one (or more) of the following: (i) not a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (ii) not a qualified investor as defined in paragraph 15 of Schedule 1 to the Public Offers and Admissions to Trading Regulations 2024. Consequently no disclosure document required by the FCA Product Disclosure Sourcebook (**DISC)** for offering, selling or distributing the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering, selling or distributing the Notes or otherwise making them available to any retail investor in the UK may be unlawful under DISC and the Consumer Composite Investments (Designated Activities) Regulations 2024.

PRESENTATION OF FINANCIAL AND OTHER INFORMATION

Each Issuer maintains its financial books and records and prepares its financial statements in accordance with financial reporting standards which differ in certain important respects from generally accepted accounting principles in the United States (**U.S. GAAP**).

OTHER INFORMATION

Credit ratings

The Issuer may ask one or more independent credit rating agencies (established in the EU and registered under the Regulation (EC) No 1060/2009 of the European Parliament and of the Council dated 16 September 2009, as amended (the **CRA Regulation**) and such registration has not been withdrawn or suspended) to assign credit ratings to a Series of Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

In general, European regulated investors should only base their investment decision on credit ratings assigned by credit rating agencies that are on the list of registered and certified rating agencies published by the European Securities and Markets Authority (**ESMA**) on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list.

Structured Notes Linked to SGI Indices

The roles of the various teams involved within Societe Generale in the design, maintenance and replication of indices have been strictly defined. The replication of any index is carried out in the same way by a single team within Societe Generale, whether for hedging of a product held by external investors or for positions held by Societe Generale acting as co-investors alongside external investors.

Notes referencing an Underlying or a Component Security in an AEJ Closed Market:
Without prejudice to the generality of any applicable law, each holder of Notes referencing an Underlying or a Component Security in an AEJ Closed Market is deemed to have expressly consented to, on its acquisition of such Notes the disclosure by (i) the Issuer or Societe Generale or any of its related entities in their relevant capacities to the relevant authorities; and (ii) in the case of any Underlying being an index, any issuer of a component security of the Index ("Component Security"), as the case may be (each a "Relevant Jurisdiction"); the jurisdiction in which the relevant Exchange is located ("Local Jurisdiction"); or any jurisdiction of tax residence of any of the aforementioned disclosing party, as the case may be (each a "Tax Residence Jurisdiction"), information relating to the transaction(s) (including subscription, purchase, redemption or buy-back of the Note(s)), including the name of such holder in order for the disclosing party making such disclosure or any of its related entities to comply with laws and regulations of the Relevant Jurisdiction, the Local Jurisdiction or Tax Residence Jurisdiction that are applicable to such disclosing party or its related entities in connection with their dealings in the Underlying(s).

Notes referencing ChiNext Shares and STAR Securities:

Without prejudice to the generality of any applicable law, each holder of Notes referencing ChiNext Shares and STAR Securities acknowledges and understands that the underlying portfolio of such Notes may carry a different and higher risk profile than other securities within product portfolio and by investing in such Notes, such holder may be exposed to the performance of the ChiNext Shares or STAR securities accordingly.
Such holder represents that it has carried out its own independent investigations and enquiries, and has obtained all necessary information and has independently evaluated and satisfied itself concerning the merits, risks and suitability of purchasing this product on aforementioned underlying exposure.

Eurosystem eligibility for New Global Notes and Registered Global Notes
New Global Notes and Registered Global Notes issued under the new safekeeping structure (NSS) may be issued with the intention that such Notes be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem, either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria as specified by the European Central Bank. However, there is no guarantee that such Notes will be recognised as eligible collateral, or that, even if recognised, the eligibility will continue during the life of the Notes. Any other Notes are not intended to be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem.

Notes where denominations involve integral multiples: Definitive Bearer Notes
In relation to any issue of English Law Bearer Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Bearer Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a Definitive Bearer Note in respect of such holding (should Definitive Bearer Notes be printed) and would need to purchase a principal amount of Bearer Notes such that its holding amounts to a Specified Denomination.

If Definitive Bearer Notes are issued, holders should be aware that Definitive Bearer Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Notes containing limited events of default
The Notes of a Series will only become immediately due and repayable following the occurrence of a limited number of events of default (in compliance with Condition "Events of Default" of the General Terms and Conditions).

Use of Proceeds related to Sustainable Notes

The Final Terms of the Notes may provide that the Issuer will apply an amount equivalent to the net proceeds of the issue to finance or refinance, in whole or in part Eligible Assets as defined in the Framework and as specified in the Final Terms.

Sustainable Notes can be either Green Notes, Social Notes or Sustainability Notes if an amount equivalent to the net proceeds is applied to finance or refinance Eligible Assets respectively in the Eligible Green Categories, the Eligible Social Categories or in the Eligible Categories (corresponding to both Eligible Green Categories and Eligible Social Categories, in the case of Sustainability Notes) pursuant to the Framework.
Prospective investors should have regard to the information set out in the Final Terms and the Framework regarding such use of an equivalent amount to the net proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Sustainable Notes, together with any other investigation any such investors deem necessary.

The definition (legal, regulatory or otherwise) of, and market consensus as to what constitutes or may be classified as, a “green”, “social”, “sustainable”, or equivalently-labelled project or loan that may finance such project or loan, and the requirements of any such label remains under development. Regulation (EU) No. 2020/852 on the establishment of a framework to facilitate sustainable investment was adopted by the Council and the European Parliament (the **Taxonomy Regulation**), and supplemented by Delegated Regulation (EU) 2021/2139 (as amended) and Delegated Regulation (EU) 2023/2486 to establish a single EU-wide classification system (the **EU Taxonomy**). The EU Taxonomy provides companies and investors with a common language to determine which economic activities can be considered environmentally sustainable, i.e. (i) contributing substantially to one or more of the six environmental objectives of the Taxonomy Regulation (the “substantial contribution criteria”), (ii) doing no significant harm to any other environmental objectives (the “do no significant harm”), (iii) complying with minimum safeguards, and (iv) complying with technical screening criteria.
In addition, Regulation (EU) No 2023/2631 on European green bonds and optional disclosures for bonds marketed as environmentally sustainable and for sustainability-linked bonds, which entered into force on 20 December 2023 and is applicable since 21 December 2024 (the **EuGB Regulation**), introduced a voluntary label for issuers of “green” use of proceeds bonds where the proceeds will be invested in economic activities aligned with the Taxonomy Regulation. The Green Notes or Sustainability Notes issued under the Programme do not constitute European Green Bonds within the meaning of the EuGB Regulation.
The relevant Eligible Assets or the application of an equivalent amount to the net proceeds of any Sustainable Notes in connection therewith (as described in section “*Use of Proceeds*” of the relevant Final Terms), may not be implemented in or substantially in such manner and/or in accordance with any timing schedule. Nor can it be certain that such Eligible Assets will be completed within any specified period or at all or with the results or outcome (whether or not related to the "sustainable " aspect) originally expected or anticipated by the Issuer.

There can be no assurance by the Issuer, the Arranger or the Dealers that the use of proceeds of any Sustainable Notes (or the application of an amount equivalent to net proceeds of any Sustainable Notes) identified in the Final Terms will satisfy, whether in whole or in part, any future legislative or regulatory requirements, or any present or future investor expectations or requirements with

respect to investment criteria or guidelines with which any investor or its investments are required to comply, whether pursuant to any present or future applicable law or regulation or under its own by-laws or other governing rules or investment portfolio mandates.

No assurance or representation is given as to the content, suitability or reliability for any purpose whatsoever in respect of (i) any second party opinion or certification of any other third party (whether or not solicited by the Issuer) that may be made available in connection with the issue of any Sustainable Notes and in particular with any assets to fulfil any environmental, social and/or other criteria, (ii) any Framework to be published on the Issuer's website on or before the issue of any Sustainable Notes or equivalently labelled Notes, or on (iii) any public reporting or (iv) any Sustainable Notes or equivalently labelled Notes.

Currently, the providers of second party opinions and certifications are not subject to any specific regulatory or other regime or oversight. Any such second party opinion or certification is not, and should not be deemed to be, a recommendation by the Issuer or any other person to buy, sell or hold any such Sustainable Notes.

The Arranger or the Dealers do not make any representation as to the suitability of the Sustainable Notes with the green and/or social criteria required by prospective investors. The Arranger or the Dealers have not undertaken, and are not responsible for, any assessment of the eligibility criteria, any verification of whether the Sustainable Notes meet the eligibility criteria, or the monitoring of the use of proceeds. Investors should refer to Société Générale's website or any third-party opinion.

Investors should refer to the relevant Final Terms, the Issuer's website, the Issuer's Framework and the second party opinion delivered in respect thereof, if any, and any public reporting by or on behalf of the Issuer in respect of the application of the proceeds of any Eligible Assets for further information. Any such Framework and/or second party opinion and/or public reporting will not form part of, nor be incorporated by reference in, this Base Prospectus.

Any opinion or certification of any other third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Sustainable Notes and in particular with any project to fulfil any environmental and/or other criteria may not be suitable or reliable for any purpose whatsoever. Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight. Any such opinion or certification is not, nor should it be treated or considered as, a recommendation by the Issuer or any other person to buy, sell or hold any such Sustainable Notes. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the Dealers, to buy or hold any such Sustainable Notes and prospective investors must determine for themselves the relevance of any such opinion, certification or verification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in the Sustainable Notes.
The net proceeds from each issue of Notes by Societe Generale will be used for the general financing purposes of the Group. If, in respect of any particular issue, there is a particular identified use of proceeds, such use will be stated in the Final Terms.

If in respect of any particular issue of Notes, the Final Terms indicate that the Issuer will apply an amount equivalent to the net proceeds of any particular issue to finance or refinance, in whole or in part, loans and investments including those directed toward pure play companies (such assets being the **Eligible Green Assets or Eligible Social Assets,** together, the **Eligible Assets**) that meet the eligibility criteria for the Eligible Green Categories and/or Eligible Social Categories, as defined in the sustainable financing framework, as amended and supplemented from time to time (the **Framework**), such Notes will be sustainable notes (the **Sustainable Notes**).
During the life of the Sustainable Notes, Eligible Assets will be added to or removed from the pool of Eligible Assets to the extent required (e.g., in case of projects divestment or cancellation, in case of amortized or redeemed loans, if an asset ceases to meet the eligibility criteria or for any other reason beyond the control of the Issuer). In case of removal of Eligible Assets, Société Générale commits, on a best effort basis, to reallocate immediately the equivalent amount of net proceeds to other Eligible Assets.

Pending the full allocation of an amount equivalent to the net proceeds, unallocated net proceeds from the Issuer could temporarily, without any undertaking of the Issuer as to a maximum period of time, be used by the Issuer within the treasury of the Group, in money market instruments, cash and/or cash equivalent instruments until Eligible Assets are added to the Eligible Assets Portfolio.Sustainable Notes can be either green (the **Green Notes**), social (the **Social Notes**) or sustainability (the **Sustainability Notes**) (together the **Sustainable Notes)** if an amount equivalent to the net proceeds will be applied to finance or refinance Eligible Assets in the following green categories, social categories or in both categories pursuant to the Framework:

Eligible Green Categories include:
- Green buildings;
- Renewable energy;
- Clean transportation;
- Energy efficiency;
- Sustainable water and wastewater management;
- Circular economy;
- Pollution prevention and control; and
- Climate change adaptation.

Eligible Social Categories include:
- Employment generation and preservation through SME financing;
- Socioeconomic advancement and empowerment;
- Affordable housing;
- Access to education and professional training; and
- Access to healthcare.

These different categories are defined in the Framework which also further describes (i) the Eligible Assets under each above-mentioned categories and (ii) the processes the Issuer will apply to evaluate and select the Eligible Assets, manage the net proceeds,

report and use external reviews in accordance with the Green Bond Principles, Social Bond Principles and Sustainability Bond Guidelines published by the International Capital Markets Association

A link to such Framework shall also be included in the Final Terms.

ISS-Corporate has provided a second party opinion (**Second Party Opinion**) on the Framework, including among others its alignment with the Green Bond Principles, Social Bond Principles and Sustainability Bond Guidelines published by the International Capital Markets Association.

As described in the Framework, Societe Generale will publish an annual report on its website detailing both the allocation and impacts of the net proceeds allocated to each of the Eligible Categories.

The Issuer commits to get the allocation of the amount equivalent to the net proceeds to Eligible Assets and the main impact indicators reported audited by an external party on an annual basis.

All these documents are available on Societe Generale's website: https://investors.societegenerale.com/en/financial-and-non-financial-information/debt-investors

INTERPRETATION

1. Capitalised terms which are used but not defined in any particular section of this Base Prospectus shall have the meaning attributed thereto in the relevant General Terms and Conditions or any other section of this Base Prospectus.

2. All references in this Base Prospectus and any applicable Final Terms to:

(a) "U.S. dollars" or "U.S.$" refer to the lawful currency of the United States, those to "Sterling" or "£" refer to the lawful currency of the United Kingdom, those to "Australian dollars" or "A$" refer to the lawful currency of Australia, those to "Swiss Francs" refer to the lawful currency of Switzerland, those to "Japanese Yen" or "¥" refer to the lawful currency of Japan, those to "euro", "Euro" or "€" refer to the lawful currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty on the Functioning of the European Union, as amended and those to "CNY", "CNH", "Yuan" or "RMB" or "Renminbi" refer to the lawful currency of the People's Republic of China (the **PRC**), which for the purpose of this document, excludes Taiwan and the Special Administrative Regions of the PRC: Hong Kong and Macau;

any three letter alphabetic currency codes, including but not limited to the three letter alphabetic currency codes set out below, shall have the meaning given to them pursuant to ISO 4217 (the international standard currency code established by the International Organization for Standardization):

(e) the "Final Terms" shall be to the final terms document prepared based on the "Form of Final Terms";

(f) a "French Law Condition" shall be to the relevant condition in the General Terms and Conditions of the French Law Notes ;

(g) a "Swiss Law Condition" shall be to the relevant condition in the General Terms and Conditions of the Swiss Law Notes ;

STABILISATION

IN CONNECTION WITH THE ISSUE OF ANY TRANCHE OF NOTES, THE DEALER OR DEALERS (IF ANY) NAMED AS THE STABILISATION MANAGER(S) (OR PERSONS ACTING ON BEHALF OF ANY STABILISATION MANAGER(S)) IN THE APPLICABLE FINAL TERMS MAY OVER-ALLOT NOTES OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE NOTES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER STABILISATION MAY NOT NECESSARILY OCCUR. ANY STABILISATION ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE TERMS OF THE OFFER OF THE RELEVANT TRANCHE OF NOTES IS MADE AND, IF BEGUN, MAY CEASE AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 DAYS AFTER THE ISSUE DATE OF THE RELEVANT TRANCHE OF NOTES AND 60 DAYS AFTER THE DATE OF THE ALLOTMENT OF THE RELEVANT TRANCHE OF NOTES. ANY STABILISATION ACTION OR OVER-ALLOTMENT MUST BE CONDUCTED BY THE RELEVANT STABILISATION MANAGER(S) (OR PERSONS ACTING ON BEHALF OF ANY STABILISATION MANAGER(S)) IN ACCORDANCE WITH ALL APPLICABLE LAWS AND RULES.

RESPONSIBILITY STATEMENT

Each of the Issuers and the Guarantor (the **Responsible Persons**) accept responsibility for the information contained in, or incorporated by reference into, this Base Prospectus and for the information contained in the applicable Final Terms for each ***Tranche of Notes*** issued under the Programme. To the best of the knowledge and belief of each Issuer and the Guarantor (each having taken all reasonable care to ensure that such is the case) the information contained in, or incorporated by reference into, this Base Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information.

REGULATORY INFORMATION

French and Luxembourg law and European legislation regarding the resolution of financial institutions may require the write-down or conversion to equity of the Notes or other resolution measures if the Issuers are deemed to meet the conditions for resolution

Directive 2014/59/EU of the European Parliament and of the Council of the European Union dated 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms (the **BRRD**) entered into force on 2 July 2014. The BRRD, as amended, has been implemented into Luxembourg law by, among others, the Luxembourg act dated 18 December 2015 on the failure of credit institutions and certain investment firms, as amended (the **BRR Act 2015**). Under the BRR Act 2015, the competent authority is the Luxembourg financial sector supervisory authority (*Commission de surveillance du secteur financier*, the CSSF) and the resolution authority is the CSSF acting as resolution council (*conseil de résolution*).

In April 2023, the EU Commission released a proposal to amend, in particular, the BRRD. On 5 November 2025, the interinstitutional negotiations on the aforementioned proposal for a directive have led to a compromise. Under current compromise, senior preferred obligations (such as Senior Preferred Notes) would no longer rank *pari passu* with any deposits of the Issuer and, instead, would rank junior in right of payment to the claims of all depositors. Such proposal is still subject to further discussions and as a result its precise legal application date is unknown.

Moreover, Regulation (EU) No. 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism (**SRM**) and a Single Resolution Framework (the **SRM Regulation**) has established a centralised power of resolution entrusted to a Single Resolution Board (the **SRB**) in cooperation with the national resolution authorities.

Since November 2014, the European Central Bank (**ECB**) has taken over the prudential supervision of significant credit institutions in the member states of the Eurozone under the Single Supervisory Mechanism (**SSM**). In addition, the SRM has been put in place to ensure that the resolution of credit institutions and certain investment firms across the Eurozone is harmonised. As mentioned above, the SRM is managed by the SRB. Under Article 5(1) of the SRM Regulation, the SRM has been granted those responsibilities and powers granted to the EU Member States' resolution authorities under the BRRD for those credit institutions and certain investment firms subject to direct supervision by the ECB. The ability of the SRB to exercise these powers came into force at the beginning of 2016.

Societe Generale has been, and continues to be, designated as a significant supervised entity for the purposes of Article 49(1) of Regulation (EU) No 468/2014 of the ECB of 16 April 2014 establishing the framework for cooperation within the SSM between the ECB and national competent authorities and with national designated authorities (the **SSM Regulation**) and is consequently subject to the direct supervision of the ECB in the context of the SSM. This means that Societe Generale and SG Issuer (being covered by the consolidated prudential supervision of Societe Generale) are also subject to the SRM which came into force in 2015. The SRM Regulation mirrors the BRRD and, to a large part, refers to the BRRD so that the SRB is able to apply the same powers that would otherwise be available to the relevant national resolution authority.

The stated aim of the BRRD and the SRM Regulation is to provide for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and certain investment firms. The regime provided for by the BRRD is, among other things, stated to be needed to provide the resolution authority designated by each EU Member State (the **Resolution Authority**) with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions while minimising the impact of an institution's failure on the economy and financial system (including taxpayers' exposure to losses).

In accordance with the provisions of the SRM Regulation, when applicable, the SRB, has replaced the national resolution authorities designated under the BRRD with respect to all aspects relating to the decision-making process and the national resolution authorities designated under the BRRD continue to carry out activities relating to the implementation of resolution schemes adopted by the SRB. The provisions relating to the cooperation between the SRB and the national resolution authorities for the preparation of the institutions' resolution plans have applied since 1 January 2015 and the SRM has been fully operational since 1 January 2016.

The SRB is the Resolution Authority for the Issuers (Societe Generale and SG Issuer).

The powers provided to the Resolution Authority in the BRRD and the SRM Regulation include write-down/conversion powers to ensure that capital instruments (including subordinated debt instruments and/or Unsecured Notes (issued by SG Issuer)) and eligible liabilities (including senior debt instruments, such as the Senior Notes, if junior instruments prove insufficient to absorb all losses) absorb losses of the issuing institution that is subject to resolution in accordance with a set order of priority (the **Bail-in Power**). The conditions for resolution under the SRM Regulation are deemed to be met when: (i) the Resolution Authority determines that the institution is failing or is likely to fail, (ii) there is no reasonable prospect that any measure other than a resolution measure would prevent the failure within a reasonable timeframe, and (iii) a resolution measure is necessary for the achievement of the resolution objectives (in particular, ensuring the continuity of critical functions, avoiding a significant adverse effect on the financial system, protecting public funds by minimizing reliance on extraordinary public financial support, and protecting client funds and assets) and winding up of the institution under normal insolvency proceedings would not meet those resolution objectives to the same extent.

The Resolution Authority could also, independently of a resolution measure or in combination with a resolution measure, fully or partially write-down or convert capital instruments (including subordinated debt instruments such as the Unsecured Notes (issued by SG Issuer)) into equity when it determines that the institution or its group will no longer be viable unless such write-down or conversion

power is exercised or when the institution requires extraordinary public financial support (except when extraordinary public financial support is provided in Article 10 of the SRM Regulation). The terms and conditions of the Notes contain provisions giving effect to the Bail-in Power in the context of resolution and write-down or conversion of capital instruments at the point of non-viability.

The Bail-in Power could result in the full (i.e., to zero) or partial write-down or conversion of the Notes into ordinary shares or other instruments of ownership, or the variation of the terms of the Notes (for example, the maturity and/or interest payable with respect to Notes may be altered and/or a temporary suspension of payments may be ordered). Extraordinary public financial support should only be used as a last resort after having assessed and applied, to the maximum extent practicable, the resolution measures. No support will be available until a minimum amount of contribution to loss absorption and recapitalization of 8% of total liabilities including own funds has been made by shareholders, holders of capital instruments and other eligible liabilities through write-down, conversion or otherwise.

In addition to the Bail-in Power, the BRRD and the SRM Regulation provide the Resolution Authority with broader powers to implement other resolution measures with respect to institutions that meet the conditions for resolution, which may include (without limitation) the sale of the institution's business, the creation of a bridge institution, the separation of assets, the replacement or substitution of the institution as obligor in respect of debt instruments, modifications to the terms of debt instruments (including altering the maturity and/or the amount of interest payable and/or imposing a temporary suspension on payments), removing management, appointing an interim administrator, and discontinuing the listing and admission to trading of financial instruments.
Before taking a resolution measure, including implementing the Bail-in Power, or exercising the power to write down or convert relevant capital instruments, the Resolution Authority must ensure that a fair, prudent and realistic valuation of the assets and liabilities of the institution is carried out by a person independent from any public authority.

The BRRD, the BRR Act 2015 and the SRM Regulation however also state that, under exceptional circumstances, if the bail-in instrument is applied, the SRB, in cooperation with the CSSF, may completely or partially exclude certain liabilities from the application of the impairment or conversion powers under certain conditions.

Since 1 January 2016, EU credit institutions (such as Societe Generale) and certain investment firms have to meet, at all times, a minimum requirement for own funds and eligible liabilities (**MREL**) pursuant to Article 12 of the SRM Regulation. The MREL, which is expressed as a percentage of the total liabilities and own funds of the institution, aims at preventing institutions from structuring their liabilities in a manner that impedes the effectiveness of the Bail-in Power in order to facilitate resolution.

The regime has evolved as a result of the changes adopted by the EU legislators. On 7 June 2019, as part of the contemplated amendments to the so-called EU Banking Package, the following legislative texts were published in the Official Journal of the EU 14 May 2019:

• Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending the BRRD as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms (**BRRD II**) and
• Regulation (EU) 2019/877 of the European Parliament and of the Council of 20 May 2019 amending the SRM Regulation as regards the loss-absorbing and recapitalisation capacity (**TLAC**) of credit institutions and investment firms (the **SRM II Regulation** and, together with the BRRD II, the **EU Banking Package Reforms**).

The EU Banking Package Reforms introduced, among other things, the TLAC standard as implemented by the Financial Stability Board's TLAC Term Sheet (**FSB TLAC Term Sheet**), by adapting, among other things, the existing regime relating to the specific MREL with the aim of reducing risks in the banking sector and further reinforcing institutions' ability to withstand potential shocks will strengthen the banking union and reduce risks in the financial system.

The TLAC has been implemented in accordance with the FSB TLAC Term Sheet, which imposes a level of Minimum TLAC that will be determined individually for each global systemically important bank (**G-SIB**), such as Societe Generale, in an amount at least equal to (i) 16%, plus applicable buffers, of risk weight assets since January 1, 2022 and 18%, plus applicable buffers, thereafter and (ii) 6% of the Basel III leverage ratio denominator since January 1, 2022 and 6.75% thereafter (each of which could be extended by additional firm-specific requirements).

Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms (the **CRR**), as amended notably by Regulation (EU) 2019/876 as regards the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements (the **CRR II**)and Regulation (EU) 2022/2036 of the European Parliament and of the Council of 19 October 2022 amending Regulation (EU) No 575/2013 and Directive 2014/59/EU as regards the prudential treatment of global systemically important institutions with a multiple-point-of-entry resolution strategy and methods for the indirect subscription of instruments eligible for meeting the minimum requirement for own funds and eligible liabilities, EU G-SIBs, such as Societe Generale, have to comply with TLAC requirements, on top of the MREL requirements, since the entry into force of the CRR II. As such, G-SIBs, such as Societe Generale have to comply with both the TLAC and MREL requirements.

Consequently, the criteria for MREL-eligible liabilities have been closely aligned with the criteria for TLAC-eligible liabilities under CRR II, but subject to the complementary adjustments and requirements introduced in the BRRD II. In particular, certain debt instruments with an embedded derivative component, such as certain structured notes, will be eligible, subject to certain conditions, to meet MREL requirements to the extent that they have a fixed or increasing principal amount repayable at maturity that is known in advance with only an additional return permitted to be linked to that derivative component and dependent on the performance of a reference asset.

The level of capital and eligible liabilities required under MREL is set by the SRB for Societe Generale on an individual and/or consolidated basis based on certain criteria including systemic importance and may also be set for SG Issuer. Eligible liabilities may be senior or subordinated, provided, among other requirements, that they have a remaining term of at least one year and, they recognise contractually the Resolution Authority's power to write down or convert the liabilities governed by non-EU law.

The scope of liabilities used to meet MREL includes, in principle, all liabilities resulting from claims arising from ordinary unsecured creditors (non-subordinated liabilities) unless they do not meet specific eligibility criteria set out in BRRD, as amended notably by BRRD II. To enhance the resolvability of institutions and entities through an effective use of the bail-in tool, the SRB should be able to require that MREL be met with own funds and other subordinated liabilities, in particular where there are clear indications that bailed-in creditors are likely to bear losses in resolution that would exceed the losses that they would incur under normal insolvency proceedings. Moreover the SRB should assess the need to require institutions and entities to meet the MREL with own funds and other subordinated liabilities where the amount of liabilities excluded from the application of the bail- in tool reaches a certain threshold within a class of liabilities that includes MREL-eligible liabilities. Any subordination of debt instruments requested by the SRB for the MREL shall be without prejudice to the possibility to partly meet the TLAC requirements with non-subordinated debt instruments in accordance with the CRR, as amended by the CRR II, as permitted by the TLAC standard. Specific requirements apply to resolution groups with assets above EUR 100 billion (top-tier banks, including Societe Generale).

The regulation and reform of "benchmarks"

Interest rates and indices which are deemed to be "benchmarks", (including the euro interbank offered rate (**EURIBOR**)) are the subject of national and international regulatory guidance and reform aimed at supporting the transition to robust benchmarks. Most reforms have now reached their planned conclusion (including the transition away from London interbank offered rates ("**LIBOR**")), and benchmarks remain subject to ongoing monitoring. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, to be subject to revised calculation methods or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a benchmark.

Regulation (EU) 2016/1011 (the **EU Benchmarks Regulation**) was published in the Official Journal of the EU on 29 June 2016 and has mostly applied, subject to certain transitional provisions since 1 January 2018 to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. Under the current regime, among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities (such as Societe Generale) of benchmarks of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed). The applicable Final Terms will specify whether the benchmark is provided by an administrator included in the register referred to in Article 36 of the current EU Benchmarks Regulation.

Each benchmark specified in this Base Prospectus is listed in the table below, with the name of the relevant Administrator providing such benchmark.

As at the date of this Base Prospectus, the relevant Administrator appears/ does not appear, as the case may be, on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the current EU Benchmarks Regulation, as specified in the table below.

If “Does not appear and exempted” is specified in the table below, it means that the relevant Administrator does not fall within the scope of the current EU Benchmarks Regulation by virtue of Article 2 of that regulation.

If “Does not appear” is specified in the table below, it means that, as far as the Issuer is aware, either the relevant benchmark does not fall within the scope, or is exempted, of the current EU Benchmarks Regulation, such that the relevant Administrator is not required to be included in the ESMA register as authorised or registered administrator or, if located outside the European Union, to obtain an equivalence decision, a recognition or a benchmark endorsement, provided that such relevant Administrator has submitted an application for authorisation, registration, recognition or endorsement (as applicable) and unless and until such application has failed or been refused.

The EU Benchmarks Regulation has been amended to introduce a harmonised approach to deal with the cessation or wind-down of certain benchmarks by conferring the power to designate a statutory replacement for certain benchmarks on the Commission, such replacement being limited to contracts and financial instruments. In addition, the transitional provisions applicable to third-country benchmarks had been further extended until the end of 2025 by Commission Delegated Regulation (EU) 2023/2222 of 14 July 2023. Beyond this date, such third-party benchmarks that are in scope of the EU Benchmarks Regulation may only be used in the European Union if the relevant benchmarks administrators have applied for 'equivalence', 'recognition' or 'endorsement' by 31 December 2025, unless such application is refused by ESMA, or the relevant benchmarks are references in relevant contracts and instruments executed on or before 31 December 2025.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the EU Benchmarks Regulation or the UK Benchmarks Regulation, as the case may be, or any of the international or national reforms in making any investment decision with respect to any Notes linked to or referencing a benchmark.

Financial Transactions Tax (FTT)

A proposal of the European Commission (the **Commission's Proposal**) was published on 14 February 2013 for a common FTT in Belgium, Germany, Greece, Estonia, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **participating Member States**). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should however, be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the Commission's Proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains uncertain. Additional EU Member States may also decide to participate and/or participating Member States may decide to withdraw.

At the ECOFIN Council meeting of 14 June 2019, a state of play of the work on the FTT was presented on the basis of a note prepared by Germany on 7 June 2019 indicating a consensus among the participating Member States (excluding Estonia) to continue negotiations on the basis of a joint French-German proposal based on the French financial transactions tax model which in principle would only concern shares of listed companies whose head office is in a member state of the European Union. However, such proposal is still subject to change until a final approval.

Prospective holders of Notes are advised to seek their own professional advice in relation to the FTT.

Foreign Account Tax Compliance Act Withholding

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (**FATCA**) may impose a 30% withholding tax on certain payments made to certain financial institutions and other entities that do not comply with the requirements under FATCA or to investors that fail to provide their broker or custodian with any information, forms, other documentation, or consents (**FATCA Documentation**) that may be necessary for the payments to be made free of FATCA withholding.

U.S. Withholding Tax under Section 871(m)

Section 871(m) of the U.S. Internal Revenue Code of 1986 and the U.S. Treasury regulations promulgated thereunder (**Section 871(m)**) generally impose a 30% withholding tax on dividend equivalent amounts paid or deemed paid to non-U.S. holders with respect to certain financial instruments linked to U.S. equities or indices that include U.S. equities. Section 871(m) provides certain exceptions to this withholding regime, in particular for instruments linked to certain broad-based indices that meet requirements set forth in the applicable Treasury regulations (such an index, a **Qualified Index**). Additionally, IRS guidance excludes from the scope of Section 871(m) instruments issued prior to January 1, 2027 that are not "delta-one" instruments with respect to underlying securities that could pay U.S.-source dividends for U.S. federal income tax purposes (each an **Underlying Security**). If the Issuer has determined withholding under Section 871(m) applies, it will generally apply withholding at a 30% rate without regard to any applicable treaty rate(s) or any investor's individual tax situation.

Investors should consult their tax adviser regarding the potential application of Section 871(m) Regulations to their investment in the Notes.

The Dodd-Frank Wall Street Reform and Consumer Protection Act and the European Market Infrastructure Regulation

Passage of the Dodd-Frank Wall Street Reform and Consumer Protection Act (**Dodd-Frank Act**) in 2010 in the United States and of the European Regulation 648/2012, known as the European Market Infrastructure Regulation (**EMIR**) which entered into force on 16 August 2012 and took direct effect in the Member States of the European Union, has led to significant structural reforms affecting the financial services industry. The Dodd-Frank Act also contains prohibitions, commonly called, together with the implementing regulations, the **Volcker Rule**, which regulate the ability of banking entities to engage as principal in proprietary trading activities and

sponsoring or investing in hedge, private equity or similar funds. Even though some modifications to the Volcker Rule implementing regulations took effect in 2020, the Volcker Rule continues to operate as a constraint on these activities.

Both Title VII (**Title VII**) of the Dodd-Frank Act and EMIR establish comprehensive regulatory regimes for a broad range of derivatives contracts including swaps, security-based swaps and mixed swaps (collectively referred to in this section as **Covered Swaps**).

In particular, under Title VII of the Dodd-Frank Act and under EMIR, swaps entered into by any Issuer may be required to be cleared through a central counterparty, executed on a trading venue, and subject to additional margin and capital, reporting and recordkeeping requirements that could result in additional regulatory burdens, costs and expenses (including extraordinary, non-recurring expenses of such Issuer).

In addition, the Dodd-Frank Act, amending the CEA, expanded the definition of a "commodity pool" to include any form of enterprise operated for the purpose of trading in commodity interests, including swaps. Each Issuer has imposed certain restrictions on sales in order to fall outside the scope of the CEA. In addition, if any Issuer were deemed to be a "commodity pool", it would be required to register as such with the CFTC and the National Futures Association and would have to comply with a number of reporting requirements that are designed to apply to traded commodity pools. It is presently unclear how such Issuer could comply with certain of these reporting requirements on an ongoing basis.

Investment Company Act

SG Issuer has not registered with the United States Securities and Exchange Commission (the **SEC**) as an investment company pursuant to the Investment Company Act. Investors in the Notes will not have the protections of the Investment Company Act.

If the SEC or a court of competent jurisdiction were to find that the relevant Issuer is required, but in violation of the Investment Company Act, has failed, to register as an investment company, possible consequences include, but are not limited to, the following: (i) the SEC could apply to a district court to enjoin the violation; (ii) investors in the relevant Issuer could sue such Issuer and recover any damages caused by the violation; and (iii) any contract to which the relevant Issuer is party that is made in, or whose performance involves, a violation of the Investment Company Act would be unenforceable by any party to the contract unless a court were to find that under the circumstances enforcement would produce a more equitable result than non-enforcement and would not be inconsistent with the purposes of the Investment Company Act.

Fundamental Review of the Trading Book regulation

For (A) an Index or SGI Index in respect of which the Index Components comprise, without limitation, one or more Equity Instruments that is a Fund Unit or an Underlying Index composed of Funds, ETF Share or an Underlying Index composed of ETF, (B) a Fund or (C) ETP or ETF, if since 1 January 2023, the related Fund, Fund Provider of the underlying Fund, ETF or ETF Service Provider of the underlying ETF, ETP or ETP Issuer of the underlying ETP, as the case may be, does not make publicly available information or does not provide information (either spontaneously or as required pursuant to laws and regulations or contractual arrangements) enabling Societe Generale or its affiliates to calculate its market risks as holder of Fund Units, ETF or ETP, as the case may be, to hedge the obligations of the Issuer under the Notes, as if it were holding directly the assets of the underlying Fund, ETF or ETP, as the case may be (the FRTB Information), Societe Generale or its affiliates may be subject to significantly higher capital requirements under the Fundamental Review of the Trading Book as implemented into French law.

IMPORTANT INFORMATION RELATING TO NON-EXEMPT OFFERS OF NOTES

Certain Tranches of Notes may be offered in circumstances where there is no exemption from the obligation under the Prospectus Regulation to publish a prospectus. Any such offer is referred to below as a Non-exempt Offer.

If, in the context of a Non-exempt Offer, you are offered Notes by any entity, you should check that such entity has been given consent to use this Base Prospectus for the purposes of making its offer before agreeing to purchase any Notes.

The following entities have consent to use this Base Prospectus in connection with a Non-exempt Offer:

- any entity named as a Dealer in the applicable Final Terms;

- if the clause "*Type of Consent*" is stated as being "*Individual Consent*" in the applicable Final Terms:

(a) any financial intermediary specified in the applicable Final Terms as having been granted specific consent to use the Base Prospectus; or
(b) any financial intermediary named on the relevant website(s) of the Issuer as an Authorised Offeror in respect of the Non-exempt Offer (if that financial intermediary has been appointed after the date of the applicable Final Terms); and
(c) if the clause "*Type of Consent*" is stated as being "*General Consent*" in the applicable Final Terms, any financial intermediary authorised to make such offers under MiFID II who has published the Acceptance Statement (as defined below) on its website.

The consent referred to above only relates to Offer Periods (if any) occurring within 12 months from the date of this Base Prospectus.

The entities listed above have been given consent to use the Base Prospectus only during the Offer Period specified in the applicable Final Terms and only in the Non-exempt Offer Jurisdictions.

For Non-exempt Offers which will close after the validity of this Base Prospectus, investors should refer to the succeeding base prospectus which will be available on the relevant website(s) of the Issuer and the section "Ongoing Non-exempt Offers".

Other than as set out above, the Issuer has not authorised the making of any Non-exempt Offer by any person and the Issuer has not consented to the use of this Base Prospectus by any other person in connection with any Non-exempt Offer of Notes.

1. CONSENT GIVEN IN ACCORDANCE WITH ARTICLE 5(1) OF THE PROSPECTUS REGULATION

In the context of any offer of Notes that is not within an exemption from the requirement to publish a prospectus under the Prospectus Regulation (a **Non-exempt Offer**), each of the Issuers and the Guarantor accepts responsibility, in each Relevant State (as defined below) for which it has given its consent (each a **Non-exempt Offer Jurisdiction**) as specified below, for the content of the Base Prospectus under Article 11 of the Prospectus Regulation in relation to any person (an **Investor**) to whom any offer of Notes is made by any financial intermediary to whom it has given its consent to use the Base Prospectus (an **Authorised Offeror**), where the offer is made during the period for which that consent is given in a Non-exempt Offer Jurisdiction for which that consent was given and is in compliance with all other conditions attached to the giving of the consent. The consent and conditions attached to it are set out under "*Type of Consent*" and "*Conditions to Consent*" below.

None of the Issuers, the Guarantor or any relevant Dealer makes any representation as to the compliance by an Authorised Offeror with any applicable conduct of business rules or other applicable regulatory or securities law requirements in relation to any Non-exempt Offer and none of the Issuers, the Guarantor or any relevant Dealer has any responsibility or liability for the actions of that Authorised Offeror.

However, neither the relevant Issuer, the Guarantor nor the relevant Dealer has any responsibility for any of the actions of any Authorised Offeror, including the non-compliance by an Authorised Offeror with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to such offer.

Neither the relevant Issuer, the Guarantor nor the relevant Dealer authorises the use of the Base Prospectus in the case of a Non-exempt Offer of Notes in a Member State of the EEA or Switzerland (each, a **Relevant State**) other than a Non-exempt Offer Jurisdiction or in a Non-exempt Offer Jurisdiction but made by a financial intermediary to which the relevant Issuer has not given its consent. Such unauthorised Non-exempt Offers are not made by or on behalf the relevant Issuer**,** the Guarantor or the relevant Dealer and neither the relevant Issuer, the Guarantor nor the relevant Dealer accepts any responsibility for the actions of any person making such offers and the related consequences.

Save as provided above, neither the relevant Issuer, the Guarantor nor the relevant Dealer authorises that any Non-exempt Offers of Notes may be made in circumstances which would require a relevant Issuer to publish a prospectus or a Supplement to the Base Prospectus.

If, in the context of a Non-exempt Offer, a prospective investor is offered Notes by a person which is not an Authorised Offeror, such prospective investor should check with that person whether anyone is responsible for this Base Prospectus for the purposes of the relevant Non-exempt Offer and, if so, who that person is. If the prospective investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents it should take legal advice.

2. TYPE OF CONSENT

Subject to the conditions set out below under "*Conditions to Consent*" and if it is specified in the applicable Final Terms relating to any Tranche of Notes, the Issuer consents to the use of the Base Prospectus in relation to a Non-exempt Offer of such Notes during the offer period specified in the applicable Final Terms (the **Offer Period**).

The consent given by the Issuer may be an individual consent (an **Individual Consent**) and/or a general consent (a **General Consent**), each as further described below and as specified in the applicable Final Terms.

2.1 Individual Consent

If the clause "*Type of Consent*" is stated as being "*Individual Consent*" in the applicable Final Terms, it means that the Issuer consents to the use of the Base Prospectus in relation to a Non-exempt Offer of such Notes by the relevant Dealer and by:

(i) any financial intermediary (other than a Dealer) acting in association with the Issuer named **Initial Authorised Offeror,** whose name and address are specified in the applicable Final Terms; and

(ii) any financial intermediary acting in association with the Issuer, appointed after the date of the applicable Final Terms, and named **Additional Authorised Offeror,** whose name and address will be published on the relevant website(s) of the Issuer.

2.2 General Consent

If the clause "*Type of Consent*" is stated as being "*General Consent*" in the applicable Final Terms, it means that the Issuer consents to the use of the Base Prospectus in relation to a Non-exempt Offer of Notes to any financial intermediary acting independently from the Issuer named **General Authorised Offeror** which:

(i) holds all necessary licences, consents, approvals and permissions required by any laws, rules, regulations and guidance (including from any regulatory body), applicable to the Non-exempt Offer of the Notes to be authorised to do such offer under the applicable laws of the Non-exempt Offer Jurisdiction, in particular the applicable law implementing MiFID II; and

(ii) publishes on its website a statement that it makes such Non-exempt Offer of Notes based on the General Consent given by the Issuer for the use of the Base Prospectus (the **Acceptance Statement**):

"*We, [*insert legal name of financial intermediary*], refer to the offer of [*insert title of relevant Notes*] (the* **Notes***) described in the Final Terms dated [*insert date*] (the* **Final Terms***) published* by [Societe Generale/SG Issuer] (the Issuer) [and Societe Generale (the Guarantor)]. We hereby accept the offer by the Issuer [and the Guarantor] *of its consent to our use of the Base Prospectus (as defined in the Final Terms) in connection with the offer of the [*insert title of relevant Notes*] in accordance with the terms and subject to the conditions to such consent, each as specified in the Base Prospectus, and confirm that we are using the Base Prospectus accordingly*."

Through this publication on its website, the General Authorised Offeror commits itself to respect the following conditions:

(a) it acts in accordance with all applicable laws, rules, regulations and guidance (including from any regulatory body applicable to the Non-exempt Offer of the Notes in the Non-exempt Offer Jurisdiction, in particular the applicable law implementing MiFID II (hereinafter the **Rules**) and makes sure that (i) any investment advice in the Notes by any person is appropriate, (ii) the information to prospective investors including the information relating to any expenses (and any commissions or benefits of any kind) received or paid by this General Authorised Offeror under the offer of the Notes is fully and clearly disclosed prior to the investment in the Notes;

(b) it complies with the restrictions set out under the section "Subscription, Sale and Transfer Restrictions" in the Base Prospectus related to the Non-exempt Offer Jurisdiction as if it acted as a Dealer in the Non-exempt Offer Jurisdiction and considers the relevant manufacturer's target market assessment and distribution channels identified under the "MiFID II product governance" legend set out in the applicable Final Terms;

(c) ensure that the existence of any fee (and any other commissions or benefits of any kind) or rebate received or paid by the relevant financial intermediary in relation to the offer or sale of the Notes does not violate the Rules, is fully and clearly disclosed to Noteholders or prospective investors prior to their investment in the Notes and to the extent required by the Rules, provides further information in respect thereof;

(d) it complies with the Rules relating to anti-money laundering, anti-corruption, anti-bribery and "know your customer" rules (including, without limitation, taking appropriate steps, in compliance with such rules, to establish and document the identity of each prospective investor prior to initial investment in any Notes by the Investor), and will not permit any application for Notes in circumstances where the financial intermediary has any suspicions as to the source of the application monies; it retains investor identification records for at least the minimum period required under applicable Rules, and shall, if so requested, make such records available to the relevant Issuer and/or the relevant Dealer or directly to the competent authorities with jurisdiction over the relevant Issuer and/or the relevant Dealer in order to enable the relevant Issuer and/or the relevant Dealer to comply with anti-money laundering, anti-corruption, anti-bribery and "know your customer" rules applying to the relevant Issuer and/or the relevant Dealer, as the case may be;

(e) co-operate with the Issuer and the relevant Dealer in providing relevant information (including, without limitation, documents and records maintained pursuant to paragraph (d) above) and such further assistance as reasonably requested upon written request from the Issuer or the relevant Dealer in each case, as soon as is reasonably practicable and, in any event, within any time frame set by

any such regulator or regulatory process. For this purpose, relevant information that is available to or can be acquired by the relevant financial intermediary:

(i) in connection with any request or investigation by any regulator in relation to the Notes, the Issuer or the relevant Dealer; and/or

(ii) in connection with any complaints received by the Issuer and/or the relevant Dealer relating to the Issuer and/or the relevant Dealer or another Authorised Offeror including, without limitation, complaints as defined in rules published by any regulator of competent jurisdiction from time to time; and/or

(iii) which the Issuer or the relevant Dealer may reasonably require from time to time in relation to the Notes and/or as to allow the Issuer or the relevant Dealer fully to comply with its own legal, tax and regulatory requirements;

(f) it does not, directly or indirectly, cause the Issuer or the relevant Dealers to breach any Rule or any requirement to obtain or make any filing, authorisation or consent in any jurisdiction;

(g) it meets any other condition specified under the clause *"General Consent/Other conditions to consent"* in the applicable Final Terms;

(h) it commits itself to indemnify the relevant Issuer, the Guarantor (if applicable), the relevant Dealer, Societe Generale and each of its affiliates for any damage, loss, expense, claim, request or loss and fees (including reasonable fees from law firms) incurred by one of these entities because of, or in relation with, any failure by this General Authorised Offeror (or any of its sub-distributors) to respect any of these obligations above;

(i) it has knowledge of, and is committed to complying with the laws and regulations relating to anti-bribery, corruption and Influence Peddling, including any changes thereto, applicable to its activities;

(j) neither it nor, to the best of its knowledge, any of the persons whom it controls (including its directors, officers or employees, each a "**Controlled Person**"), nor any sub-distributor or intermediary it has mandated for the purposes of its activities, has committed or will commit any Corrupt Act or Influence Peddling directly or indirectly, in each case to or for the use or benefit of, any person or any government official (which shall include any official, employee or representative of, or any other person acting in an official capacity for or on behalf of any government of any jurisdiction, any public international organisation, any political party, or any quasi-governmental body).

Where:

"**Corrupt Act**" shall mean the deliberate act (i) of giving, offering or promising directly or indirectly through others such as third party intermediaries, or (ii) soliciting or accepting, directly or indirectly through others such as third party intermediaries, any offer, donation, gift, invitation, reward or anything of value to any person (including any Public Official), for themselves or for a third party, that would or could be perceived either as an inducement to commit an act of corruption or as a deliberate act of corruption, in each case with a view to inducing any person (including a Public Official) to perform their functions improperly or dishonestly and/or getting any undue benefit.

"**Influence Peddling**" shall mean the deliberate act of (i) giving, offering or promising to any person (including any Public Official), or (ii) yielding to any person (including any Public Official) who solicits, at any time, directly or indirectly, any offer, donation, gift, invitation, reward, or anything of value, for themselves or for others, in each case to abuse or for having abused their real or supposed influence with a view to obtaining from a Public Official any favourable decision or undue benefit.

"**Public Official**" shall mean elected officials, dignitaries, candidates for public office, members of royal families, magistrates, officials or employees, regardless of their grade, or any person belonging to or acting on behalf of (i) a government (foreign, national or local) including any department, agency, regulator or one if their bodies or instrumentalities, (ii) a government department or public authority (including but not limited to customs or tax authorities, embassies and all bodies issuing permits, (iii) a local or regional public service, (iv) a State-owned or controlled enterprise (public hospitals, universities, sovereign investment funds or any other state-sponsored entity), (v) a political party, or (vi) an international court or public organisation (e.g. the UN);

(k) it has put in place appropriate rules and procedures, in a form and manner mandated by law and/or appropriate for a business of its size and resources, aiming at (i) preventing any Corrupt Act and Influence Peddling from being committed by itself, its Controlled Persons and – if any – its sub-distributor or other intermediaries it has mandated for the purpose of its activities and (ii) ensuring that any evidence or suspicion of a Corrupt Act or Influence Peddling is investigated and handled with the appropriate diligence. Any Corrupt Act or Influence Peddling related to its Activities shall be promptly reported to Societe Generale or the relevant Issuer to the extent permitted by applicable law and acted upon accordingly;

(l) neither it nor any of its agents, sub-distributors or Controlled Persons is ineligible or treated by any governmental or international authority as ineligible to tender for any contract or business with, or to be awarded any contract or business by, such authority on the basis of any actual or alleged Corrupt Act or Influence Peddling;

(m) It has kept adequate reasonably detailed books, adequate records and accounts in respect of its activities, in a form and manner appropriate for a business of its size and resources;

(n) it represents and warrants that it shall not distribute financial instruments to, or enter into any arrangement with respect to financial instruments with, Sanctioned Persons. It shall implement and maintain appropriate safeguards designed to prevent any action that would be contrary to this section.

Where:

"**Sanctioned Person**" means any individual or entity that is a designated target of Sanctions or is otherwise subject of Sanctions, including without limitation, as a result of being (a) owned or controlled directly or indirectly by any person/entity or persons/entities which is or are a designated target of Sanctions, or (b) organized under the laws of, or a resident of, any country or territory that is subject to comprehensive or country-wide Sanctions;

"**Sanctions**" means any economic or financial sanctions, trade embargoes or similar measures enacted, administered or enforced by any of the following (or by any agency of any of the following):
(a) the United Nations;
(b) the United States of America;
(c) the United Kingdom; or
(d) the European Union or any present or future member state thereof;

(o) it undertakes to promptly inform Societe Generale or the relevant Issuer of (a) any complaint received in relation to its activities or the financial instruments; or (b) any event affecting it, including but not limited to any of: (i) a regulatory investigation or audit of it or its affiliates, partners or agents; (ii) legal proceedings initiated by a competent regulatory authority against it or its affiliates, partners or agents; or (iii) a judgment rendered or penalty levied against it or its affiliates, partners or agents, which in each case might reasonably involve a reputational risk for Societe Generale or the relevant Issuer;

(p) immediately inform the relevant Issuer, the Guarantor and the relevant Dealer if at any time it becomes aware, or suspects, that it is or may be in violation of any Rules and take all appropriate steps to remedy such violation and comply with such Rules in all respects;

(q) does not give any information other than that contained in this Base Prospectus (as may be amended or supplemented by the Issuers from time to time) or make any representation in connection with the offering or sale of, or the solicitation of interest in, the Notes;

(r) agrees that any communication in which it attaches or otherwise includes any announcement published by the relevant Issuer at the end of the Offer Period will be consistent with the Base Prospectus, and (in any case) must be fair, clear and not misleading and in compliance with the Rules and must state that such Authorised Offeror has provided it independently from the relevant Issuer and must expressly confirm that the relevant Issuer has not accepted any responsibility for the content of any such communication;

(s) does not, without the prior written consent of the relevant Issuer, the Guarantor or the relevant Dealer (as applicable), use the legal or publicity names of the relevant Dealer, the relevant Issuer or any other name, brand or logo registered by any entity within their respective groups or any material over which any such entity retains a proprietary interest or in any statements (oral or written), marketing material or documentation in relation to the Notes;

(t) it acknowledges that its commitment to respect the obligations above is governed by English law if the applicable Notes are English Law Notes, or French law if the applicable Notes are French Law Notes, or as the case may be, Swiss law if the applicable Notes are Swiss Law Notes and agrees that any related dispute is brought before the courts of England if the applicable Notes are English Law Notes or the courts of Paris (tribunaux de Paris, France), if the applicable Notes are French Law Notes; or, as the case may be, the courts of the City of Zurich, Switzerland, in case of Swiss Law Notes; and

(u) agrees and accepts that the Guarantor and the relevant Dealer will, pursuant to the Contracts (Rights of Third Parties) Act 1999, be entitled to enforce those provisions of the contract between the relevant Issuer and the financial intermediary of the relevant Issuer's offer to use of the Base Prospectus with its consent in connection with the relevant Non-exempt Offer, which are, or are expressed to be, for their benefit, including the agreements, representations, undertakings and indemnity given by the financial intermediary pursuant to the above conditions.

Any General Authorised Offeror who wishes to use the Base Prospectus for a Non-exempt Offer of Notes in accordance with this General Consent and the related conditions is required, during the time of the relevant Offer Period, to publish on its website the Acceptance Statement.

3. CONDITIONS TO CONSENT

The consent by the Issuer to the use of the Base Prospectus in the context of the relevant Non-exempt Offer are (in addition to the conditions described in paragraph "*Type of Consent*" above if the clause "*Type of Consent*" is stated as being "*General Consent*" in the applicable Final Terms) that such consent:

(a) is only valid during the Offer Period specified in the applicable Final Terms; and

(b) only extends to the use of this Base Prospectus to make Non-exempt Offers of the relevant Tranche of Notes in Austria, Belgium, Bulgaria, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Norway, Poland, Portugal, Romania, Slovak Republic, Slovenia, Spain, Sweden, Switzerland and the Netherlands, as specified in the applicable Final Terms.

The only Relevant States for which each of the Issuer and the Guarantor has given a consent for the making of Non-exempt Offers and which may be so specified in the applicable Final Terms as indicated in the paragraph 3(b) as Non-exempt Offer Jurisdictions will

be Austria, Belgium, Bulgaria, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Norway, Poland, Portugal, Romania, Slovak Republic, Slovenia, Spain, Sweden, Switzerland and the Netherlands.

4. ARRANGEMENTS BETWEEN INVESTORS AND AUTHORISED OFFERORS

A prospective investor intending to acquire or acquiring any Notes from an Authorised Offeror will do so, and offers and sales of the Notes to an Investor by an Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such Investor including as to price, allocation and settlement arrangements (the **Terms and Conditions of the Non-exempt Offer**). The relevant Issuer and the Guarantor will not be a party to any such arrangements with Investors (other than the Dealer) in connection with the offer or sale of the relevant Notes and, accordingly, the Base Prospectus and the applicable Final Terms will not contain such information.

The information relating to the Terms and Conditions of the Non-exempt Offer shall be provided to the Investors by the Authorised Offeror at the time such Non-exempt Offer is made. None of the relevant Issuer, the Guarantor or any Dealer (except where such Dealer is the relevant Authorised Offeror) has any responsibility or liability to an Investor in respect of such information.

INFORMATION INCORPORATED BY REFERENCE

1. LIST OF THE INFORMATION INCORPORATED BY REFERENCE

The following information, which has previously been published or is published simultaneously with this Base Prospectus and has been filed with the CSSF and SIX Swiss Exchange, shall be incorporated by reference into, and form part of, this Base Prospectus.

(a) the General Terms and Conditions, Form of Final Terms and Additional Terms and Conditions contained in the previous Base Prospectuses (which means collectively the 29 April 2014 Base Prospectus, the 28 October 2014 Base Prospectus, the 6 July 2016 Base Prospectus, the 27 June 2017 Base Prospectus, the 20 June 2018 Base Prospectus, the 14 June 2019 Base Prospectus, the 5 June 2020 Base Prospectus, the 4 June 2021 Base Prospectus, the 1 June 2022 Base Prospectus, the 31 May 2023 Base Prospectus, the 31 May 2024 Base Prospectus and the 30 May 2025 Base Prospectus), all as supplemented (the "***Previous Base Prospectuses***"). The supplements to the Previous Base Prospectuses which are incorporated by reference are listed in section 2.3 below, and

(b) the information contained in the documents mentioned in section 1.1 and 1.2 below.

The cross-reference table in relation to the Previous Base Prospectuses appears in paragraph 2.3. To the extent that each of the Previous Base Prospectuses incorporates itself documents by reference, such documents shall not be deemed incorporated by reference herein.

Where the Form of Final Terms that appears in a Previous Base Prospectus is incorporated by reference in this Base Prospectus, the introduction paragraph of such previous Form of Final Terms is no longer valid and the introduction paragraph of the Form of Final Terms as set out in this Base Prospectus must be used.

The documents that contain the information incorporated by reference in paragraph 1.1 below are direct and accurate translations into English of the original version of such documents issued in French. Societe Generale as Issuer accepts responsibility for such translations.

This Base Prospectus and the documents that contain the information incorporated by reference herein are available on the Luxembourg Stock Exchange website (www.luxse.com).

1.1 Information incorporated by reference relating to Societe Generale

To the extent that each of the documents that contain the information incorporated by reference relating to Societe Generale incorporates itself information by reference, such information shall not be deemed incorporated by reference herein. Any reference to information incorporated by reference relating to Societe Generale shall be deemed to exclude the parts referred to in (i), (ii) and (iii) in the paragraphs 1.1.1 to 1.1.3 below.

1.1.1 2025 Universal Registration Document

The expression "**2025 Universal Registration Document**" means the English version of the *Document d'Enregistrement Universel 2025* of Societe Generale, the French version of which was filed with the AMF of 12 March 2025 under n° D.25-0088**,** except for (i) the cover page containing the AMF textbox, (ii) the statement of the person responsible for the universal registration document and the annual financial report made by Mr. Slawomir Krupa, Chief Executive Officer of Societe Generale, page 674 and (iii) the cross reference tables, pages 676 to 680.

The cross-reference table in relation to the 2025 Universal Registration Document appears in the paragraph 2.1 below.

The 2025 Universal Registration Document is available on the Societe Generale website (https://www.societegenerale.com/sites/default/files/documents/2025-03/universal-registration-document-2025.pdf).

1.1.2 2026 Universal Registration Document

The expression "**2026 Universal Registration Document**" means the English version of the *Document d'Enregistrement Universel 2026* of Societe Generale, the French version of which was filed with the AMF of 13 March 2026 under n° D.26-0091**,** except for (i) the cover page containing the AMF textbox, (ii) the statement of the person responsible for the universal registration document and the annual financial report made by Mr. Slawomir Krupa, Chief Executive Officer of Societe Generale, page 696 and (iii) the cross reference tables, pages 696 to 702.

The cross-reference table in relation to the 2026 Universal Registration Document appears in the paragraph 2.1 below.

The 2026 Universal Registration Document is available on the Societe Generale website (https://www.societegenerale.com/sites/default/files/documents/2026-03/universal-registration-document-2026.pdf).

1.1.3 First Amendment to the 2026 Universal Registration Document

The expression "**First Amendment to the 2026 Universal Registration Document**" means the English version of the *Premier amendement du Document d'Enregistrement Universel 2026* of Societe Generale, the French version of which was filed with the AMF on 30 April 2026 under no. D-26-0091-A01, except for (i) the cover page containing the AMF textbox, (ii) the statement of the person responsible for the first amendment to the universal registration document made by Mr. Slawomir Krupa, Chief Executive Officer of Societe Generale, page 42 and (iii) the cross reference tables, pages 44 to 46.

The cross-reference table in relation to the First Amendment to the 2026 Universal Registration Document appears in the paragraph 2.1 below.

The First Amendment to the 2026 Universal Registration Document is available on the Societe Generale website (https://www.societegenerale.com/sites/default/files/documents/2026-04/urd-1st-amendment-30-04-2026.pdf).

1.2 Information incorporated by reference relating to SG Issuer

To the extent that each of the documents that contain the information incorporated by reference relating to SG Issuer incorporates itself information by reference, such information shall not be deemed incorporated by reference herein.

1.2.1 2024 Annual Financial Statements

The expression "**2024 Annual Financial Statements**" means the English version of the audited annual financial statements of SG Issuer for the period from 1 January 2024 to 31 December 2024 prepared in accordance with international financial reporting standards (IFRS), the related appendix and notes and the statutory auditor's report for the year.

The 2024 Annual Financial Statements are available on prospectus.socgen.com website (https://prospectus.socgen.com/issuerdoc_search/FS SG Issuer 31.12.2024.pdf).

The cross-reference table in relation to the 2024 Annual Financial Statements appears in paragraph 2.2.1 below.

1.2.2 2025 Annual Financial Statements

The expression "**2025 Annual Financial Statements**" means the English version of the audited annual financial statements of SG Issuer for the period from 1 January 2025 to 31 December 2025 prepared in accordance with international financial reporting standards (IFRS), the related appendix and notes and the statutory auditor's report for the year.

The 2025 Annual Financial Statements are available on prospectus.socgen.com website (https://prospectus.socgen.com/issuerdoc_search/SG%20Issuer%20S.A._FS_31.12.2025_signed.pdf).

The cross-reference table in relation to the 2025 Annual Financial Statements appears in paragraph 2.2.2 below.

2. CROSS REFERENCE TABLES OF THE INFORMATION INCORPORATED BY REFERENCE

The parts of the documents that contain the information incorporated by reference which are not specified in the cross-reference tables below are not incorporated by reference as they are either not relevant for an investor or are covered elsewhere in the Base Prospectus. References to pages appearing in each of the cross-reference tables are to those of each document that includes information incorporated by reference.

2.1 Cross reference tables relating to Societe Generale

FINAL TERMS OR DRAWDOWN PROSPECTUS

In this section the expression "**necessary information**" means, in relation to any Tranche of Notes, the information necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuers and the Guarantor and of the rights attaching to the Notes. In relation to the different types of Notes which may be issued under the Programme, the Issuers and the Guarantor have endeavoured to include in this Base Prospectus all of the necessary information except for information relating to the Notes which is not known at the date of this Base Prospectus and which can only be determined at the time of an individual issuance of a Tranche of Notes and except for certain information specific to U.S. Exempt Securities set out in the applicable Offering Circular.

Any information relating to the Notes which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to a Tranche of Notes will therefore be contained either in the applicable Final Terms or in a Drawdown Prospectus. Such information will be contained in the applicable Final Terms unless any of such information constitutes a significant new factor relating to the information contained in this Base Prospectus in which case such information, together with all of the other necessary information in relation to the relevant Tranche of Notes will be contained in a Drawdown Prospectus. Information specific to any issue of U.S. Exempt Securities (including information on the form of the Notes and applicable selling and transfer restrictions) shall be set out in the applicable Offering Circular in connection with the offer and sale of such U.S. Exempt Securities. In case of any issue of U.S. Exempt Securities, all references herein to "Final Terms" shall include, or be interpreted to mean, the applicable Offering Circular.

For a Tranche of Notes, which is the subject of Final Terms, those Final Terms will, for the purposes of such Tranche of Notes only, complete the Terms and Conditions of the Notes and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Notes which is the subject of Final Terms are the Terms and Conditions of the Notes as completed to the extent described in the applicable Final Terms or Drawdown Prospectus, as the case may be. The terms and conditions applicable to any particular Tranche of Notes which is the subject of a Drawdown Prospectus will be the Conditions as supplemented to the extent described in the relevant Drawdown Prospectus. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the applicable Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise. In the case of a Tranche of U.S. Exempt Securities which is the subject of an Offering Circular, each reference in this Base Prospectus to information being specified or identified in the applicable Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Offering Circular unless the context requires otherwise.

An Issuer and, if applicable, the Guarantor, may agree with any Dealer that Notes may be issued, offered to the public, and/or admitted to trading on a regulated market in a form not contemplated by the Terms and Conditions of the Notes described in this Base Prospectus, in which event a Drawdown Prospectus will be submitted for approval to the relevant competent authority and will be made available. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the applicable Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise. The terms and conditions applicable to any particular Tranche of Notes which is the subject of a Drawdown Prospectus will be the Terms and Conditions of the Notes as supplemented, amended and/or replaced to the extent described in the relevant Drawdown Prospectus.

In accordance with Article 6(3) of the Prospectus Regulation, the Drawdown Prospectus will be drawn up as a single document, incorporating by reference, if applicable, the relevant parts of the Base Prospectus.

SUPPLEMENT TO THE BASE PROSPECTUS

If at any time the Issuers shall be required to prepare a supplement to this Base Prospectus pursuant to Article 23 of the Prospectus Regulation, the Issuers will prepare and make available an appropriate supplement to this Base Prospectus or a further Base Prospectus which, in respect of any subsequent issue of Notes to be listed and admitted to trading on a regulated market shall constitute a supplement to the Base Prospectus (or a new Base Prospectus, as applicable) as required (for supplements) by Article 23 of the Prospectus Regulation.

Each Issuer has given an undertaking to the Dealers that if at any time during the duration of the Programme there is a significant new factor, material mistake or material inaccuracy relating to information contained in this Base Prospectus which is capable of affecting the assessment of any Notes, the Issuers shall prepare a supplement to this Base Prospectus or publish a new Base Prospectus for use in connection with any subsequent offering of the Notes.

Following the publication of this Base Prospectus, the Issuers and the Guarantor will, in the event of any significant new factor, material mistake or material inaccuracy relating to information included in this Base Prospectus which is capable of affecting the assessment of any Notes, prepare a supplement to this Base Prospectus (a **Supplement**) in accordance with Article 23 of the Prospectus Regulation or publish a new prospectus for use in connection with any subsequent issue of Notes. Such Supplement as prepared will have to be approved by the CSSF. Statements contained in any such Supplement (or contained in any information incorporated by reference therein) shall, to the extent applicable (whether expressly, by implication or otherwise), be deemed to modify or supersede statements contained in this Base Prospectus or in any information that is incorporated by reference in this Base Prospectus. Any statement so modified or superseded shall not, except as so modified or superseded, constitute a part of this Base Prospectus.

In the case of Notes subject to a Non-exempt Offer to the public, in accordance with Article 23(2) bis of the Prospectus Regulation, investors who have already agreed to purchase or subscribe for Notes before any Supplement is published have the right, exercisable within three working days after the publication of this Supplement, to withdraw their acceptances.

FORM OF FINAL TERMS

Set out below is the form of Final Terms which will be completed for each Tranche of Notes other than U.S. Exempt Securities issued under the Programme where:

** will apply if the minimum denomination is less than €100,000*
*** will apply if the minimum denomination is at least €100,000*

[*To be included on front of the Final Terms if following the ICMA 1 "all bonds to all professionals" target market approach*:

MiFID II product governance / Professional investors and ECPs only target market – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in [Directive 2014/65/EU (as amended, **MiFID II**)][MiFID II]; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. [*Consider any negative target market*]. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels.]

[*The legend may not be necessary if the managers in relation to the Notes are not subject to UK MiFIR and therefore there are no UK MiFIR manufacturers. Depending on the location of the manufacturers, there may be situations where either the MiFID II product governance legend or the UK MiFIR product governance legend or where both are included:*

UK MiFIR product governance / Professional investors and ECPs only target market – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes, has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (**COBS**), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**UK MiFIR**); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. [*Consider any negative target market*]. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the **UK MiFIR Product Governance Rules**) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels.]

OR

[*To be included on front of the Final Terms if following the ICMA 2 approach*:
MiFID II product governance / Retail investors, professional investors and ECPs – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in [Directive 2014/65/EU (as amended, **MiFID II**)][MiFID II]; ***EITHER*** [2] [and (ii) all channels for distribution of the Notes are appropriate, including investment advice, portfolio management, non-advised sales and pure execution services] ***OR*** [3] [(ii) all channels for distribution to eligible counterparties and professional clients are appropriate; [and (iii) the determination of the appropriate channels for distribution of the Notes to retail clients has been made and is available on the website http://regulatory.sgmarkets.com/#/mifid2/emt][, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable]]. [*Consider any negative target market*]. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels[, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable] [4] ***II***

[*The legend may not be necessary if the managers in relation to the Notes are not subject to UK MiFIR and therefore there are no UK MiFIR manufacturers. Depending on the location of the manufacturers, there may be situations where either the MiFID II product governance legend or the UK MiFIR product governance legend or where both are included*:

UK MiFIR product governance / Retail investors, professional investors and ECPs target market – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes, has led to the conclusion that: (i) the target market for the Notes is retail clients, (for these purposes, a retail client means a person who is not a professional client as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**) (**professional client**)), and eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (**COBS**), and professional clients ; ***EITHER*** [5] [and (ii) all channels for distribution of the Notes are appropriate,

2 Include for bonds that are not ESMA complex.
3 Include for certain ESMA complex bonds. This list may need to be amended, for example, if advised sales are deemed necessary. If there are advised sales, a determination of suitability will be necessary. In addition, if the Notes constitute "complex" products, pure execution services are not permitted to retail without the need to make the determination of appropriateness.
4 If the Notes constitute "complex" products, pure execution services are not permitted to retail without the need to make the determination of appropriateness. If there are advised sales, a determination of suitability will be necessary.
5 Include for bonds that are not ESMA complex (in the UK context, as reflected in COBS).

including investment advice, portfolio management, non-advised sales and pure execution services] ***OR*** [6] [(ii) all channels for distribution to eligible counterparties and professional clients are appropriate; [and (iii) the determination of the appropriate channels for distribution of the Notes to retail clients has been made and is available on the website http://regulatory.sgmarkets.com/#/mifid2/emt] [, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable]]. [*Consider any negative target market*]. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the **UK MiFIR Product Governance Rules**) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels[, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable] [7][8]

[Information specific to any issue of U.S. Exempt Securities shall be set out in an Offering Circular in connection with the offer and sale of such U.S. Exempt Securities.]

APPLICABLE FINAL TERMS

Dated [●]

[*To be included if the Notes are offered in Switzerland and/or listed on SIX Swiss Exchange*:

The Notes described in these Final Terms do not constitute a participation in a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes (CISA). Therefore, the Notes are not subject to authorisation and supervision by the Swiss Financial Market Supervisory Authority FINMA (FINMA), and investors in the Notes will not benefit from protection under the CISA or supervision by FINMA. Investors in the Notes will bear a credit risk on [the Issuer of the Notes] [the Guarantor].]

[*Legend to be included if the Notes potentially constitute "packaged" products and no key information document will be prepared or the issuer wishes to prohibit offers to EEA retail investors for any other reason, in which case the selling restriction should be specified to be "Applicable":* **PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (EEA). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, MiFID II); or (ii) a customer within the meaning of Directive 2016/97/EU (as amended or superseded, the Insurance Distribution Directive), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the EU PRIIPs Regulation) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.]**

[*Legend to be included if the Notes potentially constitute "packaged" products and no key information document will be prepared or the issuer wishes to prohibit offers to UK retail investors for any other reason, in which case the selling restriction should be specified to be "Applicable":* **PROHIBITION OF SALES TO UK RETAIL INVESTORS - The Notes are not intended to be offered, sold, distributed or otherwise made available to and should not be offered, sold, distributed or otherwise made available to any retail investor in the United Kingdom (UK). For these purposes, a retail investor means a person who is either one (or both) of the following: (i) not a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (EUWA) ; or (ii) not a qualified investor as defined in paragraph 15 of Schedule 1 to the Public Offers and Admissions to Trading Regulations 2024. Consequently, no disclosure document required by the FCA Product Disclosure Sourcebook (DISC) for offering, selling or distributing the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering, selling or distributing the Notes or otherwise making them available to any retail investor in the UK may be unlawful under DISC and the Consumer Composite Investments (Designated Activities) Regulations 2024.]**

[*To be included if no PRIIPS KID is prepared and the Notes are offered in Switzerland, in which case the selling restriction should be specified to be "Applicable":* **PROHIBITION OF SALES TO SWISS RETAIL INVESTORS:** No key information document according to the FinSA or any equivalent document under the FinSA has been prepared in relation to the Notes, and, therefore, the Notes may not be offered or recommended to clients in Switzerland qualifying as retail clients within the meaning of the FinSA and who have to be provided with a key information document or equivalent document pursuant to the FinSA.]

6 Include for certain ESMA complex bonds (in the UK context, as reflected in COBS). This list may need to be amended, for example, if advised sales are deemed necessary. If there are advised sales, a determination of suitability will be necessary. In addition, if the Notes constitute "complex" products, pure execution services are not permitted to retail without the need to make the determination of appropriateness.

7 If the Notes constitute "complex" products, pure execution services are not permitted to retail without the need to make the determination of appropriateness. If there are advised sales, a determination of suitability will be necessary.

8 Please note that non-exempt offers in the UK require a FCA approval. Since the Base Prospectus is not approved by the FCA, an approval of this document or a drawdown prospectus approved by the FCA should be required before any sales to UK retail investors on a non-exempt basis.

[*To be included if Notes are offered in Singapore and the classification differs from that specified on the cover page of this Base Prospectus:*

Notification under Section 309B(1)(c) of the Securities and Futures Act 2001 of Singapore, as modified or amended from time to time (the SFA**) -** *In connection with Section 309B of the SFA and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the* ***CMP Regulations 2018****), the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309(A)(1) of the SFA), that the Notes are prescribed capital markets products (as defined in the CMP Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products)*

Use of Terms under Section 309C(1) of the SFA – In connection with Section 309C(1) of the SFA, any reference to "capital protected" or "principal protected" (or any related terms or derivative of such terms) in this Base Prospectus shall have no effect on any products offered or sold in Singapore and shall be replaced with "*principal repayment at maturity*".]

Issue of [up to] [[Aggregate Nominal Amount of Tranche] [Title of Notes]
[Unconditionally and irrevocably guaranteed by Societe Generale]
under the Debt Instruments Issuance Programme

PART A – CONTRACTUAL TERMS

[Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth under the heading ["General Terms and Conditions of the English Law Notes"] ["General Terms and Conditions of the French Law Notes"]["General Terms and Conditions of the Swiss Law Notes"] in the Base Prospectus dated 15 May 2026 [,which constitutes a base prospectus for the purposes of Regulation (EU) 2017/1129, as amended (the **Prospectus Regulation**)]. This document constitutes the Final Terms of the Notes described herein [for the purposes of Article 8(4) of the Prospectus Regulation] and must be read in conjunction with the Base Prospectus [and the supplement[s] to such Base Prospectus [dated [●]] [and any [other] supplement] published prior to the Issue Date (as defined below) (the **Supplement(s)**)]; provided, however, that to the extent such Supplement (i) is published after these Final Terms have been signed or issued and (ii) provides for any change to the Conditions as set out under the heading ["General Terms and Conditions of the English Law Notes"] ["General Terms and Conditions of the French Law Notes"]["General Terms and Conditions of the Swiss Law Notes"], such change shall have no effect with respect to the Conditions of the Notes to which these Final Terms relate. Full information on the Issuer[, the Guarantor] and the offer of the Notes is only available on the basis of the combination of these Final Terms, the Base Prospectus and any Supplement(s). Prior to acquiring an interest in the Notes described herein, prospective investors should read and understand the information provided in these Final Terms, the Base Prospectus and any Supplement(s) and be aware of the restrictions applicable to the offer and sale of such Notes in the United States or to, or for the account or benefit of, persons that are not Permitted Transferees. [A summary of the issue of the Notes is annexed to these Final Terms.] Copies of the Base Prospectus, any Supplement(s) and these Final Terms are available, in the case of Notes admitted to trading on the Regulated Market or on the Euro MTF of the Luxembourg Stock Exchange, on the website of the Luxembourg Stock Exchange (www.luxse.com) and, in the case of Non-exempt Offers; on the website of the Issuer
(http://prospectus.socgen.com)]

[*The following alternative language applies if the first Tranche of Notes which is being increased was issued under a prospectus with an earlier date which was incorporated by reference in this prospectus*:

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions under the heading "General Terms and Conditions of the English Law Notes"/ "General Terms and Conditions of the French Law Notes"] in the Base Prospectus dated [29 April 2014][28 October 2014][6 July 2016][27 June 2017][20 June 2018][14 June 2019][5 June 2020][4 June 2021][1 June 2022][31 May 2023][31 May 2024][30 May 2025] as supplemented by [*for Base Prospectus dated 29 April 2014*: the supplement dated 4 June 2014, the supplement dated 24 June 2014 and the supplement dated 13 August 2014] [*for Base Prospectus dated 28 October 2014*: the supplement dated 6 November 2014, the supplement dated 18 December 2014, the supplement dated 23 January 2015, the supplement dated 19 March 2015, the supplement dated 9 June 2015 and the supplement dated 19 August 2015] [*for Base Prospectus dated 6 July 2016*: the supplement dated 9 August 2016, the supplement dated 18 October 2016, the supplement dated 2 December 2016 and the supplement dated 23 December 2016] [*for the Base Prospectus dated 27 June 2017*: the supplement dated 31 July 2017, the supplement dated 13 September 2017, the supplement dated 20 October 2017 and the supplement dated 20 March 2018] [f*or Base Prospectus dated 20 June 2018*: the supplement dated 24 August 2018, the supplement dated 3 December 2018 and the supplement dated 28 February 2019] [*for the Base Prospectus dated 14 June 2019*: the supplement dated 19 August 2019, the supplement dated 11 October 2019, the supplement dated 29 November 2019 and the supplement dated 14 April 2020] [*for the Base Prospectus dated 5 June 2020*: the supplement dated 17 July 2020, the supplement dated 20 August 2020, the supplement dated 21 September 2020 and the supplement dated 11 December 2020] [*for the Base Prospectus dated 4 June 2021:* the supplement dated 14 January 2022 and the supplement dated 26 April 2022] [*for the Base Prospectus dated 1 June 2022:* the supplement dated 15 February 2023 and the supplement dated 25 April 2023] [*for the Base Prospectus dated 31 May 2023:* the supplement dated 4 August 2023, the supplement dated 25 October 2023, the supplement dated 15 January 2024, the supplement dated 8 February 2024 and the supplement dated 25 March 2024] [*for the Base Prospectus dated 31 May 2024:* the supplement dated 17 October 2024] [*for the Base Prospectus dated 30 May 2025:* the supplement dated 2 July 2025, the supplement dated 26 September 2025, the Supplement dated 15 October 2025, the Supplement dated 20 February 2026 and the supplement dated 20 March 2026] which are incorporated by reference in the Base Prospectus dated 15 May 2026. This document constitutes the Final

Terms of the Notes described herein [for the purposes of Article 8(4) of the Prospectus Regulation][9] and must be read in conjunction with the Base Prospectus dated 15 May 2026 [which constitutes a base prospectus for the purposes of Regulation (EU) 2017/1129, as amended (the **Prospectus Regulation)**] to the extent that such amendments have been implemented in a Member State) [and the supplement[s] to such Base Prospectus dated [●] [and any other supplement] published prior to the Issue Date (as defined below) (the **Supplement(s)**)]. Full information on the Issuer [, the Guarantor] and the offer of the Notes is only available on the basis of the combination of these Final Terms, the Base Prospectus and any Supplement(s) thereto. [A summary of the issue of the Notes is annexed to these Final Terms.] Copies of the Base Prospectus, any Supplement(s) and these Final Terms are available, in the case of Notes admitted to trading on the Regulated Market or on the Euro MTF of the Luxembourg Stock Exchange, on the website of the Luxembourg Stock Exchange (www.luxse.com)] [, and, in the case of Non-exempt Offers, on the website of the Issuer (http://prospectus.socgen.com).]

[*In case of a public offer continuing after the validity of the Base Prospectus*: The Base Prospectus is valid until 15 May 2027. The succeeding base prospectus will be available on http://prospectus.socgen.com).]

[*Include whichever of the following apply or specify as "Not Applicable". Note that the numbering should remain as set out below, even if "Not Applicable" is indicated for individual paragraphs or subparagraphs. Italics denote guidance for completing the Final Terms. If "Not Applicable" is specified in respect of a paragraph, the remaining sub-paragraph(s) shall be deleted*.]

[*If the Notes are governed by English Law*. Any reference in these Final Terms to "General Terms and Conditions" is deemed to be a reference to "General Terms and Conditions of the English Law Notes".] [*If the Notes are governed by French Law*. Any reference in these Final Terms to "General Terms and Conditions" is deemed to be a reference to "General Terms and Conditions of the French Law Notes".][*If the Notes are governed by Swiss Law*. Any reference in these Final Terms to "General Terms and Conditions" is deemed to be a reference to "General Terms and Conditions of the Swiss Law Notes".]

[*When completing final terms, consideration should be given as to whether such terms or information constitute "significant new factors" and consequently trigger the need for a Supplement to the Base Prospectus under Article 23 of the Prospectus Regulation*.]

[*When the context requires, any reference to "Notes" and "Noteholders" in these Final Terms may be replaced by "Certificates" and "Certificateholders*".]

[*If the Notes have a maturity of less than one year from the date of issue, the minimum denomination may need to be £100,000 or its equivalent in any other currency in order to comply with United Kingdom selling restrictions*.]

[*Any reference in the applicable Final Terms to any date expressed under the form « DD/MM/YYYY » shall be deemed to be a reference to any date expressed under the form "Day/Month/Year*"]

1.	**(i)**	**Series Number:**	[*Insert the series number*]
	(ii)	**Tranche Number**:	[*Insert the tranche number*]
	(iii)	**Date on which the Notes become fungible:**	[Not Applicable] [The Notes shall be assimilated and form a single series with the **[***Insert title of the Notes related to the previous tranche number of the series***]** on **[***Insert date***]** [the Issue Date] [*issue date plus forty days*]]
2.		**Specified Currency:**	**[***Insert the currency of the Notes***]** [Renminbi Currency Event applicable as per Condition 5.15] [Relevant Currency: **[***Insert the relevant currency***]**]
3.		**Aggregate Nominal Amount:**	
	(i)	**Tranche:**	[up to] **[***Insert the aggregate nominal amount of the tranche***]**
	(ii)	**Series:**	[up to] **[***Insert the aggregate nominal amount of the series***]**[10]
4.		**Issue Price:**	**[[***Insert the percentage***]**% of the Aggregate Nominal Amount] **[[***Insert the currency and the amount***]** per Note of **[***Insert the currency and the amount***]** Specified Denomination] [plus an

9 Delete in the case of any issue of Private Placement Notes or any Notes to be issued pursuant to a unitary prospectus.
10 For French Law Notes only, the Series must comprise at least five Notes.

amount equal to the interest accrued from and including **[***Insert date***]** to but excluding **[***Insert date***]** [the Issue Date] (which is equal to **[***Insert the number of days***]** days' accrued interest)] [Offer Price]

5. **[(i)]** **Specified Denomination:** **[***Insert the currency and the amount***]**
[*In respect of any Exempt Offer, the €100,000 minimum denomination is not required.*]**
[*Only if the Notes are Notes other than Registered, Uncertificated Notes or French Law Notes, if the Specified Denomination is expressed to be €100,000 or its equivalent in another currency and multiples of a lower principal amount (for example €1,000 or its equivalent in another currency), insert the additional wording as follows:*
€100,000 and integral multiples of [€1,000] in excess thereof up to and including €199,000. No Notes in definitive form will be issued with a denomination exceeding €199,000.]*
[*NB: Dematerialised Notes shall be issued in one denomination only*]
[*In respect of Credit Linked Notes which are Single Name Notes or First-to-Default Notes*:
(in relation to each Note, and subject to Condition of the Additional Terms and Conditions for Credit Linked Notes, the Nominal Amount)]

[*NB: The following apply for Definitive Bearer Notes and Definitive Registered Notes only:*

[(ii)] **Calculation Amount:** [Not Applicable] **[***Insert the currency and the amount***]**

[*NB: Only applicable to English Law Notes*.

The applicable Calculation Amount (which is used for the calculation of interest and redemption amounts) will be (i) if there is only one Specified Denomination, the Specified Denomination of the relevant Notes or (ii) if there are several Specified Denominations or the circumstances referred to in paragraph 5(i)apply (e.g. Specified Denominations of €100,000 and multiples of €1,000), the highest common factor of those Specified Denominations Note that there must be a common factor in the case of two or more Specified Denominations. If "Calculation Amount" is to be used in the applicable Final Terms, corresponding references to the Calculation Amount for interest, put and call options and redemption amount calculation purposes should be included in the terms and conditions set out in the Base Prospectus. Note that a Calculation Amount of less than 1,000 units of the relevant currency may result in practical difficulties for paying agents and/or ICSDs who should be consulted if such an amount is proposed.]

[*NB: For Preference Share Linked Notes and Warrant Linked Notes the Calculation Amount must be calculated on the basis of the Issue Price*.]

[(iii)] **Adjusted Specified Denomination:** **[***Insert the currency and the amount***]**

[NB: Only applicable to Instalment Notes.]

6. **(i)** **Issue Date:** **[(DD/MM/YYYY)]** **[***Insert the date***]**

[*NB: For Preference Share Linked Notes, the Preference Shares shall have been issued at least one Business Day prior to the Issue Date. For Warrant Linked Notes, the Warrants shall have been issued at least one Business Day prior to the Issue Date*]

(ii) **Interest Commencement Date**: **[(DD/MM/YYYY)]** [Not Applicable] [Issue Date] [*specify*]

[*NB: An Interest Commencement Date will not be relevant for certain Notes, for example for Zero Coupon Notes*]

7. **Maturity Date [**In the case of Italian Certificates only: **Final Exercise Date]: [(DD/MM/YYYY)]** **[***Insert the date***]** [*If Interest is unadjusted:* **[***Insert the date***]**] [*If Interest is adjusted:* The Interest Payment Date scheduled to fall in or nearest to **[***Insert a month and a year***]**]

[*For Preference Share Linked Notes:* **[***Insert the scheduled maturity date***]** (such date being the Scheduled Maturity Date), subject to the Additional Terms and Conditions for Preference Share Linked Notes.]

[For Notes with an Underlying or Component Security traded through the China Connect Service: [*Insert the scheduled maturity date***]** subject to postponement upon the occurrence of a Currency Disruption Event]

[*In case of Open-ended Notes*: Open-ended.]

[*In respect of Fund Linked Notes:* **[***Insert the date***]**, subject to postponement upon the occurrence of a Maturity Disruption Event, as provided in the Additional Terms and Conditions for Fund Linked Notes.]

[*In respect of Credit Linked Notes or Bond Linked Notes:* **[***Insert the scheduled maturity date***]** (such date being the Scheduled Maturity Date), subject to the provisions of paragraph [24(iv)/24(v)] "[Credit] [Bond] Linked Notes Provisions" and the Additional Terms and Conditions for [Credit] [Bond] Linked Notes.]

8. **Governing law:** [English]/[French]/[Swiss] law

[*NB: If the Notes are U.S. Exempt Securities, EUI Notes, ECF Notes or Uncertificated Nordic Notes, the governing law must always be English law*. *For SIS Notes, the governing law must always be Swiss law*.]

9. **(i)** **Status of the Notes:** [Unsecured [Eligible Notes – [Eligible Non Structured Notes/Eligible Structured Notes]]] [*In case of Secured Notes Issued by SG Issuer only*: Secured. See paragraph 26 "Secured Notes Provisions" below.]

(ii) **Date of corporate authorisation obtained for the issuance of Notes:** [Not Applicable] **[***Insert the date***]**

(iii) **Type of Structured Notes:** [Not Applicable]
[Share Linked Notes] [Index Linked Notes] [SGI Index Linked Notes] [Depositary Receipts Linked Notes] [ETF Linked Notes] [Reference Rate Linked Notes] [Foreign Exchange Rate Linked Notes] [Commodity Linked Notes] [Fund Linked Notes] [Credit Linked Notes] [Inflation Linked Notes] [Bond Linked Notes] [ETP Linked Notes] [Non Equity Security Linked Notes] [Preference Share Linked Notes] [Warrant Linked Notes] [Future Linked Notes] [Portfolio Linked Notes] [Dividend Linked Notes].

The provisions of the following Additional Terms and Conditions apply:

[Early Redemption Amount for Eligible Non Structured Notes : at par]

[Early Redemption Amount for Eligible Structured Notes: [Market value][at par]]

[Early Redemption of the Eligible Notes are subject to the prior permission of the Relevant Resolution Authority]

[N.B.: there will always be an Early Redemption Amount]

[*NB: The provisions of Early Redemption Amount payable following the occurrence of a Tax Event, Special Tax Event and/or a Regulatory Event, or on Event of Default as per Condition 9 of the General Terms and Conditions of the English Law Notes or the General Terms and Conditions of the French Law Notes or the General Terms and Conditions of the Swiss Law Notes, as the case may be*]

[*NB: In respect of Italian Certificates only, "Market Value" means the amount determined in good faith and in a commercially reasonable manner by the Calculation Agent to be the fair market value of the Certificates immediately prior (and ignoring the circumstances leading) to such early termination*]

PROVISIONS APPLICABLE TO THE UNDERLYING(S)

24. **(i)** **Underlying(s):**

[Not Applicable] *[If Credit Linked Notes or Bond Linked Notes:* As provided in paragraph ["Credit Linked Notes Provisions"] ["Bond Linked Notes Provisions"] below]

[*Where the underlying is a security, include the name of the issuer of the security and the International Securities Identification Number (ISIN) or other such security identification code.*
Where the underlying is an index, include the name of the index. If the index is not composed by the Issuer, need to include details of where the information about the index can be obtained. In case of SGI Linked Notes, if Advised SGI Index is applicable, need to specify.
Where the underlying is an interest rate, include a description of the interest rate
Where the underlying does not fall within the categories specified above, the applicable Final Terms shall contain equivalent information.
Where the underlying is a Future or a Basket of Futures, need to disclose the Future, the Next Active Future Contract, the Exchange, the Future Start Time, the Future End Time, the Future Underlier, the relevant weightings of each Underlying in the Basket.
Where the underlying is a Portfolio or a basket of Portfolios: The [basket of] [Portfolio[s]] as described in the Annex for Portfolio Linked Notes attached hereto.**]**
[*In the case of Notes listed on SIX: insert ISIN code (if any) as well as initial effective value of the Underlyings and insert the information on the underlying instruments required by section 3.6 of annex 2 FinSO ((minimum content of the prospectus scheme for debt instruments (without derivatives) and section 3.3 of annex 3 FinSO (minimum content of the prospectus scheme (for derivatives)), to the extent such information is not already included elsewhere in the applicable Final Terms.***]**

(ii) **Information relating to the past and future performances of the Underlying(s) and volatility:**

[Not Applicable] **[***Need to include details of the relevant website or screen page where information on past and future performance and volatility can be obtained, as specified in item 24(i).***]*****

(iii) **Provisions relating, amongst others, to the Market Disruption Event(s) and/or Extraordinary Event(s) and/or any additional disruption event as described in the relevant Additional Terms and Conditions:**

[Not Applicable]
The provisions of the following Additional Terms and Conditions apply:
[Additional Terms and Conditions for Share Linked Notes and Depositary Receipts Linked Notes] [Additional Terms and Conditions for Index Linked Notes] [Additional Terms and Conditions for SGI Index Linked Notes] [Additional Terms and Conditions for Reference Rate Linked Notes] [Additional Terms and Conditions for Foreign Exchange Rate Linked Notes] [Additional Terms and Conditions for Commodity Linked Notes] [Additional Terms and Conditions for Fund Linked Notes] [Additional Terms and Conditions for Inflation Linked Notes] [Additional Terms and Conditions for ETP Linked Notes and for ETF Linked Notes] [Additional Terms and Conditions for Non Equity Security Linked Notes] [Additional Terms and Conditions for Preference Share Linked Notes] [Additional Terms and Conditions for Warrant Linked Notes] [Additional Terms and Conditions for Future Linked Notes] [Additional Terms and Conditions for Portfolio Linked Notes] [Additional Terms and Conditions for Credit Linked Notes [and Condition 3 "Additional Provisions related to CDS Spread"]] Additional Terms and Conditions for Bond Linked Notes] [Additional Terms and Conditions for Dividend Linked Notes].

[Specify if Hedging Disruption is not applicable
In the case of Hedging Disruption as set out in the provisions of Condition 3. of Additional Terms and Conditions for Structured Notes: Capital Protection Rate*:]*

[Specify if Increased Cost of Hedging is not applicable]

[Specify if Stop-Loss Event is not applicable]

[Specify if Holding Limit Event is not applicable]

[*if Share Linked Notes and ESG Downgrading Event is applicable:*

Share	ESG Rating Agency	ESG Metric Name	Minimum Metric Level	ESG	ESG Criteria
X					A &C
Y					

ESG Downgrading Event is applicable:

ESG Determination Agent: [*Specify the relevant ESG Determination Agent*]]

[*For Fund Linked Notes, specify if "Fund Linked Notes_Events2" is applicable*]

[*For Notes with an Underlying or Component Security traded through the China Connect Services:*

(iv) **Credit Linked Notes Provisions:**

[Not Applicable] [Applicable, subject to the provisions of the Additional Terms and Conditions for Credit Linked Notes. [The provisions of the "Additional Provisions related to CDS Spread" in Condition 3 shall apply.]]

[*If Not Applicable, delete the remaining subparagraphs*]

(a) **Type of Credit Linked Notes:**

[Single Name Notes] [First-to-Default Notes] [Basket Notes] [Tranche Notes]

(b) **Terms relating to Settlement:**

(A.) Settlement Type: [American Settlement] [European Settlement]

(B.) Settlement Method: [Cash Settlement, pursuant to Condition 1.1.3 of the Additional Terms and Conditions for Credit Linked Notes] [*Or but **ONLY** for Single Name Notes and First-to-Default Notes and the Settlement Type is American Settlement*: Physical Settlement, pursuant to Condition 1.1.1 of the Additional Terms and Conditions for Credit Linked Notes]

(C.) Final Value: [Fixed Recovery: [*Insert the percentage*] per cent.]
[*If Floating Recovery with Auction Method applies:* the Final Value is to be determined pursuant to a Transaction Auction Settlement Terms and if a Transaction Auction Settlement Terms is published on or before 140 Business Days following the Credit Event Determination Date, that provides for the valuation of obligations of a Reference Entity in respect of which a Credit Event has occurred, subject to the occurrence of a Fallback Settlement Event, means the Auction Final Price (as specified in the relevant Transaction Auction Settlement Terms and expressed as a percentage) determined, if any, under such Transaction Auction Settlement Terms and applicable to the seniority of the Reference Obligation or if a Fallback Settlement Event occurs or no Transaction Auction Settlement Terms is published on or before 140 Business Days following the Credit Event Determination Date, means the amount determined by the Calculation Agent on the Credit Valuation Date as follows:
(x) the Final Price if there is only one Selected Obligation; or
(y) the weighted average of the Final Prices of the Selected Obligations if the latter are a portfolio,
in each case, minus the Valuation Hedging Cost for such Selected Obligation(s).]
[*If Floating Recovery with Quotation Dealers Method:* Final Value means the amount determined by the Calculation Agent on the Credit Valuation Date as follows:
(x) the Final Price if there is only one Selected Obligation; or
(y) the weighted average of the Final Prices of the Selected Obligations if the latter are a portfolio, in each case, minus the Valuation Hedging Cost for such Selected Obligation(s).
[*If Physical Settlement*: Not Applicable]

(D.) Unwind Costs: **[***Specify for the purposes of Condition 2 of the Additional Terms and Conditions for Credit Linked Notes***]** [Standard Unwind Costs **Standard Unwind Costs** means in respect of each Note, an amount, subject to a minimum of zero, determined by the Calculation Agent equal to the sum of (without duplication) all costs, expenses (including break funding charges and loss of funding, which, for the avoidance of doubt, represents the loss of future interest amounts to be received under the funding arrangement(s) entered into in relation to the Notes), tax and duties incurred directly or indirectly by Societe Generale or any of its Affiliates in relation to the occurrence of a Credit Event Determination Date and the related partial or total termination, settlement or re-establishment of any Hedge Position, such amount to be apportioned pro rata amongst the outstanding Notes.] [Not Applicable: the Unwind Costs in respect of each Note will be equal to zero.]

(c) Provisions relating to Basket Notes: [Not Applicable] [Applicable]

[*If (c) is Not Applicable, delete the remaining subparagraphs*]

(A.) Relevant Proportion: As per Condition 2 of the Additional Terms and Conditions for Credit Linked Notes.

(B.) Aggregate Loss Amount: [*If the Notes are Basket Notes which are not Tranche Notes*: As per Condition 2 of the Additional Terms and Conditions for Credit Linked Notes, means at any time for a Basket Note that

	is not a Tranche Note, the aggregate of the Loss Amount in respect of all Reference Entities in respect of which a Credit Event Determination Date has occurred.] [*If the Notes are Tranche Notes*: As per Condition 2 of the Additional Terms and Conditions for Credit Linked Notes, means at any time for a Tranche Note, the lowest of (i) the Tranche Notional Amount; and (ii) the highest of (x) zero and (y) the difference between (xx) the aggregate of the Loss Amount for all Reference Entities in respect of which a Credit Event Determination Date has occurred and (xy) the Tranche Subordination Amount.]
(C.) Loss Amount:	[*In respect of Basket Notes and Tranche Notes if the paragraph "N-to-M-to-Default" is stated as being as "Not Applicable":* In relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred, an amount equal to the product of: (i) the Reference Entity Notional Amount and (ii) the difference between the Reference Price and the Final Value, subject to a minimum of zero.] [*In respect of Tranche Notes if the paragraph "N-to-M-to-Default" is specified as "Applicable"*: In relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred: - which has a Ranking strictly lower than N: an amount equal to the product of: (i) the Reference Entity Notional Amount and (ii) the Reference Price; - which has a Ranking higher than or equal to N and lower than or equal to M: an amount equal to the product of: (i) the Reference Entity Notional Amount and (ii) the difference between the Reference Price and the Final Value, subject to a minimum of zero; - which has a Ranking strictly higher than M: an amount equal to zero.]
(D.) Reference Entity Notional Amount:	**[***Specify for the purposes of Condition 2 of the Additional Terms and Conditions for Credit Linked Notes***]** [For each Reference Entity comprised in the Reference Portfolio: the amount equal to the product of the Reference Entity Weighting and the Reference Portfolio Notional Amount]
(E.) Tranche Notes:	[Not Applicable] [Applicable]
[*If (E) is Not Applicable, delete the remaining*]	
(1) Tranche Subordination Amount:	**[***Specify for the purposes of Condition 2 of the Additional Terms and Conditions for Credit Linked Notes***]** [The Reference Portfolio Notional Amount multiplied by the Attachment Point]
(2) Tranche Notional Amount:	**[***Specify for the purposes of Condition 2 of the Additional Terms and Conditions for Credit Linked Notes***]** [The Aggregate Nominal Amount]
(3) N-to-M-to-Default:	[Not Applicable] [N = **[***number corresponding to the Ranking starting at which the Aggregate Loss Amount will be an amount greater than zero***]** M = **[***number corresponding to the Ranking above which the Aggregate Loss Amount ceases to increase***]** P= **[***number of Reference Entities within the Reference Portfolio***]**]
(4) Attachment Point:	[*If the Notes are Tranche Notes if the paragraph "N-to-M-to-Default" is specified as "Not Applicable"*: **[***Specify for the purposes of Condition 2 of the Additional Terms and*

		*Conditions for Credit Linked Notes***]**%] [*if the paragraph "N-to-M-to-Default" is specified as "Applicable"*: [(N-1)/P]%]
	(5) Detachment Point:	[*If the Notes are Tranche Notes with N-to-M-to-Default is Not Applicable:* **[***Specify for the purposes of Condition 2 of the Additional Terms and Conditions for Credit Linked Notes***]**%]] [If N-to-M-to-Default is specified as Applicable: [M/P]%]
(F.)	**Reference Portfolio Notional Amount:**	**[***Specify for the purposes of Condition 2 of the Additional Terms and Conditions for Credit Linked Notes***]** [*If the Notes are Tranche Notes*: An amount equal to the Aggregate Nominal Amount divided by the difference between the Detachment Point and the Attachment Point] [*If the Notes are Basket Notes*: An amount equal to the Aggregate Nominal Amount [multiplied by the Leverage. Leverage means [Insert Leverage]]]
(G.)	**Reference Price:**	**[***Specify for the purposes of Condition 2 of the Additional Terms and Conditions for Credit Linked Notes***]** **[[***Insert the percentage***]**%] [For each Reference Entity comprised in the Reference Portfolio: the percentage specified as such in "Annex for Credit Linked Notes" hereto or, if not specified, 100%.]
(H.)	**Reference Entity Weighting:**	**[***Specify for the purposes of Condition 2 of the Additional Terms and Conditions for Credit Linked Notes***]** [For Each Reference Entity comprised in the Reference Portfolio: the proportion specified as such in "Annex for Credit Linked Notes" hereto which will be adjusted in accordance with the provisions of the Additional Terms and Conditions for Credit Linked Notes]
(I.)	**Interest Recovery:**	[Fixed Interest Recovery with an Interest Recovery Rate of [*Insert the percentage*] %] [Floating Interest Recovery]] [Not relevant. The Notes do not bear interest.] [Not relevant. The sub-paragraph "Accrual of Interest upon Credit Event" is specified as being "Guaranteed Coupon"]
(d)	**Transaction Type:**	[*For Single Name Notes:* As specified in "Annex for Credit Linked Notes" hereto] [*For Basket Notes, Tranche Notes and First-to-Default Notes*: For each Reference Entity comprised in the Reference Portfolio, as specified in "Annex for Credit Linked Notes" hereto]
(e)	**[Deliverable/Selected] Obligation(s):**	[[*If Cash Settlement and Fixed Recovery*: Not Applicable] [Applicable]]
	[*If (e) is Not Applicable, delete the remaining*]	
	(A.) [Deliverable/ Selected] Obligation Category:	[*For Single Name Notes*: The [Deliverable/Selected] Obligation Category specified in "Annex for Credit Linked Notes" hereto] [*For Basket Notes, Tranche Notes and First-to-Default Notes*: For each Reference Entity comprised in the Reference Portfolio, the [Deliverable] [Selected] Obligation Category specified in "Annex for Credit Linked Notes" hereto]
	(B.) [Deliverable/ Selected] Obligation Characteristics:	[*For Single Name Notes*: The [Deliverable/Selected] Obligation Characteristics specified in "Annex for Credit Linked Notes" hereto] [*For Basket Notes, Tranche Notes and First-to-Default Notes*: For each Reference Entity comprised in the Reference Portfolio, the [Deliverable] [Selected] Obligation Characteristics specified in "Annex for Credit Linked Notes" hereto]

(f)	**Accrual of Interest upon Credit Event:**	[In respect of [Fixed Rate Note Provisions:] [Floating Rate Note Provisions:] [Structured Interest Note Provisions:]][For i from [●] to [●]:] [No Accrued Interest upon Credit Event] [Accrued Interest upon Credit Event] [Guaranteed Coupon] [*If no coupon*: Not relevant. The Notes do not bear interest.]
	[*NB: Guaranteed Coupon only where "Settlement Type" is "European Settlement"*]

[*Specify if Limited Recourse Provisions are applicable*]

(v) **Bond Linked Notes Provisions:** [Not Applicable] [Applicable, subject to the provisions of the Additional Terms and Conditions for Bond Linked Notes]

[*If Not Applicable, delete the remaining subparagraphs*]

(a) **Type of Bond Linked Notes:** [Single Bond Linked Notes] [Basket Bond Linked Notes] [Reverse Convertible Bond Linked Note]

(b) **Terms relating to Settlement:**

(A.) Settlement Type: [American Settlement] [European Settlement]

[*NB: American Settlement only if Single Bond Linked Notes*]

(B.) Settlement Method: [Cash Settlement, pursuant to Condition 1.1.1 of the Additional Terms and Conditions for Bond Linked Notes]
[*Or but ONLY for Reverse Convertible Bond Linked Notes:* [Physical Settlement, pursuant to Condition 1.1.2 of the Additional Terms and Conditions for Bond Linked Notes][Cash Settlement, pursuant to Condition 1.1.1 of the Additional Terms and Conditions for Bond Linked Notes]]

(C.) Bond Final Value: [Fixed Recovery: [*Insert the percentage*] per cent.]
[Floating Recovery: For each Bond, the percentage determined by the Calculation Agent as follows:
(i) the Bond Final Price;
(ii) plus, if any, any partial or total repayment in cash of the Bond which would have been paid to the holders of the Bond under the Bond as of the Bond Final Value Determination Date as determined by the Calculation Agent, expressed as a percentage of the Bond Notional Amount;
(iii) plus, if any, the price (expressed as a percentage of the Bond Notional Amount), calculated using a method similar to that to determine the Bond Final Price, of any securities which would have been delivered to the holders of the Bond under the Bond as of the Bond Final Value Determination Date as determined by the Calculation Agent;
(iv) minus the Valuation Hedging Cost;
(v) minus any amount due and payable under the Bond in accordance with the terms and conditions of the Bond as in force and effect as of the Issue Date (expressed as a percentage of the Bond Notional Amount) which is still unpaid at the Bond Final Value Determination Date, as determined by the Calculation Agent.
[The Bond Final Value is subject to a minimum of zero per cent. and to a maximum of 100 per cent.] [The Bond Final Value is subject to a minimum of zero per cent. and may be higher than one hundred per cent. (100%).]
[*For Reverse Convertible Bond Linked Note:* Not Applicable]

(D.) Auction Period for the purposes of the Bond Final Price determination: [*Specify number*] consecutive Business Days (as defined in paragraph 24(k) below)

(E.) Bond Final Price Accrued Interest: [*In the case of Fixed Recovery*: Not Applicable] [In the case of Floating Recovery: [Excluding Accrued Interest] [Including Accrued Interest]]

(F.) Breakage Cost Amount: [Not Applicable: the Breakage Cost Amount will be equal to zero] [Applicable: means an amount determined by the Calculation Agent expressed in the Specified Currency of the Notes using the Relevant Spot Exchange Rate on the relevant calculation date(s), as determined by the Calculation Agent, equal to the fees, costs and expenses arising directly or

		indirectly, in connection with (i) terminating, unwinding, realizing or enforcing any repurchase transaction (if any) with the Bond as underlying asset, the purpose of which is to refinance the relevant Bond and (ii) entering into, trading or increasing any repurchase transaction (or any transaction with similar purposes) with the Collateral Assets (if any) as underlying asset, the purpose of which is to refinance the Collateral Assets (if any). For the avoidance of doubt, the Breakage Cost Amount may be a positive amount (if to be received by Societe Generale or any of its Affiliates) or a negative amount (if to be paid by Societe Generale or any of its Affiliates)] [*For Reverse Convertible Bond Linked Note:* Not Applicable]
	(G.) Relevant Proportion:	[*Specify as per Condition* 2 *of the Additional Terms and Conditions for Bond Linked Notes*.] [*For Reverse Convertible Bond Linked Note:* Not Applicable]
(c)	**Provisions relating to Basket Bond Linked Notes:**	[Not Applicable] [Applicable]

[*If (c) is Not Applicable, delete the remaining subparagraphs*]

(A.) Aggregate Loss Amount:	[*Specify as per Condition* 2 *of the Additional Terms and Conditions for Bond Linked Notes*]
(B.) Loss Amount:	[*Specify* as per Condition 2 of the Additional Terms and Conditions for Bond Linked Notes]

(i) PERFORMANCE OF FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT *(Structured Notes only)*

[*NB: This paragraph only applies if the Notes are securities to which Annex 17 of the Regulation applies.*]

[Not Applicable] **[***Need to include a clear and comprehensive explanation of how the value of the investment is affected by the underlying and the circumstances when the risks are most evident.***]*** [I*nformation on the Index, its volatility and past and future performance can be obtained, [free of charge]/[for a fee], from [●]/[give details of electronic means of obtaining details of the performance*.]].

(ii) PERFORMANCE OF RATE[S] OF EXCHANGE AND EXPLANATION OF EFFECT ON VALUE OF INVESTMENT (*Dual Currency Notes only)*

[*NB: This paragraph only applies if the Notes giving rise to payment or delivery obligations linked to an underlying asset are securities to which Annex 17 of the Delegated Regulation applies.*]

[Not Applicable] **[***Need to include a clear and comprehensive explanation of how the value of the investment is affected by the underlying and the circumstances when the risks are most evident.***]** [Information on the Underlying, its volatility and its past and future performance can be obtained, [gratuitously]/[on a paying basis], from [●]/[give details of the electronic means of obtaining details of the performance.].

8. OPERATIONAL INFORMATION

(i) Security identification code(s):

- ISIN code:	**[***Insert the code***]**
[- Common code:	**[***Insert the code***]]**
[- Temporary ISIN code:	**[***Insert the code***]]**
[- Temporary Common code:	**[***Insert the code***]]**
[- German security number (*WKN number*):	**[***Insert the German security number***]]**
[- Swiss security number (*Valoren number*):	**[***Insert the Swiss security number***]]**

[*Add as many lines as necessary*]

(ii) Clearing System(s):	**[***Insert name(s) and address(es) of the relevant clearing system(s) and, if required, the relevant identification number(s)***]** [*In any case of Swiss law governed Notes listed on SIX with Euroclear France or Euroclear Bank / Clearstream Banking as Clearing System(s), add*: SIX SIS Ltd**]** [*If the paragraph "Form of the Notes" specifies that the Notes to be issued are in certificated form or book-entry form*, *insert name and address of the entity in charge of keeping the records.*]
(iii) Delivery of the Notes:	Delivery [against] [free of] payment
(iv) Calculation Agent:	**[***Insert name and address***]**

(v)	**Paying Agent(s):**	**[***Insert name(s) and address(es)***]** **[***If Notes other than SIS Notes, and listed on SIX, add: / Societe Generale, Paris, Zurich Branch, Talacker 50, 8021 Zurich, Switzerland***]** [*If SIS Notes: Societe Generale, Paris, Zurich Branch, Talacker 50, 8021 Zurich, Switzerland*]
(vi)	**Eurosystem eligibility:**	[No. Whilst the designation is specified as "no" at the date of these Final Terms, should the Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them the Notes may then be deposited with one of the ICSDs as common safekeeper [(and registered in the name of a nominee of one of the ICSDs acting as common safekeeper [12].] Note that this does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intraday credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.] [Yes. Note that the designation "yes" simply means that the Notes are intended upon issue to be deposited with one of the ICSDs as common safekeeper and does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life, or that, even if recognised, the eligibility will continue during the life of the Notes. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.] [In case of French Law Notes: Yes. The Notes will be inscribed in the books of Euroclear France, being a domestic central securities depositary. The Notes are intended to be Eurosystem eligible, but it is not hereby represented, warranted, undertaken or implied that the Notes will be recognised, or that, even if recognised, the eligibility will continue during the life of the

12 Include this text for registered notes.

	Notes. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.]

[*NB: Elect "Yes" opposite "(iv)Eurosystem eligibility of the Notes" if "Yes" is elected in Part A under the heading "Form of the Notes" opposite the paragraph entitled "New Global Note (NGN) / New Safekeeping Structure (NSS)"*]

9. DISTRIBUTION

(i) Method of distribution:	[Syndicated] [Non-syndicated]
[*If syndicated:*	
Names [and addresses and underwriting commitments]* of Managers:	[Not Applicable] **[***give names [and addresses and underwriting commitments]* of Managers***]** [*If the Notes are derivative instruments to which Annex 14 of the Delegated Regulation applies due to the Prospectus Regulation, include the names [and addresses]* of entities agreeing to underwrite the issue on a firm commitment basis and the names [and addresses]* of the entities agreeing to place the issue without a firm commitment or on a "best efforts" basis if such entities are not the same as the Managers.*]
Date of Syndication Agreement:	[Not Applicable] **[***Insert the date of syndication agreement***]**
[Only applicable if the Notes are debt securities or derivative securities to which Annex 14 or Annex 17 of the Delegated Regulation, respectively, applies.]	
Stabilisation Manager (if any):	[Not Applicable] [*Insert the name of stabilisation manager*]]
[*If non-syndicated*:	
Name(s) [and addresses and any underwriting commitment] Dealer(s):	[Not Applicable] **[***Insert name [and address]* of Dealer***]**

[*NB: If the Notes are derivative instruments to which Annex 14 of the Delegated Regulation applies, include the names [and addresses]* of entities agreeing to underwrite the issue on a firm commitment basis and the names [and addresses]* of the entities agreeing to place the issue without a firm commitment or on a "best efforts" basis if such entities are not the same as the Dealer.*]

(ii) Total commission and concession:	[Not Applicable] [[*Insert the percentage*] per cent. of the [Aggregate Nominal Amount] [aggregate Notional Amount][There is no commission and/or concession paid by the Issuer to the Dealer or the Managers] [*Specify any other commission*]]*
(iii) TEFRA rules:	[Not Applicable] [TEFRA D] [TEFRA C] [Not Applicable. *Treated by Clearstream Frankfurt as registered notes for U.S. federal income tax purposes. The Notes are subject to a book entry agreement entered into by Clearstream Frankfurt and the Issuer.*]

(iv) Non-exempt Offer Consent of the Issuer to use the Base Prospectus during the Offer Period:	[Not Applicable] [A Non-exempt Offer of the Notes may be made by [the Managers] [the Dealer] [and] [any **Initial Authorised Offeror** below mentioned] [,any **Additional Authorised Offeror**, the name and address of whom will be published on the website of the Issuer (http://prospectus.socgen.com)] [and any [other] financial intermediaries to whom the Issuer gives a General Consent (the **General Authorised Offerors**)] in the Non-exempt Offer jurisdiction(s) (**Non-exempt Offer Jurisdiction(s)**) during the offer period (**Offer Period**) as specified in the paragraph "Terms and Conditions of the Offer" below.]
[*If (iv) Not Applicable, delete the remaining subparagraphs*]	
Individual Consent / Name(s) and address(es) of any Initial Authorised Offeror:	**[**Not Applicable] [Applicable *[Insert the name and address of any initial authorised offeror*]**]**]
General Consent/ Other conditions to consent:	**[**Not Applicable] [Applicable] [*Insert any other condition to consent if relevant*]
(v) U.S. federal income tax considerations:	[*Insert if the Issuer has determined that the Notes are NOT Specified Notes*: The Notes are not Specified Notes for purposes of the Section 871(m) Regulations.] [*Insert if the Issuer has determined that the Notes are Specified Notes*: The Issuer has determined that these Notes substantially replicates the economic performance of one or more U.S. Underlying Equities [(and as such, for the purposes of IRS Notice 2024-44, such Notes are deemed to be "delta-one" Notes and are therefore Specified Notes for purposes of the Section 871(m) Regulations. Additional information regarding the application of the Section 871(m) Regulations on the Notes is available on request at Societe Generale by contacting [*specify the relevant email address*]. [Section 871(m) Regulations' withholding tax will be at a rate of [●] per cent. and will be withheld by [*specify*].] [*Insert if the Section 871(m) determination cannot be made on the date of the Final Terms:* **This information is indicative and will be updated based on**

circumstances at the time the Notes are issued.]

[*Insert if the Issuer has determined that the Notes are Zero Estimated Dividends Securities*: The Issuer has determined that these Notes are Zero Estimated Dividends Securities and as such, for the purposes of Treas. Reg. § 1.871-15(i)(2)(iii)), the withholding tax to be applied to this Note is zero.]
[*specify whether any additional U.S. withholding tax is applicable*]

(vi) Prohibition of Sales to EEA Retail Investors:

[Applicable/Not Applicable]
[Not Applicable, the Notes will not be offered, sold or otherwise made available to any investor in the European Economic Area.]

(If the Notes do not constitute "packaged" products or the Notes do constitute "packaged" products and a key information document will be prepared, "Not Applicable" should be specified. If the Notes may constitute "packaged" products and no KID will be prepared, "Applicable" should be specified. For the purpose of the above, a "packaged" product shall designate a "packaged retail investment product" which means in accordance with Regulation (EU) No 1286/2014 of 26 November 2014 an investment, where, regardless of the legal form of the investment, the amount repayable to the retail investor is subject to fluctuations because of exposure to reference values or to the performance of one or more assets which are not directly purchased by the retail investor)

(vii) Prohibition of Sales to UK Retail Investors:

[Applicable/Not Applicable]

(*If the Notes do not constitute "packaged" products or the Notes do constitute "packaged" products and a key information document will be prepared, "Not Applicable" should be specified. If the Notes may constitute "packaged" products and no KID will be prepared, "Applicable" should be specified. For the purpose of the above, a "packaged" product shall designate a "packaged retail investment product" which means, in accordance with Regulation (EU) No 1286/2014 of 26 November 2014 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act*

2018, an investment, where, regardless of the legal form of the investment, the amount repayable to the retail investor is subject to fluctuations because of exposure to reference values or to the performance of one or more assets which are not directly purchased by the retail investor)

(viii) - **Prohibition of Sales to Swiss Retail Clients**: [Applicable/Not Applicable]

(Applicable means that no key information document according to the FinSA or any equivalent document under the FinSA has been prepared in relation to the Notes, and, therefore, the Notes may not be offered or recommended to clients in Switzerland qualifying as retail clients within the meaning of the FinSA and who have to be provided with a key information document or equivalent document pursuant to the FinSA.)

[(ix) Prohibition of Sales in other country(ies):

- [Prohibition of Sales to Hong Kong Persons other than Natural Persons: Applicable
(Applicable means that the Notes must not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, to, or for the account or benefit of, a person that is not a natural person (other than the Issuer, its affiliates, distributors or other intermediaries solely for the purpose of the initial distribution of the Notes to a natural person or to assist in the sale or buy-back of Notes in the secondary market to or from a natural person), and that any offer, sale,
resale, pledge, redemption, transfer or delivery made, directly or indirectly or to or for the account or benefit of, a person that is not a natural person (other than the Issuer, its affiliates, distributors or other intermediaries solely for the purpose of the initial distribution of the Notes to a natural person or to assist in the sale or buy-back of Notes in the secondary market to or from a natural person) will not be recognized or enforceable.)]]

- [Prohibition of Sales to Japan Institutional Investors: Applicable
(Applicable means that the Notes must not, at any time, be offered, sold, resold, traded, pledged, redeemed, transferred or delivered,
directly or indirectly, to, or for the account or benefit of, a person

that is an institutional investor (other than the Issuer (or its subsidiaries / affiliates), Distributors or other intermediaries for initial distribution or secondary market purpose), and that any offer, sale, resale, pledge, redemption, transfer or delivery made, directly or indirectly or to or for the account or benefit of, a person that is an institutional investor (except to the Issuer (or its subsidiaries / affiliates), Distributors or other intermediaries for initial distribution or secondary market purpose) will not be recognized or enforceable. Institutional investor means any non-natural person (including, but not limiting to, any corporate body, unincorporated firm, partnership, sole proprietorship, trust, office or other body of legal entity), without regard to total assets, income or investments.)]]

- [Prohibition of Sales to Singapore Persons other than Natural Persons:

Applicable
(Applicable means that the Notes must not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, to, or for the account or benefit of, a person that is not a natural person (other than the Issuer, its affiliates, distributors or other intermediaries solely for the purpose of the initial distribution of the Notes to a natural
person or to assist in the sale or buy-back of Notes in the secondary market to or from a natural person), and that any offer, sale, resale, pledge, redemption, transfer or delivery made, directly or indirectly or to or for the account or benefit of, a person that is not a natural person (other than the Issuer, its affiliates, distributors or other intermediaries solely for the purpose of the initial distribution of the Notes to a natural person or to assist in the sale or buy-back of Notes in the secondary market to or from a natural person) will not be recognized or enforceable.)]]

- [Prohibition of Sales to Taiwan Non-Retail Investors:

Applicable
(*Applicable means that the Notes may not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, to, or for the account or benefit of, a person that is not a Taiwan Retail Investor and any offer, sale, resale, pledge, redemption, transfer or delivery made, directly*

or indirectly or to or for the account or benefit of, a person that is not a Taiwan Retail Investor will not be recognized or enforceable.)]]

|(ix)/(x)] - [Name and address of the entity or the entities which have a firm commitment to act as intermediary(ies) in secondary trading, providing liquidity through bid and offer rates and description of the main terms of its or their commitment:	[*specify*]]

[If the Notes are linked to an Advised SGI Index or to a Dynamic Portfolio AND the Issuer elects NOT to apply IRS U.S. Person definition, insert the following paragraph:

(x) - Regulation S U.S. Person	Applicable]

[If the Notes are neither linked to an Advised SGI Index nor to a Dynamic Portfolio AND the Issuer elects to also apply IRS U.S. Person definition, insert the following paragraph:

(xi) - Regulation S U.S. Person AND IRS U.S. Person	Applicable]
[(xii) Prohibition of Sales to Non Retail Client:	Applicable]

10. TERMS AND CONDITIONS OF THE OFFER

[*NB: This paragraph applies only in respect of any offer of Notes which is not made pursuant to an exemption to publish a prospectus under Article 1(4) of the Prospectus Regulation.*]

[Not Applicable]

[*If Not Applicable, delete the remaining subparagraphs*]

- Non-exempt Offer Jurisdiction(s):	**[***Specify Relevant State(s) – which must be jurisdictions in which the Base Prospectus and any supplements have been passported***]**
- Offer Period:	**[***Indicate the offer period***]**
- Offer Price:	[[The Notes will be offered at the Issue Price [which will be a percentage subject to a maximum of [*insert percentage*]], [of which [up to a maximum of] [*insert percentage*] is [represented by a distribution fee payable upfront by the Issuer to the Distributor[s]] to be published by the Issuer on http://prospectus.socgen.com at the latest on the Issue Date.] [The Notes will be offered at the market price which: - will be determined by the Dealer on a daily basis [in accordance with market conditions then prevailing including the current market price of the Underlying(s);] [and] - [will evolve between the Issue Date and the last day of the Offer Period on a linear basis in such

way equal to [*insert percentage*] on the last day of the Offer Period; and
- will be provided by the Dealer to any Noteholder upon request.]

[The Notes issued on the Issue Date will be fully subscribed by the Dealer and thereafter offered by way of a non-exempt offer in the secondary market[, at the Issue Price, during the Offer Period.]

[The offer price will evolve at a rate of [*specify percentage*] between the Issue Date and [*insert date*] in order to each [*insert percentage*] on [*insert date*] in accordance with the following formula;
Offer Price (t) = OfferPriceBase x (1 + Convergence Percentage x Nb(t) / 360)

Where:

OfferPriceBase means [*specify*]; and

ConvergencePercentage means [*specify*]; and

Nb(t) means the number of calendar days between the Issue Date and the date "t" on which the value of the Notes is calculated (both dates included).]

[The offer price will evolve between the Issue Date and [*insert date*] in accordance with the following schedule :

From [*insert date*] to [*insert date*] :	The offer price will be equal to [*insert percentage*]
[*add as many lines as necessary]*	

]

[The Notes will be offered at the market price which will be determined by the Dealer on a continuous basis in accordance with the market conditions then prevailing.

Depending on market Conditions, the offer price shall be equal, higher or lower than the Issue Price of the Notes.]

[The Certificates will be offered at the market price which will be determined by the Dealer on a continuous basis in accordance

	with the market conditions from time to time prevailing. [**If ask quotes equal to Issue Price:** During the period from [insert the date] to [insert the date], the ask quotes will be equal to the Issue Price. Societe Generale reserves the right to set an earlier end date for such period; in such event, the relevant date shall be notified by the Issuer by way of a notice published on the following website: https://prodotti.societegenerale.it.] Depending on market conditions, the offer price shall be equal, higher or lower than the Issue Price of the Certificates. The Dealer will publish the prices at which the Certificates are offered as ask quotes on EuroTLX and, for information purposes only, on www.prodotti.societegenerale.it]
	[The offer price shall be provided by the Dealer by way of quotes made available (directly or indirectly) on [EuroTLX] [SeDeX] [*specify other*]]
	[The [Issue Price] [price] is also increased by fees [*specify*].]
- Conditions to which the offer is subject:	**[***Indicate the conditions to which the offer is subject***]**
- Description of the application process:	[Not Applicable] **[***Describe the application process***]**
- Description of possibility to reduce subscriptions and manner for refunding excess amount paid by applicants:	[Not Applicable] **[***Describe the possibility to reduce subscriptions and manner for refunding excess amount paid by applicants***]**
- Details of the minimum and/or maximum amount of application:	[Not Applicable] **[***Indicate details of the minimum and/or maximum amount of application (whether in number of Notes or aggregate amount to invest***]**
- Details of the method and time limits for paying up and delivering the Notes:	**[***Describe method and time limits for paying up and delivering the Notes***]**
- Manner and date in which results of the offer are to be made public:	**[***Describe the arrangements and time for announcing to the public the definitive amount of the offer.***]**
- Procedure for exercise of any right of pre-emption, negotiability of subscription rights and treatment of subscription rights not exercised:	[Not Applicable] **[***Describe the procedure for exercise of any right of pre-emption, negotiability of subscription rights and treatment of subscription rights not exercised***]**

- Whether tranche(s) has/have been reserved for certain countries:	[Not Applicable] **[***If the offer is being made simultaneously in the markets of two or more countries and if a tranche has been reserved for certain of these, indicate any such tranche***]**
- Process for notification to applicants of the amount allotted and the indication whether dealing may begin before notification is made:	[Not Applicable] **[***Describe the process for notification to applicants of the amount allotted and the indication whether dealing may begin before notification is made***]**
- Amount of any expenses and taxes specifically charged to the subscriber or purchaser:	**[***Not Applicable***]/[***Detail***]** *(If the Issuer is subject to MiFID II and/or the EU PRIIPS Regulation, it is necessary to include the charges that are included in the price, to the extent that they are known)***]***

11. ADDITIONAL INFORMATION

- Minimum investment in the Notes:	[Not Applicable] [*Insert the minimum investment*]
- [Minimum trading] [Minimum Trading Lot][Minimum trading number]:	[Not Applicable] **[***Insert the minimum trading or, in the case of Italian Certificates only, the minimum trading lot***]**
[*Add as many lines as necessary:*	
[- [*Insert any other relevant additional information pursuant to Annex 28 of Delegated Regulation*]:	**[***Give details***]]**

12. PUBLIC OFFERS IN SWITZERLAND

[*If Notes publicly offered in Switzerland, add:* Applicable, i.e. the Notes may be offered publicly in Switzerland.]
[*In any other case, add:* Not Applicable]

13. EU BENCHMARKS REGULATION

Benchmark:

[Not Applicable] [Applicable]

[Amounts payable under the Notes will be calculated by reference to the relevant Benchmark which is provided by the relevant Administrator, as specified in the table below.

As at the date of these Final Terms, the relevant Administrator appears/ does not appear, as the case may be, on the register of administrators and benchmarks (the **ESMA Register**) established and maintained by the European Securities and Markets Authority pursuant to Article 36 of the Benchmarks Regulation (Regulation (EU) 2016/1011), as amended (the **EU Benchmarks Regulation**), as specified in the table below.

If "Does not appear" is specified in the table below, it means that, as far as the Issuer is aware, either the relevant benchmark does not fall within the scope, or is exempted, of the current EU Benchmarks Regulation, such that the relevant Administrator is not required to be included in the ESMA register as authorised or registered administrator or, if located outside the European Union, to obtain an equivalence decision, a recognition or a benchmark endorsement, provided that such relevant Administrator has submitted an application for authorisation, registration, recognition or endorsement (as applicable) and unless and until such application has failed or been refused.

[*For the following table, add as many lines as necessary]*

Benchmark	**Administrator**	**ESMA Register**
[*Insert the name of Benchmark*]	[*Insert the name of Administrator*]	[Appears] [Does not appear]

[ANNEX FOR SGI INDEX RULES
(This Annex forms a part of the Final Terms to which it is attached)

(If the Notes are linked to an SGI Index, the Issuer should annex the Index Rules of such SGI Index to the applicable final terms)]

[ISSUE SPECIFIC SUMMARY:

(If the Notes having a minimum denomination less than €100,000 ***only****, are Non-exempt Offers and/or are expected to be admitted to trading on a regulated market, the Issuer should annex the issue specific summary to the applicable final terms having completed the relevant Elements by deletion of non relevant information and inserting any information to be completed in accordance with the specific conditions of the Notes)***]**

GENERAL TERMS AND CONDITIONS OF THE ENGLISH LAW NOTES

The following general terms and conditions applicable to every Series of Notes to be issued under English law (**English Law Notes**) (the **General Terms and Conditions**), with, if applicable, the additional terms and conditions (the **Additional Terms and Conditions**) constitute the terms and conditions of the Notes (the **Terms and Conditions**) and will be attached to or incorporated by reference into each Global Note and each Definitive Note in the latter case only if permitted by the relevant stock exchange or other relevant authority (if any) and agreed by the relevant Issuer and the relevant purchaser(s) at the time of issue but, if not so permitted and agreed, such Definitive Note will have endorsed upon or attached thereto such Terms and Conditions.

The applicable Final Terms in relation to any Notes will complete the following General Terms and Conditions for the purpose of such Notes (including, for the avoidance of doubt, any Uncertificated Note. The applicable Final Terms (as defined below) (or the relevant provisions thereof) will be endorsed on, attached to or incorporated by reference into, each Global Note and Definitive Note and shall be deemed to apply to Uncertificated Notes.

References herein to the **applicable Final Terms** are to Part A of the final terms (**Final Terms**) prepared based on the "Form of Final Terms". In case of any issue of U.S. Exempt Securities, all references herein to "Final Terms" shall include, or be interpreted to mean, the applicable Offering Circular.

References herein to the Additional Terms and Conditions are to Additional Terms and Conditions relating to Formulae Additional Terms and Conditions for Structured Notes Additional Terms and Conditions for Share Linked Notes and Depositary Receipts Linked Notes, Additional Terms and Conditions for Index Linked Notes Additional Terms and Conditions for SGI Index Linked Notes, Additional Terms and Conditions for Reference Rate Linked Notes, Additional Terms and Conditions for Foreign Exchange Rate Linked Notes, Additional Terms and Conditions for Commodity Linked Notes, Additional Terms and Conditions for Fund Linked Notes, Additional Terms and Conditions for Credit Linked Notes, Additional Terms and Conditions for Inflation Linked Notes Additional Terms and Conditions for Bond Linked Notes, Additional Terms and Conditions for ETF Linked Notes and ETP Linked Notes, Additional Terms and Conditions for Non Equity Security Linked Notes, Additional Terms and Conditions for Preference Share Linked Notes, Additional Terms and Conditions for Warrant Linked Notes, Additional Terms and Conditions for Future Linked Notes, Additional Terms and Conditions for Portfolio Linked Notes, the Additional Terms and Conditions for Dividend Linked Notes, and Additional Terms and Conditions relating to Secured Notes.

If the applicable Final Terms specify that one or more of the Additional Terms and Conditions from Additional Terms and Conditions for Share Linked Notes to the Additional Terms and Conditions for Portfolio Linked Notes above apply, then the Additional Terms and Conditions for Structured Notes will also apply including the provisions relating to any market disruption (**Market Disruption Events)** or extraordinary events (**Extraordinary Events)** and details of the consequences of such events.

If the applicable Final Terms specify (i) that the "*Secured Notes Provisions*" are "applicable", then the provisions of the Additional Terms and Conditions relating to Secured Notes, which contain provisions relating to disruption events (including, without limitation and where necessary, appropriate definitions of **Collateral Disruption Event** and **Collateral Settlement Disruption** and details of the consequences of such events), shall apply.

When Notes to be issued pursuant to this Base Prospectus are qualified as "certificates" (such expression including the Italian Certificates, as defined below), any reference to "Notes" and "Noteholders" shall be deemed to be a reference to "Certificates" and "Certificateholders".

Words and expressions defined in the Agency Agreement , the Swiss Paying Agency Agreement (where applicable) and the EUI Agency Agreement (where applicable), (all as defined below) or used in the applicable Final Terms shall have the same meanings where used in these General Terms and Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of any inconsistency between the Agency Agreement , the Swiss Paying Agency Agreement (where applicable) or the EUI Agency Agreement (where applicable) and the applicable Final Terms, the applicable Final Terms will prevail.

References herein to (i) **Tranche** means Notes which are identical in all respects and (ii) **Series** means a Tranche of Notes, together in each case with any further Tranche or Tranches of Notes which are (a) expressed to be consolidated and form a single series or issue and (b) identical in all respects except for their respective Issue Dates, Interest Commencement Dates and/or Issue Prices.

References herein to (i) the **Issuer** shall be references to the issuer specified as such in the applicable Final Terms (as defined above) and, in the case of any substitution of the Issuer in accordance with Condition 12, the **Substituted Obligor** as defined in Condition 12 and (ii) the **Guarantor** shall mean Societe Generale in its capacity as guarantor pursuant to the Guarantee (as defined in Condition 2.3) in respect of any Notes issued by SG Issuer. Accordingly, references herein to the Guarantor are applicable only in the context of Notes issued by SG Issuer.

All Notes issued by Societe Generale will be described as "Unsecured" in the Final Terms applicable to such Notes and all Notes issued by SG Issuer will be described as "Unsecured" or "Secured" in the Final Terms applicable to such Notes.
References herein to "any amount due under the Notes" shall depending on the context, mean any payment of principal and/or interest due under the Notes.

References herein to, **Underlying** shall mean, as specified in the applicable Final Terms, a Share and/or a Depositary Receipt and/or an Index and/or an SGI Index and/or a Reference Rate and/or a Foreign Exchange Rate and/or a Commodity and/or a Commodity Index and/or a Fund and/or a Reference Entity and/or a CDS Spread and/or an Inflation Index and/or a Bond and/or an ETF and/or an ETP and/or a Non Equity Security and/or a Preference Share and/or a Warrant and/or Future and/or a Portfolio and/or a Dividend or a basket and/or combination thereof (each as defined in the Additional Terms and Conditions relating to the relevant Underlying).

References herein to "the Notes" are to the Notes of one Series (as defined above) only and not to all Notes under the Programme.

References herein to the **Notes** shall mean:

any English law Note (**English Law Note**) which is:

(a) any global Note representing Notes in bearer or registered form (**Bearer Global Note** and **Registered Global Note**, respectively, and each a **Global Note**). A Bearer Global Note shall be, as the case may be, a Temporary Global Note or a Permanent Global Note, each as defined below; a Registered Global Note shall be, as the case may be, a Regulation S Global Note, a Rule 144A Global Note, a Combined Global Note or a Non-US Registered Global Note, each as defined in Condition 1 below;

(b) any Notes in bearer form (**Bearer Notes**) represented by a Bearer Global Note;

(c) any Notes (other than Uncertificated Notes) in registered form (**Registered Notes**) represented by a Registered Global Note;

(d) any Notes in uncertificated and dematerialised book-entry form (**Uncertificated Notes**);

(e) any Bearer Global Note issued as a new Global Note (**New Global Note(s)** or **NGNs**);

(f) any Registered Global Note issued under the new safekeeping structure (**New Safekeeping Structure** or **NSS**);

(g) definitive Bearer Notes (**Definitive Bearer Notes**) issued in exchange for a Bearer Global Note; and

(h) Left blank intentionally

(i) any definitive Notes in registered form (**Definitive Registered Notes**) whether or not such Definitive Registered Note is issued in exchange for a Registered Global Note and, together, with the Definitive Bearer Notes, the **Definitive Notes**.

Uncertificated Notes as used above shall mean:

Uncertificated Nordic Notes , EUI Notes and ECF Notes each as defined below.
Noteholders or a **holder of Notes** shall mean the several persons who are for the time being the bearers of Bearer Notes and the registered holders of Registered Notes as further defined in Condition 1.1.1.1 and Condition 1.1.2 below.

References herein to **Receiptholders** shall mean the holders of the Receipts, and any reference herein to **Couponholders** shall mean the holders of the Coupons and shall, unless the context otherwise requires, include the holders of the Talons. References herein to holders of the Notes or Noteholders shall if, the context so requires, include Receiptholders and Couponholders.

The holder of an Uncertificated Note will be the person appearing in the relevant registers in accordance with the legislation, rules and regulations applicable to, and/or issued by, the relevant securities depositary and clearing institution and the terms "Noteholder" or "holder of the Notes" shall be construed accordingly. Uncertificated Notes will only be transferable in accordance with such legislation, rules and regulations.

Save as set out below, the Notes, the Receipts (as defined below) and the Coupons (as defined below) have the benefit of an agency agreement dated 4 June 2021 as amended by the amendment agreement to the agency agreement dated 5 September 2023 (the **Agency Agreement**, which expression shall be construed as a reference to any such agreement as the same may be amended, supplemented or restated from time to time) and made between, amongst others, Societe Generale, SG Issuer (each an **Issuer** and together the **Issuers**), the Guarantor (as defined below), Societe Generale Luxembourg as principal and paying agent, registrar, transfer agent and exchange agent (in such respective capacities, the **Principal Paying Agent**, the **Registrar**, the **Transfer Agent** and the **Exchange Agent**, which expressions shall include, in each case, any additional or successor fiscal and principal paying agent or registrar or any other transfer agent or exchange agent appointed from time to time and specified in the applicable Final Terms) and the other paying agents named therein (such paying agents, together with the Principal Paying Agent and the Registrar, the **Paying Agents**, which expression shall include any additional or successor paying agents appointed from time to time).

The **Calculation Agent** with respect to a Tranche of Notes will be Societe Generale (or any successor thereto), as designated in the applicable Final Terms.

The Paying Agents, the Registrar, the Transfer Agent, the Exchange Agent and, unless the context otherwise requires, the Settlement Agent and the Calculation Agent (both as defined in Condition 11) shall be referred to collectively hereunder as the **Agents**.

In connection with Uncertificated Notes unless the context otherwise requires and except insofar as the terms defined in the Agency Agreement are incorporated by reference herein, any reference herein to the Agency Agreement will be construed, *mutatis mutandis,* as a reference to the agency agreement(s) entered into with respect to such Uncertificated Notes (and references herein to the Principal Paying Agent, the Paying Agent(s) or the Calculation Agent shall be construed accordingly) as described below:

- Any issue of Uncertificated Nordic Notes (as defined below) will have the benefit of a master issuing and paying agency agreement concluded between the Issuers as issuers and Skandinaviska Enskilda Banken, as agent which shall be designated in the applicable Final Terms (the **SEB Agency Agreement**) which expression shall be construed as a reference to any such agreement as the same may be amended, supplemented or restated from time to time).

- Any issue of EUI Notes (as defined below) will have the benefit of an EUI agency agreement (the **EUI Agency Agreement**, which expression shall be construed as a reference to any such agreement as the same may be amended, supplemented or restated from time to time) between amongst others the Issuers, the Guarantor, the Agents and the agents named therein, which shall be designated in the applicable Final Terms in respect of EUI Notes (the **EUI Agent**).

- Any issue of English Law Notes listed on SIX Swiss Exchange, will have the benefit of a Swiss paying agency agreement (the **Swiss Paying Agency Agreement**, which expression shall be construed as a reference to any such agreement as the same may be amended, supplemented or restated from time to time) between the Issuers, the Guarantor, the Paying Agents (except the Registrar), the principal Swiss paying agent and the other Swiss paying agents (if any) (the Principal Swiss Paying Agent and the Swiss Paying Agents, respectively, and the term Paying Agent as defined above shall include such Principal Swiss Paying Agent and the Swiss Paying Agent). The form of the Swiss Paying Agency Agreement is scheduled to the Agency Agreement.
Any reference herein to "**Euroclear**" and/or "**Clearstream**" shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms (or applicable Offering Circular, as the case may be) which is approved by the Issuer, the Guarantor (if applicable), the Principal Paying Agent (if applicable), the Registrar (in the case of Registered Notes only)(including, without limitation, Euroclear France and the Intermédiaires financiers habilités authorised to maintain accounts therein (together Euroclear France), in relation to English Law Notes listed on SIX Swiss Exchange Ltd. (SIX Swiss Exchange), any clearing institution in Switzerland other than SIX SIS Ltd or abroad recognised for such purposes by SIX Swiss Exchange and, in relation to Uncertificated Nordic Notes, the relevant securities depositary and clearing institution, including, without limitation, Euroclear Sweden AB (Euroclear Sweden), Euroclear Finland Ltd (Euroclear Finland), Verdipapirsentralen ASA (trading as Euronext Securities Oslo) (the VPS), VP Securities A/S / Euronext Securities (VP Securities), and, in relation to Registered Notes represented by a Rule 144A Global Note or Registered Notes represented by a Regulation S Global Note, The Depository Trust Company (DTC), approved by the Issuer, the Guarantor (if applicable), the Principal Paying Agent, the Registrar (in the case of Registered Notes only), Euroclear UK and Ireland (EUI) and, in the case of Notes listed on the Luxembourg Stock Exchange, the Luxembourg Stock Exchange (to the extent such Luxembourg Stock Exchange approval is so required from time to time).

Interest-bearing Definitive Bearer Notes have interest coupons (**Coupons**) and, if indicated in the applicable Final Terms, talons for further Coupons (**Talons**) attached on issue. Any reference herein to "Coupons" or "coupons" shall, unless the context otherwise requires, be deemed to include a reference to "Talons" or "talons".

Definitive Bearer Notes repayable in instalments have receipts (**Receipts**) for the payment of the instalments of principal (other than the final instalment) attached on issue. Global Notes do not have Receipts, Coupons or Talons attached on issue.

Any references in these Terms and Conditions to "Coupons", "Talons" or "Receipts" shall not apply to Uncertificated Notes or to Registered Notes.

Any reference herein to **Physical Delivery Notes** shall mean any Series of Notes that are linked to Deliverable Asset(s) (as defined in Condition 5.19) specified in the applicable Final Terms.

Any references in these General Terms and Conditions to **Uncertificated Swedish Notes** shall be references to Uncertificated Notes settled through Euroclear Sweden, any references to **Uncertificated Finnish Notes** shall be references to Uncertificated Notes settled through Euroclear Finland, any references to **Uncertificated Norwegian Notes** shall be references to Uncertificated Notes settled through VPS and any references to **Uncertificated Danish Notes** shall be references to Uncertificated Notes settled through VP Securities (Euronext Securities). Uncertificated Swedish Notes, Uncertificated Finnish Notes, Uncertificated Norwegian Notes and Uncertificated Danish Notes shall, together, mean the **Uncertificated Nordic Notes**.

Copies of the Agency Agreement, the Swiss Paying Agency Agreement (where applicable), the EUI Agency Agreement (where applicable), the SEB Agency Agreement (where applicable), the Guarantee (where applicable) and the Deed of Covenant (defined below) are available for inspection during normal business hours from the head office of each of the relevant Issuer and, if applicable, the Guarantor and from the specified office of each of the Paying Agents. Copies of the applicable Final Terms are available for viewing at www.luxse.com save that, if this Note is (i) an Exempt Offer Note (as defined below) or (ii) an Exempted Swiss Public Offer Note, the applicable Final Terms will only be obtainable by a Noteholder holding one or more such Notes and such Noteholder must produce evidence satisfactory to the relevant Issuer, and, if applicable, the Guarantor or, as the case may be, the relevant Paying Agent as to its holding of such Notes and identity. (unless otherwise made available publicly by the Issuer). The Noteholders are deemed to have notice of, and are entitled to the benefit of, all the provisions of the Agency Agreement, the Swiss Paying Agency Agreement (where applicable), the EUI Agency Agreement (where applicable), the SEB Agency Agreement (where applicable), the Guarantee (where applicable), the Deed of Covenant and the applicable Final Terms. The statements in the Conditions include summaries of, and are subject to, the detailed provisions of the Agency Agreement and, if applicable, the Swiss Paying Agency Agreement, the EUI Agency Agreement and the SEB Agency Agreement.

In this section (a) **Non-exempt Offer Note** means any Note that is (i) offered to the public in the EEA other than pursuant to articles 1(4) or 3(2) of Regulation (EU) 2017/1129 as amended or superseded (the **Prospectus Regulation**) or (ii) admitted to trading on a Regulated Market in the EEA for the purposes of article 3(3) of the Prospectus Regulation, (b) **Exempt Offer Note** means any Note that is (i) offered to the public in the EEA only pursuant to articles 1(4) or 3(2) of the Prospectus Regulation or (ii) admitted to trading on a Regulated Market in the EEA pursuant to article 1(5) of the Prospectus Regulation and (c) **Exempted Swiss Public Offer Note** means any security that is not (i) offered to the public in Switzerland for the purposes of article 35 of the Swiss Federal Act on Financial Services (the **FinSA**) (except as specified under article 36(1) or article 37 of the FinSA) or (ii) admitted to trading on a trading venue in accordance with article 26(a) of the Swiss Federal Act on Financial Market Infrastructures and Market Conduct in Securities and Derivatives Trading (except as specified under article 38 of the FinSA).

In relation to a Global Note held on behalf of Euroclear and/or Clearstream, the Noteholders, and as the case may be the Receiptholders and the Couponholders are entitled to the benefit of the deed of covenant made as of 4 June 2021 (the **Deed of Covenant**) by the Issuers. The original of the Deed of Covenant is held by the common depositary for Euroclear and Clearstream.

1. FORM, TITLE, TRANSFER, DENOMINATION AND REDENOMINATION

1.1. Form and Title

The Notes may be Bearer Notes, Registered Notes, or Uncertificated Notes or Definitive Notes in the Specified Currency and the Specified Denomination(s) (as defined below) specified in the applicable Final Terms.

1.1.1. Bearer Notes

Bearer Notes are Bearer Notes.

1.1.1.1 Bearer Notes

Each Tranche of Bearer Notes will be issued in the form of a Temporary Global Note or Permanent Global Note as specified in the applicable Final Terms and in either case will (i) if the Global Notes are intended to be issued in New Global Note form, as stated in the applicable Final Terms, be delivered on or prior to the issue date of the Tranche to a common safekeeper (the **Common Safekeeper**) for Euroclear and Clearstream; or (ii) if the Global Notes are not intended to be issued in NGN form, be delivered on or prior to the issue date of the Tranche to a common depositary (the **Common Depositary**) for Euroclear and Clearstream.
For so long as any of the Bearer Notes is represented by a Global Note held on behalf of, or in the case of New Global Notes, by a Common Safekeeper, on behalf of, Euroclear Bank SA/NV (**Euroclear**) and/or Clearstream Banking S.A. (**Clearstream**), each person (other than Euroclear or Clearstream) who is for the time being shown in the records of Euroclear and/or Clearstream, as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream as to the nominal amount of Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Guarantor and any Paying Agent as the holder of such nominal amount of the Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes, for which purpose the bearer of the relevant Global Note shall be treated by the Issuer, the Guarantor and any Paying Agent as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Bearer Note (and the expressions "**Noteholder**", and "**holder of Notes**" and related expressions shall be construed accordingly).

For so long as DTC or its nominee is the registered owner or holder of a Rule 144A Global Note or a Regulation S Global Note, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the Notes represented by such Rule 144A Global Note or Regulation S Global Note for all purposes under the Agency Agreement and the Notes except to the extent that in accordance with DTC's published rules and procedures any ownership rights may be exercised by its participants or beneficial owners through participants (and the expressions "Noteholder" and "holder of Notes" and related expressions shall be construed accordingly).

1.1.1.2 Left blank intentionally

1.1.2 Registered Notes

The Issuance of a Tranche of Registered Notes will be represented by a Global Note (a **Registered Global Note).**
In the case of US Exempt Securities, a Registered Global Note shall be, as the case may be, a Regulation S Global Note, a Rule 144A Global Note or a Combined Global Note.

Registered Global Notes will be as specified in the applicable Final Terms, either:

- deposited with a Common Depositary for Euroclear and Clearstream, and registered in the name of a common nominee of, Euroclear and Clearstream; or

- issued under the new safekeeping structure (the **NSS**), registered in the name of a nominee of one of the International Central Securities Depositories (ICSDs) acting as Common Safekeeper.

Persons holding beneficial interests in a Registered Global Note will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of Definitive Registered Notes.

For so long as any of the Registered Notes is represented by a Global Note held by a Common Depositary or in the case of Registered Global Notes held under the NSS, a Common Safekeeper, on behalf of, Euroclear Bank SA/NV (**Euroclear**) and/or Clearstream Banking S.A. (**Clearstream**), each person (other than Euroclear or Clearstream, as the case may be) who is for the time being shown in the records of Euroclear and/or Clearstream, as entitled to a particular nominal amount of Notes (in which regard any certificate or other document issued by Euroclear or Clearstream as to the nominal amount of Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Guarantor and any Paying Agent as the holder of such nominal amount of the Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes, for which purpose the registered holder of the relevant Registered Global Note shall be treated by the Issuer, the Guarantor and any Paying Agent as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note (and the expressions, "Noteholder" and "holder of Notes" and related expressions shall be construed accordingly).

1.1.3 Uncertificated Notes

Uncertificated Notes are in uncertificated and dematerialised book-entry form. No global or definitive Notes will be issued in respect of Uncertificated Notes and these General Terms and Conditions shall be construed accordingly.

1.1.3.1 EUI Notes

The Notes may be held in registered uncertificated form in accordance with the Uncertificated Securities Regulations 2001, including any modification or re-enactment thereof for the time being in force (the Regulations) (the EUI Notes). The EUI Notes are participating securities for the purposes of the Regulations. Title to the EUI Notes is recorded on the relevant Operator register of corporate securities. The EUI Agent on behalf of the Issuer shall, in relation to the EUI Notes, maintain a record of uncertificated corporate securities in accordance with the records of Euroclear UK & Ireland Limited (EUI) (formerly known as CRESTCo Limited) (the Record) and shall procure that the Record is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator. Subject to this requirement, (i) each person who is for the time being shown in the Record as the holder of a particular number of EUI Notes shall be treated by the Issuer and the EUI Agent as the holder of such number of EUI Notes for all purposes (and the expression EUI Noteholder and related expressions shall be construed accordingly), and (ii) neither the Issuer, the Guarantor nor the EUI Agent shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Record which the EUI Agent maintains are in accordance with particulars entered in the Operator register of corporate securities relating to the EUI Notes.

No provisions of these General Terms and Conditions amended in accordance with any applicable Final Terms shall (notwithstanding anything contained therein) apply or have effect to the extent that it is in any respect inconsistent with (i) the holding of title to EUI Notes (ii) the transfer of title to EUI Notes by means of a relevant system or (iii) the Regulations. Without prejudice to the generality of the preceding sentence and notwithstanding anything contained in these General Terms and Conditions or the applicable Final Terms, so long as the EUI Notes are participating securities, (a) any EUI Notes which are not for the time being in all respects identical to, or do not for the time being have rights attached thereto identical in all respects to those attached to, other EUI Notes of the same Series of Notes as the case may be, shall be deemed to constitute a separate Series of EUI Notes, (b) the Operator register of corporate securities relating to the EUI Notes shall be maintained at all times in the United Kingdom, (c) the EUI Notes may be issued in uncertificated form in accordance with and subject as provided in the Regulations; and (d) for the avoidance of doubt, these General Terms and Conditions and the applicable Final Terms in relation to any EUI Notes shall remain applicable notwithstanding that they are not endorsed on any certificate for such EUI Notes.

As used herein relation to EUI Notes, each of "Operator register of corporate securities", "participating securities", "record of uncertificated corporate securities" and "relevant system" is as defined in the Regulations and the relevant "Operator" (as such term is used in the Regulations) is EUI (formerly CRESTCo. Limited) or any additional or alternative operator from time to time approved by the Issuer, the Guarantor and the EUI Agent in relation to the EUI Notes and in accordance with the Regulations. Any reference herein to the Operator shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator from time to time and notified to the EUI Noteholders.

Any indication herein that the Operator "shall" do, or similar expression or phrase indicating that they are obliged to or will carry out any role or obligation described in these General Terms and Conditions and/or the applicable Final Terms, as the case may be, is given without any assumption by the Issuer, the Guarantor, the EUI Agent or the Calculation Agent, of responsibility or liability for the performance of the Operator.

References in these General Terms and Conditions to “EUI Notes” shall include, where the context admits, Depository Interests (as defined in the CREST Deed Poll) representing Notes, issued by CREST Depository Limited subject to and in accordance with the CREST Deed Poll.

References to the CREST Deed Poll are to the global deed poll dated 25 June 2001, as subsequently modified, supplemented and/or restated.

1.1.3.2 Uncertificated Nordic Notes

Uncertificated Nordic Notes means the Uncertificated Finnish Notes, the Uncertificated Swedish Notes, the Uncertificated Norwegian Notes and the Uncertificated Danish Notes.

Uncertificated Nordic Notes are issued in registered, dematerialised and uncertificated book-entry form cleared and settled through the relevant Uncertificated Nordic Notes CSD in accordance with the relevant **Uncertificated Nordic Notes CSD Rules**. All payments in respect of Uncertificated Nordic Notes will be made through the relevant Uncertificated Nordic Notes CSD in accordance with the relevant Uncertificated Nordic Notes CSD Rules. No physical global temporary, permanent or definitive notes will be issued in respect of the Uncertificated Nordic Notes.

For the purposes of these General Terms and Conditions,

Uncertificated Nordic Notes CSD Rules means in respect of each of the Uncertificated Nordic Notes, the relevant Uncertificated Nordic Notes Applicable Law including all relevant local laws regulations and operating procedures applicable to and/or issued by the relevant Uncertificated Nordic Notes Central Notes Depositary from time to time (the **Uncertificated Nordic Notes CSD** as defined below) designated as the relevant clearing system for the relevant Uncertificated Nordic Notes.

Uncertificated Nordic Notes Applicable Law, means in respect of:

- the Uncertificated Finnish Notes, the Finnish Act on the Book-Entry System and Clearing Operations (Fi. *Laki arvo-osuusjärjestelmästä ja selvitystoiminnasta* 348/2017), as amended and/or re-enacted from time to time, and the Finnish Act on Book-Entry Accounts (Fi. *Laki arvo-osuustileistä* 827/1991), as amended and/or re-enacted from time to time,
- the Uncertificated Swedish Notes, the Swedish Central Securities Depositaries and Financial Instruments Accounts Act (*Sw. lag (1998:1479) om värdepapperscentraler och kontoföring av finansiella instrument*) as amended, and/or re-enacted from time to time,
- the Uncertificated Norwegian Notes, the Norwegian Central Securities Depositories Act no 6 of 15 March 2019 (*No Verdipapirsentralloven*) as amended and/or re-enacted from time to time, and
- the Uncertificated Danish Notes, the Danish Capital Markets Act (Consolidated Act No. 198 of 26 February 2024 as amended from time to time and the Executive Order on Book Entry, etc. of dematerialised Notes in a Central Notes Depositary (Executive Order No. 1175 of 31 October 2017 as amended from time to time).

Uncertificated Nordic Notes CSD means, in respect of:
- the Uncertificated Finnish Notes, Euroclear Finland Ltd,
- the Uncertificated Swedish Notes, Euroclear Sweden AB,
- the Uncertificated Norwegian Notes, Verdipapirsentralen ASA (trading as Euronext Securities Oslo),
- the Uncertificated Danish Notes, VP Securities A/S (Euronext Securities).

Noteholder means, in the context of Uncertificated Nordic Notes, the person in whose name an Uncertificated Nordic Note is registered in the Nordic Register and the reference to a person in whose name an Uncertificated Nordic Note is registered shall also include any person duly authorised to act as a nominee and registered as such for the Uncertificated Nordic Notes. For such purposes, the **Nordic Register** means the register maintained by the relevant Uncertificated Nordic Notes CSD on behalf of the Issuer in accordance with the relevant Uncertificated Nordic Notes CSD Rules.

Except as ordered by a court of competent jurisdiction or as required by law, the Noteholder of any Uncertificated Nordic Notes shall be deemed to be and may be treated as its absolute owner for all purposes whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it and no person shall be liable for so treating the Noteholder and Noteholder and holder shall be construed accordingly.

References to the "**Agent**" shall be with respect to:
- the Uncertificated Finnish Notes,
- the Uncertificated Swedish Notes,
- the Uncertificated Norwegian Notes, and
- the Uncertificated Danish Notes,

to Skandinaviska Enskilda Banken (the **SEB Issuing Agent**).

The Issuer and/or the Agent shall be entitled to obtain information from the register of the Uncertificated Nordic Notes CSD in accordance with the relevant Uncertificated Nordic Notes CSD Rules.

1.1.3.3. Left blank intentionally

1.1.3.4 ECF Notes

Title to ECF Notes will be evidenced in accordance with articles L.211-3 et seq. and R.211 1of the French *Code monétaire et financier* (the **Code**) by book entries (inscriptions en compte). No physical document of title (including certificats représentatifs pursuant to article R. 211-7 of the Code) will be issued in respect of ECF Notes.

ECF Notes are issued in bearer dematerialised form (au porteur), which will be inscribed in the books of Euroclear France, a subsidiary of Euroclear Bank SA/NV (Euroclear France) which shall credit the accounts of Euroclear France Account Holders in accordance with the rules and regulations of Euroclear France and of any authorised financial intermediary institution entitled to hold accounts, directly or indirectly, on behalf of its customers with Euroclear France, including Euroclear and the depositary bank for Clearstream (each a **Euroclear France Account Holder**).

For the purpose of these General Terms and Conditions, Euroclear France Account Holder means any authorised financial intermediary institution entitled to hold accounts, directly or indirectly, on behalf of its customers with Euroclear France, and includes Euroclear Bank SA/NV (Euroclear), the depositary bank for Clearstream Banking S.A., Luxembourg (Clearstream) or, in case of Notes listed on SIX Swiss Exchange, the depository bank for SIX SIS Ltd., the Swiss securities services corporation.

Except as ordered by a court of competent jurisdiction or as required by law, the holder of any ECF Note shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, or an interest in it, any writing on it or its theft or loss and no person shall be liable for so treating the holder.

In these General Terms and Conditions and in the context of ECF Notes, Noteholder or holder means the person whose name appears in the account of the relevant Euroclear France Account Holder as being entitled to such Notes.

ECF Notes issued in dematerialised form (au porteur) may not be converted into ECF Notes in registered dematerialised form, whether in fully registered form (nominatif pur) or in administered registered form (nominatif administré).

1.2.Transfer of Notes

1.2.1 Transfer of interests in Global Notes

Notes which are represented by a Global Note held on behalf of Euroclear or Clearstream will be transferable only in accordance with the rules and procedures for the time being of Euroclear or Clearstream.

Transfers of beneficial interests in a Global Note will be effected by Euroclear or Clearstream, and, in turn, by other participants and, if appropriate, indirect participants in such clearing systems acting on behalf of beneficial transferors and transferees of such interests.

1.2.2 Transfer of interests in Registered Global Notes

Transfers of beneficial interests in Registered Global Notes will be effected by DTC, Euroclear or Clearstream as the case may be, and, in turn, by other participants and, if appropriate, indirect participants in such clearing systems acting on behalf of beneficial transferors and transferees of such interests. A beneficial interest in a Registered Global Note will, subject to compliance with all applicable legal and regulatory restrictions, be exchangeable for Definitive Registered Notes or for a beneficial interest in another Registered Global Note only in the Specified Denominations set out in the applicable Final Terms and only in accordance with the rules and operating procedures for the time being of DTC, Euroclear or Clearstream as the case may be, and in accordance with the terms and conditions specified in the Agency Agreement. Transfers of a Registered Global Note registered in the name of a nominee for DTC shall be limited to transfers of such Registered Global Note, in whole but not in part, to another nominee of DTC or to a successor of DTC or such successor's nominee.

No beneficial owner of an interest in a Registered Global Note will be able to transfer such interest, except in accordance with the applicable procedures of Euroclear and Clearstream in each case to the extent applicable.

In the event of a partial redemption of Notes under Condition 6, the Issuer shall not be required to register the transfer of any Registered Note or part of a Registered Note called for partial redemption.

1.2.3 Transfer of Definitive Registered Notes

Subject as provided herein, upon the terms and subject to the conditions set forth in the Agency Agreement, a Definitive Registered Note may be transferred in whole or in part (in the Specified Denominations set out in the applicable Final Terms). In order to effect any such transfer (i) the holder or holders must (A) surrender the Definitive Registered Notes for registration of the transfer of the Definitive Registered Note (or the relevant part of the Definitive Registered Note) at the specified office of the Registrar or any Transfer Agent, with the form of transfer thereon duly executed by the holder or holders thereof or his or their attorney or attorneys duly authorised in writing and (B) complete and deposit such other certifications as may be required by the Registrar or, as the case may be, the relevant Transfer Agent and (ii) the Registrar or, as the case may be, the relevant Transfer Agent must, after due and careful enquiry, be satisfied with the documents of title and the identity of the person making the request. Any such transfer will be subject to such reasonable regulations as the Issuer and the Registrar may from time to time prescribe (the initial regulations being set out in the Agency Agreement). Subject as provided above, the Registrar or, as the case may be, the relevant Transfer Agent will, within three business days (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar or, as the case may be, the relevant Transfer Agent is located) of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations), authenticate and, in the case of Registered Global Notes, effectuate, and deliver, or procure the authentication and delivery of, at its specified office to the transferee or (at the risk of the transferee) send by uninsured mail, to such address as the transferee may request, a new Definitive Registered Note of a like aggregate (nominal) amount to the Definitive Registered Note (or the relevant part of the Definitive Registered Note) transferred. In the case of the transfer of part only of a Definitive Registered Note, a new Definitive Registered Note or Registered Global Note in respect of the balance of the Definitive Registered Note not transferred will be so authenticated and, in the case of Registered Global Notes issued under the NSS, delivered or (at the risk of the transferor) sent to the transferor.

1.2.4 Transfer of Uncertificated Notes

1.2.4.1 Transfer of EUI Notes

All transactions in respect of EUI Notes (including transfers thereof) in the open market or otherwise must be effected through an account at the Operator subject to and in accordance with the rules and procedures for the time being of the Operator. Title will pass upon registration of the transfer in the Operator register of corporate securities.

1.2.4.2 Transfer of Uncertificated Nordic Notes

As far as the application of the General Terms and Conditions is concerned, title to Uncertificated Nordic Notes shall pass by registration in the relevant Nordic Register.

Beneficial interests in Uncertificated Nordic Notes will be transferable only in accordance with the relevant Uncertificated Nordic Notes CSD Rules. Title to such beneficial interests in the Uncertificated Nordic Notes shall pass in the records maintained by the relevant Uncertificated Nordic Notes CSD in accordance with the relevant Uncertificated Nordic Notes CSD Rules.

1.2.4.3 Left blank intentionally

1.2.4.4 Transfer of ECF Notes

Title to ECF Notes in bearer dematerialised form (au porteur) shall pass upon, and transfer of such ECF Notes may only be effected through, registration of the transfer in the accounts of Euroclear France Account Holders.

1.2.5 Transfers of interests in Regulation S Global Notes and in Non-U.S. Registered Global Notes

Transfers by the holder of, or of a beneficial interest in, a Regulation S Global Note to a transferee in the United States or who is a U.S. Person will only be made upon receipt by the Registrar of a written certification substantially in the form set out in the Agency Agreement, amended as appropriate (a Transfer Certificate), copies of which are available from the specified office of the Registrar or any Transfer Agent, from the transferor of the Note or beneficial interest therein to the effect that such transfer is being made to a QIB in a transaction meeting the requirements of Rule 144A and in accordance with any applicable securities laws of any State of the United States or any other jurisdiction.

Such transferee may take delivery through a Legended Note in global or definitive form.

Transfers of a Non-U.S. Registered Global Note or a beneficial interest therein may not at any time be made to a transferee in the United States or to, or for the account or benefit of, a person that is not a Permitted Transferee, and any offer, sale, resale, trade, pledge, redemption, transfer or delivery made, directly or indirectly, within the United States or to, or for the account or benefit of, a person that is not a Permitted Transferee will not be recognised. Beneficial interests in Non-U.S. Registered Global Notes may not be held by persons that are not Permitted Transferees at any time.

1.2.6 Transfers of interests in Legended Notes

Transfers of Legended Notes or beneficial interests therein may be made:

(1) to a transferee who takes delivery of such interest through a Regulation S Global Note, upon receipt by the Registrar of a duly completed Transfer Certificate from the transferor to the effect that such transfer is being made in accordance with Regulation S and that in the case of a Regulation S Global Note registered in the name of a nominee for DTC, the interests in the Notes being transferred will be held immediately thereafter through Euroclear and/or Clearstream; or

(2) to a transferee who takes delivery of such interest through a Legended Note where the transferee is a person that is a QIB in a transaction meeting the requirements of Rule 144A, without certification; or

(3) to a transferee who takes delivery of such interest through Notes represented by a Combined Global Note, from a holder of Notes represented by that Combined Global Note:
(3.1) prior to the expiry of the Distribution Compliance Period only, upon receipt by the Registrar of a duly completed Transfer Certificate from the transferor to the effect that such transfer is being made either (x) to a person that is a QIB in a transaction meeting the requirements of Rule 144A or (y) to a person that is not a U.S. person in an offshore transaction pursuant to Regulation S; and
(3.2) after the expiry of the Distribution Compliance Period, either (x) to a person that is a QIB in a transaction meeting the requirements of Rule 144A or (y) to a person that is not a U.S. person in an offshore transaction pursuant to Regulation S but, in either case, without certification;

(4) otherwise pursuant to the Securities Act or an exemption therefrom, subject to receipt by the Issuer of such satisfactory evidence as the Issuer may reasonably require, which may include an opinion of U.S. counsel, that such transfer is in compliance with the Securities Act, the Investment Company Act, the CEA and any applicable securities or commodities laws of any State of the United States, and, in each case, in accordance with any applicable securities laws of any State of the United States or any other jurisdiction. Additional certifications may be required as set out in the applicable Final Terms or applicable Offering Circular.

Upon the transfer, exchange or replacement of Legended Notes, or upon specific request for removal of the Legend, the Registrar shall deliver only Legended Notes or refuse to remove the Legend, as the case may be, unless there is delivered to the Issuer such satisfactory evidence as may reasonably be required by the Issuer, which may include an opinion of U.S. counsel, that neither the Legend nor the restrictions on transfer set forth therein are required to ensure compliance with the provisions of the Investment Company Act, the Securities Act, the CEA and any applicable securities or commodities laws of any State of the United States.

1.2.7 Costs of registration

Noteholders will not be required to bear the costs and expenses of effecting any registration of transfer as provided above, except for any costs or expenses of delivery other than by regular uninsured mail and except that the Issuer may require the payment of a sum sufficient to cover any stamp duty, tax or other governmental charge that may be imposed in relation to the registration.

1.2.8 Definitions - Transfer to Permitted Transferees

In these General Terms and Conditions, the following expressions shall have the following meanings:

Combined Global Note means a Registered Global Note representing U.S. Exempt Securities eligible to be offered and sold (a) in offshore transactions to persons who are not U.S. Persons, and (b) to QIBs in reliance upon Rule 144A. Combined Global Notes may not be cleared or settled through DTC;

Distribution Compliance Period means the period that ends 40 days after the completion of the distribution of the relevant Notes as determined by the relevant lead manager;
Global Notes means a Temporary Global Note and/or a Permanent Global Note and/or a Regulation S Global Note and/or a Rule 144A Global Note and/or a Combined Global Note and/or a Non-US Registered Global Note, as the context may require.

Investment Company Act means the U.S. Investment Company Act of 1940, as amended;

IRS U.S. Person means a U.S. person as defined in paragraph 7701(a)(30) of the Internal Revenue Code of 1986;
Legended Note means a Registered Note (whether in definitive form or represented by a Registered Global Note) offered and sold to QIBs in accordance with the requirements of Rule 144A;

Non-U.S. Registered Notes means Registered Notes that are not U.S. Exempt Securities offered and sold in offshore transactions (as defined under Regulation S) to or for the account or benefit of Permitted Transferees;

Non-U.S. Registered Securities means Registered Securities that are not U.S. Exempt Securities offered and sold in offshore transactions (as defined under Regulation S) to or for the account or benefit of Permitted Transferees;

Permanent Global Note means a permanent global note substantially issued or to be issued by an Issuer pursuant to the Programme Agreement or any other agreement between the Issuer and the relevant Dealer either (a) in exchange for the whole or part of a Temporary Global Note issued in respect of Notes of the same Tranche or Series or (b) in the case of Notes not subject to U.S. Treasury regulations, initially issued in respect of such Notes;

Permitted Transferee means any person who:

(i) is not a U.S. Person; and

(ii) is not a person who comes within any definition of U.S. person for the purposes of the CEA or any CFTC Rule, guidance or order proposed or issued under the CEA (for the avoidance of doubt, any person who is not a "Non-United States person" defined under CFTC Rule 4.7(a)(1)(iv), but excluding, for purposes of subsection (D) thereof, the exception for qualified eligible persons who are not "Non-United States persons", shall be considered a U.S. person); and

(iii) is not a Risk Retention U.S. Person. Where,

QIB means a "**qualified institutional buyer**" within the meaning of Rule 144A;

Regulation S Global Note means a Registered Global Note representing U.S. Exempt Securities offered and sold in offshore transactions to persons who are not U.S. Persons other than Non-U.S. Registered Notes;

Regulation S means Regulation S under the Securities Act;

Risk Retention U.S. Person means a "U.S. person" for purposes of the U.S. Risk Retention Rules;

Rule 144A means Rule 144A under the Securities Act;

Regulation S U.S. Person means a U.S. Person as defined in Regulation S;

Rule 144A Global Note means a Registered Global Note representing U.S. Exempt Securities offered and sold to QIBs in reliance upon Rule 144A;

Securities Act means the U.S. Securities Act of 1933, as amended;

Temporary Global Note shall mean a temporary Global Note representing Bearer Notes of one or more Tranches on issue and which shall be substantially in the form set out in the Agency Agreement.

U.S. Exempt Securities means certain issues of Registered Notes of Societe Generale, as specified in the applicable Offering Circular, that may be offered and sold only (a) in offshore transactions to persons who are not U.S. Persons, and/or (b) to QIBs acting for their own account or for the account one or more QIBs, in each case, in reliance upon Rule 144A under the Securities Act.

U.S. Person means (i) Regulation S U.S. Person unless the applicable Final Terms specify that IRS U.S. Person is also applicable, or (ii) if in case of SGI Index Linked Notes, Advised SGI Index is applicable or if in case of Portfolio Linked Notes, Dynamic Portfolio is applicable, a person who is either a Regulation S U.S. Person or an IRS U.S. Person unless the applicable Final Terms specify that only a Regulation S U.S. Person is applicable;

U.S. Risk Retention Rules means the final rules implementing the credit risk retention requirements of Section 15G of the U.S. Securities Exchange Act of 1934, as amended.

Notes other than U.S. Exempt Securities (which may be English Law Notes (Bearer Notes, Registered Notes and Uncertificated Notes) issued by Societe Generale or SG Issuer may not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, a person that is not a Permitted Transferee and any offer, sale, resale, pledge, redemption, transfer or delivery made, directly or indirectly, within the United States or to or for the account or benefit of, a person that is not a Permitted Transferee will not be recognised. Notes other than U.S. Exempt Securities may not be legally or beneficially owned at any time by any person that is not a Permitted Transferee and accordingly are being offered and sold in offshore transactions (as defined in Regulation S) to persons that are Permitted Transferees.

1.3 Exchanges

1.3.1 A beneficial interest in a Global Note will, subject to Conditions 1.2.1 or 1.2.2 and compliance with all applicable legal and regulatory restrictions, be exchangeable for a Definitive Note or a beneficial interest in another Global Note (with the same Specified Denomination) only in accordance with the rules and operating procedures for the time being of Euroclear or Clearstream as the case may be, and in accordance with the terms and conditions specified in the relevant Agency Agreement.

1.3.2 Interests in a Temporary Global Note will be exchangeable (free of charge), on and after the Exchange Date, upon a request as described therein either for, as applicable, (i) interests in a Permanent Global Note or (ii) Definitive Bearer Notes of the same Series with, where applicable, Receipts, Coupons and/or Talons attached (as indicated in the applicable Final Terms and subject, in the case of Definitive Bearer Notes, to such notice period as is specified in the Permanent Global Note), in accordance with the terms of the Temporary Global Note against Certification as to non-US beneficial ownership as described above and as required by U.S. Treasury regulations unless such Certification has already been given pursuant to the provisions set forth above; provided, however, that if the relevant Global Note is issued in respect of a Tranche of Bearer Notes described as Partly Paid Notes in the applicable Final Terms, such Global Note may be exchanged for Definitive Bearer Notes and (if applicable) Coupons, Receipts and/or Talons as described above only if the final part payment on all such Partly Paid Notes then outstanding has been paid. Exchange of a Temporary Global Note for interests in a Permanent Global Note will only be made if Definitive Bearer Notes have not already been issued. If Definitive Bearer Notes have already been issued, the Temporary Global Note may only thereafter be exchanged for Definitive Bearer Notes pursuant to the terms thereof. The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due Certification, exchange of the Temporary Global Note for an interest in a Permanent Global Note or, in the case of Bearer Notes, for Definitive Bearer Notes is improperly withheld or refused.

Exchange Date means the day immediately following the later of (i) 40 days after the Temporary Global Note or, as the case may be, Temporary Global Certificate, is issued and (ii) 40 days after the completion of the distribution of the relevant Tranche, as certified by the relevant Dealer (in the case of a non-syndicated issue) or the relevant lead manager (in the case of a syndicated issue).

1.3.3 The Permanent Global Note with, where applicable, Receipts, Coupons and/or Talons attached will be exchangeable (free of charge), in whole but not in part, for **Definitive Bearer Notes** in the event of the occurrence of any of the circumstances described in (i), (ii) or (iii) below (each, an **Exchange Event**) or by the Issuer in the event of the occurrence of the circumstances described in (iii) below:

(i) if applicable, an Event of Default (as defined in Condition 9 below) has occurred and is continuing;

(ii) if the Issuer has been notified that both Euroclear and Clearstream have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or announce an intention permanently to cease business or have in fact done so and no successor clearing system is available; or

(iii) on the occasion of the next payment in respect of any Bearer Notes, the Issuer would be required to pay additional amounts as referred to in Conditions 5 and 7 below and such payment would not be required were the Notes in definitive form; (provided, however, that if a relevant Global Note is issued in respect of a Tranche of Bearer Notes described as Partly Paid Notes in the applicable Final Terms, such Global Note may be exchanged for Definitive Notes and (if applicable) Coupons, Receipts and/or Talons as described above only if the final part payment on all such Partly Paid Notes then outstanding has been paid).

The Issuer will promptly give notice to Noteholders in accordance with Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream (acting on the instructions of any holder of an interest in such Global Note) may give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

1.3.4 Exchange of Talons

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Principal Paying Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 9. Each Talon shall, for the purposes of these General Terms and Conditions, be deemed to mature on the Interest Payment Date on which the final Coupon comprised in the relative Coupon sheet matures.

1.4 Denomination

Notes shall be issued in the specified denomination(s) as set out in the applicable Final Terms (the Specified Denomination(s)) save that the minimum denomination of each Note issued by Societe Generale and admitted to trading on a Regulated Market within the European Economic Area (EEA) or offered to the public in a Member State of the EEA in circumstances which require the publication of a prospectus under the Prospectus Regulation will be €1,000 (or, if the Notes are denominated in a currency other than euro, the equivalent amount in such currency).

Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination.

ECF Notes shall be issued in one Specified Denomination only.

1.5 Redenomination - Conversion of currency

The Issuer may (if so specified in the applicable Final Terms), without the consent of the Noteholders, by giving at least 30 days' notice in accordance with Condition 13, and on or after the date on which a Member State of the European Union whose national

currency is the same as the Specified Currency, has become a participating Member State in the third stage of the European Economic and Monetary Union (as provided in the Treaty on the Functioning of the European Union (the **EU**), as amended from time to time (the **Treaty**)) or events have occurred which have substantially the same effects (in either case, **EMU**), redenominate all, but not some only of the Notes into Euro and adjust any term of the Notes as the Calculation Agent deems appropriate to give effect to such change (including, without limitation, the aggregate nominal amount of the Notes). The date on which such change becomes effective shall be referred to in these General Terms and Conditions as the **Currency Conversion Date**.

The redenomination of the Notes pursuant to the above paragraph shall be made by converting the principal amount of each Note from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the European Union pursuant to Article 140 of the Treaty and rounding the resultant figure to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards), provided that, if the Issuer determines, with the agreement of the Principal Paying Agent that the then market practice in respect of the redenomination or conversion in Euro of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, the stock exchange (if any) on which the Notes may be listed and the Paying Agents of such deemed amendments.

If the Issuer so elects, the figure resulting from conversion of the principal amount of each Note using the fixed relevant national currency Euro conversion rate shall be rounded down to the nearest Euro.

The conversion rate applicable and the amounts in Euro so determined shall be notified to Noteholders in accordance with Condition 13. Any balance remaining from the change of currency in an amount higher than 0.01 Euro shall be paid by way of cash adjustment rounded to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards). Such cash adjustment will be payable in Euros on the Currency Conversion Date.

Upon redenomination of the Notes any reference hereon to the relevant national currency shall be construed as a reference to Euro.

The Issuer may, with prior approval of the Principal Paying Agent, without the consent of the Noteholders in connection with any redenomination or any consolidation pursuant to Condition 14, but giving not less than 30 day prior notice to the Noteholders pursuant to Condition 13, make any changes or additions to these General Terms and Conditions which it reasonably believes to be necessary or desirable to give effect to the provisions of this Condition 1.5 or Condition 14 (including, without limitation, any change to any applicable business day definition, business day convention, principal financial centre of the country of the Specified Currency, interest accrual basis or benchmark), taking into account market practice in respect of redenominated euromarket debt obligations and which it believes are not prejudicial to the interests of the Noteholders. Any such changes or additions shall be notified to Noteholders in accordance with Condition 13 as soon as practicable thereafter.

Neither the Issuer nor any Paying Agent shall be liable to any Noteholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of Euro or any currency conversion or rounding effected in connection therewith.

Any such changes or additions made pursuant to this Condition 1.5 will, in the absence of manifest or proven error, be conclusive and binding on the Noteholders.

2. STATUS OF THE NOTES AND GUARANTEE

2.1 Notes issued by Societe Generale

Notes issued by Societe Generale, including where applicable any related Coupons, will constitute direct, unconditional, unsecured and senior obligations of the Issuer ranking as senior preferred obligations (as provided for in Article L. 613-30-3-I-3° of the Code) (the "**Senior Preferred Notes**"):

(i) pari passu with:

(a) all direct, unconditional, unsecured and senior obligations of Societe Generale outstanding as of the date of entry into force of the Law on 11 December 2016; and

(b) all present or future senior preferred obligations (as provided for in Article L. 613-30-3-I-3° of the Code) of the Issuer issued after the date of entry into force of the Law on 11 December 2016;

(ii) junior to all present or future claims of the Issuer benefiting from statutorily preferred exceptions; and

(iii) senior to all present or future:

(a) Senior Non-Preferred Obligations; and

(b) subordinated obligations and deeply subordinated obligations of the Issuer.

In the event any judgment is rendered by any competent court declaring the judicial liquidation of the Issuer or if the Issuer is liquidated for any other reason:

- the rights of payment of the holders of Senior Preferred Notes and, where applicable, any related Coupons shall be subordinated to the payment in full of all present or future holders of, or creditors in respect of, claims benefiting from statutory preferred exceptions (**Preferred Creditors**);

- subject to such payment in full, the holders of Senior Preferred Notes and, where applicable, any related Coupons shall be paid in priority to any present or future holders of, or creditors in respect of, obligations referred to in (iii) above; and

- in the event of incomplete payment by the Preferred Creditors, the obligations of Societe Generale under the Senior Preferred Notes and, where applicable, any related Coupons relating thereto will be terminated.

The holders of Senior Preferred Notes and, where applicable, any related Coupons relating thereto shall be responsible for taking all necessary steps for the orderly accomplishment of such liquidation of Societe Generale in relation to any claim they may have against Societe Generale.

For the Senior Preferred Notes that are Eligible Notes, redemption, purchase or cancellation of such Notes prior their Maturity Date will be subject to the prior written permission of the Relevant Resolution Authority.

"BRRD II" means Directive 2014/59/EU of the Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms as published in the Official Journal of the European Union on 12 June 2014, as amended from time to time or such other directive as may come in effect in the place thereof (including by the Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending Directive 2014/59/EU as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms and by Directive (EU) 2024/1174 of the European Parliament and of the Council of 11 April 2024 amending Directive 2014/59/EU and Regulation (EU) No 806/2014 regarding certain aspects of the minimum requirement for own funds and eligible liabilities).

"BRRD II rules" means any of BRRD II and SRM and implementing measures.

"CRD IV" means the Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms, as published in the Official Journal of the European Union on 27 June 2013, as amended from time to time or such other directive as may come into effect in place thereof (including by Directive (EU) 2019/878 of the European Parliament and of the Council of 20 May 2019 amending Directive 2013/36/EU as regards exempted entities, financial holding companies, mixed financial holding companies, remuneration, supervisory measures and powers and capital conservation measures) and by Directive (EU) 2024/1619 of the European Parliament and of the Council of 31 May 2024 completing the implementation of the Basel III agreement.

"CRD IV Implementing Measures" means any regulatory capital rules implementing CRD IV or the CRR which may from time to time be introduced, including, but not limited to, delegated or implementing acts (regulatory technical standards) adopted by the European Commission, national laws and regulations, and regulations and guidelines issued by the Relevant Resolution Authority, which are applicable to the Issuer and which prescribe the requirements to be fulfilled by financial instruments for inclusion in the regulatory capital of the Issuer.

"CRD IV Rules" means any or any combination of the CRD IV, the CRR and any CRD IV Implementing Measures.

"CRR" means the Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms, as published in the Official Journal of the European Union on 27 June 2013, as amended from time to time or such other directive as may come into effect in place thereof (including by Regulation (EU) 2019/876 of the European Parliament and of the Council of 20 May 2019 amending Regulation (EU) No 575/2013 as regards the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements and Regulation (EU) 2022/2036 of the European Parliament and of the Council of 19 October 2022 amending Regulation (EU) No 575/2013 and Directive 2014/59/EU as regards the prudential treatment of global systemically important institutions with a multiple-point-of-entry resolution strategy and methods for the indirect subscription of instruments eligible for meeting the minimum requirement for own funds and eligible liabilities) and by Regulation (EU) 2024/1623 of the European Parliament and of the Council of 31 May 2024.

"**Eligible Notes**" means Senior Preferred Notes issued by Societe Generale, specified as such in the applicable Final Terms:

(i) issued pursuant to Article R 613-46-1 of the Code in compliance with the criteria applicable to eligible liabilities available to meet the MREL Requirements in accordance with the Relevant Rules but shall not include (a) Eligible Structured Notes described in (ii) below and (b) other liabilities with embedded derivatives satisfying the condition of Article R 613-46-1-III-1° (the "**Eligible Non Structured Notes**"),

which criteria are, *inter alia*, as of the date of the General Terms and Conditions that such Notes:

(a) cannot be accelerated by the Noteholders upon the occurrence of an Event of Default; and

(b) can only be redeemed, purchased or cancelled prior to their Maturity Date (other than for the occurrence of an Event of Default) subject to the prior permission of the Relevant Resolution Authority; and

(c) give rise to claim against Societe Generale that is equal to par or at least equal to par in case of Zero Coupon Notes

or

(ii) issued pursuant to Article R 613-46-1-III-2° of the Code in compliance with the criteria applicable to eligible liabilities available to meet the MREL Requirements in accordance with the Relevant Rules (the "**Eligible Structured Notes**"), which criteria are, *inter alia*, as of the date of these General Terms and Conditions that such Notes :

(a) cannot be accelerated by the Noteholders upon the occurrence of an Event of Default, and

(b) can be redeemed, purchased or cancelled early prior to their Maturity Date (other than for the occurrence of an Event of Default) only subject to the prior permission of the Relevant Resolution Authority; and

(c) whose claim against Societe Generale in case of liquidation or resolution of Societe Generale, is of an amount that is fixed or increasing and which does not exceed the initially paid-up amount of the liability pursuant to the provisions of Article R 613-46-1-III-2° of the Code.

and which in the case of each of (i) and (ii) above have an initial maturity at least equal to one year.

The Final Terms shall specify if the Notes are Eligible Notes, and if yes, if they are Eligible Non Structured Notes or Eligible Structured Notes.

"**MREL Requirements**" means the minimum requirements for own funds and eligible liabilities applicable to the Issuer and/or the Group referred to in the BRRD II and CRD IV, or any other EU laws and regulations implemented in French laws and regulations and/or as set out in policies and/or principles of the SRB as the case may be, as amended from time to time.

"**Relevant Rules**" means at any time the laws, regulations, requirements, guidelines and policies of the Relevant Resolution Authority relating to capital adequacy applicable to the Issuer from time to time including, for the avoidance of doubt, applicable rules contained in, or implementing the CRD IV Rules and/or the BRRD II Rules.

"**Senior Non-Preferred Obligations**" means any senior (*chirographaires*) obligations of, or other instruments issued by, Societe Generale, which fall or are expressed to fall within the category of obligations described in article L. 613-30-3–I-4° and R. 613-28 of the Code.

"**SRM Regulation**" means Regulation 806/204/EU, as amended from time to time or such other regulation as may come in effect in the place thereof (including Regulation 2019/877/EU of 20 May 2019 amending Regulation (EU) No 806/2014 as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms).

2.2 Notes issued by SG Issuer

2.2.1 Notes (other than Secured Notes) issued by SG Issuer

Notes will constitute direct, unconditional, unsecured and unsubordinated obligations of SG Issuer and will rank *pari passu* without any preference among themselves and (subject to such exceptions as from time to time exist under applicable law) at least *pari passu* with all other outstanding direct, unconditional, unsecured and unsubordinated obligations of SG Issuer present and future.

2.2.2 Secured Notes issued by SG Issuer only

Secured Notes issued by SG Issuer will constitute direct, unconditional, secured, limited recourse and unsubordinated obligations of SG Issuer and will rank *pari passu* without any preference among themselves and (subject to such exceptions as from time to time exist under applicable law) at least *pari passu* with all other outstanding direct, unconditional, secured, limited recourse and unsubordinated obligations of SG Issuer, present and future.

2.3 Guarantee in the case of Notes issued by SG Issuer

The due and punctual payment of any amounts due by the Issuer in respect of any Notes issued by SG Issuer is unconditionally and irrevocably guaranteed by the Guarantor as provided in the guarantee made as of 15 May 2026 (the **Guarantee** and each such amount payable under the Guarantee, a **Guarantee Obligation**) the text of which is set out in "*Guarantee*" in the Base Prospectus dated 15 May 2026; provided that in the case of any Physical Delivery Notes in respect of which the relevant guaranteed obligation of the Issuer is an obligation to transfer the Deliverable Asset(s) in respect of a Physical Delivery Amount, the Guarantor shall, in lieu of such transfer, be obliged to pay a cash amount in the Relevant Currency equal to the fair market value (as determined by the Calculation Agent on or about the due date for transfer of the relevant Deliverable Asset(s) in respect of the Physical Delivery Amount) of the Deliverable Asset(s) in respect of the Physical Delivery Amount.

The Guarantee Obligations will constitute direct, unconditional, unsecured and unsubordinated obligations of the Guarantor ranking as senior preferred obligations, as provided for in Article L. 613-30-3 - I - 3° of the Code.

Such Guarantee Obligations rank and will rank equally and rateably without any preference or priority among themselves and:
(i) pari passu with all other direct, unconditional, unsecured and unsubordinated obligations of the Guarantor outstanding as of the date of the entry into force of the Law on 11 December 2016;

(ii) pari passu with all other present or future direct, unconditional, unsecured and senior preferred obligations (as provided for in Article L. 613-30-3 I 3° of the Code) of the Guarantor issued after the date of the entry into force of the Law on 11 December 2016;

(iii) junior to all present or future claims of the Guarantor benefiting from the statutorily preferred exceptions; and

(iv) senior to all present and future senior non-preferred obligations (as provided for in Article L.613-30-3 - I - 4° of the Code) and all present or future subordinated obligations and deeply subordinated obligations, of the Guarantor.

3. LEFT BLANK INTENTIONALLY

4. INTEREST RELATING TO THE NOTES

This Condition 4 shall apply if the applicable Final Terms specify that the clause "*Fixed Rate Note Provisions*", "*Floating Rate Note Provisions*", "*Structured Interest Note Provisions*" and/or " *Zero Coupon Notes Provision*" is stated as being "Applicable".

For the purpose of this Condition 4, any reference to "Interest Amount" shall be deemed to be a reference to the Fixed Coupon Amount, the Floating Coupon Amount or the Structured Interest Amount (each as defined below) when the context requires.

4.1 Fixed Rate Note Provisions

This Condition 4.1 applies if the applicable Final Terms specify that the clause "*Fixed Rate Note Provisions*" is "Applicable".

The applicable Final Terms contain provisions applicable to the determination of fixed coupon amount (the **Fixed Coupon Amount**) and must be read in conjunction with this Condition 4.1 for full information on the manner in which interest is calculated on Fixed Rate Notes.

In particular, the applicable Final Terms will specify, if applicable, the Interest Commencement Date the Rate(s) of Interest, the Interest Payment Date(s), the Business Day Convention, the Fixed Coupon Amount(s), any applicable Broken Amount(s), Calculation Amount, Day Count Fraction and any applicable Determination Date.

Fixed Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate(s) of Interest to the Specified Denomination as it shall be set out in the applicable Final Terms.

In the case of Notes which are Non-exempt Offer Notes to the public and where the Rate(s) of Interest is/are to be determined by reference to a percentage to be published by the Issuer on http://prospectus.socgen.com, the applicable Final Terms will specify an indicative value, a minimum value, and will indicate the date of publication thereof.

For the purpose of this Condition 4.1:

Fixed Rate Note means a Note which bears one or more fixed rate(s) of interest applicable to the relevant Interest Period which may be either an Adjusted Fixed Rate Note or an Unadjusted Fixed Rate Note.

Adjusted Fixed Rate Note means a Fixed Rate Note in respect of which the Interest Amount and the Interest Payment Date are subject to modification in accordance with the provisions of Condition 4.1.2.

Unadjusted Fixed Rate Note means a Fixed Rate Note in respect of which the Interest Amount and the Interest Payment Date remain, for the purposes of this Condition 4 (and without prejudice to the provisions of Condition 4.3), unchanged and are calculated in accordance with the provisions of Condition 4.1.1.

4.1.1 Unadjusted Fixed Rate Notes

Each Unadjusted Fixed Rate Note bears interest from and including (or, in respect of Uncertificated Swedish Notes from but excluding) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date, as specified in the applicable Final Terms.

If the Notes are Definitive Bearer Notes, the amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified (the **Broken Amount**).

Except in the case of Notes which are Definitive Bearer Notes where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate(s) of Interest specified in the applicable Final Terms to:

- in the case of Fixed Rate Notes which are Uncertificated Notes or Notes represented by a Global Note, the aggregate outstanding nominal amount of the Notes of the relevant Series (or, if they are Partly Paid Notes, the aggregate amount paid up); or

- in the case of Fixed Rate Notes which are Definitive Bearer Notes or Definitive Registered Notes, the Calculation Amount,

and, in each case, multiplying such amount by the applicable Day Count Fraction (if any), and rounding the resultant figure to the nearest sub-unit (as defined in Condition 4.7 below) of the relevant Specified Currency, half of any such sub-unit being rounded

upwards. Fixed Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate(s) of Interest to the Specified Denomination as it shall be set out in the applicable Final Terms. Where the Specified Denomination of a Fixed Rate Note which is a Definitive Bearer Note or a Definitive Registered Note is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

4.1.2 Adjusted Fixed Rate Notes

4.1.2.1 Each Adjusted Fixed Rate Note bears interest from and including (or, in respect of Uncertificated Swedish Notes from but excluding) the Interest Commencement Date specified in the applicable Final Terms, and such interest will be payable in respect of each Interest Period and in arrear on the Interest Payment Date(s) in each year specified in the applicable Final Terms; provided that (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then if the applicable Final Terms specify that the clause "Business Day Convention" is:

"**Following Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day; or

"**Modified Following Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day; or

"**Preceding Business Day Convention**", such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day,

and the expression "Interest Payment Date" shall be construed accordingly.

4.1.2.2 The Calculation Agent will calculate the amount of interest (the **Adjusted Fixed Rate Interest Amount**) payable on the Adjusted Fixed Rate Notes for the relevant Interest Period by applying the Rate(s) of Interest to:

(i) in the case of Adjusted Fixed Rate Notes which are Uncertificated Notes or Notes represented by a Global Note, the aggregate outstanding nominal amount of the Notes of the relevant Series (or, if they are Partly Paid Notes, the aggregate amount paid up); or

(ii) in the case of Adjusted Fixed Rate Notes which are Definitive Bearer Notes or Definitive Registered Notes, the Calculation Amount;

and, in each case, multiplying such amount by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of an Adjusted Fixed Rate Note which is a Definitive Bearer Note or a Definitive Registered Note is a multiple of the Calculation Amount, the Adjusted Fixed Rate Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

4.2 Floating Rate Note and Reference Rate Note Provisions

This Condition 4.2 applies if (i) the applicable Final Terms specify that the clause "*Floating Rate Note Provisions*" is "Applicable", or (ii) with respect to U.S. Exempt Securities, the applicable Offering Circular specifies that the clause "Floating Rate Note Provisions" is stated as being "Applicable".

The applicable Final Terms contain provisions applicable to the determination of floating coupon amount (the **Floating Coupon Amount**) and must be read in conjunction with this Condition 4.2 for full information on the manner in which interest is calculated on Floating Rate Notes.

In particular, the applicable Final Terms will specify the Floating Coupon Amount(s), the Interest Payment Date(s), the Business Day Convention, the method of determination of the Rate of Interest and Interest Amount, any Margin(s)/Spread(s), any Leverage Factor, any minimum rate of interest (the **Minimum Rate of Interest**) or any maximum rate of interest (the **Maximum Rate of Interest**) (whereby these latter elements may also be specified in the formula for the calculation of the Floating Coupon Amount specified in the applicable Final Terms), and any Day Count Fraction, and any rate multiplier (the **Rate Multiplier**).

In the case of Notes which are Non-exempt Offer Notes to the public and the Floating Coupon Amount is to be determined by reference to one or more component(s) being a percentage to be published by the Issuer on http://prospectus.socgen.com, the applicable Final Terms will specify an indicative value, a minimum value, and will indicate the date of publication thereof.

4.2.1 Specified Period(s) and Interest Payment Dates

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in respect of each Interest Period on either:

(1) the Interest Payment Date(s) specified in the applicable Final Terms; or

(2 if no Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Interest Payment Date specified in the applicable Final Terms an **Interest Payment Date**) numerically corresponding to the immediately preceding Interest Payment Date and which falls the number of months or other period(s) (the **Specified Period(s)**) specified in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date (and if no Interest Commencement Date is specified, after the Issue Date).

4.2.2 Floating Coupon Amount

The Floating Coupon Amount payable on the Interest Payment Date(s) in respect of the Floating Rate Notes will be determined by applying the Rate of Interest to the Specified Denomination as specified in the applicable Final Terms.

4.2.3 Rate of Interest

The Rate of Interest in respect of the Floating Rate Notes or Reference Rate Linked Notes as the case may be, will be determined pursuant to the provisions below as specified in the Final Terms.

4.2.3.1 ISDA Determination

If the applicable Final Terms specify that "Method of determination of the Rate of Interest and Interest Amount" is “ISDA Determination”, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the Final Terms) the margin(s) (the **Margin**(**s**)), (if any), which, for the avoidance of doubt, may be also referred to as the spread(s) (the **Spread**(**s**)) in the applicable Final Terms) multiplied by any leverage factor (the **Leverage Factor**).

For the purposes of this paragraph, **ISDA Rate** for an Interest Period means, subject to the provisions of Condition 4.2.3.5 below, a rate equal to the Floating Rate that would be determined by the Calculation Agent or any other person specified in the Final Terms, under an interest rate swap transaction if the Calculation Agent or that other person were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions (as defined below) and under which:

(1) the Floating Rate Option is as specified in the Final Terms;

(2) the Designated Maturity is a period specified in the Final Terms; and

(3) the relevant Reset Date is as specified in the Final Terms;

(the **"Hypothetical Swap Transaction"**)

For the purposes of this subparagraph, **Floating Rate**, **Calculation Agent**, **Floating Rate Option**, **Designated Maturity**, **Reset Date** and **Euro-zone** have the meanings given to those terms in the 2021 ISDA Interest Rate Derivatives Definitions published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche Notes (the **2021 ISDA Definitions**).

Where ISDA Determination is specified in the Final Terms as the "Method of determination of the Rate of Interest and Interest Amount", unless a higher Minimum Rate of Interest is specified in the Final Terms, the Minimum Rate of Interest shall be deemed to be zero.

Except if the provisions of Condition 4.2.3.3 or 4.2.3.4 apply, in the Final Terms, when the paragraph “Floating Rate Option” specifies that the rate is determined by linear interpolation, in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Floating Rate Option, one of which shall be determined as if the Designated Maturity were the period of time for which rates are available of next shorter length before the length of the relevant Interest Period, and the other of which shall be determined as if the Designated Maturity were the period of time, for which rates are available of next longer length after the length of the relevant Interest Period.

4.2.3.2 Standard Screen Rate Determination

If the applicable Final Terms specify that the “Method of determination of the Rate of Interest and Interest Amount” is “Standard Screen Rate Determination” or otherwise provide that “Standard Screen Rate Determination” applies, the Rate of Interest for each Interest Period will, subject as provided below, and in Condition 4.2.3.5 below, be either:

(1) the offered quotation; or

(2) the arithmetic mean (rounded, if necessary, to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate *per annum*), for the Reference Rate(s) which appears or appear, as the case may be, on the Relevant Screen Page as at the specified time (**Specified Time**) or the Specified Time in the principal financial centre of the jurisdiction of the relevant Reference Rate on the interest determination date in question (the **Interest Determination Date**) as specified in the Final Terms plus or minus (as indicated in the Final Terms) the Margin or Spread (if any), multiplied by any Leverage Factor, all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the Relevant Screen Page is not available or if in the case of paragraph (1) above, no such offered quotation appears or, in the case of paragraph (2) above, fewer than three such offered quotations appear, in each case as at the Specified Time, the Calculation Agent shall request the principal office of each of the Reference Banks (as defined below) to provide the Calculation Agent with its offered quotation (expressed as a percentage rate *per annum*) for the Reference Rate at approximately the Specified Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of such offered quotations plus or minus (as appropriate) the Margin (if any), and multiplied by any Leverage Factor, all as determined by the Calculation Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate *per annum* which the Calculation Agent determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the relevant inter-bank market plus or minus (as appropriate) the Margin (if any) and multiplied by any Leverage Factor or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at approximately the Specified Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer and the Calculation Agent suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in the relevant inter-bank market (or, as the case may be, the quotations of such bank or banks to the Calculation Agent) plus or minus (as appropriate) the Margin (if any) and multiplied by any Leverage Factor.

Where:

Reference Rate(s) means, for the purpose of this Condition 4.2.3.2, as specified in the applicable Final Terms, the deposit rate, the interbank rate, the swap rate or bond yield, as the case may be, which appears on the Relevant Screen Page at the Specified Time on the Interest Determination Date and as determined by the Calculation Agent.

Reference Banks has the meaning given to it, for each Reference Rate, in the 2021 ISDA Definitions as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series. For instance, in case of an EURIBOR rate, the Reference Banks will be the principal Euro-zone office of four major banks in the Euro-zone inter-bank market.

Euro-zone has the meaning given to such term in the 2021 ISDA Definitions.

In the applicable Final Terms, when the clause "*Reference Rate*" specifies that the rate is determined by linear interpolation, in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate, one of which shall be determined as if the maturity were the period of time, for which rates are available, of next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the maturity were the period of time, for which rates are available, of next longer than the length of the relevant Interest Period.

4.2.3.3 Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination

If the applicable Final Terms specify that the “Method of determination of the Rate of Interest and Interest Amount” is “Compounded RFR Screen Rate Determination” or "Averaged RFR Screen Rate Determination" or otherwise provide that “Compounded RFR Screen Rate Determination” or "Averaged RFR Screen Rate Determination" applies and the Reference Rate specified in the applicable Final Terms in respect of the Floating Rate Notes or Reference Rate Linked Notes as the case may be, is based on an overnight risk-free rate (such as and without limitation SONIA, SOFR, €STR, SARON, TONA, SORA, HONIA, AONIA, CORRA)(each an **Underlying Benchmark**), the Rate of Interest for each Interest Period will, subject as provided below in Condition 4.2.3.5, be such Reference Rate which is either (i) a Published Compounded RFR or (ii) a Published Averaged RFR, plus or minus (as indicated in the applicable Final Terms) the Margin (if any), multiplied by any Leverage Factor (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards).

For the purposes of this sub-paragraph, a **Published Compounded RFR** means the relevant Reference Rate as provided by the Administrator to authorised distributors and published at the specified time (the **Specified Time**) on the Relevant Screen Page (each as specified in the applicable Final Terms) and on a date (the **Interest Determination Date**) (specified in the applicable Final Terms or if none is specified, it shall be deemed to be on the 5th Business Day preceding the Interest Payment Date, corresponding to, the rate of return of a daily compound interest investment over a certain period of time (the **Tenor**) calculated in accordance with any one of the RFR Compounding Methods described in 4.2.3.4.1 to 4.2.3.4.4 below (each as specified in the applicable Final Terms).

For the purposes of this sub-paragraph, a **Published Averaged RFR** means the relevant Reference Rate as provided by the Administrator to authorised distributors and published at the specified time (the **Specified Time**) on the Relevant Screen Page (each as specified in the applicable Final Terms) and on a date (the **Interest Determination Date**) (specified in the applicable Final Terms or if none is specified, it shall be deemed to be on the 5th Business Day preceding the Interest Payment Date), corresponding to the arithmetic average of the Underlying Benchmark as observed over a certain period of time (the **Tenor)** calculated in accordance with any one of the RFR Averaging Methods described in Conditions 4.2.3.4.1 to 4.2.3.4.4 below (each as specified in the applicable Final Terms).

4.2.3.4 Determination of the Rate of Interest based on RFR Compounding Methods and RFR Averaging Methods

If the applicable Final Terms specify that the "Method of determination of the Rate of Interest and Interest Amount" is any of "Compounding with Lookback", "Compounding with Observation Shift", "Compounding with Lockout" or "OIS Compounding" (each a **RFR Compounding Method** and together the **RFR Compounding Methods**), the Rate of Interest for each Interest Period, will subject as provided in Condition 4.2.3.5 below, be equal to (i) the Reference Rate corresponding to the rate of return of a daily compound interest investment over a certain tenor calculated on the basis of an overnight risk-free rate such as without limitation SONIA, SOFR, €STR, SARON, TONA, SORA, HONIA, AONIA or CORRA (each an Underlying Benchmark specified in the applicable Final Terms) in accordance with any one of the **RFR Compounding Methods** described in Conditions 4.2.3.4.1 to 4.2.3.4.4 below, as determined on the relevant Interest Determination Date (each as specified in the Final Terms) (ii) plus or minus (as indicated in the applicable Final Terms) the Margin (if any), multiplied by any Leverage Factor,(and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards); or

If the applicable Final Terms specify that the "Method of determination of the Rate of Interest and Interest Amount" is any of "Averaging with Lookback", "Averaging with Observation Shift", "Averaging with Lockout" or "Overnight Averaging" (each an **RFR Averaging Method** and together the **RFR Averaging Methods**) the Rate of Interest for each Interest Period, will subject as provided below, be equal to (i) the Reference Rate corresponding to the arithmetic average over a certain tenor of an overnight risk-free rate (such as without limitation SONIA, SOFR, €STR, SARON, TONA, SORA, HONIA, AONIA or CORRA) (each an **Underlying Benchmark** specified in the applicable Final Terms) in accordance with any one of the **RFR Averaging Methods** described in Conditions 4.2.3.4.1 to 4.2.3.4.4 below as determined on the relevant Interest Determination Date (each as specified in the Final Terms) (ii) plus or minus (as indicated in the applicable Final Terms) the Margin (if any), multiplied by any Leverage Factor (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards).

4.2.3.4.1 Lookback

4.2.3.4.1.1 If "Compounding with Lookback" is specified in the applicable Final Terms as the applicable RFR Compounding Method, the Reference Rate is equal to:

[Product (i from 1 to d0)(1+(Underlying Benchmark Level i-Lookback r ABD × ni) / Day Count Basis) - 1] × Day Count Basis / d

4.2.3.4.1.2 If "Averaging with Lookback" is specified in the applicable Final Terms as the applicable RFR Averaging Method, the Reference Rate is equal to:

[Sum(for i from 1 to d0) (Underlying Benchmark Level i-Lookback r ABD)] × 1/d

4.2.3.4.1.3 Definitions for Lookback

For the purposes of Conditions 4.2.3.4.1.1 and 4.2.3.4.1.2:

"Applicable Business Day" or **ABD**:

- In respect of any Underlying Benchmark other than the SOFR rate: Applicable Business Day means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial center of the relevant currency of the relevant Underlying Benchmark of the Reference Rate;
- In respect of the SOFR rate: an Applicable Business Day means an U.S. Government Securities Business Day.

d is the number of calendar days in the relevant Interest Period;

d0 is, for any Interest Period:
- if "Compounding with Lookback" applies: the number of Applicable Business Days in the relevant Interest Period except if the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is the number of Applicable Business Days in the relevant Interest Period plus one; or
- if "Averaging with Lookback" applies, the number of calendar days in that Interest Period

Day Count Basis means, if "Compounding with Lookback" applies, the denominator of the Day Count Fraction that customarily applies for the Underlying Benchmark of the relevant Reference Rate and which is either 365 or 360;

i is:

- if "Compounding with Lookback" applies:

a. if the first calendar day in the relevant Interest Period is an Applicable Business Day, a series of whole numbers from one to do, each representing the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; or

b. If the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is a series of whole numbers from 1 to d0, where *i* = 1 represents the first calendar day of the relevant Interest Period, and each of *i* = 2 to d0, represents the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; or

- if "Averaging with Lookback" applies:

a series of whole numbers from 1 to d0, each representing the relevant calendar day in the Interest Period in chronological order from, and including, the first calendar day in the Interest Period.

"Lookback r" means, the number of Applicable Business Days specified in the Final Terms; if none is specified "Lookback r "shall be deemed to be equal to 5;

ni means, if "Compounding with Lookback" applies, for any day "i", the number of calendar days from and including such day "i" to but excluding, the earlier of (and excluding) (a) the next Applicable Business Day, and (b) the last day of the relevant Interest Period;

Underlying Benchmark Level i-Lookback r ABD means:

a) subject to paragraph b) below, for any Applicable Business Day "i" in the relevant Interest Period, the level of the Underlying Benchmark specified in the Final Terms in respect of the Applicable Business Day falling "Lookback_r" Applicable Business Days preceding "i" provided by its administrator to authorised distributors and published on the Relevant Screen Page on the Specified Time.

For the avoidance of doubt, pursuant to the rules of an Underlying Benchmark, the level of an Underlying Benchmark in respect of an Applicable Business Day "i" (the **Reset Date**) may be provided by its Administrator to authorised distributors and published on Relevant Screen Pages, on a day (the **Fixing Day**) which is either the same day as the Reset Date or one or more (the actual number being **"p"**) Applicable Business Days before (**" - p"**) or following (**" + p"**) the Reset Date (e.g.SONIA and SOFR) (with **"p"** = 0 if the Fixing Day is on the Reset Date); in that case, the Underlying Benchmark Level **i-Lookback r ABD** shall be the Underlying Benchmark Level published on day i - Lookback r ABD "+ p" or " - p" Applicable Business Day(s);

b) if a "Daily Capped Rate and/or Daily Floored Rate" is specified in the Final Terms, the Underlying Benchmark Level i – Lookback – r ABD for any Applicable Business Day i – Lookback r ABD shall be either:

(i) the greater of the rate determined in accordance with paragraph a) and the Daily Floored Rate specified (if any); and

(ii) the lower of the rate determined in accordance with paragraph a) and the Daily Capped Rate specified (if any),

as applicable;

4.2.3.4.2 Observation Shift

4.2.3.4.2.1 If "Compounding with Observation Shift" is specified in the applicable Final Terms as the applicable RFR Compounding Method, the Reference Rate is equal to:

[Product (i from 1 to d0)(1+(Underlying Benchmark Level i × ni) / Day Count Basis) - 1] × Day Count Basis / d

4.2.3.4.2.2. If "Averaging with Observation Shift" is specified in the applicable Final Terms as the applicable RFR Averaging Method, the Reference Rate is equal to:

[Sum(for i from 1 to d0) (Underlying Benchmark Level i)]

4.2.3.4.2.3 Definitions for Observation Shift

For the purposes of Conditions 4.2.3.4.2.1 and 4.2.3.4.2.2

"Applicable Business Day":

- In respect of any Underlying Benchmark other than the SOFR rate: Applicable Business Day means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial center of the relevant currency of the Underlying Benchmark of the relevant Reference Rate;
- In respect of the SOFR rate: an Applicable Business Day means an U.S. Government Securities Business Day.

"**d**" is the number of calendar days in the relevant Observation Period;

"d0" is:

- if "Compounding with Observation Shift" applies, the number of Applicable Business Days in the Observation Period; or

- if "Averaging with Observation Shift" applies, the number of calendar days in the Observation Period.

"**Day Count Basis**" means, if "Compounding with Observation Shift" applies, the denominator of the Day Count Fraction that customarily applies for the Underlying Benchmark of the relevant Reference Rate and which is either 365 or 360;

"i" is:
- if "Compounding with Observation Shift" applies:
a. a series of whole numbers from one to d0, each representing the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Observation Period; or

- if “Averaging with Observation Shift” applies:
b. a series of whole numbers from one to d0, each representing the relevant calendar day in the Observation Period in chronological order from, and including, the first calendar day in the Observation Period.

"**ni**" is, if "Compounding with Observation Shift" applies, the number of calendar days from, and including, the day *i* to, but excluding, the earlier of (a) the next Applicable Business Day, and (b) the Observation Period End Date for the relevant Observation Period or the Observation Period End Date of the Set in Advance Observation Period as the case may be;

"Observation Period Shift Additional Business Day" means a Business Day in the financial centers specified, as the case may be, for such purpose in the applicable Final Terms otherwise if none is specified in the Final Terms, there shall be no Observation Period Shift Additional Business Day;

"Observation Period" means, for any Interest Period, (A) the period from, and including, the date "*s"* Observation Period Shift Business Days preceding the first calendar day of the relevant Interest Period (and the first Observation Period shall begin on and include the date falling "*s"* Observation Period Shift Business Days prior to the Interest Commencement Date) to, but excluding, the date "s" Observation Period Shift Business Days preceding the last day of the relevant Interest Period (the “**Observation Period End Date**") unless (B) Set-In-Advance Observation is specified as being Applicable in the applicable Final Terms, in which case the Observation Period shall be the Set-In-Advance Observation Period;

"Observation Period Shift Business Day" means a day which is both an Applicable Business Day and, as the case may be, an Observation Period Shift Additional Business Day;

"Set-In-Advance Observation Period" means in respect of an Interest Period, the period that would have been the Observation Period of the immediately preceding Interest Period, if it had been determined on the basis of the definition of Observation Period above provided that in respect of the first Interest Period, the Set-In Advance Observation Period shall be as specified in the Final Terms (the **First Set-In-Advance Observation Period**);

"Underlying Benchmark Level i" means:

(a) if “Compounding with Observation Shift” applies, and subject to paragraph (c) below, for any Applicable Business Day “i, the level of the Underlying Benchmark specified in the Final Terms in respect of such Applicable Business Day “i”, provided by its administrator to authorised distributors and published on Relevant Screen Page on the Specified Time; or

(b) if “Averaging with Observation Shift” applies, and subject to paragraph (c) below:

(I) for any Applicable Business Day “i, the level of the Underlying Benchmark in respect of such Applicable Business Day “i”, provided by its administrator to authorised distributors and published on Relevant Screen Pages;

(II) for any day that is not an Applicable Business Day, the level of the Underlying Benchmark in respect of the preceding Applicable Business Day in each case as provided by its administrator to authorised distributors and published on Relevant Screen Pages;

(c) if a “Daily Capped Rate and/or Daily Floored Rate” is specified in the Final Terms, the Underlying Benchmark Level "i" shall be either:

(i) the greater of the rate determined in accordance with paragraph a. and the Daily Floored Rate specified (if any); and

(ii) the lower of the rate determined in accordance with paragraph a. and the Daily Capped Rate specified (if any), as applicable;

For the avoidance of doubt, pursuant to the rules of an Underlying Benchmark, the level of an Underlying Benchmark in respect of an Applicable Business Day "i" (the **Reset Date**) may be provided by its Administrator to authorised distributors and published on Relevant Screen Pages, on a day (the **Fixing Day**) which is either the same day as the Reset Date or one or more (the actual number being "p") Applicable Business Days before (**" - p"**) or following (**" + p"**) the Reset Date (e.g.SONIA and SOFR) (with **"p"** = 0 if the Fixing Day is on the Reset Date); in that case, the Underlying Benchmark Level i in respect of an Applicable Business Day "i" shall be the Underlying Benchmark Level published on “+ p” or " - p" Applicable Business Day(s) before or following such Applicable Business Day "i";

“**s**” is the number specified as the “Observation Shift” in the applicable Final Terms; if none is specified “s“ shall be deemed to be equal to 5;

4.2.3.4.3 Lockout

4.2.3.4.3.1 If “Compounding with Lockout” is specified in the applicable Final Terms as the applicable RFR Compounding Method, the Reference Rate is equal to:

[Product (i from 1 to d0)(1+(Underlying Benchmark Level i × ni) / Day Count Basis) - 1] × Day Count Basis / d

4.2.3.4.3.2 If “Averaging with Lockout” is specified in the applicable Final Terms as the applicable RFR Averaging Method, the Reference Rate is equal to:

[Sum(for i from 1 to d0) (Underlying Benchmark Level i x ni)] x 1/d

4.2.3.4.3.3 Definitions

For the purposes of Conditions 4.2.3.4.3.1 and 4.2.3.4.3.2

"Applicable Business Day" :
- In respect of any Underlying Benchmark other than the SOFR rate: Applicable Business Day means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial center of the relevant currency of the Underlying Benchmark of the relevant Reference Rate;
- In respect of the SOFR rate: an Applicable Business Day means an U.S. Government Securities Business Day.

d is the number of calendar days in the relevant Interest Period;

"**d0**" is, for any Interest Period:

- if "Compounding with Lockout" applies: the number of Applicable Business Days in the relevant Interest Period except if the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is the number of Applicable Business Days in the relevant Interest Period plus one; or

- if "Averaging with Lockout" applies: the number of calendar days in that Interest Period

Day Count Basis means, if "Compounding with Lockout" applies, the denominator of the Day Count Fraction that customarily applies for the Underlying Benchmark of the relevant Reference Rate and which is either 365 or 360;

"**i**" is:

- if "Compounding with Lockout" applies:

(a) if the first calendar day in the relevant Interest Period is an Applicable Business Day, a series of whole numbers from one to d0, each representing the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; or

(b) if the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is a series of whole numbers from 1 to d0, where i = 1 represents the first calendar day of the relevant Interest Period, and each of i = 2 to do represents the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; or

- if "Averaging with Lockout" applies,
a series of whole numbers from 1 to d0, each representing the relevant calendar day in the Calculation Period in chronological order from, and including, the first calendar day in the Calculation Period.

"Lockout Date" is the date "t" Lockout Period Business Days preceding the last day of the relevant Interest Period or, in respect of the last Interest Period, the Maturity Date (or the date falling "t" Lockout Period Business Days prior to such earlier date, if any, on which the Notes become due and payable;

"Lockout Period" is the period from, and including, the Lockout Date to, but excluding, the last day of the Interest Period or, in respect of the last Interest Period, the Maturity Date (excluded);

"Lockout Period Business Day" means:

a. a Business Day in the financial centers specified for such purpose in the Final Terms; or

b. if no financial centers are specified for such purpose in the Final Terms, an Applicable Business Day;

"**ni**" is, if "Compounding with Lockout" applies, the number of calendar days from, and including, the day *i* to, but excluding, the earlier of (and excluding) (a) the next Applicable Business Day, and (b) the last day of the relevant Interest Period

"**t**" means:

(i) the number specified as such in the applicable Final Terms; or

(ii) if a number is not specified in the applicable Final Terms, "t" shall be deemed to be equal to 5;

Underlying Benchmark Level i means:

(a) subject to paragraph (c), in respect of any day "i" other than a day "i" in the Lockout Period:

(i) if such day "i" is an Applicable Business Day, the level of the Underlying Benchmark in respect of such Applicable Business Day "i" provided by its administrator to authorised distributors and published on Relevant Screen Page on the Specified Time; or

(ii) if such day "i" is not an Applicable Business Day, the level of the Underlying Benchmark in respect of the immediately preceding Applicable Business Day provided by its administrator to authorised distributors and published on Relevant Screen Page on the Specified Time, or

(b) subject to paragraph (c), in respect of an Applicable Business Day "i" in the Lockout Period, the level of the Underlying Benchmark determined in respect of the Lockout Date as if the Lockout Date were an Interest Determination Date; or

(c) if a "Daily Capped Rate and/or Daily Floored Rate" is specified in the Final Terms, the Underlying Benchmark Level "i" for any Applicable Business Day "i" shall be either:

(i) the greater of the rate determined in accordance with paragraph a. or paragraph b., as applicable, and the Daily Floored Rate so specified; and

(ii) the lower of the rate determined in accordance with paragraph a. or paragraph b., as applicable, and the Daily Capped Rate so specified,as applicable.

For the avoidance of doubt, pursuant to the rules of an Underlying Benchmark, the level of an Underlying Benchmark in respect of an Applicable Business Day "i" (the **Reset Date**) may be provided by its Administrator to authorised distributors and published on Relevant Screen Pages, on a day (the **Fixing Day**) which is either the same day as the Reset Date or one or more (the actual number being "p") Applicable Business Days before (**" - p"**) or following (**" + p"**) the Reset Date (e.g.SONIA and SOFR) (with **"p"** = 0 if the Fixing Day is on the Reset Date); in that case, the Underlying Benchmark Level i in respect of an Applicable Business Day "i" shall be the Underlying Benchmark Level published on "+ p" or " - p" Applicable Business Day(s) before or following such Applicable Business Day "i".

4.2.3.4.4 OIS Compounding or Overnight Averaging

4.2.3.4.4.1 if OIS Compounding is specified in the applicable Final Terms as the applicable RFR Compounding Method, then the Reference Rate is equal to:

[Product (i from 1 to d0)(1+(Underlying Benchmark Level i × ni) / Day Count Basis) - 1] × Day Count Basis / d

4.2.3.4.4.2 If "Overnight Averaging" is specified in the applicable Final Terms as the applicable RFR Averaging Method, then the Reference Rate is equal to:

[Sum(for i from 1 to d0) (Underlying Benchmark Level i)]

4.2.3.4.4.3 Definitions

For the purposes of Conditions 4.2.3.4.4.1 and 4.2.3.4.4.2:

"**Applicable Business Day**" :
- In respect of any Underlying Benchmark other than the SOFR rate: Applicable Business Day means, in respect of a Reference Rate, any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial center of the relevant currency of the relevant Reference Rate.
- In respect of the SOFR rate: an Applicable Business Day means a U.S. Government Securities Business Day.

"**d**" is the number of calendar days in the relevant Interest Period.

"**d0**" is, for any Interest Period:

(a) if "OIS Compounding" applies: the number of Applicable Business Days in the relevant Interest Period except if the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is the number of Applicable Business Days in the relevant Interest Period plus one; or

(b) if "Overnight Averaging" applies : the number of calendar days in that Interest Period;

Day Count Basis means, if "OIS Compounding" applies, in respect of a Reference Rate, the denominator of the Day Count Fraction that customarily applies for the Underlying Benchmark of the Reference Rate and which is either 365 or 360.

"**i**" is:

- if "OIS Compounding" applies :

(i) if the first calendar day in the relevant Interest Period is an Applicable Business Day, a series of whole numbers from 1 to d0, each representing the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; and

(ii) if the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is a series of whole numbers from 1 to d0, where *i* = 1 represents the first calendar day of the relevant Interest Period, and each of *i* = 2 to d0 represents the relevant

Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; or

- if "Overnight Averaging" applies: a series of whole numbers from 1 to **d0**, each representing the relevant calendar day in the Interest Period in chronological order from, and including, the first calendar day in the Interest Period;

"**ni**" is, if "OIS Compounding" applies, the number of calendar days from, and including, the day **i** to, but excluding, the earlier of (and excluding) (a) the next Applicable Business Day, and (b) the last day of the Interest Period or, in respect of the last Interest Period, the Maturity Date.

"Underlying Benchmark Level i " means:

for any day "i",

(I) if such day "i" is an Applicable Business Day, the level of the Underlying Benchmark in respect of such Applicable Business Day "i" provided by its administrator to authorised distributors and published on Relevant Screen Page on the Specified Time; or

(II) if such day "i" is not an Applicable Business Day, the level of the Underlying Benchmark in respect of the immediately preceding Applicable Business Day, provided by its administrator to authorised distributors and published on Relevant Screen Page on the Specified Time.

For the avoidance of doubt, pursuant to the rules of an Underlying Benchmark, the level of an Underlying Benchmark in respect of an Applicable Business Day "i" (the **Reset Date**) may be provided by its Administrator to authorised distributors and published on Relevant Screen Pages, on a day (the **Fixing Day**) which is either the same day as the Reset Date or one or more (the actual number being "p") Applicable Business Days before (**" - p"**) or following (**" + p"**) the Reset Date (e.g.SONIA and SOFR) (with **"p"** = 0 if the Fixing Day is on the Reset Date); in that case, the Underlying Benchmark Level i in respect of an Applicable Business Day "i" shall be the Underlying Benchmark Level published on "+ p" or " - p" Applicable Business Day(s) before or following such Applicable Business Day "i".

4.2.3.5 Events affecting Underlying Benchmarks and Reference Rates

4.2.3.5.1 No Index Event has occurred

(i) If ISDA Determination applies pursuant to Condition 4.2.3.1, and the Floating Rate Option for the ISDA Rate in respect of the day for which it is required is not published by the Administrator or an authorised distributor and is not otherwise provided by the Administrator by either (a) the later of (I) the Reset Date (including any day that is deemed to be a Reset Date) and (II) the Fixing Day (both as defined in the 2021 ISDA Definitions) or (b) such other date on which the Reference Rate is required under the Hypothetical Swap Transaction, then the Calculation Agent will determine the ISDA Rate used to calculate the Rate of Interest by applying the fallback provisions of the 2021 ISDA Definitions and the ISDA Interest Rate Derivatives Definitions Floating Rate Matrix (the **ISDA Matrix)** for a Temporary Non-Publication (as defined in the 2021 ISDA Definitions).

(ii) If Standard Screen Rate Determination applies pursuant to Condition 4.2.3.2 above, for the purpose of determining the Rate of Interest, and if, on the relevant Interest Determination Date, (x) the Reference Rate cannot be determined in accordance with the provisions of Condition 4.2.3.2, and (y) an Index Event has not occurred, then the Rate of Interest shall be determined by the Calculation Agent on the basis of the latest (1) offered quotation; or (2) arithmetic mean (rounded, if necessary, to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations, (expressed as a percentage rate *per annum*), for the Reference Rate(s) which appears or appear, as the case may be, on the Relevant Screen Page as at the Specified Time indicated in the Final Terms or the Specified Time in the principal financial centre of the jurisdiction of the relevant Reference Rate, available immediately before the Interest Determination Date, as determined by the Calculation Agent plus or minus (as appropriate) the Margin (if any) and multiplied by any Leverage Factor.

(iii) If Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination applies pursuant to Condition 4.2.3.3. above, for the purpose of determining the Rate of Interest and:

(aa) if the Underlying Benchmark is any of €STR, SARON, SOFR, SONIA and TONA (each as defined below, the **"Major Underlying Benchmarks"** and each a **"Major Underlying Benchmark"),** and such Major Underlying Benchmark, in respect of the day for which it is required to be determined is not published on the Relevant Screen Page by its Administrator or an authorised distributor and is not otherwise provided by the Administrator by either (a) the later of (i) the Reset Date and (ii) the Fixing Day or (b) such other date on which the Major Underlying Benchmark is required, the level of Underlying Benchmark Level in respect of a day "i" used to determine the Reference Rate shall be determined by the Calculation Agent as the last provided or published level of that Major Underlying Benchmark as at the Fixing Day or, if no Fixing Day applies to the Major Underlying Benchmark, as at the day on which that Major Underlying Benchmark was originally required; or

(bb) if the Underlying Benchmark is other than a Major Underlying Benchmark and is not published on the Relevant Screen Page by its Administrator or an authorised distributor and is not otherwise provided by the Administrator by either (a) the later of (i) the Reset Date and (ii) the Fixing Day or (b) such other date on which the Underlying Benchmark is required, then the Underlying Benchmark Level i in respect of a day "i" used to determine the Reference Rate shall be determined by the Calculation Agent (i) pursuant to the Temporary Non Publication Fallback of the 2021 ISDA Definitions and the ISDA Matrix as updated and amended as of the Issue Date of the first Tranche of the Notes when the Underlying Benchmark specified in the applicable Final Terms is also an Underlying Benchmark under the 2021 ISDA Definitions and the ISDA Matrix as if it were the Calculation Agent under an interest rate swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions and using the Underlying Benchmark to

determine the amounts due under such interest rate swap transaction or (ii) otherwise, as the latest available Underlying Benchmark Level provided by its Administrator and published on the Relevant Screen Pages.

4.2.3.5.2 If an Index Event has occurred

If an event affecting a Reference Rate or an Underlying Benchmark occurs preventing the determination of the Rate of Interest of an Interest Period (the **Affected Interest Period**), the following provisions shall apply.

4.2.3.5.2.1 f ISDA Determination applies pursuant to Condition 4.2.3.1, then (i) if the Floating Rate Option specified in the Final Terms is a Floating Rate Option in the ISDA Matrix, the Calculation Agent of the Notes will determine the ISDA Rate used to determine the Rate of Interest as if it were the Calculation Agent of the Hypothetical Swap Transaction by applying the fallback provisions of the 2021 ISDA Definitions and the ISDA Matrix as updated and amended as of the Issue Date of the first Tranche of the Notes, for an Index Cessation or an Administrator/Benchmark Event as appropriate (as defined in the 2021 ISDA Definitions), or (ii) if the Floating Rate Option specified in the Final Terms is not a Floating Rate Option in the ISDA Matrix, the provisions of Condition 4.2.3.5.2.3 below shall apply.

4.2.3.5.2.2 If Standard Screen Rate Determination applies pursuant to Condition 4.2.3.2 above or if Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination applies pursuant to paragraph 4.2.3.3. above, and the Underlying Benchmark is a Major Underlying Benchmark and:

4.2.3.5.2.2.1 The Major Underlying Benchmark is €STR

(i) If an Index Event with respect to €STR occurs, the rate for a Fixing Day (in all this Condition 4.2.3.5.2.2.1 as defined in 4.2.3.4 above) occurring on or after the Applicable Fallback Effective Date with respect to €STR, will be the EUR Recommended Rate.

(ii) Temporary Non-Publication with respect to EUR Recommended Rate. If there is a EUR Recommended Rate before the end of the first T2 Settlement Day following the Applicable Fallback Effective Date with respect to €STR but neither the Administrator nor authorised distributors provide or publish the EUR Recommended Rate, then, subject to paragraph (iii) below, in respect of any day for which the EUR Recommended Rate is required, references to the EUR Recommended Rate will be deemed to be references to the last provided or published EUR Recommended Rate. However, if there is no last provided or published EUR Recommended Rate, then in respect of any day for which the EUR Recommended Rate is required, references to the EUR Recommended Rate will be deemed to be references to the last provided or published €STR.

(iii) No EUR Recommended Rate or Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to EUR Recommended Rate.

If:

(a) there is no EUR Recommended Rate before the end of the first T2 Settlement Day following the Applicable Fallback Effective Date with respect to €STR; or

(b) there is a EUR Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it,

then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to €STR or the Applicable Fallback Effective Date with respect to the EUR Recommended Rate (as applicable) will be Modified EDFR.

(iv) References to EDFR. In respect of any day for which EDFR is required, references to EDFR will be deemed to be references to the last provided or published EDFR as at close of business in Frankfurt on that day.

Where:

"€STR" means the euro short-term rate (€STR) administered by the European Central Bank (or any successor administrator).

"EDFR" means, in respect of any relevant day (including any day "i"), the rate on the deposit facility, which banks may use to make overnight deposits with the Eurosystem, in respect of that day.

"EDFR Spread" means

(i) if no EUR Recommended Rate is recommended before the end of the first T2 Business Day following the Applicable Fallback Effective Date with respect to €STR, the arithmetic mean of the daily difference between the €STR and the EDFR for each of the 30 T2 Business Days immediately preceding the date on which the €STR Index Cessation Event or the Administrator/Benchmark Event occurred; or

(ii) if a EUR Recommended Rate Index Event occurs, the arithmetic mean of the daily difference between the EUR Recommended Rate and the EDFR for each of the 30 T2 Business Days immediately preceding the date on which the EUR Recommended Rate Index Event occurred.

"EUR Recommended Rate" means, in respect of any relevant day (including any day "i"), the rate (inclusive of any spreads or adjustments) recommended as the replacement for €STR by: (i) the European Central Bank (or any successor administrator of €STR); or (ii) a committee officially endorsed or convened by (a) the European Central Bank (or any successor administrator of €STR) and/or (b) the European Securities and Markets Authority, in each case for the purpose of recommending a replacement for €STR (which

rate may be produced by the European Central Bank or another administrator) and as provided by the Administrator of that rate or, if that rate is not provided by the Administrator thereof published by an authorised distributor, in respect of that day.

"Modified EDFR" means, in respect of any relevant day (including any day "i"), a rate equal to EDFR in respect of that day, plus the EDFR Spread.

"T2 Settlement Day" means any day on which the T2 is open for the settlement of payments in Euro.

4.2.3.5.2.2.2 The Major Underlying Benchmark is SARON

(i) If an Index Event with respect to SARON occurs, the rate for a Fixing Day (in all this Condition 4.2.3.5.2.2. as defined in 4.2.3.4 above) occurring on or after the Applicable Fallback Effective Date with respect to SARON will be the NWG Recommended Rate.

(ii) Temporary Non-Publication with respect to NWG Recommended Rate. If there is an NWG Recommended Rate before the end of the first Zurich Business Day following the Applicable Fallback Effective Date with respect to SARON but neither the Administrator nor authorised distributors provide or publish the NWG Recommended Rate, then, subject to paragraph (iii) below, in respect of any day for which the NWG Recommended Rate is required, references to the NWG Recommended Rate will be deemed to be references to the last provided or published NWG Recommended Rate. However, if there is no last provided or published NWG Recommended Rate, then in respect of any day for which the NWG Recommended Rate is required, references to the NWG Recommended Rate will be deemed to be references to the last provided or published SARON.

(iii) No NWG Recommended Rate or Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to NWG Recommended Rate.

If:

(a) there is no NWG Recommended Rate before the end of the first Zurich Business Day following the Applicable Fallback Effective Date with respect to SARON; or

(b) there is an NWG Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it,

then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to SARON or the Applicable Fallback Effective Date with respect to the NWG Recommended Rate (as applicable) will be the Modified SNB Policy Rate.

References to the SNB Policy Rate. In respect of any day for which the SNB Policy Rate is required, references to the SNB Policy Rate will be deemed to be references to the last provided or published SNB Policy Rate as at close of business in Zurich on that day.

Where:

"Modified SNB Policy Rate" means, in respect of any relevant day (including any day "i"), a rate equal to the SNB Policy Rate in respect of that day, plus the SNB Spread.

"NWG Recommended Rate" means, in respect of any relevant day (including any day "i"), the rate (inclusive of any spreads or adjustments) recommended as the replacement for SARON by any working group or committee in Switzerland organized in the same or a similar manner as the National Working Group on Swiss Franc Reference Rates that was founded in 2013 for the purpose of, among other things, considering proposals to reform reference interest rates in Switzerland, and as provided by the Administrator of that rate or, if that rate is not provided by the Administrator thereof, published by an authorised distributor, in respect of that day.

"SARON" means the Swiss Average Rate Overnight administered by SIX Swiss Exchange AG (or any successor administrator).

"SNB Policy Rate" means, in respect of any relevant day (including any day "i"), the policy rate of the Swiss National Bank, in respect of that day.

"SNB Spread" means:

(i) if no NWG Recommended Rate is recommended before the end of the first Zurich Business Day following the CHF Fallback Effective Date, the historical median between SARON and the SNB Policy Rate over an observation period of two years starting two years prior to the day on which the CHF Fallback Trigger Date occurs and ending on the Zurich Business Day immediately preceding the day on which the CHF Fallback Trigger Date occurs; or

(ii) if an Index Cessation Event or Administrator/Benchmark Event with respect to the NWG Recommended Rate occurs, the historical median between the NWG Recommended Rate (or, in the absence of the NWG Recommended Rate, SARON) and the SNB Policy Rate over an observation period of two years starting two years prior to the day on which the Index Cessation Event or Administrator/Benchmark Event with respect to the NWG Recommended Rate occurs and ending on the Zurich Business Day immediately preceding the day on which the Index Cessation Event or Administrator/Benchmark Event with respect to the NWG Recommended Rate occurs, in each case, as determined by the Calculation Agent,

where:

"CHF Fallback Effective Date" means the Applicable Fallback Effective Date with respect to SARON; and

"CHF Fallback Trigger Date" means the day on which the Index Cessation Event or Administrator/Benchmark Event with respect to SARON occurs

"Zürich Business Day" means a day on which commercial banks and foreign exchange markets are open for general business (including settling payments and dealings in foreign exchange and foreign currency deposits) in Zürich.

4.2.3.5.2.2.3 The Major Underlying Benchmark is SOFR

(i) If an Index Event with respect to SOFR occurs, the rate for a Fixing Day (in all this Condition 4.2.3.5.2.2.3 as defined in 4.2.3.4 above) occurring on or after the Applicable Fallback Effective Date with respect to SOFR will be the Fed Recommended Rate.

(ii) Temporary Non-Publication with respect to Fed Recommended Rate. If there is a Fed Recommended Rate before the end of the first U.S. Government Securities Business Day following the Applicable Fallback Effective Date with respect to SOFR but neither the Administrator nor authorised distributors provide or publish the Fed Recommended Rate, then, subject to paragraph (iii) below, in respect of any day for which the Fed Recommended Rate is required, references to the Fed Recommended Rate will be deemed to be references to the last provided or published Fed Recommended Rate. However, if there is no last provided or published Fed Recommended Rate, then in respect of any day for which the Fed Recommended Rate is required, references to the Fed Recommended Rate will be deemed to be references to the last provided or published SOFR.

(iii) No Fed Recommended Rate or Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to Fed Recommended Rate.

If:

(a) there is no Fed Recommended Rate before the end of the first U.S. Government Securities Business Day following the Applicable Fallback Effective Date with respect to SOFR; or

(b) there is a Fed Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it,

then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to SOFR or the Applicable Fallback Effective Date with respect to the Fed Recommended Rate (as applicable) will be OBFR and references to a U.S. Government Securities Business Day for the purposes of any Fixing Day and any Applicable Business Day shall be read as references to a New York Fed Business Day.

(iv) Temporary Non-Publication with respect to OBFR. If neither the Administrator nor authorised distributors provide or publish OBFR, then, subject to paragraph (v) below, in respect of any day for which OBFR is required, references to OBFR will be deemed to be references to the last provided or published OBFR.

(v) Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to OBFR.

If:
(a) there is no Fed Recommended Rate before the end of the first U.S. Government Securities Business Day following the Applicable Fallback Effective Date with respect to SOFR, or there is a Fed Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it; and

(b) an Applicable Fallback Effective Date with respect to OBFR also occurs, then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to OBFR (or, if the Applicable Fallback Effective Date with respect to SOFR or the Applicable Fallback Effective Date with respect to the Fed Recommended Rate (as applicable) is later, a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to SOFR or the Fed Recommended Rate, as applicable) will be the FOMC Target Rate and references to a U.S. Government Securities Business Day for the purposes of any Fixing Day and any Applicable Business Day shall be read as references to a New York City Business Day.

(vi) References to the FOMC Target Rate. In respect of any day for which the FOMC Target Rate is required, references to the FOMC Target Rate will be deemed to be references to the last provided or published FOMC Target Rate as at close of business in New York City on that day.

Where:

"Fed Recommended Rate" means, in respect of any relevant day (including any day "i"), the rate (inclusive of any spreads or adjustments) recommended as the replacement for SOFR by the Federal Reserve Board or the Federal Reserve Bank of New York, or by a committee officially endorsed or convened by the Federal Reserve Board or the Federal Reserve Bank of New York for the purpose of recommending a replacement for SOFR (which rate may be produced by the Federal Reserve Bank of New York or another administrator) and as provided by the Administrator of that rate or, if that rate is not provided by the Administrator thereof, published by an authorised distributor, in respect of that day.

"FOMC Target Rate" means, in respect of any relevant day (including any day "i"), the short term interest rate target set by the Federal Open Market Committee or, if the Federal Open Market Committee does not target a single rate, the mid-point of the short-term interest rate target range set by the Federal Open Market Committee (calculated as the arithmetic average of the upper bound of the target range and the lower bound of the target range, rounded, if necessary, in accordance with the method set forth in Section 4.8.2 (Rounding of Amounts)), in respect of that day.

"New York City Business Day" means a day on which commercial banks and foreign exchange markets are open for general business (including settling payments and dealings in foreign exchange and foreign currency deposits) in New York.

"New York Fed Business Day" means any day except for a Saturday, Sunday or a day on which the Fedwire Securities Service or the Fedwire Funds Service of the Federal Reserve Bank of New York is closed. References in the Confirmation to "New York Fed" in respect of any day shall be construed as a reference to a New York Fed Business Day.

"OBFR" means, in respect of any relevant day (including any day "i"), the Overnight Bank Funding Rate administered by the Federal Reserve Bank of New York (or a successor administrator), in respect of that day.

"SOFR" means the Secured Overnight Financing Rate administered by the Federal Reserve Bank of New York (or any successor administrator).

"U.S. Government Securities Business Day" means any day except for a Saturday, Sunday or a day on which The Securities Industry and Financial Markets Association (or a successor) recommends that the fixed income departments of its members be closed for the entire day for the purpose of trading in U.S. government securities.

4.2.3.5.2.2.4 The Major Underlying Benchmark is SONIA

(i) If an Index Event with respect to SONIA occurs, the rate for a Fixing Day (in all this Condition 4.2.3.5.2.2.4 as defined in 4.2.3.4 above) occurring on or after the Applicable Fallback Effective Date with respect to SONIA will be the GBP Recommended Rate.

(ii) Temporary Non-Publication with respect to GBP Recommended Rate. If there is a GBP Recommended Rate before the end of the first London Business Day following the Applicable Fallback Effective Date with respect to SONIA but neither the Administrator nor authorised distributors provide or publish the GBP Recommended Rate, then, subject to paragraph (iii) below, in respect of any day for which the GBP Recommended Rate is required, references to the GBP Recommended Rate will be deemed to be references to the last provided or published GBP Recommended Rate. However, if there is no last provided or published GBP Recommended Rate, then in respect of any day for which the GBP Recommended Rate is required, references to the GBP Recommended Rate will be deemed to be references to the last provided or published SONIA.

(iii) No GBP Recommended Rate or Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to GBP Recommended Rate.

If:

(a) there is no GBP Recommended Rate before the end of the first London Business Day following the Applicable Fallback Effective Date with respect to SONIA; or

(b) there is a GBP Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it,

then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to SONIA or the Applicable Fallback Effective Date with respect to the GBP Recommended Rate (as applicable) will be the UK Bank Rate.

4. References to the UK Bank Rate. In respect of any day for which the UK Bank Rate is required, references to the UK Bank Rate will be deemed to be references to the last provided or published UK Bank Rate as at close of business in London on that day.

Where:

"GBP Recommended Rate" means, in respect of any relevant day (including any day "i"), the rate (inclusive of any spreads or adjustments) recommended as the replacement for SONIA by (i) the administrator of SONIA if the administrator of SONIA is a national central bank, or (ii) if the national central bank administrator of SONIA does not make a recommendation or the administrator of SONIA is not a national central bank, a committee designated for this purpose by one or both of the Financial Conduct Authority (or any successor thereto) and the Bank of England and as provided by the then Administrator of that rate or, if that rate is not provided by the Administrator thereof, published by an authorised distributor, in respect of that day.

"London Business Day" means a day on which commercial banks and foreign exchange markets are open for general business (including settling payments and dealings in foreign exchange and foreign currency deposits) in London.

"SONIA" means the Sterling Overnight Index Average rate administered by the Bank of England (or any successor administrator).

"UK Bank Rate" means, in respect of any relevant day (including any day "i"), the official bank rate as determined by the Monetary Policy Committee of the Bank of England and published by the Bank of England from time to time, in effect on that day.

4.2.3.5.2.2.5 The Major Underlying Benchmark is TONA

(i) If an Index Cessation Event or Administrator/Benchmark Event with respect to TONA occurs, the rate for a Fixing Day (in all this Condition 4.2.3.5.2.2.5 as defined in 4.2.3.4 above) occurring on or after the Applicable Fallback Effective Date with respect to TONA will be the JPY Recommended Rate.

(ii) Temporary Non-Publication with respect to JPY Recommended Rate. If there is a JPY Recommended Rate before the end of the first Tokyo Business Day following the Applicable Fallback Effective Date with respect to TONA but neither the Administrator nor

authorised distributors provide or publish the JPY Recommended Rate, then, subject to paragraph (iii) below, in respect of any day for which the JPY Recommended Rate is required, references to the JPY Recommended Rate will be deemed to be references to the last provided or published JPY Recommended Rate. However, if there is no last provided or published JPY Recommended Rate, then in respect of any day for which the JPY Recommended Rate is required, references to the JPY Recommended Rate will be deemed to be references to the last provided or published TONA.

(iii) No JPY Recommended Rate or Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to JPY Recommended Rate.

If:

(a) there is no JPY Recommended Rate before the end of the first Tokyo Business Day following the Applicable Fallback Effective Date with respect to TONA; or

(b) there is a JPY Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it,

then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to TONA or the JPY Recommended Rate (as applicable) will be determined in accordance with the provisions of Condition 4.2.3.5.2.3 below.

"JPY Recommended Rate" means, in respect of any relevant day (including any day "i"), the rate (inclusive of any spreads or adjustments) recommended as the replacement for TONA by a committee officially endorsed or convened by the Bank of Japan for the purpose of recommending a replacement for TONA (which rate may be produced by the Bank of Japan or another administrator) and as provided by the Administrator of that rate or, if that rate is not provided by the Administrator thereof, published by an authorised distributor, in respect of that day.

"Tokyo Business Day" means a day on which commercial banks and foreign exchange markets are open for general business (including settling payments and dealings in foreign exchange and foreign currency deposits) in Tokyo.

Any rate determined pursuant to the provisions of Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5 shall be determined by the Calculation Agent.

4.2.3.5.2.3

(A) This provision applies if an Index Event occurs in respect of a Reference Rate or Underlying Benchmark and:

- ISDA Determination applies pursuant to 4.2.3.1 but the Floating Rate Option specified in the Final Terms is not a Floating Rate Option of the ISDA Matrix; or
- Standard Screen Rate Determination applies pursuant to 4.2.3.2 above but the Underlying Benchmark is not a Major Underlying Benchmark; or
- Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination applies pursuant to paragraph 4.2.3.3. above but the Underlying Benchmark is not a Major Underlying Benchmark;
- this Condition 4.2.3.5.2.3 applies pursuant to Condition 4.2.3.5.2.2.5 above, or
- this Condition 4.2.3.5.2.3 applies pursuant to Condition 4.2.4,

then the Issuer shall use its reasonable endeavours to appoint a Rate Determination Agent, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with paragraph (B) below) and, in either case, an Adjustment Spread if any (in accordance with paragraph (C) below) and any Conforming Changes (in accordance with Condition 4.2.3.6 below).

A Rate Determination Agent appointed pursuant to this Condition shall act in good faith in a commercially reasonable manner as an expert and in consultation with the Issuer. In the absence of bad faith or fraud, the Rate Determination Agent shall have no liability whatsoever to the Issuer, the Paying Agents, the Noteholders or the Couponholders for any determination made by it, pursuant to this Condition.

(B) Successor Rate or Alternative Rate

If the Rate Determination Agent determines that:

(i) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in (C) below) subsequently be used in place of the Original Reference Rate or Original Underlying Benchmark (as the case may be) to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 4.2.3.5.2.3); or

(ii) there is no Successor Rate but there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in (C) below) subsequently be used in place of the Original Reference Rate or Original Underlying Benchmark (as the case may be) to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 4.2.3.5.2.3).

(C) Adjustment Spread

If an Index Cessation or an Administrator/Benchmark Event has occurred in respect of a Reference Rate or an Underlying Benchmark, and the Calculation Agent in respect of any rate determined pursuant to Condition 4.2.3.5.2.2.1. to Condition 4.2.3.5.2.2.5 or the Rate Determination Agent in respect of a Successor Rate or Alternative Rate determines (i) that an Adjustment Spread is required to be applied to any rate determined pursuant to the provisions of Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5, the Successor Rate or the Alternative Rate (as the case may be) and (ii) the quantum of, or a formula or methodology for determining such Adjustment Spread, then such Adjustment Spread shall be applied to any rate determined pursuant to the provisions of Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5, the Successor Rate or the Alternative Rate (as the case may be).

Provided however that:

(y) if an Index Event has occurred but the Applicable Fallback Effective Date has not occurred as determined by the Calculation Agent, then the Reference Rate or the Underlying Benchmark for the Affected Interest Period shall be determined pursuant to the provisions that would apply to the determination of the Reference Rate or Underlying Benchmark as if no Index Event had occurred;

and

(z) if the Index Event has occurred but the Applicable Fallback Effective Date has not occurred as determined by the Calculation Agent, and if the Reference Rate or the Underlying Benchmark specified in the applicable Final Terms affected by the Index Event and used to determine the Rate of Interest of an Interest Period is a Term Rate determined before or at the beginning of such Interest Period and pursuant to the application of the provisions above, it will be replaced by a Successor Rate or an Alternative Rate to be determined at the end or just after the end of an Interest Period as the result of the compounding or averaging of an overnight rate, as observed on dates during a period starting on or before the beginning of the Interest Period, as the case may be plus an Adjustment Spread, then the Successor Rate or Alternative Rate shall be used as from the Affected Interest Period and determined at the end or just after such Affected Interest Period.

"Term Rate" means a benchmark that reflects the rate of return in the relevant market for one or more specified periods of time, with the relevant period of time to be specified in the Final Terms as the Designated Maturity or as part of the Floating Rate Option.

If, in respect of Eligible Notes only, the Issuer determines that the replacement of the Reference Rate or Underlying Benchmark with the Replacement Rate and/or any Adjustment Spread and/or any Conforming Changes (as the case may be): (x) would result in the aggregate nominal amount of the Notes being fully or partially excluded from the eligible liabilities available to meet the MREL Requirements (as called or defined by the then applicable laws and regulations or MREL criteria applicable to the Issuer) and hence can trigger a MREL Disqualification Event or (y) could reasonably result in the Relevant Resolution Authority treating any future Interest Payment Date as the effective maturity of the Notes, rather than the relevant Maturity Date (for example if the switch to the Replacement Rate would create an incentive to redeem the Notes inconsistent to maintain the regulatory status of Eligible Notes),then the Issuer may decide that no Successor Rate or Alternative Rate, will be adopted and the Reference Rate applicable to the next succeeding Interest Period will be equal to the latest available Reference Rate (based on the sequence of levels of Underlying Benchmark available to determine such latest available Reference Rate, as the case may be).

If (i) the Issuer is unable to appoint a Rate Determination Agent or (ii) neither the Calculation Agent is able to determine a rate pursuant to Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5 nor the Rate Determination Agent appointed by it is able to determine a Successor Rate or an Alternative Rate prior to the relevant Interest Determination Date then the Issuer may decide either that (x) that no Replacement Rate will be adopted and the Reference Rate applicable to the next succeeding Interest Period will be equal to the latest available Reference Rate (based on the sequence of levels of Underlying Benchmark available to determine such latest available Reference Rate, as the case may be) or (y) to apply the provisions of Condition 6.2.2..

4.2.3.6 Conforming Changes

Following the occurrence of an Index Event, the Calculation Agent may make any technical, administrative or operational changes (including without limitation, changes to the determination dates, timing and frequency of determining rates and making payments, rounding of amounts or tenors, the introduction or modification of any time delay or lag between the calculation or observation period of a rate and the related payment dates, the application of a mathematical formula to the Reference Rate or Underlying Benchmark and other administrative matters) that the Calculation Agent decides may be appropriate to reflect the change of Reference Rate or Underlying Benchmark by the Replacement Rate in a manner substantially consistent with the prevailing market practice (or, if the Calculation Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Calculation Agent determines that no market practice for use of the Replacement Rate exists, in such other manner as the Calculation Agent determines is reasonably necessary) and/or in order to adapt solutions provided by the 2021 ISDA Definitions and the ISDA Matrix that are designed for the OTC transactions to the context of the Notes (the "**Conforming Changes**").

These conforming changes shall be binding upon the Noteholders.

(A) Notices

Any Replacement Rate, Adjustment Spread (if any) and Conforming Changes (if any) determined under this Condition 4.2.3. will be notified promptly by the Issuer, after receiving such information from the Rate Determination Agent or the Calculation Agent, to the Principal Paying Agent, the Calculation Agent, the Paying Agents and, in accordance with Condition 13, the Noteholders and the Couponholders.

Such notice shall be irrevocable and shall specify the effective date of the Conforming Changes, if any.

Any Replacement Rate, Adjustment Spread (if any) and the Conforming Changes (if any) specified in such notice, will (in the absence of manifest error or bad faith in the determination of the Replacement Rate, the Adjustment Spread (if any) and the Conforming Changes (if any) be final and binding on the Issuer, the Principal Paying Agent, the Calculation Agent, the Paying Agents, the Noteholders and the Couponholders.

(B) Survival of Original Reference Rate

Without prejudice to the obligations of the Issuer under Conditions 4.2.3.5.2.3 and 4.2.3.6, the Original Reference Rate with its Original Underlying Benchmark will continue to apply unless and until these priority fallback provisions fail to provide a means of determining the Rate of Interest.

4.2.3.7 Definitions:

"Adjustment Spread" means the adjustment, if any, to a Replacement Rate that the Calculation Agent determines is required in order to reduce or eliminate, to the extent reasonably practicable, any transfer of economic value from (a) the Issuer to the Noteholders or (b) the Noteholders to the Issuer, in each case that would otherwise arise as a result of the replacement of the Reference Rate or Underlying Benchmark with the Replacement Rate.
Any such adjustment may take account of, without limitation, any anticipated transfer of economic value as a result of any difference in the term structure or tenor of the Replacement Rate by comparison to the Original Reference Rate or Original Underlying Benchmark. The Adjustment Spread may be positive, negative or zero or determined pursuant to a formula or methodology.

"Administrator" means, in respect of a Reference Rate or an Underlying Benchmark, the administrator for that Reference Rate or Underlying Benchmark or, if there is no administrator, the provider of that Reference Rate or Underlying Benchmark; or in either case, any successor administrator or, as applicable, any successor administrator or provider.

"Administrator/Benchmark Event" means, for a Reference Rate or an Underlying Benchmark, any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the Reference Rate or an Underlying Benchmark or the administrator or sponsor of the Reference Rate or an Underlying Benchmark has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that either the Issuer, the Calculation Agent or any other entity is not, or will not be, permitted under any applicable law or regulation to use the Reference Rate or the Underlying Benchmark to perform its or their respective obligations under the Notes.

"Administrator/Benchmark Event Date" means, in respect of a Reference Rate or an Administrator/Benchmark Event, the date from which the Reference Rate or Underlying Benchmark may no longer be used under any applicable law or regulation by the Issuer, the Guarantor and/or the Calculation Agent.

"Alternative Rate" means an alternative screen reference rate or underlying benchmark which the Rate Determination Agent determines in accordance with this Condition in the same Specified Currency as the Notes to replace the Reference Rate or Underlying Benchmark) which is recognised or acknowledged as being the industry standard replacement for over-the-counter derivative transactions which reference such Reference Rate or Underlying Benchmark (which recognition or acknowledgment may be in the form of a press release, a member announcement, member advice, letter, protocol, publication of standard terms or otherwise by ISDA) or that the Calculation Agent determines to be a commercially reasonable alternative for such Reference Rate or Underlying Benchmark

"Applicable Fallback Effective Date" means the Index Cessation Effective Date or the Administrator/Benchmark Event Date.

"Independent Adviser" means an independent financial institution of recognised standing or an independent financial adviser with appropriate expertise appointed by the Issuer at its own expense.

"Index Cessation Effective Date" means:

1. the first date on which the Reference Rate or Underlying Benchmark, would ordinarily have been published or provided and is no longer published or provided; or
2. the first date on which the Applicable Benchmark would ordinarily have been published or provided and is either:

(a) non-representative by reference to the most recent statement or publication contemplated in paragraph (iii) of the definition of Index Cessation Event and even if such Underlying Benchmark continues to be published or provided on such date; or

(b) no longer published or provided.

"Index Cessation Event" means, for a Reference Rate or an Underlying Benchmark, the occurrence of one or more of the following events:

(i) a public statement or publication of information by or on behalf of the administrator of the Reference Rate or Underlying Benchmark announcing that it has ceased or will cease to provide the Reference Rate or the Underlying Benchmark permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator or provider, as applicable, that will continue to provide the Reference Rate or Underlying Benchmark;

(ii) a public statement or publication of information by the regulatory supervisor for the administrator of the Reference Rate or Underlying Benchmark, the central bank for the currency of the Reference Rate, an insolvency official with jurisdiction over the

administrator for the Reference Rate or Underlying Benchmark, a resolution authority with jurisdiction over the administrator for the Reference Rate or Underlying Benchmark or a court or an entity with similar insolvency or resolution authority over the administrator for the Reference Rate or Underlying Benchmark, which states that the administrator of the Reference Rate or Underlying Benchmark has ceased or will cease to provide the Reference Rate or Underlying Benchmark permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator or provider, as applicable, that will continue to provide the Reference Rate or Underlying Benchmark; or

(iii) in respect of a Reference Rate or Underlying Benchmark, a public statement or publication of information by the regulatory supervisor for the administrator of such Reference Rate or Underlying Benchmark announcing that (a) the regulatory supervisor has determined that such Reference Rate or Underlying Benchmark is no longer, or as of a specified future date will no longer be, representative of the underlying market and economic reality that such Reference Rate or Underlying Benchmark is intended to measure and that representativeness will not be restored and (b) it is being made in the awareness that the statement or publication will engage certain contractual triggers for fallbacks activated by pre-cessation announcements by such supervisor (howsoever described) in contracts.

If, for a Reference Rate or Underlying Benchmark, (i) an event or circumstance which would otherwise constitute or give rise to an Administrator/Benchmark Event also constitutes an Index Cessation Event or (ii) an Index Cessation Event and an Administrator/Benchmark Event would otherwise be continuing at the same time, it will in either case constitute an Index Cessation Event and will not constitute or give rise to an Administrator/Benchmark Event.

"Index Event" means:

(i) an Index Cessation Event;

(ii) an Administrator/Benchmark Event; or

(iii) a Reference Rate or an Underlying Benchmark is, with respect to over-the-counter derivatives transactions which reference such Underlying Benchmark or Reference Rate, the subject of any market-wide development (which may be in the form of a protocol by ISDA) pursuant to which such Reference Rate or Underlying Benchmark is, on a specified date (the **"Risk-Free Rate Event Date"**), replaced with a risk-free rate (or near risk-free rate) established in order to comply with the recommendations in the Financial Stability Board's paper titled "Reforming Major Interest Rate Benchmarks" dated 22 July 2014.

"Original Reference Rate" means the original Reference Rate or screen rate (as applicable) used to determine the Rate of Interest (or any component part thereof) on the Notes as specified in the Final Terms.

"Original Underlying Benchmark" means in respect of an Original Reference Rate the Underlying Benchmark of such Original Reference Rate.

"Rate Determination Agent" means an agent appointed by the Issuer which may be (i) an Independent Adviser, (ii) a leading bank or a broker-dealer in the principal financial centre of the Specified Currency (which may include one of the Dealers involved in the issue of the Notes) as appointed by the Issuer, (iii) the Issuer, (iv) an affiliate of the Issuer or (v) the Calculation Agent, accepting such role;

"Relevant Nominating Body" means, in respect of a Reference Rate or Underlying Benchmark:

(i) the central bank for the currency in which the Reference Rate or Underlying Benchmark is denominated or any central bank or other supervisor which is responsible for supervising either the Reference Rate or Underlying Benchmark or the administrator of the Reference Rate or Underlying Benchmark; or

(ii) any working group or committee officially endorsed or convened by (A) the central bank for the currency in which the Reference Rate or Underlying Benchmark is denominated, (B) any central bank or other supervisor which is responsible for supervising either the Reference Rate or Underlying Benchmark or the administrator of the Reference Rate or Underlying Benchmark, (C) a group of those central banks or other supervisors or (D) the Financial Stability Board or any part thereof.

"Relevant Screen Page" means such display page as may be specified in the applicable Final Terms for the purpose of providing a Reference Rate or Underlying Benchmark, or (i) any successor display page, other published source, information vendor or provider that has been officially designated by the sponsor of the original display page or (ii) if the sponsor has not officially designated a successor display page, other published source, information vendor or provider (as the case may be), the successor display page, other published source, information vendor or provider, if any, designated by the relevant information vendor or provider (if different from the sponsor).

"Replacement Rate" means any rate determined by the Calculation Agent pursuant to Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5 or Successor Rate or Alternative Rate determined by the Rate Determination Agent.

"Successor Rate" means an alternative screen rate or underlying benchmark which the Rate Determination Agent determines in accordance with this Condition as a successor to or replacement of the Original Reference Rate or Original Underlying Benchmark which is formally designated, nominated or recommended by any Relevant Nominating Body.

4.2.3.8 Reference Rate Disruption Event

In relation to a Reference Rate published by a Central Bank or governmental agency and deemed to replicate the yield of a theoretical government bond with a defined maturity (such as, but not limited to, the TEC10 rate for French Obligation assimilables du Trésor (OAT) and the Treasury Constant Maturity (TCM) for U.S. Treasuries, or any successor thereto), if the Calculation Agent determines that, on or prior to a Valuation Date or Averaging Date, such rate published by its administrator on the relevant source does no longer represent the actual yield of the underlying bond (a **Reference Rate Disruption Event**) (which may occur in connection with, but not limited to, or following any default or potential default of the government issuing such bond or unexpected volatility or illiquidity in markets in trading such bonds);

then the Calculation shall either:

(x) calculate the relevant formula used to determine an amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms using, *in lieu* of a published level for the Reference Rate, the level of such Reference Rate as at the Valuation Time on the relevant Valuation Date or Averaging Date, as determined by the Calculation Agent acting in good faith and a commercially reasonable manner by reference to market prices for the related government bonds with a maturity most closely matching the intended maturity and having regard to pricing sources, methods and models (which may include, without limitation, any available firm or indicative prices for such government bonds or internal valuation or recovery models) as the Calculation Agent considers appropriate;

or;

(y) if the Calculation Agent has not retained (x) above and such Reference Rate Disruption Event is likely to have a material impact on the hedge of Société Generale or one of its affiliates in connection with the Notes: consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and pay or deliver, as the case may be, as soon as possible after the occurrence of the Early Redemption Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions. If such event occurs in respect of a Series of Notes on or after the Issue Date of the first Tranche of the Series of Notes, the Issuer or the Guarantor (as applicable), may by notice to the Principal Paying Agent and to the Noteholders, elect that the Notes shall be redeemed early on the fourteenth (14th) calendar day after the delivery by the Issuer (or the Guarantor, as applicable) of the applicable notice of early redemption (the Early Redemption Date), in accordance with this Condition.

4.2.4 Minimum and/or Maximum Rate of Interest and/or Rate Multiplier and/or Leverage Factor

Subject to the provisions of Condition 4.2.3.1 :

- if the applicable Final Terms specify a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate(s) of Interest in respect of any such Interest Period determined in accordance with the provisions of Condition 4.2.3 is less than such Minimum Rate of Interest, the Rate(s) of Interest for such Interest Period shall be such Minimum Rate of Interest.

- if the applicable Final Terms specify a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate(s) of Interest in respect of any such Interest Period determined in accordance with the provisions of Condition 4.2.3 is greater than such Maximum Rate of Interest, the Rate(s) of Interest for such Interest Period shall be such Maximum Rate of Interest.

- if the applicable Final Terms specify that the rate multiplier (the **Rate Multiplier**) is "n/N" or "
nb/Nb" for any Interest Period, then the Rate(s) of Interest in respect of any such Interest Period shall be multiplied by the relevant Rate Multiplier, subject always to the Minimum Rate of Interest and/or Maximum Rate of Interest as described above.

For the purposes of this Condition 4.2.4:

Administrator means for a Floating Rate Option, the administrator of such Floating Rate Option as specified in the ISDA Matrix.

Benchmark Rate means, in respect of any calendar day (in respect of the definition of n) or, as applicable, Business Day (in respect of the definition of nb) of the relevant Interest Period:

- if the applicable Final Terms specify that the clause "*Benchmark Rate*" is stated as being "Reference Rate EURIBOR":

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions and under which the Floating Rate Option is "EUR-EURIBOR" (as defined in the 2021 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date). If on any Benchmark Day, such rate is not published by the Administrator or an authorised distributor and is not otherwise provided by the Administrator;

- if the applicable Final Terms specify that the clause "*Benchmark Rate*" is stated as being "Reference Rate EUR-CMS":

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions and under which the Floating Rate Option is "EUR-EURIBOR ICE Swap Rate-11:00" (as defined in the 2021 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date);

- if the applicable Final Terms specify that the clause "*Benchmark Rate*" is stated as being "Reference Rate SOFR-CMS ":

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions and under which the Floating Rate Option is "USD-SOFR ICE Swap Rate" (as defined in the 2021 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date);

If on any Benchmark Day, any of these rates is not published by the Administrator or an authorised distributor and is not otherwise provided by the Administrator or if an Index Event has occurred in respect of such rate, it will be determined by the Calculation Agent as aforesaid in accordance with the provisions of the Temporary Non-Publication Fallback or the Permanent Cessation Fallback or Administrator/Benchmark Fallback as the case may be, applying to such Floating Rate Option in the 2021 ISDA Definitions and the ISDA Matrix for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date) provided that if the applicable fallback provision is Generic Fallback Provisions then the rate shall be determined pursuant to the provisions of Condition 4.2.3.5.2.3 above.

For the purposes hereof, (i) the value of the Benchmark Rate on any calendar day of the relevant Interest Period which is not a Benchmark Day shall be deemed to be the value ascribed to the Benchmark Rate on the first preceding Benchmark Day and (ii) the value of the Benchmark Rate on each of the last four T2 Business Days of any Interest Period shall be deemed to be the value ascribed to the Benchmark Rate on the fifth T2 Business Day (or the Benchmark Day immediately preceding such fifth T2 Business Day if such fifth T2 Business Day is not a Benchmark Day) preceding the Interest Payment Date relating to such Interest Period.

Benchmark Day means, if the relevant Benchmark Rate is:

- EUR-EURIBOR or EUR-EURIBOR ICE Swap Rate-11:00, a day (other than a Saturday or Sunday) on which the T2 is operating; and

- USD-SOFR-ICE Swap Rate, a day (other than a Saturday or Sunday) on which banks are open for business in New York.

Leverage Factor means a number specified as such in the applicable Final Terms.

Lower Limit means, in respect of the relevant Interest Period, the limit specified in the applicable Final Terms.

n means the number of calendar days in the relevant Interest Period in respect of which the Benchmark Rate was equal to or greater than the Lower Limit and equal to or lower than the Upper Limit, in each case as determined by the Calculation Agent.

nb means the number of Business Days in the relevant Interest Period in respect of which the Benchmark Rate was equal to or greater than the Lower Limit and equal to or lower than the Upper Limit, in each case as determined by the Calculation Agent.

N means the total number of calendar days within the relevant Interest Period.

Nb means the total number of Business Days within the relevant Interest Period.

Upper Limit means, in respect of the relevant Interest Period, the limit specified in the applicable Final Terms.

4.2.5 Determination of Rate(s) of Interest and Interest Amount in respect of Floating Rate Notes

The Calculation Agent will as soon as practicable after each time at which the Rate(s) of Interest is to be determined, determine the Rate(s) of Interest for the relevant Interest Period.

The Calculation Agent will calculate the Interest Amount payable on the Floating Rate Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated by applying the Rate(s) of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.
Floating Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate(s) of Interest to the Specified Denomination, as detailed in the applicable Final Terms.

4.2.6 Provisions specific to SHIBOR rate

SHIBOR means the Shanghai Interbank Offered Rate as published on http://www.shibor.org, by China Foreign Exchange Trade System & National Interbank Funding Centre under the authorisation of the People's Bank of China, at around 11.30 a.m., Beijing time on each business day, including 8 critical terms, i.e. O/N, 1W, 2W, 1M, 3M, 6M, 9M, 1Y, each representing the rate for the corresponding period.

If the Reference Rate is specified in the applicable Final Terms as SHIBOR, "SHIBOR" will be the rate determined by the Calculation Agent acting by and through its Hong Kong Branch on the following basis:

(i) if, at or around 11:30 a.m. (Beijing time) on the Interest Determination Date, a relevant SHIBOR is published on http://www.shibor.org, then the relevant SHIBOR will be that rate; and for the purposes of these General Terms and Conditions, the relevant SHIBOR means SHIBOR in a critical term corresponding to the relevant Interest Period, and

(ii) if for any reason the relevant SHIBOR is not published in respect of a certain Interest Determination Date, the relevant SHIBOR in respect of the business day immediately preceding that Interest Determination Date shall be applied in place thereof.

4.3 Structured Interest Note Provisions

This Condition applies if the applicable Final Terms, specify that the clause "*Structured Interest Note Provisions*" is stated as being "Applicable".

The applicable Final Terms contain provisions applicable to the determination of the Interest Amount and must be read in conjunction with this Condition 4.3 for full information on the manner in which interest is calculated on Structured Notes. In particular, the applicable Final Terms will specify the Interest Commencement Date, the Interest Payment Date(s), the Structured Interest Amount(s), the Business Day Convention and, if applicable, the relevant Day Count Fraction.

4.3.1 Structured Interest Amount(s)

The Structured Interest Amount payable in respect of the Structured Notes shall be determined as follows:

Structured Interest Amount = Specified Denomination multiplied by the Product Formula described in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in the applicable Final Terms.

For the purpose of this Condition:

Product Formula and **Reference of the Product** shall have the meaning given to them, respectively, in the Additional Terms and Conditions relating to Formulae.

4.3.2 Calculation of Interest Amount in respect of Structured Notes

The Calculation Agent will at or as soon as practicable after each time at which the Interest Amount is to be calculated, calculate the Interest Amount for the relevant Interest Period. The Calculation Agent will notify the Principal Paying Agent of the Interest Amount for the relevant Interest Period as soon as practicable after calculating the same (but in no event later than the first Business Day after such calculation).

The Calculation Agent will calculate the Interest Amount payable on the Structured Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated in accordance with the Product Formula as specified in the applicable Final Terms, multiplying such amount by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Structured Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Structured Interest Amount to the Specified Denomination, as detailed in the applicable Final Terms.

4.4 Zero Coupon Notes

This Condition applies if the applicable Final Terms specify that the clause "*Zero Coupon Notes Provisions*" is "Applicable".

The applicable Final Terms will specify the accrual yield (the **Accrual Yield**), the reference price (the **Reference Price**) and the Day Count Fraction in relation to Early Redemption Amounts, Optional Redemption Amounts and late payment (pursuant to the provisions of Conditions 6.3 , 6.1.3.1, 6.1.3.7 and 4.7.2).

Where a Zero Coupon Note becomes due and repayable and is not paid when due and the amount due and repayable is the **Amortised Face Amount**, it shall be an amount equal to the sum of:

(A) the Reference Price; and

(B) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and notified in accordance with Condition 13, mutatis mutandis.

For the avoidance of doubt, as a result of the daily compounding of the Accrual Yield, the amount repaid at Redemption is determined in accordance with the following formula: Reference Price × (1 + Accrual Yield)^Day Count Fraction. This formula corresponds to the Reference Price multiplied by the result of applying an exponential function to the Day Count Fraction, with a base equal to one increased by the Accrual Yield.
With Day Count Fraction as defined in Condition 4.7.2 for an accrual period from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and notified in accordance with Condition 13, *mutatis mutandis*.

4.5 Partly Paid Notes

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes.

4.6 Accrual of Interest

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if applicable) from the due date for its redemption unless payment of principal (or, in the case of any Physical Delivery Note, transfer of the Deliverable Asset(s) in respect of the Physical Delivery Amount) is improperly withheld or refused (provided that, in the case of any Physical Delivery Amount, transfer shall not be deemed to have been improperly withheld or refused where such transfer is delayed by reason of circumstances beyond the control of the relevant Issuer or any of its Agents). In such event, interest will continue to be calculated and to accrue until whichever is the earlier of:

(1) the date on which all amounts due in respect of such Note have been paid; and

(2) five days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Principal Paying Agent and notice to that effect has been given to the Noteholders in accordance with Condition 13.

4.7 Certain provisions relating to the calculation of interest

4.7.1 Business Day Convention

If (x) there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or if (y) any Interest Payment Date would otherwise fall on a day which is not a Business Day, the Interest Payment Date(s) (or other date(s)) shall be the day determined by using a Business Day Convention in accordance with the provisions of Conditions 4.7.1.1, 4.7.1.2, 4.7.1.3 or 4.7.1.4 below.

Business Day Convention means a business day convention which may be either Floating Rate Convention, Following Business Day Convention, Modified Following Business Day Convention or Preceding Business Day Convention, as specified in the applicable Final Terms.

For the purposes of these General Terms and Conditions:

Business Centre(s) means the business centre(s) specified in the applicable Final Terms.

Business Day means a day which is both:

1) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in any Business Centre(s) specified in the applicable Final Terms; and

2) either (x) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in the principal financial centre(s) of the country of the relevant Specified Currency (if other than any Business Centre(s) and which, if the Specified Currency is Australian Dollar, shall be Sydney, if the Specified Currency is Canadian Dollar, shall be Montreal and, if the Specified Currency is Renminbi, shall be Hong Kong) or (y) in relation to any sum payable in euro, a T2 Business Day).

T2 Business Day means a day on which the T2 is open.

T2 means the real time gross settlement system operated by the Eurosystem or any successor or replacement for that system.

4.7.1.1 If the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Floating Rate Convention**", in any case where Specified Periods are specified in accordance with Condition 4.2.1(2), then such Interest Payment Date (a) in the case of Condition 4.7.1(x) above, shall be the last day that is a Business Day in the relevant month and the provisions of Condition 4.7.1.2 below shall apply mutatis mutandis or (b) in the case of Condition 4.7.1(y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (i) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (ii) each subsequent Interest Payment Date shall be the last Business Day in the month which falls within the Specified Period after the preceding applicable Interest Payment Date occurred; or

4.7.1.2 if the applicable Final Terms specify that the clause "Business Day Convention" is stated as being "Following **Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day; or

4.7.1.3 if the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Modified Following Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day; or

4.7.1.4 if the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Preceding Business Day Convention**", such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day.

4.7.1.5 Notwithstanding the provisions of Conditions 4.7.1.1, 4.7.1.2, 4.7.1.3 or 4.7.1.4 above, where the applicable Final Terms specify that the relevant Business Day Convention is to be applied on an "**unadjusted**" basis, the Interest Amount payable on any date shall not be affected by the application of such Business Day Convention.

4.7.2 Day Count Fraction

Day Count Fraction means, if specified as being "Applicable" in the applicable Final Terms, in respect of the calculation of an Interest Amount for any Interest Period, each of the following day count fractions (provided that the Day Count Fraction applicable to Floating Rate Notes denominated in euro shall be Actual/360):

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**Actual/Actual (ICMA)**":

(a) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the **Accrual Period**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (I) the number of days in such Determination Period and (II) the number of Determination Dates (as specified in the applicable Final Terms or, if none is so specified, the Interest Payment Date, the **Determination Dates** and each a **Determination Date**) that would occur in one calendar year; or

(b) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:

(i) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and

(ii) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "1/1", 1 ;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being **"30/360 convention"** and the Notes are Fixed Rate Notes:

the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**Actual/Actual (ISDA)**" or "**Actual/Actual**":

the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (I) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (II) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**Actual/365 (Fixed)**", the actual number of days in the Interest Period divided by 365;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**Actual/365 (Sterling)**", the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**Actual/360**", the actual number of days in the Interest Period divided by 360;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**30/360 convention**, **360/360 convention**" or "**Bond Basis**" and the Notes are variable rate Notes, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction = ([360 × (Y2- Y1)] + [30 × (M2 - M1)] + (D2 - D1)) / 360

where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;

Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D1 is greater than 29, in which case D2 will be 30;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**30E/360 convention**" or "**Eurobond Basis**", the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction = ([360 × (Y2- Y1)] + [30 × (M2 - M1)] + (D2 - D1)) / 360

where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;

Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D2 will be 30;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being **30E/360 (ISDA)** is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction = ([360 × (Y2- Y1)] + [30 × (M2 - M1)] + (D2 - D1)) / 360

where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;
Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D2 will be 30.

4.7.3 Other definitions relating to the calculation of interest

Determination Period means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date).

Interest Commencement Date means the date from which a Note accrues interest (as specified in the applicable Final Terms). If no Interest Commencement Date is specified in the applicable Final Terms, the Issue Date shall be deemed to be the Interest Commencement Date.

Interest Period means, unless otherwise specified in the applicable Final Terms, the period beginning on (and including) the Interest Commencement Date and ending on (but excluding) the first Interest Payment Date and each successive period beginning on (and including) an Interest Payment Date and ending on (but excluding) the next Interest Payment Date or such other period as is specified in the applicable Final Terms.

Interest Rate(i-1) means, in respect of an Interest Period, the Rate of Interest determined by the Calculation Agent in respect of the immediately preceding Interest Period.

Issue Date means the date specified as such in the applicable Final Terms. On the Issue Date, the relevant clearing systems debit and credit accounts in accordance with instructions received by them.

sub-unit means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent.

4.8 Rounding generally

In connection with the calculation of any amount payable in respect of the Notes (including, without limitation, interest) and unless otherwise provided in these General Terms and Conditions, such amounts will, if necessary, be rounded to the nearest sub-unit (as

defined above) of the relevant Specified Currency, half of any such sub-unit being rounded upwards. Provided that, in connection with any amount payable in Japanese Yen ("JPY"), such amount shall be rounded up to the nearest integer.

4.9 Notification of Interest Amount

The Calculation Agent will cause, as the case may be, the Adjusted Fixed Rate Interest Amount or the Rate(s) of Interest and/or the Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Guarantor (if applicable) and any stock exchange on which the relevant Adjusted Fixed Rate Notes or Floating Rate Notes or Structured Notes are for the time being listed and notice thereof to be published in accordance with Condition 13 as soon as possible after the calculation or determination thereof (provided that, in the case of notification to any stock exchange, such notice will be given by no later than the first day of the relevant Interest Period or, if that is impossible due to the date fixed for such determination or calculation, as soon as practicable on or after such date).

4.10 Certificates to be final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 4, by the Principal Paying Agent or, if applicable, the Calculation Agent, shall (in the absence of wilful default, bad faith, manifest error or proven error) be binding on the Issuer, the Guarantor, the Calculation Agent (if applicable) the other Paying Agents and all Noteholders and (in the absence of wilful default or bad faith) no liability to the Issuer, the Guarantor (if applicable), the Noteholders shall attach to the Principal Paying Agent or, if applicable, the Calculation Agent, in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

5. PAYMENTS AND DELIVERIES

For the purposes of these General Terms and Conditions:

References to "payment" or "repayment" (as the case may be) and other similar expressions will, where the context so admits, be deemed also to refer to delivery of the Deliverable Asset(s) with respect to any Physical Delivery Amount(s).

For the purposes of this Condition:

Bank means a bank in the principal financial centre of the relevant currency or, in the case of euro, in a city in which banks have access to the T2.

5.1 Method of payment

Subject as provided below and, in the case of Physical Delivery Notes, Registered Notes or Uncertificated Notes subject also as provided in the applicable Final Terms:

(1) payments in a Specified Currency (other than euro or Renminbi) will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with, a bank in the principal financial centre(s) of the country of such Specified Currency (which if the Specified Currency is Australian Dollar, shall be Sydney and, if the Specified Currency is Canadian Dollar, shall be Montreal);

(2) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee;

(3) payments in Renminbi shall be made solely by credit to a Renminbi bank account maintained at a bank in Hong Kong in accordance with applicable laws, rules, regulations and guidelines issued from time to time;

(4) in the case of Physical Delivery Notes and subject to Condition 5.19:

(i) transfer of the Deliverable Asset(s) in respect of any Physical Delivery Amount will be effected by the Delivery (a) to, or to the order of, the Noteholder of the relevant Deliverable Asset(s), (b) to, or to the order of, the Noteholder at the risk of the relevant Noteholder in such manner as may be specified in the transfer notice (the **Transfer Notice**, the form of which is annexed to the Agency Agreement) and subject to compliance with applicable securities laws; and

(ii) if the applicable Final Terms specify that "Issuer's *option to vary method of settlement*" is "Applicable", payment will be made pursuant to the provisions of Condition 5.19.2 or where a Settlement Disruption Event has occurred, pursuant to the provisions of Condition 5.19.4.

For the purposes of these General Terms and Conditions:

Deliver means, in respect of any underlying asset, to deliver, novate, transfer (including, where the applicable underlying asset is a guarantee, transfer the benefit of the guarantee), assign or sell, as appropriate, in a manner customary for the settlement of the applicable underlying asset (which shall include executing all necessary documentation and taking any other necessary actions), in order to convey all right, title and interest in the underlying asset free and clear of any and all liens, charges, claims or encumbrances (including, without limitation, any counterclaim, defence (other than an Exempt Counterclaim or Defence) or right of set off by or of the obligor with respect to the underlying asset); provided that where the underlying asset is a Loan Participation, **Deliver** means to create (or procure the creation of) a participation in favour of the Noteholder and, where the underlying asset is a guarantee, **Deliver**

means to Deliver both the guarantee and the underlying obligation to which such guarantee relates. **Delivery** and **Delivered** will be construed accordingly.

In the case of a loan (being any obligation that is documented by a term loan agreement, revolving loan agreement or other similar credit agreement), Delivery shall be effected using documentation substantially in the form of the documentation customarily used in the relevant market for Delivery of such loan at that time.

Exempt Counterclaim or Defence means, in respect of any underlying asset, any defence based upon (a) any lack or alleged lack of authority or capacity of the relevant obligor with respect to the underlying asset to enter into the underlying asset or, where the underlying asset is a guarantee, any lack or alleged lack of authority or capacity of the relevant obligor in respect of the guarantee and/or the obligor in respect of the underlying obligation to which such guarantee relates, (b) any actual or alleged unenforceability, illegality, impossibility or invalidity with respect to any underlying asset or, where the underlying asset is a guarantee, the guarantee and/or the underlying obligation to which such guarantee relates, however described, (c) any applicable law, order, regulation, decree or notice, however described, or the promulgation of, or any change in, the interpretation by any court, tribunal, regulatory authority or similar administrative or judicial body with competent or apparent jurisdiction of any applicable law, order, regulation, decree or notice, however described, or (d) the imposition of, or any change in, any exchange controls, capital restrictions or any other similar restrictions imposed by any monetary or other authority, however described.

Loan Participation means a loan in respect of which, pursuant to a participation agreement, the relevant Issuer is capable of creating, or procuring the creation of, a contractual right in favour of the relevant Noteholder that provides the Noteholder with recourse to the participation seller for a specified share in any payments due under the relevant loan which are received by such participation seller, any such agreement to be entered into between the Noteholder and the Issuer (to the extent the Issuer is then a lender or a member of the relevant lending syndicate).

5.2 General provisions applicable to payments

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the payment obligations of the relevant Issuer or, as the case may be, the Guarantor will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear, Clearstream as the beneficial holder of a particular nominal amount of Notes represented by a Global Note must look solely to Euroclear or Clearstream, as the case may be, for his share of each payment so made by the relevant Issuer or, as the case may be, the Guarantor to, or to the order of, the holder of such Global Note (unless otherwise specified in the applicable Final Terms in relation to a physical delivery). No person other than the holder of such Global Note shall have any claim against the relevant Issuer or, as the case may be, the Guarantor in respect of any payments due on that Global Note.

Notwithstanding the foregoing, U.S. dollars payments in respect of Bearer Notes (if any) will be made at the specified office of a Paying Agent in the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)) if:

(1) the relevant Issuer and the Guarantor have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of any relevant payment on the Bearer Notes in the manner provided above when due;

(2) payment of the full relevant amount at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment, or receipt of any relevant amount in U.S. dollars; and

(3) such payment is then permitted under United States laws without involving, in the opinion of the relevant Issuer and, as the case may be, the Guarantor, adverse tax consequences for the relevant Issuer or the Guarantor.

In respect of Notes other than U.S. Exempt Securities, no payments may be made to accounts located in the United States or, in the case of Physical Delivery Notes, no certificates, instruments or underlying assets may be mailed or sent to addresses in the United States.

5.3 Presentation of Definitive Bearer Notes, Receipts and Coupons

Payments of principal in respect of Definitive Bearer Notes will be made (subject as provided below) in the manner provided in Condition 5.1 only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of such Definitive Bearer Notes, and payments of interest in respect of Definitive Bearer Notes will be made (subject as provided below) as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)). Subject to any applicable laws and regulations, such payments made by credit or transfer will be made in immediately available funds to an account maintained by the payee with a bank located outside the United States. Subject as provided below, no payment in respect of any Definitive Bearer Note, Receipt or Coupon will be made upon presentation of such Definitive Bearer Note, Receipt or Coupon at any office or agency of the Issuer, the Guarantor or any Paying Agent in the United States, nor will any such payment be made by credit or transfer to an account, or by mail to an address, in the United States.

Payments of instalments of principal (if any) in respect of Definitive Bearer Notes, other than the final instalment, will be made (subject as provided below) in the manner provided in Condition 5.1 only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt in accordance with the preceding paragraph. Payment of the final instalment will be made in the manner provided in Condition 5.1 only against presentation and surrender (or, in the case of part payment of any

sum due, endorsement) of the relevant Bearer Note in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the Definitive Bearer Note to which it appertains. Receipts presented without the Definitive Bearer Note to which they appertain do not constitute valid obligations of the Issuer or, if applicable, the Guarantor. Upon the date on which any Definitive Bearer Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Notes which are Definitive Bearer Notes (other than Dual Currency Notes, Structured Notes or Physical Delivery Notes) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of ten years after the Relevant Date (as defined in Condition 8) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 8) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note which is a Definitive Bearer Note becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note, Dual Currency Note, Structured Note or Physical Delivery Note which is a Definitive Bearer Note becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. Where any Floating Rate Note, Dual Currency Note, Structured Note or Physical Delivery Note which is settled by way of cash is presented for redemption without all unmatured Coupons appertaining thereto, payment of all amounts due in relation to such Note will be made only against the provision of such indemnity as the relevant Issuer and, if applicable, the Guarantor may decide.

If the due date for redemption of any Definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant Definitive Bearer Note.

5.4 Payments in respect of Bearer Global Notes

Payments in respect of Notes represented by any Bearer Global Notes will be made (subject as provided below), for Definitive Bearer Notes in the manner specified above, or otherwise in the manner specified in the relevant Bearer Global Notes against presentation or surrender, as the case may be, of such Bearer Global Notes at the specified office of any Paying Agent outside the United States. A record will be made of each payment made, distinguishing, if relevant, between any payment, either on such Bearer Global Notes by the relevant Paying Agent or in the records of Euroclear or Clearstream (as applicable) which such clearing systems shall also record each related payment to holders of interests in the relevant Bearer Global Notes.

Payments in respect of Italian Certificates represented by any Bearer Global Certificates will be made (subject as provided below) in the manner specified above in relation to Definitive Bearer Notes or otherwise in the manner specified in the relevant Bearer Global Certificates against presentation or surrender, as the case may be, of such Bearer Global Certificates at the specified office of any Paying Agent outside the United States. A record will be made of each payment made, distinguishing, if relevant, between any payment either on such Bearer Global Certificates by the relevant Paying Agent or in the records of Monte Titoli (as applicable). Such clearing system shall also record or procure the recording of each related payment to holders of interests in the relevant Bearer Global Certificates.

5.5 Payments in respect of Registered Notes

Payments of principal (other than instalments of principal prior to the final instalment) in respect of each Registered Note (whether or not in global form), will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Registered Note at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Note appearing in the register of holders of the Registered Notes maintained by the Registrar (the **Register**) (i) where in global form, at the close of the business day (being for this purpose a day on which the relevant clearing system in which the Notes are held is open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) before the relevant due date. For these purposes, **Designated Account** means the account maintained by a holder with a Designated Bank and identified as such in the Register and **Designated Bank** means (in the case of payment in a Specified Currency other than euro or Renminbi) a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian Dollar, shall be Sydney and, if the Specified Currency is Canadian Dollar, shall be Montreal), and in the case of payment in a Specified Currency which is (i) euro, any bank which processes payments in euro, or (ii) Renminbi, a bank in the principal financial centre of Hong Kong.

Payments of interest (other than interest due on redemption) and payments of instalments of principal (other than the final instalment) in respect of each Registered Note (whether or not in global form) will be made by transfer on the due date to the Designated Bank of the holder (or the first named of joint holders) of the Registered Note appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which the relevant clearing system in which the Notes are held is open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the fifteenth day (whether or not such fifteenth day is a business day) before the relevant due date (the **Record Date**). Payments of interest due in respect of each Registered Note on redemption and the final instalment of principal will be made in the same manner as payment of the principal of such Registered Note.

Holders of Registered Notes will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Registered Note as a result of a cheque posted in accordance with this Condition arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments due under Registered Notes.

Where applicable pursuant to an election by a relevant holder, all amounts payable to DTC or its nominee as registered holder of a Registered Global Note in respect of Notes denominated in a Specified Currency other than U.S. dollars shall be paid by transfer by the Registrar to an account in the relevant Specified Currency of the Exchange Agent on behalf of DTC or its nominee for conversion into and payment in U.S. dollars in accordance with the provisions of the Agency Agreement.
None of the Issuers, the Guarantor (if applicable) or the Paying Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

5.6 Payments in respect of Uncertificated Nordic Notes

Payments in respect of Uncertificated Nordic Notes will be made to the persons registered as Noteholder in the register maintained by the relevant central securities depositary and clearing institution in accordance with the rules and procedures applied by the relevant Uncertificated Nordic Notes CSD prior to the due date for such payment. If the date for payment of any amount in respect of Uncertificated Nordic Notes is not a **Payment Business Day**, the Noteholders thereof shall not be entitled to payment until the next following Payment Business Day and shall not be entitled to any further interest or other payment in respect of such delay. For the purposes of this Condition, Payment Business Day shall mean any day on which commercial banks are open for general business in Stockholm (in the case of Uncertificated Swedish Notes) or Helsinki (in the case of Uncertificated Finnish Notes) or Oslo (in case of Uncertificated Norwegian Notes) or Copenhagen (in case of Uncertificated Danish Notes).

In the event of late payment with respect to any Uncertificated Nordic Note, penalty interest will be payable on the overdue amount from the due date up to and including the date on which payment is made at an interest rate corresponding to, in the case of Uncertificated Swedish Notes, STIBOR (as defined below) plus one percentage point, in the case of Uncertificated Norwegian Notes, NIBOR (as defined below) plus one percentage point, in the case of Uncertificated Danish Notes, CIBOR (as defined below) plus one percentage point or in the case of Uncertificated Finnish Notes, EURIBOR (as defined below) plus one percentage point. No capitalisation of interest will be made.

CIBOR means the average of the interest rates quoted at approximately 11 a.m. (Copenhagen time) on the first day (such day being a day on which commercial banks are open for general business in Denmark) after the day on which the relevant payment was due as published on the website of the Danish Financial Benchmark Facility (or such other system or other page as shall replace the Danish Financial Benchmark Facility) in respect of a loan with a designated interest period of one week.

EURIBOR means the rate for deposits in EUR which is defined under, and shall be determined by the Calculation Agent in accordance with, the Floating Rate Option "EUR-EURIBOR" in the 2021 ISDA Definitions for a period (Designated Maturity) of sixth months with a Reset Date being the first day of the relevant calculation period.

NIBOR means the average of the interest rates lenders require for unsecured money market lending in Norwegian Kroner with maturities one week submitted by the NIBOR panel banks and calculated by an appointed calculation agent at 12.00 CET/CEST (unless special circumstances results otherwise) every day the Norwegian money market is open for business, as published on the website of the Norske Finansielle Referanser AS (**NoRe**), a company established and owned by Finance Norway. The average rate is calculated by the party appointed by NoRe to act as calculation agent.

STIBOR means the average of the interest rates quoted at approximately 11 a.m. (Stockholm time) on the first day (such day being a day on which commercial banks are open for general business in Stockholm) after the day on which the relevant payment was due as published on the website of the Swedish Financial Benchmark Facility AB (or such other system or other page as shall replace the Swedish Financial Benchmark Facility AB) in respect of a loan with a designated interest period of one week.

If on any day, any of CIBOR, EURIBOR, NIBOR or STIBOR is not published by the Administrator or an authorised distributor and is not otherwise provided by the Administrator or if an Index Event has occurred in respect of such rate, it will be determined by the Calculation Agent as aforesaid in accordance with the provisions of the Temporary Non-Publication Fallback or the Priority Fallback as the case may be, applying to such Floating Rate Option in the 2021 ISDA Definitions and the ISDA Matrix for a period of the maturity as specified above.

An additional Paying Agent will be appointed and identified in the applicable Final Terms with respect to any Uncertificated Nordic Notes and such additional Paying Agent shall have the characteristics described in Condition 11.

5.7 Payments on Notes listed on SIX Swiss Exchange

Notwithstanding any other provision in this Condition, in the case of Notes listed on SIX Swiss Exchange, the relevant Swiss Paying Agency Agreement shall supplement and modify the Agency Agreement for the purposes of the relevant Notes, including providing for the appointment of a Principal Swiss Paying Agent (which, in the case of Notes listed on SIX Swiss Exchange shall at all times be a bank or securities dealer that is subject to supervision by the Swiss Financial Market Supervisory Authority FINMA (**FINMA**)) that will perform certain duties including, inter alia, those which relate to Swiss capital market customs and payment instructions.

The relevant Issuer shall make all payments due under Notes listed on SIX Swiss Exchange to the Principal Swiss Paying Agent in accordance with the Swiss Paying Agency Agreement and the General Terms and Conditions. Payments in respect of any Notes listed on SIX Swiss Exchange, each denominated in Swiss Francs shall be made in freely disposable Swiss Francs, and in the case of Notes listed on SIX Swiss Exchange denominated in a currency other than Swiss Francs in such other currency, which shall also be freely disposable, without collection of costs and whatever the circumstances may be, irrespective of the nationality, domicile or residence of the holder of any Notes listed on SIX Swiss Exchange and without requiring any certification, affidavit or the fulfilment of any other formality. The receipt by the Principal Swiss Paying Agent of the due and punctual payment of such funds in Switzerland shall discharge the Issuer's obligations under Notes listed on SIX Swiss Exchange, as the case may be, with respect to the payment of, as the case may be, principal, interest, costs and additional amounts on the Notes and the paying agency fees, in each case to the extent of the funds received.

5.8 Payments on EUI Notes

The Issuer shall pay or cause to be paid any amount due to an EUI Noteholder under an EUI Note to such EUI Noteholder's cash account with the Operator for value on the relevant payment date, such payment to be made in accordance with the rules of the Operator. The Issuer's obligations in relation to such amounts in respect of the EUI Notes will be discharged by payment to, or to the order of, the Operator. Each of the persons shown in the Operator register of corporate securities as the holder of a particular nominal amount of EUI Notes must look solely to the Operator for his share of each such payment so made by the Issuer to, or to the order of, the Operator.

5.9 Payments on ECF Notes

Payments of principal and interest in respect of ECF Notes will be made to the persons registered as Noteholders in the books of Euroclear France (which shall credit the accounts of Euroclear France Account Holders) in accordance with the rules, regulations and procedures applied by Euroclear France from time to time. If the date for payment of any amount in respect of ECF Notes is not a Payment Business Day, the holder thereof shall not be entitled to payment until the next following Payment Business Day and shall not be entitled to any further interest or other payment in respect of such delay. For the purposes of this Condition, **Payment Business Day** shall mean any day on which commercial banks are open for general business in Paris.

5.10 Payment of Additional amount(s) in respect of Italian Certificates

In respect of Italian Certificates, when the applicable Final Terms specify that "*Additional Amount Provisions for Italian Certificates*" is applicable, this Condition applies.

The applicable Final Terms contain provisions applicable to the determination of additional amount (the **Additional Amount**) and must be read in conjunction with this Condition for full information on the manner on which such amount is calculated on Italian Certificates.

In particular, the applicable Final Terms will specify the Additional Amount(s), the Additional Amount Payment Date(s) and the Business Day Convention.

For the purposes of this Condition:

If so specified in the applicable Final Terms, each Italian Certificate bears Additional Amount(s), and such Additional Amount(s) will be payable on the Additional Amount Payment Date(s); provided that (x) if there is no numerically corresponding day in the calendar month in which an Additional Amount Payment Date should occur or (y) if any Additional Amount Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

(A) **Following Business Day Convention**, such Additional Amount Payment Date shall be postponed to the next day which is a Business Day; or

(B) **Modified Following Business Day Convention**, such Additional Amount Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Additional Amount Payment Date shall be brought forward to the immediately preceding Business Day; or

(C) **Preceding Business Day Convention**, such Additional Amount Payment Date shall be brought forward to the immediately preceding Business Day,

and the expression **Additional Amount Payment Date** shall be construed accordingly.

In this Condition, Business Day has the same meaning given to it in Condition 4. Conditions 4.8 and 4.10 are deemed applicable to this Condition.

5.11 Payments subject to tax and other laws

All payments are subject in all cases to (i) any applicable tax or other laws, regulations and directives in any jurisdiction (whether by operation of law or agreement of the Issuer or its Paying Agents) and the Issuer will not be liable for any taxes or duties of whatever nature imposed or levied by such laws, regulations, directives or agreements but without prejudice to the provisions of Condition 7, (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code

of 1986 (the **US IRS Code**) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto and (iii) any withholding or deduction required pursuant to Section 871(m) of the US IRS Code.
No commission or expense shall be charged to the Noteholders in respect of such payments but, for the avoidance of doubt, without prejudice to the option of the Calculation Agent to apply the provisions specific to the occurrence of an Increased Cost of Hedging, as provided for in each relevant Additional Terms and Conditions.

5.12 Payment Business Day

If the date for payment of any amount in respect of any Note is not a Payment Business Day, the Noteholder thereof shall instead be entitled to payment:

(1) if the applicable Final Terms specify that the clause "*Payment Business Day*" is "**Following Payment Business Day**": on the next following Payment Business Day in the relevant place; or

(2) if the applicable Final Terms specify that the clause "*Payment Business Day*" is "**Modified Following Payment Business Day**": on the next following Payment Business Day in the relevant place, unless the date for payment would thereby fall into the next calendar month, in which event such date for payment shall be brought forward to the immediately preceding Payment Business Day in the relevant place;

provided that if neither "Following Payment Business Day" nor "Modified Following Payment Business Day" is specified in the applicable Final Terms, "Following Payment Business Day" shall be deemed to apply. In the event that any adjustment is made to the date for payment in accordance with this Condition, the relevant amount due in respect of any Note shall not be affected by any such adjustment.

For the purposes of these General Terms and Conditions, except as specified in Conditions 5.6 and 5.9:

Payment Business Day means any day which is:

(1) subject to the provisions of the Agency Agreement, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits);

(2) in the case of Notes in definitive form only, in the relevant place of presentation or, in respect of Uncertificated Notes, the place of registration;
(3) each financial centre(s) (the **Financial Centre(s)**) specified in the applicable Final Terms; and

(4) either (A) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the Specified Currency (which if the Specified Currency is Australian Dollar, shall be Sydney and, if the Specified Currency is Canadian Dollar, shall be Montreal and, if the Specified Currency is Renminbi, shall be Hong Kong) or (B) in relation to any sum payable in euro, a day on which the T2 is open; and
(5) in the case of any payment in respect of a Registered Global Note denominated in a Specified Currency other than U.S. dollars and registered in the name of DTC or its nominee and in respect of which an accountholder of DTC (with an interest in such Registered Global Note) has elected to receive any part of such payment in U.S. dollars, a day on which commercial banks are not authorised or required by law or regulation to be closed in New York City.

5.13 Interpretation of "Principal" and "Interest"

Any reference in these General Terms and Conditions to "principal" in respect of the Notes shall be deemed to include, as applicable, in the applicable Final Terms:

(1) the Optional Redemption Amount(s) of the Notes;

(2) the Automatic Early Redemption Amount(s) of the Notes;

(3) the Final Redemption Amount of the Notes;

(4) the Early Redemption Amount(s) of the Notes;

(5) the Instalment Amount(s), in relation to Instalment Notes;

(6) the Amortised Face Amount (as defined in Condition 4.4) in relation to Zero Coupon Notes;

(7) any additional amounts which may be payable with respect to principal under Condition 7; and

(8) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

Any reference in these General Terms and Conditions to "interest" in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 7.

Any reference in these General Terms and Conditions to "interest accrued" or "accrued interest" shall be deemed to include any arrears of interest suspended as provided in Condition 4.6.

Any reference in these General Terms and Conditions to "principal" and/or "interest" and "Physical Delivery Amount(s)", in the case of Physical Delivery Notes, shall mean such amount less any expenses, fees, stamp duty, levies or other amounts including, but not limited to, any taxes or duties arising from the delivery or transfer of Deliverable Asset(s) payable on or in respect of such Physical Delivery Amount(s).

5.14 Payment Disruption Event

If on or prior to a due date (such date a **"Payment Disruption Date")** for payment of an Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount or such other amount (if any) payable under the Notes and/or under the Guarantee a Payment Disruption Event occurs as determined by the Calculation Agent, the Issuer shall give notice of such occurrence to the Noteholders in accordance with Condition 13 as soon as reasonably practicable thereafter.

Following the occurrence of a Payment Disruption Event:

(A) the date for payment of such Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount or such other amount (if any) payable under the Notes (the "**Disrupted Amount**") will be postponed to (i) the second Business Day following the date on which the Calculation Agent determines that the Payment Disruption Event is no longer subsisting or if earlier (ii) the date falling thirty calendar days following the scheduled due date for payment of the relevant Disrupted Amount (the "**Payment Disruption Cut-off Date**") which, for the avoidance of doubt, may be later than the scheduled Maturity Date; and
(B) (i) in the case of (A)(i) above, the Issuer will pay the relevant Disrupted Amount less Payment Disruption Expenses (if any) in the Specified Currency specified in the applicable Final Terms or (ii) in the case of (A)(ii) above, in lieu of paying the relevant Disrupted Amount in the relevant Specified Currency, the Issuer will, subject to the paragraph below, convert the relevant Disrupted Amount into the Payment Disruption Currency (using the Payment Disruption Exchange Rate for the relevant Payment Disruption Date) and will pay the relevant Disrupted Amount less the Payment Disruption Expenses (if any) in the Payment Disruption Currency on the Payment Disruption Cut-off Date.

If sub-paragraph (B)(ii) above applies, the Calculation Agent will determine the Payment Disruption Exchange Rate acting in good faith and in a commercially reasonable manner in accordance with the following procedures:

(A) the Payment Disruption Exchange Rate shall be the arithmetic mean (rounded, if necessary, to four decimal places (with 0.00005 being rounded upwards)) as determined by or on behalf of the Calculation Agent of the bid and offer Specified Currency/Payment Disruption Currency exchange rates provided by two or more leading dealers on a foreign exchange market (as selected by the Calculation Agent) on such day; or
(B) if fewer than two leading dealers provide the Calculation Agent with bid and offer Specified Currency/Payment Disruption Currency exchange rates on such day, the Calculation Agent shall determine the Payment Disruption Exchange Rate acting in good faith and in a commercially reasonable manner.

For the avoidance of doubt, no Interest Period will be adjusted as a result of the postponement of any interest payment pursuant to this Condition 5.14, and no additional interest will be paid in respect of any postponement of the date for payment.

For the avoidance of doubt, nothing contained in these "Payment Disruption Event" provisions shall prevent the Issuer from making any other determination under these Terms and Conditions of the Notes or any applicable Additional Terms and Conditions.

No action or omission (including, without limitation, any postponement of any payment and/or payment made in a Payment Disruption Currency) in accordance with the provisions of this Condition 5.14 shall constitute an Event of Default.

For the purposes of this Condition 5.14:

"**Payment Disruption Currency**" means Euro or USD as selected in a commercially reasonable manner by the Issuer or the Calculation Agent;

"**Payment Disruption Event**" means the occurrence of an event which makes it unlawful, impossible or otherwise impracticable to pay any Disrupted Amount in the Specified Currency on the Payment Disruption Date, including, without limitation, any decision by a Clearing System to stop accepting the Specified Currency as a settlement currency for its operations and transactions, including, without limitation, the payment of income and/or redemption amounts in respect of the Notes;

"**Payment Disruption Exchange Rate**" means the rate of exchange between the Specified Currency (as specified in the applicable Final Terms) and the Payment Disruption Currency, as determined by the Calculation Agent; and

"**Payment Disruption Expenses**" means, unless it is being specified as "Not Applicable" in the applicable Final Terms, the sum of (i) the cost to the Issuer and/or its affiliates of unwinding any hedging arrangements related to the Notes and (ii) any transaction, payment or other costs and expenses arising directly out of the occurrence of a Payment Disruption Event or the related payment of the Disrupted Amount, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

5.15 Sanctions

If on or prior to a due date (such date a **"Sanctions Disrupted Date")** for payment of an Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount or such other amount (if any) payable under the Notes and/or under the Guarantee a Sanctions Disruption Event occurs as determined by the Calculation Agent, the Issuer shall give notice of such occurrence to the Noteholders in accordance with Condition 13 as soon as reasonably practicable thereafter.

Following the occurrence of a Sanctions Disruption Event:

(A) the date for payment of such Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount or such other amount (if any) payable under the Notes (the "**Disrupted Amount**") will be postponed to the second Business Day following the date on which the Calculation Agent determines that the Sanctions Disruption Event is no longer subsisting which, for the avoidance of doubt, may be later than the scheduled Maturity Date (the "**Released Payment Date**"). (B) Payments of Disrupted Amounts, in particular but not limited to the situation where the Released Payment Date occurs later than the scheduled Maturity Date, may be made outside the Clearing Systems if the relevant Clearing System(s) has/have decided that these payments are no longer eligible for its operations and transactions.

For the avoidance of doubt, no Interest Period will be adjusted as a result of the postponement of any interest payment pursuant to this Condition 5.15, and no additional interest will be paid in respect of any postponement of the date for payment.

For the avoidance of doubt, nothing contained in these Sanctions Disruption Event provisions shall prevent the Issuer from determining the occurrence of any other event under these Terms and Conditions of the Notes or any applicable Additional Terms and Conditions.

No action or omission (including, without limitation, any postponement of any payment and/or payment made in a Payment Disruption Currency) in accordance with the provisions of this Condition 5.15 shall constitute an Event of Default.

"**Sanctions Disruption Event**" means the payment as envisaged pursuant to these Terms and Conditions **and/or the Guarantee** and the Agency Agreement, the SEB Agency Agreement, the EUI Agency Agreement or the Swiss Paying Agency Agreement or any other paying agency agreement or any other paying agency agreement, of an Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount Final Redemption Amount or such other amount payable (if any) under the Notes, by the Issuer or the Guarantor would constitute a breach or violation of Sanctions, including following the change of interpretation of existing Sanctions.

Sanctions means any economic or financial sanctions, trade embargoes or similar measures enacted, administered or enforced by any of the following (or by any agency of any of the following):
(a) the United Nations;
(b) the United States of America;
(c) the United Kingdom; or
(d) the European Union or any present or future member state thereof.

5.16 Cyber-attacks

If on or prior to a due date for payment of an Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount or such other amount (if any) payable under the Notes and/or the Guarantee (such date a "**Cyber-attack Disruption Date**") a Cyber-attack occurs as determined by the Calculation Agent (a "**Cyber-attack Disruption Event**"), the Issuer shall give notice of such occurrence to the Noteholders in accordance with Condition 13 as soon as reasonably practicable thereafter.

Following the occurrence of a Cyber-attack Disruption Event:
- the date for payment of such Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount or such other amount (if any) payable under the Notes and/or the Guarantee (the **"Cyber-attack Disrupted Amount**") will be postponed to the second Business Day following the date on which the Calculation Agent determines that the Cyber-attack Disruption Event is no longer subsisting which, for the avoidance of doubt, may be later than the scheduled Maturity Date, provided that the Issuer and/or the Guarantor shall make their best endeavours to implement remedies as soon as reasonably practicable to eliminate the impact of the Cyber-attack Disruption Event on its/their payment obligations of the Cyber-attack Disrupted Amount under the Notes and/or the Guarantee (as applicable).

"**Cyber-attack**" means any malicious action or attempt initiated to steal, expose, alter, disable or destroy information through unauthorised access to, or maintenance or use of, the Computer Systems of the Issuer, the Guarantor, the Calculation Agent, their respective affiliates (the "**SG Group**"), their IT service providers, by (and without limitation) the use of malware, ransomware, phishing, denial or disruption of service or cryptojacking or any unauthorized entry, removal , reproduction, transmission, deletion, disclosure or modification preventing the Issuer, the Guarantor and/or the Calculation Agent to perform their obligations under the Notes, and notwithstanding the implementation of processes, required, as the case may be, by the laws and regulations applicable to the Issuer, the Guarantor, the Calculation Agent and their affiliates, or their IT service providers to improve their resilience to these actions and attempts.

"**Computer System**" means all the computer resources including, in particular: hardware, software packages, software, databases and peripherals, equipment, networks, electronic installations for storing computer data, including Data.

The Computer System shall be understood to be that which:
- belongs to the SG Group and/or;
- is rented, operated or legally held by the SG Group under a contract with the holder of the rights to the said system and/or;
- is operated on behalf of the SG Group by a third party within the scope of a contractual relationship and/or;

- is made available to the SG Group under a contract within the framework of a shared system (in particular cloud computing).

"**Data**" means any digital information, stored or used by the Computer System, including confidential data.

For the avoidance of doubt, no Interest Period will be adjusted as a result of the postponement of any interest payment pursuant to this Condition 5.16, and no additional interest will be paid in respect of any postponement of the date for payment.

For the avoidance of doubt, nothing contained in these provisions shall prevent the Issuer from making any other determination under these Terms and Conditions of the Notes or any applicable Additional Terms and Conditions.

No action or omission (including, without limitation, any postponement of any payment and/or payment made in a Payment Disruption Currency) in accordance with the provisions of this Condition 5.16 shall constitute an Event of Default.

5.17 Provisions specific to Renminbi Currency Event

If "Renminbi Currency Event" is specified in the applicable Final Terms and a Renminbi Currency Event, as determined by the Calculation Agent, exists on a date for payment of any amount in respect of any Note, the Issuer may determine one or more of the following, and require the Calculation Agent to take such action or make such determination accordingly:

(a) the relevant payment of the Issuer be postponed to 10 Business Days after the date on which the Renminbi Currency Event ceases to exist or, if that would not be possible (as determined by the Issuer acting in good faith) as soon as reasonably practicable thereafter;

(b) that the Issuer's obligation to make a payment in Renminbi under the terms of the Notes be replaced by an obligation to pay such amount in the Relevant Currency (converted at the Alternate Settlement Rate determined by the Calculation Agent as of a time selected in good faith by the Calculation Agent); and/or

(c) the Issuer may redeem all, but not some only, of the Notes, each Note being redeemed at its Early Redemption Amount.

Upon the occurrence of a Renminbi Currency Event, the Issuer shall give notice, as soon as practicable, to the Noteholders in accordance with the Condition 13 stating the occurrence of the Renminbi Currency Event, giving brief details thereof and the action proposed to be taken in relation thereto.

For the purpose of this Condition:

Alternate Settlement Rate means the spot rate between Renminbi and the Relevant Currency determined by the Calculation Agent, taking into consideration all available information which the Calculation Agent deems relevant (including, but not limited to, the pricing information obtained from the Renminbi non-deliverable market outside the PRC and/or the Renminbi exchange market inside the PRC).

Renminbi Currency Event means any one of Renminbi Illiquidity, Renminbi Non-Transferability and Renminbi Inconvertibility.

Renminbi Illiquidity means the general Renminbi exchange market in Hong Kong becomes illiquid as a result of which the Issuer and/or any of its affiliates cannot obtain sufficient Renminbi in order to make a payment or perform any other of its obligations under the Notes, as determined by the Calculation Agent in good faith and in a commercially reasonable manner.

Renminbi Inconvertibility means the occurrence of any event that makes it impossible, impracticable or illegal for the Issuer and/or any of its affiliates to convert any amount into or from Renminbi as may be required to be paid by the Issuer under the Notes on any payment date or such other amount as may be determined by the Calculation Agent at the general Renminbi exchange market in Hong Kong, other than where such impossibility, impracticability or illegality is due solely to the failure of the Issuer and/or the relevant affiliate to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date of the first Tranche of the relevant Series of Notes and it is impossible or, having used its reasonable endeavours, impractical, for the Issuer and/or any of its affiliates, due to an event beyond the control of the Issuer or the relevant affiliate, to comply with such law, rule or regulation).

Renminbi Non-Transferability means the occurrence of any event that makes it impossible, impracticable or illegal for the Issuer and/or any of its affiliates to deliver Renminbi between accounts inside Hong Kong or from an account inside Hong Kong to an account outside Hong Kong, other than where such impossibility, impracticability or illegality is due solely to the failure of the Issuer and/or the relevant affiliate to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date and it is impossible or, having used its reasonable endeavours, impractical, for the Issuer and/or any of its affiliates, due to an event beyond the control of the Issuer and/or the relevant affiliate, to comply with such law, rule or regulation).

Governmental Authority means any *de facto* or *de jure* government (or any agency or instrumentality thereof), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of Hong Kong.

Relevant Currency means U.S. dollars, Hong Kong Dollars or such other currency as specified in the applicable Final Terms.

5.18 Provisions specific to Dual Currency Notes

Amounts payable in respect of payment of principal and/or interest, if any, in respect of Dual Currency Notes, shall be determined by the Calculation Agent by converting the relevant amounts in the relevant Specified Currency into the Settlement Currency at the relevant fixing of Dual Currency Exchange Rate.

The method of determining the fixing of Dual Currency Exchange Rate will be specified in the applicable Final Terms and may be one of the following methods:

(1) if "Predetermined" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the Calculation Agent shall use the Predetermined Fixing as the fixing of Dual Currency Exchange Rate to convert the relevant amount(s);

(2) if "Screen Rate Determination" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the fixing of the Dual Currency Exchange Rate will be the relevant exchange rate fixing specified on the Relevant Screen Page at the Dual Currency Valuation Time on the Dual Currency Valuation Date;

(3) if "Calculation Agent Determination" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the fixing of the Dual Currency Exchange Rate will be determined by the Calculation Agent by reference to such sources it deems appropriate, at the Dual Currency Valuation Time on the Dual Currency Valuation Date.

Notwithstanding any of the above, upon a Dual Currency Disruption Event occurring or continuing on any Dual Currency Valuation Date as determined by the Calculation Agent, the Calculation Agent shall:

(a) determine that the Dual Currency Valuation Date shall be the first succeeding Dual Currency Scheduled Trading Day that is not a Dual Currency Disrupted Day unless each of the eight Dual Currency Scheduled Trading Days immediately following the scheduled Dual Currency Valuation Date is also a Dual Currency Disrupted Day. In that case that eighth Dual Currency Scheduled Trading Day shall be deemed to be the Dual Currency Valuation Date notwithstanding the fact that such day is a Dual Currency Disrupted Day, and the Calculation Agent shall determine its good faith estimate of the fixing of the Dual Currency Exchange Rate as of the Dual Currency Valuation Time on that eighth Dual Currency Scheduled Trading Day and the good faith estimate of the fixing so calculated shall be deemed the fixing of Dual Currency Exchange Rate; and/or

(b) postpone any payment date related to such Dual Currency Valuation Date (including, if applicable, the Maturity Date) until the second Business Day following the date on which a Dual Currency Disruption Event is no longer subsisting, or the date on which the Calculation Agent determines its good faith estimate of the fixing of the Dual Currency Exchange Rate pursuant to the provisions of paragraph (a) above, as the case may be. No interest or other amount shall be paid by the Issuer in respect of such postponement.

provided however that, all references to the word "second" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

For the purpose of this Condition:

Clearing System means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

Settlement Currency means the currency or currencies specified as such in the applicable Final Terms. The applicable Final Terms may specify that the Settlement Currency may vary depending on the occurrence of different scenarios described in the applicable Final Terms;

Dual Currency Disrupted Day means any Dual Currency Scheduled Trading Day on which the Calculation Agent determines that a Dual Currency Disruption Event has occurred;

Dual Currency Disruption Event means the occurrence or existence of (a) a Price Source Disruption, (b) an Illiquidity Disruption, (c) a Dual Exchange Rate or (d) any other event that, in the opinion of the Calculation Agent, is analogous to (a), (b) or (c). For the purpose hereof:

(a) Price Source Disruption means that it becomes impossible to obtain the rate or rates from which the Dual Currency Exchange Rate is calculated;

(b) Illiquidity Disruption means the occurrence of any event in respect of the Specified Currency and/or Settlement Currency whereby it becomes impossible for the Calculation Agent to obtain a firm quote for such currency in an amount deemed necessary by the Calculation Agent to hedge its obligations under the Notes (in one or more transaction(s)) on any Dual Currency Valuation Date; and

(c) Dual Exchange Rate means that the Dual Currency Exchange Rate splits into dual or multiple foreign exchange rates.

Dual Currency Exchange Rate means an exchange rate expressed as X/Y (X and Y are currencies) and specified as such in the applicable Final Terms. For the avoidance of doubt, an exchange rate expressed as X/Y means the number of units (or part units) of Y for which one unit of X can be exchanged;

Dual Currency Scheduled Trading Day means a day on which commercial banks are open (or, but for the occurrence of a Dual Currency Disruption Event would have been open) for business (including dealings in foreign exchange in accordance with the market practice of the foreign exchange market) in the principal financial centres of the Dual Currency Exchange Rate.

5.19 Physical Delivery Notes

If the applicable Final Terms specify that "*Physical Delivery Provisions*" is "Applicable", this Condition applies.

In particular, the applicable Final Terms will specify the Deliverable Asset(s), the Physical Delivery Amount, the provisions governing whether transfer of Deliverable Asset(s) or payment of a cash sum will apply, the Issuer's option to vary method of settlement and the method of transfer of Deliverable Asset(s) in respect of the Physical Delivery Amount.

For the purposes of this Condition:

Deliverable Asset(s) means the deliverable asset(s) which may be either:

(i) the Underlying(s) of the Notes specified under the paragraph "Underlying(s)" in the applicable Final Terms, which may be any Underlying as defined in the Additional Terms and Conditions for Structured Notes or

(ii) if different from the Underlying(s) of the Notes, a share, an American or global depositary receipt and/or an exchange traded fund and/or a fund and/or an exchange traded product and/or a bond and/or a preference share and/or a warrant and/or a future, and/or any other asset specified under the paragraph "Deliverable Asset(s)" in the applicable Final Terms, in such case the provisions of the Additional Terms and Conditions relating to such deliverable asset (as if such asset was an underlying of the Note) shall apply in respect to any definition or event related to such deliverable asset shall apply, or in the case of Credit Linked Notes, the "Specified Deliverable Obligation(s)" subject to the provisions of the Additional Terms and Conditions for Credit Linked Notes.

However,

(a) no share in Societe Generale or the Group will be deliverable. If a Share in Societe Generale or the Group should be delivered, such share will be replaced by, in due proportion, an equivalent amount in cash; and

(b) no Fund Unit in respect of any underlying fund which is a hedge fund will be delivered to retail investors.

Physical Delivery Amount means an amount determined and calculated in the manner described in the applicable Final Terms.

Any reference in these General Terms and Conditions to "Physical Delivery Amount(s)", shall mean such amount less any expenses, fees, stamp duty, levies or other amounts including, but not limited to, any taxes or duties arising from the delivery or transfer of Deliverable Asset(s) payable on or in respect of such Physical Delivery Amount(s).

5.19.1 Method of transfer of Deliverable Asset(s) in respect of Physical Delivery Amount

When the settlement of a Physical Delivery Note is by way of physical delivery, the delivery of any Physical Delivery Amount (including, without limitation, liability for the costs of transfer of Deliverable Asset(s)) will be made through Clearstream or Euroclear or other relevant Clearing System.

The Deliverable Asset(s) will be delivered at the risk of the relevant Noteholders in such manner as may be specified in the transfer notice pursuant to which such Deliverable Assets are delivered (the **Transfer Notice**), the form of which is annexed to the Agency Agreement and, notwithstanding Condition 2, no additional payment or delivery will be due to a Noteholder where any Deliverable Asset(s) is/are delivered after their due date in circumstances beyond the control of either the Issuer or the Settlement Agent. The Transfer Notice will be delivered using the transfer procedures currently utilised by the relevant Clearing System.

A Noteholder’s entitlement to any Physical Delivery Amount will be evidenced:

(i) by the Noteholder's account balance appearing on the records of the relevant Clearing System,

(ii) in the case of Credit Linked Notes by the account balances appearing in the records of the relevant Clearing System or, if necessary, the number of Notes held by each Noteholder as notified to the Principal Paying Agent by the relevant Clearing System, and

(iii) in the case of Definitive Registered Notes, by the entries maintained at the relevant time on the Register maintained by the Registrar.

When Notes are held in a Clearing System, to the extent that a beneficial Noteholder holds such Notes through a custodian, the Issuer may in its discretion (and subject to obtaining such proof, evidence and/or indemnity arrangements as it deems appropriate) take account of such custodial arrangements when determining where to deliver Deliverable Asset(s) which form the Physical Delivery Amount.

Any delivery of Deliverable Assets will only be made in compliance with applicable securities laws.

5.19.2 Issuer's **option to vary method of settlement**

When the applicable Final Terms specify that “Issuer's option to vary method of settlement" is "Applicable", the Issuer may elect to pay or cause to be paid to the Noteholder the Final Redemption Amount on the Maturity Date in lieu of its obligation to deliver or

procure delivery of the Physical Delivery Amount. Notification of any such election will be given to the Noteholder in accordance with Condition 13.

5.19.3 No obligations in relation to underlying asset

Except as expressly provided, the purchase of Notes does not confer on any Noteholder any rights (whether in respect of voting, distributions or otherwise) attached to any Underlying.

The Issuer shall be under no obligation to register or procure the registration of any Noteholder or any other person as the registered holder in respect of any relevant asset(s) comprised in any Physical Delivery Amount in any relevant register.

For such period of time after the Maturity Date as the Issuer or any person on behalf of the Issuer shall continue to be the legal owner of any asset(s) comprised in any assets comprising the Physical Delivery Amount (or equivalent amounts in circumstances where the Notes are subject to early redemption, purchase or cancellation) (the **Intervening Period**), neither the Issuer nor any other such person shall (a) be under any obligation to deliver or procure delivery to the relevant Noteholder or any subsequent beneficial owner of such asset(s) or any other person any letter, certificate, notice, circular or any other document or payment whatsoever received by that person in its capacity as the holder of such asset(s), (b) be under any obligation to exercise or procure exercise of any or all rights (including any voting rights) attaching to such asset(s) during the Intervening Period or (c) be under any liability to the relevant Noteholder or any subsequent beneficial owner of such asset(s) or any other person in respect of any loss or damage which the relevant Noteholder or subsequent beneficial owner or any other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or any other such person being the legal owner of such asset(s) during such Intervening Period.

5.19.4 Settlement Disruption Event

If a Settlement Disruption Event does prevent delivery of the Physical Delivery Amount an Interest Payment Date, an Automatic Early Redemption Date or on the Maturity Date, then such delivery shall occur on the first succeeding day on which delivery of the Physical Delivery Amount can take place through the relevant Clearing System (the **Actual Settlement Date**) unless a Settlement Disruption Event prevents delivery for a period of 20 Clearing System Days immediately following the original date that would have been the Actual Settlement Date (the **Delivery Period**). In that latter case, the Issuer shall, in lieu of delivering the Physical Delivery Amount, pay, in respect of each Note, the fair market value of the number of Deliverable Asset(s) to be delivered (the **Fair Market Value**) converted into the Specified Currency at the current exchange rate, if applicable.

The Fair Market Value will be determined by the Calculation Agent on the basis of the market conditions on the first Business Day following the Delivery Period:

(a) if a dividend is paid in respect of the Deliverable Asset(s) from and including the Valuation Date to and, as the case may be, (i) excluding the Delivery Date or (ii) including, in the event of a Settlement Disruption Event, the date on which the Fair Market Value is calculated, then, the net dividend amount relating to the number of Deliverable Asset(s) to be delivered per Note (excluding any related tax credit) converted into the Specified Currency at the current exchange rate, if applicable, will be paid in cash to the Noteholders as soon as practicable; and

(b) all stamp duties, or other similar taxes and/or duties, in respect of physical delivery of Deliverable Asset(s) shall be borne by the Noteholders.

Provided that in the case of Credit Linked Notes, upon the occurrence of a Settlement Disruption Event, the relevant Issuer shall, in lieu of delivering the Physical Delivery Amount, pay, in respect of each Note, the Cash Redemption Amount per Undeliverable Obligations (as defined in the Additional Terms and Conditions for Credit Linked Notes) to be delivered converted into the Specified Currency at the current exchange rate, if applicable.

For the purposes of this Condition:

Clearing System Day means, in respect of a Clearing System, any day on which such Clearing System is open for the acceptance and execution of settlement instructions.

Delivery Date means, as the case may be, (a) an Interest Payment Date, an Automatic Early Redemption Date or the Maturity Date or (b) in the event of a Settlement Disruption Event, the Actual Settlement Date.

Settlement Disruption Event means any event beyond the control of the Issuer as a result of which the relevant Clearing System cannot clear the transfer of the Physical Delivery Amount.

5.19.5 Illiquidity Event (for Reverse Convertible Bond Linked Notes only)

If the applicable Final Terms specify that the clause "Physical Delivery Provisions" is "Applicable" and the Calculation Agent determines that an Illiquidity Event has occurred, then the Issuer shall, in lieu of delivering the Physical Delivery Amount, pay in respect of each Note, the fair market value of the number of Deliverable Asset(s) to be delivered (the Fair Market Value), as determined by the Calculation Agent in its sole and absolute discretion, converted into the Specified Currency at the current exchange rate, if applicable.

For the purposes of this Condition:

The Fair Market Value will be determined by the Calculation Agent on the basis of the market conditions within 20 Business Days following the Illiquidity Event :

(a) if a dividend is paid in respect of the Deliverable Asset(s) from and including the Valuation Date to and including the date on which the Fair Market Value is calculated, then, the net dividend amount relating to the number of Deliverable Asset(s) to be delivered per Note (excluding any related tax credit) converted into the Specified Currency at the current exchange rate, if applicable, will be paid in cash to the Noteholders as soon as practicable; and
(b) all stamp duties, or other similar taxes and/or duties, in respect of physical delivery of Deliverable Asset(s) shall be borne by the Noteholders.

Illiquidity Event means that in the determination of the Calculation Agent, the liquidity of the Deliverable Asset has decreased significantly since the Issue Date, such decrease of liquidity being likely to have a material impact on the Issuer to fulfil its obligations to deliver the Physical Delivery Amount.

6. REDEMPTION

6.1 Redemption under normal conditions

6.1.1 Final Redemption Amount

This Condition applies for Notes other than Italian Certificates.

Unless previously redeemed or purchased and cancelled as specified in the Conditions below, each Note will be redeemed by the Issuer on the Maturity Date, at a final redemption amount specified in the applicable Final Terms (the **Final Redemption Amount**).

The Final Redemption Amount shall be determined in accordance with one of the following options :

Option 1:

- Final Redemption Amount = At par,

Option 2:

- Final Redemption Amount = a fixed amount per Specified Denomination or the Calculation Amount,

Option 3:

- Final Redemption Amount = Specified Denomination multiplied by the percentage specified in the applicable Final Terms (if such percentage is different from 100% of the Specified Denomination),

Option 4:

- Final Redemption Amount = Specified Denomination multiplied by the Product Formula described in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in paragraph "Reference of the Product" in the applicable Final Terms.

In the case of Physical Delivery Notes, such Notes will be redeemed by the transfer of the Deliverable Asset(s) specified in the applicable Final Terms, or determined in the manner specified in the Additional Terms and Conditions relating to Formulae, in the relevant Specified Currency or, if applicable, converted into the relevant Specified Currency, on the Maturity Date.

Provided that:

- in the case of a Non-exempt Offer Note (including a Note that is an Italian Certificate) and (i) if a share in Societe Generale or its affiliates is specified as a Deliverable Asset in the applicable Final Terms, the part of the Physical Delivery Amount composed by shares in Societe Generale will be replaced, in due proportion, by an equivalent amount in cash calculated with the manner indicated in the Additional Terms and Conditions relating to Formulae and (ii) no Fund Unit in respect of any underlying fund which is a hedge fund will be delivered to retail investors; and

- in the case of insolvency or resolution of Societe Generale, the claim on Societe Generale with respect to Eligible Structured Notes, will be the amount to be taken into account for the purposes of Article R 613-46-1-III-2° of the Code; this amount is fixed or increasing and does not exceed the initially paid-up amount of the liability.

For the purposes of this Condition:

Product Formula and **Reference of the Product** shall have the meaning given to them respectively in the Additional Terms and Conditions relating to Formulae.

In the case of Preference Share Linked Notes and Warrant Linked Notes (including a Note that is an Italian Certificate), the Final Redemption Amount(s) shall be equal to the Final Redemption Amount per Calculation Amount, as defined in the relevant Additional Terms and Conditions.

6.1.2 Final Exercise Amount

This Condition applies for Italian Certificates only.

Unless previously redeemed or purchased and cancelled as specified in the Conditions below, each Italian Certificate will be redeemed by the Issuer, on the Final Exercise Date (as defined below), at a final exercise amount specified in the applicable Final Terms (the **Final Exercise Amount**).

The Final Exercise Amount shall be determined in accordance with one of the following paragraphs:

- Final Exercise Amount = At par,

- Final Exercise Amount = a fixed amount per Specified Denomination,

- Final Exercise Amount = Specified Denomination multiplied by a percentage specified in the applicable Final Terms (if such percentage is different from 100% of the Specified Denomination),

- Final Exercise Amount = Specified Denomination multiplied by a Product Formula described in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in the paragraph "Reference of the Product" in the applicable Final Terms.

Provided that, for the purpose of Italian Certificates, any reference to "Final Redemption Amount" and "Maturity Date" in the Additional Terms and Conditions relating to Formulae shall be deemed to be a reference to "Final Exercise Amount" and "Final Exercise Date", respectively.

The Final Exercise Amount shall be paid on the Final Payment Date, if so specified in the applicable Final Terms, otherwise it shall be paid on the Final Exercise Date.

For the purpose of this Condition:

Final Exercise Date means the date specified in the applicable Final Terms on which the automatic exercise (the **Automatic Exercise**) of the Italian Certificates occurs.

Final Payment Date means the date specified as such in the applicable Final Terms.

Final Valuation Date means the date specified as such in the applicable Final Terms.

Initial Closing Price means the amount equal to the Closing Price on the date specified in the applicable Final Terms, as determined by the Calculation Agent and without regard to any subsequently published adjustment(s).

Italian Certificates means the certificates (i) to be sold in Italy, which expression shall include the Italian Certificates to be admitted to trading on SeDex, a multilateral trading facility organised and managed by Borsa Italiana S.p.A. and/or to be admitted to trading on EuroTLX, a multilateral trading facility organised and managed by EuroTLX Sim S.p.A. and (ii) for which the Final Exercise Amount could result in an amount lower than the applicable Specified Denomination.

Final Closing Price means the amount equal to the Closing Price on the date specified in the applicable Final Terms, as determined by the Calculation Agent and without regard to any subsequently published amendment(s).

Minimum Trading Lot means the minimum number of Italian Certificates specified in the applicable Final Terms that may be traded on any applicable regulated or unregulated markets, as determined by the relevant regulated or unregulated markets, if applicable.

Multiplier means, in respect of each Italian Certificate, the number of Underlying(s).

Notice Date means 10:00 CET of the Exchange Business Day (as defined in the Additional Terms and Conditions for Structured Notes) immediately following the Valuation Date, if not specified differently in the applicable Final Terms.

Product Formula and **Reference of the Product** shall have the meaning given to them respectively in the Additional Terms and Conditions relating to Formulae.
Provided that:

- in the case of a Non-exempt Offer Note (including a Note that is an Italian Certificate) and (i) if a share in Societe Generale or its affiliates is specified as a Deliverable Asset in the applicable Final Terms, the part of the Physical Delivery Amount composed of shares in Societe Generale or its affiliates will be replaced, in due proportion, by an equivalent amount in cash calculated in the manner indicated in the Additional Terms and Conditions relating to Formulae and (ii) no Fund Unit in respect of any underlying fund which is a hedge fund will be delivered to retail investors; and

- in the case of insolvency or resolution of Societe Generale, the claim on Societe Generale with respect to Eligible Structured Notes, will be the amount to be taken into account for the purposes of Article R 613-46-1-III-2°of the Code; this amount is fixed or increasing and does not exceed the initially paid-up amount of the liability.

In the case of Preference Share Linked Notes and Warrant Linked Notes (including a Note that is an Italian Certificate), the Final Exercise Amount(s) shall be equal to the Final Exercise Amount per Calculation Amount, as defined in the relevant Additional Terms and Conditions.

6.1.3 Redemption prior to maturity

6.1.3.1 Optional early redemption

6.1.3.1.1 Redemption at the option of the Issuer

6.1.3.1.1.1 If the applicable Final Terms specify that "*Redemption at the option of the Issuer*" is "Applicable", the Notes are subject to redemption prior to the Maturity Date at the option of the Issuer at the Optional Redemption Amount(s) (as defined in Condition 6.1.3.1.3 below) on the Optional Redemption Date(s) as specified in the applicable Final Terms.

The applicable Final Terms will specify the Notice Period (as defined in Condition 6.1.3.1.4 below).

In respect of Eligible Notes, redemption of the Notes at the option of the Issuer will be subject to the prior written permission of the Relevant Resolution Authority.

6.1.3.1.1.2 Redemption in part

If the applicable Final Terms specify that "Redemption in part" is "Applicable", the applicable Final Terms will specify the Minimum Redemption Amount and the Maximum Redemption Amount (as defined below).

a) Minimum Redemption Amount and Maximum Redemption Amount

Any such partial redemption at the option of the Issuer must be equal to a nominal amount (the **Optional Redemption Amount**) not less than a minimum redemption amount (the **Minimum Redemption Amount**) and not more than a maximum redemption amount (the **Maximum Redemption Amount**), each amount as specified in the applicable Final Terms.

b) Method of Redemption

The Notes to be redeemed (**Redeemed Notes**) will be selected individually by lot, in the case of Redeemed Notes represented by Definitive Notes, in accordance with the rules of Euroclear and/or Clearstream, and in the case of Redeemed Notes represented by a Global Note, not more than thirty (30) days prior to the date fixed for redemption (such date of selection being hereinafter called the **Selection Date**). In the case of Redeemed Notes represented by Definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 13 not less than fifteen (15) days prior to the date fixed for redemption. In the case of Redeemed Notes represented by a Global Note or Uncertificated Notes, the selection will be reflected in the manner prescribed by Euroclear and/or Clearstream. No exchange of the relevant Global Note will be permitted during the period from (and including) the Selection Date to (and including) the date fixed for redemption pursuant to this Condition and notice to that effect shall be given by the Issuer to the Noteholders in accordance with Condition 13 at least five (5) days prior to the Selection Date.

In the event of a partial redemption of Notes, the Issuer shall not be required to register the transfer of any Registered Note or part of a Registered Note called for partial redemption.

6.1.3.1.2 Redemption at the option of the Noteholders

If the applicable Final Terms specify that "*Redemption at the option of the Noteholders*" is "Applicable", the Notes are subject to redemption prior to the Maturity Date at the option of the Noteholders at the Optional Redemption Amount(s) (as defined in Condition 6.1.3.1.3 below) on the Optional Redemption Date(s) both as specified in the applicable Final Terms.

In respect of Eligible Notes, no redemption of the Notes at the option of the Noteholders is permitted.
The applicable Final Terms will specify the Notice Period (as defined in Condition 6.1.3.1.4 below).

6.1.3.1.3 Optional Redemption Amount(s)

In the case of Notes other than Preference Share Linked Notes, Warrant Linked Notes and Zero Coupon Notes:

The Optional Redemption Amount(s) shall be determined in accordance with one of the following paragraphs:

- Optional Redemption Amount = Specified Denomination multiplied by a percentage specified in the applicable Final Terms, which percentage may be a value yielded by one or several mathematical operations which may imply and be linked to the relevant Optional Redemption Date,

- Optional Redemption Amount shall be determined on the basis of the Final Redemption Amount as defined in the applicable Final Terms, calculated on the valuation date linked to the relevant Optional Redemption Date,

- If the Notes are Open-ended Notes or Spread Differential Notes (as defined in the Additional Terms and Conditions for Structured Linked Notes), the Optional Redemption Amount specified in the applicable Final Terms shall be the product of (i) Specified Denomination and (ii) the Product Formula of the Final Redemption Amount in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in paragraph "Reference of the Product" in the applicable Final Terms, but calculated on the valuation date linked to the relevant Optional Redemption Date,

- Optional Redemption Amount shall be equal to the Market Value (as defined in Condition 6.3 below);

and for each of the options above, if relevant and appropriate, with interest accrued to (but excluding or, in respect of Uncertificated Swedish Notes, and including) the relevant Optional Redemption Date(s).

In the case of Preference Share Linked Notes and Warrant Linked Notes:
The Optional Redemption Amount(s) shall be equal to the amount defined in the Additional Terms and Conditions for Preference Share Linked Notes or Additional Terms and Conditions for Warrant Linked Notes, as the case may be.

In the case of Zero Coupon Notes:
The Optional Redemption Amount(s) shall be equal to the Amortised Face Amount per Calculation Amount or a Constant, as defined in Condition 4.4 above.

6.1.3.1.4 Notice Period

6.1.3.1.4.1 Notice Period in case of optional redemption at the option of the Issuer

Upon having given notice to the Noteholders (in accordance with Condition 13) pursuant to a notice period of not less than 5 Business Days or any other notice period (the **Notice Period**) specified in the applicable Final Terms, provided that in any case it shall not be less than 3 Business Days, which notice shall be irrevocable and shall specify the date fixed for redemption, the Issuer shall redeem all (or part of the Notes only when “Redemption in part” is specified as applicable in the applicable Final Terms) of the Notes then outstanding on any Optional Redemption Date(s) and at the Optional Redemption Amount.

In respect of any Credit Linked Notes or Bond Linked Notes, the applicable Final Terms will specify which of the following condition applied:

- any notice given by the Issuer pursuant to this Condition shall be void and of no effect in relation to these Credit Linked Notes or Bond Linked Notes -in the event that a Credit Event Notice- or a Bond Event Notice, has been, or is, delivered to the Noteholders at any time on or prior to 5:00 p.m. (Paris time) on the fourth Business Day preceding the Optional Redemption Date in accordance with this Condition 6; or
- any notice given by the issuer pursuant to this Condition, along with the relevant Optional Redemption Amount, shall be deemed to prevail in one or several of the following cases:
(a) a Credit Event Notice or Bond Event Notice has been delivered prior to, or is delivered to the Noteholders on the same day as, or after any such notice of redemption at the option of the Issuer;
(b) a Potential Failure to Pay – and a Potential Repudiation/Moratorium if applicable – has/have already occurred and is/are continuing at the relevant Optional Redemption Date;
(c) If applicable in respect of Credit Linked Notes: a Notice of Pending Credit Event was delivered less than 100 Business Days prior to the relevant Optional Redemption Date and, immediately prior to such Optional Redemption Date, (x) no DC No Credit Event Announcement has been published and (y) no Credit Event Notice in relation to the pending event has been delivered.

In respect of any Note, any notice given by the Issuer pursuant to this Condition shall be void and of no effect in relation to that Note in the event that, prior to the giving of such notice by the Issuer, the Noteholder had already delivered a Put Notice in relation to that Note in accordance with Condition 6.1.3.1.4.2.

6.1.3.1.4.2 Notice Period in case of redemption at the option of the Noteholder

Subject to Condition 6.1.3.1.2, a Noteholder shall have the option to require that a Note be subject to Redemption at the option of the Noteholder upon such Noteholder giving notice to the Issuer, not less than 5 Business Days or any other notice period (the **Notice Period**) specified in the applicable Final Terms provided that in any case it shall not be less than 3 Business Days.

It may be that before an option to require that a Note be subject to "Redemption at the option of the Noteholders", certain conditions and/or circumstances, as specified in the applicable Final Terms, will need to be satisfied.

For the avoidance of doubt, where a Noteholder is not entitled to deliver a Put Notice (as defined below) by virtue of Condition 6.1.3.1.2 and in circumstances where no such notice is delivered, the relevant Notes shall be subject to redemption in the manner provided in the remaining provisions of this Condition 6.

Any Put Notice given by a Noteholder pursuant to this Condition shall be:
(1) irrevocable except where prior to the due date of the Optional Redemption Date(s) if an Event of Default has occurred and is continuing in which event such Noteholder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this Condition and instead to declare such Note forthwith due and payable pursuant to Condition 9 below; and

(2) void and of no effect in relation to such Note in the event that, prior to the giving of such Put Notice by the relevant Noteholder (A) such Note constituted a Redeemed Note (as defined in Condition 6.1.3.1.1.2), (B) the Issuer had notified the Noteholders of its intention to redeem all of the Notes in a Series of Notes then outstanding, in each case pursuant to Condition 13 or (C) the Notes were otherwise already subject to early redemption in accordance with the Terms and Conditions.

To exercise the right to require redemption of a Note, the Noteholder must within the Notice Period deliver a duly completed and signed notice (a **Put Notice**):

(i) if the Note is in definitive form and held outside Euroclear and Clearstream, in the form (for the time being current) obtainable from any specified office of any Paying Agent or, as the case may be, the Registrar, to the specified office of any Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes) at any time during normal business hours of such Paying Agent or, as the case may be, the Registrar and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition and, in the case of Registered Notes, the nominal amount thereof to be redeemed and, if less than the full nominal amount of the Registered Notes so surrendered is to be redeemed, an address to which a new Registered Note in respect of the balance of such Registered Notes is to be sent subject to and in accordance with the provisions of Condition 13. If this Note is in definitive form, the Put Notice must be accompanied by this Note or evidence satisfactory to the Paying Agent concerned that this Note will, following delivery of the Put Notice, be held to the order or under its control, or

(ii) if the Note is represented by a Global Note or is in definitive form and held through Euroclear or Clearstream or any clearing institution in Switzerland or abroad recognised for such purposes by SIX Swiss Exchange (as applicable) (**Clearing System**), to the Principal Paying Agent in accordance with the standard procedures of the relevant Clearing System (which may include notice being given on his instruction by the Clearing System or any common depositary or common safekeeper, as the case may be, for them to the Principal Paying Agent by electronic means) in a form acceptable to the relevant Clearing System from time to time, or

(iii) If the Note is an Uncertificated Note, in a form in accordance with the rules and procedures of the relevant Clearing System, provided that:

(x) a Put Notice will not be effective against the Issuer before the date on which the relevant Notes have been transferred to the account designated by the Principal Paying Agent specified in the applicable Final Terms (which, for the purposes of the Uncertificated Notes, will be an account operator specifically authorised by the relevant central securities depositary and clearing institution to process and register issues in the system of the relevant central securities depositary and clearing institution), and blocked by such Principal Paying Agent to prevent further transfer as of the Optional Redemption Date, and

(y) if there is any inconsistency between the above and the rules and procedures of the relevant Clearing System, then the rules and procedures of the relevant Clearing System shall prevail.

6.1.3.2 Automatic Early Redemption

If the applicable Final Terms specify that "Automatic Early Redemption" is "Applicable", the Notes are subject to automatic redemption prior to the Maturity Date at the automatic early redemption amount(s) (**Automatic Early Redemption Amount(s)**) on the automatic early redemption date(s) (**Automatic Early Redemption Date(s)**) and following the automatic early redemption event (**Automatic Early Redemption Event**), as specified in the applicable Final Terms.

The Automatic Early Redemption Amount(s) shall be determined as follows:

Automatic Early Redemption Amount(s) = Specified Denomination multiplied by a Product Formula described in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in paragraph “Reference of the Product” in the applicable Final Terms.

In the case of Automatic Early Redemption for Warrant Linked Notes, the Automatic Early Redemption Amount per Calculation Amount will be determined and calculated in accordance with the Additional Terms and Conditions for Warrant Linked Notes.

For the purpose of this Condition:

Product Formula and Reference of the Product shall have the meaning given to them in the Additional Terms and Conditions relating to Formulae.

6.1.3.3 Interest Amount and/or the Redemption Amount switch at the option of the Issuer

For the purposes of this Condition:

(i) Any reference to "Interest Amount" shall be deemed to be a reference to the Fixed Coupon Amount, the Floating Coupon Amount and/or the Structured Interest Amount (each defined above) as the context requires.

(ii) Any reference to "Redemption Amount" shall be deemed to be a reference to the Final Redemption Amount, the Automatic Early Redemption Amount and/or the Optional Redemption Amount (each defined in this Condition 6) as the context requires.

If the applicable Final Terms specify that "Interest Amount and/or the Redemption Amount switch at the option of the Issuer " is "Applicable" and if the market value of the Note is higher than or equal to a predefined market value (the **Market Value for the**

Switch), the Issuer shall then have the right (i) to add any Interest Amount or (ii) to replace any Interest and/or Redemption Amount by the other Amounts, described here below.

The applicable Final Terms will specify the Market Value for the Switch, the substitute coupon amount (the **Substitute Coupon Amount**) and the substitute coupon additional amount (the **Additional Substitute Coupon Amount**) if "Substitute Coupon" is "Applicable" and/or the substitute final redemption amount (the **Substitute Final Redemption Amount**) if "Substitute Final Redemption" is "Applicable" and the optional modification date(s) (the **Optional Modification Date(s)**) and the Notice Period (as defined below).

Substitute Coupon Amount means an amount determined in accordance with Condition 4.1 related to Fixed Rate Notes or with Condition 4.2 related to Floating Rate Notes.

Additional Substitute Coupon Amount means an amount determined in accordance with Condition 4.1 related to Fixed Rate Notes or with Condition 4.2 related to Floating Rate Notes.

Substitute Final Redemption Amount means an amount determined in accordance with the following provisions:

Substitute Final Redemption Amount = Specified Denomination multiplied by the percentage specified in the applicable Final Terms

The Issuer may, after having given notice to the Noteholders (in accordance with Condition 13) pursuant to a notice period (the Notice Period) specified in the applicable Final Terms (which notice shall be irrevocable and shall specify the date fixed for the switch), substitute the Interest Amount and/or the Redemption Amount by other Amounts.

Any Notice given by the Issuer pursuant to this Condition shall be void and of no effect in relation to such Note in the event that, prior to the giving of such Notice by the Issuer, the Noteholder had already delivered a Put Notice in relation to that Note in accordance with Condition 6.1.3.1.2.

6.1.3.4 Open-ended Notes

If the applicable Final Terms specify that the Notes are “Open-ended Notes”, the Notes will not have a predefined maturity date.

The Issuer and the Noteholders will have the right to redeem the Notes, at their Optional Redemption Amount as per Condition 6.1.3.1.1 or Condition 6.1.3.1.2 and Condition 13.

6.1.3.5 Instalment Notes

If the applicable Final Terms specify that "*Instalment Notes Provisions*" is "Applicable", this Condition applies.

The applicable Final Terms will specify the instalment amount(s) (**Instalment Amount(s)**) and the instalment date(s) (**Instalment Date(s)**).

An adjusted specified denomination (**Adjusted Specified Denomination**) may be used for the purpose of calculating the Instalment Amount(s), and will be then specified in the applicable Final Terms.

In the case of early redemption, the Early Redemption Amount will be determined pursuant to Condition 6.3.

6.1.3.6 Partly Paid Notes

If the applicable Final Terms specify that "*Partly Paid Notes Provisions*" is "Applicable", this Condition applies.

The applicable Final Terms will specify the part payment amount(s) (**Part Payment Amount(s)**) and the part payment date(s) (**Part Payment Date(s)**).

Partly Paid Notes will be subscribed at the Part Payment Amount(s) on the Part Payment Date(s) specified in the applicable Final Terms. The obligation to pay a Part Payment Amount on the relevant Part Payment Date is only incurred by the Noteholders on such Part Payment Date.

Partly Paid Notes will be redeemed on the Maturity Date at their nominal amount and on any Optional Redemption Date at their paid-up nominal amount as at the date fixed for redemption. In the event that any Noteholder fails to pay a Part Payment Amount on the relevant Part Payment Date (such date a **Part Payment Default Date**), any such Notes held by such Noteholder shall automatically be redeemed on the relevant Early Redemption Date at the Settlement Amount.

For the purposes of this Condition:

Early Redemption Date means, in respect of any Note, the seventh Payment Business Day following a Part Payment Default Date;

Settlement Amount means, in respect of any Note, an amount determined by the Calculation Agent in accordance with the following formula:

Max [0; [Paid-up Nominal Amount – Unwinding Costs]]

Where:

Paid-up Nominal Amount means, in respect of any Part Payment Date, the paid-up nominal amount of the relevant Note up to (and including) the applicable Part Payment Date. Interest will neither accrue nor be payable in respect of the period from and including the applicable Part Payment Default Date to and including the applicable Early Redemption Date; and

Unwinding Costs means the pro rata share, in respect of each Note, of the losses (expressed as a positive number) or the gains (expressed as a negative number) of unwinding all hedging arrangements (taking into account the present value of any Part Payment Amount(s) remaining to be paid in respect of the Notes) entered into or purchased by the Issuer and/or the Guarantor in respect of the Notes.

6.1.3.7 Late Payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note, except for Registered Notes, pursuant to Condition 6 or upon its becoming due and repayable as provided in Condition 9 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as per Condition 4.4 with references therein to the date fixed for the redemption or the date upon which the Zero Coupon Note becomes due and repayable replaced by references to the date which is the earlier of:

(1) the date on which all amounts due in respect of the Zero Coupon Note have been paid; and

(2) five days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Note has been received by the Principal Paying Agent and notice to that effect has been given to the Noteholders in accordance with Condition 13.

6.2 Redemption following a Special Event

A **Special Event** means any of the events as defined below:

- a Tax Event (6.2.1),
- a Special Tax Event (6.2.1),
- a Regulatory Event (except for Eligible Notes) (6.2.1),
- a Force Majeure Event (except for Eligible Notes) (6.2.1),
- an Event of Default (except for Eligible Notes)(6.2.1),
- an Administrator/Benchmark Event (except for Eligible Notes) (6.2.2),
- a Trigger redemption at the option of the Issuer (except for Eligible Notes)(6.2.3),
- a Forced redemption or transfer event of Registered Notes (except for Eligible Notes)(6.2.4), or
- a MREL Disqualification Event (for Eligible Notes only) (6.2.5).

Except as otherwise specified in this Condition 6.2, if a Special Event, as defined in this Condition, occurs in respect of a Series of Notes on or after the Issue Date of the first Tranche of the Series of Notes, the Issuer or the Guarantor (as applicable) and in respect of Eligible Notes, subject to the prior written permission of the Relevant Resolution Authority, may by notice to the Principal Paying Agent and to the Noteholders, elect that the Notes shall be redeemed early on the fourteenth (14th) calendar day after the delivery by the Issuer (or the Guarantor, as applicable) of the applicable notice of early redemption (the **Early Redemption Date**), in accordance with this Condition.

Preference Share Linked Notes and Warrant Linked Notes shall be redeemed at their Early Redemption Amount as defined in the Additional Terms and Conditions for the relevant Notes.

Notes other than Preference Share Linked Notes and Warrant Linked Notes will be redeemed as further described in this Condition.

For the purposes of this Condition:

Administrator/Benchmark Event has the meaning given to it in Condition 4.2.3.7.

Change in Law means (i) the adoption, enactment, promulgation, execution or ratification of any applicable new law, regulation or rule (including, without limitation, any applicable tax law, regulation or rule) after the Issue Date of the Notes, (ii) the implementation or application of any applicable law, regulation or rule (including, without limitation, any applicable tax law, regulation or rule) already in force on the Issue Date of the Notes but in respect of which the manner of its implementation or application was not known or unclear at the Issue Date, or (iii) the change of any applicable law, regulation or rule existing at the Issue Date of the Notes, or the change in the interpretation or application or practice relating thereto, existing on the Issue Date of the Notes of any applicable law, regulation or rule, by any competent court, tribunal, regulatory authority or any other entity exercising executive, legislative, judicial, taxing, regulatory or administrative powers or functions of or pertaining to government (including any additional or alternative court, tribunal, authority or entity, to that existing on the Issue Date).

Early Redemption of the Notes means the redemption of the Notes, in whole, but not in part, at any time (in the case of Notes other than Floating Rate Notes or any other interest bearing Notes in respect of which the Rate of Interest is not calculated on a fixed rate basis (Structured Interest Notes)) or on any Interest Payment Date (in the case of Floating Rate Notes or Structured Interest Notes) at the Early Redemption Amount referred to in Condition 6.3, together (if appropriate) with accrued interest to (but excluding or, in respect of Uncertificated Swedish Notes, and including) the date of redemption provided that in respect of Preference Share Linked Notes or Warrant Linked Notes, the redemption of the Notes shall be at the relevant Early Redemption Amount as defined in the Additional Terms and Conditions for the relevant Notes.

Event of Default has the meaning given to it in Condition 9.

Force Majeure Event means that, by reason of the occurrence of an event or an act of state, on or after the Issue Date, for which the Relevant Entity (as defined below) is not accountable, it becomes impossible and insurmountable for the Relevant Entity to perform its obligations under the Notes, so that the continuance of the Notes is thereby rendered definitively impossible.

Monetisation with Early Redemption at the option of the Noteholder means that the Issuer will apply "Monetisation until the Maturity Date" in accordance with Condition 6.5 but will also offer the Noteholders the option of having their Notes redeemed prior to the Maturity Date in whole (but not in part). If a Noteholder requires the Issuer to redeem such Notes, the Issuer shall terminate its obligations under such Notes and shall pay or cause to be paid an Early Redemption Amount determined on the basis of Market Value as defined in Condition 6.3.

MREL Disqualification Event means a change in the classification of the Eligible Notes under the MREL Requirements, that was not reasonably foreseeable by Societe Generale at the Issue Date of such Notes, and that would be likely to result in or has resulted in the Eligible Notes being fully or partially excluded from the eligible liabilities available to meet the MREL Requirements (as named or defined by the then applicable laws and regulations or MREL criteria applicable to the Issuer). For the avoidance of doubt, the exclusion of a Series of Eligible Notes from the eligible liabilities available to meet the MREL Requirements due to the remaining term of such Notes being less than any period prescribed thereunder does not constitute a MREL Disqualification Event.

Regulatory Event means, following the occurrence of a Change in Law with respect to the Issuer and/or Societe Generale as Guarantor or in any other capacity (including without limitation as market maker of the Notes or direct or indirect shareholder or sponsor of the Issuer) or any of its affiliates involved in the issue of the Notes (hereafter the **Relevant Affiliates** and each of the Issuer, Societe Generale and the Relevant Affiliates, a **Relevant Entity**) that, after the Issue Date of the Notes, (i) any Relevant Entity would incur a materially increased (as compared with circumstances existing prior to such event) amount of tax, duty, liability, penalty, expense, fee, cost or regulatory capital charge however defined or collateral requirements for performing its obligations under the Notes, including, without limitations, due to clearing requirements of, or the absence of, clearing of the transactions entered into in connection with the issue of the Notes, (ii) the Relevant Entity would be required to obtain any licence, authorization, approval, permit, registration from any governmental, inter-governmental, supranational authority, agency, instrumentality, ministry or department thereof that it does not hold as of the Issue Date or to modify its by-laws to comply with the new requirements (a) to hold, acquire, issue, reissue, substitute, maintain, redeem, settle or as the case may be, guarantee, the Notes, (b) to acquire, hold, sponsor or dispose of any asset(s) (or any interests therein) of any other transaction(s) such Relevant Entity may use in connection with the issue of the Notes, (c) to perform obligations in connection with, the Notes or any contractual arrangement entered into between the Issuer and Societe Generale or any Relevant Affiliate or (d) to hold, acquire, maintain, increase, substitute or redeem all or a substantial part of its direct or indirect shareholding in the Issuer's capital or the capital of any Relevant Affiliate or to directly or indirectly sponsor the Issuer or any Relevant Affiliate, or (iii) there is or may be a material adverse effect on a Relevant Entity in connection with the issue of the Notes.

Relevant Notice means, a notice given in accordance with Condition 13 (i) not less than 30 nor more than 45 days, in respect of a Tax Event, a Regulatory Event or a Force Majeure Event, (ii) not less than 7 nor more than 45 days in respect of a Special Tax Event, to the Noteholders (which notice shall be irrevocable) and to the Principal Paying Agent.

Special Tax Event means that the Issuer or, as the case may be, the Guarantor would, on the occasion of the next payment (including payment of principal or interest, if any) or delivery in respect of the Notes, be prevented by the law of a Tax Jurisdiction (as defined in Condition 7) from causing payment or delivery, as the case may be, to be made to the Noteholders of the full amount then due and payable or deliverable, as the case may be, notwithstanding the undertaking to pay additional amounts contained in Condition 7.2.

Tax Event means that (i) the Issuer or, as the case may be, the Guarantor, has or will become obliged to pay additional amounts as provided or referred to in Condition 7 as a result of any change in, or amendment to, the laws or regulations of a Tax Jurisdiction (as defined in Condition 7) or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the Issue Date of the first Tranche of the Notes, and (ii) such obligation cannot be avoided by the Issuer or, as the case may be, the Guarantor taking reasonable measures available to it.

A Tax Event, Special Tax Event, Regulatory Event or Force Majeure Event are each an **Exceptional Event** and together the **Exceptional Events**.

6.2.1 Redemption for Tax Event, Special Tax Event, Regulatory Event (except for Eligible Notes), Force Majeure Event (except for Eligible Notes) or Event of Default (except for Eligible Notes)

If the applicable Final Terms specify:

(a) "Early Redemption"

then, upon the occurrence of an Exceptional Event, the Calculation Agent may, on giving a Relevant Notice, apply Early Redemption of the Notes as defined above, or

(b) "Early Redemption or Monetisation until the Maturity Date",

then, upon the occurrence of a Tax Event, Special Tax Event or Regulatory Event, the Calculation Agent may, on giving a Relevant Notice, decide to apply either:

(i) Early Redemption of the Notes, or

(ii) "Monetisation until the Maturity Date" in accordance with Condition 6.5,

and upon the occurrence of a Force Majeure Event or Event of Default (unless the applicable Final Terms specify that Event of Default is not applicable) and in case of Preference Share Linked Notes and Warrant Linked Notes, the Calculation Agent may only apply Early Redemption of the Notes, or

(c) "Monetisation with Early Redemption at the option of the Noteholders, except for Force Majeure Event or Event of Default",

then, upon the occurrence of a Tax Event, Special Tax Event or Regulatory Event, the Calculation Agent may, on giving a Relevant Notice, apply Monetisation with Early Redemption at the option of the Noteholder as defined above, and

upon the occurrence of a Force Majeure Event or Event of Default (unless the applicable Final Terms specify that Event of Default is not applicable) and in case of Preference Share Linked Notes and Warrant Linked Notes, the Calculation Agent may only apply Early Redemption of the Notes.

If following the occurrence of Tax Event or Special Tax Event, Early Redemption of the Notes does not apply (in accordance with (b) or (c) above), then Condition 7.2 "Gross-up" will not apply.

If the applicable Final Terms specify that Tax Event or Special Tax Event is not applicable, then in case of occurrence of a Tax Event or Special Tax Event the Notes will remain unchanged.

6.2.2 Redemption upon the occurrence of an Administrator /Benchmark Event (except for Eligible Notes)

Upon the occurrence or likely occurrence, as determined by the Calculation Agent, of an Administrator/Benchmark Event in case of Floating Rate Notes as described in Condition 4.2.3.1 above, on or after the Issue Date and if the Calculation Agent has not been able to determine a Replacement Rate and, as the case may be, an Adjustment Spread in accordance with the provisions of Condition 4.2.3.5.2 above, then the Calculation Agent, acting in good faith, may either:

(i) consider such event as an event triggering an early redemption of the Notes (hereafter, an Early Redemption Event). In that case, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount based on the Market Value as defined in Condition 6.3 below; or

(ii) apply Monetisation until the Maturity Date (as defined in Condition 6.5 below).

6.2.3 Trigger redemption at the option of the Issuer (except for Eligible Notes)

If the applicable Final Terms specify that "*Trigger redemption at the option of the Issuer*" is "Applicable", then in the event that at any time during the life of the Notes and for any reason whatsoever, the Aggregate Outstanding Nominal Amount of the Notes equals or falls below the Outstanding Amount Trigger Level, the Issuer shall have the option, subject to any applicable law and regulation, and in the case of Eligible Notes, subject to the prior written permission of the Relevant Resolution Authority, to redeem all (but not some only) of the remaining outstanding Notes at the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 upon giving not less than fifteen (15) Business Days' notice to the Noteholders (in accordance with Condition 13) specifying that the Outstanding Amount Trigger Level has been reached.

For the purposes of this Condition:

Aggregate Outstanding Nominal Amount means, at any time, the product of (a) the Specified Denomination and (b) the number of Notes outstanding held at such time by Noteholders other than Societe Generale or its affiliates for their own account as determined in good faith by the Paying Agent in consultation with the clearing institution(s) in or through which the Notes are held and transactions in such Notes are cleared.

Outstanding Amount Trigger Level means 10% of the Aggregate Nominal Amount of the Notes initially issued or, if different from 10%, the level specified as such in the applicable Final Terms.

6.2.4 Redemption or forced transfer of Registered Notes and Bearer Notes (except for Eligible Notes)

Any transfer or other disposition of any legal or beneficial ownership interest in a Non-U.S. Registered Note or a Bearer Note to a person that is not a Permitted Transferee will be void *ab initio* and of no legal effect whatsoever. Any purported transferee of any legal or beneficial ownership interest in a Non-U.S. Registered Note or a Bearer Note in such a transaction will not be entitled to any rights as a legal or beneficial owner of such interest in such a Non-U.S. Registered Note or a Bearer Note. If the Issuer determines at any time that a holder of a Non-U.S. Registered Note or a Bearer Note (i) is a person that is not a Permitted Transferee, or (ii) purchased such Non-U.S. Registered Note or a Bearer Note in breach of the deemed or actual representations given by such Noteholder upon the purchase of such Non-U.S. Registered Note or a Bearer Note, the Issuer may (a) redeem such Non-U.S. Registered Note or a Bearer Note at the Early Redemption Amount, or (b) direct such Noteholder to sell or transfer its Non-U.S. Registered Note or a Bearer Note to a Permitted Transferee in an offshore transaction meeting the requirements of Regulation S within 30 days following receipt of such notice, and if such Noteholder fails to sell or transfer its Non-U.S. Registered Note or a Bearer Note within such 30 day period, the Issuer may transfer or sell such Non-U.S. Registered Note or a Bearer Note on behalf of such Noteholder.

No payments will be made on the affected Notes from the date notice of the sale requirement is sent to the date on which the affected Notes are sold.

There can be no assurance that a Noteholder, or an interest therein, who is required to sell Notes, or whose Notes are sold on his behalf (pursuant to this Condition) will not incur a significant loss as a result of the need for the relevant Issuer, or for the transferor, to find a qualifying transferee willing to purchase the Notes. Neither the relevant Issuer, the Guarantor (if applicable) nor any other party shall be liable to a Noteholder for any such loss.

6.2.5 Redemption for a MREL Disqualification Event (for Eligible Notes)

Upon the occurrence of a MREL Disqualification Event in respect of Eligible Notes, the Issuer may, at any time, at its option (subject to the prior written permission of the Relevant Resolution Authority) and having given not less than thirty (30) nor more than forty-five (45) calendar days' prior irrevocable notice to the Principal Paying Agent, the Noteholders and the Couponholders, in accordance with Condition 13, redeem the outstanding Notes in whole but not in part at their Early Redemption Amount specified in the applicable Final Terms.

6.3 Early Redemption

Where the amount due to be paid to (or delivered to, in the case of Physical Delivery Notes) a Noteholder as a result of Condition 6.2 and Condition 9 is expressed to be the "Early Redemption Amount", such amount will be determined in accordance with the applicable provisions of this Condition.

The Early Redemption Amount will be calculated as follows:

(1) in the case of Notes with a Final Redemption Amount equal to the Issue Price, at the Final Redemption Amount thereof; or

(2) in the case of Notes (other than Zero Coupon Notes) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Notes are denominated, at the amount determined and calculated pursuant the provisions of Condition 5.1; or

(3) in the case of Notes with an Early Redemption Amount specified as Market Value in the applicable Final Terms:

(i) at an amount determined by the Calculation Agent, which, on the due date for the redemption of the Notes, shall represent the fair market value of the Notes and shall have the effect (after taking into account the costs that cannot be avoided to redeem the fair market value to the Noteholders) of preserving for the Noteholders the economic equivalent of the obligations of the Issuer to make the payments in respect of the Notes which would, but for such early redemption, have fallen due after the relevant early redemption date; or

(ii) in case of Italian Certificates only, at an amount determined in good faith and in a commercially reasonable manner by the Calculation Agent to be the fair market value of the Italian Certificates immediately prior (and ignoring the circumstances leading) to such early termination; or

(iii) in case of Spread Differential Notes only, at an amount determined by the Calculation Agent, which, on the due date for the redemption of the Notes, shall represent the fair market value of the Notes, shall take into account the relevant Spread Value(t) and shall have the effect (after taking into account the costs that cannot be avoided to redeem the fair market value to the Noteholders) of preserving for the Noteholders the economic equivalent of the obligations of the Issuer to make the payments in respect of the Notes which would, but for such early redemption, have fallen due after the relevant early redemption date; the Market Value may be less than the market value of a Societe Generale vanilla bond having the same coupon and maturity as these Notes; or

(4) in the case of Physical Delivery Notes, at the Physical Delivery Amount specified in the applicable Final Terms; or

(5) in the case of Zero Coupon Notes the Early Redemption Amount shall be equal to the Market Value (as defined in paragraph 3 above); or the Amortised Face Amount, as specified in the applicable Final Terms.

(6) in the case of Preference Share Linked Notes and Warrant Linked Notes, at the Early Redemption Amount determined and calculated in accordance with the Additional Terms and Conditions for Preference Share Linked Notes and the Additional Terms and Conditions for Warrant Linked Notes or at an amount specified in the applicable Final Terms, as the case may be.

For the avoidance of doubt, for the purpose of calculating the Market Value following an Event of Default pursuant to Condition 9 only, no account shall be taken of the creditworthiness of:

(i) the Issuer, which shall be deemed to be able to perform fully its obligations in respect of the Notes;

(ii) the Guarantor, which shall be deemed to be able to perform fully its obligations under the Guarantee;

in respect of Notes bearing interest, notwithstanding anything to the contrary in these Conditions, the Early Redemption Amount, as determined by the Calculation Agent in accordance with this paragraph shall include any accrued interest to (but excluding or, in respect of Uncertificated Swedish Notes, and including) the relevant early redemption date and apart from any such interest included in the Early Redemption Amount, no interest, accrued or otherwise, or any other amount whatsoever will be payable by the Issuer or, as the case may be, the Guarantor in respect of such redemption. Where such calculation is to be made for a period of less than a full year, it shall be made on the basis of the Day Count Fraction, if applicable, as specified in the applicable Final Terms.

6.4 Conditions to early redemption, purchase and cancellation with respect to Eligible Notes issued by Societe Generale

As indicated above, the Notes issued by Societe Generale that are Eligible Notes may be early redeemed, purchased or cancelled pursuant to Conditions 6.1.3.1.1, 6.2, 14.3 and 14.4, as the case may be, subject to prior written permission of the Relevant Resolution Authority.

6.5 Monetisation until the Maturity Date

If (i) for the purpose of Conditions 6.2.1 or 6.2.2. the Issuer elects to apply Monetisation until the Maturity Date or if the applicable Final Terms specify that Early Redemption, will not apply or (ii) if pursuant to the applicable Additional Terms and Conditions specified in the applicable Final Terms, the Calculation Agent elects to apply Monetisation as per this Condition, then the Issuer shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date, and/or (2) the Optional Redemption Amount on the Optional Redemption Date, and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 6.5.1, 6.5.2 and/or 6.5.3 below.

In addition, in respect of Physical Delivery Notes, following the occurrence of an event giving rise to the Monetisation until the Maturity Date, the Issuer shall no longer be liable for delivery of (1) the Physical Delivery Amount related to the Intermediate Amount Payment Date, and/or (2) the Physical Delivery Amount related to the Optional Redemption Date, and/or (3) the Physical Delivery Amount as defined in the applicable Final Terms on the Maturity Date but instead will, in full and final satisfaction of its obligations, deliver Deliverable Asset(s) in an amount equal to the amount described in Conditions 6.5.1, 6.5.2 or 6.5.3 below.

This Condition 6.5 and the Monetisation with Early Redemption at the option of the Noteholder will apply, if “Redemption for Tax Event, Special Tax Event, Regulatory Event, Force Majeure Event or Event of Default", of the applicable Final Terms specifies that “Monetisation with Early Redemption at the option of the Noteholders, except for Force Majeure Event, or Event of Default" applies.

All references to the word "fourth" in the paragraphs below may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

6.5.1 Monetisation of any Intermediate Amount

6.5.1.1 In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which could be as low as zero

Pursuant to the provisions of this Condition, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that, Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be, would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (b) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.1.2 In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which cannot be in any case lower than an amount strictly positive (the Minimum Intermediate Amount)

Pursuant to the provisions of this Condition, the Issuer shall pay (1) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (2) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

(a) (i) the net positive cash amount that Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (ii) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded), and

(b) an amount equal to the Minimum Intermediate Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.2 Monetisation of any Optional Redemption Amount

6.5.2.1 In respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Final Terms could be as low as zero

Pursuant to the provisions of this Condition, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be would be left with on the Optional Full Liquidation Date, as a result of liquidating the Optional Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (b) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.2.2 In respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Final Terms cannot be in any case lower than an amount strictly positive (the Optional Minimum Redemption Amount)

Pursuant to the provisions of this Condition, the Issuer shall pay on the Optional Redemption Date an amount per Note equal to the Optional Minimum Redemption Amount and on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

(a) (i) the net positive cash amount that Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be would be left with on the Optional Full Liquidation Date, as a result of liquidating, the Optional Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (ii) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded), and

(b) an amount equal to the Optional Minimum Redemption Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.3 Monetisation of the Final Redemption Amount

6.5.3.1 In respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Final Terms could be as low as zero

Pursuant to the provisions of this Condition, the Issuer shall pay on the Maturity Date, an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be would be left with on the Full Liquidation Date, as a result of liquidating the Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (b) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.3.2 In respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Final Terms cannot be in any case lower than an amount strictly positive (the Minimum Redemption Amount)

Pursuant to the provisions of this Condition, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the sum of (1) the Minimum Redemption Amount and (2) an amount, equal to the positive difference, if any, between:

(a) (i) the net positive cash amount that Societe Generale or any of its affiliates or a Hypothetical Investor, as the case may be, would be left with on the Full Liquidation Date, as a result of liquidating, the Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (ii) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded), and

(b) an amount equal to the Minimum Redemption Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.4 Definitions specific to the Monetisation until the Maturity Date

Adjusted Calculation Amount means (a) in respect of the first Compounding Period of a Calculation Period, the Calculation Amount for that Calculation Period and (b) in respect of any succeeding Compounding Period in that Calculation Period, an amount equal to the sum of the Calculation Amount for that Calculation Period and the Compounding Period Amounts for each of the previous Compounding Periods in that Calculation Period.

Clearing System means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

Compounding Date means, in respect of a Calculation Period, each Business Day (as defined in Condition 4.7.1) of such Calculation Period.

Compounding Method means that the amount of interest shall be equal to the sum of the Compounding Period Amounts for each Compounding Period in the related Calculation Period.

Compounding Period means, in respect of a Calculation Period, each period from and including a Compounding Date to but excluding the immediately following Compounding Date during that Calculation Period.

Compounding Period Amount means, in respect of a Compounding Period, the product of (a) the Adjusted Calculation Amount, (b) the Compounding Rate and (c) the Day Count Fraction.

Compounding Rate means, in respect of a Compounding Period Amount, the annualised interest rate that the Issuer offers in the Specified Currency as determined by the Calculation Agent on the first day of the relevant Compounding Period; the specific Compounding Rate used in respect of a Specified Currency shall be available at the office of the Calculation Agent from the first day of a Calculation Period.

Day Count Fraction means, for the purposes of Compounding Method, the exact number of days in a Compounding Period (the first included and the last excluded), divided by 360.

Full Liquidation Date means, in respect of the Maturity Date the date on which the liquidation proceeds of the Hedge Positions (including inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Hedge Positions, if any, with the liquidation proceeds of the assets of such Hedge Positions) are deemed, as determined by the Calculation Agent, to be fully received by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be.

Hedge Positions means any purchase, sale, entry into or maintenance, by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be, of one or more (a) positions or contracts in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) cash deposits or cash borrowings and/or (d) other instruments, arrangements, assets or liabilities howsoever described, in order to hedge individually or on a portfolio basis, part or all of Societe Generale or any of its affiliates' or a Hypothetical Investor, as the case may be, obligations under the Notes due on the Maturity Date apportioned pro rata to each outstanding Note provided that, if the Intermediate Full Liquidation Date and/or the Optional Full Liquidation Date has not occurred on or before the fourth Business Day preceding the Maturity Date, then Hedge Positions will include the Intermediate Hedge Positions and/or the Optional Hedge Positions.

Hypothetical Investor means a hypothetical institutional investor not resident in (a) the applicable Relevant Jurisdiction, Local Jurisdiction and/or the Tax Residence Jurisdiction for the purposes of the tax laws and regulations of the Relevant Jurisdiction, Local Jurisdiction and/or the Tax Residence Jurisdiction, as applicable; or (b) a jurisdiction where any refund, credit or any other benefit, exemption or reduction in relation to any Local Taxes may arise under an applicable tax treaty or any relevant laws or arrangements.

Intermediate Amount means either an Interest Amount or an Instalment Amount.

Intermediate Full Liquidation Date means, in respect of any Intermediate Payment Date, the date on which the liquidation proceeds of the Intermediate Hedge Positions (including inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of such Intermediate Hedge Positions) are deemed, as determined by the Calculation Agent, to be fully received by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be.

Intermediate Hedge Positions means any purchase, sale, entry into or maintenance, by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be, of one or more (a) positions or contracts in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) cash deposits or cash borrowings and/or (d) other instruments, arrangements, assets or liabilities howsoever described, in order to hedge individually or on a portfolio basis, part or all of Societe Generale or any of its affiliates' obligations under the Notes due on an Intermediate Payment Date, apportioned pro rata to each outstanding Note.

Intermediate Payment Date means either an Interest Payment Date or an Instalment Date specified as such in the applicable Final Terms of the relevant Notes.

Local Jurisdiction has the meaning given to it in the Additional Terms and Conditions for Structured Notes.

Local Taxes has the meaning given to it in the Additional Terms and Conditions for Structured Notes.

Maturity Date means the date specified as such in the applicable Final Terms of the relevant Notes.

Optional Redemption Amount means the amount specified as such in the applicable Final Terms of the relevant Notes.

Optional Redemption Date means the date specified as such in the applicable Final Terms of the relevant Notes.

Optional Full Liquidation Date means, in respect of an Optional Redemption Date, the date on which the liquidation proceeds of the Optional Hedge Positions (including inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of such Optional Hedge Positions) are deemed to be fully received by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be, all as determined by the Calculation Agent.

Optional Hedge Positions means any purchase, sale, entry into or maintenance, by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be, of one or more (a) positions or contracts in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) cash deposits or cash borrowings and/or (d) other instruments, arrangements, assets or liabilities howsoever described, in order to hedge individually or on a portfolio basis, a part or all of Societe Generale or any of its affiliates' obligations under the Notes due on an Optional Redemption Date, apportioned pro rata to each outstanding Notes.

Relevant Spot Exchange Rate means in respect of a date and an amount to be converted into the Specified Currency, the rate of exchange of the currency in which such amount is denominated into the Specified Currency used to convert such amount on such date into the Specified Currency as determined by the Calculation Agent.

Tax Residence Jurisdiction has the meaning given to it in Condition 7.

7. TAXATION

7.1 Withholding taxes

All payments and deliveries in respect of Notes and, if applicable, under the Guarantee, shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any jurisdiction unless such withholding or deduction is required by law and/or if specified otherwise in the Terms and Conditions.

7.2 Gross-up

Unless the applicable Final Terms specify that (i) the Gross-up provision is not applicable or (ii) Early Redemption for the purpose of Condition 7.2 is not applicable, this Condition will apply.

If payments in respect of Notes or (if applicable) under the Guarantee, are subject under the legislation of any Tax Jurisdiction, to a withholding or a deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, the relevant Issuer or, as the case may be, the Guarantor shall, to the fullest extent permitted by law,

(i) if the Notes are not Eligible Notes, in respect of payments of interest (if any) and principal; or
(ii) if the Notes are Eligible Notes, in respect of payments of interest (if any) only,

pay such additional amount as may be necessary, in order that each Noteholder after such withholding or deduction, will receive (in the case of Notes falling within (i) above only) principal and (in the case of any Notes) interest (if any) due and payable provided that no such additional amount shall be payable with respect to any Note:

(1) the holder of which is liable to such taxes, duties, assessments or governmental charges in respect of such Note by reason of their being connected with Luxembourg (in the case of payments by SG Issuer) or France (in the case of payments by Societe Generale) other than by the mere holding of such Note; or

(2) presented for payment more than 30 days after the Relevant Date (as defined below), except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Business Day (as defined in Condition 5.12); or

(3) in respect of Exempt Offers, if the applicable Final Terms indicate that no such additional amounts shall be payable.

[7.3 Left blank intentionally]

7.4. U.S. Taxes

Notwithstanding any other provision of these General Terms and Conditions, in no event will the Issuer or the Guarantor be required to pay any additional amounts in respect of the Notes for, or on account of, any withholding or deduction (i) required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, or any official interpretations thereof, or any law implementing an intergovernmental approach thereto, (ii) imposed pursuant to the Section 871(m) Regulations or (iii) imposed by any other law of the United States. In addition, in determining the amount of Section 871(m) withholding imposed, the Issuer shall be entitled to withhold on any "dividend equivalent" (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

If the Issuer or the Guarantor determines that the Notes are Specified Notes pursuant to Section 871(m) Regulations, the applicable Final Terms will specify the withholding rate, the name of the entity which will withhold the rate and the e-mail address where the Noteholders can request additional information regarding the application of Section 871(m) Regulations.

With respect to Specified Notes that provide for net dividend reinvestment in respect of either an underlying U.S. security (i.e. a security that pays U.S. source dividends) or an index that includes U.S. securities, all payments on Notes that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70%. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer or the Guarantor will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer or the Guarantor will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

For the purpose of this Condition:

Relevant Date has the meaning given to it in Condition 8.

Section 871(m) Regulations means the U.S. Treasury regulations issued under Section 871(m) of the Code.

Specified Notes means, subject to special rules from 2017 through 2026 set out in Notice 2024-44 (the **Notice**), Notes issued on or after 1 January 2017 that substantially replicate the economic performance of one or more U.S. underlying equities as determined by the Issuer on the date for such Notes as of which the expected delta of the product is determined by the Issuer, based on tests set out in the applicable Section 871(m) Regulations (for the purposes of the Notice, such Notes are deemed “delta-one” instruments).

Tax Jurisdiction means either Luxembourg or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by SG Issuer), or France or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by Societe Generale).

8. PRESCRIPTION

Claims on Bearer Notes (and as the case may be, any related Receipts and Coupons) and Registered Notes will become void unless claims in respect of principal and/or interest are made within a period of ten years (in the case of principal or payments) and five years (in the case of interest) after the Relevant Date (as defined below) therefor.

The Luxembourg act dated 3 September 1996 on the involuntary dispossession of bearer securities, as amended (the **Involuntary Dispossession Act 1996**) requires that, in the event that (i) an opposition (*opposition*) has been filed in relation to the Notes and (ii) the Notes mature prior to becoming forfeited (as provided for in the Involuntary Dispossession Act 1996), any amount that is payable under the Notes, (but has not yet been paid to the Noteholders) is paid to the *Caisse des consignations* in Luxembourg until the opposition has been withdrawn or the forfeiture of the Notes occurs.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition or Condition 5.3 or any Talon which would be void pursuant to Condition 5.3.

Relevant Date means the date on which the relevant payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Principal Paying Agent (or, in the case of Uncertificated Notes, the holders of such Uncertificated Notes) on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 13.

9. EVENTS OF DEFAULT

9.1 With respect to Notes other than Eligible Notes

Upon the occurrence of any of the following events (each an **Event of Default**):

(1) default by the Issuer is made in the payment or delivery of any amount due in respect of the Notes and such default continues for a period of 30 days, unless the Guarantor (if any) shall have remedied such default before the expiry of such period, and save that the late delivery of any Deliverable Assets in the circumstances referred to in Condition 5 shall not constitute an Event of Default; or

(2) the Issuer fails to perform or observe any of its other obligations under or in respect of the Notes and the failure continues for a period of 60 days next following the service on the Issuer and (if applicable) the Guarantor of a notice requiring the same to be remedied (except in any case where such failure is incapable of remedy, by the Issuer or the Guarantor, in which case no such continuation here above mentioned will be required); or

(3) the Issuer institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or the jurisdiction of its head office, or the Issuer consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or the Issuer consents to a petition for its winding-up or liquidation by it or by such regulator, supervisor or similar official, provided that proceedings instituted or petitions presented by creditors and not consented to by the Issuer shall not constitute an Event of Default; or

(4) in the case of any Notes in respect of which the Guarantee is applicable, the Guarantee ceases to be in full force and effect in respect of such Notes, or notice is given by the Guarantor which would cause the Guarantee to cease to be in full force and effect in respect of such Notes, or is rendered void for any cause or by any means whatsoever except if the same results from the occurrence of a Change in Law which constitutes a Regulatory Event as provided for in Condition 6.2; or

(5) in the case of Secured Notes issued by SG Issuer, a Required Collateral Default Notice is delivered in relation to a Collateral Pool securing such Secured Notes; then

- the Noteholder may give written notice, for Notes issued by SG Issuer or Societe Generale, to the relevant Issuer and the Guarantor (if any) that the Notes are, and they shall accordingly forthwith become, immediately due and repayable at their Early Redemption Amount, together with, if appropriate and subject as otherwise provided herein, interest accrued to the date of repayment.

9.2 With respect to Eligible Notes

Events of Default shall not apply to Eligible Notes and accordingly Noteholders of such Notes and/or the holders of any related Coupons will not be able to accelerate the term of their Eligible Notes and/or any related Coupons.

In any case, if any judgment shall be issued for the judicial liquidation (*liquidation judiciaire*) of Societe Generale or if Societe Generale is liquidated for any other reason, the Eligible Notes shall become immediately due and payable:

- with respect to Eligible Non Structured Notes at their principal amount together with any accrued interest thereon to the date of payment, without any further formality; or

- with respect to Eligible Structured Notes, at the amount to be taken into account for the purposes of Article R 613-46-1-III-2° of the Code. This amount shall be fixed or increasing and shall not exceed the initially paid-up amount of the liability, without any further formality.

The holders of Eligible Notes and, where applicable, any related Coupons shall be responsible for taking all necessary steps for the orderly accomplishment of any such liquidation of Societe Generale in relation to any claims they may have against it.

10. REPLACEMENT OF NOTES, RECEIPTS, COUPONS AND TALONS

Should any Note (except any Uncertificated Note) or (in the case of any Bearer Note) Receipt, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Principal Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes), subject to relevant stock exchange requirements and all applicable laws, upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, *inter alia*, that if any allegedly lost, stolen or destroyed Note, Receipt, Coupon or Talon is subsequently presented for payment or, as the case may be, for exchange for further Coupons, there shall be paid to the Issuer and/or the Guarantor on demand the amount payable by the Issuer and/or the Guarantor in respect of such Bearer Notes), Coupons or further Coupons and otherwise as the Issuer or if applicable, the Guarantor, may reasonably require. Mutilated or defaced Notes, Receipts, Coupons or Talons must be surrendered before replacements will be issued. The replacement of Notes in bearer form and receipts, coupons and talons relating to Notes in bearer form, in the case of loss or theft, is subject to the procedure of the Involuntary Dispossession Act 1996.

11. APPOINTMENT OF AGENTS

11.1 Agents

The names of the initial Principal Paying Agent, the initial Registrar and the other initial Paying Agent(s) and their initial specified offices are set out below (except with respect to Uncertificated Notes) and the name(s) and the specified office of the Calculation Agent(s) are specified in the applicable Final Terms.

In addition, the Principal Paying Agent may, (if so specified in the applicable Final Terms) delegate certain of its functions and duties in relation to Physical Delivery Notes to a settlement agent (the **Settlement Agent**).

In relation to any Notes listed on SIX Swiss Exchange, the Issuer will maintain a Principal Swiss Paying Agent having a specified office in Switzerland (which, in the case of Notes listed on SIX Swiss Exchange, shall at all times be a bank or securities dealer that is subject to supervision by FINMA) whose duties will be set out in the Swiss Paying Agency Agreement. In relation to Notes listed on SIX Swiss Exchange, any reference in these Conditions to the **Principal Paying Agent** shall so far as the context permits be deemed to be a reference to the Principal Swiss Paying Agent.

In relation to EUI Notes, the Issuer will appoint (and in the case of CDIs permanently maintain) a EUI Agent.

In relation to Uncertificated Nordic Notes, the Issuer will, in accordance with the relevant Uncertificated Nordic CSD Rules, appoint in addition to the relevant Uncertificated Nordic Notes CSD an Additional Paying Agent. Such Additional Paying Agent shall be specified in the applicable Final Terms.

The Issuer and (if applicable) the Guarantor are entitled to vary or terminate the appointment of any Paying Agent or Settlement Agent and/or appoint additional or other Paying Agents or Settlement Agents and/or approve any change in the specified office through which any Paying Agent or Settlement Agent acts, provided that (except with respect to Uncertificated Notes):

(1) so long as the Notes are listed on any stock exchange or admitted to trading or listing by another relevant authority, there will at all times be a Paying Agent (which may be the Principal Paying Agent) and a Transfer Agent (which may be the Registrar) with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange; and

(2) there will at all times be a Paying Agent (which may be the Principal Paying Agent) with a specified office in a city in Europe; and

(3) so long as any Registered Global Notes are registered in the name of a nominee for DTC, there will at all times be an Exchange Agent and a Paying Agent with a specified office in New York, NY; and

(4) there will be one or more Calculation Agent(s) where the Terms and Conditions so require; and

(5) there will be a Redenomination Agent and/or a Consolidation Agent where the Terms and Conditions so require; and

(6) there will at all times be a Principal Paying Agent and a Registrar.

In addition, the Issuer and the Guarantor (if any) shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in the second paragraph of Condition 5.2. Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not less than 30 or more than 45 days' prior notice thereof shall have been given to the Noteholders in accordance with Condition 13.

Notwithstanding the foregoing, if appropriate, for so long as any Uncertificated Notes are listed on the Luxembourg Stock Exchange, the Issuer will maintain a paying agent with a specified office in Luxembourg, all as specified in the applicable Final Terms. In respect of any Uncertificated Notes, the Issuer is entitled to vary or terminate the appointment of the relevant central securities depositary and clearing institution or the Additional Paying Agent, provided that the Issuer will appoint another central securities depositary and clearing institution or Additional Paying Agent(s), as the case may be, each of them to be duly authorised, in the case of (i) Uncertificated Swedish Notes, under the Swedish CSD Rules, (ii) Uncertificated Finnish Notes, under the Finnish CSD Rules, under the Norwegian Central Securities Depositories Act no. 6 of 15 March 2019 (*No.Verdipapirsentralloven*), (iii) Uncertificated Danish Notes, under the Danish CSD Rules, each as amended and/or re-enacted from time to time. The central securities depositary and clearing institution and the Additional Paying Agent(s) appointed in respect of Uncertificated Notes act solely as agents of the Issuer and do not assume any obligation to, or relationship of agency or trust with, any Noteholders. The Issuer shall be entitled to obtain information from the registers maintained by the relevant central securities depositary and clearing institution for the purposes of performing its obligations under any Uncertificated Notes.

In acting under the Agency Agreement, the Paying Agents act solely as agents of the Issuer and, if applicable, the Guarantor, and do not assume any obligation to, or relationship of agency or trust with, any Noteholders. The Agency Agreement contains provisions permitting any entity into which any Paying Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor paying agent.

11.2 Calculation Agent

In connection with any Notes, if the calculation agent specified in the applicable Final Terms (the **Calculation Agent**) is:

- Societe Generale, such appointment will be governed by the terms of the calculation agency agreement (the **Calculation Agency Agreement**); or

- any entity other than Societe Generale, the terms of such appointment will be summarised in the applicable Final Terms.

12. SUBSTITUTION OF THE ISSUER

Unless the applicable Final Terms specify that "Substitution of the Issuer" is "Not Applicable", this Condition will apply.

Societe Generale or SG Issuer may be replaced by each other or by any subsidiary of Societe Generale or any other third party as principal obligor in respect of the Notes without the consent of the relevant Noteholders. If any of Societe Generale or SG Issuer determines that it shall be replaced by one another or by any subsidiary of Societe Generale or any other third party (the **Substituted Obligor**), it shall give not less than 30 nor more than 45 days' notice, in accordance with Condition 13, to the Noteholders of such event and, immediately on the expiry of such notice, the Substituted Obligor shall become the principal obligor in place of the relevant Issuer and the Noteholders shall thereupon cease to have any rights or claims whatsoever against the relevant Issuer. However, no such substitution shall take effect:

(1) if the effect of such substitution would, at the time of such substitution, be that payments in respect of the Notes would be required to be made subject to any withholding or deduction which would not otherwise arise in the absence of such substitution;

(2) if the Substituted Obligor is not Societe Generale, until Societe Generale shall have entered into an unconditional and irrevocable guarantee substantially in the form of the Guarantee in respect of the obligations of such Substituted Obligor;

(3) in any case, until the Substituted Obligor shall have provided to the Principal Paying Agent such documents as may be necessary to make the Notes and the Agency Agreement its legal, valid and binding obligations; and

(4) if required by any applicable law or regulation, until such Substituted Obligor shall have been approved in writing by the relevant authorities as able to issue the relevant Notes.

Upon any such substitution, the Notes will be modified as required, and the Noteholders will be notified of the modified terms and conditions of such Notes in accordance with Condition 13.

For the purposes of this Condition, it is expressly agreed that by subscribing to, acquiring or otherwise purchasing Notes, the Noteholders are expressly deemed to have consented to the substitution of the relevant Issuer by the Substituted Obligor and to the release of the relevant Issuer from any and all obligations in respect of the Notes and all the agreements attached thereto and are expressly deemed to have accepted such substitution and the consequences thereof.

In respect of Uncertificated Nordic Notes or ECF Notes, in addition to the other criteria set forth above, the substitution shall be subject to the Uncertificated Nordic Notes CSD or Euroclear France, as the case may be, having confirmed that following the proposed substitution, the Notes will continue to be incorporated and registered in their book-entry system in accordance with the relevant Uncertificated Nordic Notes CSD Rules or the rules applicable to Euroclear France.

13. NOTICES

13.1 Notices regarding Notes other than ECF Notes, EUI Notes, and Notes listed on SIX Swiss Exchange

13.1.1 All notices regarding the Notes shall be deemed to be validly given if published in a leading daily newspaper of general circulation in Europe provided that so long as such Notes are listed on any regulated market or stock exchange(s) or are admitted to trading by a relevant authority the Issuer shall instead ensure that notices are duly published in a manner which complies with the rules and regulations of such regulated market, stock exchange(s) or relevant authority.

Any such notice will be deemed to have been given (i) on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspaper(s) (which, in the case of the Luxembourg Stock Exchange, is expected to be the *Luxemburger Wort* (or the*Tageblatt*)) or (ii) in the case of publication on a website, on the date on which such notice is first posted on the relevant website (which, in the case of the Luxembourg Stock Exchange, shall be (www.luxse.com) and in the case of SIX Swiss Exchange, shall be http://www.six-swiss-exchange.com (where notices are currently published under the address https://www.six-group.com/en/products-services/the-swiss-stock-exchange/market-data/news-tools/official-notices.html#/ (SIX Group)).

13.1.2 Until such time as any Notes in definitive form are issued and so long as the Global Note(s) representing the Notes is or are held in its or their entirety on behalf of Euroclear and/or Clearstream and/or DTC, publication of a notice in such newspaper(s) or on such websites as referred to in Condition 13.1.1 may be substituted by the delivery of the relevant notice to Euroclear and/or Clearstream and/or DTC, for communication by them to the Noteholders.

Any such notice shall be deemed to have been given to the Noteholders on the day on which the said notice was given to Euroclear and/or Clearstream and/or DTC.

13.1.3 All notices regarding Definitive Registered Notes shall be deemed to be validly given if sent by first class mail or by airmail (if posted to an address overseas) to the Noteholders (or the first named of joint holders) at their respective addresses recorded in the Register.

In addition, for so long as any Definitive Registered Notes are listed on any regulated market or stock exchange or are admitted to trading by a relevant authority and the rules of such regulated market or such stock exchange or other relevant authority so require, such notice will be published on the website of the relevant stock exchange or relevant authority and/or in a daily newspaper with general circulation in the city/ies where the regulated market or stock exchange on which such Notes are listed and admitted to trading is located.

Any such notice shall be deemed to have been given on the fourth day after mailing.

13.1.4 All notices to holders of Uncertificated Notes shall be deemed to be validly given if sent by mail to a Noteholder on the address registered for such Noteholder in the system of the relevant central securities depositary and clearing institution or in accordance with the legislation, rules and regulations applicable to, and/or issued by, the relevant central securities depositary and clearing institution.

Any such notice shall be deemed to have been given, if sent by mail to the Noteholder, on the fourth day following the day the notice was sent by mail.

13.1.5 Notices to be given by any Noteholder (except in the case of Uncertificated Notes) shall be in writing and given by lodging the same, together (in the case of any Note in definitive form) with the relative Note or Notes, with the Principal Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes). Whilst any of the Notes are represented by a Global Note such notice may be given by any Noteholder to the Principal Paying Agent or the Registrar (as applicable) via Euroclear and/or Clearstream, as the case may be, in such manner as the Principal Paying Agent or the Registrar (as applicable) and Euroclear and/or Clearstream and/or DTC, as the case may be, may approve for this purpose.

13.2 Notices regarding English Law Notes listed on SIX Swiss Exchange

Unless otherwise specified in the relevant Final Terms, notices regarding English Law Notes listed on SIX Swiss Exchange may be given by communication through the Principal Swiss Paying Agent to the Intermediary for forwarding to the Noteholders. Any notice so given shall be deemed to have been validly given with the communication to the Intermediary.

So long as English Law Notes are listed on SIX Swiss Exchange and so long as the rules of SIX Swiss Exchange so require, all notices in respect of such Notes will also be given without cost to the Noteholders through the Principal Swiss Paying Agent either:

- by means of electronic publication on the internet website of SIX Swiss Exchange (http://www.six-swiss-exchange.com), where notices are currently published under the address https://www.six-group.com/en/products-services/the-swiss-stock-exchange/market-data/news-tools/official-notices.html#/ (SIX Group); or

- otherwise in accordance with the regulations of SIX Swiss Exchange.

In addition, or as an alternative, notices concerning English Law Notes listed on SIX Swiss Exchange may be published in a leading daily newspaper (such as, for example, the *Neue Zürcher Zeitung*) having general circulation in Switzerland. Any notice so given shall be deemed to have been validly given on the date of such publication (or, if published more than once, on the date of the first such publication).

13.3 Notices regarding EUI Notes

All notices to EUI Noteholders shall be valid if:

(1) delivered to the address of the EUI Noteholder appearing in the Record by first class post or by hand or, if such address is not in the United Kingdom, by airmail post (such notices to be delivered or sent in accordance with this Condition shall be sent at the risk of the relevant EUI Noteholder); or

(2) published in a daily newspaper with general circulation in Europe; or

(3) for so long as the EUI Notes are listed or admitted to trading on any stock exchange published in accordance with the rules of such stock exchange.

Any such notice shall be deemed to have been given on the second Business Day following, in the case of Condition 13.3(1), such delivery or, in the case of Condition 13.3(2), the date of such publication or, if published more than once, on the date of the first such publication and in the case of Condition 13.3(3) the date of such publication.

13.4 Notices regarding ECF Notes

All notices required to be given to the holders of ECF Notes pursuant to these General Terms and Conditions may be given by delivery of the relevant notice to Euroclear France in substitution for the publication as required by Condition 13.1, except that so long as such Notes are listed on any regulated market or stock exchange(s) or are admitted to trading by a relevant authority and the applicable rules of that regulated market or stock exchange or relevant authority so require, notices shall also be published in a daily financial newspaper with general circulation in the city/ies where the regulated market or other stock exchange(s) on which such Notes are listed.

If any such publication pursuant to this Condition is not practicable, notice shall be validly given if published in a leading daily financial newspaper with general circulation in Europe. Any such notice shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the date of the first publication as provided above.

14. FURTHER ISSUES AND CONSOLIDATION - SUBSCRIPTIONS AND PURCHASES - CANCELLATION

14.1 Further Issues

The Issuer may from time to time, without the consent of the Noteholders create and issue further Notes ranking *pari passu* in all respects and on the same Terms and Conditions (save for their Issue Date, Interest Commencement Date, Issue Price and/or the amount and date of the first payment of interest thereon), and so that the same shall be consolidated and form a single series with the outstanding Notes.

14.2 Consolidation

If the applicable Final Terms specify that clause "*Consolidation*" is "Applicable", the Issuer may from time to time on any Interest Payment Date occurring on or after the date specified for a redenomination of the Notes pursuant to Condition 1.5, on giving not less than 30 days' prior notice to the Noteholders in accordance with Condition 13, without the consent of Noteholders, consolidate the Notes with one or more issues of other Notes issued by it, whether or not originally issued in one of the European national currencies or in Euro, provided such other Notes have been redenominated in Euro (if not originally denominated or payable in Euro) and which otherwise have, in respect of all periods subsequent to such consolidation, the same terms and conditions as the Notes.

The provisions of this Condition shall not apply to Preference Share Linked Notes or Warrant Linked Notes.

14.3 Subscriptions and Purchases

The Issuer or (if applicable) the Guarantor shall have the right to subscribe and/or to purchase Notes (provided that, in the case of Definitive Bearer Notes, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased (in the case of Preference Share Linked Notes or Warrant Linked Notes, by the Issuer) therewith) at any price in the open market or otherwise, in accordance with applicable laws and regulations.

In respect of Eligible Notes, any such purchase shall be subject to the prior written permission of the Relevant Resolution Authority and held in accordance with applicable law.

14.4 Cancellation

All Notes purchased for cancellation by or on behalf of the Issuer will forthwith be cancelled (together with, in the case of Definitive Bearer Notes, all unmatured Receipts, Coupons and Talons appertaining thereto or surrendered therewith). All Notes purchased and cancelled (together with, in the case of Definitive Bearer Notes, all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Principal Paying Agent (or, in the case of Registered Notes, the Registrar) and cannot be reissued or resold and the obligations of the Issuer or (if applicable) the Guarantor in respect of any such Notes shall be discharged.

In respect of Eligible Notes, any such cancellation shall be subject to the prior written permission of the Relevant Resolution Authority.

15. CALCULATIONS AND DETERMINATIONS - ADJUSTMENTS AND DISRUPTION

With respect to a Type of Structured Notes (as specified in the applicable Final Terms) to which the relevant Additional Terms and Conditions for Structured Notes apply, the Calculation Agent responsible for determining and calculating any rate, rate of interest, interest payable and any amount payable shall be the Calculation Agent specified in the applicable Final Terms (pursuant to the provisions of Condition 11).

Whenever a Calculation Agent is required to make any calculations, determinations, adjustments or act in any way (and unless otherwise provided herein), it will do so in good faith and in a commercially reasonable manner.

The calculations and determinations of the Calculation Agent will be conclusive and binding upon the Issuer, the Guarantor (if any), the Agent, the Noteholders, in the absence of manifest error or proven error.

Following the occurrence of an event giving rise to an adjustment which is substantial in the opinion of the Calculation Agent or of an extraordinary event affecting, in respect of the relevant Additional Terms and Conditions for Structured Notes:

(i) a relevant Underlying, and/or

(ii) a Selected Obligation or a Deliverable Obligation and/or (iii) a Bond,

the Calculation Agent shall notify the Issuer, which shall in its turn notify the Agent and the Noteholders, pursuant to the provisions of Condition 13, of the relevant adjustment made or decision taken by the Calculation Agent. Details of such adjustment made or decision taken can be obtained by the Noteholders upon request at the Calculation Agent's address specified in the applicable Final Terms.

For the avoidance of doubt, in case of Credit Linked Notes and, pursuant to Successor definition (in Condition 2 of the Additional Terms and Conditions for Credit Linked Notes), when the Successor determinations of the Calculation Agent follow the relevant index source determinations, there will be no related notification sent by the Calculation Agent.

16. MEETINGS OF NOTEHOLDERS

The Agency Agreement contains provisions for convening meetings (including by way of conference call or by use of a video conference platform) of the Noteholders (except holders of the Uncertificated Notes) to consider any matter affecting their interests,

including the sanctioning by extraordinary resolution (an **Extraordinary Resolution**) of a modification of the Notes (except Uncertificated Notes), the Receipts, the Coupons or any provisions of the Agency Agreement. Such a meeting may be convened by the Issuer or the Guarantor (if any) at any time or by Noteholders holding not less than 10 per cent. in nominal amount of the Notes for the time being outstanding. The quorum at any such meeting for passing such Extraordinary Resolution is one or more persons holding or representing in the aggregate not less than 50 per cent. in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting one or more persons being or representing Noteholders whatever the nominal amount of Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Notes (including but not limited to modifying the date of maturity of the Notes, reducing or cancelling the amount of principal or the rate of interest payable in respect of the Notes, or altering the currency of payment of the Notes, Receipts or Coupons modifying of the majority required to pass an Extraordinary Resolution, sanctioning of any scheme or proposal for the exchange or sale of the Notes for, or the conversion of the Notes into, or the cancellation of the Notes in consideration of, shares, stock, notes, bonds, debentures, debenture stock and/or other obligations and/or securities of the Issuer (as further described in the Agency Agreement)), the necessary quorum for passing an Extraordinary Resolution will be one or more persons holding or representing not less than two-thirds, or at any adjourned such meeting not less than one-third, in nominal amount of the Notes for the time being outstanding. The Agency Agreement provides that (i) a resolution passed at a meeting duly convened and held in accordance with the Agency Agreement by a majority consisting of not less than three fourths of the votes cast on such resolution, (ii) a resolution in writing signed by or on behalf of the holders of not less than 90 per cent in nominal amount of the Notes for the time being outstanding or (iii) consent given by way of electronic consents through the clearing systems (in a form satisfactory to the Principal Paying Agent) by or on behalf of the holders of not less than three fourths in nominal amount of the Notes for the time being outstanding shall, in each case, be effective as an Extraordinary Resolution of the Noteholders. In addition, in respect of Eligible Notes, any proposed modification of any provision of the Notes can only be effected with the prior written permission of the Relevant Resolution Authority. An Extraordinary Resolution passed pursuant to the provisions above at any meeting of the Noteholders in writing or by electronic consents, shall be binding on all Noteholders, whether or not they are present at the meeting, and whether or not they voted on the resolution, and on all Receiptholders and Couponholders.

The Principal Paying Agent, the Issuer and the Guarantor (if any) may agree, without the consent of the Noteholders, to any modification of the Notes or the Agency Agreement which is (i) to cure or correct any ambiguity or defective or inconsistent provision contained therein, or which is of a formal, minor or technical nature or (ii) not materially prejudicial to the interests of the Noteholders (provided the proposed modification does not relate to a matter in respect of which an Extraordinary Resolution would be required if a meeting of Noteholders were held to consider such modification) and subject to, in case of Eligible Notes, any prior written permission of the Relevant Resolution Authority, or (iii) to correct a manifest error or proven error or (iv) to comply with mandatory provisions of the law. Any such modification shall be binding on the Noteholders and any such modification shall be notified to the Noteholders in accordance with Condition 13.

In respect of Uncertificated Notes other than EUI Notes, the Issuer may decide, without the consent of the Noteholders to make (a) any modification (except such modifications in respect of which an increased quorum is required as mentioned above) of the Notes which is not materially prejudicial to the interests of the Noteholders; or (b) any modification of the Notes which is of formal, minor or technical nature or is made to correct a manifest error or proven error or to comply with mandatory provisions of the law of the jurisdiction in which the Issuer is incorporated. Any such modification shall be binding on the relevant Noteholders and any such modification shall be notified to such Noteholders in accordance with Condition 13.

The EUI Agency Agreement contains provisions for convening meetings of the EUI Noteholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution (as defined in the EUI Agency Agreement) of a modification of the EUI Notes or any of the provisions of the EUI Agency Agreement. Such a meeting may be convened by the Issuer or the Guarantor. At least 21 clear days' notice specifying the place, date and hour of the meeting shall be given to the EUI Noteholders. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons holding or representing in the aggregate not less than 50 per cent. of the EUI Notes for the time being unexercised or outstanding, as the case may be, or at any adjourned meeting one or more persons being or representing EUI Noteholders whatever the number of EUI Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the EUI Notes (including but not limited to modifying the date of maturity of the EUI Notes, reducing or cancelling the amount of principal or the rate of interest payable in respect of the EUI Notes, or altering the currency of payment of the EUI Notes, modifying of the majority required to pass an Extraordinary Resolution, sanctioning of any scheme or proposal for the exchange or sale of the Notes for, or the conversion of the Notes into, or the cancellation of the Notes in consideration of, shares, stock, notes, bonds, debentures, debenture stock and/or other obligations and/or securities of the Issuer (as further described in the EUI Agency Agreement)), the quorum shall be one or more persons holding or representing in the aggregate not less than two-thirds of the EUI Notes for the time being unexercised or outstanding, as the case may be, or at any adjourned such meeting one or more persons holding or representing not less than one-third of the EUI Notes for the time being unexercised or outstanding, as the case may be. In addition, in case of Eligible Notes, any proposed modification of any provision of the Notes can only be effected subject to the prior written permission of the Relevant Resolution Authority. An Extraordinary Resolution passed at any meeting of the EUI Noteholders shall be binding on all the EUI Noteholders, whether or not they are present at the meeting. Resolutions can be passed in writing if passed unanimously.

The EUI Agent and the Issuer may agree, without the consent of the Noteholders, to:
- any modification (except such modifications in respect of which an increased quorum is required as mentioned above) of the EUI Notes or EUI Agency Agreement which is not prejudicial to the interests of the EUI Noteholders and subject to, in case of Eligible Notes, any prior permission of the Relevant Resolution Authority**;** or
- any modification of the EUI Notes or the EUI Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest or proven error, to cure any ambiguity or to comply with mandatory provisions of law.

Any such modification shall be binding on the EUI Noteholders and any such modification shall be notified to the EUI Noteholders as soon as practicable thereafter, provided that failure to give, or non-receipt of, such notice will not affect the validity of any such modification.

In respect of SG Issuer only, the provisions of articles 470-1 to 470-19 of the Luxembourg Act dated 10 August 1915 on commercial companies, as amended (the **Companies Act 1915**), shall not apply to the Notes. No Noteholders may initiate proceedings against SG Issuer based on article 470-21 of the Companies Act 1915.

17. SUSPENSION OF TRADING AND DELISTING OF NOTES

Notes that are listed on any regulated market or stock exchange(s) or admitted to trading by a relevant authority may be suspended from trading and/or delisted at any time in accordance with applicable rules and regulations of the relevant regulated market or relevant stock exchange(s).

In addition, the Principal Paying Agent, the Issuer and the Guarantor (if any) may agree at any time and without any further consent from the Noteholders to delist Notes listed on the SIX Swiss Exchange by giving notice to the Noteholders in accordance with Condition 13 at least three months prior to the last trading day stating that such Notes will be delisted from the SIX Swiss Exchange and no longer traded on the SIX Swiss Exchange.

18. WAIVER OF SET-OFF

No holder of any Note may at any time exercise or claim any Waived Set-Off Rights against any right, claim, or liability which the Issuer has or may have or acquire against such holder, directly or indirectly, howsoever arising (and, for the avoidance of doubt, including all such rights, claims and liabilities arising under or in relation to any and all agreements or other instruments of any sort or any non-contractual obligations, in each case whether or not relating to the Notes) and each such holder shall be deemed to have waived all Waived Set-Off Rights to the fullest extent permitted by applicable law in relation to all such actual and potential rights, claims and liabilities.

For the avoidance of doubt, nothing in this Condition is intended to provide or shall be construed as acknowledging any right of deduction, set-off, netting, compensation, retention or counterclaim or that any such right is or would be available to any holder of any Note but for this Condition.

For the purposes of this Condition, **Waived Set-Off Rights** means any and all rights of or claims of any holder of any Note for deduction, set-off, netting, compensation, retention or counterclaim arising directly or indirectly under or in connection with any such Note.

19. LIMITED RECOURSE AGAINST SG ISSUER

Each holder of a Note or Notes issued by SG Issuer is deemed to have acknowledged and undertaken, on its acquisition of such Notes, that, in the event of a default by SG Issuer of payment of principal of (and premium, if any), interest or any other amount in respect thereof (including, without limitation, any Final Redemption Amount(s)) on any such Note(s), whenever such payment falls due (such payment defaults, **Defaulted Payments**), such holder shall not institute any proceeding, judicial or otherwise, or otherwise assert a claim against SG Issuer to enforce such Defaulted Payments and waives all rights to institute such proceedings or make such claims in respect of such Defaulted Payments against the relevant Issuer.

For the avoidance of doubt, such acknowledgement, undertaking and waiver are without prejudice to the holder's rights under the Guarantee and do not alter or impair the Guarantor's obligations under the relevant guarantee and accordingly each holder shall continue to have the right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Guarantor to enforce any obligation due under the relevant guarantee, including without limitation in respect of any Defaulted Payments, subject in all cases to the terms of the Guarantee.

Such acknowledgement, undertaking and waiver do not alter or impair the rights of the Noteholders to require the enforcement of the relevant Pledge Agreement, pursuant to the provisions of the Additional Terms and Conditions relating to Secured Notes.

20. ACKNOWLEDGMENT OF BAIL-IN AND WRITE DOWN OR CONVERSION POWERS

20.1 Acknowledgement of bail-in and write-down or conversion powers on the relevant Societe Generale's or SG Issuer's Liabilities and of the write-down and conversion of Notes of SG Issuer following the bail-in and write-down and conversion of some Societe Generale's Liabilities

By the acquisition of Notes, each Noteholder (which, for the purposes of this Condition, includes any current or future holder of a beneficial interest in the Notes) acknowledges, accepts, consents and agrees:

(1) to be bound by the effect of the exercise of the Bail-in Power (as defined below) by the Relevant Resolution Authority (as defined below) on Societe Generale's and SG Issuer's liabilities under the Notes, which may include and result in any of the following, or some combination thereof:

(i) the reduction of all, or a portion, of the Amounts Due (as defined below), on a permanent basis;

(ii) the conversion of all, or a portion, of the Amounts Due into shares, other securities or other obligations of the relevant Issuer or the Guarantor or another person (and the issue to the Noteholder of such shares, securities or obligations), including by means of an amendment, modification or variation of the terms of the Notes, in which case the Noteholder agrees to accept in lieu of its rights under the Notes any such shares, other securities or other obligations of the relevant Issuer or the Guarantor or another person;

(iii) the cancellation of the Notes; and/or

(iv) the amendment or alteration of the maturity of the Notes or amendment of the amount of interest payable on the Notes, or the date on which the interest becomes payable, including by suspending payment for a temporary period; and

that terms of the Notes are subject to, and may be varied, if necessary, to give effect to the exercise of the Bail-in Power by the Relevant Resolution Authority or the regulator.
(the "**Statutory Bail-in**")

and

(2) in respect of Notes issued by SG Issuer, if the Relevant Resolution Authority (as defined below) exercises its Bail-in Power (as defined below) on liabilities of Societe Generale, pursuant to Article L 613-30-3-I-3 of the Code:

(A) ranking:

(i) junior to liabilities of Societe Generale benefitting from statutorily preferred exceptions pursuant to Article L 613-30-3-I 1°and 2 of the Code;

(ii) pari passu with liabilities of Societe Generale as defined in Article L.613-30-3-I-3 of the Code; and

(iii) senior to liabilities of Societe Generale as defined in Article L.613-30-3-I-4 of the Code; and

(B) which are not *titres non structurés* as defined under Article R.613-28 of the Code, and

(C) which are not or are no longer eligible to be taken into account for the purposes of the MREL (as defined below) ratio of Societe Generale

and such exercise of the Bail-in Power results in the write-down or cancellation of all, or a portion of, the principal amount of, or the outstanding amount payable in respect of, and/or interest on, such liabilities, and/or the conversion of all, or a portion, of the principal amount of, or the outstanding amount payable in respect of, or interest on, such liabilities into shares or other securities or other obligations of Societe Generale or another person, including by means of variation to their terms and conditions in order to give effect to such exercise of Bail-in Power, then SG Issuer's obligations under the Notes (other than Secured Notes) will be limited to (i) payment of the amounts of principal and/or interest as reduced or cancelled that would be recoverable by the Noteholders and/or (ii) the delivery or the payment of value of the shares or other securities or other obligations of Societe Generale or another person that would be paid or delivered to the Noteholders as if, in either case, the Notes had been directly issued by Societe Generale itself and any Amount Due under the Notes had accordingly been directly subject to the exercise of the Bail-in Power (the "**Contractual Bail-in**").

20.2 Consequences of the Statutory Bail-in and Contractual Bail-in

No repayment or payment of the Amounts Due will become due and payable or be paid after the exercise of the Statutory Bail-in with respect to the relevant Issuer or the Guarantor unless, at the time such repayment or payment, respectively, is scheduled to become due, such repayment or payment would be permitted to be made by the relevant Issuer or the Guarantor under the applicable laws and regulations in effect in France or Luxembourg and the European Union applicable to the relevant Issuer or the Guarantor or other members of its group.

No repayment or payment of the Amounts Due will become due and payable or be paid under the Notes issued by SG Issuer after implementation of the Contractual Bail-in.

Upon the exercise of the Statutory Bail-in or upon implementation of the Contractual Bail-in with respect to the Notes, the relevant Issuer or the Guarantor will provide a written notice to the Noteholders in accordance with Condition 13 as soon as practicable regarding such exercise of the Statutory Bail-in or implementation of the Contractual Bail-in. The relevant Issuer or the Guarantor will also deliver a copy of such notice to the Principal Paying Agent for informational purposes, although the Principal Paying Agent shall not be required to send such notice to Noteholders. Any delay or failure by the relevant Issuer or the Guarantor to give notice shall not affect the validity and enforceability of the Statutory Bail-in or Contractual Bail-in nor the effects on the Notes described above.

Neither a cancellation of the Notes, a reduction, in part or in full, of the Amounts Due, the conversion thereof into another security or obligation of the relevant Issuer or the Guarantor or another person, as a result of the exercise of the Statutory Bail-in or the implementation of the Contractual Bail-in with respect to Notes will be an event of default or otherwise constitute non-performance of a contractual obligation, or entitle the Noteholder to any remedies (including equitable remedies) which are hereby expressly waived.

Upon the exercise of any Statutory Bail-in or the implementation of the Contractual Bail-in, the relevant Issuer, the Guarantor (if any) and each Noteholder(including each holder of a beneficial interest in the Notes) hereby agree that (a) the Principal Paying Agent shall not be required to take any directions from Noteholders, and (b) the Agency Agreement shall impose no duties upon the Principal

Paying Agent whatsoever, in each case with respect to the exercise of any Statutory Bail-in or implementation of the Contractual Bail-in.

Notwithstanding the foregoing, if, following the completion of the exercise of the Statutory Bail-In or the implementation of the Contractual Bail-in, any Notes remain outstanding (for example, if the exercise of the Statutory Bail-In or the implementation of the Contractual Bail-in results in only a partial write-down of the principal of the Notes), then the Principal Paying Agent's duties under the Agency Agreement shall remain applicable with respect to the Notes following such completion to the extent that the relevant Issuer, the Guarantor (if any) and the Principal Paying Agent shall agree pursuant to an amendment to the Agency Agreement.

If in a Statutory Bail-In the Relevant Resolution Authority exercises the Bail-in Power or if the Contractual Bail-in is implemented, with respect to less than the total Amounts Due, unless the Principal Paying Agent is otherwise instructed by the relevant Issuer or the Guarantor or, as the case may be, the Relevant Resolution Authority, any cancellation, write-off or conversion made in respect of the Notes will be (in the case of a Contractual Bail-In) or may be (in the case of a Statutory Bail-in) made on a pro-rata basis.

The matters set forth in this Condition shall be exhaustive on the foregoing matters to the exclusion of any other agreements, arrangements or understandings between the Issuer, the Guarantor (if any) and each Noteholder

No expenses necessary for the procedures under this Condition, including, but not limited to, those incurred by the relevant Issuer, the Guarantor (if any) and the Principal Paying Agent, shall be borne by any Noteholder.

In the case of resolution pursuant to the exercise of the Bail-in Power (as defined below) by the Relevant Resolution Authority on Societe Generale's liabilities, the claim on Societe Generale with respect to Eligible Structured Notes, will be the amount to be taken into account for the purposes of Article R. 613-46-1 III 2° of the Code; this amount is fixed or increasing and does not exceed the initially paid-up amount of the liability.

For the purpose of this Condition:

Amounts Due means:
- In respect of Notes that are not Eligible Notes, the Market Value of the Notes as defined in Condition 6.3 above,
- In respect of Notes that are Eligible Notes, the amounts specified as such in the Final Terms

Bail-in Power means any statutory cancellation, write-down and/or conversion power existing from time to time under any laws, regulations, rules or requirements relating to the resolution of banks, banking group companies, credit institutions and/or investment firms, including but not limited to any such laws, regulations, rules or requirements that are implemented, adopted or enacted within the context of a European Union directive or regulation of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms, or any other applicable laws or regulations, as amended, or otherwise, pursuant to which obligations of a bank, banking group company, credit institution or investment firm or any of its affiliates can be reduced, cancelled, varied or otherwise modified in any way and/or converted into shares or other securities or obligations of the obligor or any other person.

MREL means the Minimum Requirement for own funds and Eligible Liabilities as defined in Directive 2014/59/EU of the European Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms (as amended from time to time).

Relevant Resolution Authority means any authority with the ability to exercise the Bail-in Power on Societe Generale or SG Issuer as the case may be.

21. GOVERNING LAW AND SUBMISSION TO JURISDICTION

21.1 Governing Law

If the applicable Final Terms indicate that the clause *"Governing law"* is "English law":

- the Notes and any non-contractual obligations arising out of or in connection with the Notes will be governed by, and shall be construed in accordance with, English law.

- Uncertificated Notes and any non-contractual obligations arising out or in connection with these Notes will be governed by, and shall be construed in accordance with, English Law, except in respect of their form, title, transfer, exercise of options and the provisions relating to payments in Condition 1.1.3, 1.2.4, Condition 5.6, 5.7 and 5.9 and Condition 5.17 thereon which shall be governed by the laws, rules and regulations applicable to the relevant central securities depository and clearing institution, being initially Euroclear Sweden, Euroclear Finland , VPS or any clearing institution in Switzerland or abroad recognised for such purposes by SIS Swiss Exchange, respectively or Euroclear France, on which they are respectively admitted or registered.

The Agency Agreement, the EUI Agency Agreement , the Swiss Paying Agency Agreement and the Deed of Covenant and any non-contractual obligations arising out of or in connection with the Agency Agreement, the EUI Agency Agreement , the Swiss Paying Agency Agreement and the Deed of Covenant will be governed by, and shall be construed in accordance with, English law.

Condition 2.1 (Status of the Notes - Notes issued by Societe Generale) will be governed by, and shall be construed in accordance with, French law.

The Guarantee and any non-contractual obligations arising out of or in connection with the Guarantee will be governed by, and shall be construed in accordance with, French law.

21.2 Submission to jurisdiction

The Issuer irrevocably agrees that the courts of England are to have jurisdiction to settle any disputes which may arise out of or in connection with the Notes and accordingly submits to the jurisdiction of the courts of England.

The Issuer waives any objection to the courts of England on the grounds that they are an inconvenient or inappropriate forum. To the extent allowed by law, the Noteholders may take any suit, action or proceedings (together referred to as **Proceedings**) arising out of or in connection with the Notes and any non-contractual obligations arising out of or in connection with the Notes against the Issuer in any other court of competent jurisdiction and concurrent Proceedings in any number of jurisdictions.

The Issuer appoints Societe Generale, London Branch (**SGLB**), currently of One Bank Street, Canary Wharf, London E14 4SG, United Kingdom, as its agent for service of process, and undertakes that, in the event of SGLB ceasing so to act or ceasing to be registered in England, it will appoint another person as its agent for service of process in England in respect of any Proceedings. Nothing herein shall affect the right to serve proceedings in any other manner permitted by law.

The Issuer and, where applicable, the Guarantor have in the Agency Agreement, the EUI Agency Agreement and the Deed of Covenant submitted to the jurisdiction of the English courts and appointed an agent for service of process in terms substantially similar to those set out above.

Any claim against the Guarantor in connection with the Guarantee shall be brought before the commercial court of Paris (*Tribunal des activités économiques de Paris*).

22. CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999

The Notes shall not confer any rights under the Contracts (Rights of Third Parties) Act 1999 to enforce or enjoy any term of the Notes, but this does not affect any right or remedy of a third party which may exist or is available apart from that Act.

GENERAL TERMS AND CONDITIONS OF THE FRENCH LAW NOTES

The following general terms and conditions applicable to Notes to be issued under French law (**French Law Notes**) (the **General Terms and Conditions**), with, if applicable, the additional terms and conditions (the **Additional Terms and Conditions**) constitute the Terms and Conditions of the Notes, as defined below (the **Terms and Conditions**),that will be endorsed on Definitive Materialised Bearer Notes only and will be deemed to apply to Dematerialised Notes.

The applicable Final Terms in relation to any Notes will complete the following General Terms and Conditions for the purposes of such Notes including, for the avoidance of doubt, any Note. The applicable Final Terms (or the relevant provisions thereof) will be endorsed on, attached to or incorporated by reference into, Materialised Notes (as defined below), and shall be deemed to apply to Notes.

References herein to the **applicable Final Terms** are to Part A of the final terms (**Final Terms**) prepared based on the "Form of Final Terms" that are endorsed on the Materialised Notes or prepared in connection with the Notes and which complete the General Terms and Conditions.

References herein to the **Additional Terms and Conditions** are to Additional Terms and Conditions relating to Formulae, Additional Terms and Conditions for Structured Notes, Additional Terms and Conditions for Share Linked Notes and Depositary Receipts Linked Notes, Additional Terms and Conditions for Index Linked Notes, Additional Terms and Conditions for SGI Index Linked Notes, Additional Terms and Conditions for Reference Rate Linked Notes, Additional Terms and Conditions for Foreign Exchange Rate Linked Notes, Additional Terms and Conditions for Commodity Linked Notes, Additional Terms and Conditions for Fund Linked Notes, Additional Terms and Conditions for Credit Linked Notes, Additional Terms and Conditions for Inflation Linked Notes Additional Terms and Conditions for Bond Linked Notes, Additional Terms and Conditions for ETF Linked Notes and ETP Linked Notes, Additional Terms and Conditions for Non Equity Security Linked Notes, the Additional Terms and Conditions for Preference Share Linked Notes, Additional Terms and Conditions for Warrant Linked Notes, Additional Terms and Conditions for Future Linked Notes, the Additional Terms and Conditions for Portfolio Linked Notes, the Additional Terms and Conditions for Dividend Linked Notes and the Additional Terms and Conditions relating to Secured Notes.

If the applicable Final Terms specify that one or more of the Additional Terms and Conditions from Additional Terms and Conditions for Share Linked Notes to the Additional Terms and Conditions for Portfolio Linked Notes apply, then the Additional Terms and Conditions for Structured Notes will also apply including the provisions relating to any market disruption (**Market Disruption Events)** or extraordinary events (**Extraordinary Events)** and details of the consequences of such events.

If the applicable Final Terms specify (i) that the "*Secured Notes Provisions*" are "applicable", then the provisions of the Additional Terms and Conditions relating to Secured Notes, which contain provisions relating to disruption events (including, without limitation and where necessary, appropriate definitions of **Collateral Disruption Event** and **Collateral Settlement Disruption** and details of the consequences of such events), shall apply.

Words and expressions defined in the French Law Agency Agreement (as defined below) or used in the applicable Final Terms shall have the same meanings where used in these General Terms and Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of any inconsistency between the French Law Agency Agreement and the applicable Final Terms, the applicable Final Terms will prevail.
References herein to **Tranche** means Notes which are identical in all respects and **Series** means a Tranche of Notes, together in each case with any further Tranche or Tranches of Notes which are (a) expressed to be consolidated and form a single series or issue and (b) identical in all respects except for their respective Issue Dates, and/or Issue Prices and Interest Commencement Dates.

References herein to (i) the **Issuer** shall be references to the issuer specified as such in the applicable Final Terms (as defined above) and, in the case of any substitution of the Issuer in accordance with Condition 12, the **Substituted Obligor** as defined in Condition 12 and (ii) the **Guarantor** shall mean Societe Generale in its capacity as guarantor pursuant to the Guarantee (as defined in Condition 2.3) in respect of any Notes issued by SG Issuer. Accordingly, references herein to the Guarantor are applicable only in the context of Notes issued by SG Issuer.

All Notes issued by Societe Generale will be described as "Unsecured" in the Final Terms applicable to such Notes and all Notes issued by SG Issuer will be described as "Unsecured" or "Secured" in the Final Terms applicable to such Notes.

References herein to "the Notes" are to the Notes of one Series (as defined below) only and not to all Notes under the Programme.

References herein to **Notes** shall mean:

a) any Note in dematerialised form (the **Dematerialised Notes**) which will be issued, at the option of the Issuer, in either bearer form (*au porteur*) (respectively **Bearer Notes**) or in registered form (*nominatif*) and, in such latter case, at the option of the relevant Noteholder in either administered registered form (*nominatif administré*) or in fully registered form (*nominatif pur*) (respectively **Registered Notes**);

b) any temporary global certificate in bearer form (a **Temporary Global Certificate**) without Coupons attached initially issued in connection with **Materialised Bearer Notes**; and

c) any materialised Note in definitive materialised bearer form (the **Materialised Notes**) are issued in bearer form (the **Materialised Bearer Notes**) and title to Materialised Bearer Notes in definitive form having, where appropriate, Coupons and/or a Talon attached thereto on issue (the **Definitive Materialised Bearer Notes**).

Subject to the provisions below, any references herein to **Noteholders** or **holder of Notes,** shall mean the several persons who are for the time being the bearers of Bearer Notes and the registered holders of Registered Notes.

References herein, in respect of Notes, to **Receiptholders** shall mean the holders of the Receipts for the payment of instalments of principal relating to Materialised Notes, and any reference herein to **Couponholders** shall mean the holders of the Coupons relating to interest bearing Materialised Notes and shall, in respect of such Notes, unless the context otherwise requires, include the holders of the Talons for further Coupons. References herein to Noteholders or holder of Notes shall if, the context so requires, include Receiptholders and Couponholders.

The holder of a Dematerialised Note will be the person appearing in the account of the relevant Euroclear France Account Holder, the Issuer or the Registration Agent (as the case may be) as being entitled to such Notes in accordance with the legislation rules and regulations applicable to Euroclear France, as the case may be, and the terms Noteholders or holders of Notes shall be construed accordingly. Notes will only be transferable in accordance with such legislation, rules and regulations.

References herein to "any amount due under the Notes" shall depending on the context, mean any payment of principal and/or interest due under the Notes.

References herein to **Underlying** shall mean, as specified in the applicable Final Terms, a Share and/or a Depositary Receipt and/or an Index and/or an SGI Index and/or a Reference Rate and/or a Foreign Exchange Rate and/or a Commodity and/or a Commodity Index and/or a Fund and/or a Reference Entity and/or a CDS Spread and/or an Inflation Index and/or a Bond and/or an ETF and/or an ETP and/or a Non Equity Security and/or a Preference Share and/or a Warrant and/or Future and/or a Portfolio and/or a Dividend or a basket and/or combination thereof (each as defined in the Additional Terms and Conditions relating to the relevant Underlying).

Save as set out below, the Notes and in respect of Materialised Notes, the Receipts (as defined below),the Coupons (as defined below), where applicable in the case of such Notes, talons (the **Talons**) for further Coupons, have the benefit of an agency agreement dated 22 February 2021 (the **French Law Agency Agreement**, which expression shall be construed as a reference to any such agreement as the same may be amended, supplemented or restated from time to time) and made between, amongst others Societe Generale, SG Issuer and the Guarantor (as defined below), Societe Generale Luxembourg as principal paying agent (the **Principal Paying Agent**, which expression shall include, any additional or successor principal paying agent appointed from time to time and specified in the applicable Final Terms) and the other paying agents named therein (such paying agents, the **Paying Agents**, which expression shall include any additional or successor paying agents appointed from time to time).

The **Calculation Agent** with respect to a Tranche of Notes will be Societe Generale (or any successor thereto), as designated in the applicable Final Terms.

The Paying Agents, the Registration Agent, the Principal Paying Agent and, unless the context otherwise requires, the Settlement Agent (as defined in Condition 11) and the Calculation Agent (as defined in Condition 11) shall be referred to collectively hereunder as the **Agents**.

Any issue of Notes or Materialised Notes (each term as defined above) listed on SIX Swiss Exchange will have the benefit of a Swiss paying agency agreement (the **Swiss Paying Agency Agreement**, which expression shall be construed as a reference to any such agreement as the same may be amended, supplemented or restated from time to time) between, amongst others, the Issuer, the Guarantor, the principal Swiss paying agent and the other Swiss paying agents (if any) (the **Principal Swiss Paying Agent** and the **Swiss Paying Agents**, respectively, and the term Paying Agent as defined above shall include such Principal Swiss Paying Agent and Swiss Paying Agents). The form of the Swiss Paying Agency Agreement is scheduled to the French Law Agency Agreement.

Any reference herein to Euroclear France, Euroclear and/or Clearstream (each as defined below) shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms (including, without limitation, the *Intermédiaires financiers habilités* authorised to maintain accounts in Euroclear France).

For the purpose of these Conditions, **Euroclear France Account Holder** means any authorised financial intermediary institution entitled to hold accounts, directly or indirectly, on behalf of its customers with Euroclear France, and includes Euroclear Bank SA/NV (**Euroclear**), the depositary bank for Clearstream Banking S.A., (**Clearstream**) or, in case of Notes listed on SIX Swiss Exchange, the depository bank for SIX SIS Ltd., the Swiss securities services corporation (**SIS**).

Interest-bearing Materialised Notes have interest coupons (**Coupons**) and, if indicated in the applicable Final Terms, talons for further Coupons (**Talons**) attached on issue. Any reference herein to "Coupons" or "coupons" shall, unless the context otherwise requires, be deemed to include a reference to "Talons" or "talons".

Definitive Materialised Bearer Notes repayable in instalments have receipts (**Receipts**) for the payment of the instalments of principal (other than the final instalment) attached on issue. Temporary Global Certificates do not have Receipts, Coupons or Talons attached on issue.

Any references in these Terms and Conditions to "Coupons", "Talons" or "Receipts" shall not apply to Dematerialised Notes. Any reference herein to **Physical Delivery Notes** shall mean any Series of Notes that are linked to Deliverable Asset(s) (as defined in Condition 5.19) specified in the applicable Final Terms.

Copies of the French Law Agency Agreement, the Swiss Paying Agency Agreement (where applicable), and the Guarantee (where applicable) are available for inspection during normal business hours from the head office of each of the relevant Issuer and (if applicable) the Guarantor and from the specified office of each of the Paying Agents. Copies of the applicable Final Terms are available for viewing at www.luxse.com save that, if this Note is (i) an Exempt Offer Note (as defined below) or (ii) an Exempted Swiss Public Offer Note, the applicable Final Terms will only be obtainable by a Noteholder holding one or more such Notes and such Noteholder must produce evidence satisfactory to the relevant Issuer, and, if applicable, the Guarantor or, as the case may be, the relevant Paying Agent as to its holding of such Notes and identity (unless otherwise made available publicly by the Issuer). The Noteholders are deemed to have notice of, and are entitled to the benefit of, all the provisions of the French Law Agency Agreement, the Swiss Paying Agency Agreement (where applicable), the Guarantee (where applicable) and the applicable Final Terms. The statements in the Conditions include summaries of, and are subject to, the detailed provisions of the French Law Agency Agreement and, the Swiss Paying Agency Agreement (where applicable).

In this section (a) **Non-exempt Offer Note** means any Note that is (i) offered to the public in the EEA other than pursuant to articles 1(4) or 3(2) of Regulation (EU) 2017/1129 as amended or superseded (the **Prospectus Regulation**) or (ii) admitted to trading on a Regulated Market in the EEA for the purposes of article 3(3) of the Prospectus Regulation, (b) **Exempt Offer Note** means any Note that is (i) offered to the public in the EEA only pursuant to articles 1(4) or 3(2) of the Prospectus Regulation or (ii) admitted to trading on a Regulated Market in the EEA pursuant to article 1(5) of the Prospectus Regulation and (c) **Exempted Swiss Public Offer Note** means any security that is not (i) offered to the public in Switzerland for the purposes of article 35 of the Swiss Federal Act on Financial Services (the **FinSA**) (except as specified under article 36(1) or article 37 of the FinSA) or (ii) admitted to trading on a trading venue in accordance with article 26(a) of the Swiss Federal Act on Financial Market Infrastructures and Market Conduct in Securities and Derivatives Trading (except as specified under article 38 of the FinSA).

1. FORM, TITLE, TRANSFER, DENOMINATION AND REDENOMINATION

1.1 Form and title

1.1.1. Dematerialised Notes

Form of and title to, Dematerialised Notes will be evidenced in accordance with articles L.211-3 *et seq.* and R.211-1 of the *Code monétaire et financier* (the **Code**) by book entries (*inscriptions en compte*). No physical document of title (including *certificats représentatifs* pursuant to article R. 211-7 of the Code) will be issued in respect of Notes.

Dematerialised Notes are issued, at the option of the Issuer and as specified in the Final Terms, in either bearer form (*au porteur*), which will be inscribed in the books of Euroclear France, a subsidiary of Euroclear Bank SA/NV (**Euroclear France**) (acting as central depositary) which shall credit the accounts of Euroclear France Account Holders, or in registered form (*au nominatif*) and, in such latter case, at the option of the relevant Noteholder in either administered registered form (*nominatif administré*) inscribed in the books of a Euroclear France Account Holder or in fully registered form (*nominatif pur*) inscribed in an account maintained by the Issuer or by the registration agent (designated in the applicable Final Terms) acting on behalf of the Issuer (the **Registration Agent**).

Dematerialised Notes issued in bearer form (*au porteur*) may not be converted into Dematerialised Notes in registered form, whether in fully registered form (*nominatif pur*) or in administered registered form (*nominatif administré*).

Dematerialised Notes issued in registered form (*au nominatif*) may not be converted into Dematerialised Notes in bearer form (*au porteur*).

Dematerialised Notes issued in fully registered form (*nominatif pur*) may, at the option of the Noteholder be converted into Notes in administered registered form (*nominatif administré*), and vice versa. The exercise of any option by the Noteholder shall be made in accordance with article R. 211-4 of the Code. Any such conversion shall be effected at the cost of the Noteholder.

To the extent permitted by applicable law, the Issuer may at any time request from the central depositary identification information of the Noteholders such as the name or the company name, nationality, date of birth or year of incorporation and mail address or, as the case may be, e-mail address of holders of Dematerialised Notes in bearer form (*au porteur*).

1.1.2 Materialised Notes

Materialised Notes are Notes issued in a materialised bearer form.

In accordance with articles L.211-3 et seq. of the Code, securities in materialised form and governed by French law must be issued outside the French territory.

A temporary global certificate in bearer form (a **Temporary Global Certificate**) will initially be issued in connection with Materialised Notes. Upon the initial deposit of such Temporary Global Certificate with a common depositary, Euroclear or Clearstream (or, if a subscriber holds an account with a clearing system other than Euroclear or Clearstream which holds an account directly or indirectly in Euroclear or Clearstream, such other clearing system) (the Common Depositary), Euroclear or Clearstream (or such other clearing system) will credit the account of each subscriber of such Notes.

The Temporary Global Certificates are exchanged against Definitive Materialised Bearer Notes pursuant to Condition 1.3 below.

Definitive Materialised Bearer Notes are serially numbered are issued with Coupons (and, where appropriate, a Talon) attached, save in the case of Zero Coupon Notes in which case references to interest (other than in relation to interest due after the Maturity Date), Coupons and Talons in these Conditions are not applicable. Instalment Notes are issued with one or more Receipts attached.

Except as ordered by a court of competent jurisdiction or as required by law, the holder of any Note and as the case may be, Receipt, Coupon or Talon shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, or an interest in it, any writing on it or its theft or loss and no person shall be liable for so treating the holder.

1.1.3 Left blank intentionally

1.2 Transfer of Notes

1.2.1 Title to Notes in bearer form (*au porteur*) and in administered registered form (*au nominatif administré*) shall pass upon, and transfer of such Notes may only be effected through, registration of the transfer in the accounts of Euroclear France Account Holders. Title to Notes in fully registered form (*au nominatif pur*) shall pass upon, and transfer of such Notes may only be effected through, registration of the transfer in the accounts in the books of Euroclear France maintained by the Issuer or by the Registration Agent.

1.2.2 Left blank intentionally

1.2.3 Left blank intentionally

1.2.4 Left blank intentionally

1.2.5 Left blank intentionally

1.2.6 Left blank intentionally

1.2.7 Cost of registration

Noteholders will not be required to bear the costs and expenses of effecting any registration of transfer as provided above, except for any costs or expenses of delivery other than by regular uninsured mail and except that the Issuer may require the payment of a sum sufficient to cover any stamp duty, tax or other governmental charge that may be imposed in relation to the registration.

1.2.8 Definitions - Transfer to Permitted Transferees

In these Conditions, the following expressions shall have the following meanings:

Distribution Compliance Period means the period that ends 40 days after the completion of the distribution of the relevant Notes as determined by the relevant lead manager;

Global Notes means a Temporary Global Certificate initially issued in connection with Materialised Notes.

Investment Company Act means the U.S. Investment Company Act of 1940, as amended;

IRS U.S. Person means a U.S. person as defined in paragraph 7701(a)(30) of the Internal Revenue Code of 1986;

Permitted Transferee means any person who:

(i) is not a U.S. Person; and

(ii) is not a person who comes within any definition of U.S. person for the purposes of the CEA or any CFTC Rule, guidance or order proposed or issued under the CEA (for the avoidance of doubt, any person who is not a “Non-United States person” defined under CFTC Rule 4.7(a)(1)(iv), but excluding, for purposes of subsection (D) thereof, the exception for qualified eligible persons who are not “Non-United States persons”, shall be considered a U.S. person); and

(iii) is not a Risk Retention U.S. Person.

Regulation S means Regulation S under the Securities Act;

Regulation S U.S. Person means a U.S. Person as defined in Regulation S;

Risk Retention U.S. Person means a "U.S. person" for purposes of the U.S. Risk Retention Rules;

Securities Act means the U.S. Securities Act of 1933, as amended;

U.S. Person means (i) Regulation S U.S. Person unless the applicable Final Terms specify that IRS U.S. Person is also applicable, or (ii) if in case of SGI Index Linked Notes, Advised SGI Index is applicable or if in case of Portfolio Linked Notes, Dynamic Portfolio is applicable, a person who is either a Regulation S U.S. Person or an IRS U.S. Person unless the applicable Final Terms specify that only a Regulation S U.S. Person is applicable;

U.S. Risk Retention Rules means the final rules implementing the credit risk retention requirements of Section 15G of the U.S. Securities Exchange Act of 1934, as amended.

Notes may not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, a person that is not a Permitted Transferee and any offer, sale, resale, pledge, redemption, transfer or delivery made, directly or indirectly, within the United States or to or for the account or benefit of, a person that is not a Permitted Transferee will not be recognised.

1.3 Exchanges

Materialised Bearer Notes of one Specified Denomination may not be exchanged for Materialised Bearer Notes of another Specified Denomination.

Materialised Notes represented by a Temporary Global Certificate will be exchangeable in whole, but not in part, free of charge to the holder, on or after the Exchange Date (as defined below) for materialised bearer Notes in definitive form (**Definitive Materialised Bearer Notes**) and with respect to Definitive Materialised Bearer Notes only, together with where applicable, Receipts, Coupons and/or Talons attached and (a) if the applicable Final Terms indicates that such Temporary Global Certificate is issued in compliance with the TEFRA C Rules or in a transaction to which TEFRA rules are not applicable; and otherwise, (b) upon certification as to non-U.S. beneficial ownership in the form set out in the French Law Agency Agreement (as defined above).

On or after the Exchange Date, the holder of a Temporary Global Certificate may surrender such Temporary Global Certificate to or to the order of the Principal Paying Agent. In exchange for any Temporary Global Certificate, the Issuer will deliver, or procure the delivery of, duly executed and authenticated Definitive Materialised Bearer Notes. Definitive Materialised Bearer Notes will be security printed at the expense of the Issuer in accordance with any applicable legal and stock exchange requirements in or substantially in the form set out in the French Law Agency Agreement.

For the purposes of this Condition, the Exchange Date shall be the day immediately following the later of (i) 40 days after the Temporary Global Certificate is issued and (ii) the end of the Distribution Compliance Period.

On or after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Principal Paying Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 10. Each Talon shall, for the purposes of these General Terms and Conditions, be deemed to mature on the Interest Payment Date on which the final Coupon comprised in the relative Coupon sheet matures.

1.4 Denomination of Notes

Notes shall be issued in the specified denomination(s) as set out in the applicable Final Terms (the **Specified Denomination**(**s**)) save that the minimum denomination of each Note issued by Societe Generale and admitted to trading on a Regulated Market within the European Economic Area (**EEA**) or offered to the public in a Member State of the EEA in circumstances which require the publication of a prospectus under the Prospectus Regulation will be €1,000 (or, if the Notes are denominated in a currency other than euro, the equivalent amount in such currency).
Notes shall be issued in one Specified Denomination only.

1.5 Redenomination - conversion of currency

The Issuer may (if specified in the applicable Final Terms), without the consent of the Noteholders by giving at least 30 days' notice in accordance with Condition 13, and on or after the date on which a Member State of the European Union whose national currency is the same as the Specified Currency, has become a participating Member State in the third stage of the European Economic and Monetary Union (as provided in the Treaty on the Functioning of the European Union (the **EU**), as amended from time to time (the **Treaty**)) or events have occurred which have substantially the same effects (in either case, **EMU**), redenominate all, but not some only of the Notes, into Euro and adjust any term of the Notes as the Calculation Agent deems appropriate to give effect to such change (including, without limitation, the aggregate principal amount of the Notes, the Settlement Amount, Exercise Price, the Parity (if applicable)). The date on which such change becomes effective shall be referred to in these General Terms and Conditions as the **Currency Conversion Date**.

The redenomination of the Notes pursuant to the above paragraph shall be made by converting the principal amount of each Note from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the European Union pursuant to Article 140 of the Treaty and rounding the resultant figure to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards), provided that, if the Issuer determines, with the agreement of the Principal Paying Agent that the then market practice in respect of the redenomination in Euro of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, the stock exchange (if any) on which the Notes may be listed and the Paying Agents of such deemed amendments.

The conversion rate applicable and the amounts in Euro so determined shall be notified to Noteholders in accordance with Condition 13. Any balance remaining from the change of currency in an amount higher than 0.01 Euro shall be paid by way of cash adjustment rounded to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards). Such cash adjustment will be payable in Euros on the Currency Conversion Date.

Upon redenomination of the Notes, any reference hereon to the relevant national currency shall be construed as a reference to Euro.

The Issuer may, with prior approval of the Principal Paying Agent, without the consent of the Noteholders in connection with any redenomination or any consolidation pursuant to Condition 14, on giving not less than 30 days' prior notice to the Noteholders in accordance with Condition 13, make any changes or additions to these General Terms and Conditions which it reasonably believes to be necessary or desirable to give effect to the provisions of this Condition or Condition 14 (including, without limitation, any change to any applicable business day definition, business day convention, principal financial centre of the country of the Specified Currency, interest accrual basis or benchmark), taking into account market practice in respect of redenominated euromarket debt obligations and which it believes are not prejudicial to the interests of the Noteholders.

Neither the Issuer nor any Paying Agent shall be liable to any Noteholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of Euro or any currency conversion or rounding effected in connection therewith.

Any such changes or additions made pursuant to this Condition will, in the absence of manifest or error, be conclusive and binding on the Noteholders.

2. STATUS OF THE NOTES AND GUARANTEE

2.1 Notes issued by Societe Generale

Notes issued by Societe Generale, including where applicable any related Coupons, will constitute direct, unconditional, unsecured and senior obligations of the Issuer ranking as senior preferred obligations (as provided for in Article L. 613-30-3-I-3° of the Code)(the "**Senior Preferred Notes**"):

(i) pari passu with:

(a) all direct, unconditional, unsecured and senior obligations of Societe Generale outstanding as of the date of entry into force of the Law on 11 December 2016; and

(b) all present or future senior preferred obligations (as provided for in Article L. 613-30-3-I-3° of the Code) of the Issuer issued after the date of entry into force of the Law on 11 December 2016;

(ii) junior to all present or future claims of the Issuer benefiting from statutorily preferred exceptions; and

(iii) senior to all present or future:

(a) Senior Non-Preferred Obligations; and

(b) subordinated obligations and deeply subordinated obligations of the Issuer.

In the event any judgment is rendered by any competent court declaring the judicial liquidation of the Issuer or if the Issuer is liquidated for any other reason:

- the rights of payment of the holders of Senior Preferred Notes and, where applicable, any related Coupons shall be subordinated to the payment in full of all present or future holders of, or creditors in respect of, claims benefiting from statutory preferred exceptions (**Preferred Creditors**);

- subject to such payment in full, the holders of Senior Preferred Notes and, where applicable, any related Coupons shall be paid in priority to any present or future holders of, or creditors in respect of, obligations referred to in (iii) above; and

- in the event of incomplete payment by the Preferred Creditors, the obligations of Societe Generale under the Senior Preferred Notes and, where applicable, any related Coupons relating thereto will be terminated.

The holders of Senior Preferred Notes and, where applicable, any related Coupons relating thereto shall be responsible for taking all necessary steps for the orderly accomplishment of such liquidation of Societe Generale in relation to any claim they may have against Societe Generale.

For the Senior Preferred Notes that are Eligible Notes, redemption, purchase or cancellation of such Notes prior their Maturity Date will be subject to the prior written permission of the Relevant Resolution Authority .

"BRRD II" means Directive 2014/59/EU of the Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms as published in the Official Journal of the European Union on 12 June 2014, as amended from time to time or such other directive as may come in effect in the place thereof (including by the Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending Directive 2014/59/EU as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms).

"BRRD II rules" means any of BRRD II and SRM and implementing measures

"CRD IV" means the Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms, as published in the Official Journal of the European Union on 27 June 2013, as amended from time to time or such other directive as may come into effect in place thereof (including by Directive (EU) 2019/878 of the European Parliament and of the Council of 20 May 2019 amending Directive 2013/36/EU as regards exempted entities, financial holding companies, mixed financial holding companies, remuneration, supervisory measures and powers and capital conservation measures).

"CRD IV Implementing Measures" means any regulatory capital rules implementing CRD IV or the CRR which may from time to time be introduced, including, but not limited to, delegated or implementing acts (regulatory technical standards) adopted by the European Commission, national laws and regulations, and regulations and guidelines issued by the Relevant Resolution Authority, which are applicable to the Issuer and which prescribe the requirements to be fulfilled by financial instruments for inclusion in the regulatory capital of the Issuer.

"CRD IV Rules" means any or any combination of the CRD IV, the CRR and any CRD IV Implementing Measures.

"CRR" means the Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms, as published in the Official Journal of the European Union on 27 June 2013, as amended from time to time or such other directive as may come into effect in place thereof (including by Regulation (EU) 2019/876 of the European Parliament and of the Council of 20 May 2019 amending Regulation (EU) No 575/2013 as regards the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements and Regulation (EU) 2022/2036 of the European Parliament and of the Council of 19 October 2022 amending Regulation (EU) No 575/2013 and Directive 2014/59/EU as regards the prudential treatment of global systemically important institutions with a multiple-point-of-entry resolution strategy and methods for the indirect subscription of instruments eligible for meeting the minimum requirement for own funds and eligible liabilities).

"**Eligible Notes**" means Senior Preferred Notes issued by Societe Generale, specified as such in the applicable Final Terms:

(i) issued pursuant to Article R 613-46-1 of the Code in compliance with the criteria applicable to eligible liabilities available to meet the MREL Requirements in accordance with the Relevant Rules but shall not include (a) Eligible Structured Notes described in (ii) below and (b) other liabilities with embedded derivatives satisfying the condition of Article R 613-46-1-III-1° (the "**Eligible Non Structured Notes**"),

which criteria are, *inter alia*, as of the date of the General Terms and Conditions that such Notes:

(a) cannot be accelerated by the Noteholders upon the occurrence of an Event of Default; and

(b) can only be redeemed, purchased or cancelled prior to their Maturity Date (other than for the occurrence of an Event of Default) subject to the prior permission of the Relevant Resolution Authority; and

(c) give rise to claim against Societe Generale that is equal to par or at least equal to par in case of Zero Coupon Notes

or

(ii) issued pursuant to Article R 613-46-1-III-2° of the Code in compliance with the criteria applicable to eligible liabilities available to meet the MREL Requirements in accordance with the Relevant Rules (the "**Eligible Structured Notes**"), which criteria are, *inter alia*, as of the date of these General Terms and Conditions that such Notes:

(a) cannot be accelerated by the Noteholders upon the occurrence of an Event of Default, and

(b) can be redeemed, purchased or cancelled early prior to their Maturity Date (other than for the occurrence of an Event of Default) only subject to the prior permission of the Relevant Resolution Authority; and

(c) whose claim against Societe Generale in case of liquidation or resolution of Societe Generale, is of an amount that is fixed or increasing and which does not exceed the initially paid-up amount of the liability pursuant to the provisions of Article R 613-46-1-III-2° of the Code.

and which in the case of each of (i) and (ii) above have an initial maturity at least equal to one year.

The Final Terms shall specify if the Notes are Eligible Notes, and if yes, if they are Eligible Non Structured Notes or Eligible Structured Notes.

"**MREL Requirements**" means the minimum requirements for own funds and eligible liabilities applicable to the Issuer and/or the Group referred to in the BRRD II and CRD IV, or any other EU laws and regulations, including SRM Regulation, implemented in French laws and regulations and/or as set out in policies and/or principles of the SRB as the case may be, as amended from time to time..

"**Relevant Rules**" means at any time the laws, regulations, requirements, guidelines and policies of the Relevant Resolution Authority relating to capital adequacy applicable to the Issuer from time to time including, for the avoidance of doubt, applicable rules contained in, or implementing the CRD IV Rules and/or the BRRD II Rules.

"**Senior Non-Preferred Obligations**" means any senior (*chirographaires*) obligations of, or other instruments issued by, Societe Generale, which fall or are expressed to fall within the category of obligations described in article L. 613-30-3–I-4° and R. 613-28 of the Code.

"**SRM Regulation**" means Regulation 806/204/EU, as amended from time to time or such other regulation as may come in effect in the place thereof (including Regulation 2019/877/EU of 20 May 2019 amending Regulation (EU) No 806/2014 as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms).

2.2 Notes issued by SG Issuer

2.2.1 Notes (other than Secured Notes) issued by SG Issuer

Notes will constitute direct, unconditional, unsecured and unsubordinated obligations of SG Issuer and will rank *pari passu* without any preference among themselves and (subject to such exceptions as from time to time exist under applicable law) at least *pari passu* with all other outstanding direct, unconditional, unsecured and unsubordinated obligations of SG Issuer, present and future.

2.2.2 Secured Notes issued by SG Issuer only

Secured Notes issued by SG Issuer will constitute direct, unconditional, secured, limited recourse and unsubordinated obligations of SG Issuer and will rank *pari passu* without any preference among themselves and (subject to such exceptions as from time to time exist under applicable law) at least *pari passu* with all other outstanding direct, unconditional, secured, limited recourse and unsubordinated obligations of SG Issuer, present and future.

2.3 Guarantee in the case of Notes issued by SG Issuer

The due and punctual payment of any amounts due by the Issuer in respect of any Notes issued by SG Issuer is unconditionally and irrevocably guaranteed by the Guarantor as provided in the guarantee made as of 15 May 2026 (the **Guarantee** and each such amount payable under the Guarantee, a **Guarantee Obligation**) the text of which is set out in "*Guarantee*" in the Base Prospectus dated 15 May 2026; provided that in the case of any Physical Delivery Notes in respect of which the relevant guaranteed obligation of the Issuer is an obligation to transfer the Deliverable Asset(s) in respect of a Physical Delivery Amount, the Guarantor shall, in lieu of such transfer, be obliged to pay a cash amount in the Relevant Currency equal to the fair market value (as determined by the Calculation Agent on or about the due date for transfer of the relevant Deliverable Asset(s) in respect of the Physical Delivery Amount) of the Deliverable Asset(s) in respect of the Physical Delivery Amount.

The Guarantee Obligations will constitute direct, unconditional, unsecured and unsubordinated obligations of the Guarantor ranking as senior preferred obligations, as provided for in Article L. 613-30-3 - I - 3° of the Code.

Such Guarantee Obligations rank and will rank equally and rateably without any preference or priority among themselves and:
(i) pari passu with all other direct, unconditional, unsecured and unsubordinated obligations of the Guarantor outstanding as of the date of the entry into force of the Law on 11 December 2016;

(ii) pari passu with all other present or future direct, unconditional, unsecured and senior preferred obligations (as provided for in Article L. 613-30-3 I 3° of the Code) of the Guarantor issued after the date of the entry into force of the Law on 11 December 2016;

(iii) junior to all present or future claims of the Guarantor benefiting from the statutorily preferred exceptions; and

(iv) senior to all present and future senior non-preferred obligations (as provided for in Article L.613-30-3 - I - 4° of the Code) and all present or future subordinated obligations and deeply subordinated obligations, of the Guarantor.

3. LEFT BLANK INTENTIONALLY

4. INTEREST RELATING TO THE NOTES

This Condition 4 shall apply if the applicable Final Terms specify that the clause "*Fixed Rate Note Provisions*", "*Floating Rate Note Provisions*", "*Structured Interest Note Provisions*" and/or " *Zero Coupon Notes Provision*" is stated as being "Applicable".

For the purpose of this Condition 4, any reference to "Interest Amount" shall be deemed to be a reference to the Fixed Coupon Amount, the Floating Coupon Amount or the Structured Interest Amount (each as defined below) when the context requires.

4.1 Fixed Rate Note Provisions

This Condition 4.1 applies if the applicable Final Terms specify that the clause "*Fixed Rate Note Provisions*" is "Applicable".

The applicable Final Terms contain provisions applicable to the determination of fixed coupon amount (the **Fixed Coupon Amount**) and must be read in conjunction with this Condition 4.1 for full information on the manner in which interest is calculated on Fixed Rate Notes.

In particular, the applicable Final Terms will specify, if applicable, the Interest Commencement Date the Rate(s) of Interest, the Interest Payment Date(s), the Business Day Convention, the Fixed Coupon Amount(s), any applicable Broken Amount(s), Calculation Amount, Day Count Fraction and any applicable Determination Date.

Fixed Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate(s) of Interest to the Specified Denomination as it shall be set out in the applicable Final Terms.

In the case of Notes which are Non-exempt Offer to the public and where the Rate(s) of Interest is/are to be determined by reference to a percentage to be published by the Issuer on http://prospectus.socgen.com, the applicable Final Terms will specify an indicative value, a minimum value and will indicate the date of publication thereof.

For the purpose of this Condition 4.1:

Fixed Rate Note means a Note which bears one or more fixed rate(s) of interest applicable to the relevant Interest Period which may be either an Adjusted Fixed Rate Note or an Unadjusted Fixed Rate Note.

Adjusted Fixed Rate Note means a Fixed Rate Note in respect of which the Interest Amount and the Interest Payment Date are subject to modification in accordance with the provisions of Condition 4.1.2.

Unadjusted Fixed Rate Note means a Fixed Rate Note in respect of which the Interest Amount and the Interest Payment Date remain, for the purposes of this Condition 4 (and without prejudice to the provisions of Condition 4.3), unchanged and are calculated in accordance with the provisions of Condition 4.1.1.

4.1.1 Unadjusted Fixed Rate Notes

Each Unadjusted Fixed Rate Note bears interest from and including the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date, as specified in the applicable Final Terms.

If the Notes are Definitive Materialised Bearer Notes, the amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified (the **Broken Amount**).

Except in the case of Notes which are Definitive Materialised Bearer Notes where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate(s) of Interest specified in the applicable Final Terms to:

- in the case of Fixed Rate Notes which are Dematerialised Notes, the aggregate outstanding nominal amount of the Notes of the relevant Series (or, if they are Partly Paid Notes, the aggregate amount paid up); or

- in the case of Fixed Rate Notes which are Materialised Bearer Notes, the Calculation Amount,

and, in each case, multiplying such amount by the applicable Day Count Fraction (if any), and rounding the resultant figure to the nearest sub-unit (as defined in Condition 4.7 below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards. Fixed Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate(s) of Interest to the Specified Denomination as it shall be set out in the applicable Final Terms. Where the Specified Denomination of a Fixed Rate Note which is a Materialised Bearer Note is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

4.1.2 Adjusted Fixed Rate Notes

4.1.2.1 Each Adjusted Fixed Rate Note bears interest from and including the Interest Commencement Date specified in the applicable Final Terms, and such interest will be payable in respect of each Interest Period and in arrear on the Interest Payment Date(s) in each year specified in the applicable Final Terms; provided that (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then if the applicable Final Terms specify that the clause "Business Day Convention" is:

"**Following Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day; or

"**Modified Following Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day; or

"**Preceding Business Day Convention**", such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day,

and the expression "Interest Payment Date" shall be construed accordingly.

4.1.2.2 The Calculation Agent will calculate the amount of interest (the **Adjusted Fixed Rate Interest Amount**) payable on the Adjusted Fixed Rate Notes for the relevant Interest Period by applying the Rate(s) of Interest to:

(i) in the case of Adjusted Fixed Rate Notes which are Dematerialised Notes, the aggregate outstanding nominal amount of the Notes of the relevant Series (or, if they are Partly Paid Notes, the aggregate amount paid up); or

(ii) in the case of Adjusted Fixed Rate Notes which are Materialised Bearer Notes, the Calculation Amount;

and, in each case, multiplying such amount by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of an Adjusted Fixed Rate Note which is a Materialised Bearer Note is a multiple of the Calculation Amount, the Adjusted Fixed Rate Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

4.2 Floating Rate Note and Reference Rate Note Provisions

This Condition 4.2 applies if (i) the applicable Final Terms specify that the clause "*Floating Rate Note Provisions* " is "Applicable", or (ii) with respect to U.S. Exempt Securities, the applicable Offering Circular specifies that the clause "Floating Rate Note Provisions" is stated as being "Applicable".

The applicable Final Terms contain provisions applicable to the determination of floating coupon amount (the **Floating Coupon Amount**) and must be read in conjunction with this Condition 4.2 for full information on the manner in which interest is calculated on Floating Rate Notes.

In particular, the applicable Final Terms will specify the Floating Coupon Amount(s), the Interest Payment Date(s), the Business Day Convention, the method of determination of the Rate of Interest and Interest Amount, any Margin(s)/Spread(s), any Leverage Factor, any minimum rate of interest (the **Minimum Rate of Interest**) or any maximum rate of interest (the **Maximum Rate of Interest**) (whereby these latter elements may also be specified in the formula for the calculation of the Floating Coupon Amount specified in the applicable Final Terms), and any Day Count Fraction, and any rate multiplier (the **Rate Multiplier**).

In the case of Notes which are Non-exempt Offer to the public and the Floating Coupon Amount is to be determined by reference to one or more component(s) being a percentage to be published by the Issuer on http://prospectus.socgen.com, the applicable Final Terms will specify an indicative value, a minimum value, and will indicate the date of publication thereof.

4.2.1 Specified Period(s) and Interest Payment Dates

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in respect of each Interest Period on either:

(1) the Interest Payment Date(s) specified in the applicable Final Terms; or

(2 if no Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Interest Payment Date specified in the applicable Final Terms an **Interest Payment Date**) numerically corresponding to the immediately preceding Interest Payment Date and which falls the number of months or other period(s) (the **Specified Period(s)**) specified in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date (and if no Interest Commencement Date is specified, after the Issue Date).

4.2.2 Floating Coupon Amount

The Floating Coupon Amount payable on the Interest Payment Date(s) in respect of the Floating Rate Notes will be determined by applying the Rate of Interest to the Specified Denomination as specified in the applicable Final Terms.

4.2.3 Rate of Interest

The Rate of Interest in respect of the Floating Rate Notes or Reference Rate Linked Notes as the case may be, will be determined pursuant to the provisions below as specified in the Final Terms.

4.2.3.1 ISDA Determination

If the applicable Final Terms specify that "Method of determination of the Rate of Interest and Interest Amount" is “ISDA Determination”, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the Final Terms) the margin(s) (the **Margin**(**s**)), (if any), which, for the avoidance of doubt, may be also referred to as the spread(s) (the **Spread**(**s**)) in the applicable Final Terms) multiplied by any leverage factor (the **Leverage Factor**).

For the purposes of this paragraph, **ISDA Rate** for an Interest Period means, subject to the provisions of Condition 4.2.3.5 below, a rate equal to the Floating Rate that would be determined by the Calculation Agent or any other person specified in the Final Terms,

under an interest rate swap transaction if the Calculation Agent or that other person were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions (as defined below) and under which:

(1) the Floating Rate Option is as specified in the Final Terms;

(2) the Designated Maturity is a period specified in the Final Terms; and

(3) the relevant Reset Date is as specified in the Final Terms;

(the **"Hypothetical Swap Transaction"**)

For the purposes of this subparagraph, **Floating Rate**, **Calculation Agent**, **Floating Rate Option**, **Designated Maturity**, **Reset Date** and **Euro-zone** have the meanings given to those terms in the 2021 ISDA Interest Rate Derivatives Definitions published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche Notes (the **2021 ISDA Definitions**).

Where ISDA Determination is specified in the Final Terms as the "Method of determination of the Rate of Interest and Interest Amount", unless a higher Minimum Rate of Interest is specified in the Final Terms, the Minimum Rate of Interest shall be deemed to be zero.

Except if the provisions of Conditions 4.2.3.3 or 4.2.3.4 apply, in the Final Terms, when the paragraph “Floating Rate Option” specifies that the rate is determined by linear interpolation, in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Floating Rate Option, one of which shall be determined as if the Designated Maturity were the period of time for which rates are available of next shorter length before the length of the relevant Interest Period, and the other of which shall be determined as if the Designated Maturity were the period of time, for which rates are available of next longer length after the length of the relevant Interest Period.

4.2.3.2 Standard Screen Rate Determination

If the applicable Final Terms specify that the “Method of determination of the Rate of Interest and Interest Amount” is “Standard Screen Rate Determination” or otherwise provide that “Standard Screen Rate Determination” applies, the Rate of Interest for each Interest Period will, subject as provided below, and in Condition 4.2.3.5 below, be either:

(1) the offered quotation; or

(2) the arithmetic mean (rounded, if necessary, to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate *per annum*), for the Reference Rate(s) which appears or appear, as the case may be, on the Relevant Screen Page as at the specified time (**Specified Time**) or the Specified Time in the principal financial centre of the jurisdiction of the relevant Reference Rate on the interest determination date in question (the **Interest Determination Date**) as specified in the Final Terms plus or minus (as indicated in the Final Terms) the Margin or Spread (if any), multiplied by any Leverage Factor, all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the Relevant Screen Page is not available or if in the case of paragraph (1) above, no such offered quotation appears or, in the case of paragraph (2) above, fewer than three such offered quotations appear, in each case as at the Specified Time, the Calculation Agent shall request the principal office of each of the Reference Banks (as defined below) to provide the Calculation Agent with its offered quotation (expressed as a percentage rate *per annum*) for the Reference Rate at approximately the Specified Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of such offered quotations plus or minus (as appropriate) the Margin (if any), and multiplied by any Leverage Factor, all as determined by the Calculation Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate *per annum* which the Calculation Agent determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the relevant inter-bank market plus or minus (as appropriate) the Margin (if any) and multiplied by any Leverage Factor or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at approximately the Specified Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer and the Calculation Agent suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in the relevant inter-bank market (or, as the case may be, the quotations of such bank or banks to the Calculation Agent) plus or minus (as appropriate) the Margin (if any) and multiplied by any Leverage Factor.

Where:

Reference Rate(s) means, for the purpose of this Condition 4.2.3.2, as specified in the applicable Final Terms, the deposit rate, the interbank rate, the swap rate or bond yield, as the case may be, which appears on the Relevant Screen Page at the Specified Time on the Interest Determination Date and as determined by the Calculation Agent.

Reference Banks has the meaning given to it, for each Reference Rate, in the 2021 ISDA Definitions as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series. For instance, in case of an EURIBOR rate, the Reference Banks will be the principal Euro-zone office of four major banks in the Euro-zone inter-bank market.

Euro-zone has the meaning given to such term in the 2021 ISDA Definitions.

In the applicable Final Terms, when the clause "*Reference Rate*" specifies that the rate is determined by linear interpolation, in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate, one of which shall be determined as if the maturity were the period of time, for which rates are available, of next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the maturity were the period of time, for which rates are available, of next longer than the length of the relevant Interest Period.

4.2.3.3 Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination

If the applicable Final Terms specify that the "Method of determination of the Rate of Interest and Interest Amount" is "Compounded RFR Screen Rate Determination" or "Averaged RFR Screen Rate Determination" or otherwise provide that "Compounded RFR Screen Rate Determination" or "Averaged RFR Screen Rate Determination" applies and the Reference Rate specified in the applicable Final Terms in respect of the Floating Rate Notes or Reference Rate Linked Notes as the case may be, is based on an overnight risk-free rate (such as and without limitation SONIA, SOFR, €STR, SARON, TONA, SORA, HONIA, AONIA, CORRA)(each an **Underlying Benchmark**), the Rate of Interest for each Interest Period will, subject as provided below in 4.2.3.5, be such Reference Rate which is either (i) a Published Compounded RFR or (ii) a Published Averaged RFR, plus or minus (as indicated in the applicable Final Terms) the Margin (if any), multiplied by any Leverage Factor (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards).

For the purposes of this sub-paragraph, a **Published Compounded RFR** means the relevant Reference Rate as provided by the Administrator to authorised distributors and published at the specified time (the **Specified Time**) on the Relevant Screen Page (each as specified in the applicable Final Terms) and on a date (the **Interest Determination Date**) (specified in the applicable Final Terms or if none is specified, it shall be deemed to be on the 5th Business Day preceding the Interest Payment Date, corresponding to, the rate of return of a daily compound interest investment over a certain period of time (the **Tenor**) calculated in accordance with any one of the RFR Compounding Methods described in 4.2.3.4.1 to 4.2.3.4.4 below (each as specified in the applicable Final Terms).

For the purposes of this sub-paragraph, a **Published Averaged RFR** means the relevant Reference Rate as provided by the Administrator to authorised distributors and published at the specified time (the **Specified Time**) on the Relevant Screen Page (each as specified in the applicable Final Terms) and on a date (the **Interest Determination Date**) (specified in the applicable Final Terms or if none is specified, it shall be deemed to be on the 5th Business Day preceding the Interest Payment Date), corresponding to the arithmetic average of the Underlying Benchmark as observed over a certain period of time (the **Tenor)** calculated in accordance with any one of the RFR Averaging Methods described in Conditions 4.2.3.4.1 to 4.2.3.4.4 below (each as specified in the applicable Final Terms).

4.2.3.4 Determination of the Rate of Interest based on RFR Compounding Methods and RFR Averaging Methods

If the applicable Final Terms specify that the "Method of determination of the Rate of Interest and Interest Amount" is any of "Compounding with Lookback", "Compounding with Observation Shift", "Compounding with Lockout" or "OIS Compounding" (each a **RFR Compounding Method** and together the **RFR Compounding Methods**), the Rate of Interest for each Interest Period, will subject as provided in 4.2.3.5 below, be equal to (i) the Reference Rate corresponding to the rate of return of a daily compound interest investment over a certain tenor calculated on the basis of an overnight risk-free rate such as without limitation SONIA, SOFR, €STR, SARON, TONA, SORA, HONIA, AONIA or CORRA (each an Underlying Benchmark specified in the applicable Final Terms) in accordance with any one of the **RFR Compounding Methods** described in Conditions 4.2.3.4.1 to 4.2.3.4.4 below, as determined on the relevant Interest Determination Date (each as specified in the Final Terms) (ii) plus or minus (as indicated in the applicable Final Terms) the Margin (if any), multiplied by any Leverage Factor,(and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards); or

If the applicable Final Terms specify that the "Method of determination of the Rate of Interest and Interest Amount" is any of "Averaging with Lookback", "Averaging with Observation Shift", "Averaging with Lockout" or "Overnight Averaging" (each an **RFR Averaging Method** and together the **RFR Averaging Methods**) the Rate of Interest for each Interest Period, will subject as provided below, be equal to (i) the Reference Rate corresponding to the arithmetic average over a certain tenor of an overnight risk-free rate (such as without limitation SONIA, SOFR, €STR, SARON, TONA, SORA, HONIA, AONIA or CORRA) (each an **Underlying Benchmark** specified in the applicable Final Terms) in accordance with any one of the **RFR Averaging Methods** described in Conditions 4.2.3.4.1 to 4.2.3.4.4 below as determined on the relevant Interest Determination Date (each as specified in the Final Terms) (ii) plus or minus (as indicated in the applicable Final Terms) the Margin (if any), multiplied by any Leverage Factor (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards).

4.2.3.4.1 Lookback

4.2.3.4.1.1 If “Compounding with Lookback” is specified in the applicable Final Terms as the applicable RFR Compounding Method, the Reference Rate is equal to:

[Product (i from 1 to d0)(1+(Underlying Benchmark Level i-Lookback r ABD × ni) / Day Count Basis) - 1] × Day Count Basis / d

4.2.3.4.1.2 If “Averaging with Lookback” is specified in the applicable Final Terms as the applicable RFR Averaging Method, the Reference Rate is equal to:

[Sum(for i from 1 to d0) (Underlying Benchmark Level i-Lookback r ABD)] × 1/d

4.2.3.4.1.3 Definitions for Lookback

For the purposes of Conditions 4.2.3.4.1.1 and 4.2.3.4.1.2:

"Applicable Business Day" or **ABD**:
- In respect of any Underlying Benchmark other than the SOFR rate: Applicable Business Day means, any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial center of the relevant currency of the relevant Underlying Benchmark of the Reference Rate;
- In respect of the SOFR rate: an Applicable Business Day means an U.S. Government Securities Business Day.

d is the number of calendar days in the relevant Interest Period;

d0 is, for any Interest Period:
- if "Compounding with Lookback" applies: the number of Applicable Business Days in the relevant Interest Period except if the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is the number of Applicable Business Days in the relevant Interest Period plus one; or
- if "Averaging with Lookback" applies, the number of calendar days in that Interest Period

Day Count Basis means, if “Compounding with Lookback” applies, the denominator of the Day Count Fraction that customarily applies for the Underlying Benchmark of the relevant Reference Rate and which is either 365 or 360;

i is:

- if "Compounding with Lookback" applies:

a. if the first calendar day in the relevant Interest Period is an Applicable Business Day, a series of whole numbers from one to do, each representing the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; or

b. If the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is a series of whole numbers from 1 to d0, where *i* = 1 represents the first calendar day of the relevant Interest Period, and each of *i* = 2 to d0, represents the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; or

- if “Averaging with Lookback” applies:
a series of whole numbers from 1 to d0, each representing the relevant calendar day in the Interest Period in chronological order from, and including, the first calendar day in the Interest Period.

“Lookback r” means, the number of Applicable Business Days specified in the Final Terms; if none is specified “Lookback r “shall be deemed to be equal to 5;

ni means, if “Compounding with Lookback” applies, for any day “i”, the number of calendar days from and including such day “i” to but excluding, the earlier of (and excluding) (a) the next Applicable Business Day, and (b) the last day of the relevant Interest Period;

Underlying Benchmark Level i-Lookback r ABD means:

a) subject to paragraph b) below, for any Applicable Business Day “i” in the relevant Interest Period, the level of the Underlying Benchmark specified in the Final Terms in respect of the Applicable Business Day falling “Lookback_r” Applicable Business Days preceding “i” provided by its administrator to authorised distributors and published on the Relevant Screen Page on the Specified Time.

For the avoidance of doubt, pursuant to the rules of an Underlying Benchmark, the level of an Underlying Benchmark in respect of an Applicable Business Day "i" (the **Reset Date**) may be provided by its Administrator to authorised distributors and published on Relevant Screen Pages, on a day (the **Fixing Day**) which is either the same day as the Reset Date or one or more (the actual number being **"p"**) Applicable Business Days before (**" - p"**) or following (**" + p"**) the Reset Date (e.g.SONIA and SOFR) (with **"p"** = 0 if the Fixing Day is on the Reset Date); in that case, the Underlying Benchmark Level **i-Lookback r ABD** shall be the Underlying Benchmark Level published on day i - Lookback r ABD “+ p” or " - p" Applicable Business Day(s);

b) if a "Daily Capped Rate and/or Daily Floored Rate" is specified in the Final Terms, the Underlying Benchmark Level i – Lookback – r ABD for any Applicable Business Day i – Lookback r ABD shall be either:

(i) the greater of the rate determined in accordance with paragraph a) and the Daily Floored Rate specified (if any); and

(ii) the lower of the rate determined in accordance with paragraph a) and the Daily Capped Rate specified (if any),

as applicable;

4.2.3.4.2 Observation Shift

4.2.3.4.2.1 If "Compounding with Observation Shift" is specified in the applicable Final Terms as the applicable RFR Compounding Method, the Reference Rate is equal to:

[Product (i from 1 to d0)(1+(Underlying Benchmark Level i × ni) / Day Count Basis) - 1] × Day Count Basis / d

4.2.3.4.2.2. If "Averaging with Observation Shift" is specified in the applicable Final Terms as the applicable RFR Averaging Method, the Reference Rate is equal to:

[Sum(for i from 1 to d0) (Underlying Benchmark Level i)]

4.2.3.4.2.3 Definitions for Observation Shift

For the purposes of Conditions 4.2.3.4.2.1 and 4.2.3.4.2.2

"Applicable Business Day":
- In respect of any Underlying Benchmark other than the SOFR rate: Applicable Business Day means, any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial center of the relevant currency of the relevant Underlying Benchmark of the Reference Rate;
- In respect of the SOFR rate: an Applicable Business Day means an U.S. Government Securities Business Day.

"**d**" is the number of calendar days in the relevant Observation Period;

"d0" is:

- if "Compounding with Observation Shift" applies, the number of Applicable Business Days in the Observation Period; or

- if "Averaging with Observation Shift" applies, the number of calendar days in the Observation Period.

"**Day Count Basis**" means, if "Compounding with Observation Shift" applies, the denominator of the Day Count Fraction that customarily applies for the Underlying Benchmark of the relevant Reference Rate and which is either 365 or 360;

"i" is:
- if "Compounding with Observation Shift" applies:
a. a series of whole numbers from one to d0, each representing the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Observation Period; or

- if "Averaging with Observation Shift" applies:
b. a series of whole numbers from one to d0, each representing the relevant calendar day in the Observation Period in chronological order from, and including, the first calendar day in the Observation Period.

"**ni**" is, if "Compounding with Observation Shift" applies, the number of calendar days from, and including, the day *i* to, but excluding, the earlier of (a) the next Applicable Business Day, and (b) the Observation Period End Date for the relevant Observation Period or the Observation Period End Date of the Set in Advance Observation Period as the case may be;

"Observation Period Shift Additional Business Day" means a Business Day in the financial centers specified, as the case may be, for such purpose in the applicable Final Terms otherwise if none is specified in the Final Terms, there shall be no Observation Period Shift Additional Business Day;

"Observation Period" means, for any Interest Period, (A) the period from, and including, the date "*s*" Observation Period Shift Business Days preceding the first calendar day of the relevant Interest Period (and the first Observation Period shall begin on and include the date falling "*s*" Observation Period Shift Business Days prior to the Interest Commencement Date) to, but excluding, the date "s" Observation Period Shift Business Days preceding the last day of the relevant Interest Period (the "**Observation Period End Date**") unless (B) Set-In-Advance Observation is specified as being Applicable in the applicable Final Terms, in which case the Observation Period shall be the Set-In-Advance Observation Period;

"Observation Period Shift Business Day" means a day which is both an Applicable Business Day and, as the case may be, an Observation Period Shift Additional Business Day;

"Set-In-Advance Observation Period" means in respect of an Interest Period, the period that would have been the Observation Period of the immediately preceding Interest Period, if it had been determined on the basis of the definition of Observation Period above provided that in respect of the first Interest Period, the Set-In Advance Observation Period shall be as specified in the Final Terms (the **First Set-In-Advance Observation Period**);

"Underlying Benchmark Level i" means:

(a) if "Compounding with Observation Shift" applies, and subject to paragraph (c) below, for any Applicable Business Day "i, the level of the Underlying Benchmark specified in the Final Terms in respect of such Applicable Business Day "i", provided by its administrator to authorised distributors and published on Relevant Screen Page on the Specified Time; or

(b) if "Averaging with Observation Shift" applies, and subject to paragraph (c) below:

(I) for any Applicable Business Day "i, the level of the Underlying Benchmark in respect of such Applicable Business Day "i", provided by its administrator to authorised distributors and published on Relevant Screen Pages;

(II) for any day that is not an Applicable Business Day, the level of the Underlying Benchmark in respect of the preceding Applicable Business Day in each case as provided by its administrator to authorised distributors and published on Relevant Screen Pages;

(c) if a "Daily Capped Rate and/or Daily Floored Rate" is specified in the Final Terms, the Underlying Benchmark Level "i" shall be either:

(i) the greater of the rate determined in accordance with paragraph a. and the Daily Floored Rate specified (if any); and

(ii) the lower of the rate determined in accordance with paragraph a. and the Daily Capped Rate specified (if any), as applicable;

For the avoidance of doubt, pursuant to the rules of an Underlying Benchmark, the level of an Underlying Benchmark in respect of an Applicable Business Day "i" (the **Reset Date**) may be provided by its Administrator to authorised distributors and published on Relevant Screen Pages, on a day (the **Fixing Day**) which is either the same day as the Reset Date or one or more (the actual number being "p") Applicable Business Days before (**" - p"**) or following (**" + p"**) the Reset Date (e.g.SONIA and SOFR) (with **"p"** = 0 if the Fixing Day is on the Reset Date); in that case, the Underlying Benchmark Level i in respect of an Applicable Business Day "i" shall be the Underlying Benchmark Level published on "+ p" or " - p" Applicable Business Day(s) before or following such Applicable Business Day "i";

"**s**" is the number specified as the "Observation Period Shift" in the applicable Final Terms; if none is specified "s" shall be deemed to be equal to 5;

4.2.3.4.3 Lockout

4.2.3.4.3.1 If "Compounding with Lockout" is specified in the applicable Final Terms as the applicable RFR Compounding Method, the Reference Rate is equal to:

[Product (i from 1 to d0)(1+(Underlying Benchmark Level i × ni) / Day Count Basis) - 1] × Day Count Basis / d

4.2.3.4.3.2 If "Averaging with Lockout" is specified in the applicable Final Terms as the applicable RFR Averaging Method, the Reference Rate is equal to:

[Sum(for i from 1 to d0) (Underlying Benchmark Level i x ni)] x 1/d

4.2.3.4.3.3 Definitions

For the purposes of Conditions 4.2.3.4.3.1 and 4.2.3.4.3.2

"Applicable Business Day":
- In respect of any Underlying Benchmark other than the SOFR rate: Applicable Business Day means, any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial center of the relevant currency of the relevant Underlying Benchmark of the Reference Rate;
- In respect of the SOFR rate: an Applicable Business Day means an U.S. Government Securities Business Day.

d is the number of calendar days in the relevant Interest Period;

"**d0**" is, for any Interest Period:

- if "Compounding with Lockout" applies: the number of Applicable Business Days in the relevant Interest Period except if the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is the number of Applicable Business Days in the relevant Interest Period plus one; or

- if "Averaging with Lockout" applies: the number of calendar days in that Interest Period

Day Count Basis means, if "Compounding with Lockout" applies, the denominator of the Day Count Fraction that customarily applies for the Underlying Benchmark of the relevant Reference Rate and which is either 365 or 360;

"**i**" is:

- if "Compounding with Lockout" applies:

(a) if the first calendar day in the relevant Interest Period is an Applicable Business Day, a series of whole numbers from one to d0, each representing the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; or

(b) if the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is a series of whole numbers from 1 to d0, where i = 1 represents the first calendar day of the relevant Interest Period, and each of i = 2 to do represents the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; or

- if "Averaging with Lockout" applies,
a series of whole numbers from 1 to d0, each representing the relevant calendar day in the Calculation Period in chronological order from, and including, the first calendar day in the Calculation Period.

"Lockout Date" is the date "t" Lockout Period Business Days preceding the last day of the relevant Interest Period or, in respect of the last Interest Period, the Maturity Date (or the date falling "t" Lockout Period Business Days prior to such earlier date, if any, on which the Notes become due and payable;

"Lockout Period" is the period from, and including, the Lockout Date to, but excluding, the last day of the Interest Period or, in respect of the last Interest Period, the Maturity Date (excluded);

"Lockout Period Business Day" means:

a. a Business Day in the financial centers specified for such purpose in the Final Terms; or

b. if no financial centers are specified for such purpose in the Final Terms, an Applicable Business Day;

"**ni**" is, if "Compounding with Lockout" applies, the number of calendar days from, and including, the day *i* to, but excluding, the earlier of (and excluding) (a) the next Applicable Business Day, and (b) the last day of the relevant Interest Period

"**t**" means:

(i) the number specified as such in the applicable Final Terms; or

(ii) if a number is not specified in the applicable Final Terms, "t" shall be deemed to be equal to 5;

Underlying Benchmark Level i means:

(a) subject to paragraph (c), in respect of any day "i" other than a day "i" in the Lockout Period:

(i) if such day "i" is an Applicable Business Day, the level of the Underlying Benchmark in respect of such Applicable Business Day "i" provided by its administrator to authorised distributors and published on Relevant Screen Page on the Specified Time; or

(ii) if such day "i" is not an Applicable Business Day, the level of the Underlying Benchmark in respect of the immediately preceding Applicable Business Day provided by its administrator to authorised distributors and published on Relevant Screen Page on the Specified Time, or

(b) subject to paragraph (c), in respect of an Applicable Business Day "i" in the Lockout Period, the level of the Underlying Benchmark determined in respect of the Lockout Date as if the Lockout Date were an Interest Determination Date; or

(c) if a "Daily Capped Rate and/or Daily Floored Rate" is specified in the Final Terms, the Underlying Benchmark Level "i" for any Applicable Business Day "i" shall be either:

(i) the greater of the rate determined in accordance with paragraph a. or paragraph b., as applicable, and the Daily Floored Rate so specified; and

(ii) the lower of the rate determined in accordance with paragraph a. or paragraph b., as applicable, and the Daily Capped Rate so specified,

as applicable.

For the avoidance of doubt, pursuant to the rules of an Underlying Benchmark, the level of an Underlying Benchmark in respect of an Applicable Business Day "i" (the **Reset Date**) may be provided by its Administrator to authorised distributors and published on Relevant Screen Pages, on a day (the **Fixing Day**) which is either the same day as the Reset Date or one or more (the actual number

being "p") Applicable Business Days before (**" - p"**) or following (**" + p"**) the Reset Date (e.g.SONIA and SOFR) (with **"p"** = 0 if the Fixing Day is on the Reset Date); in that case, the Underlying Benchmark Level i in respect of an Applicable Business Day "i" shall be the Underlying Benchmark Level published on "+ p" or " - p" Applicable Business Day(s) before or following such Applicable Business Day "i".

4.2.3.4.4 OIS Compounding or Overnight Averaging

4.2.3.4.4.1 if OIS Compounding is specified in the applicable Final Terms as the applicable RFR Compounding Method, then the Reference Rate is equal to:

[Product (i from 1 to d0)(1+(Underlying Benchmark Level i × ni) / Day Count Basis) - 1] × Day Count Basis / d

4.2.3.4.4.2 If "Overnight Averaging" is specified in the applicable Final Terms as the applicable RFR Averaging Method, then the Reference Rate is equal to:

[Sum(for i from 1 to d0) (Underlying Benchmark Level i)]

4.2.3.4.4.3 Definitions

For the purposes of Conditions 4.2.3.4.4.1 and 4.2.3.4.4.2:

"**Applicable Business Day**" :
- In respect of any Underlying Benchmark other than the SOFR rate: Applicable Business Day means, any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial center of the relevant currency of the relevant Underlying Benchmark of the Reference Rate;
- In respect of the SOFR rate: an Applicable Business Day means an U.S. Government Securities Business Day.

"**d**" is the number of calendar days in the relevant Interest Period.

"**d0**" is, for any Interest Period:

(a) if "OIS Compounding" applies: the number of Applicable Business Days in the relevant Interest Period except if the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is the number of Applicable Business Days in the relevant Interest Period plus one; or

(b) if "Overnight Averaging" applies: the number of calendar days in that Interest Period;

Day Count Basis means, if "OIS Compounding" applies, in respect of a Reference Rate, the denominator of the Day Count Fraction that customarily applies for the Underlying Benchmark of the Reference Rate and which is either 365 or 360.

"**i**" is:

- if « OIS Compounding » applies:

(i) if the first calendar day in the relevant Interest Period is an Applicable Business Day, a series of whole numbers from 1 to d0, each representing the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; and

(ii) if the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is a series of whole numbers from 1 to d0, where *i* = 1 represents the first calendar day of the relevant Interest Period, and each of *i* = 2 to d0 represents the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; or

- if "Overnight Averaging" applies: a series of whole numbers from 1 to **d0**, each representing the relevant calendar day in the Interest Period in chronological order from, and including, the first calendar day in the Interest Period;

"**ni**" is, if "OIS Compounding" applies, the number of calendar days from, and including, the day **i** to, but excluding, the earlier of (and excluding) (a) the next Applicable Business Day, and (b) the last day of the Interest Period or, in respect of the last Interest Period, the Maturity Date.

"Underlying Benchmark Level i " means:

for any day "i",

(I) if such day "i" is an Applicable Business Day, the level of the Underlying Benchmark in respect of such Applicable Business Day "i" provided by its administrator to authorised distributors and published on Relevant Screen Page on the Specified Time; or

(II) if such day "i" is not an Applicable Business Day, the level of the Underlying Benchmark in respect of the immediately preceding Applicable Business Day, provided by its administrator to authorised distributors and published on Relevant Screen Page on the Specified Time.

For the avoidance of doubt, pursuant to the rules of an Underlying Benchmark, the level of an Underlying Benchmark in respect of an Applicable Business Day "i" (the **Reset Date**) may be provided by its Administrator to authorised distributors and published on Relevant Screen Pages, on a day (the **Fixing Day**) which is either the same day as the Reset Date or one or more (the actual number being "p") Applicable Business Days before (**" - p"**) or following (**" + p"**) the Reset Date (e.g.SONIA and SOFR) (with **"p"** = 0 if the Fixing Day is on the Reset Date); in that case, the Underlying Benchmark Level i in respect of an Applicable Business Day "i" shall be the Underlying Benchmark Level published on "+ p" or " - p" Applicable Business Day(s) before or following such Applicable Business Day "i".

4.2.3.5 Events affecting Underlying Benchmarks and Reference Rates

4.2.3.5.1 No Index Event has occurred

(i) If ISDA Determination applies pursuant to Condition 4.2.3.1, and the Floating Rate Option for the ISDA Rate in respect of the day for which it is required is not published by the Administrator or an authorised distributor and is not otherwise provided by the Administrator by either (a) the later of (I) the Reset Date (including any day that is deemed to be a Reset Date) and (II) the Fixing Day (both as defined in the 2021 ISDA Definitions) or (b) such other date on which the Reference Rate is required under the Hypothetical Swap Transaction, then the Calculation Agent will determine the ISDA Rate used to calculate the Rate of Interest by applying the fallback provisions of the 2021 ISDA Definitions and the ISDA Interest Rate Derivatives Definitions Floating Rate Matrix (the **ISDA Matrix)** for a Temporary Non-Publication (as defined in the 2021 ISDA Definitions).

(ii) If Standard Screen Rate Determination applies pursuant to Condition 4.2.3.2 above, for the purpose of determining the Rate of Interest, and if, on the relevant Interest Determination Date, (x) the Reference Rate cannot be determined in accordance with the provisions of Condition 4.2.3.2, and (y) an Index Event has not occurred, then the Rate of Interest shall be determined by the Calculation Agent on the basis of the latest (1) offered quotation; or (2) arithmetic mean (rounded, if necessary, to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations, (expressed as a percentage rate *per annum*), for the Reference Rate(s) which appears or appear, as the case may be, on the Relevant Screen Page as at the Specified Time indicated in the Final Terms or the Specified Time in the principal financial centre of the jurisdiction of the relevant Reference Rate, available immediately before the Interest Determination Date, as determined by the Calculation Agent plus or minus (as appropriate) the Margin (if any) and multiplied by any Leverage Factor.

(iii) If Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination applies pursuant to Condition 4.2.3.3. above, for the purpose of determining the Rate of Interest and:

(aa) if the Underlying Benchmark is any of €STR, SARON, SOFR, SONIA and TONA (each as defined below, the **"Major Underlying Benchmarks"** and each a **"Major Underlying Benchmark),** and such Major Underlying Benchmark, in respect of the day for which it is required to be determined is not published on the Relevant Screen Page by its Administrator or an authorised distributor and is not otherwise provided by the Administrator by either (a) the later of (i) the Reset Date and (ii) the Fixing Day or (b) such other date on which the Major Underlying Benchmark is required, the level of Underlying Benchmark Level in respect of a day "i" used to determine the Reference Rate shall be determined by the Calculation Agent as the last provided or published level of that Major Underlying Benchmark as at the Fixing Day or, if no Fixing Day applies to the Major Underlying Benchmark, as at the day on which that Major Underlying Benchmark was originally required; or

(bb) if the Underlying Benchmark is other than a Major Underlying Benchmark and is not published on the Relevant Screen Page by its Administrator or an authorised distributor and is not otherwise provided by the Administrator by either (a) the later of (i) the Reset Date and (ii) the Fixing Day or (b) such other date on which the Underlying Benchmark is required, then the Underlying Benchmark Level i in respect of a day "i" used to determine the Reference Rate shall be determined by the Calculation Agent (i) pursuant to the Temporary Non Publication Fallback of the 2021 ISDA Definitions and the ISDA Matrix as updated and amended as of the Issue Date of the first Tranche of the Notes when the Underlying Benchmark specified in the applicable Final Terms is also an Underlying Benchmark under the 2021 ISDA Definitions and the ISDA Matrix as if it were the Calculation Agent under an interest rate swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions and using the Underlying Benchmark to determine the amounts due under such interest rate swap transaction or (ii) otherwise, as the latest available Underlying Benchmark Level provided by its Administrator and published on the Relevant Screen Pages.

4.2.3.5.2 If an Index Event has occurred

If an event affecting a Reference Rate or an Underlying Benchmark occurs preventing the determination of the Rate of Interest of an Interest Period (the **Affected Interest Period**), the following provisions shall apply.

4.2.3.5.2.1 f ISDA Determination applies pursuant to Condition 4.2.3.1, then (i) if the Floating Rate Option specified in the Final Terms is a Floating Rate Option in the ISDA Matrix, the Calculation Agent of the Notes will determine the ISDA Rate used to determine the Rate of Interest as if it were the Calculation Agent of the Hypothetical Swap Transaction by applying the fallback provisions of the 2021 ISDA Definitions and the ISDA Matrix as updated and amended as of the Issue Date of the first Tranche of the Notes, for an Index Cessation or an Administrator/Benchmark Event as appropriate (as defined in the 2021 ISDA Definitions), or (ii) if the Floating Rate Option specified in the Final Terms is not a Floating Rate Option in the ISDA Matrix, the provisions of Condition 4.2.3.5.2.3 below shall apply.

4.2.3.5.2.2 If Standard Screen Rate Determination applies pursuant to Condition 4.2.3.2 above or if Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination applies pursuant to paragraph 4.2.3.3. above, and the Underlying Benchmark is a Major Underlying Benchmark and:

4.2.3.5.2.2.1 The Major Underlying Benchmark is €STR

(i) If an Index Event with respect to €STR occurs, the rate for a Fixing Day (in all this Condition 4.2.3.5.2.2.1 as defined in 4.2.3.4 above) occurring on or after the Applicable Fallback Effective Date with respect to €STR, will be the EUR Recommended Rate.

(ii) Temporary Non-Publication with respect to EUR Recommended Rate. If there is a EUR Recommended Rate before the end of the first T2 Settlement Day following the Applicable Fallback Effective Date with respect to €STR but neither the Administrator nor authorised distributors provide or publish the EUR Recommended Rate, then, subject to paragraph (iii) below, in respect of any day for which the EUR Recommended Rate is required, references to the EUR Recommended Rate will be deemed to be references to the last provided or published EUR Recommended Rate. However, if there is no last provided or published EUR Recommended Rate, then in respect of any day for which the EUR Recommended Rate is required, references to the EUR Recommended Rate will be deemed to be references to the last provided or published €STR.

(iii) No EUR Recommended Rate or Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to EUR Recommended Rate.

If:

(a) there is no EUR Recommended Rate before the end of the first T2 Settlement Day following the Applicable Fallback Effective Date with respect to €STR; or

(b) there is a EUR Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it,

then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to €STR or the Applicable Fallback Effective Date with respect to the EUR Recommended Rate (as applicable) will be Modified EDFR.

(iv) References to EDFR. In respect of any day for which EDFR is required, references to EDFR will be deemed to be references to the last provided or published EDFR as at close of business in Frankfurt on that day.

Where:

"€STR" means the euro short-term rate (€STR) administered by the European Central Bank (or any successor administrator).

"EDFR" means, in respect of any relevant day (including any day "i"), the rate on the deposit facility, which banks may use to make overnight deposits with the Eurosystem, in respect of that day.

"EDFR Spread" means

(i) if no EUR Recommended Rate is recommended before the end of the first T2 Business Day following the Applicable Fallback Effective Date with respect to €STR, the arithmetic mean of the daily difference between the €STR and the EDFR for each of the 30 T2 Business Days immediately preceding the date on which the €STR Index Cessation Event or the Administrator/Benchmark Event occurred; or

(ii) if a EUR Recommended Rate Index Event occurs, the arithmetic mean of the daily difference between the EUR Recommended Rate and the EDFR for each of the 30 T2 Business Days immediately preceding the date on which the EUR Recommended Rate Index Event occurred.

"EUR Recommended Rate" means, in respect of any relevant day (including any day "i"), the rate (inclusive of any spreads or adjustments) recommended as the replacement for €STR by: (i) the European Central Bank (or any successor administrator of €STR); or (ii) a committee officially endorsed or convened by (a) the European Central Bank (or any successor administrator of €STR) and/or (b) the European Securities and Markets Authority, in each case for the purpose of recommending a replacement for €STR (which rate may be produced by the European Central Bank or another administrator) and as provided by the Administrator of that rate or, if that rate is not provided by the Administrator thereof published by an authorised distributor, in respect of that day.

"Modified EDFR" means, in respect of any relevant day (including any day "i"), a rate equal to EDFR in respect of that day, plus the EDFR Spread.

"T2 Settlement Day" means any day on which the T2 is open for the settlement of payments in Euro.

4.2.3.5.2.2.2 The Major Underlying Benchmark is SARON

(i) If an Index Event with respect to SARON occurs, the rate for a Fixing Day (in all this Condition 4.2.3.5.2.2. as defined in 4.2.3.4 above) occurring on or after the Applicable Fallback Effective Date with respect to SARON will be the NWG Recommended Rate.

(ii) Temporary Non-Publication with respect to NWG Recommended Rate. If there is an NWG Recommended Rate before the end of the first Zurich Business Day following the Applicable Fallback Effective Date with respect to SARON but neither the Administrator nor authorised distributors provide or publish the NWG Recommended Rate, then, subject to paragraph (iii) below, in respect of any day for which the NWG Recommended Rate is required, references to the NWG Recommended Rate will be deemed to be references to the last provided or published NWG Recommended Rate. However, if there is no last provided or published NWG Recommended

Rate, then in respect of any day for which the NWG Recommended Rate is required, references to the NWG Recommended Rate will be deemed to be references to the last provided or published SARON.

(iii) No NWG Recommended Rate or Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to NWG Recommended Rate.

If:

(a) there is no NWG Recommended Rate before the end of the first Zurich Business Day following the Applicable Fallback Effective Date with respect to SARON; or

(b) there is an NWG Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it,

then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to SARON or the Applicable Fallback Effective Date with respect to the NWG Recommended Rate (as applicable) will be the Modified SNB Policy Rate.

References to the SNB Policy Rate. In respect of any day for which the SNB Policy Rate is required, references to the SNB Policy Rate will be deemed to be references to the last provided or published SNB Policy Rate as at close of business in Zurich on that day.

Where:

"Modified SNB Policy Rate" means, in respect of any relevant day (including any day "i"), a rate equal to the SNB Policy Rate in respect of that day, plus the SNB Spread.

"NWG Recommended Rate" means, in respect of any relevant day (including any day "i"), the rate (inclusive of any spreads or adjustments) recommended as the replacement for SARON by any working group or committee in Switzerland organized in the same or a similar manner as the National Working Group on Swiss Franc Reference Rates that was founded in 2013 for the purpose of, among other things, considering proposals to reform reference interest rates in Switzerland, and as provided by the Administrator of that rate or, if that rate is not provided by the Administrator thereof, published by an authorised distributor, in respect of that day.

"SARON" means the Swiss Average Rate Overnight administered by SIX Swiss Exchange AG (or any successor administrator).

"SNB Policy Rate" means, in respect of any relevant day (including any day "i"), the policy rate of the Swiss National Bank, in respect of that day.

"SNB Spread" means:

(i) if no NWG Recommended Rate is recommended before the end of the first Zurich Business Day following the CHF Fallback Effective Date, the historical median between SARON and the SNB Policy Rate over an observation period of two years starting two years prior to the day on which the CHF Fallback Trigger Date occurs and ending on the Zurich Business Day immediately preceding the day on which the CHF Fallback Trigger Date occurs; or

(ii) if an Index Cessation Event or Administrator/Benchmark Event with respect to the NWG Recommended Rate occurs, the historical median between the NWG Recommended Rate (or, in the absence of the NWG Recommended Rate, SARON) and the SNB Policy Rate over an observation period of two years starting two years prior to the day on which the Index Cessation Event or Administrator/Benchmark Event with respect to the NWG Recommended Rate occurs and ending on the Zurich Business Day immediately preceding the day on which the Index Cessation Event or Administrator/Benchmark Event with respect to the NWG Recommended Rate occurs, in each case, as determined by the Calculation Agent,

where:

"CHF Fallback Effective Date" means the Applicable Fallback Effective Date with respect to SARON; and

"CHF Fallback Trigger Date" means the day on which the Index Cessation Event or Administrator/Benchmark Event with respect to SARON occurs

"Zürich Business Day" means a day on which commercial banks and foreign exchange markets are open for general business (including settling payments and dealings in foreign exchange and foreign currency deposits) in Zürich.

4.2.3.5.2.2.3 The Major Underlying Benchmark is SOFR

(i) If an Index Event with respect to SOFR occurs, the rate for a Fixing Day (in all this Condition 4.2.3.5.2.2.3 as defined in 4.2.3.4 above) occurring on or after the Applicable Fallback Effective Date with respect to SOFR will be the Fed Recommended Rate.

(ii) Temporary Non-Publication with respect to Fed Recommended Rate. If there is a Fed Recommended Rate before the end of the first U.S. Government Securities Business Day following the Applicable Fallback Effective Date with respect to SOFR but neither the Administrator nor authorised distributors provide or publish the Fed Recommended Rate, then, subject to paragraph (iii) below, in respect of any day for which the Fed Recommended Rate is required, references to the Fed Recommended Rate will be deemed to be references to the last provided or published Fed Recommended Rate. However, if there is no last provided or published Fed

Recommended Rate, then in respect of any day for which the Fed Recommended Rate is required, references to the Fed Recommended Rate will be deemed to be references to the last provided or published SOFR.

(iii) No Fed Recommended Rate or Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to Fed Recommended Rate.

If:

(a) there is no Fed Recommended Rate before the end of the first U.S. Government Securities Business Day following the Applicable Fallback Effective Date with respect to SOFR; or

(b) there is a Fed Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it,

then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to SOFR or the Applicable Fallback Effective Date with respect to the Fed Recommended Rate (as applicable) will be OBFR and references to a U.S. Government Securities Business Day for the purposes of any Fixing Day and any Applicable Business Day shall be read as references to a New York Fed Business Day.

(iv) Temporary Non-Publication with respect to OBFR. If neither the Administrator nor authorised distributors provide or publish OBFR, then, subject to paragraph (v) below, in respect of any day for which OBFR is required, references to OBFR will be deemed to be references to the last provided or published OBFR.

(v) Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to OBFR.

If:
(a) there is no Fed Recommended Rate before the end of the first U.S. Government Securities Business Day following the Applicable Fallback Effective Date with respect to SOFR, or there is a Fed Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it; and

(b) an Applicable Fallback Effective Date with respect to OBFR also occurs, then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to OBFR (or, if the Applicable Fallback Effective Date with respect to SOFR or the Applicable Fallback Effective Date with respect to the Fed Recommended Rate (as applicable) is later, a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to SOFR or the Fed Recommended Rate, as applicable) will be the FOMC Target Rate and references to a U.S. Government Securities Business Day for the purposes of any Fixing Day and any Applicable Business Day shall be read as references to a New York City Business Day.

(vi) References to the FOMC Target Rate. In respect of any day for which the FOMC Target Rate is required, references to the FOMC Target Rate will be deemed to be references to the last provided or published FOMC Target Rate as at close of business in New York City on that day.

Where:

"Fed Recommended Rate" means, in respect of any relevant day (including any day "i"), the rate (inclusive of any spreads or adjustments) recommended as the replacement for SOFR by the Federal Reserve Board or the Federal Reserve Bank of New York, or by a committee officially endorsed or convened by the Federal Reserve Board or the Federal Reserve Bank of New York for the purpose of recommending a replacement for SOFR (which rate may be produced by the Federal Reserve Bank of New York or another administrator) and as provided by the Administrator of that rate or, if that rate is not provided by the Administrator thereof, published by an authorised distributor, in respect of that day.

"FOMC Target Rate" means, in respect of any relevant day (including any day "i"), the short term interest rate target set by the Federal Open Market Committee or, if the Federal Open Market Committee does not target a single rate, the mid-point of the short-term interest rate target range set by the Federal Open Market Committee (calculated as the arithmetic average of the upper bound of the target range and the lower bound of the target range, rounded, if necessary, in accordance with the method set forth in Section 4.8.2 (Rounding of Amounts)), in respect of that day.

"New York City Business Day" means a day on which commercial banks and foreign exchange markets are open for general business (including settling payments and dealings in foreign exchange and foreign currency deposits) in New York.

"New York Fed Business Day" means any day except for a Saturday, Sunday or a day on which the Fedwire Securities Service or the Fedwire Funds Service of the Federal Reserve Bank of New York is closed. References in the Confirmation to "New York Fed" in respect of any day shall be construed as a reference to a New York Fed Business Day.

"OBFR" means, in respect of any relevant day (including any day "i"), the Overnight Bank Funding Rate administered by the Federal Reserve Bank of New York (or a successor administrator), in respect of that day.

"SOFR" means the Secured Overnight Financing Rate administered by the Federal Reserve Bank of New York (or any successor administrator).

"U.S. Government Securities Business Day" means any day except for a Saturday, Sunday or a day on which The Securities Industry and Financial Markets Association (or a successor) recommends that the fixed income departments of its members be closed for the entire day for the purpose of trading in U.S. government securities.

4.2.3.5.2.2.4 The Major Underlying Benchmark is SONIA

(i) If an Index Event with respect to SONIA occurs, the rate for a Fixing Day (in all this Condition 4.2.3.5.2.2.4 as defined in 4.2.3.4 above) occurring on or after the Applicable Fallback Effective Date with respect to SONIA will be the GBP Recommended Rate.

(ii) Temporary Non-Publication with respect to GBP Recommended Rate. If there is a GBP Recommended Rate before the end of the first London Business Day following the Applicable Fallback Effective Date with respect to SONIA but neither the Administrator nor authorised distributors provide or publish the GBP Recommended Rate, then, subject to paragraph (iii) below, in respect of any day for which the GBP Recommended Rate is required, references to the GBP Recommended Rate will be deemed to be references to the last provided or published GBP Recommended Rate. However, if there is no last provided or published GBP Recommended Rate, then in respect of any day for which the GBP Recommended Rate is required, references to the GBP Recommended Rate will be deemed to be references to the last provided or published SONIA.

(iii) No GBP Recommended Rate or Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to GBP Recommended Rate.

If:

(a) there is no GBP Recommended Rate before the end of the first London Business Day following the Applicable Fallback Effective Date with respect to SONIA; or

(b) there is a GBP Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it,

then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to SONIA or the Applicable Fallback Effective Date with respect to the GBP Recommended Rate (as applicable) will be the UK Bank Rate.

4. References to the UK Bank Rate. In respect of any day for which the UK Bank Rate is required, references to the UK Bank Rate will be deemed to be references to the last provided or published UK Bank Rate as at close of business in London on that day.

Where:

"GBP Recommended Rate" means, in respect of any relevant day (including any day "i"), the rate (inclusive of any spreads or adjustments) recommended as the replacement for SONIA by (i) the administrator of SONIA if the administrator of SONIA is a national central bank, or (ii) if the national central bank administrator of SONIA does not make a recommendation or the administrator of SONIA is not a national central bank, a committee designated for this purpose by one or both of the Financial Conduct Authority (or any successor thereto) and the Bank of England and as provided by the then Administrator of that rate or, if that rate is not provided by the Administrator thereof, published by an authorised distributor, in respect of that day.

"London Business Day" means a day on which commercial banks and foreign exchange markets are open for general business (including settling payments and dealings in foreign exchange and foreign currency deposits) in London.

"SONIA" means the Sterling Overnight Index Average rate administered by the Bank of England (or any successor administrator).

"UK Bank Rate" means, in respect of any relevant day (including any day "i"), the official bank rate as determined by the Monetary Policy Committee of the Bank of England and published by the Bank of England from time to time, in effect on that day.

4.2.3.5.2.2.5 The Major Underlying Benchmark is TONA

(i) If an Index Cessation Event or Administrator/Benchmark Event with respect to TONA occurs, the rate for a Fixing Day (in all this Condition 4.2.3.5.2.2.5 as defined in 4.2.3.4 above) occurring on or after the Applicable Fallback Effective Date with respect to TONA will be the JPY Recommended Rate.

(ii) Temporary Non-Publication with respect to JPY Recommended Rate. If there is a JPY Recommended Rate before the end of the first Tokyo Business Day following the Applicable Fallback Effective Date with respect to TONA but neither the Administrator nor authorised distributors provide or publish the JPY Recommended Rate, then, subject to paragraph (iii) below, in respect of any day for which the JPY Recommended Rate is required, references to the JPY Recommended Rate will be deemed to be references to the last provided or published JPY Recommended Rate. However, if there is no last provided or published JPY Recommended Rate, then in respect of any day for which the JPY Recommended Rate is required, references to the JPY Recommended Rate will be deemed to be references to the last provided or published TONA.

(iii) No JPY Recommended Rate or Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to JPY Recommended Rate.

If:

(a) there is no JPY Recommended Rate before the end of the first Tokyo Business Day following the Applicable Fallback Effective Date with respect to TONA; or

(b) there is a JPY Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it,

then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to TONA or the JPY Recommended Rate (as applicable) will be determined in accordance with the provisions of Condition 4.2.3.5.2.3 below.

"JPY Recommended Rate" means, in respect of any relevant day (including any day "i"), the rate (inclusive of any spreads or adjustments) recommended as the replacement for TONA by a committee officially endorsed or convened by the Bank of Japan for the purpose of recommending a replacement for TONA (which rate may be produced by the Bank of Japan or another administrator) and as provided by the Administrator of that rate or, if that rate is not provided by the Administrator thereof, published by an authorised distributor, in respect of that day.

"Tokyo Business Day" means a day on which commercial banks and foreign exchange markets are open for general business (including settling payments and dealings in foreign exchange and foreign currency deposits) in Tokyo.

Any rate determined pursuant to the provisions of Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5 shall be determined by the Calculation Agent.

4.2.3.5.2.3

(A) This provision applies if an Index Event occurs in respect of a Reference Rate or Underlying Benchmark and:

- ISDA Determination applies pursuant to 4.2.3.1 but the Floating Rate Option specified in the Final Terms is not a Floating Rate Option of the ISDA Matrix; or
- Standard Screen Rate Determination applies pursuant to 4.2.3.2 above but the Underlying Benchmark is not a Major Underlying Benchmark; or
- Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination applies pursuant to paragraph 4.2.3.3. above but the Underlying Benchmark is not a Major Underlying Benchmark;
- this Condition 4.2.3.5.2.3 applies pursuant to Condition 4.2.3.5.2.2.5 above, or
- this Condition 4.2.3.5.2.3 applies pursuant to Condition 4.2.4,

then the Issuer shall use its reasonable endeavours to appoint a Rate Determination Agent, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with paragraph (B) below) and, in either case, an Adjustment Spread if any (in accordance with paragraph (C) below) and any Conforming Changes (in accordance with Condition 4.2.3.6 below).

A Rate Determination Agent appointed pursuant to this Condition shall act in good faith in a commercially reasonable manner as an expert and in consultation with the Issuer. In the absence of bad faith or fraud, the Rate Determination Agent shall have no liability whatsoever to the Issuer, the Paying Agents, the Noteholders or the Couponholders for any determination made by it, pursuant to this Condition.

(B) Successor Rate or Alternative Rate

If the Rate Determination Agent determines that:

(i) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in (C) below) subsequently be used in place of the Original Reference Rate or Original Underlying Benchmark (as the case may be) to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 4.2.3.5.2.3); or

(ii) there is no Successor Rate but there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in (C) below) subsequently be used in place of the Original Reference Rate or Original Underlying Benchmark (as the case may be) to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 4.2.3.5.2.3).

(C) Adjustment Spread

If an Index Cessation or an Administrator/Benchmark Event has occurred in respect of a Reference Rate or an Underlying Benchmark, and the Calculation Agent in respect of any rate determined pursuant to Condition 4.2.3.5.2.2.1. to Condition 4.2.3.5.2.2.5 or the Rate Determination Agent in respect of a Successor Rate or Alternative Rate determines (i) that an Adjustment Spread is required to be applied to any rate determined pursuant to the provisions of Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5, the Successor Rate or the Alternative Rate (as the case may be) and (ii) the quantum of, or a formula or methodology for determining such Adjustment Spread, then such Adjustment Spread shall be applied to any rate determined pursuant to the provisions of Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5, the Successor Rate or the Alternative Rate (as the case may be).

Provided however that:

(y) if an Index Event has occurred but the Applicable Fallback Effective Date has not occurred as determined by the Calculation Agent, then the Reference Rate or the Underlying Benchmark for the Affected Interest Period shall be determined pursuant to the provisions that would apply to the determination of the Reference Rate or Underlying Benchmark as if no Index Event had occurred;

and

(z) if the Index Event has occurred but the Applicable Fallback Effective Date has not occurred as determined by the Calculation Agent, and if the Reference Rate or the Underlying Benchmark specified in the applicable Final Terms affected by the Index Event and used to determine the Rate of Interest of an Interest Period is a Term Rate determined before or at the beginning of such Interest Period and pursuant to the application of the provisions above, it will be replaced by a Successor Rate or an Alternative Rate to be determined at the end or just after the end of an Interest Period as the result of the compounding or averaging of an overnight rate, as observed on dates during a period starting on or before the beginning of the Interest Period, as the case may be plus an Adjustment Spread, then the Successor Rate or Alternative Rate shall be used as from the Affected Interest Period and determined at the end or just after such Affected Interest Period.

"Term Rate" means a benchmark that reflects the rate of return in the relevant market for one or more specified periods of time, with the relevant period of time to be specified in the Final Terms as the Designated Maturity or as part of the Floating Rate Option.

If, in respect of Eligible Notes only, the Issuer determines that the replacement of the Reference Rate or Underlying Benchmark with the Replacement Rate and/or any Adjustment Spread and/or any Conforming Changes (as the case may be): (x) would result in the aggregate nominal amount of the Notes being fully or partially excluded from the eligible liabilities available to meet the MREL Requirements (as called or defined by the then applicable laws and regulations or MREL criteria applicable to the Issuer) and hence can trigger a MREL Disqualification Event or (y) could reasonably result in the Relevant Resolution Authority treating any future Interest Payment Date as the effective maturity of the Notes, rather than the relevant Maturity Date (for example if the switch to the Replacement Rate would create an incentive to redeem the Notes inconsistent to maintain the regulatory status of Eligible Notes),then the Issuer may decide that no Successor Rate or Alternative Rate, will be adopted and the Reference Rate applicable to the next succeeding Interest Period will be equal to the latest available Reference Rate (based on the sequence of levels of Underlying Benchmark available to determine such latest available Reference Rate, as the case may be).

If (i) the Issuer is unable to appoint a Rate Determination Agent or (ii) neither the Calculation Agent is able to determine a rate pursuant to Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5 nor the Rate Determination Agent appointed by it is able to determine a Successor Rate or an Alternative Rate prior to the relevant Interest Determination Date then the Issuer may decide either that (x) that no Replacement Rate will be adopted and the Reference Rate applicable to the next succeeding Interest Period will be equal to the latest available Reference Rate (based on the sequence of levels of Underlying Benchmark available to determine such latest available Reference Rate, as the case may be) or (y) to apply the provisions of Condition 6.2.2..

4.2.3.6 Conforming Changes

Following the occurrence of an Index Event, the Calculation Agent may make any technical, administrative or operational changes (including without limitation, changes to the determination dates, timing and frequency of determining rates and making payments, rounding of amounts or tenors, the introduction or modification of any time delay or lag between the calculation or observation period of a rate and the related payment dates, the application of a mathematical formula to the Reference Rate or Underlying Benchmark and other administrative matters) that the Calculation Agent decides may be appropriate to reflect the change of Reference Rate or Underlying Benchmark by the Replacement Rate in a manner substantially consistent with the prevailing market practice (or, if the Calculation Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Calculation Agent determines that no market practice for use of the Replacement Rate exists, in such other manner as the Calculation Agent determines is reasonably necessary) and/or in order to adapt solutions provided by the 2021 ISDA Definitions and the ISDA Matrix that are designed for the OTC transactions to the context of the Notes (the "**Conforming Changes**").

These conforming changes shall be binding upon the Noteholders.

(A) Notices

Any Replacement Rate, Adjustment Spread (if any) and Conforming Changes (if any) determined under this Condition 4.2.3. will be notified promptly by the Issuer, after receiving such information from the Rate Determination Agent or the Calculation Agent, to the Principal Paying Agent, the Calculation Agent, the Paying Agents and, in accordance with Condition 13, the Noteholders and the Couponholders.

Such notice shall be irrevocable and shall specify the effective date of the Conforming Changes, if any.

Any Replacement Rate, Adjustment Spread (if any) and the Conforming Changes (if any) specified in such notice, will (in the absence of manifest error or bad faith in the determination of the Replacement Rate, the Adjustment Spread (if any) and the Conforming Changes (if any) be final and binding on the Issuer, the Principal Paying Agent, the Calculation Agent, the Paying Agents, the Noteholders and the Couponholders.

(B) Survival of Original Reference Rate

Without prejudice to the obligations of the Issuer under Conditions 4.2.3.5.2.3 and 4.2.3.6, the Original Reference Rate with its Original Underlying Benchmark will continue to apply unless and until these priority fallback provisions fail to provide a means of determining the Rate of Interest.

4.2.3.7 Definitions:

"Adjustment Spread" means the adjustment, if any, to a Replacement Rate that the Calculation Agent determines is required in order to reduce or eliminate, to the extent reasonably practicable, any transfer of economic value from (a) the Issuer to the Noteholders or (b) the Noteholders to the Issuer, in each case that would otherwise arise as a result of the replacement of the Reference Rate or Underlying Benchmark with the Replacement Rate.
Any such adjustment may take account of, without limitation, any anticipated transfer of economic value as a result of any difference in the term structure or tenor of the Replacement Rate by comparison to the Original Reference Rate or Original Underlying Benchmark. The Adjustment Spread may be positive, negative or zero or determined pursuant to a formula or methodology.

"Administrator" means, in respect of a Reference Rate or an Underlying Benchmark, the administrator for that Reference Rate or Underlying Benchmark or, if there is no administrator, the provider of that Reference Rate or Underlying Benchmark; or in either case, any successor administrator or, as applicable, any successor administrator or provider.

"Administrator/Benchmark Event" means, for a Reference Rate or an Underlying Benchmark, any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the Reference Rate or an Underlying Benchmark or the administrator or sponsor of the Reference Rate or an Underlying Benchmark has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that either the Issuer, the Calculation Agent or any other entity is not, or will not be, permitted under any applicable law or regulation to use the Reference Rate or the Underlying Benchmark to perform its or their respective obligations under the Notes.

"Administrator/Benchmark Event Date" means, in respect of a Reference Rate or an Administrator/Benchmark Event, the date from which the Reference Rate or Underlying Benchmark may no longer be used under any applicable law or regulation by the Issuer, the Guarantor and/or the Calculation Agent.

"Alternative Rate" means an alternative screen reference rate or underlying benchmark which the Rate Determination Agent determines in accordance with this Condition in the same Specified Currency as the Notes to replace the Reference Rate or Underlying Benchmark) which is recognised or acknowledged as being the industry standard replacement for over-the-counter derivative transactions which reference such Reference Rate or Underlying Benchmark (which recognition or acknowledgment may be in the form of a press release, a member announcement, member advice, letter, protocol, publication of standard terms or otherwise by ISDA) or that the Calculation Agent determines to be a commercially reasonable alternative for such Reference Rate or Underlying Benchmark

"Applicable Fallback Effective Date" means the Index Cessation Effective Date or the Administrator/Benchmark Event Date.

"Independent Adviser" means an independent financial institution of recognised standing or an independent financial adviser with appropriate expertise appointed by the Issuer at its own expense.

"Index Cessation Effective Date" means:

1. the first date on which the Reference Rate or Underlying Benchmark, would ordinarily have been published or provided and is no longer published or provided; or
2. the first date on which the Applicable Benchmark would ordinarily have been published or provided and is either:

(a) non-representative by reference to the most recent statement or publication contemplated in paragraph (iii) of the definition of Index Cessation Event and even if such Underlying Benchmark continues to be published or provided on such date; or

(b) no longer published or provided.

"Index Cessation Event" means, for a Reference Rate or an Underlying Benchmark, the occurrence of one or more of the following events:

(i) a public statement or publication of information by or on behalf of the administrator of the Reference Rate or Underlying Benchmark announcing that it has ceased or will cease to provide the Reference Rate or the Underlying Benchmark permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator or provider, as applicable, that will continue to provide the Reference Rate or Underlying Benchmark;

(ii) a public statement or publication of information by the regulatory supervisor for the administrator of the Reference Rate or Underlying Benchmark, the central bank for the currency of the Reference Rate, an insolvency official with jurisdiction over the administrator for the Reference Rate or Underlying Benchmark, a resolution authority with jurisdiction over the administrator for the Reference Rate or Underlying Benchmark or a court or an entity with similar insolvency or resolution authority over the administrator for the Reference Rate or Underlying Benchmark, which states that the administrator of the Reference Rate or Underlying Benchmark has ceased or will cease to provide the Reference Rate or Underlying Benchmark permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator or provider, as applicable, that will continue to provide the Reference Rate or Underlying Benchmark; or

(iii) in respect of a Reference Rate or Underlying Benchmark, a public statement or publication of information by the regulatory supervisor for the administrator of such Reference Rate or Underlying Benchmark announcing that (a) the regulatory supervisor has

determined that such Reference Rate or Underlying Benchmark is no longer, or as of a specified future date will no longer be, representative of the underlying market and economic reality that such Reference Rate or Underlying Benchmark is intended to measure and that representativeness will not be restored and (b) it is being made in the awareness that the statement or publication will engage certain contractual triggers for fallbacks activated by pre-cessation announcements by such supervisor (howsoever described) in contracts.

If, for a Reference Rate or Underlying Benchmark, (i) an event or circumstance which would otherwise constitute or give rise to an Administrator/Benchmark Event also constitutes an Index Cessation Event or (ii) an Index Cessation Event and an Administrator/Benchmark Event would otherwise be continuing at the same time, it will in either case constitute an Index Cessation Event and will not constitute or give rise to an Administrator/Benchmark Event.

"Index Event" means:

(i) an Index Cessation Event;

(ii) an Administrator/Benchmark Event; or

(iii) a Reference Rate or an Underlying Benchmark is, with respect to over-the-counter derivatives transactions which reference such Underlying Benchmark or Reference Rate, the subject of any market-wide development (which may be in the form of a protocol by ISDA) pursuant to which such Reference Rate or Underlying Benchmark is, on a specified date (the **"Risk-Free Rate Event Date"**), replaced with a risk-free rate (or near risk-free rate) established in order to comply with the recommendations in the Financial Stability Board's paper titled "Reforming Major Interest Rate Benchmarks" dated 22 July 2014.

"Original Reference Rate" means the original Reference Rate or screen rate (as applicable) used to determine the Rate of Interest (or any component part thereof) on the Notes as specified in the Final Terms.

"Original Underlying Benchmark" means in respect of an Original Reference Rate the Underlying Benchmark of such Original Reference Rate.

"Rate Determination Agent" means an agent appointed by the Issuer which may be (i) an Independent Adviser, (ii) a leading bank or a broker-dealer in the principal financial centre of the Specified Currency (which may include one of the Dealers involved in the issue of the Notes) as appointed by the Issuer, (iii) the Issuer, (iv) an affiliate of the Issuer or (v) the Calculation Agent, accepting such role;

"Relevant Nominating Body" means, in respect of a Reference Rate or Underlying Benchmark:

(i) the central bank for the currency in which the Reference Rate or Underlying Benchmark is denominated or any central bank or other supervisor which is responsible for supervising either the Reference Rate or Underlying Benchmark or the administrator of the Reference Rate or Underlying Benchmark; or

(ii) any working group or committee officially endorsed or convened by (A) the central bank for the currency in which the Reference Rate or Underlying Benchmark is denominated, (B) any central bank or other supervisor which is responsible for supervising either the Reference Rate or Underlying Benchmark or the administrator of the Reference Rate or Underlying Benchmark, (C) a group of those central banks or other supervisors or (D) the Financial Stability Board or any part thereof.

"Relevant Screen Page" means such display page as may be specified in the applicable Final Terms for the purpose of providing a Reference Rate or Underlying Benchmark, or (i) any successor display page, other published source, information vendor or provider that has been officially designated by the sponsor of the original display page or (ii) if the sponsor has not officially designated a successor display page, other published source, information vendor or provider (as the case may be), the successor display page, other published source, information vendor or provider, if any, designated by the relevant information vendor or provider (if different from the sponsor).

"Replacement Rate" means any rate determined by the Calculation Agent pursuant to Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5 or Successor Rate or Alternative Rate determined by the Rate Determination Agent.

"Successor Rate" means an alternative screen rate or underlying benchmark which the Rate Determination Agent determines in accordance with this Condition as a successor to or replacement of the Original Reference Rate or Original Underlying Benchmark which is formally designated, nominated or recommended by any Relevant Nominating Body.

4.2.3.8 Reference Rate Disruption Event

In relation to a Reference Rate published by a Central Bank or governmental agency and deemed to replicate the yield of a theoretical government bond with a defined maturity (such as, but not limited to, the TEC10 rate for French Obligation assimilables du Trésor (OAT) and the Treasury Constant Maturity (TCM) for U.S. Treasuries, or any successor thereto), if the Calculation Agent determines that, on or prior to a Valuation Date or Averaging Date, such rate published by its administrator on the relevant source does no longer represent the actual yield of the underlying bond (a **Reference Rate Disruption Event**) (which may occur in connection with, but not limited to, or following any default or potential default of the government issuing such bond or unexpected volatility or illiquidity in markets in trading such bonds);

then the Calculation shall either:

(x) calculate the relevant formula used to determine an amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms using, *in lieu* of a published level for the Reference Rate, the level of such Reference Rate as at the Valuation Time on the relevant Valuation Date or Averaging Date, as determined by the Calculation Agent acting in good faith and a commercially reasonable manner by reference to market prices for the related government bonds with a maturity most closely matching the intended maturity and having regard to pricing sources, methods and models (which may include, without limitation, any available firm or indicative prices for such government bonds or internal valuation or recovery models) as the Calculation Agent considers appropriate;

or;

(y) if the Calculation Agent has not retained (x) above and such Reference Rate Disruption Event is likely to have a material impact on the hedge of Société Generale or one of its affiliates in connection with the Notes: consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and pay or deliver, as the case may be, as soon as possible after the occurrence of the Early Redemption Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions. If such event occurs in respect of a Series of Notes on or after the Issue Date of the first Tranche of the Series of Notes, the Issuer or the Guarantor (as applicable), may by notice to the Principal Paying Agent and to the Noteholders, elect that the Notes shall be redeemed early on the fourteenth (14th) calendar day after the delivery by the Issuer (or the Guarantor, as applicable) of the applicable notice of early redemption (the Early Redemption Date), in accordance with this Condition.

4.2.4 Minimum and/or Maximum Rate of Interest and/or Rate Multiplier and/or Leverage Factor

Subject to the provisions of Condition 4.2.3.1 :

- if the applicable Final Terms specify a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate(s) of Interest in respect of any such Interest Period determined in accordance with the provisions of Condition 4.2.3 is less than such Minimum Rate of Interest, the Rate(s) of Interest for such Interest Period shall be such Minimum Rate of Interest.

- if the applicable Final Terms specify a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate(s) of Interest in respect of any such Interest Period determined in accordance with the provisions of Condition 4.2.3 is greater than such Maximum Rate of Interest, the Rate(s) of Interest for such Interest Period shall be such Maximum Rate of Interest.

- if the applicable Final Terms specify that the rate multiplier (the **Rate Multiplier**) is "n/N" or "
nb/Nb" for any Interest Period, then the Rate(s) of Interest in respect of any such Interest Period shall be multiplied by the relevant Rate Multiplier, subject always to the Minimum Rate of Interest and/or Maximum Rate of Interest as described above.

For the purposes of this Condition 4.2.4:

Administrator means for a Floating Rate Option, the administrator of such Floating Rate Option as specified in the ISDA Matrix.

Benchmark Rate means, in respect of any calendar day (in respect of the definition of n) or, as applicable, Business Day (in respect of the definition of nb) of the relevant Interest Period:

- if the applicable Final Terms specify that the clause "*Benchmark Rate*" is stated as being "Reference Rate EURIBOR":

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions and under which the Floating Rate Option is "EUR-EURIBOR" (as defined in the 2021 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date). If on any Benchmark Day, such rate is not published by the Administrator or an authorised distributor and is not otherwise provided by the Administrator;

- if the applicable Final Terms specify that the clause "*Benchmark Rate*" is stated as being "Reference Rate EUR-CMS":

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions and under which the Floating Rate Option is "EUR-EURIBOR ICE Swap Rate-11:00" (as defined in the 2021 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date);

- if the applicable Final Terms specify that the clause "*Benchmark Rate*" is stated as being "Reference Rate SOFR-CMS ":

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions and under which the Floating Rate Option is "USD-SOFR ICE Swap Rate" (as defined in the 2021 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date);

If on any Benchmark Day, any of these rates is not published by the Administrator or an authorised distributor and is not otherwise provided by the Administrator or if an Index Event has occurred in respect of such rate, it will be determined by the Calculation Agent as aforesaid in accordance with the provisions of the Temporary Non-Publication Fallback or the Permanent Cessation Fallback or Administrator/Benchmark Fallback as the case may be, applying to such Floating Rate Option in the 2021 ISDA

Definitions and the ISDA Matrix for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date) provided that if the applicable fallback provision is Generic Fallback Provisions then the rate shall be determined pursuant to the provisions of Condition 4.2.3.5.2.3 above.

For the purposes hereof, (i) the value of the Benchmark Rate on any calendar day of the relevant Interest Period which is not a Benchmark Day shall be deemed to be the value ascribed to the Benchmark Rate on the first preceding Benchmark Day and (ii) the value of the Benchmark Rate on each of the last four T2 Business Days of any Interest Period shall be deemed to be the value ascribed to the Benchmark Rate on the fifth T2 Business Day (or the Benchmark Day immediately preceding such fifth T2 Business Day if such fifth T2 Business Day is not a Benchmark Day) preceding the Interest Payment Date relating to such Interest Period.

Benchmark Day means, if the relevant Benchmark Rate is:

- EUR-EURIBOR or EUR-EURIBOR ICE Swap Rate-11:00, a day (other than a Saturday or Sunday) on which the T2 is operating; and

- USD-SOFR-ICE Swap Rate, a day (other than a Saturday or Sunday) on which banks are open for business in New York.

Leverage Factor means a number specified as such in the applicable Final Terms.

Lower Limit means, in respect of the relevant Interest Period, the limit specified in the applicable Final Terms.

n means the number of calendar days in the relevant Interest Period in respect of which the Benchmark Rate was equal to or greater than the Lower Limit and equal to or lower than the Upper Limit, in each case as determined by the Calculation Agent.

nb means the number of Business Days in the relevant Interest Period in respect of which the Benchmark Rate was equal to or greater than the Lower Limit and equal to or lower than the Upper Limit, in each case as determined by the Calculation Agent.

N means the total number of calendar days within the relevant Interest Period.

Nb means the total number of Business Days within the relevant Interest Period.

Upper Limit means, in respect of the relevant Interest Period, the limit specified in the applicable Final Terms.

4.2.5 Determination of Rate(s) of Interest and Interest Amount in respect of Floating Rate Notes

The Calculation Agent will as soon as practicable after each time at which the Rate(s) of Interest is to be determined, determine the Rate(s) of Interest for the relevant Interest Period.

The Calculation Agent will calculate the Interest Amount payable on the Floating Rate Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated by applying the Rate(s) of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.
Floating Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate(s) of Interest to the Specified Denomination, as detailed in the applicable Final Terms.

4.2.6 Provisions specific to SHIBOR rate

SHIBOR means the Shanghai Interbank Offered Rate as published on http://www.shibor.org, by China Foreign Exchange Trade System & National Interbank Funding Centre under the authorisation of the People's Bank of China, at around 11.30 a.m., Beijing time on each business day, including 8 critical terms, i.e. O/N, 1W, 2W, 1M, 3M, 6M, 9M, 1Y, each representing the rate for the corresponding period.

If the Reference Rate is specified in the applicable Final Terms as SHIBOR, "SHIBOR" will be the rate determined by the Calculation Agent acting by and through its Hong Kong Branch on the following basis:

(i) if, at or around 11:30 a.m. (Beijing time) on the Interest Determination Date, a relevant SHIBOR is published on http://www.shibor.org, then the relevant SHIBOR will be that rate; and for the purposes of these General Terms and Conditions, the relevant SHIBOR means SHIBOR in a critical term corresponding to the relevant Interest Period, and

(ii) if for any reason the relevant SHIBOR is not published in respect of a certain Interest Determination Date, the relevant SHIBOR in respect of the business day immediately preceding that Interest Determination Date shall be applied in place thereof.

4.3 Structured Interest Note Provisions

This Condition applies if the applicable Final Terms, specify that the clause "*Structured Interest Note Provisions*" is stated as being "Applicable".

The applicable Final Terms contain provisions applicable to the determination of the Interest Amount and must be read in conjunction with this Condition 4.3 for full information on the manner in which interest is calculated on Structured Notes. In particular, the applicable Final Terms will specify the Interest Commencement Date, the Interest Payment Date(s), the Structured Interest Amount(s), the Business Day Convention and, if applicable, the relevant Day Count Fraction.

4.3.1 Structured Interest Amount(s)

The Structured Interest Amount payable in respect of the Structured Notes shall be determined as follows:

Structured Interest Amount = Specified Denomination multiplied by the Product Formula described in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in the applicable Final Terms.

For the purpose of this Condition:

Product Formula and **Reference of the Product** shall have the meaning given to them, respectively, in the Additional Terms and Conditions relating to Formulae.

4.3.2 Calculation of Interest Amount in respect of Structured Notes

The Calculation Agent will at or as soon as practicable after each time at which the Interest Amount is to be calculated, calculate the Interest Amount for the relevant Interest Period. The Calculation Agent will notify the Principal Paying Agent of the Interest Amount for the relevant Interest Period as soon as practicable after calculating the same (but in no event later than the first Business Day after such calculation).

The Calculation Agent will calculate the Interest Amount payable on the Structured Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated in accordance with the Product Formula as specified in the applicable Final Terms, multiplying such amount by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Structured Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Structured Interest Amount to the Specified Denomination, as detailed in the applicable Final Terms.

4.4 Zero Coupon Notes

This Condition applies if the applicable Final Terms specify that the clause "*Zero Coupon Notes Provisions*" is "Applicable".

The applicable Final Terms will specify the accrual yield (the **Accrual Yield**), the reference price (the **Reference Price**) and the Day Count Fraction in relation to Early Redemption Amounts, Optional Redemption Amounts and late payment (pursuant to the provisions of Conditions 6.3 , 6.1.3.1, 6.1.3.7 and 4.7.2).

Where a Zero Coupon Note becomes due and repayable and is not paid when due and the amount due and repayable is the **Amortised Face Amount**, it shall be an amount equal to the sum of:

(A) the Reference Price; and

(B) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and notified in accordance with Condition 13, mutatis mutandis.

For the avoidance of doubt, as a result of the daily compounding of the Accrual Yield, the amount repaid at Redemption is determined in accordance with the following formula: Reference Price × (1 + Accrual Yield)^Day Count Fraction. This formula corresponds to the Reference Price multiplied by the result of applying an exponential function to the Day Count Fraction, with a base equal to one increased by the Accrual Yield.
With Day Count Fraction as defined in Condition 4.7.2 for an accrual period from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and notified in accordance with Condition 13, *mutatis mutandis*.

4.5 Partly Paid Notes

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes.

4.6 Accrual of Interest

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if applicable) from the due date for its redemption unless payment of principal (or, in the case of any Physical Delivery Note, transfer of the Deliverable Asset(s) in respect of the Physical Delivery Amount) is improperly withheld or refused (provided that, in the case of any Physical Delivery Amount, transfer shall not be deemed to have been improperly withheld or refused where such transfer is delayed

by reason of circumstances beyond the control of the relevant Issuer or any of its Agents). In such event, interest will continue to be calculated and to accrue until whichever is the earlier of:

(1) the date on which all amounts due in respect of such Note have been paid; and

(2) five days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Principal Paying Agent and notice to that effect has been given to the Noteholders in accordance with Condition 13.

4.7 Certain provisions relating to the calculation of interest

4.7.1 Business Day Convention

If (x) there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or if (y) any Interest Payment Date would otherwise fall on a day which is not a Business Day, the Interest Payment Date(s) (or other date(s)) shall be the day determined by using a Business Day Convention in accordance with the provisions of Conditions 4.7.1.1, 4.7.1.2, 4.7.1.3 or 4.7.1.4 below.

Business Day Convention means a business day convention which may be either Floating Rate Convention, Following Business Day Convention, Modified Following Business Day Convention or Preceding Business Day Convention, as specified in the applicable Final Terms.

For the purposes of these General Terms and Conditions:

Business Centre(s) means the business centre(s) specified in the applicable Final Terms.

Business Day means a day which is both:

1) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in any Business Centre(s) specified in the applicable Final Terms; and

2) either (x) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in the principal financial centre(s) of the country of the relevant Specified Currency (if other than any Business Centre(s) and which, if the Specified Currency is Australian Dollar, shall be Sydney, if the Specified Currency is Canadian Dollar, shall be Montreal and, if the Specified Currency is Renminbi, shall be Hong Kong) or (y) in relation to any sum payable in euro, a T2 Business Day).

T2 Business Day means a day on which the T2 is open.

T2 means the real time gross settlement system operated by the Eurosystem or any successor or replacement for that system.

4.7.1.1 If the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Floating Rate Convention**", in any case where Specified Periods are specified in accordance with Condition 4.2.1(2), then such Interest Payment Date (a) in the case of Condition 4.7.1(x) above, shall be the last day that is a Business Day in the relevant month and the provisions of Condition 4.7.1.2 below shall apply mutatis mutandis or (b) in the case of Condition 4.7.1(y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (i) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (ii) each subsequent Interest Payment Date shall be the last Business Day in the month which falls within the Specified Period after the preceding applicable Interest Payment Date occurred; or

4.7.1.2 if the applicable Final Terms specify that the clause "Business Day Convention" is stated as being "Following **Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day; or

4.7.1.3 if the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Modified Following Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day; or

4.7.1.4 if the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Preceding Business Day Convention**", such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day.

4.7.1.5 Notwithstanding the provisions of Conditions 4.7.1.1, 4.7.1.2, 4.7.1.3 or 4.7.1.4 above, where the applicable Final Terms specify that the relevant Business Day Convention is to be applied on an "**unadjusted**" basis, the Interest Amount payable on any date shall not be affected by the application of such Business Day Convention.

4.7.2 Day Count Fraction

Day Count Fraction means, if specified as being “Applicable” in the applicable Final Terms, in respect of the calculation of an Interest Amount for any Interest Period, each of the following day count fractions (provided that the Day Count Fraction applicable to Floating Rate Notes denominated in euro shall be Actual/360):

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**Actual/Actual (ICMA)**":

(a) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the **Accrual Period**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (I) the number of days in such Determination Period and (II) the number of Determination Dates (as specified in the applicable Final Terms or, if none is so specified, the Interest Payment Date, the **Determination Dates** and each a **Determination Date**) that would occur in one calendar year; or

(b) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:

(i) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and

(ii) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "1/1", 1 ;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being **"30/360 convention"** and the Notes are Fixed Rate Notes:

the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**Actual/Actual (ISDA)**" or "**Actual/Actual**":

the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (I) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (II) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**Actual/365 (Fixed)**", the actual number of days in the Interest Period divided by 365;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**Actual/365 (Sterling)**", the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**Actual/360**", the actual number of days in the Interest Period divided by 360;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**30/360 convention**, **360/360 convention**" or "**Bond Basis**" and the Notes are variable rate Notes, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction = ([360 × (Y2- Y1)] + [30 × (M2 - M1)] + (D2 - D1)) / 360

where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;

Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D1 is greater than 29, in which case D2 will be 30;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**30E/360 convention**" or "**Eurobond Basis**", the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction = ([360 × (Y2- Y1)] + [30 × (M2 - M1)] + (D2 - D1)) / 360

where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;

Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D2 will be 30;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being **30E/360 (ISDA)** is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction = ([360 × (Y2- Y1)] + [30 × (M2 - M1)] + (D2 - D1)) / 360

where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;
Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D2 will be 30.

4.7.3 Other definitions relating to the calculation of interest

Determination Period means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date).

Interest Commencement Date means the date from which a Note accrues interest (as specified in the applicable Final Terms). If no Interest Commencement Date is specified in the applicable Final Terms, the Issue Date shall be deemed to be the Interest Commencement Date.

Interest Period means, unless otherwise specified in the applicable Final Terms, the period beginning on (and including) the Interest Commencement Date and ending on (but excluding) the first Interest Payment Date and each successive period beginning on (and including) an Interest Payment Date and ending on (but excluding) the next Interest Payment Date or such other period as is specified in the applicable Final Terms.

Interest Rate(i-1) means, in respect of an Interest Period, the Rate of Interest determined by the Calculation Agent in respect of the immediately preceding Interest Period.

Issue Date means the date specified as such in the applicable Final Terms. On the Issue Date, the relevant clearing systems debit and credit accounts in accordance with instructions received by them.

sub-unit means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent.

4.8 Rounding generally

In connection with the calculation of any amount payable in respect of the Notes (including, without limitation, interest) and unless otherwise provided in these General Terms and Conditions, such amounts will, if necessary, be rounded to the nearest sub-unit (as defined above) of the relevant Specified Currency, half of any such sub-unit being rounded upwards. Provided that, in connection with any amount payable in Japanese Yen ("JPY"), such amount shall be rounded up to the nearest integer.

4.9 Notification of Interest Amount

The Calculation Agent will cause, as the case may be, the Adjusted Fixed Rate Interest Amount or the Rate(s) of Interest and/or the Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Guarantor (if applicable) and any stock exchange on which the relevant Adjusted Fixed Rate Notes or Floating Rate Notes or Structured Notes are for the time being listed and notice thereof to be published in accordance with Condition 13 as soon as possible after the calculation or determination thereof (provided that, in the case of notification to any stock exchange, such notice will be given by no later than the first day of the relevant Interest Period or, if that is impossible due to the date fixed for such determination or calculation, as soon as practicable on or after such date).

4.10 Certificates to be final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 4, by the Principal Paying Agent or, if applicable, the Calculation Agent, shall (in the absence of wilful default, bad faith, manifest error or proven error) be binding on the Issuer, the Guarantor, the Calculation Agent (if applicable) the other Paying Agents and all Noteholders and (in the absence of wilful default or bad faith) no liability to the Issuer, the Guarantor (if applicable), the Noteholders shall attach to the Principal Paying Agent or, if applicable, the Calculation Agent, in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

5. PAYMENTS AND DELIVERIES

For the purposes of these General Terms and Conditions:

References to "payment" or "repayment" (as the case may be) and other similar expressions will, where the context so admits, be deemed also to refer to delivery of the Deliverable Asset(s) with respect to any Physical Delivery Amount(s).

For the purposes of this Condition:

Bank means a bank in the principal financial centre of the relevant currency or, in the case of euro, in a city in which banks have access to the T2.

5.1 Method of payment

5.1.1 Dematerialised Notes

Payments in respect of Dematerialised Notes shall (in the case of Dematerialised Notes in bearer form or administered registered form) be made by transfer to the account (denominated in the relevant currency) of the relevant Euroclear France Account Holders for the benefit of the Noteholders and (in the case of Dematerialised Notes in fully registered form) to accounts (denominated in the relevant currency) with a Bank designated by the Noteholders. All payments validly made to such accounts of such Euroclear France Account Holders or Noteholders will be an effective discharge of the Issuer in respect of such payments.

5.1.2 Materialised Bearer Notes

Subject as provided below and, in the case of Physical Delivery Notes, subject also as provided in the applicable Final Terms:

(1) payments in a Specified Currency (other than euro or Renminbi) will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with a bank in the principal financial centre(s) of the country of such Specified Currency (which if the Specified Currency is Australian Dollar, shall be Sydney and, if the Specified Currency is Canadian Dollar, shall be Montreal);

(2) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee;

(3) payments in Renminbi shall be made solely by credit to a Renminbi bank account maintained at a bank in Hong Kong in accordance with applicable laws, rules, regulations and guidelines issued from time to time;

(4) in the case of Physical Delivery Notes and subject to Condition 5.19:

(i) transfer of the Deliverable Asset(s) in respect of any Physical Delivery Amount will be effected by the Delivery (a) to, or to the order of, the Noteholder of the relevant Deliverable Asset(s), (b) to, or to the order of, the Noteholder at the risk of the relevant Noteholder in such manner as may be specified in the transfer notice (the **Transfer Notice**, the form of which is annexed to the French Law Agency Agreement) and subject to compliance with applicable securities laws; and

(ii) if the applicable Final Terms specify that "*Issuer's option to vary method of settlement*" is "Applicable", payment will be made pursuant to the provisions of Condition 5.19.2 or where a Settlement Disruption Event has occurred, pursuant to the provisions of Condition 5.19.4.

For the purposes of these General Terms and Conditions:

Deliver means, in respect of any underlying asset, to deliver, novate, transfer (including, where the applicable underlying asset is a guarantee, transfer the benefit of the guarantee), assign or sell, as appropriate, in a manner customary for the settlement of the applicable underlying asset (which shall include executing all necessary documentation and taking any other necessary actions), in

order to convey all right, title and interest in the underlying asset free and clear of any and all liens, charges, claims or encumbrances (including, without limitation, any counterclaim, defence (other than an Exempt Counterclaim or Defence) or right of set off by or of the obligor with respect to the underlying asset); provided that where the underlying asset is a Loan Participation, **Deliver** means to create (or procure the creation of) a participation in favour of the Noteholder and, where the underlying asset is a guarantee, **Deliver** means to Deliver both the guarantee and the underlying obligation to which such guarantee relates. **Delivery** and **Delivered** will be construed accordingly.

In the case of a loan (being any obligation that is documented by a term loan agreement, revolving loan agreement or other similar credit agreement), Delivery shall be effected using documentation substantially in the form of the documentation customarily used in the relevant market for Delivery of such loan at that time.

Exempt Counterclaim or Defence means, in respect of any underlying asset, any defence based upon (a) any lack or alleged lack of authority or capacity of the relevant obligor with respect to the underlying asset to enter into the underlying asset or, where the underlying asset is a guarantee, any lack or alleged lack of authority or capacity of the relevant obligor in respect of the guarantee and/or the obligor in respect of the underlying obligation to which such guarantee relates, (b) any actual or alleged unenforceability, illegality, impossibility or invalidity with respect to any underlying asset or, where the underlying asset is a guarantee, the guarantee and/or the underlying obligation to which such guarantee relates, however described, (c) any applicable law, order, regulation, decree or notice, however described, or the promulgation of, or any change in, the interpretation by any court, tribunal, regulatory authority or similar administrative or judicial body with competent or apparent jurisdiction of any applicable law, order, regulation, decree or notice, however described, or (d) the imposition of, or any change in, any exchange controls, capital restrictions or any other similar restrictions imposed by any monetary or other authority, however described.

Loan Participation means a loan in respect of which, pursuant to a participation agreement, the relevant Issuer is capable of creating, or procuring the creation of, a contractual right in favour of the relevant Noteholder that provides the Noteholder with recourse to the participation seller for a specified share in any payments due under the relevant loan which are received by such participation seller, any such agreement to be entered into between the Noteholder and the Issuer (to the extent the Issuer is then a lender or a member of the relevant lending syndicate).

5.2 Left blank intentionally

5.3 Presentation of Definitive Materialised Bearer Notes, Receipts and Coupons

Payments of principal in respect of Definitive Materialised Bearer Notes will be made (subject as provided below) in the manner provided in Condition 5.1 only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of such Notes, and payments of interest in respect of Definitive Materialised Bearer Notes will be made (subject as provided below) as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia, and its possessions)). Subject to any applicable laws and regulations, such payments made by credit or transfer will be made in immediately available funds to an account maintained by the payee with a bank located outside the United States of America. Subject as provided below, no payment in respect of any definitive Note or Coupon will be made upon presentation of such definitive Note or Coupon at any office or agency of the Issuer, the Guarantor or any Paying Agent in the United States, nor will any such payment be made by credit or transfer to an account, or by mail to an address, in the United States.

Payments of instalments of principal (if any) in respect of Definitive Materialised Bearer Notes, other than the final instalment, will be made (subject as provided below) in the manner provided in Condition 5.1 only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt in accordance with the preceding paragraph. Payment of the final instalment will be made in the manner provided in Condition 5.1 only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Note in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the definitive Note to which it appertains. Receipts presented without the Definitive Materialised Bearer Note to which they appertain do not constitute valid obligations of the Issuer or, if applicable, the Guarantor.

Upon the date on which any Definitive Materialised Bearer Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment will be made in respect thereof.

Fixed Rate Notes in definitive form (other than Dual Currency Notes, Structured Notes or Physical Delivery Notes) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) shall be deducted from the sum due for payment.

Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of ten years after the Relevant Date (as defined in Condition 8) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 8) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note, Dual Currency Note, Structured Note or Physical Delivery Note in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. Where any Floating Rate Note, Dual Currency Note, Structured Note or Physical Delivery Note which is settled by way of cash is presented for redemption without all unmatured Coupons appertaining thereto, payment of all amounts due in relation to such Note shall be made only against the provision of such indemnity as the relevant Issuer and, if applicable, the Guarantor may decide.
If the due date for redemption of any Definitive Materialised Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant Definitive Materialised Bearer Note.

5.7 Payments on Notes listed on SIX Swiss Exchange

In the case of Notes listed on SIX Swiss Exchange, the relevant Swiss Paying Agency Agreement shall supplement and modify the French Law Agency Agreement for the purposes of the relevant Notes, including providing for the appointment of a Principal Swiss Paying Agent (which, in the case of Notes listed on SIX Swiss Exchange shall at all times be a bank or securities dealer that is subject to supervision by the Swiss Financial Market Supervisory Authority FINMA (**FINMA**)) that will perform certain duties including, inter alia, those which relate to Swiss capital market customs and payment instructions.

The relevant Issuer shall make all payments due under Notes listed on SIX Swiss Exchange to the Principal Swiss Paying Agent in accordance with the Swiss Paying Agency Agreement and the General Terms and Conditions. Payments in respect of any Notes listed on SIX Swiss Exchange, each denominated in Swiss Francs shall be made in freely disposable Swiss Francs, and in the case of Notes listed on SIX Swiss Exchange denominated in a currency other than Swiss Francs in such other currency, which shall also be freely disposable, without collection of costs and whatever the circumstances may be, irrespective of the nationality, domicile or residence of the holder of any Notes listed on SIX Swiss Exchange and without requiring any certification, affidavit or the fulfilment of any other formality. The receipt by the Principal Swiss Paying Agent of the due and punctual payment of such funds in Switzerland shall discharge the Issuer's obligations under the Notes listed on SIX Swiss Exchange, as the case may be, with respect to the payment of, as the case may be, principal, interest, costs and additional amounts on the Notes and the paying agency fees, in each case to the extent of the funds received.

5.11 Payments subject to tax and other laws

All payments are subject in all cases to (i) any applicable tax or other laws, regulations and directives in any jurisdiction (whether by operation of law or agreement of the Issuer or its Agents) and the Issuer will not be liable for any taxes or duties of whatever nature imposed or levied by such laws, regulations, directives or agreements but without prejudice to the provisions of Condition 7, (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the **US IRS Code**) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto and (iii) any withholding or deduction required pursuant to Section 871(m) of the US IRS Code.

No commission or expense shall be charged to the Noteholders in respect of such payments but, for the avoidance of doubt, without prejudice to the option of the Calculation Agent to apply the provisions specific to the occurrence of an Increased Cost of Hedging, as provided for in each relevant Additional Terms and Conditions.

5.12 Payment Business Day

If the date for payment of any amount in respect of any Note is not a Payment Business Day, the Noteholder thereof shall instead be entitled to payment:

(1) if the applicable Final Terms specify that the clause "*Payment Business Day*" is "**Following Payment Business Day**": on the next following Payment Business Day in the relevant place; or

(2) if the applicable Final Terms specify that the clause "*Payment Business Day*" is "**Modified Following Payment Business Day**": on the next following Payment Business Day in the relevant place, unless the date for payment would thereby fall into the next calendar month, in which event such date for payment shall be brought forward to the immediately preceding Payment Business Day in the relevant place;

provided that if neither "Following Payment Business Day" nor "Modified Following Payment Business Day" is specified in the applicable Final Terms, "Following Payment Business Day" shall be deemed to apply. In the event that any adjustment is made to the

date for payment in accordance with this Condition, the relevant amount due in respect of any Note shall not be affected by any such adjustment.

For the purposes of these General Terms and Conditions:

Payment Business Day means any day which is:

(1) (i) in the case of Dematerialised Notes, a day on which Euroclear France is open for business or (ii) in the case of Definitive Materialised Bearer Notes, on which banks and foreign exchange markets are open for business in the relevant place of presentation,

(2) subject to the provisions of the French Law Agency Agreement, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in each financial centre(s) (the **Financial Centre(s)**) specified in the applicable Final Terms; and

(3) either (A) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the Specified Currency (which if the Specified Currency is Australian Dollar, shall be Sydney and, if the Specified Currency is Canadian Dollar, shall be Montreal and, if the Specified Currency is Renminbi, shall be Hong Kong) or (B) in relation to any sum payable in euro, a day on which the T2 is open.

5.13 Interpretation of "Principal" and "Interest"

Any reference in these General Terms and Conditions to "principal" in respect of the Notes shall be deemed to include, as applicable, in the applicable Final Terms:

(1) the Optional Redemption Amount(s) of the Notes;

(2) the Automatic Early Redemption Amount(s) of the Notes;

(3) the Final Redemption Amount of the Notes;

(4) the Early Redemption Amount(s) of the Notes;

(5) the Instalment Amount(s), in relation to Instalment Notes;

(6) the Amortised Face Amount (as defined in Condition 4.4) in relation to Zero Coupon Notes;

(7) any additional amounts which may be payable with respect to principal under Condition 7; and

(8) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

Any reference in these General Terms and Conditions to "interest" in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 7.

Any reference in these General Terms and Conditions to "interest accrued" or "accrued interest" shall be deemed to include any arrears of interest suspended as provided in Condition 4.6.

Any reference in these General Terms and Conditions to "principal" and/or "interest" and "Physical Delivery Amount(s)", in the case of Physical Delivery Notes, shall mean such amount less any expenses, fees, stamp duty, levies or other amounts including, but not limited to, any taxes or duties arising from the delivery or transfer of Deliverable Asset(s) payable on or in respect of such Physical Delivery Amount(s).

5.14 Payment Disruption Event

If on or prior to a due date (such date a **"Payment Disruption Date")** for payment of an Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount Final Redemption Amount or such other amount payable (if any) under the Notes and/or under the Guarantee (a Payment Disruption Event occurs as determined by the Calculation Agent, the Issuer shall give notice of such occurrence to the Noteholders in accordance with Condition 13 (a "**Payment Disruption Event Notice**") as soon as reasonably practicable thereafter.

Following the occurrence of a Payment Disruption Event:

(A) the date for payment of such Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount Final Redemption Amount or such other amount payable (if any) under the Notes (the "**Disrupted Amount**") will be postponed to (i) the second Business Day following the date on which the Calculation Agent determines that the ¨Payment Disruption Event is no longer subsisting or if earlier (ii) the date falling thirty calendar days following the scheduled due date for payment of the relevant Disrupted Amount (the "**Payment Disruption Cut-off Date**") which, for the avoidance of doubt, may be later than the scheduled Maturity Date; and

(B) (i) in the case of (A)(i) above, the Issuer will pay the relevant Disrupted Amount less Payment Disruption Expenses (if any) in the Specified Currency specified in the applicable Final Terms or (ii) in the case of (A)(ii) above, in lieu of paying the relevant Disrupted Amount in the relevant Specified Currency, the Issuer will, subject to the paragraph below, convert the relevant Disrupted Amount into the Payment Disruption Currency (using the Payment Disruption Exchange Rate for the relevant Payment Disruption Date) and will pay the relevant Disrupted Amount less the Payment Disruption Expenses (if any) in the Payment Disruption Currency on the Payment Disruption Cut-off Date.

If sub-paragraph (B)(ii) above applies, the Calculation Agent will determine the Payment
Disruption Exchange Rate acting in good faith and in a commercially reasonable manner in accordance with the following procedures:

(A) the Payment Disruption Exchange Rate shall be the arithmetic mean (rounded, if necessary, to four decimal places (with 0.00005 being rounded upwards)) as determined by or on behalf of the Calculation Agent of the bid and offer Specified Currency/Payment Disruption Currency exchange rates provided by two or more leading dealers on a foreign exchange market (as selected by the Calculation Agent) on such day; or
(B) if fewer than two leading dealers provide the Calculation Agent with bid and offer Specified Currency/Payment Disruption Currency exchange rates on such day, the Calculation Agent shall determine the Payment Disruption Exchange Rate acting in good faith and in a commercially reasonable manner.

For the avoidance of doubt, no Interest Period will be adjusted as a result of the postponement of any interest payment pursuant to this Condition 5.14, and no additional interest will be paid in respect of any postponement of the date for payment.
For the avoidance of doubt, nothing contained in these "Payment Disruption Event" provisions shall prevent the Issuer from making any other determination under these Terms and Conditions of the Notes or any applicable Additional Terms and Conditions.

No action or omission (including, without limitation, any postponement of any payment and/or payment made in a Payment Disruption Currency) in accordance with the provisions of this Condition 5.14 shall constitute an Event of Default.
For the purposes of this Condition 5.14:

"**Payment Disruption Currency**" means Euro or USD as selected in a commercially reasonable manner by the Issuer or the Calculation Agent;

"**Payment Disruption Event**" means the occurrence of an event which makes it unlawful, impossible or otherwise impracticable to pay any Disrupted Amount in the Specified Currency on the Payment Disruption Date, including, without limitation, any decision by a Clearing System to stop accepting the Specified Currency as a settlement currency for its operations and transactions, including, without limitation, the payment of income and/or redemption amounts in respect of the Notes;

"**Payment Disruption Exchange Rate**" means the rate of exchange between the Specified Currency (as specified in the applicable Final Terms) and the Payment Disruption Currency, determined by the Calculation Agent in accordance with the provisions of sub-paragraph (iii) above; and

"**Payment Disruption Expenses**" means, unless it is being specified as "Not Applicable" in the Applicable Final Terms, the sum of (i) the cost to the Issuer and/or its affiliates of unwinding any hedging arrangements related to the Notes and (ii) any transaction, payment or other costs and expenses arising directly out of the occurrence of a Payment Disruption Event or the related payment of the Disrupted Amount, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

5.15 Sanctions

If on or prior to a due date (such date a **"Sanctions Disrupted Date")** for payment of an Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount, Final Redemption Amount or such other amount payable (if any) under the Notes and/or under the Guarantee a Sanctions Disruption Event occurs as determined by the Calculation Agent, the Issuer shall give notice of such occurrence to the Noteholders in accordance with Condition 13 as soon as reasonably practicable thereafter.

Following the occurrence of a Sanctions Disruption Event:

(A) the date for payment of such Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount Final Redemption Amount or such other amount payable (if any) under the Notes (the "**Disrupted Amount**") will be postponed to the second Business Day following the date on which the Calculation Agent determines that the Sanctions Disruption Event is no longer subsisting which, for the avoidance of doubt, may be later than the scheduled Maturity Date (the "**Released Payment Date**"). (B) Payments of Disrupted Amounts, in particular but not limited to the situation where the Released Payment Date occurs later than the scheduled Maturity Date, may be made outside the Clearing Systems if the relevant Clearing System(s) has/have decided that these payments are no longer eligible for its operations and transactions.

For the avoidance of doubt, no Interest Period will be adjusted as a result of the postponement of any interest payment pursuant to this Condition 5.15, and no additional interest will be paid in respect of any postponement of the date for payment.

For the avoidance of doubt, nothing contained in these Sanctions Disruption Event provisions shall prevent the Issuer from determining the occurrence of any other event under these Terms and Conditions of the Notes or any applicable Additional Terms and Conditions.
No action or omission (including, without limitation, any postponement of any payment and/or payment made in a Payment Disruption Currency) in accordance with the provisions of this Condition 5.15 shall constitute an Event of Default.

"**Sanctions Disruption Event**" means the payment as envisaged pursuant to these Terms and Conditions and/or the Guarantee and the French Agency Agreement, the Swiss Paying Agency Agreement or any other paying agency agreement or any other paying agency agreement, of an Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount Final Redemption Amount or such other amount payable (if any) under the Notes, by the Issuer or the Guarantor would constitute a breach or violation of Sanctions, including following the change of interpretation of existing Sanctions.

"Sanctions" means any economic or financial sanctions, trade embargoes or similar measures enacted, administered or enforced by any of the following (or by any agency of any of the following):
(a) the United Nations;
(b) the United States of America;
(c) the United Kingdom; or
(d) the European Union or any present or future member state thereof.

5.16 Cyber-attacks

If on or prior to a due date for payment of an Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount Final Redemption Amount or such other amount payable (if any) under the Notes and/or the Guarantee (such date a "**Cyber-attack Disruption Date**") a Cyber-attack occurs as determined by the Calculation Agent (a "**Cyber-attack Disruption Event**"), the Issuer shall give notice of such occurrence to the Noteholders in accordance with Condition 13 as soon as reasonably practicable thereafter.

Following the occurrence of a Cyber-attack Disruption Event:
- the date for payment of such Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount Final Redemption Amount or such other amount payable (if any) under the Notes and/or the Guarantee (the **"Cyber-attack Disrupted Amount**") will be postponed to the second Business Day following the date on which the Calculation Agent determines that the Cyber-attack Disruption Event is no longer subsisting which, for the avoidance of doubt, may be later than the scheduled Maturity Date, provided that the Issuer and/or the Guarantor shall make their best endeavours to implement remedies as soon as reasonably practicable to eliminate the impact of the Cyber-attack Disruption Event on its/their payment obligations of the Cyber-attack Disrupted Amount under the Notes and/or the Guarantee (as applicable).

"**Cyber-attack**" means any malicious action or attempt initiated to steal, expose, alter, disable or destroy information through unauthorised access to, or maintenance or use of, to the Computer Systems of the Issuer, the Guarantor, the Calculation Agent, their respective affiliates (the "**SG Group**"), their IT service providers, by (and without limitation) the use of malware, ransomware, phishing, denial or disruption of service or cryptojacking or any unauthorized entry, removal, reproduction, transmission, deletion, disclosure or modification preventing the Issuer, the Guarantor and/or the Calculation Agent to perform their obligations under the Notes, and notwithstanding the implementation of processes, required, as the case may be, by the laws and regulations applicable to the Issuer, the Guarantor, the Calculation Agent and their affiliates, or their IT service providers to improve their resilience to these actions and attempts.

"**Computer System**" means all the computer resources including, in particular: hardware, software packages, software, databases and peripherals, equipment, networks, electronic installations for storing computer data, including Data.

The Computer System shall be understood to be that which:
- belongs to the SG Group and/or;
- is rented, operated or legally held by the SG Group under a contract with the holder of the rights to the said system and/or;
- is operated on behalf of the SG Group by a third party within the scope of a contractual relationship and/or;
- is made available to the SG Group under a contract within the framework of a shared system (in particular cloud computing).

"**Data**" means any digital information, stored or used by the Computer System, including confidential data.

For the avoidance of doubt, no Interest Period will be adjusted as a result of the postponement of any interest payment pursuant to this Condition 5.16, and no additional interest will be paid in respect of any postponement of the date for payment.

For the avoidance of doubt, nothing contained in these provisions shall prevent the Issuer from making any other determination under these Terms and Conditions of the Notes or any applicable Additional Terms and Conditions.

No action or omission (including, without limitation, any postponement of any payment and/or payment made in a Payment Disruption Currency) in accordance with the provisions of this Condition 5.16 shall constitute an Event of Default.

5.17 Provisions specific to Renminbi Currency Event

If "Renminbi Currency Event" is specified in the applicable Final Terms and a Renminbi Currency Event, as determined by the Calculation Agent, exists on a date for payment of any amount in respect of any Note, the Issuer may determine one or more of the following, and require the Calculation Agent to take such action or make such determination accordingly:

(a) the relevant payment of the Issuer be postponed to 10 Business Days after the date on which the Renminbi Currency Event ceases to exist or, if that would not be possible (as determined by the Issuer acting in good faith) as soon as reasonably practicable thereafter;

(b) that the Issuer's obligation to make a payment in Renminbi under the terms of the Notes be replaced by an obligation to pay such amount in the Relevant Currency (converted at the Alternate Settlement Rate determined by the Calculation Agent as of a time selected in good faith by the Calculation Agent); and/or

(c) the Issuer may redeem the Notes in whole, but not in part, at their Early Redemption Amount.

Upon the occurrence of a Renminbi Currency Event, the Issuer shall give notice, as soon as practicable, to the Noteholders in accordance with the Condition 13 stating the occurrence of the Renminbi Currency Event, giving brief details thereof and the action proposed to be taken in relation thereto.

For the purpose of this Condition:

Alternate Settlement Rate means the spot rate between Renminbi and the Relevant Currency determined by the Calculation Agent, taking into consideration all available information which the Calculation Agent deems relevant (including, but not limited to, the pricing information obtained from the Renminbi non-deliverable market outside the PRC and/or the Renminbi exchange market inside the PRC).

Renminbi Currency Event means any one of Renminbi Illiquidity, Renminbi Non-Transferability and Renminbi Inconvertibility.

Renminbi Illiquidity means the general Renminbi exchange market in Hong Kong becomes illiquid as a result of which the Issuer and/or any of its affiliates cannot obtain sufficient Renminbi in order to make a payment or perform any other of its obligations under the Notes, as determined by the Calculation Agent in good faith and in a commercially reasonable manner.

Renminbi Inconvertibility means the occurrence of any event that makes it impossible, impracticable or illegal for the Issuer and/or any of its affiliates to convert any amount into or from Renminbi as may be required to be paid by the Issuer under the Notes on any payment date or such other amount as may be determined by the Calculation Agent at the general Renminbi exchange market in Hong Kong, other than where such impossibility, impracticability or illegality is due solely to the failure of the Issuer and/or the relevant affiliate to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date of the first Tranche of the relevant Series of Notes and it is impossible or, having used its reasonable endeavours, impractical, for the Issuer and/or any of its affiliates, due to an event beyond the control of the Issuer or the relevant affiliate, to comply with such law, rule or regulation).

Renminbi Non-Transferability means the occurrence of any event that makes it impossible, impracticable or illegal for the Issuer and/or any of its affiliates to deliver Renminbi between accounts inside Hong Kong or from an account inside Hong Kong to an account outside Hong Kong, other than where such impossibility, impracticability or illegality is due solely to the failure of the Issuer and/or the relevant affiliate to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date and it is impossible or, having used its reasonable endeavours, impractical, for the Issuer and/or any of its affiliates, due to an event beyond the control of the Issuer and/or the relevant affiliate, to comply with such law, rule or regulation).

Governmental Authority means any *de facto* or *de jure* government (or any agency or instrumentality thereof), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of Hong Kong.

Relevant Currency means U.S. dollars, Hong Kong Dollars or such other currency as specified in the applicable Final Terms.

5.18 Provisions specific to Dual Currency Notes

Amounts payable in respect of payment of principal and/or interest, if any, in respect of Dual Currency Notes, shall be determined by the Calculation Agent by converting the relevant amounts in the relevant Specified Currency into the Settlement Currency at the relevant fixing of Dual Currency Exchange Rate.

The method of determining the fixing of Dual Currency Exchange Rate will be specified in the applicable Final Terms and may be one of the following methods:

(1) if "Predetermined" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the Calculation Agent shall use the Predetermined Fixing as the fixing of Dual Currency Exchange Rate to convert the relevant amount(s);

(2) if "Screen Rate Determination" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the fixing of the Dual Currency Exchange Rate will be the relevant exchange rate fixing specified on the Relevant Screen Page at the Dual Currency Valuation Time on the Dual Currency Valuation Date;

(3) if "Calculation Agent Determination" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the fixing of the Dual Currency Exchange Rate will be determined by the Calculation Agent by reference to such sources it deems appropriate, at the Dual Currency Valuation Time on the Dual Currency Valuation Date.

Notwithstanding any of the above, upon a Dual Currency Disruption Event occurring or continuing on any Dual Currency Valuation Date as determined by the Calculation Agent, the Calculation Agent shall:

(a) determine that the Dual Currency Valuation Date shall be the first succeeding Dual Currency Scheduled Trading Day that is not a Dual Currency Disrupted Day unless each of the eight Dual Currency Scheduled Trading Days immediately following the scheduled Dual Currency Valuation Date is also a Dual Currency Disrupted Day. In that case that eighth Dual Currency Scheduled Trading Day shall be deemed to be the Dual Currency Valuation Date notwithstanding the fact that such day is a Dual Currency Disrupted Day, and the Calculation Agent shall determine its good faith estimate of the fixing of the Dual Currency Exchange Rate as of the Dual Currency Valuation Time on that eighth Dual Currency Scheduled Trading Day and the good faith estimate of the fixing so calculated shall be deemed the fixing of Dual Currency Exchange Rate; and/or

(b) postpone any payment date related to such Dual Currency Valuation Date (including, if applicable, the Maturity Date) until the second Business Day following the date on which a Dual Currency Disruption Event is no longer subsisting, or the date on which the Calculation Agent determines its good faith estimate of the fixing of the Dual Currency Exchange Rate pursuant to the provisions of paragraph (a) above, as the case may be. No interest or other amount shall be paid by the Issuer in respect of such postponement.

provided however that, all references to the word "second" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

For the purpose of this Condition:

Clearing System means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

Settlement Currency means the currency or currencies specified as such in the applicable Final Terms. The applicable Final Terms may specify that the Settlement Currency may vary depending on the occurrence of different scenarios described in the applicable Final Terms;

Dual Currency Disrupted Day means any Dual Currency Scheduled Trading Day on which the Calculation Agent determines that a Dual Currency Disruption Event has occurred;

Dual Currency Disruption Event means the occurrence or existence of (a) a Price Source Disruption, (b) an Illiquidity Disruption, (c) a Dual Exchange Rate or (d) any other event that, in the opinion of the Calculation Agent, is analogous to (a), (b) or (c). For the purpose hereof:

(a) Price Source Disruption means that it becomes impossible to obtain the rate or rates from which the Dual Currency Exchange Rate is calculated;

(b) Illiquidity Disruption means the occurrence of any event in respect of the Specified Currency and/or Settlement Currency whereby it becomes impossible for the Calculation Agent to obtain a firm quote for such currency in an amount deemed necessary by the Calculation Agent to hedge its obligations under the Notes (in one or more transaction(s)) on any Dual Currency Valuation Date; and

(c) Dual Exchange Rate means that the Dual Currency Exchange Rate splits into dual or multiple foreign exchange rates.

Dual Currency Exchange Rate means an exchange rate expressed as X/Y (X and Y are currencies) and specified as such in the applicable Final Terms. For the avoidance of doubt, an exchange rate expressed as X/Y means the number of units (or part units) of Y for which one unit of X can be exchanged.

Dual Currency Scheduled Trading Day means a day on which commercial banks are open (or, but for the occurrence of a Dual Currency Disruption Event would have been open) for business (including dealings in foreign exchange in accordance with the market practice of the foreign exchange market) in the principal financial centres of the Dual Currency Exchange Rate.

5.19 Physical Delivery Notes

If the applicable Final Terms specify that "*Physical Delivery Provisions*" is "Applicable", this Condition applies.

In particular, the applicable Final Terms will specify the Deliverable Asset(s), the Physical Delivery Amount, the provisions governing whether transfer of Deliverable Asset(s) or payment of a cash sum will apply, the Issuer's option to vary method of settlement and the method of transfer of Deliverable Asset(s) in respect of the Physical Delivery Amount.

For the purposes of this Condition:

Deliverable Asset(s) means the deliverable asset(s) which may be either:

(i) the Underlying(s) of the Notes specified under the paragraph "Underlying(s)" in the applicable Final Terms, which may be any Underlying as defined in the Additional Terms and Conditions for Structured Notes or

(ii) if different from the Underlying(s) of the Notes, a share, an American or global depositary receipt and/or an exchange traded fund and/or a fund and/or an exchange traded product and/or a bond and/or a preference share and/or a warrant and/or a future, and/or any other assets specified under the paragraph "Deliverable Asset(s)" in the applicable Final Terms, in such case the provisions of the Additional Terms and Conditions relating to such deliverable asset (as if such asset was an underlying of the Note) shall apply in

respect to any definition or event related to such deliverable asset shall apply, or in the case of Credit Linked Notes, the "Specified Deliverable Obligation(s)" subject to the provisions of the Additional Terms and Conditions for Credit Linked Notes.

However,

(a) no share in Societe Generale or the Group will be deliverable. If a Share in Societe Generale or the Group should be delivered, such share will be replaced by, in due proportion, an equivalent amount in cash; and

(b) no Fund Unit in respect of any underlying fund which is a hedge fund will be delivered to retail investors.
Physical Delivery Amount means an amount determined and calculated in the manner described in the applicable Final Terms.

Any reference in these General Terms and Conditions to "Physical Delivery Amount(s)", shall mean such amount less any expenses, fees, stamp duty, levies or other amounts including, but not limited to, any taxes or duties arising from the delivery or transfer of Deliverable Asset(s) payable on or in respect of such Physical Delivery Amount(s).

5.19.1 Method of transfer of Deliverable Asset(s) in respect of Physical Delivery Amount

When the settlement of a Physical Delivery Note is by way of physical delivery, the delivery of any Physical Delivery Amount (including, without limitation, liability for the costs of transfer of Deliverable Asset(s)) will be made through Clearstream or Euroclear or other relevant Clearing System.

The Deliverable Asset(s) will be delivered at the risk of the relevant Noteholders in such manner as may be specified in the transfer notice pursuant to which such Deliverable Assets are delivered (the **Transfer Notice**), the form of which is annexed to the French Law Agency Agreement and, notwithstanding Condition 2, no additional payment or delivery will be due to a Noteholder where any Deliverable Asset(s) is/are delivered after their due date in circumstances beyond the control of either the Issuer or the Settlement Agent. The Transfer Notice will be delivered using the transfer procedures currently utilised by the relevant Clearing System.

A Noteholder's entitlement to any Physical Delivery Amount will be evidenced:

(i) by the Noteholder's account balance appearing on the records of the relevant Clearing System,

(ii) in the case of Credit Linked Notes by the account balances appearing in the records of the relevant Clearing System or, if necessary, the number of Notes held by each Noteholder as notified to the Principal Paying Agent by the relevant Clearing System, and

(iii) in the case of Dematerialised Notes in fully registered form, by the entries maintained at the relevant time on the Register maintained by the Registration Agent.

When Notes are held in a Clearing System, to the extent that a beneficial Noteholder holds such Notes through a custodian, the Issuer may in its discretion (and subject to obtaining such proof, evidence and/or indemnity arrangements as it deems appropriate) take account of such custodial arrangements when determining where to deliver Deliverable Asset(s) which form the Physical Delivery Amount.

Any delivery of Deliverable Assets will only be made in compliance with applicable securities laws.

5.19.2 Issuer's option to vary method of settlement

When the applicable Final Terms specify that "*Issuer's option to vary method of settlement*" is applicable, the Issuer may elect to pay or cause to be paid to the Noteholder the Final Redemption Amount on the Maturity Date in lieu of its obligation to deliver or procure delivery of the Physical Delivery Amount. Notification of any such election will be given to the Noteholder in accordance with Condition 13.

5.19.3 No obligations in relation to underlying asset

Except as expressly provided, the purchase of Notes does not confer on any Noteholder any rights (whether in respect of voting, distributions or otherwise) attached to any Underlying.

The Issuer shall be under no obligation to register or procure the registration of any Noteholder or any other person as the registered holder in respect of any relevant asset(s) comprised in any Physical Delivery Amount in any relevant register.

For such period of time after the Maturity Date as the Issuer or any person on behalf of the Issuer shall continue to be the legal owner of any asset(s) comprised in any assets comprising the Physical Delivery Amount (or equivalent amounts in circumstances where the Notes are subject to early redemption, purchase or cancellation) (the **Intervening Period**), neither the Issuer nor any other such person shall (a) be under any obligation to deliver or procure delivery to the relevant Noteholder or any subsequent beneficial owner of such asset(s) or any other person any letter, certificate, notice, circular or any other document or payment whatsoever received by that person in its capacity as the holder of such asset(s), (b) be under any obligation to exercise or procure exercise of any or all rights (including any voting rights) attaching to such asset(s) during the Intervening Period or (c) be under any liability to the relevant Noteholder or any subsequent beneficial owner of such asset(s) or any other person in respect of any loss or damage which the relevant Noteholder or subsequent beneficial owner or any other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or any other such person being the legal owner of such asset(s) during such Intervening Period.

5.19.4 Settlement Disruption Event

If a Settlement Disruption Event does prevent delivery of the Physical Delivery Amount on the Maturity Date, then such delivery shall occur on the first succeeding day on which delivery of the Physical Delivery Amount can take place through the relevant Clearing System (the **Actual Settlement Date**) unless a Settlement Disruption Event prevents delivery for a period of 20 Clearing System Days immediately following the original date that would have been the Actual Settlement Date (the **Delivery Period**). In that latter case, the Issuer shall, in lieu of delivering the Physical Delivery Amount, pay, in respect of each Note, the fair market value of the number of Deliverable Asset(s) to be delivered (the **Fair Market Value**) converted into the Specified Currency at the current exchange rate, if applicable.

The Fair Market Value will be determined by the Calculation Agent on the basis of the market conditions on the first Business Day following the Delivery Period:

(a) if a dividend is paid in respect of the Deliverable Asset(s) from and including the Valuation Date to and, as the case may be, (i) excluding the Delivery Date or (ii) including, in the event of a Settlement Disruption Event, the date on which the Fair Market Value is calculated, then, the net dividend amount relating to the number of Deliverable Asset(s) to be delivered per Note (excluding any related tax credit) converted into the Specified Currency at the current exchange rate, if applicable, will be paid in cash to the Noteholder as soon as practicable; and

(b) all stamp duties, or other similar taxes and/or duties, in respect of physical delivery of Deliverable Asset(s) shall be borne by the Noteholders.

Provided that in the case of Credit Linked Notes, upon the occurrence of a Settlement Disruption Event, the relevant Issuer shall, in lieu of delivering the Physical Delivery Amount, pay, in respect of each Note, the Cash Redemption Amount per Undeliverable Obligations (as defined in the Additional Terms and Conditions for Credit Linked Notes) to be delivered converted into the Specified Currency at the current exchange rate, if applicable.

For the purposes of this Condition:

Clearing System Day means, in respect of a Clearing System, any day on which such Clearing System is open for the acceptance and execution of settlement instructions.

Delivery Date means, as the case may be, (a) the Maturity Date or (b) in the event of a Settlement Disruption Event, the Actual Settlement Date.

Settlement Disruption Event means any event beyond the control of the Issuer as a result of which the relevant Clearing System cannot clear the transfer of the Physical Delivery Amount.

5.19.5 Illiquidity Event (for Reverse Convertible Bond Linked Note **only)**

If the applicable Final Terms specify that the clause " Physical Delivery Provisions " is "Applicable" and the Calculation Agent determines that an Illiquidity Event has occurred, then the Issuer shall, in lieu of delivering the Physical Delivery Amount, pay in respect of each Note, the fair market value of the number of Deliverable Asset(s) to be delivered (the Fair Market Value), as determined by the Calculation Agent in its sole and absolute discretion, converted into the Specified Currency at the current exchange rate, if applicable.

For the purposes of this Condition:

The Fair Market Value will be determined by the Calculation Agent on the basis of the market conditions within 20 Business Days following the Illiquidity Event :

(a) if a dividend is paid in respect of the Deliverable Asset(s) from and including the Valuation Date to and including the date on which the Fair Market Value is calculated, then, the net dividend amount relating to the number of Deliverable Asset(s) to be delivered per Note (excluding any related tax credit) converted into the Specified Currency at the current exchange rate, if applicable, will be paid in cash to the Noteholders as soon as practicable; and
(b) all stamp duties, or other similar taxes and/or duties, in respect of physical delivery of Deliverable Asset(s) shall be borne by the Noteholders.

Illiquidity Event means that in the determination of the Calculation Agent, the liquidity of the Deliverable Asset has decreased significantly since the Issue Date, such decrease of liquidity being likely to have a material impact on the Issuer to fulfill its obligations to deliver the Physical Delivery Amount.

6. REDEMPTION
6.1 Redemption under normal conditions

6.1.1 Final Redemption Amount

Unless previously redeemed or purchased and cancelled as specified in the Conditions below, each Note will be redeemed by the Issuer on the Maturity Date, at a final redemption amount specified in the applicable Final Terms (the **Final Redemption Amount**).

The Final Redemption Amount shall be determined in accordance with one of the following options:

Option 1:

- Final Redemption Amount = At par,

Option 2:

- Final Redemption Amount = a fixed amount per Specified Denomination or the Calculation Amount,

Option 3:

- Final Redemption Amount = Specified Denomination multiplied by the percentage specified in the applicable Final Terms (if such percentage is different from 100% of the Specified Denomination),

Option 4:

- Final Redemption Amount = Specified Denomination multiplied by the Product Formula described in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in paragraph "Reference of the Product" in the applicable Final Terms.

In the case of Physical Delivery Notes, such Notes will be redeemed by the transfer of the Deliverable Asset(s) specified in the applicable Final Terms, or determined in the manner specified in the Additional Terms and Conditions relating to Formulae, in the relevant Specified Currency or, if applicable, converted into the relevant Specified Currency, on the Maturity Date.

Provided that:

- in the case of a Non-exempt Offer Note (including a Note that is an Italian Certificate) and (i) if a share in Societe Generale or its affiliates is specified as a Deliverable Asset in the applicable Final Terms, the part of the Physical Delivery Amount composed by shares in Societe Generale will be replaced, in due proportion, by an equivalent amount in cash calculated with the manner indicated in the Additional Terms and Conditions relating to Formulae and (ii) no Fund Unit in respect of any underlying fund which is hedge fund will be delivered to retail investors; and

- in the case of insolvency or resolution of Societe Generale, the claim on Societe Generale with respect to Eligible Structured Notes, will be the amount to be taken into account for the purposes of Article R. 613-46-1-III-2°of the Code; this amount is fixed or increasing and does not exceed the initially paid-up amount of the liability.

For the purposes of this Condition:

Product Formula and **Reference of the Product** shall have the meaning given to them respectively in the Additional Terms and Conditions relating to Formulae.

In the case of Preference Share Linked Notes and Warrant Linked Notes (including a Notes that is an Italian Certificates), the Final Redemption Amount(s) shall be equal to the Final Redemption Amount per Calculation Amount, as defined in the relevant Additional Terms and Conditions.

6.1.2 Left blank intentionally.

6.1.3 Redemption prior to maturity

6.1.3.1 Optional early redemption

6.1.3.1.1 Redemption at the option of the Issuer

6.1.3.1.1.1 If the applicable Final Terms specify that "*Redemption at the option of the Issuer*" is "Applicable", the Notes are subject to redemption prior to the Maturity Date at the option of the Issuer at the Optional Redemption Amount(s) (as defined in Condition 6.1.3.1.3 below) on the Optional Redemption Date(s) as specified in the applicable Final Terms.

The applicable Final Terms will specify the Notice Period (as defined in Condition 6.1.3.1.4 below).

In respect of Eligible Notes, redemption of the Notes at the option of the Issuer will be subject to the prior written permission of the Relevant Resolution Authority.

6.1.3.1.1.2 Redemption in part

If the applicable Final Terms specify that "*Redemption in part*" is "Applicable", the applicable Final Terms will specify the Minimum Redemption Amount and the Maximum Redemption Amount (as defined below).

a) Minimum Redemption Amount and Maximum Redemption Amount

Any such partial redemption at the option of the Issuer, must be equal to a nominal amount (the **Optional Redemption Amount**) not less than a minimum redemption amount (the **Minimum Redemption Amount**) and not more than a maximum redemption amount (the **Maximum Redemption Amount**), each amount as specified in the applicable Final Terms.

b) Method of Redemption

In the case of redemption of some Materialised Notes only, the notice to Noteholders of such Materialised Notes shall also contain the serial numbers of the Definitive Materialised Bearer Notes to be redeemed which shall have been drawn in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and stock exchange requirements.

In the case of a partial redemption of Dematerialised Notes, the redemption shall be effected by the application of a pool factor corresponding to a reduction of the nominal amount of all such Dematerialised Notes in a Series in proportion to the aggregate nominal amount redeemed.

In the event of a partial redemption of Notes, the Issuer shall not be required to register the transfer of any Registered Note or part of a Registered Note called for partial redemption.

6.1.3.1.2 Redemption at the option of the Noteholders.

If the applicable Final Terms specify that "*Redemption at the option of the Noteholders*" is "Applicable", the Notes are subject to redemption prior to the Maturity Date at the option of the Noteholders at the Optional Redemption Amount(s) (as defined in Condition 6.1.3.1.3 below) on the Optional Redemption Date(s) both as specified in the applicable Final Terms. In respect of Eligible Notes, no redemption of the Notes at the option of the Noteholders is permitted.

The applicable Final Terms will specify the Notice Period (as defined in Condition 6.1.3.1.4 below).

6.1.3.1.3 Optional Redemption Amount(s)

In the case of Notes other than Preference Share Linked Notes, Warrant Linked Notes and Zero Coupon Notes:

The Optional Redemption Amount(s) shall be determined in accordance with one of the following paragraphs:

- Optional Redemption Amount = Specified Denomination multiplied by a percentage specified in the applicable Final Terms, which percentage may be a value yielded by one or several mathematical operations which may imply and be linked to the relevant Optional Redemption Date,

- Optional Redemption Amount shall be determined on the basis of the Final Redemption Amount as defined in the applicable Final Terms, calculated on the valuation date linked to the relevant Optional Redemption Date,

- If the Notes are Open-ended Notes or Spread Differential Notes (as defined in the Additional Terms and Conditions for Structured Linked Notes), the Optional Redemption Amount specified in the applicable Final Terms shall be the product of (i) Specified Denomination and (ii) the Product Formula of the Final Redemption Amount in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in paragraph "Reference of the Product" in the applicable Final Terms, but calculated on the valuation date linked to the relevant Optional Redemption Date,

- Optional Redemption Amount shall be equal to the Market Value (as defined in Condition 6.3 below);

and for each of the options above, if relevant and appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date(s).

In the case of Preference Share Linked Notes and Warrant Linked Notes:
The Optional Redemption Amount(s) shall be equal to the amount defined in the Additional Terms and Conditions for Preference Share Linked Notes or Additional Terms and Conditions for Warrant Linked Notes, as the case may be.

In the case of Zero Coupon Notes:
The Optional Redemption Amount(s) shall be equal to the Amortised Face Amount per Calculation Amount, as defined in Condition 4.4 above.

6.1.3.1.4 Notice Period

6.1.3.1.4.1 Notice Period in case of optional redemption at the option of the Issuer

Upon having given notice to the Noteholders (in accordance with Condition 13) pursuant to a notice period of not less than 5 Business Days or any other notice period (the **Notice Period**) specified in the applicable Final Terms, provided that in any case it shall not be less than 3 Business Days, which notice shall be irrevocable and shall specify the date fixed for redemption, the Issuer shall redeem the then outstanding Notes in whole (or in part only when “Redemption in part” is specified as applicable in the applicable Final Terms) on any Optional Redemption Date(s) and at the Optional Redemption Amount.

In respect of any Credit Linked Notes or Bond Linked Notes, any notice given by the Issuer pursuant to this Condition shall be void and of no effect in relation to these Credit Linked Notes or Bond Linked Notes -in the event that a Credit Event Notice- or a Bond Event Notice, has been, or is, delivered to the Noteholders at any time on or prior to 5:00 p.m. (Paris time) on the fourth Business Day preceding the Optional Redemption Date in accordance with this Condition 6.

In respect of any Credit Linked Notes or Bond Linked Notes, the applicable Final Terms will specify which of the following condition applied:

- any notice given by the Issuer pursuant to this Condition shall be void and of no effect in relation to these Credit Linked Notes or Bond Linked Notes -in the event that a Credit Event Notice- or a Bond Event Notice, has been, or is, delivered to the Noteholders at any time on or prior to 5:00 p.m. (Paris time) on the fourth Business Day preceding the Optional Redemption Date in accordance with this Condition 6; or
- any notice given by the issuer pursuant to this Condition, along with the relevant Optional Redemption Amount, shall be deemed to prevail in one or several of the following cases:
(a) a Credit Event Notice or Bond Event Notice has been delivered prior to, or is delivered to the Noteholders on the same day as, or after any such notice of redemption at the option of the Issuer;
(b) a Potential Failure to Pay – and a Potential Repudiation/Moratorium if applicable – has/have already occurred and is/are continuing at the relevant Optional Redemption Date;
(c) If applicable in respect of Credit Linked Notes: a Notice of Pending Credit Event was delivered less than 100 Business Days prior to the relevant Optional Redemption Date and, immediately prior to such Optional Redemption Date, (x) no DC No Credit Event Announcement has been published and (y) no Credit Event Notice in relation to the pending event has been delivered.

In respect of any Note, any notice given by the Issuer pursuant to this Condition shall be void and of no effect in relation to that Note in the event that, prior to the giving of such notice by the Issuer, the Noteholder had already delivered a Put Notice in relation to that Note in accordance with Condition 6.1.3.1.4.2.

6.1.3.1.4.2 Notice Period in case of redemption at the option of the Noteholder

Subject to Condition 6.1.3.1.2, a Noteholder shall have the option to require that a Note be subject to Redemption at the option of the Noteholder upon such Noteholder giving notice to the Issuer, not less than 5 Business Days or any other notice period (the **Notice Period**) specified in the applicable Final Terms provided that in any case it shall not be less than 3 Business Days.

It may be that before an option to require that a Note be subject to "Redemption at the option of the Noteholders", certain conditions and/or circumstances, as specified in the applicable Final Terms, will need to be satisfied.

For the avoidance of doubt, where a Noteholder is not entitled to deliver a Put Notice (as defined below) by virtue of Condition 6.1.3.1.2 and in circumstances where no such notice is delivered, the relevant Notes shall be subject to redemption in the manner provided in the remaining provisions of this Condition 6.

Any Put Notice given by a Noteholder pursuant to this Condition shall be:

(1) irrevocable except where prior to the due date of the Optional Redemption Date(s) if an Event of Default has occurred and is continuing in which event such Noteholder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this Condition and instead to declare such Note forthwith due and payable pursuant to Condition 9 below; and

(2) void and of no effect in relation to such Note in the event that, prior to the giving of such Put Notice by the relevant Noteholder (A) such Note constituted a Redeemed Note (as defined in Condition 6.1.3.1.1.2), (B) the Issuer had notified the Noteholders of its intention to redeem in whole the then outstanding Notes in a Series of Notes, in each case pursuant to Condition 13 or (C) the Notes were otherwise already subject to early redemption in accordance with the Terms and Conditions.

To exercise the right to require redemption of a Note, the Noteholder must within the Notice Period deliver a duly completed and signed notice (a **Put Notice**):

(i) if the Note is a Materialised Bearer Note or a Dematerialised Note and held outside Euroclear France, Euroclear and Clearstream, in the form (for the time being current) obtainable from any specified office of any Paying Agent or, as the case may be, the Registration Agent, to the specified office of any Paying Agent or the Registration Agent at any time during normal business hours of such Paying Agent or, as the case may be, the Registration Agent. In the case of Materialised Bearer Notes, the Put Notice shall have attached to it such Note(s) (together with all unmatured Receipts and Coupons and unexchanged Talons). In the case of Dematerialised Notes, the Noteholder shall transfer, or cause to be transferred, the Dematerialised Notes to be redeemed to the account of the Paying Agent specified in the Put Notice; or

(ii) if the Note is a Materialised Bearer Note and is held through Euroclear France, Euroclear or Clearstream and/or any other clearing system or institution through which the Notes are held for the time being and such shall include (where appropriate) any relevant central securities depository relating thereto (**Clearing System**), to the Principal Paying Agent in accordance with the standard procedures of the relevant Clearing System (which may include notice being given on his instruction by the Clearing System or any common depositary for them to the Principal Paying Agent by electronic means) in a form acceptable to the relevant Clearing System from time to time.

Notwithstanding the foregoing, the right to demand the redemption of the Notes in accordance with this Condition shall be exercised in accordance with the rules and procedures of the relevant Clearing System, and, in the event of any discrepancy between the foregoing provisions and the rules and procedures of the relevant Clearing System, the rules and procedures of the relevant Clearing System shall prevail.

6.1.3.2 Automatic Early Redemption

If the applicable Final Terms specify that "Automatic Early Redemption" is "Applicable", the Notes are subject to automatic redemption prior to the Maturity Date at the automatic early redemption amount(s) (**Automatic Early Redemption Amount(s)**) on the automatic early redemption date(s) (**Automatic Early Redemption Date(s)**) and following the automatic early redemption event (**Automatic Early Redemption Event**), as specified in the applicable Final Terms.

The Automatic Early Redemption Amount(s) shall be determined as follows:

Automatic Early Redemption Amount(s) = Specified Denomination multiplied by a Product Formula described in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in paragraph “Reference of the Product” in the applicable Final Terms.

In the case of Automatic Early Redemption for Warrant Linked Notes, the Automatic Early Redemption Amount per Calculation Amount will be determined and calculated in accordance with the Additional Terms and Conditions for Warrant Linked Notes.

For the purpose of this Condition:

Product Formula and Reference of the Product shall have the meaning given to them in the Additional Terms and Conditions relating to Formulae.

6.1.3.3 Interest Amount and/or the Redemption Amount switch at the option of the Issuer

For the purposes of this Condition:

(i) Any reference to "Interest Amount" shall be deemed to be a reference to the Fixed Coupon Amount, the Floating Coupon Amount and/or the Structured Interest Amount (each defined above) as the context requires.

(ii) Any reference to "Redemption Amount" shall be deemed to be a reference to the Final Redemption Amount, the Automatic Early Redemption Amount and/or the Optional Redemption Amount (each defined in this Condition 6) as the context requires.

If the applicable Final Terms specify that "Interest Amount and/or the Redemption Amount switch at the option of the Issuer" is "Applicable" and if the market value of the Note is higher than or equal to a predefined market value (the **Market Value for the Switch**), the Issuer shall then have the right (i) to add any Interest Amount or (ii) to replace any Interest and/or Redemption Amount by the other Amounts, described here below.

The applicable Final Terms will specify the Market Value for the Switch, the substitute coupon amount (the **Substitute Coupon Amount**) and the substitute coupon additional amount (the **Additional Substitute Coupon Amount**) if "Substitute Coupon" is "Applicable" and/or the substitute final redemption amount (the **Substitute Final Redemption Amount**) if "Substitute Final Redemption" is "Applicable" and the optional modification date(s) (the **Optional Modification Date(s)**) and the Notice Period (as defined below).

Substitute Coupon Amount means an amount determined in accordance with Condition 4.1 related to Fixed Rate Notes or with Condition 4.2 related to Floating Rate Notes.

Additional Substitute Coupon Amount means an amount determined in accordance with Condition 4.1 related to Fixed Rate Notes or with Condition 4.2 related to Floating Rate Notes.

Substitute Final Redemption Amount means an amount determined in accordance with the following provisions:

Substitute Final Redemption Amount = Specified Denomination multiplied by the percentage specified in the applicable Final Terms

The Issuer may, after having given notice to the Noteholders (in accordance with Condition 13) pursuant to a notice period (the Notice Period) specified in the applicable Final Terms (which notice shall be irrevocable and shall specify the date fixed for the switch), substitute the Interest Amount and/or the Redemption Amount by other Amounts.

Any Notice given by the Issuer pursuant to this Condition shall be void and of no effect in relation to such Note in the event that, prior to the giving of such Notice by the Issuer, the Noteholder had already delivered a Put Notice in relation to that Note in accordance with Condition 6.1.3.1.2.

6.1.3.4 Open-ended Notes

If the applicable Final Terms specify that the Notes are “Open-ended Notes”, the Notes will not have a predefined maturity date.

The Issuer and the Noteholders will have the right to redeem the Notes, at their Optional Redemption Amount as per Condition 6.1.3.1.1, Condition 6.1.3.1.2 and Condition 13.

6.1.3.5 Instalment Notes

If the applicable Final Terms specify that "*Instalment Notes Provisions*" is "Applicable", this Condition applies.

The applicable Final Terms will specify the instalment amount(s) (**Instalment Amount(s)**) and the instalment date(s) (**Instalment Date(s)**).

An adjusted specified denomination (**Adjusted Specified Denomination**) may be used for the purpose of calculating the Instalment Amount(s), and will be then specified in the applicable Final Terms.

In the case of early redemption, the Early Redemption Amount will be determined pursuant to Condition 6.3.

6.1.3.6 Partly Paid Notes

If the applicable Final Terms specify that "*Partly Paid Notes Provisions*" is "Applicable", this Condition applies.

The applicable Final Terms will specify the part payment amount(s) (**Part Payment Amount(s)**) and the part payment date(s) (**Part Payment Date(s)**).

Partly Paid Notes will be subscribed at the Part Payment Amount(s) on the Part Payment Date(s) specified in the applicable Final Terms. The obligation to pay a Part Payment Amount on the relevant Part Payment Date is only incurred by the Noteholders on such Part Payment Date.

Partly Paid Notes will be redeemed on the Maturity Date at their nominal amount and on any Optional Redemption Date at their paid-up nominal amount as at the date fixed for redemption. In the event that any Noteholder fails to pay a Part Payment Amount on the relevant Part Payment Date (such date a **Part Payment Default Date**), any such Notes held by such Noteholder shall automatically be redeemed on the relevant Early Redemption Date at the Settlement Amount.

For the purposes of this Condition:

Early Redemption Date means, in respect of any Note, the seventh Payment Business Day following a Part Payment Default Date;

Settlement Amount means, in respect of any Note, an amount determined by the Calculation Agent in accordance with the following formula:

Max [0; [Paid-up Nominal Amount – Unwinding Costs]]

Where:

Paid-up Nominal Amount means, in respect of any Part Payment Date, the paid-up nominal amount of the relevant Note up to (and including) the applicable Part Payment Date. Interest will neither accrue nor be payable in respect of the period from and including the applicable Part Payment Default Date to and including the applicable Early Redemption Date; and

Unwinding Costs means the pro rata share, in respect of each Note, of the losses (expressed as a positive number) or the gains (expressed as a negative number) of unwinding all hedging arrangements (taking into account the present value of any Part Payment Amount(s) remaining to be paid in respect of the Notes) entered into or purchased by the Issuer and/or the Guarantor in respect of the Notes.

6.1.3.7 Late Payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note, except for Registered Notes, pursuant to Condition 6 or upon its becoming due and repayable as provided in Condition 9 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as per Condition 4.4 with references therein to the date fixed for the redemption or the date upon which the Zero Coupon Note becomes due and repayable replaced by references to the date which is the earlier of:

(1) the date on which all amounts due in respect of the Zero Coupon Note have been paid; and

(2) five days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Note has been received by the Principal Paying Agent and notice to that effect has been given to the Noteholders in accordance with Condition 13.

6.2 Redemption following a Special Event

A **Special Event** means any of the events as defined below:

- a Tax Event (6.2.1),
- a Special Tax Event (6.2.1),

- a Regulatory Event (except for Eligible Notes) (6.2.1),
- a Force Majeure Event (except for Eligible Notes) (6.2.1),
- an Event of Default (except for Eligible Notes)(6.2.1),
- an Administrator/Benchmark Event (except for Eligible Notes) (6.2.2),
- a Trigger redemption at the option of the Issuer (except for Eligible Notes)(6.2.3),
- a Forced redemption or transfer event of Registered Notes (except for Eligilble Notes) (6.2.4), or
- a MREL Disqualification Event (for Eligible Notes only) (6.2.5).

Except as otherwise specified in this Condition 6.2, if a Special Event, as defined in this Condition, occurs in respect of a Series of Notes on or after the Issue Date of the first Tranche of the Series of Notes, the Issuer or the Guarantor (as applicable) and in respect of Eligible Notes, subject to the prior written permission of the Relevant Resolution Authority, may by notice to the Principal Paying Agent and to the Noteholders, elect that the Notes shall be redeemed early on the fourteenth (14th) calendar day after the delivery by the Issuer (or the Guarantor, as applicable) of the applicable notice of early redemption (the **Early Redemption Date**), in accordance with this Condition.

Preference Share Linked Notes and Warrant Linked Notes shall be redeemed at their Early Redemption Amount, as defined in the Additional Terms and Conditions for the relevant Notes.

Notes other than Preference Share Linked Notes and Warrant Linked Notes will be redeemed as further described in this Condition.

For the purposes of this Condition:

Administrator/Benchmark Event has the meaning given to it in Condition 4.2.3.7.

Change in Law means (i) the adoption, enactment, promulgation, execution or ratification of any applicable new law, regulation or rule (including, without limitation, any applicable tax law, regulation or rule) after the Issue Date of the Notes, (ii) the implementation or application of any applicable law, regulation or rule (including, without limitation, any applicable tax law, regulation or rule) already in force on the Issue Date of the Notes but in respect of which the manner of its implementation or application was not known or unclear at the Issue Date, or (iii) the change of any applicable law, regulation or rule existing at the Issue Date of the Notes, or the change in the interpretation or application or practice relating thereto, existing on the Issue Date of the Notes of any applicable law, regulation or rule, by any competent court, tribunal, regulatory authority or any other entity exercising executive, legislative, judicial, taxing, regulatory or administrative powers or functions of or pertaining to government (including any additional or alternative court, tribunal, authority or entity, to that existing on the Issue Date).

Early Redemption of the Notes means the redemption of the Notes, in whole, but not in part, at any time (in the case of Notes other than Floating Rate Notes or any other interest bearing Notes in respect of which the Rate of Interest is not calculated on a fixed rate basis (Structured Interest Notes)) or on any Interest Payment Date (in the case of Floating Rate Notes or Structured Interest Notes) at the Early Redemption Amount referred to in Condition 6.3, together (if appropriate) with accrued interest to (but excluding) the date of redemption provided that in respect of Preference Share Linked Notes or Warrant Linked Notes, the redemption of the Notes shall be at the relevant Early Redemption Amount as defined in the Additional Terms and Conditions for the relevant Notes.

Event of Default has the meaning given to it in Condition 9.

Force Majeure Event means that, by reason of the occurrence of an event or an act of state, on or after the Issue Date, for which the Relevant Entity (as defined below) is not accountable, it becomes impossible and insurmountable for the Relevant Entity to perform its obligations under the Notes, so that the continuance of the Notes is thereby rendered definitively impossible.

Monetisation with Early Redemption at the option of the Noteholder means that the Issuer will apply "Monetisation until the Maturity Date" in accordance with Condition 6.5 but will also offer the Noteholders the option of having their Notes redeemed prior to the Maturity Date in whole (but not in part). If a Noteholder requires the Issuer to redeem such Notes, the Issuer shall terminate its obligations under such Notes and shall pay or cause to be paid an Early Redemption Amount determined on the basis of Market Value as defined in Condition 6.3.

MREL Disqualification Event means a change in the classification of the Eligible Notes under the MREL Requirements, that was not reasonably foreseeable by Societe Generale at the Issue Date of such Notes, and that would be likely to result in or has resulted in the Eligible Notes being fully or partially excluded from the eligible liabilities available to meet the MREL Requirements (as named or defined by the then applicable laws and regulations or MREL criteria applicable to the Issuer). For the avoidance of doubt, the exclusion of a Series of Eligible Notes from the eligible liabilities available to meet the MREL Requirements due to the remaining term of such Notes being less than any period prescribed thereunder, does not constitute a MREL Disqualification Event.

Regulatory Event means, following the occurrence of a Change in Law with respect to the Issuer and/or Societe Generale as Guarantor or in any other capacity (including without limitation as market maker of the Notes or direct or indirect shareholder or sponsor of the Issuer) or any of its affiliates involved in the issue of the Notes (hereafter the **Relevant Affiliates** and each of the Issuer, Societe Generale and the Relevant Affiliates, a **Relevant Entity**) that, after the Issue Date of the Notes, (i) any Relevant Entity would incur a materially increased (as compared with circumstances existing prior to such event) amount of tax, duty, liability, penalty, expense, fee, cost or regulatory capital charge however defined or collateral requirements for performing its obligations under the Notes, including, without limitations, due to clearing requirements of, or the absence of, clearing of the transactions entered into in connection with the issue of the Notes, (ii) the Relevant Entity would be required to obtain any licence, authorization, approval, permit, registration from any governmental, inter-governmental, supranational authority, agency, instrumentality, ministry or department thereof that it does not hold as of the Issue Date or to modify its by-laws to comply with the new requirements (a) to hold, acquire,

issue, reissue, substitute, maintain, redeem, settle or as the case may be, guarantee, the Notes, (b) to acquire, hold, sponsor or dispose of any asset(s) (or any interests therein) of any other transaction(s) such Relevant Entity may use in connection with the issue of the Notes, (c) to perform obligations in connection with, the Notes or any contractual arrangement entered into between the Issuer and Societe Generale or any Relevant Affiliate or (d) to hold, acquire, maintain, increase, substitute or redeem all or a substantial part of its direct or indirect shareholding in the Issuer's capital or the capital of any Relevant Affiliate or to directly or indirectly sponsor the Issuer or any Relevant Affiliate, or (iii) there is or may be a material adverse effect on a Relevant Entity in connection with the issue of the Notes.

Relevant Notice means a notice given in accordance with Condition 13 (i) not less than 30 nor more than 45 days, in respect of a Tax Event, a Regulatory Event or a Force Majeure Event, (ii) not less than 7 nor more than 45 days in respect of a Special Tax Event, to the Noteholders (which notice shall be irrevocable) and to the Principal Paying Agent.

Special Tax Event means that the Issuer or, as the case may be, the Guarantor would, on the occasion of the next payment (including payment of principal or interest, if any) or delivery in respect of the Notes, be prevented by the law of a Tax Jurisdiction (as defined in Condition 7) from causing payment or delivery, as the case may be, to be made to the Noteholders of the full amount then due and payable or deliverable, as the case may be, notwithstanding the undertaking to pay additional amounts contained in Condition 7.2.

Tax Event means that (i) the Issuer or, as the case may be, the Guarantor, has or will become obliged to pay additional amounts as provided or referred to in Condition 7 as a result of any change in, or amendment to, the laws or regulations of a Tax Jurisdiction (as defined in Condition 7) or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the Issue Date of the first Tranche of the Notes, and (ii) such obligation cannot be avoided by the Issuer or, as the case may be, the Guarantor taking reasonable measures available to it.

A Tax Event, Special Tax Event, Regulatory Event or Force Majeure Event are each an **Exceptional Event** and together the **Exceptional Events**.

6.2.1 Redemption for Tax Event, Special Tax Event, Regulatory Event (except for Eligible Notes), Force Majeure (except for Eligible Notes) or Event or Event of Default (except for Eligible Notes)

If the applicable Final Terms specify:

(a) "Early Redemption"

then, upon the occurrence of an Exceptional Event, the Calculation Agent may, on giving a Relevant Notice, apply Early Redemption of the Notes as defined above, or

(b) "Early Redemption or Monetisation until the Maturity Date",

then, upon the occurrence of a Tax Event, Special Tax Event or Regulatory Event, the Calculation Agent may, on giving a Relevant Notice, decide to apply either:

(i) Early Redemption of the Notes, or

(ii) "Monetisation until the Maturity Date" in accordance with Condition 6.5,

and upon the occurrence of a Force Majeure Event or Event of Default (unless the applicable Final Terms specify that Event of Default is not applicable) and in case of Preference Share Linked Notes and Warrant Linked Notes, the Calculation Agent may only apply Early Redemption of the Notes, or

(c) "Monetisation with Early Redemption at the option of the Noteholders, except for Force Majeure Event or Event of Default",

then, upon the occurrence of a Tax Event, Special Tax Event or Regulatory Event, the Calculation Agent may, on giving a Relevant Notice, apply Monetisation with Early Redemption at the option of the Noteholder as defined above, and

upon the occurrence of a Force Majeure Event or Event of Default (unless the applicable Final Terms specify that Event of Default is not applicable) and in case of Preference Share Linked Notes and Warrant Linked Notes, the Calculation Agent may only apply Early Redemption of the Notes.

If following the occurrence of Tax Event or Special Tax Event, Early Redemption of the Notes does not apply (in accordance with (b) or (c) above), then Condition 7.2 "Gross-up" will not apply.

If the applicable Final Terms specify that Tax Event or Special Tax Event is not applicable, then in case of occurrence of a Tax Event or Special Tax Event the Notes will remain unchanged.

6.2.2 Redemption upon the occurrence of an Administrator/Benchmark Event (except for Eligible Notes)

Upon the occurrence or likely occurrence, as determined by the Calculation Agent, of an Administrator/Benchmark Event in case of Floating Rate Notes as described in Condition 4.2.3.1 above, on or after the Issue Date and if the Calculation Agent has not been able to determine a Replacement Rate and as the case may be an Adjustment Spread in accordance with the provisions of Condition 4.2.3.5.2 above, then the Calculation Agent, acting in good faith, may either:

(i) consider such event as an event triggering an early redemption of the Notes (hereafter, an Early Redemption Event). In that case, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount based on the Market Value as defined in Condition 6.3 below; or

(ii) apply Monetisation until the Maturity Date (as defined in Condition 6.5 below).

6.2.3 Trigger redemption at the option of the Issuer (except for Eligible Notes)

If the applicable Final Terms specify that "*Trigger redemption at the option of the Issuer*" is "Applicable", then in the event that at any time during the life of the Notes and for any reason whatsoever, the Aggregate Outstanding Nominal Amount of the Notes equals or falls below the Outstanding Amount Trigger Level, the Issuer shall have the option, subject to any applicable law and regulation, and in the case of Eligible Notes, subject to the prior written permission of the Relevant Resolution Authority, to redeem the then outstanding Notes in whole (but not in part) at the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 upon giving not less than fifteen (15) Business Days' notice to the Noteholders (in accordance with Condition 13) specifying that the Outstanding Amount Trigger Level has been reached.

For the purposes of this Condition:

Aggregate Outstanding Nominal Amount means, at any time, the product of (a) the Specified Denomination and (b) the number of Notes outstanding held at such time by Noteholders other than Societe Generale or its affiliates for their own account as determined in good faith by the Principal Paying Agent in consultation with the clearing institution(s) in or through which the Notes are held and transactions in such Notes are cleared.

Outstanding Amount Trigger Level means 10% of the Aggregate Nominal Amount of the Notes initially issued or, if different from 10%, the level specified as such in the applicable Final Terms.

6.2.4 Redemption or forced transfer of Registered Notes or Bearer Notes (except for Eligible Notes)

Any transfer or other disposition of any legal or beneficial ownership interest in a Non-U.S. Registered Note or a Bearer Note to a person that is not a Permitted Transferee will be void *ab initio* and of no legal effect whatsoever. Any purported transferee of any legal or beneficial ownership interest in a Non-U.S. Registered Note or a Bearer Note in such a transaction will not be entitled to any rights as a legal or beneficial owner of such interest in such a Non-U.S. Registered Note or a Bearer Note. If the Issuer determines at any time that a holder of a Non-U.S. Registered Note or a Bearer Note (i) is a person that is not a Permitted Transferee, or (ii) purchased such Non-U.S. Registered Note or a Bearer Note in breach of the deemed or actual representations given by such Noteholder upon the purchase of such Non-U.S. Registered Note or a Bearer Note, the Issuer may (a) redeem such Non-U.S. Registered Note or a Bearer Note at the Early Redemption Amount, or (b) direct such Noteholder to sell or transfer its Non-U.S. Registered Note or a Bearer Note to a Permitted Transferee in an offshore transaction meeting the requirements of Regulation S within 30 days following receipt of such notice, and if such Noteholder fails to sell or transfer its Non-U.S. Registered Note or a Bearer Note within such 30 day period, the Issuer may transfer or sell such Non-U.S. Registered Note or a Bearer Note on behalf of such Noteholder.

No payments will be made on the affected Notes from the date notice of the sale requirement is sent to the date on which the affected Notes are sold.

There can be no assurance that a Noteholder, or an interest therein, who is required to sell Notes, or whose Notes are sold on his behalf (pursuant to this Condition) will not incur a significant loss as a result of the need for the relevant Issuer, or for the transferor, to find a qualifying transferee willing to purchase the Notes. Neither the relevant Issuer, the Guarantor (if applicable) nor any other party shall be liable to a Noteholder for any such loss.

6.2.5 Redemption for a MREL Disqualification Event (for Eligible Notes)

Upon the occurrence of a MREL Disqualification Event in respect of Eligible Notes, the Issuer may, at any time, at its option (subject to the prior written permission of the Relevant Resolution Authority) and having given not less than thirty (30) nor more than forty-five (45) calendar days' prior irrevocable notice to the Principal Paying Agent, the Noteholders and the Couponholders, in accordance with Condition 13, redeem the outstanding Notes in whole but not in part at their Early Redemption Amount specified in the applicable Final Terms.

6.3 Early Redemption

Where the amount due to be paid to (or delivered to, in the case of Physical Delivery Notes) a Noteholder as a result of Condition 6.2 and Condition 9 is expressed to be the "Early Redemption Amount", such amount will be determined in accordance with the applicable provisions of this Condition.

The Early Redemption Amount will be calculated as follows:

(1) in the case of Notes with a Final Redemption Amount equal to the Issue Price, at the Final Redemption Amount thereof; or

(2) in the case of Notes (other than Zero Coupon Notes) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Notes are denominated, at the amount determined and calculated pursuant the provisions of Condition 5.1; or

(3) in the case of Notes with an Early Redemption Amount specified as Market Value in the applicable Final Terms:

(i) at an amount determined by the Calculation Agent, which, on the due date for the redemption of the Notes, shall represent the fair market value of the Notes and shall have the effect (after taking into account the costs that cannot be avoided to redeem the fair market value to the Noteholders) of preserving for the Noteholders the economic equivalent of the obligations of the Issuer to make the payments in respect of the Notes which would, but for such early redemption, have fallen due after the relevant early redemption date; or

(ii) in case of Spread Differential Notes only, at an amount determined by the Calculation Agent, which, on the due date for the redemption of the Notes, shall represent the fair market value of the Notes, shall take into account the relevant Spread Value(t) and shall have the effect (after taking into account the costs that cannot be avoided to redeem the fair market value to the Noteholders) of preserving for the Noteholders the economic equivalent of the obligations of the Issuer to make the payments in respect of the Notes which would, but for such early redemption, have fallen due after the relevant early redemption date; the Market Value may be less than the market value of a Societe Generale vanilla bond having the same coupon and maturity as these Notes; or

(4) in the case of Physical Delivery Notes, at the Physical Delivery Amount specified in the applicable Final Terms; or

(5) in the case of Zero Coupon Notes, at the Amortised Face Amount; or

(6) in the case of Preference Share Linked Notes and Warrant Linked Notes, at the Early Redemption Amount determined and calculated in accordance with the Additional Terms and Conditions for Preference Share Linked Notes and the Additional Terms and Conditions for Warrant Linked Notes or at an amount specified in the applicable Final Terms, as the case may be.

For the avoidance of doubt, for the purpose of calculating the Market Value following an Event of Default pursuant to Condition 9 only, no account shall be taken of the creditworthiness of:

(i) the Issuer, which shall be deemed to be able to perform fully its obligations in respect of the Notes;

(ii) the Guarantor, which shall be deemed to be able to perform fully its obligations under the Guarantee;

in respect of Notes bearing interest, notwithstanding anything to the contrary in these Conditions, the Early Redemption Amount, as determined by the Calculation Agent in accordance with this paragraph shall include any accrued interest to (but excluding) the relevant early redemption date and apart from any such interest included in the Early Redemption Amount, no interest, accrued or otherwise, or any other amount whatsoever will be payable by the Issuer or, as the case may be, the Guarantor in respect of such redemption. Where such calculation is to be made for a period of less than a full year, it shall be made on the basis of the Day Count Fraction, if applicable, as specified in the applicable Final Terms.

6.4 Conditions to early redemption, purchase and cancellation with respect to Eligible Notes issued by Societe Generale

As indicated above, the Notes issued by Societe Generale that are Eligible Notes may be early redeemed, purchased or cancelled pursuant to Conditions 6.1.3.1.1, 6.2, 14.3 and 14.4, as the case may be, subject to prior written permission of the Relevant Resolution Authority.

6.5 Monetisation until the Maturity Date

If (i) for the purpose of Conditions 6.2.1 or 6.2.2. the Issuer elects to apply Monetisation until the Maturity Date or if the applicable Final Terms specify that Early Redemption, will not apply or (ii) if pursuant to the applicable Additional Terms and Conditions specified in the applicable Final Terms, the Calculation Agent elects to apply Monetisation as per this Condition, then the Issuer shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date, and/or (2) the Optional Redemption Amount on the Optional Redemption Date, and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 6.5.1, 6.5.2 and/or 6.5.3 below.

In addition, in respect of Physical Delivery Notes, following the occurrence of an event giving rise to the Monetisation until the Maturity Date, the Issuer shall no longer be liable for delivery of (1) the Physical Delivery Amount related to the Intermediate Amount Payment Date, and/or (2) the Physical Delivery Amount related to the Optional Redemption Date, and/or (3) the Physical Delivery Amount as defined in the applicable Final Terms on the Maturity Date but instead will, in full and final satisfaction of its obligations, deliver Deliverable Asset(s) in an amount equal to the amount described in Conditions 6.5.1, 6.5.2 or 6.5.3 below.

This Condition 6.5 and the Monetisation with Early Redemption at the option of the Noteholder will apply, if “Redemption for Tax Event, Special Tax Event, Regulatory Event, Force Majeure Event or Event of Default", of the applicable Final Terms specifies that “Monetisation with Early Redemption at the option of the Noteholders, except for Force Majeure Event or Event of Default" applies.

All references to the word "fourth" in the paragraphs below may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

6.5.1 Monetisation of any Intermediate Amount

6.5.1.1 In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which could be as low as zero

Pursuant to the provisions of this Condition, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that, Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be, would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (b) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.1.2 In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which cannot, in any case, be lower than an amount strictly positive (the Minimum Intermediate Amount)

Pursuant to the provisions of this Condition, the Issuer shall pay (1) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (2) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

(a) (i) the net positive cash amount that Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (ii) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded), and
(b) an amount equal to the Minimum Intermediate Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.2 Monetisation of any Optional Redemption Amount

6.5.2.1 In respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Final Terms could be as low as zero

Pursuant to the provisions of this Condition, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be would be left with on the Optional Full Liquidation Date, as a result of liquidating the Optional Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (b) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.2.2 In respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Final Terms cannot, in any case, be lower than an amount strictly positive (the Optional Minimum Redemption Amount)

Pursuant to the provisions of this Condition, the Issuer shall pay on the Optional Redemption Date an amount per Note equal to the Optional Minimum Redemption Amount and on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

(a) (i) the net positive cash amount that Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be would be left with on the Optional Full Liquidation Date, as a result of liquidating, the Optional Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (ii) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded), and

(b) an amount equal to the Optional Minimum Redemption Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.3 Monetisation of the Final Redemption Amount

6.5.3.1 In respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Final Terms could be as low as zero

Pursuant to the provisions this Condition, the Issuer shall pay on the Maturity Date, an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be would be left with on the Full Liquidation Date, as a result of liquidating the Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (b) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.3.2 In respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Final Terms cannot be in any case lower than an amount strictly positive (the Minimum Redemption Amount)

Pursuant to the provisions of this Condition, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the sum of (1) the Minimum Redemption Amount and (2) an amount, equal to the positive difference, if any, between:

(a) (i) the net positive cash amount that Societe Generale or any of its affiliates or a Hypothetical Investor, as the case may be, would be left with on the Full Liquidation Date, as a result of liquidating, the Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (ii) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded), and

(b) an amount equal to the Minimum Redemption Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.4 Definitions specific to the Monetisation until the Maturity Date

Adjusted Calculation Amount means (a) in respect of the first Compounding Period of a Calculation Period, the Calculation Amount for that Calculation Period and (b) in respect of any succeeding Compounding Period in that Calculation Period, an amount equal to the sum of the Calculation Amount for that Calculation Period and the Compounding Period Amounts for each of the previous Compounding Periods in that Calculation Period.

Clearing System means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

Compounding Date means, in respect of a Calculation Period, each Business Day (as defined in Condition 4.7.1) of such Calculation Period.

Compounding Method means that the amount of interest shall be equal to the sum of the Compounding Period Amounts for each Compounding Period in the related Calculation Period.

Compounding Period means, in respect of a Calculation Period, each period from and including a Compounding Date to but excluding the immediately following Compounding Date during that Calculation Period.

Compounding Period Amount means, in respect of a Compounding Period, the product of (a) the Adjusted Calculation Amount, (b) the Compounding Rate and (c) the Day Count Fraction.

Compounding Rate means, in respect of a Compounding Period Amount, the annualised interest rate that the Issuer offers in the Specified Currency as determined by the Calculation Agent on the first day of the relevant Compounding Period; the specific Compounding Rate used in respect of a Specified Currency shall be available at the office of the Calculation Agent from the first day of a Calculation Period.

Day Count Fraction means, for the purposes of Compounding Method, the exact number of days in a Compounding Period (the first included and the last excluded), divided by 360.

Full Liquidation Date means, in respect of the Maturity Date the date on which the liquidation proceeds of the Hedge Positions (including inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Hedge Positions, if any, with the liquidation proceeds of the assets of such Hedge Positions) are deemed, as determined by the Calculation Agent, to be fully received by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be.

Hedge Positions means any purchase, sale, entry into or maintenance, by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be, of one or more (a) positions or contracts in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) cash deposits or cash borrowings and/or (d) other instruments, arrangements, assets or liabilities howsoever described, in order to hedge individually or on a portfolio basis, part or all of Societe Generale or any of its affiliates' or a Hypothetical Investor, as the case may be, obligations under the Notes due on the Maturity Date apportioned pro rata to each outstanding Note provided that, if the Intermediate Full Liquidation Date and/or the Optional Full Liquidation Date has not occurred on or before the fourth Business Day preceding the Maturity Date, then Hedge Positions will include the Intermediate Hedge Positions and/or the Optional Hedge Positions.

Hypothetical Investor means a hypothetical institutional investor not resident in (a) the applicable Relevant Jurisdiction, Local Jurisdiction and/or the Tax Residence Jurisdiction for the purposes of the tax laws and regulations of the Relevant Jurisdiction, Local Jurisdiction and/or the Tax Residence Jurisdiction, as applicable; or (b) a jurisdiction where any refund, credit or any other benefit, exemption or reduction in relation to any Local Taxes may arise under an applicable tax treaty or any relevant laws or arrangements.

Intermediate Amount means either an Interest Amount or an Instalment Amount.

Intermediate Full Liquidation Date means, in respect of any Intermediate Payment Date, the date on which the liquidation proceeds of the Intermediate Hedge Positions (including inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of such Intermediate Hedge Positions) are deemed, as determined by the Calculation Agent, to be fully received by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be.

Intermediate Hedge Positions means any purchase, sale, entry into or maintenance, by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be, of one or more (a) positions or contracts in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) cash deposits or cash borrowings and/or (d) other instruments, arrangements, assets or liabilities howsoever described, in order to hedge individually or on a portfolio basis, part or all of Societe Generale or any of its affiliates' obligations under the Notes due on an Intermediate Payment Date, apportioned pro rata to each outstanding Note.

Intermediate Payment Date means either an Interest Payment Date or an Instalment Date specified as such in the applicable Final Terms of the relevant Notes.

Local Jurisdiction has the meaning given to it in the Additional Terms and Conditions for Structured Notes.

Local Taxes has the meaning given to it in the Additional Terms and Conditions for Structured Notes.

Maturity Date means the date specified as such in the applicable Final Terms of the relevant Notes.

Optional Redemption Amount means the amount specified as such in the applicable Final Terms of the relevant Notes.

Optional Redemption Date means the date specified as such in the applicable Final Terms of the relevant Notes.

Optional Full Liquidation Date means, in respect of an Optional Redemption Date, the date on which the liquidation proceeds of the Optional Hedge Positions (including inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of such Optional Hedge Positions) are deemed, to be

fully received by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be, all as determined by the Calculation Agent.

Optional Hedge Positions means any purchase, sale, entry into or maintenance, by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be, of one or more (a) positions or contracts in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) cash deposits or cash borrowings and/or (d) other instruments, arrangements, assets or liabilities howsoever described, in order to hedge individually or on a portfolio basis, a part or all of Societe Generale or any of its affiliates' obligations under the Notes due on an Optional Redemption Date, apportioned pro rata to each outstanding Notes.

Relevant Spot Exchange Rate means in respect of a date and an amount to be converted into the Specified Currency, the rate of exchange of the currency in which such amount is denominated into the Specified Currency used to convert such amount on such date into the Specified Currency as determined by the Calculation Agent.

Tax Residence Jurisdiction has the meaning given to it in Condition 7.

7. TAXATION

7.1 Withholding taxes

All payments and deliveries in respect of Notes and, if applicable, under the Guarantee, shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any Tax Jurisdiction unless such withholding or deduction is required by law and/or if specified otherwise in the Terms and Conditions.

7.2 Gross-up

Unless the applicable Final Terms specify that (i) the Gross-up provision is not applicable or (ii) Early Redemption for the purpose of Condition 7.2 is not applicable, this Condition will apply.

If payments in respect of Notes or (if applicable) under the Guarantee, are subject under the legislation of any Tax Jurisdiction, to a withholding or a deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, the relevant Issuer or, as the case may be, the Guarantor shall, to the fullest extent permitted by law,

(i) if the Notes are not Eligible Notes, in respect of payments of interest (if any) and principal; or
(ii) if the Notes are Eligible Notes, in respect of payments of interest (if any) only,

pay such additional amount as may be necessary, in order that each Noteholder after such withholding or deduction, will receive (in the case of Notes falling within (i) above only) principal and (in the case of any Notes) interest (if any) due and payable provided that no such additional amount shall be payable with respect to any Note:

(1) the holder of which is liable to such taxes, duties, assessments or governmental charges in respect of such Note by reason of their being connected with Luxembourg (in the case of payments by SG Issuer) or France (in the case of payments by Societe Generale) other than by the mere holding of such Note; or
(2) presented for payment more than 30 days after the Relevant Date (as defined below), except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Business Day (as defined in Condition 5.12); or
(3) in respect of Exempt Offers, if the applicable Final Terms indicate that no such additional amounts shall be payable.

7.3. Left blank intentionally

7.4 U.S. Taxes

Notwithstanding any other provision of these General Terms and Conditions, in no event will the Issuer or the Guarantor be required to pay any additional amounts in respect of the Notes for, or on account of, any withholding or deduction (i) required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, or any official interpretations thereof, or any law implementing an intergovernmental approach thereto, (ii) imposed pursuant to the Section 871(m) Regulations or (iii) imposed by any other law of the United States. In addition, in determining the amount of Section 871(m) withholding imposed, the Issuer shall be entitled to withhold on any "dividend equivalent" (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

If the Issuer or the Guarantor determines that the Notes are Specified Notes pursuant to Section 871(m) Regulations, the applicable Final Terms will specify the withholding rate, the name of the entity which will withhold the rate and the e-mail address where the Noteholders can request additional information regarding the application of Section 871(m) Regulations.

With respect to Specified Notes that provide for net dividend reinvestment in respect of either an underlying U.S. security (i.e. a security that pays U.S. source dividends) or an index that includes U.S. securities, all payments on Notes that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are

reinvested at a rate of 70%. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer or the Guarantor will be deemed to withhold 30% of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer or the Guarantor will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

For the purpose of this Condition 7:

Relevant Date has the meaning given to it in Condition 8.

Section 871(m) Regulations means the U.S. Treasury regulations issued under Section 871(m) of the Code.

Specified Notes means, subject to special rules from 2017 through 2026 set out in Notice 2024-44 (the **Notice**), Notes issued on or after 1 January 2017 that substantially replicate the economic performance of one or more U.S. underlying equities as determined by the Issuer on the date for such Notes as of which the expected delta of the product is determined by the Issuer, based on tests set out in the applicable Section 871(m) Regulations (for the purposes of the Notice, such Notes are deemed "delta-one" instruments).

Tax Jurisdiction means either Luxembourg or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by SG Issuer), or France or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by Societe Generale).

8. PRESCRIPTION

Claims on Notes will become void unless claims in respect of principal and/or interest are made within a period of ten years (in the case of principal) and five years (in the case of interest) after the Relevant Date (as defined below) therefor.

The Luxembourg act dated 3 September 1996 on the involuntary dispossession of bearer securities, as amended (the **Involuntary Dispossession Act 1996**) requires that, in the event that (i) an opposition has been filed in relation to the Notes and (ii) the Notes mature prior to becoming forfeited (as provided for in the Involuntary Dispossession Act 1996), any amount that is payable under the Notes, (but has not yet been paid to the Noteholders) is paid to the *Caisse des consignations* in Luxembourg until the opposition has been withdrawn or the forfeiture of the Notes occurs.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition or Condition 5.3 or any Talon which would be void pursuant to Condition 5.3.

Relevant Date means the date on which the relevant payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Principal Paying Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 13.

9. EVENTS OF DEFAULT

9.1 With respect to Notes other than Eligible Notes

Upon the occurrence of any of the following events (each an **Event of Default**):

(1) default by the Issuer is made in the payment or delivery of any amount due in respect of the Notes and such default continues for a period of 30 days, unless the Guarantor (if any) shall have remedied such default before the expiry of such period, and save that the late delivery of any Deliverable Assets in the circumstances referred to in Condition 5 shall not constitute an Event of Default; or

(2) the Issuer fails to perform or observe any of its other obligations under or in respect of the Notes and the failure continues for a period of 60 days next following the service on the Issuer and (if applicable) the Guarantor of a notice requiring the same to be remedied (except in any case where such failure is incapable of remedy, by the Issuer or the Guarantor, in which case no such continuation here above mentioned will be required); or

(3) the Issuer institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or the jurisdiction of its head office, or the Issuer consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or the Issuer consents to a petition for its winding-up or liquidation by it or by such regulator, supervisor or similar official, provided that proceedings instituted or petitions presented by creditors and not consented to by the Issuer shall not constitute an Event of Default; or

(4) in the case of any Notes in respect of which the Guarantee is applicable, the Guarantee ceases to be in full force and effect in respect of such Notes, or notice is given by the Guarantor which would cause the Guarantee to cease to be in full force and effect in respect of such Notes, or is rendered void for any cause or by any means whatsoever except if the same results from the occurrence of a Change in Law which constitutes a Regulatory Event as provided for in Condition 6.2; or

(5) in the case of Secured Notes issued by SG Issuer, a Required Collateral Default Notice is delivered in relation to a Collateral Pool securing such Secured Notes; then

The Noteholder may give written notice, for Notes issued by SG Issuer or Societe Generale, to the relevant Issuer and the Guarantor (if any) that the Notes are, and they shall accordingly forthwith become, immediately due and repayable at their Early Redemption Amount, together with, if appropriate and subject as otherwise provided herein, interest accrued to the date of repayment.

9.2 With respect to Eligible Notes

Events of Default shall not apply to Eligible Notes and accordingly Noteholders of such Notes and/or the holders of any related Coupons will not be able to accelerate the term of their Eligible Notes and/or any related Coupons.

In any case, if any judgment shall be issued for the judicial liquidation (*liquidation judiciaire*) of Societe Generale or if Societe Generale is liquidated for any other reason, the Eligible Notes shall become immediately due and payable:

- with respect to Eligible Non Structured Notes at their principal amount together with any accrued interest thereon to the date of payment, without any further formality; or

- with respect to Eligible Structured Notes, at the amount to be taken into account for the purposes of Article R 613-46-1-III-2° of the Code. This amount shall be fixed or increasing and does not exceed the initially paid-up amount of the liability, without any further formality.

The holders of Eligible Notes and, where applicable, any related Coupons shall be responsible for taking all necessary steps for the orderly accomplishment of any such liquidation of Societe Generale in relation to any claims they may have against it.

10. REPLACEMENT OF NOTES, RECEIPTS, COUPONS AND TALONS

Should any Temporary Global Certificate or Definitive Materialised Bearer Notes or (in the case of any Definitive Materialised Bearer Note) Receipt, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Principal Paying Agent, subject to relevant stock exchange requirements and all applicable laws and regulations, upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, *inter alia*, that if any allegedly lost, stolen or destroyed Temporary Global Certificate or Definitive Materialised Bearer Note is subsequently presented for payment or, as the case may be, for exchange for further Coupons, there shall be paid to the Issuer and/or the Guarantor on demand the amount payable by the Issuer and/or the Guarantor in respect of such Definitive Materialised Bearer Notes and otherwise as the Issuer or, if applicable, the Guarantor, may reasonably require. Mutilated or defaced Definitive Materialised Bearer Notes, Receipts, Coupons or Talons must be surrendered before replacements will be issued. The replacement of Notes in bearer form and receipts, coupons and talons relating to Notes in bearer form, in the case of loss or theft, is subject to the procedure of the Involuntary Dispossession Act 1996.

11. APPOINTMENT OF AGENTS

11.1 Agents

The names of the initial Principal Paying Agent, the initial Registrar and the other initial Paying Agent(s) and their initial specified offices are set out below and the name(s) and the specified office of the Calculation Agent(s) are specified in the applicable Final Terms.

In addition, the Principal Paying Agent may, (if so specified in the applicable Final Terms) delegate certain of its functions and duties in relation to Physical Delivery Notes to a settlement agent (the **Settlement Agent**).

In relation to Dematerialised or Materialised Notes and any other Notes listed on SIX Swiss Exchange, the Issuer will maintain a Principal Swiss Paying Agent having a specified office in Switzerland (which shall at all times be a bank or securities dealer that is subject to supervision by FINMA) whose duties will be set out in the Swiss Paying Agency Agreement, and the Issuer will at all time maintain a Paying Agent in respect of CHF-denominated Notes having a specified office in Switzerland. Any reference in these Conditions to the **Principal Paying Agent** shall so far as the context permits be deemed to be a reference to the Principal Swiss Paying Agent.

The Issuer and (if applicable) the Guarantor are entitled to vary or terminate the appointment of any Paying Agent or Settlement Agent and/or appoint additional or other Paying Agents or Settlement Agents and/or approve any change in the specified office through which any Paying Agent or Settlement Agent acts, provided that:

(1) so long as the Notes are listed on any stock exchange or admitted to trading or listing by another relevant authority, there will at all times be a Paying Agent (which may be the Principal Paying Agent) and a Transfer Agent (which may be the Registrar) with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange; and

(2) there will at all times be a Paying Agent (which may be the Principal Paying Agent) with a specified office in a city in Europe (excluding Austria); and

(3) there will be one or more Calculation Agent(s) where the Terms and Conditions so require; and

(4) there will at all times be a Principal Paying Agent and, in case of Dematerialised Notes in fully registered form, a Registrar.

In acting under the French Law Agency Agreement, the Paying Agents act solely as agents of the Issuer and, if applicable, the Guarantor, and do not assume any obligation to, or relationship of agency or trust with, any Noteholders. The French Law Agency Agreement contains provisions permitting any entity into which any Paying Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor paying agent.

11.2 Calculation Agent

In connection with any Notes, if the calculation agent specified in the applicable Final Terms (the **Calculation Agent**) is:

- Societe Generale, such appointment will be governed by the terms of the calculation agency agreement (the **Calculation Agency Agreement**); or
- any entity other than Societe Generale, the terms of such appointment will be summarised in the applicable Final Terms.

12. SUBSTITUTION OF THE ISSUER

Unless the applicable Final Terms specify that "Substitution of the Issuer" is "Not Applicable", this Condition will apply.

Societe Generale or SG Issuer, may be replaced by each other as principal obligor in respect of the Notes without the consent of the relevant Noteholders. If any of Societe Generale or SG Issuer determines that it shall be replaced by one another (the **Substituted Obligor**), it shall give not less than 30 nor more than 45 days' notice, in accordance with Condition13, to the Noteholders of such event and, immediately on the expiry of such notice, the Substituted Obligor shall become the principal obligor in place of the relevant Issuer and the Noteholders shall thereupon cease to have any rights or claims whatsoever against the relevant Issuer. However, no such substitution shall take effect:

(1) if the effect of such substitution would, at the time of such substitution, be that payments in respect of the Notes would be required to be made subject to any withholding or deduction which would not otherwise arise in the absence of such substitution;

(2) if the Substituted Obligor is not Societe Generale, until Societe Generale shall have entered into an unconditional and irrevocable guarantee substantially in the form of the Guarantee in respect of the obligations of such Substituted Obligor;

(3) in any case, until the Substituted Obligor shall have provided to the Principal Paying Agent such documents as may be necessary to make the Notes and the French Law Agency Agreement its legal, valid and binding obligations; and

(4) if required by any applicable law or regulation, until such Substituted Obligor shall have been approved in writing by the relevant authorities as able to issue the relevant Notes.

Upon any such substitution, the Notes will be modified as required, and the Noteholders will be notified of the modified terms and conditions of such Notes in accordance with Condition 13.

For the purposes of this Condition, it is expressly agreed that by subscribing to, acquiring or otherwise purchasing Notes, the Noteholders are expressly deemed to have consented to the substitution of the relevant Issuer by the Substituted Obligor and to the release of the relevant Issuer from any and all obligations in respect of the Notes and all the agreements attached thereto and are expressly deemed to have accepted such substitution and the consequences thereof.

In respect of ECF Notes, in addition to the other criteria set forth above, the substitution shall be subject to Euroclear France having confirmed that following the proposed substitution, the Notes will continue to be incorporated and registered in their book-entry system in accordance with the rules applicable to Euroclear France.

13. NOTICES

13.1 Notices regarding Notes other than Notes listed on SIX Swiss Exchange

13.1.1 Subject as provided in Condition 13.1.4, all notices regarding Notes shall be deemed to be validly given if published in a leading daily newspaper of general circulation in Europe provided that so long as such Notes are listed on any Regulated Market or stock exchange(s) or are admitted to trading by a relevant authority the Issuer shall instead ensure that notices are duly published in a manner which complies with the rules and regulations of such Regulated Market, stock exchange(s) or relevant authority.

Any such notice will be deemed to have been given (i) on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspaper(s) (which, in the case of the Luxembourg Stock Exchange, is expected to be the *Luxemburger Wort* (or the*Tageblatt*)) or (ii) in the case of publication on a website, on the date on which such notice is first posted on the relevant website (which, in the case of the Luxembourg Stock Exchange, shall be www.luxse.com).

13.1.2 Subject as provided in Condition 13.1.3 and Condition 13.1.4, all notices to the holders of Dematerialised Notes in registered form (*au nominatif*) shall be deemed to be validly given if either, (i) they are mailed to them at their respective addresses, in which case they will be deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the mailing, or (ii) at the option of the Issuer, they are published in accordance with Condition 13.1.1 above.

13.1.3 Subject as provided in Condition 13.1.4, all notices to the holders of Dematerialised Notes (whether in registered or in bearer form) may, instead of being mailed to the holders pursuant to Condition 13.1.2 or published pursuant to Condition 13.1.1, be given by delivery of the relevant notice to the relevant Clearing System through which the Notes are for the time being cleared except that (i) so long as such Notes are listed on any regulated market or stock exchange(s) or are admitted to trading by a relevant authority and the applicable rules to that stock exchange or regulated market or relevant authority so require, notices shall also be published in a daily financial newspaper with general circulation in the city/ies where the regulated market or other stock exchange(s) on which such Notes are listed.

13.1.4 If any such publication pursuant to this Condition is not practicable, notice shall be validly given if published in a leading daily financial newspaper with general circulation in Europe. Any such notice shall be deemed to have been given on the date of the publication on the relevant newspaper or, if published more than once or on different dates, on the date of the first publication on the relevant newspaper.

13.1.5 Notices relating to the convening and decision(s) pursuant to Condition16 and pursuant to Articles R. 228-79 and R. 236-11 of the French *Code de commerce* shall only be delivered to Euroclear France, Euroclear, Clearstream and any other clearing system through which the Notes are for the time being cleared. For the avoidance of doubt, Conditions 13.1.1, 13.1.2, 13.1.3 and 13.1.4 shall not apply to such notices.

13.2 Notices regarding Notes listed on SIX Swiss Exchange

13.2.1 So long as Notes are listed on SIX Swiss Exchange and so long as the rules of SIX Swiss Exchange so require, all notices in respect of such Notes will be given without cost to the Noteholders through the Principal Swiss Paying Agent either:

(1) by means of electronic publication on the internet website of SIX Swiss Exchange (http://www.six-swiss-exchange.com), where notices are currently published under the address https://www.six-group.com/en/products-services/the-swiss-stock-exchange/market-data/news-tools/official-notices.html#/ (SIX Group); or

(2) otherwise in accordance with the regulations of SIX Swiss Exchange.

13.2.2 If any such publication pursuant to this Condition is not practicable, notice shall be validly given if published in a leading daily financial newspaper with general circulation in Europe. Any such notice shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the date of the first publication as provided above.

14. FURTHER ISSUES AND CONSOLIDATION - SUBSCRIPTION AND PURCHASES - CANCELLATION

14.1 Further Issues

The Issuer may from time to time, without the consent of the Noteholders create and issue further Notes ranking *pari passu* in all respects and on the same Terms and Conditions (save for their Issue Date, Interest Commencement Date, Issue Price and/or the amount and date of the first payment of interest thereon), and so that the same shall be consolidated and form a single series with the outstanding Notes.

14.2 Consolidation

If the applicable Final Terms specify that clause "Consolidation" is "Applicable", the Issuer may from time to time (i) on any Interest Payment Date occurring on or after the date specified for a redenomination of the Notes pursuant to Condition 1.5, on giving not less than 30 days' prior notice to the Noteholders in accordance with Condition 13, without the consent of Noteholders, consolidate the Notes with one or more issues of other Notes issued by it, whether or not originally issued in one of the European national currencies or in Euro, provided such other Notes have been redenominated or changed in Euro (if not originally denominated or payable in Euro) and which otherwise have, in respect of all periods subsequent to such consolidation, the same terms and conditions as the Notes.

The provisions of this Condition 14 shall not apply to Preference Share Linked Notes or Warrant Linked Notes.

14.3 Subscriptions and Purchases

The Issuer or (if applicable) the Guarantor shall have the right to subscribe and/or to purchase Notes (provided that, in the case of Definitive Bearer Notes, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased (in the case of Preference Share Linked Notes or Warrant Linked Notes, by the Issuer) therewith) at any price in the open market or otherwise, in accordance with applicable laws and regulations.

In respect of Eligible Notes, any such purchase shall be subject to the prior written permission of the Relevant Resolution Authority and held in accordance with applicable law.

14.4 Cancellation

All Notes purchased for cancellation by or on behalf of the Issuer will forthwith be cancelled (together with, in the case of Definitive Bearer Notes, all unmatured Receipts, Coupons and Talons appertaining thereto or surrendered therewith). All Notes purchased and cancelled (together with, in the case of Definitive Bearer Notes, all unmatured Receipts, Coupons and Talons cancelled therewith)

shall be forwarded to the Principal Paying Agent (or, in the case of Registered Notes, the Registrar) and cannot be reissued or resold and the obligations of the Issuer in respect of any such Notes shall be discharged.

In respect of Eligible Notes, any such cancellation shall be subject to the prior written permission of the Relevant Resolution Authority.

15. CALCULATIONS AND DETERMINATIONS - ADJUSTMENTS AND DISRUPTION

With respect to a Type of Structured Notes (as specified in the applicable Final Terms) to which the relevant Additional Terms and Conditions for Structured Notes apply, the Calculation Agent responsible for determining and calculating any rate, rate of interest, interest payable and any amount payable shall be the Calculation Agent specified in the applicable Final Terms (pursuant to the provisions of Condition 11).

Whenever a Calculation Agent is required to make any calculations, determinations, adjustments or act in any way (and unless otherwise provided herein), it will do so in good faith and in a commercially reasonable manner.

The calculations and determinations of the Calculation Agent will be conclusive and binding upon the Issuer, the Guarantor (if any), the Agent, the Noteholders, in the absence of manifest error or proven error.

Following the occurrence of an event giving rise to an adjustment which is substantial in the opinion of the Calculation Agent or of an extraordinary event affecting, in respect of the relevant Additional Terms and Conditions for Structured Notes (i): a relevant Underlying and/or (ii) a Selected Obligation or a Deliverable Obligation, and/or (iii) a Bond, the Calculation Agent shall notify the Issuer, which shall in its turn notify the Agent and the Noteholders, pursuant to the provisions of Condition 13, of the relevant adjustment made or decision taken by the Calculation Agent. Details of such adjustment made or decision taken can be obtained by the Noteholders upon request at the Calculation Agent's address specified in the applicable Final Terms.

For the avoidance of doubt, in case of Credit Linked Notes and, pursuant to Successor definition (in Condition 2 of the Additional Terms and Conditions for Credit Linked Notes), when the Successor determinations of the Calculation Agent follow the relevant index source determinations, there will be no related notification sent by the Calculation Agent.

16. MEETINGS OF NOTEHOLDERS

In respect of meetings of, and votings by, the Noteholders, the following definitions shall apply:

(A) references to a **General Meeting** are to a general meeting of Noteholders of all Tranches of a single Series of Notes and include, unless the context otherwise requires, any adjourned meeting thereof;

(B) references to **Notes** and **Noteholders** are only to the Notes of the Series in respect of which a General Meeting has been, or is to be, called, and to the Notes of the Series in respect of which a Written Resolution has been, or is to be sought, and to the holders of those Notes, respectively;

(C) **outstanding** means, in relation to the Notes of any Series, all the Notes issued other than:
(i) those Notes which have been purchased or redeemed and cancelled;

(ii) those Notes in respect of which the date for redemption has occurred and the redemption moneys (including all interest (if any) accrued to the date for redemption and any interest (if any) payable after that date) have been duly paid to or to the order of the Principal Paying Agent (and where appropriate notice to that effect has been given to the Noteholders) and remain available for payment against presentation of the relevant Notes and/or Coupons, as the case may be;

(iii) those mutilated or defaced Materialised Notes which have been surrendered and cancelled and in respect of which replacements have been issued;

(iv) those Materialised Notes which are alleged to have been lost, stolen or destroyed and in respect of which replacements have been issued; and

(v) any Temporary Global Certificate to the extent that it has been exchanged for Definitive Materialised Bearer Notes;

provided that for the right to attend and vote at any General Meeting those Notes (if any) which are for the time being held by any person (including but not limited to the Issuer or any of its subsidiaries) for the benefit of the Issuer or any of its subsidiaries and not cancelled shall (unless and until ceasing to be so held) be deemed not to be outstanding;

(D) **Resolution** means a resolution on any of the matters described in this Condition passed (x) at a General Meeting in accordance with the quorum and voting rules described herein or (y) by a Written Resolution (including by way of Electronic Consent); and

(E) For the purposes of calculating a period of **clear days**, no account shall be taken of the day on which a period commences or the day on which a period ends.

16.1 Contractual representation of Noteholders/No *Masse*

In respect of Notes with an initial denomination of, or which can only be traded in amounts of, at least €100,000 or its equivalent in other currencies at the time of issue, and if the applicable Final Terms specify "No *Masse*", the following meeting and voting provisions shall apply:

(i) General

Pursuant to Article L.213-6-3 I of the Code, (a) the Noteholders shall not be grouped in a *masse* having separate legal personality and acting in part through a representative of the noteholders (*représentant de la masse*) and in part through general meetings; however, (b) the provisions of the French *Code de commerce* relating to general meetings of noteholders shall apply subject to the following:

(A) Whenever the words "*de la masse*", "*d'une même masse*", "*par les représentants de la masse*", "*d'une masse*", "*et au représentant de la masse*", "*de la masse intéressée*", "*composant la masse*", "*de la masse à laquelle il appartient*", "*dont la masse est convoquée en assemblée*" or "*par un représentant de la masse*", appear in the provisions of the French *Code de commerce* relating to general meetings of noteholders, they shall be deemed to be deleted; and

(B) General Meetings will be governed by the provisions of the French *Code de commerce*, with the exception of Article L.228-65 and all other Articles which are ancillary or consequential to such Article, the second paragraph of Article L.228-68, the second sentence of the first paragraph and the second paragraph of Article L. 228-71, Article R.228-69, Article R.236-9 of the French *Code de commerce* and subject to the following provisions:

(ii) Powers of General Meetings

A General Meeting shall have power:

(A) to approve any compromise or arrangement proposed to be made between the Issuer and the Noteholders or any of them;

(B) to approve any abrogation, modification, compromise or arrangement in respect of the rights of the Noteholders against the Issuer or against any of its or their property whether these rights arise under the Notes or otherwise;

(C) to agree to any modification of the Conditions or the Notes which is proposed by the Issuer;

(D) to authorize anyone to concur in and do anything necessary to carry out and give effect to a Resolution;

(E) to give any authority or approval which is required to be given by Resolution;

(F) to appoint any persons (whether Noteholders or not) as a committee or committees to represent the interests of the Noteholders and to confer upon any committee or committees any powers or discretions which the Noteholders could themselves exercise by Resolution provided that (a) persons who are connected with the Issuer within the meaning of Articles L.228-49 and L.228-62 of the French *Code de commerce* and (b) persons to whom the practice of banker is forbidden or who have been deprived of the right of directing, administering or managing an enterprise in whatever capacity may not be so appointed;

(G) to deliberate on any proposal, whether for arbitration or settlement, relating to rights in controversy or which were the subject of judicial decisions;

(H) to approve any scheme or proposal for the exchange or sale of the Notes for, or the conversion of the Notes into, or the cancellation of the Notes in consideration of, shares, stock, notes, bonds, debentures, debenture stock and/or other obligations and/or securities of the Issuer or any other company formed or to be formed, or for or into or in consideration of cash, or partly for or into or in consideration of shares, stock, notes, bonds, debentures, debenture stock and/or other obligations and/or securities as stated above and partly for or into or in consideration of cash;

(I) to approve the substitution of any entity in place of the Issuer (or any previous substitute) as the principal debtor in respect of the Notes other than a substitution of the Issuer pursuant to Condition 12;

(J) to appoint a nominee to represent the Noteholders' interests in the context of the insolvency or bankruptcy of the Issuer and more particularly file a proof of claim in the name of all Noteholders in the event of judicial reorganisation procedure or judicial liquidation of the Issuer. Pursuant to Article L.228-85 of the French *Code de commerce*, in the absence of such appointment of a nominee, the judicial representative (*mandataire judiciaire*), at its own initiative or at the request of any Noteholder will ask the court to appoint a representative of the Noteholders who will file the proof of Noteholders' claim; and

(K) to deliberate on any other matter that relates to the common rights, actions and benefits which now or in the future may accrue with respect to the Notes.

It being specified, however, that a General Meeting may not establish any unequal treatment between the Noteholders, and that the above provisions (in particular under (H) above) are without prejudice to the powers of the *Autorité de Contrôle Prudentiel et de Résolution*, the Single Resolution Board established pursuant to Regulation (EU) No 806/2014, or any other authority having resolution powers over the Issuer, and in addition, in respect of Eligible Notes, any proposed modification of any provision of the Notes can only be effected subject to the prior written permission of the Relevant Resolution Authority,

provided that the special quorum provisions in paragraph (vii) shall apply to any Resolution (a **Special Quorum Resolution**) for the purpose of making a modification to the Notes which would have the effect of:

(a) modify the Maturity Date of the Notes or reduction or cancellation of the nominal amount payable at maturity; or

(b) reduce or cancel the amount payable or modify the payment date in respect of any interest in respect of the Notes or vary the method of calculating the rate of interest in respect of the Notes; or

(c) reduce any Minimum Rate of Interest and/or Maximum Rate of Interest specified in the applicable Final Terms; or

(d) modify the currency in which payments under the Notes are to be made; or

(e) modify the majority required to pass a Resolution; or

(f) sanctioning any scheme or proposal described in paragraph (H) above; or

(g) alter this proviso.

For the avoidance of doubt a General Meeting has no power to decide on:

(x) the potential merger (*fusion*) or demerger (*scission*) including partial transfers of assets (*apports partiels d'actif*) of or by the Issuer;

(y) the transfer of the registered office of a European Company (*Societas Europaea* – SE) to a different Member State of the European Union; or

(z) the decrease of the share capital of the Issuer for reasons other than to compensate losses suffered by the Issuer.

However, each Noteholder is a creditor of the Issuer and as such enjoys, pursuant to Article L.213-6-3 IV of the Code, all the rights and prerogatives of individual creditors in the circumstances described under (x) to (z) above, including the right to object (*former opposition*) to the transactions described under (x) to (z).

(iii) Convening of a General Meeting

A General Meeting may be held at any time on convocation by the Issuer. One or more Noteholders, holding together at least one tenth of the principal amount of the Notes outstanding, may address to the Issuer a demand for convocation of the General Meeting. If such General Meeting has not been convened within seven (7) calendar days after such demand, the Noteholders may commission one of their members to petition a competent court in Paris to appoint an agent (*mandataire*) who will call the General Meeting and determine its agenda.

Notice of the date, hour, place and agenda of any General Meeting will be given in accordance with Condition 13 not less than twenty-one (21) calendar days prior to the date of such General Meeting.

(iv) Arrangements for Voting

Each Noteholder has the right to participate in a General Meeting in person, by proxy or, in the case of Dematerialised Notes only, by correspondence or by videoconference or by any other means of telecommunication allowing the identification of participating Noteholders as provided *mutatis mutandis* by Article R.225-97 of the French *Code de commerce* (upon referral of Article R.228-68 of the French *Code de commerce*).

Each Note carries the right to one vote.

In accordance with Article R.228-71 of the French *Code de commerce*, the right of each holder of a Dematerialised Note to participate in General Meetings will be evidenced by the entries in the books of the relevant Account Holder of the name of such Noteholder as of 0:00, Paris time, on the second business day in Paris preceding the date set for the meeting of the relevant General Meeting.

(v) Chairman

The Noteholders present at a General Meeting shall choose one of their members to be chairman (the "**Chairman**") by a simple majority of votes present or represented at such General Meeting (notwithstanding the absence of any quorum at the time of such vote). If the Noteholders fail to designate a Chairman, the Noteholder holding or representing the highest number of Notes and present at such meeting shall be appointed Chairman, failing which the Issuer may appoint a Chairman. The Chairman of an adjourned meeting need not be the same person as the Chairman of the meeting from which the adjournment took place.

(vi) Quorum, Adjournment and Voting

The quorum at any meeting for passing a Resolution shall be one or more Noteholders present and holding or representing in the aggregate not less than one twentieth in nominal amount of the Notes for the time being outstanding provided that at any meeting the business of which includes any Special Quorum Resolution, the quorum shall be one or more Noteholders present and holding or representing in the aggregate not less than two-thirds in nominal amount of the Notes for the time being outstanding.

If within 15 minutes (or such longer period not exceeding 30 minutes as the Chairman may decide) after the time appointed for any meeting a quorum is not present for the transaction of any particular business, then, subject and without prejudice to the transaction of the business (if any) for which a quorum is present, the meeting shall if convened by Noteholders be dissolved. In any other case, it shall be adjourned for a period being not less than 14 clear days nor more than 42 clear days and at a place appointed by the Chairman and approved by the Principal Paying Agent. If within 15 minutes (or a longer period not exceeding 30 minutes as the Chairman may decide) after the time appointed for any adjourned meeting a quorum is not present for the transaction of any particular business, then, subject and without prejudice to the transaction of the business (if any) for which a quorum is present, the Chairman may either dissolve the meeting or adjourn it for a period, being not less than 14 clear days (but without any maximum number of clear days) and to a place as may be appointed by the Chairman (either at or after the adjourned meeting) and approved by the Principal Paying Agent, and the provisions of this sentence shall apply to all further adjourned meetings.

At any adjourned meeting one or more Noteholders present (whatever the nominal amount of the Notes so held or represented by them) shall (subject as provided below) form a quorum and shall (subject as provided below) have power to pass any Resolution, any Special Quorum Resolution or other resolution and to decide upon all matters which could properly have been dealt with at the meeting from which the adjournment took place had the required quorum been present.

Notice of any adjourned meeting shall be given in accordance with Condition 13 but not less than ten (10) clear days prior to the date of a General Meeting for the approval of a Resolution other than a Special Quorum Resolution and not less than twenty-one (21) clear days prior to the date of a meeting for the approval of a Special Quorum Resolution and the notice shall state the relevant quorum.

Decisions at meetings shall be taken by a majority of the votes cast by Noteholders attending or represented at such General Meetings for the approval of a Resolution other than a Special Quorum Resolution and by 75 per cent. of the votes cast by Noteholders attending or represented at such General Meetings for the approval of a Special Quorum Resolution.

(vii) Written Resolutions and Electronic Consent

Pursuant to Article L.228-46-1 of the French *Code de commerce*, but in respect of any Series of Dematerialised Notes only, the Issuer shall be entitled, instead of the holding of a General Meeting, to seek approval of a Resolution from the Noteholders by way of a Written Resolution. Subject to the following sentence, a Written Resolution may be contained in one document or in several documents in like form, each signed by or on behalf of one or more of the Noteholders. Pursuant to Article L.228-46-1 of the French *Code de commerce*, approval of a Written Resolution may also be given by way of electronic communication allowing the identification of Noteholders (**Electronic Consent**).

Notice seeking the approval of a Written Resolution (including by way of Electronic Consent) will be given in accordance with Condition 13 not less than fifteen (15) calendar days prior to the date fixed for the passing of such Written Resolution (the **Written Resolution Date**). Notices seeking the approval of a Written Resolution will contain the conditions of form and time-limits to be complied with by the Noteholders who wish to express their approval or rejection of such proposed Written Resolution. Noteholders expressing their approval or rejection before the Written Resolution Date will undertake not to dispose of their Notes until after the Written Resolution Date.

For the purpose hereof, a **Written Resolution** means a resolution in writing signed or approved by or on behalf of the Noteholders of not less than 90 per cent. in nominal amount of the Notes outstanding.

(viii) Effect of Resolutions

A Resolution passed at a General Meeting, a Written Resolution or an Electronic Consent, shall be binding on all Noteholders, whether or not present at the General Meeting and whether or not, in the case of a Written Resolution or an Electronic Consent, they have participated in such Written Resolution or Electronic Consent and each of them shall be bound to give effect to the Resolution accordingly. In addition, in respect of Eligible Notes, any proposed modification of any provision of the Notes can only be effected subject to the prior written permission of the Relevant Resolution Authority,

16.2 Full Masse

If the applicable Final Terms specify "Full *Masse*", or if the applicable Final Terms specify that " No Representative of the Masse is designated on the Issue Date of the Notes", upon designation of the Representative of the Masse, the Noteholders will, in respect of all Tranches in any Series, be grouped automatically for the defence of their common interests in a *masse* (in each case, the ***Masse***).

(i) Legal Personality

The Masse will be a separate legal entity and will act in part through a representative of the *Masse* (the **Representative**) and in part through a general meeting of the Noteholders (a **General Meeting**). The provisions of the French *Code de commerce* relating to the *Masse* shall apply, as completed by, and subject to, the provisions of this paragraph (b).

(ii) Representative of the Masse

Pursuant to Article L.228-51 of the French *Code de commerce*, the Representative will be DIIS Group, Société par actions simplifiée, 12 rue Vivienne, 75002 Paris, FRANCE or any other Representative as set out in the applicable Final Terms. The Representative appointed in respect of the first Tranche of any Series of Notes will be the Representative of the single *Masse* of all Tranches in such Series.

In the event of death, liquidation, retirement, dissolution or revocation of appointment of the Representative, such Representative will be replaced by another Representative. In the event of the death, liquidation, retirement, dissolution or revocation of appointment of the alternate Representative, an alternate will be elected by the General Meeting.

All interested parties will at all times have the right to obtain the names and addresses of the initial Representative and the alternate Representative at the head office of the Issuer and the specified offices of any of the Paying Agents.

(iii) General Meetings

In accordance with Article R. 228-71 of the French *Code de commerce*, the right of each holder of a Dematerialised Note to participate in General Meetings will be evidenced by the entries in the books of the relevant Account Holder of the name of such Noteholder as of 0:00, Paris time, on the second business day in Paris preceding the date set for the meeting of the relevant General Meeting.

In accordance with Articles L.228-59 and R.228-67 of the French *Code de commerce*, notice of date, hour, place and agenda of any General Meeting will be given in accordance with Condition 13 not less than fifteen (15) calendar days prior to the date of such General Meeting on first convocation, and five (5) calendar days on second convocation.

Each Noteholder has the right to participate in a General Meeting in person, by proxy, by correspondence and, in accordance with Article L.228-61 of the French *Code de commerce*, in the case of Dematerialised Notes only, by videoconference or by any other means of telecommunication allowing the identification of participating Noteholders, as provided *mutatis mutandis* by Article R.225-97 of the French *Code de commerce* (upon referral of Article R.228-68 of the French *Code de commerce*).

Each Note carries the right to one vote.

Decisions relating to General Meetings and Written Resolutions once approved will be published in accordance with Condition 13.

In addition, in respect of Eligible Notes, any proposed modification of any provision of the Notes can only be effected subject to the prior written permission of the Relevant Resolution Authority.

(iv) Written Resolutions and Electronic Consent

Condition 16.1(vii) is deemed reproduced here.

16.3 Contractual Masse

If the applicable Final Terms specify "Contractual *Masse*", and unless the applicable Final Terms specify that " No Representative of the Masse is designated on the Issue Date of the Notes", the Noteholders will, in respect of all Tranches in any Series, be grouped automatically for the defence of their common interests in a masse (in each case, the ***Masse***).

The *Masse* will be governed by the provisions of the French *Code de commerce* with the exception, pursuant to Article L.228-90 of the French *Code de commerce*, of Article L.228-48, sub-paragraphs 1°, 3°, 4° and 6° of I of Article L.228-65, the second sentence of the first paragraph of Article L.228-71 and Articles R.228-63 and R.228-69, and subject to the following provisions:

(i) Legal Personality

The *Masse* will be a separate legal entity and will act in part through a representative (the **Representative**) and in part through a general meeting of the Noteholders (the **General Meeting**).

(ii) Representative of the Masse

Condition 16.2(ii) is deemed to be reproduced here.

(iii) General Meetings

Condition 16.2(iii) is deemed to be reproduced here, except for the last sentence of the last paragraph which is not applicable.

(iv) Written Resolutions and Electronic Consent

Condition 16.1 (vii) is deemed to be reproduced here.

16.4 Information to Noteholders

Each Noteholder or (if there is one) the Representative thereof will have the right, during the fifteen (15) calendar day period preceding the day of each General Meeting, and, in the case of an adjourned General Meeting or a Written Resolution, the five (5) calendar days period preceding the holding of such General Meeting or the Written Resolution Date, as the case may be, to consult or make a copy of the text of the Resolutions which will be proposed and of the reports prepared in connection with such Resolutions, all of which will be available for inspection by the relevant Noteholders at the registered office of the Issuer, at the specified offices of any of the Paying Agents and at any other place specified in the notice of the General Meeting or Written Resolution.

16.5 Expenses

The Issuer will pay all expenses relating to the operation of the *Masse*, the calling and holding of General Meetings and seeking of a Written Resolution and, more generally, all administrative expenses resolved upon by the General Meeting or in writing by the Noteholders, it being expressly stipulated that, where the applicable Final Terms specify "No *Masse*" or "Contractual *Masse*", no expenses may be imputed against interest payable under the Notes.

16.6 Single Masse

Whether the applicable Final Terms specify "Full *Masse*" or "Contractual *Masse*", the Noteholders of the same Series, and the holders of Notes of any other Series which have been consolidated (*assimilées* for the purposes of French law) with the Notes of such first mentioned Series in accordance with Condition 14, shall, for the defence of their respective common interests, be grouped in a single *Masse*. The Representative appointed in respect of the first Tranche of any Series of Notes issued will be the Representative of the single *Masse* of all such Series.

16.7 Sole Noteholder

Whether the relevant Final Terms specify "Full *Masse*" or "Contractual *Masse*", if and for so long as the Notes of any Series are held by a sole Noteholder and unless a Representative has been appointed in relation to such Series, such Noteholder shall exercise all powers, rights and obligations entrusted to the Representative and to the General Meeting by the provisions of the French *Code de Commerce*. The Issuer shall hold a register of the decisions taken by the sole Noteholder and shall make them available, upon request, to any subsequent holder of all or part of the Notes of such Series. For the avoidance of doubt, if a Representative has been appointed while the Notes of any Series are held by a sole Noteholder, such Representative shall exercise all powers, rights and obligations entrusted to the Representative.

16.8 Miscellaneous

In accordance with Article L.213-6-3 V of the Code, the Issuer has the right to amend the Terms and Conditions of the Notes with an initial denomination of, or which can only be traded in amounts of, at least €100,000, without having to obtain the prior approval of the Noteholders, in order to correct a mistake which is of a formal, minor or technical nature.

In respect of SG Issuer only, the provisions of articles 470-1 to 470-19 of the Luxembourg act dated 10 August 1915 on commercial companies, as amended (the **Companies Act 1915**), shall not apply to the Notes. No holder of Notes may initiate proceedings against SG Issuer based on article 470-21 of the Companies Act 1915.
For the avoidance of doubt, in this Condition, "outstanding" (as such term is defined in the French Law Agency Agreement) shall not include those Notes purchased by the Issuer pursuant to Article L.213-0-1 of the Code that are held by it and not cancelled.

17. SUSPENSION OF TRADING AND DELISTING OF NOTES

Notes that are listed on any regulated market or stock exchange(s) or admitted to trading by a relevant authority may be suspended from trading and/or delisted at any time in accordance with applicable rules and regulations of the relevant regulated market or relevant stock exchange(s).

In addition, the Principal Paying Agent, the Issuer and the Guarantor (if any) may agree at any time and without any further consent from the Noteholders to delist Notes listed on the SIX Swiss Exchange by giving notice to the Noteholders in accordance with Condition 13 at least three months prior to the last trading day stating that such Notes will be delisted from the SIX Swiss Exchange and no longer traded on the SIX Swiss Exchange.

18. WAIVER OF SET-OFF

No holder of any Note may at any time exercise or claim any Waived Set-Off Rights against any right, claim, or liability which the Issuer has or may have or acquire against such holder, directly or indirectly, howsoever arising (and, for the avoidance of doubt, including all such rights, claims and liabilities arising under or in relation to any and all agreements or other instruments of any sort or any non-contractual obligations, in each case whether or not relating to the Notes) and each such holder shall be deemed to have waived all Waived Set-Off Rights to the fullest extent permitted by applicable law in relation to all such actual and potential rights, claims and liabilities.

For the avoidance of doubt, nothing in this Condition is intended to provide or shall be construed as acknowledging any right of deduction, set-off, netting, compensation, retention or counterclaim or that any such right is or would be available to any holder of any Note but for this Condition.

For the purposes of this Condition, **Waived Set-Off Rights** means any and all rights of or claims of any holder of any Note for deduction, set-off, netting, compensation, retention or counterclaim arising directly or indirectly under or in connection with any such Note.

19. LIMITED RECOURSE AGAINST SG ISSUER

Each holder of a Note or Notes issued by SG Issuer is deemed to have acknowledged and undertaken, on its acquisition of such Notes, that, in the event of a default by SG Issuer, of payment of principal of (and premium, if any), interest or any other amount in respect thereof (including, without limitation, any Final Redemption Amount(s)) on any such Note(s), whenever such payment falls due (such payment defaults, **Defaulted Payments**), such holder shall not institute any proceeding, judicial or otherwise, or otherwise

assert a claim against SG Issuer to enforce such Defaulted Payments and waives all rights to institute such proceedings or make such claims in respect of such Defaulted Payments against the relevant Issuer.

For the avoidance of doubt, such acknowledgement, undertaking and waiver are without prejudice to the holder's rights under the Guarantee and do not alter or impair the Guarantor's obligations under the relevant guarantee and accordingly each holder shall continue to have the right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Guarantor to enforce any obligation due under the relevant guarantee, including without limitation in respect of any Defaulted Payments, subject in all cases to the terms of the Guarantee.

Such acknowledgement, undertaking and waiver do not alter or impair the rights of the Noteholders to require the enforcement of the relevant Pledge Agreement, pursuant to the provisions of the Additional Terms and Conditions relating to Secured Notes.

20. ACKNOWLEDGMENT OF BAIL-IN AND WRITE DOWN OR CONVERSION POWERS

20.1 Acknowledgement of bail-in and write-down or conversion powers on the relevant Societe Generale's or SG Issuer's Liabilities and of the write-down and conversion of Notes of SG Issuer following the bail-in and write-down and conversion of some Societe Generale's Liabilities

By the acquisition of Notes, each Noteholder (which, for the purposes of this Condition, includes any current or future holder of a beneficial interest in the Notes) acknowledges, accepts, consents and agrees:

(1) to be bound by the effect of the exercise of the Bail-in Power (as defined below) by the Relevant Resolution Authority (as defined below) on Societe Generale's and SG Issuer's liabilities under the Notes, which may include and result in any of the following, or some combination thereof:

(i) the reduction of all, or a portion, of the Amounts Due (as defined below), on a permanent basis;

(ii) the conversion of all, or a portion, of the Amounts Due into shares, other securities or other obligations of the relevant Issuer or the Guarantor or another person (and the issue to the Noteholder of such shares, securities or obligations), including by means of an amendment, modification or variation of the terms of the Notes, in which case the Noteholder agrees to accept in lieu of its rights under the Notes any such shares, other securities or other obligations of the relevant Issuer or the Guarantor or another person;

(iii) the cancellation of the Notes; and/or

(iv) the amendment or alteration of the maturity of the Notes or amendment of the amount of interest payable on the Notes, or the date on which the interest becomes payable, including by suspending payment for a temporary period; and

that terms of the Notes are subject to, and may be varied, if necessary, to give effect to the exercise of the Bail-in Power by the Relevant Resolution Authority or the regulator.
(the "**Statutory Bail-in**")

and

(2) in respect of Notes issued by SG Issuer, if the Relevant Resolution Authority (as defined below) exercises its Bail-in Power (as defined below) on liabilities of Societe Generale, pursuant to Article L 613-30-3-I-3 of the Code:

(A) ranking:

(i) junior to liabilities of Societe Generale benefitting from statutorily preferred exceptions pursuant to Article L 613-30-3-I 1°and 2 of the Code;

(ii) pari passu with liabilities of Societe Generale as defined in Article L.613-30-3-I-3 of the Code; and

(iii) senior to liabilities of Societe Generale as defined in Article L.613-30-3-I-4 of the Code; and

(B) which are not *titres non structurés* as defined under Article R.613-28 of the Code, and

(C) which are not or are no longer eligible to be taken into account for the purposes of the MREL (as defined below) ratio of Societe Generale

and such exercise of the Bail-in Power results in the write-down or cancellation of all, or a portion of, the principal amount of, or the outstanding amount payable in respect of, and/or interest on, such liabilities, and/or the conversion of all, or a portion, of the principal amount of, or the outstanding amount payable in respect of, or interest on, such liabilities into shares or other securities or other obligations of Societe Generale or another person, including by means of variation to their terms and conditions in order to give effect to such exercise of Bail-in Power, then SG Issuer's obligations under the Notes (other than Secured Notes) will be limited to (i) payment of the amounts of principal and/or interest as reduced or cancelled that would be recoverable by the Noteholders and/or (ii) the delivery or the payment of value of the shares or other securities or other obligations of Societe Generale or another person that would be paid or delivered to the Noteholders as if, in either case, the Notes had been directly issued by Societe Generale itself and

any Amount Due under the Notes had accordingly been directly subject to the exercise of the Bail-in Power (the "**Contractual Bail-in**").

20.2 Consequences of the Statutory Bail-in and Contractual Bail-in

No repayment or payment of the Amounts Due will become due and payable or be paid after the exercise of the Statutory Bail-in with respect to the relevant Issuer or the Guarantor unless, at the time such repayment or payment, respectively, is scheduled to become due, such repayment or payment would be permitted to be made by the relevant Issuer or the Guarantor under the applicable laws and regulations in effect in France or Luxembourg and the European Union applicable to the relevant Issuer or the Guarantor or other members of its group.

No repayment or payment of the Amounts Due will become due and payable or be paid under the Notes issued by SG Issuer after implementation of the Contractual Bail-in.

Upon the exercise of the Statutory Bail-in or upon implementation of the Contractual Bail-in with respect to the Notes, the relevant Issuer or the Guarantor will provide a written notice to the Noteholders in accordance with Condition 13 as soon as practicable regarding such exercise of the Statutory Bail-in or implementation of the Contractual Bail-in. The relevant Issuer or the Guarantor will also deliver a copy of such notice to the Principal Paying Agent for informational purposes, although the Principal Paying Agent shall not be required to send such notice to Noteholders. Any delay or failure by the relevant Issuer or the Guarantor to give notice shall not affect the validity and enforceability of the Statutory Bail-in or Contractual Bail-in nor the effects on the Notes described above.

Neither a cancellation of the Notes, a reduction, in part or in full, of the Amounts Due, the conversion thereof into another security or obligation of the relevant Issuer or the Guarantor or another person, as a result of the exercise of the Statutory Bail-in or the implementation of the Contractual Bail-in with respect to Notes will be an event of default or otherwise constitute non-performance of a contractual obligation, or entitle the Noteholder to any remedies (including equitable remedies) which are hereby expressly waived.

Upon the exercise of any Statutory Bail-in or the implementation of the Contractual Bail-in, the relevant Issuer, the Guarantor (if any) and each Noteholder(including each holder of a beneficial interest in the Notes) hereby agree that (a) the Principal Paying Agent shall not be required to take any directions from Noteholders, and (b) the French Law Agency Agreement shall impose no duties upon the Principal Paying Agent whatsoever, in each case with respect to the exercise of any Statutory Bail-in or implementation of the Contractual Bail-in.

Notwithstanding the foregoing, if, following the completion of the exercise of the Statutory Bail-In or the implementation of the Contractual Bail-in, any Notes remain outstanding (for example, if the exercise of the Statutory Bail-In or the implementation of the Contractual Bail-in results in only a partial write-down of the principal of the Notes), then the Principal Paying Agent 's duties under the French Law Agency Agreement shall remain applicable with respect to the Notes following such completion to the extent that the relevant Issuer, the Guarantor (if any) and the Principal Paying Agent shall agree pursuant to an amendment to the French Law Agency Agreement.

If in a Statutory Bail-In the Relevant Resolution Authority exercises the Bail-in Power or if the Contractual Bail-in is implemented, with respect to less than the total Amounts Due, unless the Principal Paying Agent is otherwise instructed by the relevant Issuer or the Guarantor or, as the case may be, the Relevant Resolution Authority, any cancellation, write-off or conversion made in respect of the Notes will be (in the case of a Contractual Bail-In) or may be (in the case of a Statutory Bail-in) made on a pro-rata basis.

The matters set forth in this Condition shall be exhaustive on the foregoing matters to the exclusion of any other agreements, arrangements or understandings between the Issuer, the Guarantor (if any) and each Noteholder

No expenses necessary for the procedures under this Condition, including, but not limited to, those incurred by the relevant Issuer, the Guarantor (if any) and the Principal Paying Agent, shall be borne by any Noteholder.

In the case of resolution pursuant to the exercise of the Bail-in Power (as defined below) by the Relevant Resolution Authority on Societe Generale's liabilities, the claim on Societe Generale with respect to Eligible Structured Notes, will be the amount to be taken into account for the purposes of Article R. 613-46-1 III 2° of the Code; this amount is fixed or increasing and does not exceed the initially paid-up amount of the liability.

For the purpose of this Condition:

Amounts Due means:
- In respect of Notes that are not Eligible Notes, the Market Value of the Notes as defined in Condition 6.3 above;
- In respect of Notes that are Eligible Notes, the amounts specified as such in the Final Terms

Bail-in Power means any statutory cancellation, write-down and/or conversion power existing from time to time under any laws, regulations, rules or requirements relating to the resolution of banks, banking group companies, credit institutions and/or investment firms, including but not limited to any such laws, regulations, rules or requirements that are implemented, adopted or enacted within the context of a European Union directive or regulation of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms, or any other applicable laws or regulations, as amended, or otherwise, pursuant to which obligations of a bank, banking group company, credit institution or investment firm or any of its affiliates can be reduced, cancelled, varied or otherwise modified in any way and/or converted into shares or other securities or obligations of the obligor or any other person.

MREL means the Minimum Requirement for own funds and Eligible Liabilities as defined in Directive 2014/59/EU of the European Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms (as amended from time to time).

Relevant Resolution Authority means any authority with the ability to exercise the Bail-in Power on Societe Generale or SG Issuer as the case may be.

21. GOVERNING LAW AND SUBMISSION TO JURISDICTION

21.1 Governing Law

If the applicable Final Terms indicate that the clause *"Governing law"* is "French law", the Notes and any non-contractual obligations arising out of or in connection with the Notes will be governed by, and shall be construed in accordance with, French law.

The French Law Agency Agreement and any non-contractual obligations arising out of or in connection with the French Law Agency Agreement, will be governed by, and shall be construed in accordance with, French law.

The Guarantee and any non-contractual obligations arising out of or in connection with the Guarantee will be governed by, and shall be construed in accordance with, French law.

21.2 Submission to jurisdiction

Any claim against the Issuer in connection with any Notes and the French Law Agency Agreement shall be brought before the competent courts of Paris (*tribunaux de Paris,* France) exclusively.

Any claim against the Guarantor in connection with the Guarantee shall be brought before the commercial court of Paris (*Tribunal des activités économiques de Paris*).

GENERAL TERMS AND CONDITIONS OF THE SWISS LAW NOTES

The following general terms and conditions applicable to every Series of Notes to be issued under Swiss law (**Swiss Law Notes**) (the **General Terms and Conditions**), with, if applicable, the additional terms and conditions (the **Additional Terms and Conditions**) constitute the terms and conditions of the Notes (the **Terms and Conditions**).

The applicable Final Terms in relation to any Notes will complete the following General Terms and Conditions for the purpose of such Notes (including, for the avoidance of doubt, any Uncertificated SIS Note (as defined below)). In case of any inconsistency between the Terms and Conditions set out in this Base Prospectus and the applicable Final Terms, the Final Terms shall prevail.

References herein to the **applicable Final Terms** are to Part A of the final terms (**Final Terms**) prepared based on the "Final Terms". In case of any issue of U.S. Exempt Securities, all references herein to "Final Terms" shall include, or be interpreted to mean, the applicable Offering Circular.
References herein to the Additional Terms and Conditions are to Additional Terms and Conditions relating to Formulae, Additional Terms and Conditions for Structured Notes, Additional Terms and Conditions for Share Linked Notes and Depositary Receipts Linked Notes, Additional Terms and Conditions for Index Linked Notes, Additional Terms and Conditions for SGI Index Linked Notes, Additional Terms and Conditions for Reference Rate Linked Notes, Additional Terms and Conditions for Foreign Exchange Rate Linked Notes, Additional Terms and Conditions for Commodity Linked Notes, Additional Terms and Conditions for Fund Linked Notes, Additional Terms and Conditions for Credit Linked Notes, Additional Terms and Conditions for Inflation Linked Notes, Additional Terms and Conditions for Bond Linked Notes, Additional Terms and Conditions for ETP Linked Notes and ETF Linked Notes, Additional Terms and Conditions for Non Equity Security Linked Notes, Additional Terms and Conditions for Future Linked Notes, Additional Terms and Conditions for Portfolio Linked Notes, Additional Terms and Conditions for Dividend Linked Notes, Additional Terms and Conditions relating to Secured Notes**,** Additional Terms and Conditions for Preference Share Linked Notes and Additional Terms and Conditions for Warrant Linked Notes.

If the applicable Final Terms specify that one or more of the Additional Terms and Conditions from Additional Terms and Conditions for Share Linked Notes to the Additional Terms and Conditions for Portfolio Linked Notes above apply, then the Additional Terms and Conditions for Structured Notes will also apply including the provisions relating to any market disruption (**Market Disruption Events)** or extraordinary events (**Extraordinary Events)** and details of the consequences of such events.

Words and expressions defined in the Agency Agreement and the Swiss Paying Agency Agreement (where applicable), (all as defined below) or used in the applicable Final Terms shall have the same meanings where used in these General Terms and Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of any inconsistency between the Agency Agreement, the Swiss Paying Agency Agreement (where applicable) and the applicable Final Terms, the applicable Final Terms will prevail.

References herein to (i) **Tranche** means Notes which are identical in all respects and (ii) **Series** means a Tranche of Notes, together in each case with any further Tranche or Tranches of Notes which are (a) expressed to be consolidated and form a single series or issue and (b) identical in all respects except for their respective Issue Dates, Interest Commencement Dates and/or Issue Prices.

References herein to (i) the **Issuer** shall be references to the issuer specified as such in the applicable Final Terms (as defined above) and, in the case of any substitution of the Issuer in accordance with Condition 12, the **Substituted Obligor** as defined in Condition 12 and (ii) the **Guarantor** shall mean Societe Generale in its capacity as guarantor pursuant to the Guarantee (as defined in Condition 2.3) in respect of any Notes issued by SG Issuer. Accordingly, references herein to the Guarantor are applicable only in the context of Notes issued by SG Issuer.
References herein to "any amount due under the Notes" shall depending on the context, mean any payment of principal and/or interest due under the Notes.

All Notes issued by Societe Generale will be described as "Unsecured" in the Final Terms applicable to such Notes and all Notes issued by SG Issuer will be described as "Unsecured" or "Secured" in the Final Terms applicable to such Notes.

References herein to, **Underlying** shall mean, as specified in the applicable Final Terms, a Share and/or a Depositary Receipt and/or an Index and/or an SGI Index and/or a Reference Rate and/or a Foreign Exchange Rate and/or a Commodity and/or a Commodity Index and/or a Fund and/or a Reference Entity and/or a CDS Spread and/or an Inflation Index and/or a Bond and/or an ETF and/or an ETP and/or a Non Equity Security and/or a Preference Share and/or a Warrant and/or Future and/or a Portfolio and/or a Dividend or a basket and/or combination thereof (each as defined in the Additional Terms and Conditions relating to the relevant Underlying).

References herein to "the Notes" are to the Notes of one Series (as defined above) only and not to all Notes under the Programme.

References herein to the **Notes** shall mean:

any Note governed by Swiss law (**Swiss Law Note**) which may be:

(a) a Bearer SIS Note represented by a Permanent Global SIS Note, each as defined below;

(b) an Uncertificated SIS Note, as defined below; or

(c) a definitive Bearer SIS Note (**Definitive Bearer SIS Note**) issued in exchange for a Permanent Global SIS Note.

Noteholders or a **holder of Notes** shall mean the several persons who are for the time being the holders of Bearer SIS Notes, Uncertificated SIS Notes or Definitive Bearer SIS Notes.

References herein to **Receiptholders** shall mean the holders of the Receipts, and any reference herein to **Couponholders** shall mean the holders of the Coupons and shall, unless the context otherwise requires, include the holders of the Talons. References herein to holders of the Notes or Noteholders shall if, the context so requires, include Receiptholders and Couponholders.
References herein to the holder of Notes in the form of Bearer SIS Notes or Uncertificated SIS Notes and related expressions shall be construed as provided in Condition 1.1.1 and Condition 1.1.3 below.

Save as set out below, the Notes, the Receipts (as defined below) and the Coupons (as defined below) have the benefit of an agency agreement dated 4 June 2021 as amended by the amendment agreement to the agency agreement dated 5 September 2023 (the **Agency Agreement**, which expression shall be construed as a reference to any such agreement as the same may be amended, supplemented or restated from time to time) and made between, amongst others, Societe Generale, SG Issuer (each an **Issuer** and together the **Issuers**), the Guarantor (as defined below), Societe Generale Luxembourg as principal paying agent, (in such capacity, the **Principal Paying Agent**, which expression shall include any additional or successor principal paying agent appointed from time to time and specified in the applicable Final Terms) and the other paying agents named therein (such paying agents, the **Paying Agents**, which expression shall include any additional or successor paying agents appointed from time to time).

The **Calculation Agent** with respect to a Tranche of Notes will be Societe Generale (or any successor thereto), as designated in the applicable Final Terms.

The Paying Agents, and, unless the context otherwise requires, the Settlement Agent and the Calculation Agent (both as defined in Condition 11) shall be referred to collectively hereunder as the **Agents**.

Any issue of Swiss Law Notes (as defined above) listed on SIX Swiss Exchange, will have the benefit of a Swiss paying agency agreement (the **Swiss Paying Agency Agreement**, which expression shall be construed as a reference to any such agreement as the same may be amended, supplemented or restated from time to time) between, amongst others, the Issuers, the Guarantor, the principal Swiss paying agent and the other Swiss paying agents (if any) (the **Principal Swiss Paying Agent** and the **Swiss Paying Agents**, respectively, and the term Paying Agent as defined above shall include such Principal Swiss Paying Agent and the Swiss Paying Agents). The form of the Swiss Paying Agency Agreement is scheduled to the Agency Agreement.
Any reference in these General Terms and Conditions to a **SIS Note** shall be references to a Note, which is, or is intended to be, deposited or registered with and cleared through SIS or any other clearing institution in Switzerland recognised for such purposes by SIX Swiss Exchange (SIS or any such intermediary, the **Intermediary**)) and is either a bearer note (a **Bearer SIS Note** which term includes CHF SIS Notes and Other SIS Notes) or an uncertificated note (an **Uncertificated SIS Note**). SIS Notes may be denominated in Swiss Francs or other currencies approved by the Intermediary. The applicable Final Terms will indicate whether SIS Notes are CHF SIS Notes, Other SIS Notes (each as defined below) or Uncertificated SIS Notes. In the case of SIS Notes, no printing of definitive Notes, Receipts or Coupons will occur (except as provided herein with respect to Definitive Bearer SIS Notes only).

Any reference herein to "**Euroclear**" and/or "**Clearstream**" shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms including, without limitation, Euroclear France and the Intermédiaires financiers habilités authorised to maintain accounts therein (together Euroclear France), in relation to SIS Notes, or other Swiss Law Notes listed on SIX Swiss Exchange Ltd. (**SIX Swiss Exchange**), SIX SIS Ltd, the Swiss securities services corporation (SIS) or any other clearing institution in Switzerland recognised for such purposes by SIX Swiss Exchange.

Interest-bearing Definitive Bearer SIS Notes have interest coupons (**Coupons**) and, if indicated in the applicable Final Terms, talons for further Coupons (**Talons**) attached on issue. Any reference herein to "Coupons" or "coupons" shall, unless the context otherwise requires, be deemed to include a reference to "Talons" or "talons".

Definitive Bearer SIS Notes repayable in instalments have receipts (**Receipts**) for the payment of the instalments of principal (other than the final instalment) attached on issue. Global Notes do not have Receipts, Coupons or Talons attached on issue.

Any references in these Terms and Conditions to "Coupons", "Talons" or "Receipts" shall not apply to Uncertificated SIS Notes.

Any reference herein to **Physical Delivery Notes** shall mean any Series of Notes that are linked to Deliverable Asset(s) (as defined in Condition 5.19) specified in the applicable Final Terms.

Copies of the Agency Agreement, the Swiss Paying Agency Agreement (where applicable), and the Guarantee (where applicable) are available for inspection during normal business hours from the head office of each of the relevant Issuer and, if applicable, the Guarantor and from the specified office of each of the Paying Agents. Copies of the applicable Final Terms relating to Non-exempt Offer Securities are available for viewing at http://prospectus.socgen.com or a successor or replacement address thereto. In case of a listing of the Securities on the Official List of the Luxembourg Stock Exchange and an admission to trading on the Euro MTF market or on the Professional Segment of the Euro MTF market of the Luxembourg Stock Exchange, the applicable Final Terms are available at http://www.luxse.com save that, if this Note is an Exempt Offer Note (as defined below), the applicable Final Terms will only be obtainable by a Noteholder holding one or more such Notes and such Noteholder must produce evidence satisfactory to the relevant Issuer, and, if applicable, the Guarantor or, as the case may be, the relevant Paying Agent as to its holding of such Notes and identity. (unless otherwise made available publicly by the Issuer). The Noteholders are deemed to have notice of, and are entitled to the benefit of, all the provisions of the Agency Agreement, the Swiss Paying Agency Agreement (where applicable), the Guarantee (where applicable), and the applicable Final Terms. The statements in the Conditions include summaries of, and are subject to, the detailed provisions of the Agency Agreement and, if applicable, the Swiss Paying Agency Agreement.

In this section (a) **Non-exempt Offer Note** means any Note that is (i) offered to the public in the EEA other than pursuant to articles 1(4) or 3(2) of Regulation (EU) 2017/1129 as amended or superseded (the **Prospectus Regulation**) or (ii) admitted to trading on a Regulated Market in the EEA for the purposes of article 3(3) of the Prospectus Regulation, (b) **Exempt Offer Note** means any Note that is (i) offered to the public in the EEA only pursuant to articles 1(4) or 3(2) of the Prospectus Regulation or (ii) admitted to trading on a Regulated Market in the EEA pursuant to article 1(5) of the Prospectus Regulation and (c) **Exempted Swiss Public Offer Note** means any security that is not (i) offered to the public in Switzerland for the purposes of article 35 of the Swiss Federal Act on Financial Services (the **FinSA**) (except as specified under article 36(1) or article 37 of the FinSA) or (ii) admitted to trading on a trading venue in accordance with article 26(a) of the Swiss Federal Act on Financial Market Infrastructures and Market Conduct in Securities and Derivatives Trading (except as specified under article 38 of the FinSA).

1. FORM, TITLE, TRANSFER, DENOMINATION AND REDENOMINATION

1.1. Form and Title

Swiss Law Notes may be Bearer SIS Notes represented by a Permanent Global SIS Note, Uncertificated SIS Notes or Definitive Bearer SIS Notes issued in exchange for a Permanent Global SIS Note, in each case in the Relevant Currency and the Specified Denomination(s) (as defined below) specified in the applicable Final Terms.

1.1.1 Bearer SIS Notes

Bearer SIS Notes are represented by a permanent global Note (**Permanent Global SIS Note**) without Coupons that will be deposited with the Intermediary on or prior to the original issue date of the Tranche. Once the Permanent Global SIS Note representing the Bearer SIS Notes has been deposited with the Intermediary and entered into the accounts of one or more participants of the Intermediary, such Bearer SIS Notes will constitute intermediated securities (*Bucheffekten*) within the meaning of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*) (**Intermediated Securities**). Bearer SIS Notes denominated in Swiss Francs benefit from a limited exception to the non-US beneficial ownership certification requirement of the TEFRA D Rules, if such Bearer SIS Notes fulfil the relevant requirements set out below. Bearer SIS Notes denominated in Swiss Francs which fulfil these requirements are hereinafter referred to as **CHF SIS Notes**. Bearer SIS Notes denominated in Swiss Francs that do not fulfil these requirements and Bearer SIS Notes denominated in a currency approved by the Intermediary other than Swiss Francs are hereinafter referred to as **Other SIS Notes**.

The following criteria must be fulfilled in order for the limited exception to the non-US beneficial ownership certification requirement of the TEFRA D Rules to apply:

(a) the interest on, and the principal of, the CHF SIS Notes are denominated only in Swiss Francs;

(b) the interest on, and the principal of, the CHF SIS Notes are payable only in Switzerland;

(c) the CHF SIS Notes are offered and sold in accordance with Swiss customary practice and documentation;

(d) the relevant Dealers agree to use reasonable efforts to sell the CHF SIS Notes within Switzerland;

(e) the CHF SIS Notes are not listed, or subject to an application for listing, on an exchange located outside Switzerland;

(f) the issuance of the CHF SIS Notes complies with any guidelines or restrictions imposed by Swiss governmental, banking or securities authorities from time to time; and

(g) more than 80 per cent. by value of the CHF SIS Notes included in the offering of which they are part are offered and sold to non-Dealers by Dealers maintaining an office located in Switzerland.

No holder of Bearer SIS Notes shall at any time have the right to effect or demand the exchange of the Permanent Global SIS Note representing such Bearer SIS Notes into, or the delivery of, Bearer SIS Notes in definitive form (Definitive Bearer SIS Notes) or uncertificated and dematerialised book-entry form. If (i) the relevant lead manager (in the case of any Bearer SIS Notes that are listed on SIX Swiss Exchange) or the Principal Swiss Paying Agent (in the case of any Bearer SIS Notes not listed as aforesaid) deems the printing of definitive Notes, Receipts or Coupons to be necessary or useful, or (ii) the presentation of definitive Notes, Receipts or Coupons is required by Swiss or foreign laws in connection with the enforcement of rights (including in cases of bankruptcy, consolidation or reorganisation of the Issuer) (each such circumstance, in respect of Bearer SIS Notes, a Bearer SIS Notes Exchange Event), the relevant lead manager (in the case of any Bearer SIS Notes that are listed on SIX Swiss Exchange) or the Principal Swiss Paying Agent (in the case of any Bearer SIS Notes not listed as aforesaid) will provide for the printing of such definitive Notes, Receipts and Coupons at the expense of the Issuer and without cost to the relevant Noteholders. The Issuer irrevocably authorises the relevant lead manager (in the case of any Bearer SIS Notes that are listed on SIX Swiss Exchange) or the Principal Swiss Paying Agent (in the case of any Bearer SIS Notes not listed as aforesaid) to provide for such printing on its behalf. If Definitive Bearer SIS Notes are delivered, the relevant Permanent Global SIS Note will immediately be cancelled by the Principal Swiss Paying Agent or relevant lead manager, as the case may be, and the Definitive Bearer SIS Notes shall be delivered to the relevant holders against cancellation of the relevant Bearer SIS Notes in such holders' securities accounts.

In the case of Bearer SIS Notes, each holder thereof shall have a quota co-ownership interest (*Miteigentumsanteil*) in the Permanent Global SIS Note representing such Bearer SIS Notes to the extent of his claim against the Issuer, provided that, for so long as the Permanent Global SIS Note remains deposited with the Intermediary, the co-ownership interest shall be suspended and the Bearer

SIS Notes may only be transferred by the entry of the transferred Bearer SIS Notes in a securities account of the transferee in accordance with the rules and procedures for the time being of the Intermediary. The records of the Intermediary will determine the number of SIS Notes held through each participant of the Intermediary. In respect of SIS Notes constituting Intermediated Securities (*Bucheffekten*), the holders of such SIS Notes will be the persons holding such SIS Notes in a securities account (*Effektenkonto*) that is in their name, or, in the case of intermediaries (*Verwahrungsstellen*), the intermediaries (*Verwahrungsstellen*) holding such SIS Notes for their own account in a securities account (*Effektenkonto*) that is in their name (and the expressions "Noteholder" ,"holder of Notes" and related expressions shall be construed accordingly).

1.1.2. [Left blank intentionally]

1.1.3. Uncertificated SIS Notes

Uncertificated SIS Notes are issued in uncertificated and dematerialised book-entry form. No global or definitive Notes will be issued in respect of Uncertificated SIS Notes and these General Terms and Conditions shall be construed accordingly.

Uncertificated SIS Notes will be entered into the main register (*Hauptregister*) of the Intermediary on or prior to their issue date. Once the Uncertificated SIS Notes are registered in the main register (*Hauptregister*) of the Intermediary, such Uncertificated SIS Notes will constitute Intermediated Securities. The records of the Intermediary will determine the number of Uncertificated SIS Notes held through each participant of the Intermediary. Uncertificated SIS Notes constituting Intermediated Securities may only be transferred by the entry of the transferred Uncertificated SIS Notes in a securities account of the transferee and the holders of such Uncertificated SIS Notes will be the persons holding such Uncertificated SIS Notes in a securities account (*Effektenkonto*) that is in their name, or, in the case of intermediaries (*Verwahrungsstellen*), the intermediaries (*Verwahrungsstellen*) holding such Uncertificated SIS Notes for their own account in a securities account (*Effektenkonto*) that is in their name (and the expressions "Noteholder", “holder of Notes" and related expressions shall be construed accordingly).

1.2.Transfer of Notes

1.2.1 Transfer of interests in Bearer SIS Notes

Notes which are represented by a Bearer SIS Note held on behalf of a clearing system will be transferable only in accordance with the rules and procedures for the time being of the relevant clearing system.

Transfers of beneficial interests in a Bearer SIS Note will be effected by the relevant clearing system, and, in turn, by other participants and, if appropriate, indirect participants in such clearing systems acting on behalf of beneficial transferors and transferees of such interests

1.2.2 [Left blank intentionally]

1.2.3 [Left blank intentionally]

1.2.4 Transfer of Uncertificated SIS Notes

Uncertificated SIS Notes constituting Intermediated Securities may only be transferred by the entry of the transferred Uncertificated SIS Notes in a securities account of the transferee and the holders of such Uncertificated SIS Notes will be the persons holding such Uncertificated SIS Notes in a securities account (*Effektenkonto*) that is in their name, or, in the case of intermediaries (*Verwahrungsstellen*), the intermediaries (*Verwahrungsstellen*) holding such Uncertificated SIS Notes for their own account in a securities account (*Effektenkonto*) that is in their name (and the expressions , "Noteholder" and "holder of Notes" and related expressions shall be construed accordingly).

1.2.5 [Left blank intentionally]

1.2.6 [Left blank intentionally]

1.2.7 Costs of registration

Noteholders will not be required to bear the costs and expenses of effecting any registration of transfer as provided above, except for any costs or expenses of delivery other than by regular uninsured mail and except that the Issuer may require the payment of a sum sufficient to cover any stamp duty, tax or other governmental charge that may be imposed in relation to the registration.

1.2.8 Definitions - Transfer to Permitted Transferees

In these General Terms and Conditions, the following expressions shall have the following meanings:

Distribution Compliance Period means the period that ends 40 days after the completion of the distribution of the relevant Notes as determined by the relevant lead manager;

Investment Company Act means the U.S. Investment Company Act of 1940, as amended;

IRS U.S. Person means a U.S. person as defined in paragraph 7701(a)(30) of the Internal Revenue Code of 1986;

Permanent Global SIS Note means a permanent global SIS Note issued or to be issued by an Issuer pursuant to the Programme Agreement or any other agreement between the Issuer and the relevant Dealer;

Permitted Transferee means any person who:

(i) is not a U.S. Person; and

(ii) is not a person who comes within any definition of U.S. person for the purposes of the CEA or any CFTC Rule, guidance or order proposed or issued under the CEA (for the avoidance of doubt, any person who is not a "Non-United States person" defined under CFTC Rule 4.7(a)(1)(iv), but excluding, for purposes of subsection (D) thereof, the exception for qualified eligible persons who are not "Non-United States persons", shall be considered a U.S. person); and

(iii) is not a Risk Retention U.S. Person. **QIB** means a "**qualified institutional buyer**" within the meaning of Rule 144A;

Regulation S means Regulation S under the Securities Act;

Regulation S U.S. Person means a U.S. Person as defined in Regulation S;

Risk Retention U.S. Person means a "U.S. person" for purposes of the U.S. Risk Retention Rules;

Securities Act means the U.S. Securities Act of 1933, as amended;

U.S. Exempt Securities means certain issues of Registered Notes of Societe Generale, as specified in the applicable Offering Circular, that may be offered and sold only (a) in offshore transactions to persons who are not U.S. Persons, and/or (b) to QIBs acting for their own account or for the account one or more QIBs, in each case, in reliance upon Rule 144A under the Securities Act.

U.S. Person means (i) Regulation S U.S. Person unless the applicable Final Terms specify that IRS U.S. Person is also applicable, or (ii) if in case of SGI Index Linked Notes, Advised SGI Index is applicable or if in case of Portfolio Linked Notes, Dynamic Portfolio is applicable, a person who is either a Regulation S U.S. Person or an IRS U.S. Person unless the applicable Final Terms specify that only a Regulation S U.S. Person is applicable;

U.S. Risk Retention Rules means the final rules implementing the credit risk retention requirements of Section 15G of the U.S. Securities Exchange Act of 1934, as amended.

Notes may not at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, a person that is not a Permitted Transferee and any offer, sale, resale, pledge, redemption, transfer or delivery made, directly or indirectly, within the United States or to or for the account or benefit of, a person that is not a Permitted Transferee will not be recognised.

1.3 [Left blank intentionally]

1.4 Denomination

Notes shall be issued in the specified denomination(s) as set out in the applicable Final Terms (the Specified Denomination(s)). Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination.

1.5 Redenomination - conversion of currency

The Issuer may (if so specified in the applicable Final Terms), without the consent of the Noteholders, by giving at least 30 days' notice in accordance with Condition 13, and on or after the date on which a Member State of the European Union whose national currency is the same as the Specified Currency, has become a participating Member State in the third stage of the European Economic and Monetary Union (as provided in the Treaty on the Functioning of the European Union (the **EU**), as amended from time to time (the **Treaty**)) or events have occurred which have substantially the same effects (in either case, **EMU**), redenominate all, but not some only of the Notes into Euro and adjust any term of the Notes as the Calculation Agent deems appropriate to give effect to such change (including, without limitation, the aggregate nominal amount of the Notes, the Settlement Amount, Exercise Price, the Parity (if applicable)). The date on which such change becomes effective shall be referred to in these General Terms and Conditions as the **Currency Conversion Date**.
The redenomination of the Notes pursuant to the above paragraph shall be made by converting the principal amount of each Note from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the European Union pursuant to Article 140 of the Treaty and rounding the resultant figure to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards), provided that, if the Issuer determines, with the agreement of the Principal Paying Agent that the then market practice in respect of the redenomination or conversion in Euro of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, the stock exchange (if any) on which the Notes may be listed and the Paying Agents of such deemed amendments.
If the Issuer so elects, the figure resulting from conversion of the principal amount of each Note using the fixed relevant national currency Euro conversion rate shall be rounded down to the nearest Euro.

The conversion rate applicable and the amounts in Euro so determined shall be notified to Noteholders in accordance with Condition 13. Any balance remaining from the change of currency in an amount higher than 0.01 Euro shall be paid by way of cash adjustment

rounded to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards). Such cash adjustment will be payable in Euros on the Currency Conversion Date.

Upon redenomination of the Notes any reference hereon to the relevant national currency shall be construed as a reference to Euro. The Issuer may, with prior approval of the Principal Paying Agent, without the consent of the Noteholders in connection with any redenomination or any consolidation pursuant to Condition 14, but giving not less than 30 day prior notice to the Noteholders pursuant to Condition 13, make any changes or additions to these General Terms and Conditions which it reasonably believes to be necessary or desirable to give effect to the provisions of this Condition 1.5 or Condition 14 (including, without limitation, any change to any applicable business day definition, business day convention, principal financial centre of the country of the Specified Currency, interest accrual basis or benchmark), taking into account market practice in respect of redenominated euromarket debt obligations and which it believes are not prejudicial to the interests of the Noteholders. Any such changes or additions shall be notified to Noteholders in accordance with Condition 13 as soon as practicable thereafter.

Neither the Issuer nor any Paying Agent shall be liable to any Noteholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of Euro or any currency conversion or rounding effected in connection therewith.

Any such changes or additions made pursuant to this Condition 1.5 will, in the absence of manifest or proven error, be conclusive and binding on the Noteholders.

2. STATUS OF THE NOTES AND GUARANTEE

2.1 Notes issued by Societe Generale

Unless otherwise provided in the applicable Final Terms, Notes issued by Societe Generale, including where applicable any related Coupons, will constitute direct, unconditional, unsecured and senior obligations of the Issuer ranking as senior preferred obligations (as provided for in Article L. 613-30-3-I-3° of the Code) (the "**Senior Preferred Notes**"):

(i) pari passu with:

(a) all direct, unconditional, unsecured and senior obligations of Societe Generale outstanding as of the date of entry into force of the Law on 11 December 2016; and

(b) all present or future senior preferred obligations (as provided for in Article L. 613-30-3-I-3° of the Code) of the Issuer issued after the date of entry into force of the Law on 11 December 2016;

(ii) junior to all present or future claims of the Issuer benefiting from statutorily preferred exceptions; and

(iii) senior to all present or future:

(a) Senior Non-Preferred Obligations; and

(b) subordinated obligations and deeply subordinated obligations of the Issuer.

In the event any judgment is rendered by any competent court declaring the judicial liquidation of the Issuer or if the Issuer is liquidated for any other reason:

- the rights of payment of the holders of Senior Preferred Notes and, where applicable, any related Coupons shall be subordinated to the payment in full of all present or future holders of, or creditors in respect of, claims benefiting from statutory preferred exceptions (**Preferred Creditors**);

- subject to such payment in full, the holders of Senior Preferred Notes and, where applicable, any related Coupons shall be paid in priority to any present or future holders of, or creditors in respect of, obligations referred to in (iii) above; and

- in the event of incomplete payment by the Preferred Creditors, the obligations of Societe Generale under the Senior Preferred Notes and, where applicable, any related Coupons relating thereto will be terminated.

The holders of Senior Preferred Notes and, where applicable, any related Coupons relating thereto shall be responsible for taking all necessary steps for the orderly accomplishment of such liquidation of Societe Generale in relation to any claim they may have against Societe Generale.

For the Senior Preferred Notes that are Eligible Notes, redemption, purchase or cancellation of such Notes prior their Maturity Date will be subject to the prior written permission of the Relevant Resolution Authority.

"BRRD II" means Directive 2014/59/EU of the Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms as published in the Official Journal of the European Union on 12 June 2014, as amended from time to time or such other directive as may come in effect in the place thereof (including by the Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending Directive 2014/59/EU as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms).

"BRRD II rules" means any of BRRD II and SRM and implementing measures.

"CRD IV" means the Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms, as published in the Official Journal of the European Union on 27 June 2013, as amended from time to time or such other directive as may come into effect in place thereof (including by Directive (EU) 2019/878 of the European Parliament and of the Council of 20 May 2019 amending Directive 2013/36/EU as regards exempted entities, financial holding companies, mixed financial holding companies, remuneration, supervisory measures and powers and capital conservation measures).

"CRD IV Implementing Measures" means any regulatory capital rules implementing CRD IV or the CRR which may from time to time be introduced, including, but not limited to, delegated or implementing acts (regulatory technical standards) adopted by the European Commission, national laws and regulations, and regulations and guidelines issued by the Relevant Resolution Authority, which are applicable to the Issuer and which prescribe the requirements to be fulfilled by financial instruments for inclusion in the regulatory capital of the Issuer.

"CRD IV Rules" means any or any combination of the CRD IV, the CRR and any CRD IV Implementing Measures.

"CRR" means the Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms, as published in the Official Journal of the European Union on 27 June 2013, as amended from time to time or such other directive as may come into effect in place thereof (including by Regulation (EU) 2019/876 of the European Parliament and of the Council of 20 May 2019 amending Regulation (EU) No 575/2013 as regards the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements and Regulation (EU) 2022/2036 of the European Parliament and of the Council of 19 October 2022 amending Regulation (EU) No 575/2013 and Directive 2014/59/EU as regards the prudential treatment of global systemically important institutions with a multiple-point-of-entry resolution strategy and methods for the indirect subscription of instruments eligible for meeting the minimum requirement for own funds and eligible liabilities).

"**Eligible Notes**" means Senior Preferred Notes issued by Societe Generale, specified as such in the applicable Final Terms:

(i) issued pursuant to Article R 613-46-1 of the Code in compliance with the criteria applicable to eligible liabilities available to meet the MREL Requirements in accordance with the Relevant Rules but shall not include (a) Eligible Structured Notes described in (ii) below and (b) other liabilities with embedded derivatives satisfying the condition of Article R 613-46-1-III-1° (the "**Eligible Non Structured Notes**"),

which criteria are, *inter alia*, as of the date of the General Terms and Conditions that such Notes:

(a) cannot be accelerated by the Noteholders upon the occurrence of an Event of Default; and

(b) can only be redeemed, purchased or cancelled prior to their Maturity Date (other than for the occurrence of an Event of Default) subject to the prior permission of the Relevant Resolution Authority; and

(c) give rise to claim against Societe Generale that is equal to par or at least equal to par in case of Zero Coupon Notes

or

(ii) issued pursuant to Article R 613-46-1-III-2° of the Code in compliance with the criteria applicable to eligible liabilities available to meet the MREL Requirements in accordance with the Relevant Rules (the "**Eligible Structured Notes**"), which criteria are, *inter alia*, as of the date of these General Terms and Conditions that such Notes :

(a) cannot be accelerated by the Noteholders upon the occurrence of an Event of Default, and

(b) can be redeemed, purchased or cancelled early prior to their Maturity Date (other than for the occurrence of an Event of Default) only subject to the prior permission of the Relevant Resolution Authority; and

(c) whose claim against Societe Generale in case of liquidation or resolution of Societe Generale, is of an amount that is fixed or increasing and which does not exceed the initially paid-up amount of the liability pursuant to the provisions of Article R 613-46-1-III-2° of the Code.

and which in the case of each of (i) and (ii) above have an initial maturity at least equal to one year.

The Final Terms shall specify if the Notes are Eligible Notes, and if yes, if they are Eligible Non Structured Notes or Eligible Structured Notes.

"**MREL Requirements**" means the minimum requirements for own funds and eligible liabilities applicable to the Issuer and/or the Group referred to in the BRRD II and CRD IV, or any other EU laws and regulations implemented in French laws and regulations and/or as set out in policies and/or principles of the SRB as the case may be, as amended from time to time.

"**Relevant Rules**" means at any time the laws, regulations, requirements, guidelines and policies of the Relevant Resolution Authority relating to capital adequacy applicable to the Issuer from time to time including, for the avoidance of doubt, applicable rules contained in, or implementing the CRD IV Rules and/or the BRRD II Rules.

"**Senior Non-Preferred Obligations**" means any senior (chirographaires) obligations of, or other instruments issued by, Societe Generale, which fall or are expressed to fall within the category of obligations described in article L. 613-30-3–I-4° and R. 613-28 of the Code.

"**SRM Regulation**" means Regulation 806/204/EU, as amended from time to time or such other regulation as may come in effect in the place thereof (including Regulation 2019/877/EU of 20 May 2019 amending Regulation (EU) No 806/2014 as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms).

2.2 Notes issued by SG Issuer

2.2.1 Notes (other than Secured Notes) issued by SG Issuer

Unless otherwise provided in the applicable Final Terms, Notes (other than Secured Notes issued by SG Issuer) will constitute direct, unconditional, unsecured and unsubordinated obligations of SG Issuer and will rank *pari passu* without any preference among themselves and (subject to such exceptions as from time to time exist under applicable law) at least *pari passu* with all other outstanding direct, unconditional, unsecured and unsubordinated obligations of SG Issuer, present and future.

2.2.2 Secured Notes issued by SG Issuer only

Unless otherwise provided in the applicable Final Terms, Secured Notes issued by SG Issuer will constitute direct, unconditional, secured, limited recourse and unsubordinated obligations of SG Issuer and will rank *pari passu* without any preference among themselves and (subject to such exceptions as from time to time exist under applicable law) at least *pari passu* with all other outstanding direct, unconditional, secured, limited recourse and unsubordinated obligations of SG Issuer, present and future.

2.3 Guarantee in the case of Notes issued by SG Issuer

The due and punctual payment of any amounts due by the Issuer in respect of any Notes issued by SG Issuer is unconditionally and irrevocably guaranteed by the Guarantor as provided in the guarantee made as of 15 May 2026 (the **Guarantee** and each such amount payable under the Guarantee, a **Guarantee Obligation**) the text of which is set out in "*Guarantee*" in the Base Prospectus dated 15 May 2026; provided that in the case of any Physical Delivery Notes in respect of which the relevant guaranteed obligation of the Issuer is an obligation to transfer the Deliverable Asset(s) in respect of a Physical Delivery Amount, the Guarantor shall, in lieu of such transfer, be obliged to pay a cash amount in the Relevant Currency equal to the fair market value (as determined by the Calculation Agent on or about the due date for transfer of the relevant Deliverable Asset(s) in respect of the Physical Delivery Amount) of the Deliverable Asset(s) in respect of the Physical Delivery Amount.

The Guarantee Obligations will constitute direct, unconditional, unsecured and unsubordinated obligations of the Guarantor ranking as senior preferred obligations, as provided for in Article L. 613-30-3 - I - 3° of the Code.
Such Guarantee Obligations rank and will rank equally and rateably without any preference or priority among themselves and:

(i) pari passu with all other direct, unconditional, unsecured and unsubordinated obligations of the Guarantor outstanding as of the date of the entry into force of the Law on 11 December 2016;

(ii) pari passu with all other present or future direct, unconditional, unsecured and senior preferred obligations (as provided for in Article L. 613-30-3 I 3° of the Code) of the Guarantor issued after the date of the entry into force of the Law on 11 December 2016;

(iii) junior to all present or future claims of the Guarantor benefiting from the statutorily preferred exceptions; and

(iv) senior to all present and future senior non-preferred obligations (as provided for in Article L.613-30-3 - I - 4° of the Code) and all present or future subordinated obligations and deeply subordinated obligations, of the Guarantor.

2.4 No participation in collective investment schemes

The Notes do not represent a participation in any of the collective investment schemes pursuant to articles 7 et seqq. of the CISA and are not subject to an authorisation of the Swiss Financial Market Supervisory Authority's (FINMA). Therefore, Noteholders are not eligible for the specific investor protection under the CISA. Furthermore, the Notes do not benefit from any depositor protection under article 37b of the Swiss Federal Law on Banks and Savings Banks or other forms of deposit insurance under any other laws as might be applicable to the Notes.

3. LEFT BLANK INTENTIONALLY

4. INTEREST RELATING TO THE NOTES

This Condition 4 shall apply if the applicable Final Terms specify that the clause "*Fixed Rate Note Provisions*", "*Floating Rate Note Provisions*", "*Structured Interest Note Provisions*" and/or " *Zero Coupon Notes Provision*" is stated as being "Applicable".

For the purpose of this Condition 4, any reference to "Interest Amount" shall be deemed to be a reference to the Fixed Coupon Amount, the Floating Coupon Amount or the Structured Interest Amount (each as defined below) when the context requires.

4.1 Fixed Rate Note Provisions

This Condition 4.1 applies if the applicable Final Terms specify that the clause "*Fixed Rate Note Provisions*" is "Applicable".

The applicable Final Terms contain provisions applicable to the determination of fixed coupon amount (the **Fixed Coupon Amount**) and must be read in conjunction with this Condition 4.1 for full information on the manner in which interest is calculated on Fixed Rate Notes.
In particular, the applicable Final Terms will specify, if applicable, the Interest Commencement Date the Rate(s) of Interest, the Interest Payment Date(s), the Business Day Convention, the Fixed Coupon Amount(s), any applicable Broken Amount(s), Calculation Amount, Day Count Fraction and any applicable Determination Date.

Fixed Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate(s) of Interest to the Specified Denomination as it shall be set out in the applicable Final Terms.

In the case of Notes which are Non-exempt Offer Notes to the public and where the Rate(s) of Interest is/are to be determined by reference to a percentage to be published by the Issuer on http://prospectus.socgen.com, the applicable Final Terms will specify an indicative value, a minimum value and will indicate the date of publication thereof.

For the purpose of this Condition 4.1:

Fixed Rate Note means a Note which bears one or more fixed rate(s) of interest applicable to the relevant Interest Period which may be either an Adjusted Fixed Rate Note or an Unadjusted Fixed Rate Note.

Adjusted Fixed Rate Note means a Fixed Rate Note in respect of which the Interest Amount and the Interest Payment Date are subject to modification in accordance with the provisions of Condition 4.1.2.

Unadjusted Fixed Rate Note means a Fixed Rate Note in respect of which the Interest Amount and the Interest Payment Date remain, for the purposes of this Condition 4 (and without prejudice to the provisions of Condition 4.3), unchanged and are calculated in accordance with the provisions of Condition 4.1.1.

4.1.1 Unadjusted Fixed Rate Notes

Each Unadjusted Fixed Rate Note bears interest from and including the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date, as specified in the applicable Final Terms.

If the Notes are Definitive Bearer SIS Notes, the amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified (the **Broken Amount**).
Except in the case of Notes which are Definitive Bearer SIS Notes where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate(s) of Interest specified in the applicable Final Terms to:

- in the case of Fixed Rate Notes which are Uncertificated SIS Notes or Bearer SIS Notes, the aggregate outstanding nominal amount of the Notes of the relevant Series (or, if they are Partly Paid Notes, the aggregate amount paid up); or

- in the case of Fixed Rate Notes which are Definitive Bearer SIS Notes, the Calculation Amount,

and, in each case, multiplying such amount by the applicable Day Count Fraction (if any), and rounding the resultant figure to the nearest sub-unit (as defined in Condition 4.7 below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards. Fixed Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate(s) of Interest to the Specified Denomination as it shall be set out in the applicable Final Terms. Where the Specified Denomination of a Fixed Rate Note which is a Definitive Bearer SIS Note is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

4.1.2 Adjusted Fixed Rate Notes

4.1.2.1 Each Adjusted Fixed Rate Note bears interest from and including the Interest Commencement Date specified in the applicable Final Terms, and such interest will be payable in respect of each Interest Period and in arrear on the Interest Payment Date(s) in each year specified in the applicable Final Terms; provided that (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then if the applicable Final Terms specify that the clause "Business Day Convention" is:

"**Following Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day; or

"**Modified Following Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day; or

"**Preceding Business Day Convention**", such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day,

and the expression "Interest Payment Date" shall be construed accordingly.

4.1.2.2 The Calculation Agent will calculate the amount of interest (the **Adjusted Fixed Rate Interest Amount**) payable on the Adjusted Fixed Rate Notes for the relevant Interest Period by applying the Rate(s) of Interest to:

(i) in the case of Adjusted Fixed Rate Notes which are Uncertificated SIS Notes or Bearer SIS Notes, the aggregate outstanding nominal amount of the Notes of the relevant Series (or, if they are Partly Paid Notes, the aggregate amount paid up); or

(ii) in the case of Adjusted Fixed Rate Notes which are Definitive Bearer SIS Notes, the Calculation Amount;

and, in each case, multiplying such amount by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of an Adjusted Fixed Rate Note which is a Definitive Bearer SIS Note is a multiple of the Calculation Amount, the Adjusted Fixed Rate Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

4.2 Floating Rate Note and Reference Rate Note Provisions

This Condition 4.2 applies if (i) the applicable Final Terms specify that the clause "*Floating Rate Note Provisions* " is "Applicable", or (ii) with respect to U.S. Exempt Securities, the applicable Offering Circular specifies that the clause "Floating Rate Note Provisions" is stated as being "Applicable".

The applicable Final Terms contain provisions applicable to the determination of floating coupon amount (the **Floating Coupon Amount**) and must be read in conjunction with this Condition 4.2 for full information on the manner in which interest is calculated on Floating Rate Notes.

In particular, the applicable Final Terms will specify the Floating Coupon Amount(s), the Interest Payment Date(s), the Business Day Convention, the method of determination of the Rate of Interest and Interest Amount, any Margin(s)/Spread(s), any Leverage Factor, any minimum rate of interest (the **Minimum Rate of Interest**) or any maximum rate of interest (the **Maximum Rate of Interest**) (whereby these latter elements may also be specified in the formula for the calculation of the Floating Coupon Amount specified in the applicable Final Terms), and any Day Count Fraction, and any rate multiplier (the **Rate Multiplier**).

In the case of Notes which are Non-exempt Offer to the public and the Floating Coupon Amount is to be determined by reference to one or more component(s) being a percentage to be published by the Issuer on http://prospectus.socgen.com, the applicable Final Terms will specify an indicative value, a minimum value, and will indicate the date of publication thereof.

4.2.1 Specified Period(s) and Interest Payment Dates

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in respect of each Interest Period on either:

(1) the Interest Payment Date(s) specified in the applicable Final Terms; or

(2) if no Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Interest Payment Date specified in the applicable Final Terms an **Interest Payment Date**) numerically corresponding to the immediately preceding Interest Payment Date and which falls the number of months or other period(s) (the **Specified Period(s)**) specified in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date (and if no Interest Commencement Date is specified, after the Issue Date).

4.2.2 Floating Coupon Amount

The Floating Coupon Amount payable on the Interest Payment Date(s) in respect of the Floating Rate Notes will be determined by applying the Rate of Interest to the Specified Denomination as specified in the applicable Final Terms.

4.2.3 Rate of Interest

The Rate of Interest in respect of the Floating Rate Notes or Reference Rate Linked Notes as the case may be, will be determined pursuant to the provisions below as specified in the Final Terms.

4.2.3.1 ISDA Determination

If the applicable Final Terms specify that "Method of determination of the Rate of Interest and Interest Amount" is "ISDA Determination", the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the Final Terms) the margin(s) (the **Margin**(**s**)), (if any), which, for the avoidance of doubt, may be also referred to as the spread(s) (the **Spread**(**s**)) in the applicable Final Terms) multiplied by any leverage factor (the **Leverage Factor**).

For the purposes of this paragraph, **ISDA Rate** for an Interest Period means, subject to the provisions of Condition 4.2.3.5 below, a rate equal to the Floating Rate that would be determined by the Calculation Agent or any other person specified in the Final Terms, under an interest rate swap transaction if the Calculation Agent or that other person were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions (as defined below) and under which:

(1) the Floating Rate Option is as specified in the Final Terms;

(2) the Designated Maturity is a period specified in the Final Terms; and

(3) the relevant Reset Date is as specified in the Final Terms;

(the **"Hypothetical Swap Transaction"**)

For the purposes of this subparagraph, **Floating Rate**, **Calculation Agent**, **Floating Rate Option**, **Designated Maturity**, **Reset Date** and **Euro-zone** have the meanings given to those terms in the 2021 ISDA Interest Rate Derivatives Definitions published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche Notes (the **2021 ISDA Definitions**).

Where ISDA Determination is specified in the Final Terms as the "Method of determination of the Rate of Interest and Interest Amount", unless a higher Minimum Rate of Interest is specified in the Final Terms, the Minimum Rate of Interest shall be deemed to be zero.

Except if the provisions of Condition 4.2.3.3 or 4.2.3.4 apply, in the Final Terms, when the paragraph "Floating Rate Option" specifies that the rate is determined by linear interpolation, in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Floating Rate Option, one of which shall be determined as if the Designated Maturity were the period of time for which rates are available of next shorter length before the length of the relevant Interest Period, and the other of which shall be determined as if the Designated Maturity were the period of time, for which rates are available of next longer length after the length of the relevant Interest Period.

4.2.3.2 Standard Screen Rate Determination

If the applicable Final Terms specify that the "Method of determination of the Rate of Interest and Interest Amount" is "Standard Screen Rate Determination" or otherwise provide that "Standard Screen Rate Determination" applies, the Rate of Interest for each Interest Period will, subject as provided below, and in Condition 4.2.3.5 below, be either:

(1) the offered quotation; or

(2) the arithmetic mean (rounded, if necessary, to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate *per annum*), for the Reference Rate(s) which appears or appear, as the case may be, on the relevant screen page (the **Relevant Screen Page**) as at the specified time (**Specified Time**) or the Specified Time in the principal financial centre of the jurisdiction of the relevant Reference Rate on the interest determination date in question (the **Interest Determination Date**) as specified in the Final Terms plus or minus (as indicated in the Final Terms) the Margin or Spread (if any), multiplied by any Leverage Factor, all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the Relevant Screen Page is not available or if in the case of paragraph (1) above, no such offered quotation appears or, in the case of paragraph (2) above, fewer than three such offered quotations appear, in each case as at the Specified Time, the Calculation Agent shall request the principal office of each of the Reference Banks (as defined below) to provide the Calculation Agent with its offered quotation (expressed as a percentage rate *per annum*) for the Reference Rate at approximately the Specified Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of such offered quotations plus or minus (as appropriate) the Margin (if any), and multiplied by any Leverage Factor, all as determined by the Calculation Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate *per annum* which the Calculation Agent determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading

banks in the relevant inter-bank market plus or minus (as appropriate) the Margin (if any) and multiplied by any Leverage Factor or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at approximately the Specified Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer and the Calculation Agent suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in the relevant inter-bank market (or, as the case may be, the quotations of such bank or banks to the Calculation Agent) plus or minus (as appropriate) the Margin (if any) and multiplied by any Leverage Factor.

Where:

Reference Rate(s) means, for the purpose of this Condition 4.2.3.2, as specified in the applicable Final Terms, the deposit rate, the interbank rate, the swap rate or bond yield, as the case may be, which appears on the Relevant Screen Page at the Specified Time on the Interest Determination Date and as determined by the Calculation Agent.

Reference Banks has the meaning given to it, for each Reference Rate, in the 2021 ISDA Definitions as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series. For instance, in case of an EURIBOR rate, the Reference Banks will be the principal Euro-zone office of four major banks in the Euro-zone inter-bank market.

Euro-zone has the meaning given to such term in the 2021 ISDA Definitions.

In the applicable Final Terms, when the clause "*Reference Rate*" specifies that the rate is determined by linear interpolation, in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate, one of which shall be determined as if the maturity were the period of time, for which rates are available, of next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the maturity were the period of time, for which rates are available, of next longer than the length of the relevant Interest Period.

4.2.3.3 Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination

If the applicable Final Terms specify that the "Method of determination of the Rate of Interest and Interest Amount" is "Compounded RFR Screen Rate Determination" or "Averaged RFR Screen Rate Determination" or otherwise provide that "Compounded RFR Screen Rate Determination" or "Averaged RFR Screen Rate Determination" applies and the Reference Rate specified in the applicable Final Terms in respect of the Floating Rate Notes or Reference Rate Linked Notes as the case may be, is based on an overnight risk-free rate (such as and without limitation SONIA, SOFR, €STR, SARON, TONA, SORA, HONIA, AONIA, CORRA)(each an **Underlying Benchmark**), the Rate of Interest for each Interest Period will, subject as provided below in Condition 4.2.3.5, be such Reference Rate which is either (i) a Published Compounded RFR or (ii) a Published Averaged RFR, plus or minus (as indicated in the applicable Final Terms) the Margin (if any), multiplied by any Leverage Factor (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards).

For the purposes of this sub-paragraph, a **Published Compounded RFR** means the relevant Reference Rate as provided by the Administrator to authorised distributors and published at the specified time (the **Specified Time**) on the Relevant Screen Page (each as specified in the applicable Final Terms) and on a date (the **Interest Determination Date**) (specified in the applicable Final Terms or if none is specified, it shall be deemed to be on the 5th Business Day preceding the Interest Payment Date, corresponding to, the rate of return of a daily compound interest investment over a certain period of time (the **Tenor**) calculated in accordance with any one of the RFR Compounding Methods described in 4.2.3.4.1 to 4.2.3.4.4 below (each as specified in the applicable Final Terms).
For the purposes of this sub-paragraph, a **Published Averaged RFR** means the relevant Reference Rate as provided by the Administrator to authorised distributors and published at the specified time (the **Specified Time**) on the Relevant Screen Page (each as specified in the applicable Final Terms) and on a date (the **Interest Determination Date**) (specified in the applicable Final Terms or if none is specified, it shall be deemed to be on the 5th Business Day preceding the Interest Payment Date), corresponding to the arithmetic average of the Underlying Benchmark as observed over a certain period of time (the **Tenor)** calculated in accordance with any one of the RFR Averaging Methods described in Conditions 4.2.3.4.1 to 4.2.3.4.4 below (each as specified in the applicable Final Terms).

4.2.3.4 Determination of the Rate of Interest based on RFR Compounding Methods and RFR Averaging Methods

If the applicable Final Terms specify that the "Method of determination of the Rate of Interest and Interest Amount" is any of "Compounding with Lookback", "Compounding with Observation Shift", "Compounding with Lockout" or "OIS Compounding" (each a **RFR Compounding Method** and together the **RFR Compounding Methods**), the Rate of Interest for each Interest Period, will subject as provided in Condition 4.2.3.5 below, be equal to (i) the Reference Rate corresponding to the rate of return of a daily compound interest investment over a certain tenor calculated on the basis of an overnight risk-free rate such as without limitation SONIA, SOFR, €STR, SARON, TONA, SORA, HONIA, AONIA or CORRA (each an Underlying Benchmark specified in the applicable Final Terms) in accordance with any one of the **RFR Compounding Methods** described in Conditions 4.2.3.4.1 to 4.2.3.4.4 below, as determined on the relevant Interest Determination Date (each as specified in the Final Terms) (ii) plus or minus (as indicated in the applicable Final Terms) the Margin (if any), multiplied by any Leverage Factor,(and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards); or

If the applicable Final Terms specify that the "Method of determination of the Rate of Interest and Interest Amount" is any of "Averaging with Lookback", "Averaging with Observation Shift", "Averaging with Lockout" or "Overnight Averaging" (each an **RFR Averaging Method** and together the **RFR Averaging Methods**) the Rate of Interest for each Interest Period, will subject as provided below, be equal to (i) the Reference Rate corresponding to the arithmetic average over a certain tenor of an overnight risk-free rate (such as

without limitation SONIA, SOFR, €STR, SARON, TONA, SORA, HONIA, AONIA or CORRA) (each an **Underlying Benchmark** specified in the applicable Final Terms) in accordance with any one of the **RFR Averaging Methods** described in Conditions 4.2.3.4.1 to 4.2.3.4.4 below as determined on the relevant Interest Determination Date (each as specified in the Final Terms) (ii) plus or minus (as indicated in the applicable Final Terms) the Margin (if any), multiplied by any Leverage Factor (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards).

4.2.3.4.1 Lookback

4.2.3.4.1.1 If "Compounding with Lookback" is specified in the applicable Final Terms as the applicable RFR Compounding Method, the Reference Rate is equal to:

[Product (i from 1 to d0)(1+(Underlying Benchmark Level i-Lookback r ABD × ni) / Day Count Basis) - 1] × Day Count Basis / d

4.2.3.4.1.2 If "Averaging with Lookback" is specified in the applicable Final Terms as the applicable RFR Averaging Method, the Reference Rate is equal to:

[Sum(for i from 1 to d0) (Underlying Benchmark Level i-Lookback r ABD)] × 1/d

4.2.3.4.1.3 Definitions for Lookback

For the purposes of Conditions 4.2.3.4.1.1 and 4.2.3.4.1.2 :

"Applicable Business Day" or **ABD**:

- In respect of any Underlying Benchmark other than the SOFR rate: Applicable Business Day means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial center of the relevant currency of the relevant Underlying Benchmark of the Reference Rate;

- In respect of the SOFR rate: an Applicable Business Day means a U.S. Government Securities Business Day.

d is the number of calendar days in the relevant Interest Period;

d0 is, for any Interest Period:

- if "Compounding with Lookback" applies: the number of Applicable Business Days in the relevant Interest Period except if the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is the number of Applicable Business Days in the relevant Interest Period plus one; or

- if "Averaging with Lookback" applies, the number of calendar days in that Interest Period

Day Count Basis means, if "Compounding with Lookback" applies, the denominator of the Day Count Fraction that customarily applies for the Underlying Benchmark of the relevant Reference Rate and which is either 365 or 360;

i is :

- if "Compounding with Lookback" applies:

a. if the first calendar day in the relevant Interest Period is an Applicable Business Day, a series of whole numbers from one to do, each representing the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; or

b. If the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is a series of whole numbers from 1 to d0, where *i* = 1 represents the first calendar day of the relevant Interest Period, and each of *i* = 2 to d0, represents the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; or

- if "Averaging with Lookback" applies:
a series of whole numbers from 1 to d0, each representing the relevant calendar day in the Interest Period in chronological order from, and including, the first calendar day in the Interest Period.

"Lookback r" means, the number of Applicable Business Days specified in the Final Terms; if none is specified "Lookback r "shall be deemed to be equal to 5;

ni means, if "Compounding with Lookback" applies, for any day "i", the number of calendar days from and including such day "i" to but excluding, the earlier of (and excluding) (a) the next Applicable Business Day, and (b) the last day of the relevant Interest Period;

Underlying Benchmark Level i-Lookback r ABD means:

a) subject to paragraph b) below, for any Applicable Business Day "i" in the relevant Interest Period, the level of the Underlying Benchmark specified in the Final Terms in respect of the Applicable Business Day falling "Lookback_r" Applicable Business Days

preceding “i” provided by its administrator to authorised distributors and published on the Relevant Screen Page on the Specified Time.
For the avoidance of doubt, pursuant to the rules of an Underlying Benchmark, the level of an Underlying Benchmark in respect of an Applicable Business Day "i" (the **Reset Date**) may be provided by its Administrator to authorised distributors and published on Relevant Screen Pages, on a day (the **Fixing Day**) which is either the same day as the Reset Date or one or more (the actual number being **"p"**) Applicable Business Days before (**" - p"**) or following (**" + p"**) the Reset Date (e.g.SONIA and SOFR) (with **"p"** = 0 if the Fixing Day is on the Reset Date); in that case, the Underlying Benchmark Level **i-Lookback r ABD** shall be the Underlying Benchmark Level published on day i - Lookback r ABD “+ p” or " - p" Applicable Business Day(s);

b) if a “Daily Capped Rate and/or Daily Floored Rate” is specified in the Final Terms, the Underlying Benchmark Level i – Lookback – r ABD for any Applicable Business Day i – Lookback r ABD shall be either:

(i) the greater of the rate determined in accordance with paragraph a) and the Daily Floored Rate specified (if any); and

(ii) the lower of the rate determined in accordance with paragraph a) and the Daily Capped Rate specified (if any),
as applicable;

4.2.3.4.2 Observation Shift

4.2.3.4.2.1 If “Compounding with Observation Shift” is specified in the applicable Final Terms as the applicable RFR Compounding Method, the Reference Rate is equal to:

[Product (i from 1 to d0)(1+(Underlying Benchmark Level i × ni) / Day Count Basis) - 1] × Day Count Basis / d

4.2.3.4.2.2. If “Averaging with Observation Shift” is specified in the applicable Final Terms as the applicable RFR Averaging Method, the Reference Rate is equal to:

[Sum(for i from 1 to d0) (Underlying Benchmark Level i)]

4.2.3.4.2.3 Definitions for Observation Shift

For the purposes of Conditions 4.2.3.4.2.1 and 4.2.3.4.2.2

"Applicable Business Day":

- In respect of any Underlying Benchmark other than the SOFR rate: Applicable Business Day means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial center of the relevant currency of the relevant Underlying Benchmark of the Reference Rate;

- In respect of the SOFR rate: an Applicable Business Day means an U.S. Government Securities Business Day.

"**d**” is the number of calendar days in the relevant Observation Period;

"d0" is:

- if “Compounding with Observation Shift” applies, the number of Applicable Business Days in the Observation Period; or

- if “Averaging with Observation Shift” applies, the number of calendar days in the Observation Period.

"**Day Count Basis**" means, if "Compounding with Observation Shift" applies, the denominator of the Day Count Fraction that customarily applies for the Underlying Benchmark of the relevant Reference Rate and which is either 365 or 360;

"i" is:

- if “Compounding with Observation Shift” applies:

a. a series of whole numbers from one to d0, each representing the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Observation Period; or

- if “Averaging with Observation Shift” applies:

b. a series of whole numbers from one to d0, each representing the relevant calendar day in the Observation Period in chronological order from, and including, the first calendar day in the Observation Period.

"**ni**" is, if "Compounding with Observation Shift" applies, the number of calendar days from, and including, the day *i* to, but excluding, the earlier of (a) the next Applicable Business Day, and (b) the Observation Period End Date for the relevant Observation Period or the Observation Period End Date of the Set in Advance Observation Period as the case may be;

"Observation Period Shift Additional Business Day" means a Business Day in the financial centers specified, as the case may be, for such purpose in the applicable Final Terms otherwise if none is specified in the Final Terms, there shall be no Observation Period Shift Additional Business Day;

"Observation Period" means, for any Interest Period, (A) the period from, and including, the date "*s"* Observation Period Shift Business Days preceding the first calendar day of the relevant Interest Period (and the first Observation Period shall begin on and include the date falling "*s"* Observation Period Shift Business Days prior to the Interest Commencement Date) to, but excluding, the date "s" Observation Period Shift Business Days preceding the last day of the relevant Interest Period (the "**Observation Period End Date**") unless (B) Set-In-Advance Observation is specified as being Applicable in the applicable Final Terms, in which case the Observation Period shall be the Set-In-Advance Observation Period;

"Observation Period Shift Business Day" means a day which is both an Applicable Business Day and, as the case may be, an Observation Period Shift Additional Business Day;

"Set-In-Advance Observation Period" means in respect of an Interest Period, the period that would have been the Observation Period
of the immediately preceding Interest Period, if it had been determined on the basis of the definition of Observation Period above provided that in respect of the first Interest Period, the Set-In Advance Observation Period shall be as specified in the Final Terms (the

First Set-In-Advance Observation Period);

"Underlying Benchmark Level i" means:

(a) if "Compounding with Observation Shift" applies, and subject to paragraph (c) below, for any Applicable Business Day "i, the level of the Underlying Benchmark specified in the Final Terms in respect of such Applicable Business Day "i", provided by its administrator to authorised distributors and published on Relevant Screen Page on the Specified Time; or

(b) if "Averaging with Observation Shift" applies, and subject to paragraph (c) below:

(I) for any Applicable Business Day "i, the level of the Underlying Benchmark in respect of such Applicable Business Day "i", provided by its administrator to authorised distributors and published on Relevant Screen Pages;

(II) for any day that is not an Applicable Business Day, the level of the Underlying Benchmark in respect of the preceding Applicable Business Day in each case as provided by its administrator to authorised distributors and published on Relevant Screen Pages;

(c) if a "Daily Capped Rate and/or Daily Floored Rate" is specified in the Final Terms, the Underlying Benchmark Level "i" shall be either:

(i) the greater of the rate determined in accordance with paragraph a. and the Daily Floored Rate specified (if any); and

(ii) the lower of the rate determined in accordance with paragraph a. and the Daily Capped Rate specified (if any), as applicable;

For the avoidance of doubt, pursuant to the rules of an Underlying Benchmark, the level of an Underlying Benchmark in respect of an Applicable Business Day "i" (the **Reset Date**) may be provided by its Administrator to authorised distributors and published on Relevant Screen Pages, on a day (the **Fixing Day**) which is either the same day as the Reset Date or one or more (the actual number being "p") Applicable Business Days before (**" - p"**) or following (**" + p"**) the Reset Date (e.g.SONIA and SOFR) (with **"p"** = 0 if the Fixing Day is on the Reset Date); in that case, the Underlying Benchmark Level i in respect of an Applicable Business Day "i" shall be the Underlying Benchmark Level published on "+ p" or " - p" Applicable Business Day(s) before or following such Applicable Business Day "i";

"**s**" is the number specified as the "Observation Period Shift" in the applicable Final Terms; if none is specified "s" shall be deemed to be equal to 5;

4.2.3.4.3 Lockout

4.2.3.4.3.1 If "Compounding with Lockout" is specified in the applicable Final Terms as the applicable RFR Compounding Method, the Reference Rate is equal to:

[Product (i from 1 to d0)(1+(Underlying Benchmark Level i × ni) / Day Count Basis) - 1] × Day Count Basis / d

4.2.3.4.3.2 If "Averaging with Lockout" is specified in the applicable Final Terms as the applicable RFR Averaging Method, the Reference Rate is equal to:

[Sum(for i from 1 to d0) (Underlying Benchmark Level i x ni)] x 1/d

4.2.3.4.3.3 Definitions

For the purposes of Conditions 4.2.3.4.3.1 and 4.2.3.4.3.2

"Applicable Business Day":

- In respect of any Underlying Benchmark other than the SOFR rate: Applicable Business Day means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial center of the relevant currency of the relevant Underlying Benchmark of the Reference Rate;

- In respect of the SOFR rate: an Applicable Business Day means an U.S. Government Securities Business Day.

d is the number of calendar days in the relevant Interest Period;

"**d0**" is, for any Interest Period:

- if "Compounding with Lockout" applies: the number of Applicable Business Days in the relevant Interest Period except if the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is the number of Applicable Business Days in the relevant Interest Period plus one; or

- if "Averaging with Lockout" applies: the number of calendar days in that Interest Period

Day Count Basis means, if "Compounding with Lockout" applies, the denominator of the Day Count Fraction that customarily applies for the Underlying Benchmark of the relevant Reference Rate and which is either 365 or 360;

"**i**" is:

- if "Compounding with Lockout" applies:

(a) if the first calendar day in the relevant Interest Period is an Applicable Business Day, a series of whole numbers from one to d0, each representing the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; or

(b) if the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is a series of whole numbers from 1 to d0, where i = 1 represents the first calendar day of the relevant Interest Period, and each of i = 2 to do represents the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; or

- if "Averaging with Lockout" applies,
a series of whole numbers from 1 to d0, each representing the relevant calendar day in the Calculation Period in chronological order from, and including, the first calendar day in the Calculation Period.

"Lockout Date" is the date "t*"* Lockout Period Business Days preceding the last day of the relevant Interest Period or, in respect of the last Interest Period, the Maturity Date (or the date falling "t" Lockout Period Business Days prior to such earlier date, if any, on which the Notes become due and payable;

"Lockout Period" is the period from, and including, the Lockout Date to, but excluding, the last day of the Interest Period or, in respect of the last Interest Period, the Maturity Date (excluded);

"Lockout Period Business Day" means:

a. a Business Day in the financial centers specified for such purpose in the Final Terms; or

b. if no financial centers are specified for such purpose in the Final Terms, an Applicable Business Day;

"**ni**" is, if "Compounding with Lockout" applies, the number of calendar days from, and including, the day *i* to, but excluding, the earlier of (and excluding) (a) the next Applicable Business Day, and (b) the last day of the relevant Interest Period

"**t**" means:

(i) the number specified as such in the applicable Final Terms; or

(ii) if a number is not specified in the applicable Final Terms, "t" shall be deemed to be equal to 5;

Underlying Benchmark Level i means :

(a) subject to paragraph (c), in respect of any day "i" other than a day "i" in the Lockout Period:

(i) if such day "i" is an Applicable Business Day, the level of the Underlying Benchmark in respect of such Applicable Business Day "i" provided by its administrator to authorised distributors and published on Relevant Screen Page on the Specified Time; or

(ii) if such day "i" is not an Applicable Business Day, the level of the Underlying Benchmark in respect of the immediately preceding Applicable Business Day provided by its administrator to authorised distributors and published on Relevant Screen Page on the Specified Time, or

(b) subject to paragraph (c), in respect of an Applicable Business Day "i" in the Lockout Period, the level of the Underlying Benchmark determined in respect of the Lockout Date as if the Lockout Date were an Interest Determination Date; or

(c) if a "Daily Capped Rate and/or Daily Floored Rate" is specified in the Final Terms, the Underlying Benchmark Level "i" for any Applicable Business Day "i" shall be either:

(i) the greater of the rate determined in accordance with paragraph a. or paragraph b., as applicable, and the Daily Floored Rate so specified; and

(ii) the lower of the rate determined in accordance with paragraph a. or paragraph b., as applicable, and the Daily Capped Rate so specified,

as applicable.

For the avoidance of doubt, pursuant to the rules of an Underlying Benchmark, the level of an Underlying Benchmark in respect of an Applicable Business Day "i" (the **Reset Date**) may be provided by its Administrator to authorised distributors and published on Relevant Screen Pages, on a day (the **Fixing Day**) which is either the same day as the Reset Date or one or more (the actual number being "p") Applicable Business Days before (**" - p"**) or following (**" + p"**) the Reset Date (e.g.SONIA and SOFR) (with **"p"** = 0 if the Fixing Day is on the Reset Date); in that case, the Underlying Benchmark Level i in respect of an Applicable Business Day "i" shall be the Underlying Benchmark Level published on "+ p" or " - p" Applicable Business Day(s) before or following such Applicable Business Day "i".

4.2.3.4.4 OIS Compounding or Overnight Averaging

4.2.3.4.4.1 if OIS Compounding is specified in the applicable Final Terms as the applicable RFR Compounding Method, then the Reference Rate is equal to:

[Product (i from 1 to d0)(1+(Underlying Benchmark Level i × ni) / Day Count Basis) - 1] × Day Count Basis / d

4.2.3.4.4.2 If "Overnight Averaging" is specified in the applicable Final Terms as the applicable RFR Averaging Method, then the Reference Rate is equal to:

[Sum(for i from 1 to d0) (Underlying Benchmark Level i)]

4.2.3.4.4.3 Definitions

For the purposes of Conditions 4.2.3.4.4.1 and 4.2.3.4.4.2 :

"**Applicable Business Day**":

- In respect of any Underlying Benchmark other than the SOFR rate: Applicable Business Day means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial center of the relevant currency of the relevant Underlying Benchmark of the Reference Rate;

- In respect of the SOFR rate: an Applicable Business Day means an U.S. Government Securities Business Day.

"**d**" is the number of calendar days in the relevant Interest Period.

"**d0**" is, for any Interest Period:

(a) if "OIS Compounding" applies : the number of Applicable Business Days in the relevant Interest Period except if the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is the number of Applicable Business Days in the relevant Interest Period plus one; or

(b) if "Overnight Averaging" applies : the number of calendar days in that Interest Period;

Day Count Basis means, if "OIS Compounding" applies, in respect of a Reference Rate, the denominator of the Day Count Fraction that customarily applies for the Underlying Benchmark of the Reference Rate and which is either 365 or 360.

"**i**" is:

- if « OIS Compounding » applies :

(i) if the first calendar day in the relevant Interest Period is an Applicable Business Day, a series of whole numbers from 1 to d0, each representing the relevant Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; and

(ii) if the first calendar day of the relevant Interest Period is not an Applicable Business Day, then it is a series of whole numbers from 1 to d0, where *i* = 1 represents the first calendar day of the relevant Interest Period, and each of *i* = 2 to d0 represents the relevant

Applicable Business Day in chronological order from, and including, the first Applicable Business Day in the relevant Interest Period; or

- if "Overnight Averaging" applies: a series of whole numbers from 1 to **d0**, each representing the relevant calendar day in the Interest Period in chronological order from, and including, the first calendar day in the Interest Period;

"**ni**" is, if "OIS Compounding" applies, the number of calendar days from, and including, the day **i** to, but excluding, the earlier of (and excluding) (a) the next Applicable Business Day, and (b) the last day of the Interest Period or, in respect of the last Interest Period, the Maturity Date.

"Underlying Benchmark Level i " means:
for any day "i",

(I) if such day "i" is an Applicable Business Day, the level of the Underlying Benchmark in respect of such Applicable Business Day "i" provided by its administrator to authorised distributors and published on Relevant Screen Page on the Specified Time; or

(II) if such day "i" is not an Applicable Business Day, the level of the Underlying Benchmark in respect of the immediately preceding Applicable Business Day, provided by its administrator to authorised distributors and published on Relevant Screen Page on the Specified Time.

For the avoidance of doubt, pursuant to the rules of an Underlying Benchmark, the level of an Underlying Benchmark in respect of an Applicable Business Day "i" (the **Reset Date**) may be provided by its Administrator to authorised distributors and published on Relevant Screen Pages, on a day (the **Fixing Day**) which is either the same day as the Reset Date or one or more (the actual number being "p") Applicable Business Days before (**" - p"**) or following (**" + p"**) the Reset Date (e.g.SONIA and SOFR) (with **"p"** = 0 if the Fixing Day is on the Reset Date); in that case, the Underlying Benchmark Level i in respect of an Applicable Business Day "i" shall be the Underlying Benchmark Level published on "+ p" or " - p" Applicable Business Day(s) before or following such Applicable Business Day "i".

4.2.3.5 Events affecting Underlying Benchmarks and Reference Rates

4.2.3.5.1 No Index Event has occurred

(i) If ISDA Determination applies pursuant to Condition 4.2.3.1, and the Floating Rate Option for the ISDA Rate in respect of the day for which it is required is not published by the Administrator or an authorised distributor and is not otherwise provided by the Administrator by either (a) the later of (I) the Reset Date (including any day that is deemed to be a Reset Date) and (II) the Fixing Day (both as defined in the 2021 ISDA Definitions) or (b) such other date on which the Reference Rate is required under the Hypothetical Swap Transaction, then the Calculation Agent will determine the ISDA Rate used to calculate the Rate of Interest by applying the fallback provisions of the 2021 ISDA Definitions and the ISDA Interest Rate Derivatives Definitions Floating Rate Matrix (the **ISDA Matrix)** for a Temporary Non-Publication (as defined in the 2021 ISDA Definitions).

(ii) If Standard Screen Rate Determination applies pursuant to Condition 4.2.3.2 above, for the purpose of determining the Rate of Interest, and if, on the relevant Interest Determination Date, (x) the Reference Rate cannot be determined in accordance with the provisions of Condition 4.2.3.2, and (y) an Index Event has not occurred, then the Rate of Interest shall be determined by the Calculation Agent on the basis of the latest (1) offered quotation; or (2) arithmetic mean (rounded, if necessary, to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations, (expressed as a percentage rate *per annum*), for the Reference Rate(s) which appears or appear, as the case may be, on the Relevant Screen Page as at the Specified Time indicated in the Final Terms or the Specified Time in the principal financial centre of the jurisdiction of the relevant Reference Rate, available immediately before the Interest Determination Date, as determined by the Calculation Agent plus or minus (as appropriate) the Margin (if any) and multiplied by any Leverage Factor.

(iii) If Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination applies pursuant to Condition 4.2.3.3. above, for the purpose of determining the Rate of Interest and:

(aa) if the Underlying Benchmark is any of €STR, SARON, SOFR, SONIA and TONA (each as defined below, the **"Major Underlying Benchmarks"** and each a **"Major Underlying Benchmark"**), and such Major Underlying Benchmark, in respect of the day for which it is required to be determined is not published on the Relevant Screen Page by its Administrator or an authorised distributor and is not otherwise provided by the Administrator by either (a) the later of (i) the Reset Date and (ii) the Fixing Day or (b) such other date on which the Major Underlying Benchmark is required, the level of Underlying Benchmark Level in respect of a day "i" used to determine the Reference Rate shall be determined by the Calculation Agent as the last provided or published level of that Major Underlying Benchmark as at the Fixing Day or, if no Fixing Day applies to the Major Underlying Benchmark, as at the day on which that Major Underlying Benchmark was originally required; or

(bb) if the Underlying Benchmark is other than a Major Underlying Benchmark and is not published on the Relevant Screen Page by its Administrator or an authorised distributor and is not otherwise provided by the Administrator by either (a) the later of (i) the Reset Date and (ii) the Fixing Day or (b) such other date on which the Underlying Benchmark is required, then the Underlying Benchmark Level i in respect of a day "i" used to determine the Reference Rate shall be determined by the Calculation Agent (i) pursuant to the Temporary Non Publication Fallback of the 2021 ISDA Definitions and the ISDA Matrix as updated and amended as of the Issue Date of the first Tranche of the Notes when the Underlying Benchmark specified in the applicable Final Terms is also an Underlying Benchmark under the 2021 ISDA Definitions and the ISDA Matrix as if it were the Calculation Agent under an interest rate swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions and using the Underlying Benchmark to

determine the amounts due under such interest rate swap transaction or (ii) otherwise, as the latest available Underlying Benchmark Level provided by its Administrator and published on the Relevant Screen Pages.

4.2.3.5.2 If an Index Event has occurred

If an event affecting a Reference Rate or an Underlying Benchmark occurs preventing the determination of the Rate of Interest of an Interest Period (the **Affected Interest Period**), the following provisions shall apply.

4.2.3.5.2.1 f ISDA Determination applies pursuant to Condition 4.2.3.1, then (i) if the Floating Rate Option specified in the Final Terms is a Floating Rate Option in the ISDA Matrix, the Calculation Agent of the Notes will determine the ISDA Rate used to determine the Rate of Interest as if it were the Calculation Agent of the Hypothetical Swap Transaction by applying the fallback provisions of the 2021 ISDA Definitions and the ISDA Matrix as updated and amended as of the Issue Date of the first Tranche of the Notes, for an Index Cessation or an Administrator/Benchmark Event as appropriate (as defined in the 2021 ISDA Definitions), or (ii) if the Floating Rate Option specified in the Final Terms is not a Floating Rate Option in the ISDA Matrix, the provisions of Condition 4.2.3.5.2.3 below shall apply.

4.2.3.5.2.2 If Standard Screen Rate Determination applies pursuant to Condition 4.2.3.2 above or if Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination applies pursuant to paragraph 4.2.3.3. above, and the Underlying Benchmark is a Major Underlying Benchmark and:

4.2.3.5.2.2.1 The Major Underlying Benchmark is €STR

(i) If an Index Event with respect to €STR occurs, the rate for a Fixing Day (in all this Condition 4.2.3.5.2.2.1 as defined in 4.2.3.4 above) occurring on or after the Applicable Fallback Effective Date with respect to €STR, will be the EUR Recommended Rate.

(ii) Temporary Non-Publication with respect to EUR Recommended Rate. If there is a EUR Recommended Rate before the end of the first T2 Settlement Day following the Applicable Fallback Effective Date with respect to €STR but neither the Administrator nor authorised distributors provide or publish the EUR Recommended Rate, then, subject to paragraph (iii) below, in respect of any day for which the EUR Recommended Rate is required, references to the EUR Recommended Rate will be deemed to be references to the last provided or published EUR Recommended Rate. However, if there is no last provided or published EUR Recommended Rate, then in respect of any day for which the EUR Recommended Rate is required, references to the EUR Recommended Rate will be deemed to be references to the last provided or published €STR.

(iii) No EUR Recommended Rate or Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to EUR Recommended Rate.

If:

(a) there is no EUR Recommended Rate before the end of the first T2 Settlement Day following the Applicable Fallback Effective Date with respect to €STR; or

(b) there is a EUR Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it,

then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to €STR or the Applicable Fallback Effective Date with respect to the EUR Recommended Rate (as applicable) will be Modified EDFR.

(iv) References to EDFR. In respect of any day for which EDFR is required, references to EDFR will be deemed to be references to the last provided or published EDFR as at close of business in Frankfurt on that day.

Where:

"€STR" means the euro short-term rate (€STR) administered by the European Central Bank (or any successor administrator).

"EDFR" means, in respect of any relevant day (including any day "i"), the rate on the deposit facility, which banks may use to make overnight deposits with the Eurosystem, in respect of that day.

"EDFR Spread" means

(i) if no EUR Recommended Rate is recommended before the end of the first T2 Business Day following the Applicable Fallback Effective Date with respect to €STR, the arithmetic mean of the daily difference between the €STR and the EDFR for each of the 30 T2 Business Days immediately preceding the date on which the €STR Index Cessation Event or the Administrator/Benchmark Event occurred; or

(ii) if a EUR Recommended Rate Index Event occurs, the arithmetic mean of the daily difference between the EUR Recommended Rate and the EDFR for each of the 30 T2 Business Days immediately preceding the date on which the EUR Recommended Rate Index Event occurred.

"EUR Recommended Rate" means, in respect of any relevant day (including any day "i"), the rate (inclusive of any spreads or adjustments) recommended as the replacement for €STR by: (i) the European Central Bank (or any successor administrator of €STR); or (ii) a committee officially endorsed or convened by (a) the European Central Bank (or any successor administrator of €STR) and/or

(b) the European Securities and Markets Authority, in each case for the purpose of recommending a replacement for €STR (which rate may be produced by the European Central Bank or another administrator) and as provided by the Administrator of that rate or, if that rate is not provided by the Administrator thereof published by an authorised distributor, in respect of that day.

"Modified EDFR" means, in respect of any relevant day (including any day "i"), a rate equal to EDFR in respect of that day, plus the EDFR Spread.

"T2 Settlement Day" means any day on which the T2 is open for the settlement of payments in Euro.

4.2.3.5.2.2.2 The Major Underlying Benchmark is SARON

(i) If an Index Event with respect to SARON occurs, the rate for a Fixing Day (in all this Condition 4.2.3.5.2.2. as defined in 4.2.3.4 above) occurring on or after the Applicable Fallback Effective Date with respect to SARON will be the NWG Recommended Rate.

(ii) Temporary Non-Publication with respect to NWG Recommended Rate. If there is an NWG Recommended Rate before the end of the first Zurich Business Day following the Applicable Fallback Effective Date with respect to SARON but neither the Administrator nor authorised distributors provide or publish the NWG Recommended Rate, then, subject to paragraph (iii) below, in respect of any day for which the NWG Recommended Rate is required, references to the NWG Recommended Rate will be deemed to be references to the last provided or published NWG Recommended Rate. However, if there is no last provided or published NWG Recommended Rate, then in respect of any day for which the NWG Recommended Rate is required, references to the NWG Recommended Rate will be deemed to be references to the last provided or published SARON.

(iii) No NWG Recommended Rate or Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to NWG Recommended Rate.

If:

(a) there is no NWG Recommended Rate before the end of the first Zurich Business Day following the Applicable Fallback Effective Date with respect to SARON; or

(b) there is an NWG Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it,

then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to SARON or the Applicable Fallback Effective Date with respect to the NWG Recommended Rate (as applicable) will be the Modified SNB Policy Rate.

References to the SNB Policy Rate. In respect of any day for which the SNB Policy Rate is required, references to the SNB Policy Rate will be deemed to be references to the last provided or published SNB Policy Rate as at close of business in Zurich on that day.

Where:

"Modified SNB Policy Rate" means, in respect of any relevant day (including any day "i"), a rate equal to the SNB Policy Rate in respect of that day, plus the SNB Spread.

"NWG Recommended Rate" means, in respect of any relevant day (including any day "i"), the rate (inclusive of any spreads or adjustments) recommended as the replacement for SARON by any working group or committee in Switzerland organized in the same or a similar manner as the National Working Group on Swiss Franc Reference Rates that was founded in 2013 for the purpose of, among other things, considering proposals to reform reference interest rates in Switzerland, and as provided by the Administrator of that rate or, if that rate is not provided by the Administrator thereof, published by an authorised distributor, in respect of that day.

"SARON" means the Swiss Average Rate Overnight administered by SIX Swiss Exchange AG (or any successor administrator).

"SNB Policy Rate" means, in respect of any relevant day (including any day "i"), the policy rate of the Swiss National Bank, in respect of that day.

"SNB Spread" means:

(i) if no NWG Recommended Rate is recommended before the end of the first Zurich Business Day following the CHF Fallback Effective Date, the historical median between SARON and the SNB Policy Rate over an observation period of two years starting two years prior to the day on which the CHF Fallback Trigger Date occurs and ending on the Zurich Business Day immediately preceding the day on which the CHF Fallback Trigger Date occurs; or

(ii) if an Index Cessation Event or Administrator/Benchmark Event with respect to the NWG Recommended Rate occurs, the historical median between the NWG Recommended Rate (or, in the absence of the NWG Recommended Rate, SARON) and the SNB Policy Rate over an observation period of two years starting two years prior to the day on which the Index Cessation Event or Administrator/Benchmark Event with respect to the NWG Recommended Rate occurs and ending on the Zurich Business Day immediately preceding the day on which the Index Cessation Event or Administrator/Benchmark Event with respect to the NWG Recommended Rate occurs, in each case, as determined by the Calculation Agent,

where:

"CHF Fallback Effective Date" means the Applicable Fallback Effective Date with respect to SARON; and

"CHF Fallback Trigger Date" means the day on which the Index Cessation Event or Administrator/Benchmark Event with respect to SARON occurs

"Zürich Business Day" means a day on which commercial banks and foreign exchange markets are open for general business (including settling payments and dealings in foreign exchange and foreign currency deposits) in Zürich.

4.2.3.5.2.2.3 The Major Underlying Benchmark is SOFR

(i) If an Index Event with respect to SOFR occurs, the rate for a Fixing Day (in all this Condition 4.2.3.5.2.2.3 as defined in 4.2.3.4 above) occurring on or after the Applicable Fallback Effective Date with respect to SOFR will be the Fed Recommended Rate.

(ii) Temporary Non-Publication with respect to Fed Recommended Rate. If there is a Fed Recommended Rate before the end of the first U.S. Government Securities Business Day following the Applicable Fallback Effective Date with respect to SOFR but neither the Administrator nor authorised distributors provide or publish the Fed Recommended Rate, then, subject to paragraph (iii) below, in respect of any day for which the Fed Recommended Rate is required, references to the Fed Recommended Rate will be deemed to be references to the last provided or published Fed Recommended Rate. However, if there is no last provided or published Fed Recommended Rate, then in respect of any day for which the Fed Recommended Rate is required, references to the Fed Recommended Rate will be deemed to be references to the last provided or published SOFR.

(iii) No Fed Recommended Rate or Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to Fed Recommended Rate.

If:

(a) there is no Fed Recommended Rate before the end of the first U.S. Government Securities Business Day following the Applicable Fallback Effective Date with respect to SOFR; or

(b) there is a Fed Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it,

then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to SOFR or the Applicable Fallback Effective Date with respect to the Fed Recommended Rate (as applicable) will be OBFR and references to a U.S. Government Securities Business Day for the purposes of any Fixing Day and any Applicable Business Day shall be read as references to a New York Fed Business Day.

(iv) Temporary Non-Publication with respect to OBFR. If neither the Administrator nor authorised distributors provide or publish OBFR, then, subject to paragraph (v) below, in respect of any day for which OBFR is required, references to OBFR will be deemed to be references to the last provided or published OBFR.

(v) Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to OBFR.

If:
(a) there is no Fed Recommended Rate before the end of the first U.S. Government Securities Business Day following the Applicable Fallback Effective Date with respect to SOFR, or there is a Fed Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it; and

(b) an Applicable Fallback Effective Date with respect to OBFR also occurs, then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to OBFR (or, if the Applicable Fallback Effective Date with respect to SOFR or the Applicable Fallback Effective Date with respect to the Fed Recommended Rate (as applicable) is later, a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to SOFR or the Fed Recommended Rate, as applicable) will be the FOMC Target Rate and references to a U.S. Government Securities Business Day for the purposes of any Fixing Day and any Applicable Business Day shall be read as references to a New York City Business Day.

(vi) References to the FOMC Target Rate. In respect of any day for which the FOMC Target Rate is required, references to the FOMC Target Rate will be deemed to be references to the last provided or published FOMC Target Rate as at close of business in New York City on that day.

Where:

"Fed Recommended Rate" means, in respect of any relevant day (including any day "i"), the rate (inclusive of any spreads or adjustments) recommended as the replacement for SOFR by the Federal Reserve Board or the Federal Reserve Bank of New York, or by a committee officially endorsed or convened by the Federal Reserve Board or the Federal Reserve Bank of New York for the purpose of recommending a replacement for SOFR (which rate may be produced by the Federal Reserve Bank of New York or another administrator) and as provided by the Administrator of that rate or, if that rate is not provided by the Administrator thereof, published by an authorised distributor, in respect of that day.

"FOMC Target Rate" means, in respect of any relevant day (including any day "i"), the short term interest rate target set by the Federal Open Market Committee or, if the Federal Open Market Committee does not target a single rate, the mid-point of the short-term interest rate target range set by the Federal Open Market Committee (calculated as the arithmetic average of the upper bound

of the target range and the lower bound of the target range, rounded, if necessary, in accordance with the method set forth in Section 4.8.2 (Rounding of Amounts)), in respect of that day.

"New York City Business Day" means a day on which commercial banks and foreign exchange markets are open for general business (including settling payments and dealings in foreign exchange and foreign currency deposits) in New York.

"New York Fed Business Day" means any day except for a Saturday, Sunday or a day on which the Fedwire Securities Service or the Fedwire Funds Service of the Federal Reserve Bank of New York is closed. References in the Confirmation to "New York Fed" in respect of any day shall be construed as a reference to a New York Fed Business Day.

"OBFR" means, in respect of any relevant day (including any day "i"), the Overnight Bank Funding Rate administered by the Federal Reserve Bank of New York (or a successor administrator), in respect of that day.

"SOFR" means the Secured Overnight Financing Rate administered by the Federal Reserve Bank of New York (or any successor administrator).

"U.S. Government Securities Business Day" means any day except for a Saturday, Sunday or a day on which The Securities Industry and Financial Markets Association (or a successor) recommends that the fixed income departments of its members be closed for the entire day for the purpose of trading in U.S. government securities.

4.2.3.5.2.2.4 The Major Underlying Benchmark is SONIA

(i) If an Index Event with respect to SONIA occurs, the rate for a Fixing Day (in all this Condition 4.2.3.5.2.2.4 as defined in 4.2.3.4 above) occurring on or after the Applicable Fallback Effective Date with respect to SONIA will be the GBP Recommended Rate.

(ii) Temporary Non-Publication with respect to GBP Recommended Rate. If there is a GBP Recommended Rate before the end of the first London Business Day following the Applicable Fallback Effective Date with respect to SONIA but neither the Administrator nor authorised distributors provide or publish the GBP Recommended Rate, then, subject to paragraph (iii) below, in respect of any day for which the GBP Recommended Rate is required, references to the GBP Recommended Rate will be deemed to be references to the last provided or published GBP Recommended Rate. However, if there is no last provided or published GBP Recommended Rate, then in respect of any day for which the GBP Recommended Rate is required, references to the GBP Recommended Rate will be deemed to be references to the last provided or published SONIA.

(iii) No GBP Recommended Rate or Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to GBP Recommended Rate.

If:

(a) there is no GBP Recommended Rate before the end of the first London Business Day following the Applicable Fallback Effective Date with respect to SONIA; or

(b) there is a GBP Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it,

then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to SONIA or the Applicable Fallback Effective Date with respect to the GBP Recommended Rate (as applicable) will be the UK Bank Rate.

4. References to the UK Bank Rate. In respect of any day for which the UK Bank Rate is required, references to the UK Bank Rate will be deemed to be references to the last provided or published UK Bank Rate as at close of business in London on that day.

Where:

"GBP Recommended Rate" means, in respect of any relevant day (including any day "i"), the rate (inclusive of any spreads or adjustments) recommended as the replacement for SONIA by (i) the administrator of SONIA if the administrator of SONIA is a national central bank, or (ii) if the national central bank administrator of SONIA does not make a recommendation or the administrator of SONIA is not a national central bank, a committee designated for this purpose by one or both of the Financial Conduct Authority (or any successor thereto) and the Bank of England and as provided by the then Administrator of that rate or, if that rate is not provided by the Administrator thereof, published by an authorised distributor, in respect of that day.

"London Business Day" means a day on which commercial banks and foreign exchange markets are open for general business (including settling payments and dealings in foreign exchange and foreign currency deposits) in London.

"SONIA" means the Sterling Overnight Index Average rate administered by the Bank of England (or any successor administrator).

"UK Bank Rate" means, in respect of any relevant day (including any day "i"), the official bank rate as determined by the Monetary Policy Committee of the Bank of England and published by the Bank of England from time to time, in effect on that day.

4.2.3.5.2.2.5 The Major Underlying Benchmark is TONA

(i) If an Index Cessation Event or Administrator/Benchmark Event with respect to TONA occurs, the rate for a Fixing Day (in all this Condition 4.2.3.5.2.2.5 as defined in 4.2.3.4 above) occurring on or after the Applicable Fallback Effective Date with respect to TONA will be the JPY Recommended Rate.

(ii) Temporary Non-Publication with respect to JPY Recommended Rate. If there is a JPY Recommended Rate before the end of the first Tokyo Business Day following the Applicable Fallback Effective Date with respect to TONA but neither the Administrator nor authorised distributors provide or publish the JPY Recommended Rate, then, subject to paragraph (iii) below, in respect of any day for which the JPY Recommended Rate is required, references to the JPY Recommended Rate will be deemed to be references to the last provided or published JPY Recommended Rate. However, if there is no last provided or published JPY Recommended Rate, then in respect of any day for which the JPY Recommended Rate is required, references to the JPY Recommended Rate will be deemed to be references to the last provided or published TONA.

(iii) No JPY Recommended Rate or Index Cessation Effective Date or Administrator/Benchmark Event Date with respect to JPY Recommended Rate.

If:

(a) there is no JPY Recommended Rate before the end of the first Tokyo Business Day following the Applicable Fallback Effective Date with respect to TONA; or

(b) there is a JPY Recommended Rate and an Applicable Fallback Effective Date subsequently occurs with respect to it,

then the rate for a Fixing Day occurring on or after the Applicable Fallback Effective Date with respect to TONA or the JPY Recommended Rate (as applicable) will be determined in accordance with the provisions of Condition 4.2.3.5.2.3 below.

"JPY Recommended Rate" means, in respect of any relevant day (including any day "i"), the rate (inclusive of any spreads or adjustments) recommended as the replacement for TONA by a committee officially endorsed or convened by the Bank of Japan for the purpose of recommending a replacement for TONA (which rate may be produced by the Bank of Japan or another administrator) and as provided by the Administrator of that rate or, if that rate is not provided by the Administrator thereof, published by an authorised distributor, in respect of that day.

"Tokyo Business Day" means a day on which commercial banks and foreign exchange markets are open for general business (including settling payments and dealings in foreign exchange and foreign currency deposits) in Tokyo.

Any rate determined pursuant to the provisions of Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5 shall be determined by the Calculation Agent.

4.2.3.5.2.3

(A) This provision applies if an Index Event occurs in respect of a Reference Rate or Underlying Benchmark and:

- ISDA Determination applies pursuant to 4.2.3.1 but the Floating Rate Option specified in the Final Terms is not a Floating Rate Option of the ISDA Matrix; or
- Standard Screen Rate Determination applies pursuant to 4.2.3.2 above but the Underlying Benchmark is not a Major Underlying Benchmark; or
- Compounded RFR Screen Rate Determination or Averaged RFR Screen Rate Determination applies pursuant to paragraph 4.2.3.3. above but the Underlying Benchmark is not a Major Underlying Benchmark;
- this Condition 4.2.3.5.2.3 applies pursuant to Condition 4.2.3.5.2.2.5 above, or
- this Condition 4.2.3.5.2.3 applies pursuant to Condition 4.2.4,

then the Issuer shall use its reasonable endeavours to appoint a Rate Determination Agent, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with paragraph (B) below) and, in either case, an Adjustment Spread if any (in accordance with paragraph (C) below) and any Conforming Changes (in accordance with Condition 4.2.3.6 below).

A Rate Determination Agent appointed pursuant to this Condition shall act in good faith in a commercially reasonable manner as an expert and in consultation with the Issuer. In the absence of bad faith or fraud, the Rate Determination Agent shall have no liability whatsoever to the Issuer, the Paying Agents, the Noteholders or the Couponholders for any determination made by it, pursuant to this Condition.

(B) Successor Rate or Alternative Rate

If the Rate Determination Agent determines that:

(i) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in (C) below) subsequently be used in place of the Original Reference Rate or Original Underlying Benchmark (as the case may be) to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 4.2.3.5.2.3); or

(ii) there is no Successor Rate but there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in (C) below) subsequently be used in place of the Original Reference Rate or Original Underlying Benchmark (as the case may be) to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 4.2.3.5.2.3).

(C) Adjustment Spread

If an Index Cessation or an Administrator/Benchmark Event has occurred in respect of a Reference Rate or an Underlying Benchmark, and the Calculation Agent in respect of any rate determined pursuant to Condition 4.2.3.5.2.2.1. to Condition 4.2.3.5.2.2.5 or the Rate Determination Agent in respect of a Successor Rate or Alternative Rate determines (i) that an Adjustment Spread is required to be applied to any rate determined pursuant to the provisions of Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5, the Successor Rate or the Alternative Rate (as the case may be) and (ii) the quantum of, or a formula or methodology for determining such Adjustment Spread, then such Adjustment Spread shall be applied to any rate determined pursuant to the provisions of Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5, the Successor Rate or the Alternative Rate (as the case may be).

Provided however that:

(y) if an Index Event has occurred but the Applicable Fallback Effective Date has not occurred as determined by the Calculation Agent, then the Reference Rate or the Underlying Benchmark for the Affected Interest Period shall be determined pursuant to the provisions that would apply to the determination of the Reference Rate or Underlying Benchmark as if no Index Event had occurred;

and

(z) if the Index Event has occurred but the Applicable Fallback Effective Date has not occurred as determined by the Calculation Agent, and if the Reference Rate or the Underlying Benchmark specified in the applicable Final Terms affected by the Index Event and used to determine the Rate of Interest of an Interest Period is a Term Rate determined before or at the beginning of such Interest Period and pursuant to the application of the provisions above, it will be replaced by a Successor Rate or an Alternative Rate to be determined at the end or just after the end of an Interest Period as the result of the compounding or averaging of an overnight rate, as observed on dates during a period starting on or before the beginning of the Interest Period, as the case may be plus an Adjustment Spread, then the Successor Rate or Alternative Rate shall be used as from the Affected Interest Period and determined at the end or just after such Affected Interest Period.

"Term Rate" means a benchmark that reflects the rate of return in the relevant market for one or more specified periods of time, with the relevant period of time to be specified in the Final Terms as the Designated Maturity or as part of the Floating Rate Option.

If, in respect of Eligible Notes only, the Issuer determines that the replacement of the Reference Rate or Underlying Benchmark with the Replacement Rate and/or any Adjustment Spread and/or any Conforming Changes (as the case may be): (x) would result in the aggregate nominal amount of the Notes being fully or partially excluded from the eligible liabilities available to meet the MREL Requirements (as called or defined by the then applicable laws and regulations or MREL criteria applicable to the Issuer) and hence can trigger a MREL Disqualification Event or (y) could reasonably result in the Relevant Resolution Authority treating any future Interest Payment Date as the effective maturity of the Notes, rather than the relevant Maturity Date (for example if the switch to the Replacement Rate would create an incentive to redeem the Notes inconsistent to maintain the regulatory status of Eligible Notes),then the Issuer may decide that no Successor Rate or Alternative Rate, will be adopted and the Reference Rate applicable to the next succeeding Interest Period will be equal to the latest available Reference Rate (based on the sequence of levels of Underlying Benchmark available to determine such latest available Reference Rate, as the case may be).

If (i) the Issuer is unable to appoint a Rate Determination Agent or (ii) neither the Calculation Agent is able to determine a rate pursuant to Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5 nor the Rate Determination Agent appointed by it is able to determine a Successor Rate or an Alternative Rate prior to the relevant Interest Determination Date then the Issuer may decide either that (x) that no Replacement Rate will be adopted and the Reference Rate applicable to the next succeeding Interest Period will be equal to the latest available Reference Rate (based on the sequence of levels of Underlying Benchmark available to determine such latest available Reference Rate, as the case may be) or (y) to apply the provisions of Condition 6.2.2..

4.2.3.6 Conforming Changes

Following the occurrence of an Index Event, the Calculation Agent may make any technical, administrative or operational changes (including without limitation, changes to the determination dates, timing and frequency of determining rates and making payments, rounding of amounts or tenors, the introduction or modification of any time delay or lag between the calculation or observation period of a rate and the related payment dates, the application of a mathematical formula to the Reference Rate or Underlying Benchmark and other administrative matters) that the Calculation Agent decides may be appropriate to reflect the change of Reference Rate or Underlying Benchmark by the Replacement Rate in a manner substantially consistent with the prevailing market practice (or, if the Calculation Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Calculation Agent determines that no market practice for use of the Replacement Rate exists, in such other manner as the Calculation Agent determines is reasonably necessary) and/or in order to adapt solutions provided by the 2021 ISDA Definitions and the ISDA Matrix that are designed for the OTC transactions to the context of the Notes (the "**Conforming Changes**").

These conforming changes shall be binding upon the Noteholders.

(A) Notices

Any Replacement Rate, Adjustment Spread (if any) and Conforming Changes (if any) determined under this Condition 4.2.3. will be notified promptly by the Issuer, after receiving such information from the Rate Determination Agent or the Calculation Agent, to the Principal Paying Agent, the Calculation Agent, the Paying Agents and, in accordance with Condition 13, the Noteholders and the Couponholders.

Such notice shall be irrevocable and shall specify the effective date of the Conforming Changes, if any.

Any Replacement Rate, Adjustment Spread (if any) and the Conforming Changes (if any) specified in such notice, will (in the absence of manifest error or bad faith in the determination of the Replacement Rate, the Adjustment Spread (if any) and the Conforming Changes (if any) be final and binding on the Issuer, the Principal Paying Agent, the Calculation Agent, the Paying Agents, the Noteholders and the Couponholders.

(B) Survival of Original Reference Rate

Without prejudice to the obligations of the Issuer under Conditions 4.2.3.5.2.3 and 4.2.3.6, the Original Reference Rate with its Original Underlying Benchmark will continue to apply unless and until these priority fallback provisions fail to provide a means of determining the Rate of Interest.

4.2.3.7 Definitions:

"Adjustment Spread" means the adjustment, if any, to a Replacement Rate that the Calculation Agent determines is required in order to reduce or eliminate, to the extent reasonably practicable, any transfer of economic value from (a) the Issuer to the Noteholders or (b) the Noteholders to the Issuer, in each case that would otherwise arise as a result of the replacement of the Reference Rate or Underlying Benchmark with the Replacement Rate.
Any such adjustment may take account of, without limitation, any anticipated transfer of economic value as a result of any difference in the term structure or tenor of the Replacement Rate by comparison to the Original Reference Rate or Original Underlying Benchmark. The Adjustment Spread may be positive, negative or zero or determined pursuant to a formula or methodology.

"Administrator" means, in respect of a Reference Rate or an Underlying Benchmark, the administrator for that Reference Rate or Underlying Benchmark or, if there is no administrator, the provider of that Reference Rate or Underlying Benchmark; or in either case, any successor administrator or, as applicable, any successor administrator or provider.

"Administrator/Benchmark Event" means, for a Reference Rate or an Underlying Benchmark, any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the Reference Rate or an Underlying Benchmark or the administrator or sponsor of the Reference Rate or an Underlying Benchmark has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that either the Issuer, the Calculation Agent or any other entity is not, or will not be, permitted under any applicable law or regulation to use the Reference Rate or the Underlying Benchmark to perform its or their respective obligations under the Notes.

"Administrator/Benchmark Event Date" means, in respect of a Reference Rate or an Administrator/Benchmark Event, the date from which the Reference Rate or Underlying Benchmark may no longer be used under any applicable law or regulation by the Issuer, the Guarantor and/or the Calculation Agent.

"Alternative Rate" means an alternative screen reference rate or underlying benchmark which the Rate Determination Agent determines in accordance with this Condition in the same Specified Currency as the Notes to replace the Reference Rate or Underlying Benchmark) which is recognised or acknowledged as being the industry standard replacement for over-the-counter derivative transactions which reference such Reference Rate or Underlying Benchmark (which recognition or acknowledgment may be in the form of a press release, a member announcement, member advice, letter, protocol, publication of standard terms or otherwise by ISDA) or that the Calculation Agent determines to be a commercially reasonable alternative for such Reference Rate or Underlying Benchmark

"Applicable Fallback Effective Date" means the Index Cessation Effective Date or the Administrator/Benchmark Event Date.

"Independent Adviser" means an independent financial institution of recognised standing or an independent financial adviser with appropriate expertise appointed by the Issuer at its own expense.

"Index Cessation Effective Date" means:

1. the first date on which the Reference Rate or Underlying Benchmark, would ordinarily have been published or provided and is no longer published or provided; or
2. the first date on which the Applicable Benchmark would ordinarily have been published or provided and is either:

(a) non-representative by reference to the most recent statement or publication contemplated in paragraph (iii) of the definition of Index Cessation Event and even if such Underlying Benchmark continues to be published or provided on such date; or

(b) no longer published or provided.

"Index Cessation Event" means, for a Reference Rate or an Underlying Benchmark, the occurrence of one or more of the following events:

(i) a public statement or publication of information by or on behalf of the administrator of the Reference Rate or Underlying Benchmark announcing that it has ceased or will cease to provide the Reference Rate or the Underlying Benchmark permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator or provider, as applicable, that will continue to provide the Reference Rate or Underlying Benchmark;

(ii) a public statement or publication of information by the regulatory supervisor for the administrator of the Reference Rate or Underlying Benchmark, the central bank for the currency of the Reference Rate, an insolvency official with jurisdiction over the administrator for the Reference Rate or Underlying Benchmark, a resolution authority with jurisdiction over the administrator for the Reference Rate or Underlying Benchmark or a court or an entity with similar insolvency or resolution authority over the administrator for the Reference Rate or Underlying Benchmark, which states that the administrator of the Reference Rate or Underlying Benchmark has ceased or will cease to provide the Reference Rate or Underlying Benchmark permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator or provider, as applicable, that will continue to provide the Reference Rate or Underlying Benchmark; or

(iii) in respect of a Reference Rate or Underlying Benchmark, a public statement or publication of information by the regulatory supervisor for the administrator of such Reference Rate or Underlying Benchmark announcing that (a) the regulatory supervisor has determined that such Reference Rate or Underlying Benchmark is no longer, or as of a specified future date will no longer be, representative of the underlying market and economic reality that such Reference Rate or Underlying Benchmark is intended to measure and that representativeness will not be restored and (b) it is being made in the awareness that the statement or publication will engage certain contractual triggers for fallbacks activated by pre-cessation announcements by such supervisor (howsoever described) in contracts.

If, for a Reference Rate or Underlying Benchmark, (i) an event or circumstance which would otherwise constitute or give rise to an Administrator/Benchmark Event also constitutes an Index Cessation Event or (ii) an Index Cessation Event and an Administrator/Benchmark Event would otherwise be continuing at the same time, it will in either case constitute an Index Cessation Event and will not constitute or give rise to an Administrator/Benchmark Event.

"Index Event" means:

(i) an Index Cessation Event;

(ii) an Administrator/Benchmark Event; or

(iii) a Reference Rate or an Underlying Benchmark is, with respect to over-the-counter derivatives transactions which reference such Underlying Benchmark or Reference Rate, the subject of any market-wide development (which may be in the form of a protocol by ISDA) pursuant to which such Reference Rate or Underlying Benchmark is, on a specified date (the **"Risk-Free Rate Event Date"**), replaced with a risk-free rate (or near risk-free rate) established in order to comply with the recommendations in the Financial Stability Board's paper titled "Reforming Major Interest Rate Benchmarks" dated 22 July 2014.

"Original Reference Rate" means the original Reference Rate or screen rate (as applicable) used to determine the Rate of Interest (or any component part thereof) on the Notes as specified in the Final Terms.

"Original Underlying Benchmark" means in respect of an Original Reference Rate the Underlying Benchmark of such Original Reference Rate.

"Rate Determination Agent" means an agent appointed by the Issuer which may be (i) an Independent Adviser, (ii) a leading bank or a broker-dealer in the principal financial centre of the Specified Currency (which may include one of the Dealers involved in the issue of the Notes) as appointed by the Issuer, (iii) the Issuer, (iv) an affiliate of the Issuer or (v) the Calculation Agent, accepting such role;

"Relevant Nominating Body" means, in respect of a Reference Rate or Underlying Benchmark:

(i) the central bank for the currency in which the Reference Rate or Underlying Benchmark is denominated or any central bank or other supervisor which is responsible for supervising either the Reference Rate or Underlying Benchmark or the administrator of the Reference Rate or Underlying Benchmark; or

(ii) any working group or committee officially endorsed or convened by (A) the central bank for the currency in which the Reference Rate or Underlying Benchmark is denominated, (B) any central bank or other supervisor which is responsible for supervising either the Reference Rate or Underlying Benchmark or the administrator of the Reference Rate or Underlying Benchmark, (C) a group of those central banks or other supervisors or (D) the Financial Stability Board or any part thereof.

"Relevant Screen Page" means such display page as may be specified in the applicable Final Terms for the purpose of providing a Reference Rate or Underlying Benchmark, or (i) any successor display page, other published source, information vendor or provider that has been officially designated by the sponsor of the original display page or (ii) if the sponsor has not officially designated a successor display page, other published source, information vendor or provider (as the case may be), the successor display page, other published source, information vendor or provider, if any, designated by the relevant information vendor or provider (if different from the sponsor).

"Replacement Rate" means any rate determined by the Calculation Agent pursuant to Condition 4.2.3.5.2.2.1 to Condition 4.2.3.5.2.2.5 or Successor Rate or Alternative Rate determined by the Rate Determination Agent.

"Successor Rate" means an alternative screen rate or underlying benchmark which the Rate Determination Agent determines in accordance with this Condition as a successor to or replacement of the Original Reference Rate or Original Underlying Benchmark which is formally designated, nominated or recommended by any Relevant Nominating Body.

4.2.3.8 Reference Rate Disruption Event

In relation to a Reference Rate published by a Central Bank or governmental agency and deemed to replicate the yield of a theoretical government bond with a defined maturity (such as, but not limited to, the TEC10 rate for French Obligation assimilables du Trésor (OAT) and the Treasury Constant Maturity (TCM) for U.S. Treasuries, or any successor thereto), if the Calculation Agent determines that, on or prior to a Valuation Date or Averaging Date, such rate published by its administrator on the relevant source does no longer represent the actual yield of the underlying bond (a **Reference Rate Disruption Event**) (which may occur in connection with, but not limited to, or following any default or potential default of the government issuing such bond or unexpected volatility or illiquidity in markets in trading such bonds);

then the Calculation shall either:

(x) calculate the relevant formula used to determine an amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms using, *in lieu* of a published level for the Reference Rate, the level of such Reference Rate as at the Valuation Time on the relevant Valuation Date or Averaging Date, as determined by the Calculation Agent acting in good faith and a commercially reasonable manner by reference to market prices for the related government bonds with a maturity most closely matching the intended maturity and having regard to pricing sources, methods and models (which may include, without limitation, any available firm or indicative prices for such government bonds or internal valuation or recovery models) as the Calculation Agent considers appropriate;

or;

(y) if the Calculation Agent has not retained (x) above and such Reference Rate Disruption Event is likely to have a material impact on the hedge of Société Generale or one of its affiliates in connection with the Notes: consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). Where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and pay or deliver, as the case may be, as soon as possible after the occurrence of the Early Redemption Event, an amount equal to the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 of the General Terms and Conditions. If such event occurs in respect of a Series of Notes on or after the Issue Date of the first Tranche of the Series of Notes, the Issuer or the Guarantor (as applicable), may by notice to the Principal Paying Agent and to the Noteholders, elect that the Notes shall be redeemed early on the fourteenth (14th) calendar day after the delivery by the Issuer (or the Guarantor, as applicable) of the applicable notice of early redemption (the Early Redemption Date), in accordance with this Condition.

4.2.4 Minimum and/or Maximum Rate of Interest and/or Rate Multiplier and/or Leverage Factor

Subject to the provisions of Condition 4.2.3.1 :

- if the applicable Final Terms specify a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate(s) of Interest in respect of any such Interest Period determined in accordance with the provisions of Condition 4.2.3 is less than such Minimum Rate of Interest, the Rate(s) of Interest for such Interest Period shall be such Minimum Rate of Interest.

- if the applicable Final Terms specify a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate(s) of Interest in respect of any such Interest Period determined in accordance with the provisions of Condition 4.2.3 is greater than such Maximum Rate of Interest, the Rate(s) of Interest for such Interest Period shall be such Maximum Rate of Interest.

- if the applicable Final Terms specify that the rate multiplier (the **Rate Multiplier**) is "n/N" or "
nb/Nb" for any Interest Period, then the Rate(s) of Interest in respect of any such Interest Period shall be multiplied by the relevant Rate Multiplier, subject always to the Minimum Rate of Interest and/or Maximum Rate of Interest as described above.

For the purposes of this Condition 4.2.4:

Administrator means for a Floating Rate Option, the administrator of such Floating Rate Option as specified in the ISDA Matrix.

Benchmark Rate means, in respect of any calendar day (in respect of the definition of n) or, as applicable, Business Day (in respect of the definition of nb) of the relevant Interest Period:

- if the applicable Final Terms specify that the clause "*Benchmark Rate*" is stated as being "Reference Rate EURIBOR":

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions and under which the Floating Rate Option is "EUR-EURIBOR" (as defined in the 2021 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date). If on any Benchmark Day, such rate is not published by the Administrator or an authorised distributor and is not otherwise provided by the Administrator;

- if the applicable Final Terms specify that the clause "*Benchmark Rate*" is stated as being "Reference Rate EUR-CMS":

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions and under which the Floating Rate Option is "EUR-EURIBOR ICE Swap Rate-11:00" (as defined in the 2021 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date);

- if the applicable Final Terms specify that the clause "*Benchmark Rate*" is stated as being "Reference Rate SOFR-CMS ":

the rate equal to the Floating Rate for such day that would be determined by the Calculation Agent under an interest rate swap transaction if it were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions and under which the Floating Rate Option is "USD-SOFR ICE Swap Rate" (as defined in the 2021 ISDA Definitions) for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date);

If on any Benchmark Day, any of these rates is not published by the Administrator or an authorised distributor and is not otherwise provided by the Administrator or if an Index Event has occurred in respect of such rate, it will be determined by the Calculation Agent as aforesaid in accordance with the provisions of the Temporary Non-Publication Fallback or the Permanent Cessation Fallback or Administrator/Benchmark Fallback as the case may be, applying to such Floating Rate Option in the 2021 ISDA Definitions and the ISDA Matrix for a period of the Designated Maturity as specified in the applicable Final Terms (without reference to any Reset Date) provided that if the applicable fallback provision is Generic Fallback Provisions then the rate shall be determined pursuant to the provisions of Condition 4.2.3.5.2.3 above.

For the purposes hereof, (i) the value of the Benchmark Rate on any calendar day of the relevant Interest Period which is not a Benchmark Day shall be deemed to be the value ascribed to the Benchmark Rate on the first preceding Benchmark Day and (ii) the value of the Benchmark Rate on each of the last four T2 Business Days of any Interest Period shall be deemed to be the value ascribed to the Benchmark Rate on the fifth T2 Business Day (or the Benchmark Day immediately preceding such fifth T2 Business Day if such fifth T2 Business Day is not a Benchmark Day) preceding the Interest Payment Date relating to such Interest Period.

Benchmark Day means, if the relevant Benchmark Rate is:

- EUR-EURIBOR or EUR-EURIBOR ICE Swap Rate-11:00, a day (other than a Saturday or Sunday) on which the T2 is operating; and

- USD-SOFR-ICE Swap Rate, a day (other than a Saturday or Sunday) on which banks are open for business in New York.

Leverage Factor means a number specified as such in the applicable Final Terms.

Lower Limit means, in respect of the relevant Interest Period, the limit specified in the applicable Final Terms.

n means the number of calendar days in the relevant Interest Period in respect of which the Benchmark Rate was equal to or greater than the Lower Limit and equal to or lower than the Upper Limit, in each case as determined by the Calculation Agent.

nb means the number of Business Days in the relevant Interest Period in respect of which the Benchmark Rate was equal to or greater than the Lower Limit and equal to or lower than the Upper Limit, in each case as determined by the Calculation Agent.

N means the total number of calendar days within the relevant Interest Period.

Nb means the total number of Business Days within the relevant Interest Period.

Upper Limit means, in respect of the relevant Interest Period, the limit specified in the applicable Final Terms.

4.2.5 Determination of Rate(s) of Interest and Interest Amount in respect of Floating Rate Notes

The Calculation Agent will as soon as practicable after each time at which the Rate(s) of Interest is to be determined, determine the Rate(s) of Interest for the relevant Interest Period.

The Calculation Agent will calculate the Interest Amount payable on the Floating Rate Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated by applying the Rate(s) of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.
Floating Rate Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Rate(s) of Interest to the Specified Denomination, as detailed in the applicable Final Terms.

4.2.6 Provisions specific to SHIBOR rate

SHIBOR means the Shanghai Interbank Offered Rate as published on http://www.shibor.org, by China Foreign Exchange Trade System & National Interbank Funding Centre under the authorisation of the People's Bank of China, at around 11.30 a.m., Beijing

time on each business day, including 8 critical terms, i.e. O/N, 1W, 2W, 1M, 3M, 6M, 9M, 1Y, each representing the rate for the corresponding period.

If the Reference Rate is specified in the applicable Final Terms as SHIBOR, "SHIBOR" will be the rate determined by the Calculation Agent acting by and through its Hong Kong Branch on the following basis:

(i) if, at or around 11:30 a.m. (Beijing time) on the Interest Determination Date, a relevant SHIBOR is published on http://www.shibor.org, then the relevant SHIBOR will be that rate; and for the purposes of these General Terms and Conditions, the relevant SHIBOR means SHIBOR in a critical term corresponding to the relevant Interest Period, and

(ii) if for any reason the relevant SHIBOR is not published in respect of a certain Interest Determination Date, the relevant SHIBOR in respect of the business day immediately preceding that Interest Determination Date shall be applied in place thereof.

4.3 Structured Interest Note Provisions

This Condition applies if the applicable Final Terms, specify that the clause "*Structured Interest Note Provisions*" is stated as being "Applicable".

The applicable Final Terms contain provisions applicable to the determination of the Interest Amount and must be read in conjunction with this Condition 4.3 for full information on the manner in which interest is calculated on Structured Notes. In particular, the applicable Final Terms will specify the Interest Commencement Date, the Interest Payment Date(s), the Structured Interest Amount(s), the Business Day Convention and, if applicable, the relevant Day Count Fraction.

4.3.1 Structured Interest Amount(s)

The Structured Interest Amount payable in respect of the Structured Notes shall be determined as follows:

Structured Interest Amount = Specified Denomination multiplied by the Product Formula described in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in the applicable Final Terms.

For the purpose of this Condition:

Product Formula and **Reference of the Product** shall have the meaning given to them, respectively, in the Additional Terms and Conditions relating to Formulae.

4.3.2 Calculation of Interest Amount in respect of Structured Notes

The Calculation Agent will at or as soon as practicable after each time at which the Interest Amount is to be calculated, calculate the Interest Amount for the relevant Interest Period. The Calculation Agent will notify the Principal Paying Agent of the Interest Amount for the relevant Interest Period as soon as practicable after calculating the same (but in no event later than the first Business Day after such calculation).

The Calculation Agent will calculate the Interest Amount payable on the Structured Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated in accordance with the Product Formula as specified in the applicable Final Terms, multiplying such amount by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Structured Notes may provide for a method of calculating interest which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying the Structured Interest Amount to the Specified Denomination, as detailed in the applicable Final Terms.

4.4 Zero Coupon Notes

This Condition applies if the applicable Final Terms specify that the clause "*Zero Coupon Notes Provisions*" is "Applicable".

The applicable Final Terms will specify the accrual yield (the **Accrual Yield**), the reference price (the **Reference Price**) and the Day Count Fraction in relation to Early Redemption Amounts, Optional Redemption Amounts and late payment (pursuant to the provisions of Conditions 6.3 , 6.1.3.1, 6.1.3.7 and 4.7.2).

Where a Zero Coupon Note becomes due and repayable and is not paid when due and the amount due and repayable is the **Amortised Face Amount**, it shall be an amount equal to the sum of:

(A) the Reference Price; and

(B) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and notified in accordance with Condition 13, mutatis mutandis.

For the avoidance of doubt, as a result of the daily compounding of the Accrual Yield, the amount repaid at Redemption is determined in accordance with the following formula: Reference Price × (1 + Accrual Yield)^Day Count Fraction. This formula corresponds to the Reference Price multiplied by the result of applying an exponential function to the Day Count Fraction, with a base equal to one increased by the Accrual Yield.
With Day Count Fraction as defined in Condition 4.7.2 for an accrual period from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and notified in accordance with Condition 13, *mutatis mutandis*.

4.5 Partly Paid Notes

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes.

4.6 Accrual of Interest

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if applicable) from the due date for its redemption unless payment of principal (or, in the case of any Physical Delivery Note, transfer of the Deliverable Asset(s) in respect of the Physical Delivery Amount) is improperly withheld or refused (provided that, in the case of any Physical Delivery Amount, transfer shall not be deemed to have been improperly withheld or refused where such transfer is delayed by reason of circumstances beyond the control of the relevant Issuer or any of its Agents). In such event, interest will continue to be calculated and to accrue until whichever is the earlier of:

(1) the date on which all amounts due in respect of such Note have been paid; and

(2) five days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Principal Paying Agent and notice to that effect has been given to the Noteholders in accordance with Condition 13.

4.7 Certain provisions relating to the calculation of interest

4.7.1 Business Day Convention

If (x) there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or if (y) any Interest Payment Date would otherwise fall on a day which is not a Business Day, the Interest Payment Date(s) (or other date(s)) shall be the day determined by using a Business Day Convention in accordance with the provisions of Conditions 4.7.1.1, 4.7.1.2, 4.7.1.3 or 4.7.1.4 below.

Business Day Convention means a business day convention which may be either Floating Rate Convention, Following Business Day Convention, Modified Following Business Day Convention or Preceding Business Day Convention, as specified in the applicable Final Terms.

For the purposes of these General Terms and Conditions:

Business Centre(s) means the business centre(s) specified in the applicable Final Terms.

Business Day means a day which is both:

1) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in any Business Centre(s) specified in the applicable Final Terms; and

2) either (x) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in the principal financial centre(s) of the country of the relevant Specified Currency (if other than any Business Centre(s) and which, if the Specified Currency is Australian Dollar, shall be Sydney, if the Specified Currency is Canadian Dollar, shall be Montreal and, if the Specified Currency is Renminbi, shall be Hong Kong) or (y) in relation to any sum payable in euro, a T2 Business Day).

T2 Business Day means a day on which the T2 is open.

T2 means the real time gross settlement system operated by the Eurosystem or any successor or replacement for that system.

4.7.1.1 If the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Floating Rate Convention**", in any case where Specified Periods are specified in accordance with Condition 4.2.1(2), then such Interest Payment Date (a) in the case of Condition 4.7.1(x) above, shall be the last day that is a Business Day in the relevant month and the provisions of Condition 4.7.1.2 below shall apply mutatis mutandis or (b) in the case of Condition 4.7.1(y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (i) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (ii) each subsequent Interest Payment Date shall be the last Business Day in the month which falls within the Specified Period after the preceding applicable Interest Payment Date occurred; or

4.7.1.2 if the applicable Final Terms specify that the clause "Business Day Convention" is stated as being "Following **Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day; or

4.7.1.3 if the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Modified Following Business Day Convention**", such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day; or

4.7.1.4 if the applicable Final Terms specify that the clause "*Business Day Convention*" is stated as being "**Preceding Business Day Convention**", such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day.

4.7.1.5 Notwithstanding the provisions of Conditions 4.7.1.1, 4.7.1.2, 4.7.1.3 or 4.7.1.4 above, where the applicable Final Terms specify that the relevant Business Day Convention is to be applied on an "**unadjusted**" basis, the Interest Amount payable on any date shall not be affected by the application of such Business Day Convention.

4.7.2 Day Count Fraction

Day Count Fraction means, if specified as being "Applicable" in the applicable Final Terms, in respect of the calculation of an Interest Amount for any Interest Period, each of the following day count fractions (provided that the Day Count Fraction applicable to Floating Rate Notes denominated in euro shall be Actual/360):

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**Actual/Actual (ICMA)**":

(a) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the **Accrual Period**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (I) the number of days in such Determination Period and (II) the number of Determination Dates (as specified in the applicable Final Terms or, if none is so specified, the Interest Payment Date, the **Determination Dates** and each a **Determination Date**) that would occur in one calendar year; or

(b) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:

(i) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and

(ii) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "1/1", 1 ;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being **"30/360 convention"** and the Notes are Fixed Rate Notes:

the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**Actual/Actual (ISDA)**" or "**Actual/Actual**":

the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (I) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (II) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**Actual/365 (Fixed)**", the actual number of days in the Interest Period divided by 365;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**Actual/365 (Sterling)**", the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**Actual/360**", the actual number of days in the Interest Period divided by 360;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**30/360 convention**, **360/360 convention**" or "**Bond Basis**" and the Notes are variable rate Notes, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction = ([360 × (Y2- Y1)] + [30 × (M2 - M1)] + (D2 - D1)) / 360

where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;

Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D1 is greater than 29, in which case D2 will be 30;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being "**30E/360 convention**" or "**Eurobond Basis**", the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction = ([360 × (Y2- Y1)] + [30 × (M2 - M1)] + (D2 - D1)) / 360

where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;

Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D2 will be 30;

- if the applicable Final Terms specify that the clause "*Day Count Fraction*" is stated as being **30E/360 (ISDA)** is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction = ([360 × (Y2- Y1)] + [30 × (M2 - M1)] + (D2 - D1)) / 360

where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;
Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D2 will be 30.

4.7.3 Other definitions relating to the calculation of interest

Determination Period means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date).

Interest Commencement Date means the date from which a Note accrues interest (as specified in the applicable Final Terms). If no Interest Commencement Date is specified in the applicable Final Terms, the Issue Date shall be deemed to be the Interest Commencement Date.

Interest Period means, unless otherwise specified in the applicable Final Terms, the period beginning on (and including) the Interest Commencement Date and ending on (but excluding) the first Interest Payment Date and each successive period beginning on (and including) an Interest Payment Date and ending on (but excluding) the next Interest Payment Date or such other period as is specified in the applicable Final Terms.

Interest Rate(i-1) means, in respect of an Interest Period, the Rate of Interest determined by the Calculation Agent in respect of the immediately preceding Interest Period.

Issue Date means the date specified as such in the applicable Final Terms. On the Issue Date, the relevant clearing systems debit and credit accounts in accordance with instructions received by them.

sub-unit means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent.

4.8 Rounding generally

In connection with the calculation of any amount payable in respect of the Notes (including, without limitation, interest) and unless otherwise provided in these General Terms and Conditions, such amounts will, if necessary, be rounded to the nearest sub-unit (as defined above) of the relevant Specified Currency, half of any such sub-unit being rounded upwards. Provided that, in connection with any amount payable in Japanese Yen ("JPY"), such amount shall be rounded up to the nearest integer.

4.9 Notification of Interest Amount

The Calculation Agent will cause, as the case may be, the Adjusted Fixed Rate Interest Amount or the Rate(s) of Interest and/or the Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Guarantor (if applicable) and any stock exchange on which the relevant Adjusted Fixed Rate Notes or Floating Rate Notes or Structured Notes are for the time being listed and notice thereof to be published in accordance with Condition 13 as soon as possible after the calculation or determination thereof (provided that, in the case of notification to any stock exchange, such notice will be given by no later than the first day of the relevant Interest Period or, if that is impossible due to the date fixed for such determination or calculation, as soon as practicable on or after such date).

4.10 Certificates to be final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 4, by the Principal Paying Agent or, if applicable, the Calculation Agent, shall (in the absence of wilful default, bad faith, manifest error or proven error) be binding on the Issuer, the Guarantor, the Calculation Agent (if applicable) the other Paying Agents and all Noteholders and (in the absence of wilful default or bad faith) no liability to the Issuer, the Guarantor (if applicable), the Noteholders shall attach to the Principal Paying Agent or, if applicable, the Calculation Agent, in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

5. PAYMENTS AND DELIVERIES

For the purposes of these General Terms and Conditions:
References to "payment" or "repayment" (as the case may be) and other similar expressions will, where the context so admits, be deemed also to refer to delivery of the Deliverable Asset(s) with respect to any Physical Delivery Amount(s).

For the purposes of this Condition:

Bank means a bank in the principal financial centre of the relevant currency or, in the case of euro, in a city in which banks have access to the T2.

5.1 Method of payment

Subject as provided below and, in the case of Physical Delivery Notes, or Uncertificated SIS Notes, subject also as provided in the applicable Final Terms:

(1) payments in a Specified Currency (other than euro or Renminbi) will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with, a bank in the principal financial centre(s) of the country of such Specified Currency (which if the Specified Currency is Australian Dollar, shall be Sydney and, if the Specified Currency is Canadian Dollar, shall be Montreal);

(2) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee;

(3) payments in Renminbi shall be made solely by credit to a Renminbi bank account maintained at a bank in Hong Kong in accordance with applicable laws, rules, regulations and guidelines issued from time to time;

(4) in the case of Physical Delivery Notes and subject to Condition 5.19:

(i) transfer of the Deliverable Asset(s) in respect of any Physical Delivery Amount will be effected by the Delivery (a) to, or to the order of, the Noteholder of the relevant Deliverable Asset(s), (b) to, or to the order of, the Noteholder at the risk of the relevant Noteholder in such manner as may be specified in the transfer notice (the **Transfer Notice**, the form of which is annexed to the Agency Agreement) and subject to compliance with applicable securities laws; and

(ii) if the applicable Final Terms specify that "*Issuer's option to vary method of settlement*" is "Applicable", payment will be made pursuant to the provisions of Condition 5.19.2 or where a Settlement Disruption Event has occurred, pursuant to the provisions of Condition 5.19.4.
For the purposes of these General Terms and Conditions:

Deliver means, in respect of any underlying asset, to deliver, novate, transfer (including, where the applicable underlying asset is a guarantee, transfer the benefit of the guarantee), assign or sell, as appropriate, in a manner customary for the settlement of the applicable underlying asset (which shall include executing all necessary documentation and taking any other necessary actions), in order to convey all right, title and interest in the underlying asset free and clear of any and all liens, charges, claims or encumbrances (including, without limitation, any counterclaim, defence (other than an Exempt Counterclaim or Defence) or right of set off by or of the obligor with respect to the underlying asset); provided that where the underlying asset is a Loan Participation, **Deliver** means to create (or procure the creation of) a participation in favour of the Noteholder and, where the underlying asset is a guarantee, **Deliver** means to Deliver both the guarantee and the underlying obligation to which such guarantee relates. **Delivery** and **Delivered** will be construed accordingly.

In the case of a loan (being any obligation that is documented by a term loan agreement, revolving loan agreement or other similar credit agreement), Delivery shall be effected using documentation substantially in the form of the documentation customarily used in the relevant market for Delivery of such loan at that time.

Exempt Counterclaim or Defence means, in respect of any underlying asset, any defence based upon (a) any lack or alleged lack of authority or capacity of the relevant obligor with respect to the underlying asset to enter into the underlying asset or, where the underlying asset is a guarantee, any lack or alleged lack of authority or capacity of the relevant obligor in respect of the guarantee and/or the obligor in respect of the underlying obligation to which such guarantee relates, (b) any actual or alleged unenforceability, illegality, impossibility or invalidity with respect to any underlying asset or, where the underlying asset is a guarantee, the guarantee and/or the underlying obligation to which such guarantee relates, however described, (c) any applicable law, order, regulation, decree or notice, however described, or the promulgation of, or any change in, the interpretation by any court, tribunal, regulatory authority or similar administrative or judicial body with competent or apparent jurisdiction of any applicable law, order, regulation, decree or notice, however described, or (d) the imposition of, or any change in, any exchange controls, capital restrictions or any other similar restrictions imposed by any monetary or other authority, however described.

Loan Participation means a loan in respect of which, pursuant to a participation agreement, the relevant Issuer is capable of creating, or procuring the creation of, a contractual right in favour of the relevant Noteholder that provides the Noteholder with recourse to the participation seller for a specified share in any payments due under the relevant loan which are received by such participation seller, any such agreement to be entered into between the Noteholder and the Issuer (to the extent the Issuer is then a lender or a member of the relevant lending syndicate).

5.2 [Left blank intentionally]

5.3 Presentation of Definitive Bearer SIS Notes, Receipts and Coupons

Payments of principal in respect of Definitive Bearer SIS Notes will be made (subject as provided below) in the manner provided in Condition 5.1 only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of such Definitive Bearer SIS Notes, and payments of interest in respect of Definitive Bearer SIS Notes will be made (subject as provided below) as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)). Subject to any applicable laws and regulations, such payments made by credit or transfer will be made in immediately available funds to an account maintained by the payee with a bank located outside the United States. Subject as provided below, no payment in respect of any Definitive Bearer SIS Note, Receipt or Coupon will be made upon presentation of such Definitive Bearer SIS Note, Receipt or Coupon at any office or agency of the Issuer, the Guarantor or any Paying Agent in the United States, nor will any such payment be made by credit or transfer to an account, or by mail to an address, in the United States.

Payments of instalments of principal (if any) in respect of Definitive Bearer SIS Notes, other than the final instalment, will be made (subject as provided below) in the manner provided in Condition 5.1 only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt in accordance with the preceding paragraph. Payment of the final instalment will be made in the manner provided in Condition 5.1 only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Bearer SIS Note in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the Definitive Bearer SIS Note to which it appertains. Receipts presented without the Definitive Bearer SIS Note to which they appertain do not constitute valid obligations of the Issuer or, if applicable, the Guarantor. Upon the date on which any Definitive Bearer SIS Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Notes which are Definitive Bearer SIS Notes (other than Dual Currency Notes, Structured Notes or Physical Delivery Notes) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of ten years after the Relevant Date (as defined in Condition 8) in respect of such principal (whether or not such Coupon would otherwise have become

void under Condition 8) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note which is a Definitive Bearer SIS Note becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note, Dual Currency Note, Structured Note or Physical Delivery Note which is a Definitive Bearer SIS Note becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. Where any Floating Rate Note, Dual Currency Note, Structured Note or Physical Delivery Note which is settled by way of cash is presented for redemption without all unmatured Coupons appertaining thereto, payment of all amounts due in relation to such Note will be made only against the provision of such indemnity as the relevant Issuer and, if applicable, the Guarantor may decide.

If the due date for redemption of any Definitive Bearer SIS Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant Definitive Bearer SIS Note.

5.5 [Left blank intentionally

5.6 [Left blank intentionally]

5.7 Payments on SIS Notes and other Notes listed on SIX Swiss Exchange

Notwithstanding any other provision in this Condition, in the case of SIS Notes and other Notes listed on SIX Swiss Exchange, the relevant Swiss Paying Agency Agreement shall supplement and modify the Agency Agreement for the purposes of the relevant Notes, including providing for the appointment of a Principal Swiss Paying Agent (which, in the case of Notes listed on SIX Swiss Exchange shall at all times be a bank or securities dealer that is subject to supervision by the Swiss Financial Market Supervisory Authority FINMA (**FINMA**)) that will perform certain duties including, inter alia, those which relate to Swiss capital market customs and payment instructions.

The relevant Issuer shall make all payments due under SIS Notes or other Notes listed on SIX Swiss Exchange to the Principal Swiss Paying Agent in accordance with the Swiss Paying Agency Agreement and the General Terms and Conditions. Payments in respect of any SIS Notes or other Notes listed on SIX Swiss Exchange, each denominated in Swiss Francs shall be made in freely disposable Swiss Francs, and in the case of SIS Notes or any other Notes listed on SIX Swiss Exchange denominated in a currency other than Swiss Francs in such other currency, which shall also be freely disposable, without collection of costs and whatever the circumstances may be, irrespective of the nationality, domicile or residence of the holder of any SIS Notes or any other Notes listed on SIX Swiss Exchange and without requiring any certification, affidavit or the fulfilment of any other formality. The receipt by the Principal Swiss Paying Agent of the due and punctual payment of such funds in Switzerland shall discharge the Issuer's obligations under the Permanent Global SIS Note or the Definitive Bearer SIS Notes, Receipts and Coupons, if printed, or the Uncertificated SIS Notes or other Notes listed on SIX Swiss Exchange, as the case may be, with respect to the payment of, as the case may be, principal, interest, costs and additional amounts on the Notes and the paying agency fees, in each case to the extent of the funds received.

5.8 [Left blank intentionally]

5.9 [Left blank intentionally]

5.10 [Left blank intentionally]

5.11 Payments subject to tax and other laws

All payments are subject in all cases to (i) any applicable tax or other laws, regulations and directives in any jurisdiction (whether by operation of law or agreement of the Issuer or its Paying Agents) and the Issuer will not be liable for any taxes or duties of whatever nature imposed or levied by such laws, regulations, directives or agreements but without prejudice to the provisions of Condition 7, (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the **US IRS Code**) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto and (iii) any withholding or deduction required pursuant to Section 871(m) of the US IRS Code.

No commission or expense shall be charged to the Noteholders in respect of such payments but, for the avoidance of doubt, without prejudice to the option of the Calculation Agent to apply the provisions specific to the occurrence of an Increased Cost of Hedging, as provided for in each relevant Additional Terms and Conditions.

5.12 Payment Business Day

If the date for payment of any amount in respect of any Note is not a Payment Business Day, the Noteholder thereof shall instead be entitled to payment:

(1) if the applicable Final Terms specify that the clause "*Payment Business Day*" is "**Following Payment Business Day**": on the next following Payment Business Day in the relevant place; or

(2) if the applicable Final Terms specify that the clause "*Payment Business Day*" is "**Modified Following Payment Business Day**": on the next following Payment Business Day in the relevant place, unless the date for payment would thereby fall into the next calendar month, in which event such date for payment shall be brought forward to the immediately preceding Payment Business Day in the relevant place;

provided that if neither "Following Payment Business Day" nor "Modified Following Payment Business Day" is specified in the applicable Final Terms, "Following Payment Business Day" shall be deemed to apply. In the event that any adjustment is made to the date for payment in accordance with this Condition, the relevant amount due in respect of any Note shall not be affected by any such adjustment.
For the purposes of these General Terms and Conditions, except as specified in Conditions 5.6 and 5.9:

Payment Business Day means any day which is:

(1) subject to the provisions of the Agency Agreement, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits);

(2) in the case of Definitive Bearer SIS Notes only, in the relevant place of presentation or, in respect of Uncertificated SIS Notes, the place of registration;

(3) each financial centre(s) (the **Financial Centre(s)**) specified in the applicable Final Terms; and

(4) either (A) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the Specified Currency (which if the Specified Currency is Australian Dollar, shall be Sydney and, if the Specified Currency is Canadian Dollar, shall be Montreal and, if the Specified Currency is Renminbi, shall be Hong Kong) or (B) in relation to any sum payable in euro, a day on which the T2 is open.

5.13 Interpretation of "Principal" and "Interest"

Any reference in these General Terms and Conditions to "principal" in respect of the Notes shall be deemed to include, as applicable, in the applicable Final Terms:

(1) the Optional Redemption Amount(s) of the Notes;

(2) the Automatic Early Redemption Amount(s) of the Notes;

(3) the Final Redemption Amount of the Notes;

(4) the Early Redemption Amount(s) of the Notes;

(5) the Instalment Amount(s), in relation to Instalment Notes;

(6) the Amortised Face Amount (as defined in Condition 4.4) in relation to Zero Coupon Notes;

(7) any additional amounts which may be payable with respect to principal under Condition 7; and

(8) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

Any reference in these General Terms and Conditions to "interest" in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 7.

Any reference in these General Terms and Conditions to "interest accrued" or "accrued interest" shall be deemed to include any arrears of interest suspended as provided in Condition 4.6.

Any reference in these General Terms and Conditions to "principal" and/or "interest" and "Physical Delivery Amount(s)", in the case of Physical Delivery Notes, shall mean such amount less any expenses, fees, stamp duty, levies or other amounts including, but not limited to, any taxes or duties arising from the delivery or transfer of Deliverable Asset(s) payable on or in respect of such Physical Delivery Amount(s).

5.14 Payment Disruption Event

If on or prior to a due date (such date a **"Payment Disruption Date")** for payment of an Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount or such other amount (if any) payable under the Notes and/or under the Guarantee a Payment Disruption Event occurs as determined by the Calculation Agent, the Issuer shall give notice of such occurrence to the Noteholders in accordance with Condition 13 as soon as reasonably practicable thereafter.

Following the occurrence of a Payment Disruption Event:

(A) the date for payment of such Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount or such other amount (if any) payable under the Notes (the "**Disrupted Amount**") will be postponed to (i) the second Business Day following the date on which the Calculation Agent determines that the Payment Disruption Event is no longer subsisting or if earlier (ii) the date falling thirty calendar days following the scheduled due date for payment of the relevant Disrupted Amount (the "**Payment Disruption Cut-off Date**") which, for the avoidance of doubt, may be later than the scheduled Maturity Date; and
(B) (i) in the case of (A)(i) above, the Issuer will pay the relevant Disrupted Amount less Payment Disruption Expenses (if any) in the Specified Currency specified in the applicable Final Terms or (ii) in the case of (A)(ii) above, in lieu of paying the relevant Disrupted Amount in the relevant Specified Currency, the Issuer will, subject to the paragraph below, convert the relevant Disrupted Amount into the Payment Disruption Currency (using the Payment Disruption Exchange Rate for the relevant Payment Disruption Date) and will pay the relevant Disrupted Amount less the Payment Disruption Expenses (if any) in the Payment Disruption Currency on the Payment Disruption Cut-off Date.

If sub-paragraph (B)(ii) above applies, the Calculation Agent will determine the Payment Disruption Exchange Rate acting in good faith and in a commercially reasonable manner in accordance with the following procedures:

(A) the Payment Disruption Exchange Rate shall be the arithmetic mean (rounded, if necessary, to four decimal places (with 0.00005 being rounded upwards)) as determined by or on behalf of the Calculation Agent of the bid and offer Specified Currency/Payment Disruption Currency exchange rates provided by two or more leading dealers on a foreign exchange market (as selected by the Calculation Agent) on such day; or
(B) if fewer than two leading dealers provide the Calculation Agent with bid and offer Specified Currency/Payment Disruption Currency exchange rates on such day, the Calculation Agent shall determine the Payment Disruption Exchange Rate acting in good faith and in a commercially reasonable manner.

For the avoidance of doubt, no Interest Period will be adjusted as a result of the postponement of any interest payment pursuant to this Condition 5.14, and no additional interest will be paid in respect of any postponement of the date for payment.

For the avoidance of doubt, nothing contained in these "Payment Disruption Event" provisions shall prevent the Issuer from making any other determination under these Terms and Conditions of the Notes or any applicable Additional Terms and Conditions.

No action or omission (including, without limitation, any postponement of any payment and/or payment made in a Payment Disruption Currency) in accordance with the provisions of this Condition 5.14 shall constitute an Event of Default.

For the purposes of this Condition 5.14:

"**Payment Disruption Currency**" means Euro or USD as selected in a commercially reasonable manner by the Issuer or the Calculation Agent;

"**Payment Disruption Event**" means the occurrence of an event which makes it unlawful, impossible or otherwise impracticable to pay any Disrupted Amount in the Specified Currency on the Payment Disruption Date, including, without limitation, any decision by a Clearing System to stop accepting the Specified Currency as a settlement currency for its operations and transactions, including, without limitation, the payment of income and/or redemption amounts in respect of the Notes;

"**Payment Disruption Exchange Rate**" means the rate of exchange between the Specified Currency (as specified in the applicable Final Terms) and the Payment Disruption Currency, as determined by the Calculation Agent; and

"**Payment Disruption Expenses**" means, unless it is being specified as "Not Applicable" in the applicable Final Terms, the sum of (i) the cost to the Issuer and/or its affiliates of unwinding any hedging arrangements related to the Notes and (ii) any transaction, payment or other costs and expenses arising directly out of the occurrence of a Payment Disruption Event or the related payment of the Disrupted Amount, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

5.15 Sanctions

If on or prior to a due date (such date a **"Sanctions Disrupted Date"**) for payment of an Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount or such other amount (if any) payable under the Notes and/or under the Guarantee a Sanctions Disruption Event occurs as determined by the Calculation Agent, the Issuer shall give notice of such occurrence to the Noteholders in accordance with Condition 13 as soon as reasonably practicable thereafter.

Following the occurrence of a Sanctions Disruption Event:

(A) the date for payment of such Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount or such other amount (if any) payable under the Notes (the "**Disrupted Amount**") will be postponed to the second Business Day following the date on which the Calculation Agent determines that the Sanctions Disruption Event is no longer subsisting which, for the avoidance of doubt, may be later than the scheduled Maturity Date (the "**Released Payment Date**"). (B) Payments of Disrupted Amounts, in particular but not limited to the situation where the Released Payment Date occurs later than the scheduled Maturity Date, may be made outside the Clearing Systems if the relevant Clearing System(s) has/have decided that these payments are no longer eligible for its operations and transactions.
For the avoidance of doubt, no Interest Period will be adjusted as a result of the postponement of any interest payment pursuant to this Condition 5.15, and no additional interest will be paid in respect of any postponement of the date for payment.

For the avoidance of doubt, nothing contained in these Sanctions Disruption Event provisions shall prevent the Issuer from determining the occurrence of any other event under these Terms and Conditions of the Notes or any applicable Additional Terms and Conditions.

No action or omission (including, without limitation, any postponement of any payment and/or payment made in a Payment Disruption Currency) in accordance with the provisions of this Condition 5.15 shall constitute an Event of Default.

"**Sanctions Disruption Event**" means the payment as envisaged pursuant to these Terms and Conditions **and/or the Guarantee** and the Agency Agreement, the SEB Agency Agreement, the EUI Agency Agreement or the Swiss Paying Agency Agreement or any other paying agency agreement or any other paying agency agreement, of an Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount Final Redemption Amount or such other amount payable (if any) under the Notes, by the Issuer or the Guarantor would constitute a breach or violation of Sanctions, including following the change of interpretation of existing Sanctions.

Sanctions means any economic or financial sanctions, trade embargoes or similar measures enacted, administered or enforced by any of the following (or by any agency of any of the following):
(a) the United Nations;
(b) the United States of America;
(c) the United Kingdom; or
(d) the European Union or any present or future member state thereof.

5.16 Cyber-attacks

If on or prior to a due date for payment of an Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount or such other amount (if any) payable under the Notes and/or the Guarantee (such date a "**Cyber-attack Disruption Date**") a Cyber-attack occurs as determined by the Calculation Agent (a "**Cyber-attack Disruption Event**"), the Issuer shall give notice of such occurrence to the Noteholders in accordance with Condition 13 as soon as reasonably practicable thereafter.

Following the occurrence of a Cyber-attack Disruption Event:
- the date for payment of such Interest Amount, Final Redemption Amount, Automatic Early Redemption Amount, Optional Redemption Amount or such other amount (if any) payable under the Notes and/or the Guarantee (the **"Cyber-attack Disrupted Amount**") will be postponed to the second Business Day following the date on which the Calculation Agent determines that the Cyber-attack Disruption Event is no longer subsisting which, for the avoidance of doubt, may be later than the scheduled Maturity Date, provided that the Issuer and/or the Guarantor shall make their best endeavours to implement remedies as soon as reasonably practicable to eliminate the impact of the Cyber-attack Disruption Event on its/their payment obligations of the Cyber-attack Disrupted Amount under the Notes and/or the Guarantee (as applicable).

"**Cyber-attack**" means any malicious action or attempt initiated to steal, expose, alter, disable or destroy information through unauthorised access to, or maintenance or use of, the Computer Systems of the Issuer, the Guarantor, the Calculation Agent, their respective affiliates (the "**SG Group**"), their IT service providers, by (and without limitation) the use of malware, ransomware, phishing, denial or disruption of service or cryptojacking or any unauthorized entry, removal , reproduction, transmission, deletion, disclosure or modification preventing the Issuer, the Guarantor and/or the Calculation Agent to perform their obligations under the Notes, and notwithstanding the implementation of processes, required, as the case may be, by the laws and regulations applicable to the Issuer, the Guarantor, the Calculation Agent and their affiliates, or their IT service providers to improve their resilience to these actions and attempts.

"**Computer System**" means all the computer resources including, in particular: hardware, software packages, software, databases and peripherals, equipment, networks, electronic installations for storing computer data, including Data.

The Computer System shall be understood to be that which:
- belongs to the SG Group and/or;
- is rented, operated or legally held by the SG Group under a contract with the holder of the rights to the said system and/or;
- is operated on behalf of the SG Group by a third party within the scope of a contractual relationship and/or;
- is made available to the SG Group under a contract within the framework of a shared system (in particular cloud computing).

"**Data**" means any digital information, stored or used by the Computer System, including confidential data.

For the avoidance of doubt, no Interest Period will be adjusted as a result of the postponement of any interest payment pursuant to this Condition 5.16, and no additional interest will be paid in respect of any postponement of the date for payment.

For the avoidance of doubt, nothing contained in these provisions shall prevent the Issuer from making any other determination under these Terms and Conditions of the Notes or any applicable Additional Terms and Conditions.
No action or omission (including, without limitation, any postponement of any payment and/or payment made in a Payment Disruption Currency) in accordance with the provisions of this Condition 5.16 shall constitute an Event of Default.

5.17 Provisions specific to Renminbi Currency Event

If "Renminbi Currency Event" is specified in the applicable Final Terms and a Renminbi Currency Event, as determined by the Calculation Agent, exists on a date for payment of any amount in respect of any Note, the Issuer may determine one or more of the following, and require the Calculation Agent to take such action or make such determination accordingly:

(a) the relevant payment of the Issuer be postponed to 10 Business Days after the date on which the Renminbi Currency Event ceases to exist or, if that would not be possible (as determined by the Issuer acting in good faith) as soon as reasonably practicable thereafter;

(b) that the Issuer's obligation to make a payment in Renminbi under the terms of the Notes be replaced by an obligation to pay such amount in the Relevant Currency (converted at the Alternate Settlement Rate determined by the Calculation Agent as of a time selected in good faith by the Calculation Agent); and/or

(c) the Issuer may redeem all the Notes in whole, but not in part, at their Early Redemption Amount.
Upon the occurrence of a Renminbi Currency Event, the Issuer shall give notice, as soon as practicable, to the Noteholders in accordance with the Condition 13 stating the occurrence of the Renminbi Currency Event, giving brief details thereof and the action proposed to be taken in relation thereto.

For the purpose of this Condition:

Alternate Settlement Rate means the spot rate between Renminbi and the Relevant Currency determined by the Calculation Agent, taking into consideration all available information which the Calculation Agent deems relevant (including, but not limited to, the pricing information obtained from the Renminbi non-deliverable market outside the PRC and/or the Renminbi exchange market inside the PRC).

Renminbi Currency Event means any one of Renminbi Illiquidity, Renminbi Non-Transferability and Renminbi Inconvertibility.

Renminbi Illiquidity means the general Renminbi exchange market in Hong Kong becomes illiquid as a result of which the Issuer and/or any of its affiliates cannot obtain sufficient Renminbi in order to make a payment or perform any other of its obligations under the Notes, as determined by the Calculation Agent in good faith and in a commercially reasonable manner.

Renminbi Inconvertibility means the occurrence of any event that makes it impossible, impracticable or illegal for the Issuer and/or any of its affiliates to convert any amount into or from Renminbi as may be required to be paid by the Issuer under the Notes on any payment date or such other amount as may be determined by the Calculation Agent at the general Renminbi exchange market in Hong Kong, other than where such impossibility, impracticability or illegality is due solely to the failure of the Issuer and/or the relevant affiliate to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date of the first Tranche of the relevant Series of Notes and it is impossible or, having used its reasonable endeavours, impractical, for the Issuer and/or any of its affiliates, due to an event beyond the control of the Issuer or the relevant affiliate, to comply with such law, rule or regulation).

Renminbi Non-Transferability means the occurrence of any event that makes it impossible, impracticable or illegal for the Issuer and/or any of its affiliates to deliver Renminbi between accounts inside Hong Kong or from an account inside Hong Kong to an account outside Hong Kong, other than where such impossibility, impracticability or illegality is due solely to the failure of the Issuer and/or the relevant affiliate to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date and it is impossible or, having used its reasonable endeavours, impractical, for the Issuer and/or any of its affiliates, due to an event beyond the control of the Issuer and/or the relevant affiliate, to comply with such law, rule or regulation).

Governmental Authority means any *de facto* or *de jure* government (or any agency or instrumentality thereof), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of Hong Kong.

Relevant Currency means U.S. dollars, Hong Kong Dollars or such other currency as specified in the applicable Final Terms.

5.18 Provisions specific to Dual Currency Notes

Amounts payable in respect of payment of principal and/or interest, if any, in respect of Dual Currency Notes, shall be determined by the Calculation Agent by converting the relevant amounts in the relevant Specified Currency into the Settlement Currency at the relevant fixing of Dual Currency Exchange Rate.

The method of determining the fixing of Dual Currency Exchange Rate will be specified in the applicable Final Terms and may be one of the following methods:

(1) if "Predetermined" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the Calculation Agent shall use the Predetermined Fixing as the fixing of Dual Currency Exchange Rate to convert the relevant amount(s);

(2) if "Screen Rate Determination" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the fixing of the Dual Currency Exchange Rate will be the relevant exchange rate fixing specified on the Relevant Screen Page at the Dual Currency Valuation Time on the Dual Currency Valuation Date;

(3) if "Calculation Agent Determination" is specified in the applicable Final Terms under item "Method of calculating the fixing of Dual Currency Exchange Rate", the fixing of the Dual Currency Exchange Rate will be determined by the Calculation Agent by reference to such sources it deems appropriate, at the Dual Currency Valuation Time on the Dual Currency Valuation Date.

Notwithstanding any of the above, upon a Dual Currency Disruption Event occurring or continuing on any Dual Currency Valuation Date as determined by the Calculation Agent, the Calculation Agent shall:

(a) determine that the Dual Currency Valuation Date shall be the first succeeding Dual Currency Scheduled Trading Day that is not a Dual Currency Disrupted Day unless each of the eight Dual Currency Scheduled Trading Days immediately following the scheduled Dual Currency Valuation Date is also a Dual Currency Disrupted Day. In that case that eighth Dual Currency Scheduled Trading Day shall be deemed to be the Dual Currency Valuation Date notwithstanding the fact that such day is a Dual Currency Disrupted Day, and the Calculation Agent shall determine its good faith estimate of the fixing of the Dual Currency Exchange Rate as of the Dual Currency Valuation Time on that eighth Dual Currency Scheduled Trading Day and the good faith estimate of the fixing so calculated shall be deemed the fixing of Dual Currency Exchange Rate; and/or

(b) postpone any payment date related to such Dual Currency Valuation Date (including, if applicable, the Maturity Date) until the second Business Day following the date on which a Dual Currency Disruption Event is no longer subsisting, or the date on which the Calculation Agent determines its good faith estimate of the fixing of the Dual Currency Exchange Rate pursuant to the provisions of paragraph (a) above, as the case may be. No interest or other amount shall be paid by the Issuer in respect of such postponement.

provided however that, all references to the word "second" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

For the purpose of this Condition:

Clearing System means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

Settlement Currency means the currency or currencies specified as such in the applicable Final Terms. The applicable Final Terms may specify that the Settlement Currency may vary depending on the occurrence of different scenarios described in the applicable Final Terms;

Dual Currency Disrupted Day means any Dual Currency Scheduled Trading Day on which the Calculation Agent determines that a Dual Currency Disruption Event has occurred;

Dual Currency Disruption Event means the occurrence or existence of (a) a Price Source Disruption, (b) an Illiquidity Disruption, (c) a Dual Exchange Rate or (d) any other event that, in the opinion of the Calculation Agent, is analogous to (a), (b) or (c). For the purpose hereof:

(a) Price Source Disruption means that it becomes impossible to obtain the rate or rates from which the Dual Currency Exchange Rate is calculated;

(b) Illiquidity Disruption means the occurrence of any event in respect of the Specified Currency and/or Settlement Currency whereby it becomes impossible for the Calculation Agent to obtain a firm quote for such currency in an amount deemed necessary by the Calculation Agent to hedge its obligations under the Notes (in one or more transaction(s)) on any Dual Currency Valuation Date; and

(c) Dual Exchange Rate means that the Dual Currency Exchange Rate splits into dual or multiple foreign exchange rates.
Dual Currency Exchange Rate means an exchange rate expressed as X/Y (X and Y are currencies) and specified as such in the applicable Final Terms. For the avoidance of doubt, an exchange rate expressed as X/Y means the number of units (or part units) of Y for which one unit of X can be exchanged;

Dual Currency Scheduled Trading Day means a day on which commercial banks are open (or, but for the occurrence of a Dual Currency Disruption Event would have been open) for business (including dealings in foreign exchange in accordance with the market practice of the foreign exchange market) in the principal financial centres of the Dual Currency Exchange Rate.

5.19 Physical Delivery Notes

If the applicable Final Terms specify that "*Physical Delivery Provisions*" is "Applicable", this Condition applies.
In particular, the applicable Final Terms will specify the Deliverable Asset(s), the Physical Delivery Amount, the provisions governing whether transfer of Deliverable Asset(s) or payment of a cash sum will apply, the Issuer's option to vary method of settlement and the method of transfer of Deliverable Asset(s) in respect of the Physical Delivery Amount.

For the purposes of this Condition:

Deliverable Asset(s) means the deliverable asset(s) which may be either:

(i) the Underlying(s) of the Notes specified under the paragraph "Underlying(s)" in the applicable Final Terms, which may be any Underlying as defined in the Additional Terms and Conditions for Structured Notes or

(ii) if different from the Underlying(s) of the Notes, a share, an American or global depositary receipt and/or an exchange traded fund and/or a fund and/or an exchange traded product and/or a bond and/or a preference share and/or a warrant and/or a future, and/or any other asset specified under the paragraph "Deliverable Asset(s)" in the applicable Final Terms, in such case the provisions of the Additional Terms and Conditions relating to such deliverable asset (as if such asset was an underlying of the Note) shall apply in respect to any definition or event related to such deliverable asset shall apply, or in the case of Credit Linked Notes, the "Specified Deliverable Obligation(s)" subject to the provisions of the Additional Terms and Conditions for Credit Linked Notes.

However,

(a) no share in Societe Generale or the Group will be deliverable. If a Share in Societe Generale or the Group should be delivered, such share will be replaced by, in due proportion, an equivalent amount in cash; and

(b) no Fund Unit in respect of any underlying fund which is a hedge fund will be delivered to retail investors.

Physical Delivery Amount means an amount determined and calculated in the manner described in the applicable Final Terms.

Any reference in these General Terms and Conditions to "Physical Delivery Amount(s)", shall mean such amount less any expenses, fees, stamp duty, levies or other amounts including, but not limited to, any taxes or duties arising from the delivery or transfer of Deliverable Asset(s) payable on or in respect of such Physical Delivery Amount(s).

5.19.1 Method of transfer of Deliverable Asset(s) in respect of Physical Delivery Amount

When the settlement of a Physical Delivery Note is by way of physical delivery, the delivery of any Physical Delivery Amount (including, without limitation, liability for the costs of transfer of Deliverable Asset(s)) will be made through Clearstream or Euroclear or other relevant Clearing System.

The Deliverable Asset(s) will be delivered at the risk of the relevant Noteholders in such manner as may be specified in the transfer notice pursuant to which such Deliverable Assets are delivered (the **Transfer Notice**), the form of which is annexed to the Agency Agreement and, notwithstanding Condition 2, no additional payment or delivery will be due to a Noteholder where any Deliverable Asset(s) is/are delivered after their due date in circumstances beyond the control of either the Issuer or the Settlement Agent. The Transfer Notice will be delivered using the transfer procedures currently utilised by the relevant Clearing System.

A Noteholder's entitlement to any Physical Delivery Amount will be evidenced:

(i) by the Noteholder's account balance appearing on the records of the relevant Clearing System, and

(ii) in the case of Credit Linked Notes by the account balances appearing in the records of the relevant Clearing System or, if necessary, the number of Notes held by each Noteholder as notified to the Principal Paying Agent by the relevant Clearing System
When Notes are held in a Clearing System, to the extent that a beneficial Noteholder holds such Notes through a custodian, the Issuer may in its discretion (and subject to obtaining such proof, evidence and/or indemnity arrangements as it deems appropriate) take account of such custodial arrangements when determining where to deliver Deliverable Asset(s) which form the Physical Delivery Amount.
Any delivery of Deliverable Assets will only be made in compliance with applicable securities laws.

5.19.2 Issuer's option to vary method of settlement

When the applicable Final Terms specify that "*Issuer's option to vary method of settlement*" is "Applicable", the Issuer may elect to pay or cause to be paid to the Noteholder the Final Redemption Amount on the Maturity Date in lieu of its obligation to deliver or procure delivery of the Physical Delivery Amount. Notification of any such election will be given to the Noteholder in accordance with Condition 13.

5.19.3 No obligations in relation to underlying asset

Except as expressly provided, the purchase of Notes does not confer on any Noteholder any rights (whether in respect of voting, distributions or otherwise) attached to any Underlying.

The Issuer shall be under no obligation to register or procure the registration of any Noteholder or any other person as the registered holder in respect of any relevant asset(s) comprised in any Physical Delivery Amount in any relevant register.

For such period of time after the Maturity Date as the Issuer or any person on behalf of the Issuer shall continue to be the legal owner of any asset(s) comprised in any assets comprising the Physical Delivery Amount (or equivalent amounts in circumstances where the Notes are subject to early redemption, purchase or cancellation) (the **Intervening Period**), neither the Issuer nor any other such person shall
(a) be under any obligation to deliver or procure delivery to the relevant Noteholder or any subsequent beneficial owner of such asset(s) or any other person any letter, certificate, notice, circular or any other document or payment whatsoever received by that person in its capacity as the holder of such asset(s), (b) be under any obligation to exercise or procure exercise of any or all rights (including any voting rights) attaching to such asset(s) during the Intervening Period or (c) be under any liability to the relevant Noteholder or any subsequent beneficial owner of such asset(s) or any other person in respect of any loss or damage which the relevant Noteholder or subsequent beneficial owner or any other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or any other such person being the legal owner of such asset(s) during such Intervening Period.

5.19.4 Settlement Disruption Event

If a Settlement Disruption Event does prevent delivery of the Physical Delivery Amount an Interest Payment Date, an Automatic Early Redemption Date or on the Maturity Date, then such delivery shall occur on the first succeeding day on which delivery of the Physical Delivery Amount can take place through the relevant Clearing System (the **Actual Settlement Date**) unless a Settlement Disruption Event prevents delivery for a period of 20 Clearing System Days immediately following the original date that would have been the Actual Settlement Date (the **Delivery Period**). In that latter case, the Issuer shall, in lieu of delivering the Physical Delivery Amount, pay, in respect of each Note, the fair market value of the number of Deliverable Asset(s) to be delivered (the **Fair Market Value**) converted into the Specified Currency at the current exchange rate, if applicable.

The Fair Market Value will be determined by the Calculation Agent on the basis of the market conditions on the first Business Day following the Delivery Period:

(a) if a dividend is paid in respect of the Deliverable Asset(s) from and including the Valuation Date to and, as the case may be, (i) excluding the Delivery Date or (ii) including, in the event of a Settlement Disruption Event, the date on which the Fair Market Value is calculated, then, the net dividend amount relating to the number of Deliverable Asset(s) to be delivered per Note (excluding any related tax credit) converted into the Specified Currency at the current exchange rate, if applicable, will be paid in cash to the Noteholders as soon as practicable; and

(b) all stamp duties, or other similar taxes and/or duties, in respect of physical delivery of Deliverable Asset(s) shall be borne by the Noteholders.

Provided that in the case of Credit Linked Notes, upon the occurrence of a Settlement Disruption Event, the relevant Issuer shall, in lieu of delivering the Physical Delivery Amount, pay, in respect of each Note, the Cash Redemption Amount per Undeliverable Obligations (as defined in the Additional Terms and Conditions for Credit Linked Notes) to be delivered converted into the Specified Currency at the current exchange rate, if applicable.

For the purposes of this Condition:

Clearing System Day means, in respect of a Clearing System, any day on which such Clearing System is open for the acceptance and execution of settlement instructions.

Delivery Date means, as the case may be, (a) an Interest Payment Date, an Automatic Early Redemption Date or the Maturity Date or
(b) in the event of a Settlement Disruption Event, the Actual Settlement Date.

Settlement Disruption Event means any event beyond the control of the Issuer as a result of which the relevant Clearing System cannot clear the transfer of the Physical Delivery Amount.

5.19.5 Illiquidity Event (for Reverse Convertible Bond Linked Notes only)

If the applicable Final Terms specify that the clause "Physical Delivery Provisions" is "Applicable" and the Calculation Agent determines that an Illiquidity Event has occurred, then the Issuer shall, in lieu of delivering the Physical Delivery Amount, pay in respect of each Note, the fair market value of the number of Deliverable Asset(s) to be delivered (the Fair Market Value), as determined by the Calculation Agent in its sole and absolute discretion, converted into the Specified Currency at the current exchange rate, if applicable.

For the purposes of this Condition:

The Fair Market Value will be determined by the Calculation Agent on the basis of the market conditions within 20 Business Days following the Illiquidity Event :

(a) if a dividend is paid in respect of the Deliverable Asset(s) from and including the Valuation Date to and including the date on which the Fair Market Value is calculated, then, the net dividend amount relating to the number of Deliverable Asset(s) to be delivered per Note (excluding any related tax credit) converted into the Specified Currency at the current exchange rate, if applicable, will be paid in cash to the Noteholders as soon as practicable; and
(b) all stamp duties, or other similar taxes and/or duties, in respect of physical delivery of Deliverable Asset(s) shall be borne by the Noteholders.

Illiquidity Event means that in the determination of the Calculation Agent, the liquidity of the Deliverable Asset has decreased significantly since the Issue Date, such decrease of liquidity being likely to have a material impact on the Issuer to fulfil its obligations to deliver the Physical Delivery Amount.

6. REDEMPTION

6.1 Redemption under normal conditions

6.1.1 Final Redemption Amount

Unless previously redeemed or purchased and cancelled as specified in the Conditions below, each Note will be redeemed by the Issuer on the Maturity Date, at a final redemption amount specified in the applicable Final Terms (the **Final Redemption Amount**).

The Final Redemption Amount shall be determined in accordance with one of the following options :

Option 1 :
- Final Redemption Amount = At par,

Option 2 :
- Final Redemption Amount = a fixed amount per Specified Denomination or the Calculation Amount,

Option 3 :
- Final Redemption Amount = Specified Denomination multiplied by the percentage specified in the applicable Final Terms (if such percentage is different from 100% of the Specified Denomination),

Option 4 :
- Final Redemption Amount = Specified Denomination multiplied by the Product Formula described in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in paragraph "Reference of the Product" in the applicable Final Terms.

In the case of Physical Delivery Notes, such Notes will be redeemed by the transfer of the Deliverable Asset(s) specified in the applicable Final Terms, or determined in the manner specified in the Additional Terms and Conditions relating to Formulae, in the relevant Specified Currency or, if applicable, converted into the relevant Specified Currency, on the Maturity Date.

Provided that :

- in the case of a Non-exempt Offer Note (including a Note that is an Italian Certificate) and (i) if a share in Societe Generale or its affiliates is specified as a Deliverable Asset in the applicable Final Terms, the part of the Physical Delivery Amount composed by shares in Societe Generale will be replaced, in due proportion, by an equivalent amount in cash calculated with the manner indicated in the Additional Terms and Conditions relating to Formulae and (ii) no Fund Unit in respect of any underlying fund which is a hedge fund will be delivered to retail investors; and

- in the case of insolvency or resolution of Societe Generale, the claim on Societe Generale with respect to Eligible Structured Notes, will be the amount to be taken into account for the purposes of Article R 613-46-1-III-2° of the Code; this amount is fixed or increasing and does not exceed the initially paid-up amount of the liability.

For the purposes of this Condition:

Product Formula and **Reference of the Product** shall have the meaning given to them respectively in the Additional Terms and Conditions relating to Formulae.

In the case of Preference Share Linked Notes and Warrant Linked Notes, the Final Redemption Amount(s) shall be equal to the Final Redemption Amount per Calculation Amount, as defined in the relevant Additional Terms and Conditions.

6.1.2 [Left blank intentionally]

6.1.3 Redemption prior to maturity

6.1.3.1 Optional early redemption

6.1.3.1.1 Redemption at the option of the Issuer

6.1.3.1.1.1 If the applicable Final Terms specify that "*Redemption at the option of the Issuer*" is "Applicable", the Notes are subject to redemption prior to the Maturity Date at the option of the Issuer at the Optional Redemption Amount(s) (as defined in Condition 6.1.3.1.3 below) on the Optional Redemption Date(s) as specified in the applicable Final Terms.

The applicable Final Terms will specify the Notice Period (as defined in Condition 6.1.3.1.4 below).

In respect of Eligible Notes, redemption of the Notes at the option of the Issuer will be subject to the prior written permission of the Relevant Resolution Authority.

6.1.3.1.1.2 Redemption in part

If the applicable Final Terms specify that "Redemption in part" is "Applicable", the applicable Final Terms will specify the Minimum Redemption Amount and the Maximum Redemption Amount (as defined below).

Any such partial redemption at the option of the Issuer must be equal to a nominal amount (the **Optional Redemption Amount**) not less than a minimum redemption amount (the **Minimum Redemption Amount**) and not more than a maximum redemption amount (the

Maximum Redemption Amount), each amount as specified in the applicable Final Terms.

6.1.3.1.2 Redemption at the option of the Noteholders

If the applicable Final Terms specify that "*Redemption at the option of the Noteholders*" is "Applicable", the Notes are subject to redemption prior to the Maturity Date at the option of the Noteholders at the Optional Redemption Amount(s) (as defined in Condition 6.1.3.1.3 below) on the Optional Redemption Date(s) both as specified in the applicable Final Terms.

In respect of Eligible Notes, no redemption of the Notes at the option of the Noteholders is permitted.

The applicable Final Terms will specify the Notice Period (as defined in Condition 6.1.3.1.4 below).

6.1.3.1.3 Optional Redemption Amount(s)

In the case of Notes other than Preference Share Linked Notes, Warrant Linked Notes and Zero Coupon Notes:

The Optional Redemption Amount(s) shall be determined in accordance with one of the following paragraphs:

- Optional Redemption Amount = Specified Denomination multiplied by a percentage specified in the applicable Final Terms, which percentage may be a value yielded by one or several mathematical operations which may imply and be linked to the relevant Optional Redemption Date,

- Optional Redemption Amount shall be determined on the basis of the Final Redemption Amount as defined in the applicable Final Terms, calculated on the valuation date linked to the relevant Optional Redemption Date,

- If the Notes are Open-ended Notes or Spread Differential Notes (as defined in the Additional Terms and Conditions for Structured Linked Notes), the Optional Redemption Amount specified in the applicable Final Terms shall be the product of (i) Specified Denomination and
(ii) the Product Formula of the Final Redemption Amount in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in paragraph "Reference of the Product" in the applicable Final Terms, but calculated on the
valuation date linked to the relevant Optional Redemption Date,

- Optional Redemption Amount shall be equal to the Market Value (as defined in Condition 6.3 below);
and for each of the options above, if relevant and appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date(s).

In the case of Preference Share Linked Notes and Warrant Linked Notes:

The Optional Redemption Amount(s) shall be equal to the amount defined in the Additional Terms and Conditions for Preference Share Linked Notes or Additional Terms and Conditions for Warrant Linked Notes, as the case may be.

In the case of Zero Coupon Notes:

The Optional Redemption Amount(s) shall be equal to the Amortised Face Amount per Calculation Amount, as defined in Condition 4.4 above.

6.1.3.1.4 Notice Period

6.1.3.1.4.1 Notice Period in case of optional redemption at the option of the Issuer

Upon having given notice to the Noteholders (in accordance with Condition 13) pursuant to a notice period of not less than 5 Business Days or any other notice period (the **Notice Period**) specified in the applicable Final Terms, provided that in any case it shall not be less than 3 Business Days, which notice shall be irrevocable and shall specify the date fixed for redemption, the Issuer shall redeem the then outstanding Notes in whole (or in part only when “Redemption in part” is specified as applicable in the applicable Final Terms) on any Optional Redemption Date(s) and at the Optional Redemption Amount.

In respect of any Credit Linked Notes or Bond Linked Notes, the applicable Final Terms will specify which of the following condition applied:

- any notice given by the Issuer pursuant to this Condition shall be void and of no effect in relation to these Credit Linked Notes or Bond Linked Notes -in the event that a Credit Event Notice- or a Bond Event Notice, has been, or is, delivered to the Noteholders at any time on or prior to 5:00 p.m. (Paris time) on the fourth Business Day preceding the Optional Redemption Date in accordance with this Condition 6; or

- any notice given by the issuer pursuant to this Condition, along with the relevant Optional Redemption Amount, shall be deemed to prevail in one or several of the following cases:

(a) a Credit Event Notice or Bond Event Notice has been delivered prior to, or is delivered to the Noteholders on the same day as, or after any such notice of redemption at the option of the Issuer;

(b) a Potential Failure to Pay – and a Potential Repudiation/Moratorium if applicable – has/have already occurred and is/are continuing at the relevant Optional Redemption Date;

(c) If applicable in respect of Credit Linked Notes: a Notice of Pending Credit Event was delivered less than 100 Business Days prior to the relevant Optional Redemption Date and, immediately prior to such Optional Redemption Date, (x) no DC No Credit Event Announcement has been published and (y) no Credit Event Notice in relation to the pending event has been delivered.

In respect of any Note, any notice given by the Issuer pursuant to this Condition shall be void and of no effect in relation to that Note in the event that, prior to the giving of such notice by the Issuer, the Noteholder had already delivered a Put Notice in relation to that Note in accordance with Condition 6.1.3.1.4.2.

6.1.3.1.4.2 Notice Period in case of redemption at the option of the Noteholder

Subject to Condition 6.1.3.1.2, a Noteholder shall have the option to require that a Note be subject to Redemption at the option of the Noteholder upon such Noteholder giving notice to the Issuer, not less than 5 Business Days or any other notice period (the **Notice Period**) specified in the applicable Final Terms provided that in any case it shall not be less than 3 Business Days.

It may be that before an option to require that a Note be subject to "Redemption at the option of the Noteholders", certain conditions and/or circumstances, as specified in the applicable Final Terms, will need to be satisfied.

For the avoidance of doubt, where a Noteholder is not entitled to deliver a Put Notice (as defined below) by virtue of Condition 6.1.3.1.2 and in circumstances where no such notice is delivered, the relevant Notes shall be subject to redemption in the manner provided in the remaining provisions of this Condition 6.

Any Put Notice given by a Noteholder pursuant to this Condition shall be:

(1) irrevocable except where prior to the due date of the Optional Redemption Date(s) if an Event of Default has occurred and is continuing in which event such Noteholder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this Condition and instead to declare such Note forthwith due and payable pursuant to Condition 9 below; and

(2) void and of no effect in relation to such Note in the event that, prior to the giving of such Put Notice by the relevant Noteholder (A) such Note constituted a Redeemed Note (as defined in Condition 6.1.3.1.1.2), (B) the Issuer had notified the Noteholders of its intention to redeem in whole the then outstanding Notes in a Series of Notes, in each case pursuant to Condition 13 or (C) the Notes were otherwise already subject to early redemption in accordance with the Terms and Conditions.

To exercise the right to require redemption of a Note, the Noteholder must within the Notice Period deliver a duly completed and signed notice (a **Put Notice**) :

[(i) if the Note is in definitive form and held outside Euroclear and Clearstream, in the form (for the time being current) obtainable from any specified office of any Paying Agent or, as the case may be, the Registrar, to the specified office of any Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes) at any time during normal business hours of such Paying Agent or, as the case may be, the Registrar and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition and, in the case of Registered Notes, the nominal amount thereof to be redeemed and, if less than the full nominal amount of the Registered Notes so surrendered is to be redeemed, an address to which a new Registered Note in respect of the balance of such Registered Notes is to be sent subject to and in accordance with the provisions of Condition 13. If this Note is in definitive form, the Put Notice must be accompanied by this Note or evidence satisfactory to the Paying Agent concerned that this Note will, following delivery of the Put Notice, be held to the order or under its control, or
(ii) if the Note is represented by a Global Note or is in definitive form and held through Euroclear or Clearstream or SIS or any other clearing institution in Switzerland recognised for such purposes by SIX Swiss Exchange (as applicable) (**Clearing System**), to the Principal Paying Agent in accordance with the standard procedures of the relevant Clearing System (which may include notice being given on his instruction by the Clearing System or any common depositary or common safekeeper, as the case may be, for them to the Principal Paying Agent by electronic means) in a form acceptable to the relevant Clearing System from time to time, or
(iii) If the Note is an Uncertificated SIS Note, in a form in accordance with the rules and procedures of the relevant Clearing System, provided that:

(x) a Put Notice will not be effective against the Issuer before the date on which the relevant Notes have been transferred to the account designated by the Principal Paying Agent specified in the applicable Final Terms (which, for the purposes of the Uncertificated SIS Notes, will be an account operator specifically authorised by the relevant central securities depositary and clearing institution to process and register issues in the system of the relevant central securities depositary and clearing institution), and blocked by such Principal Paying Agent to prevent further transfer as of the Optional Redemption Date, and

(y) if there is any inconsistency between the above and the rules and procedures of the relevant Clearing System, then the rules and procedures of the relevant Clearing System shall prevail.

6.1.3.2 Automatic Early Redemption

If the applicable Final Terms specify that "Automatic Early Redemption" is "Applicable", the Notes are subject to automatic redemption prior to the Maturity Date at the automatic early redemption amount(s) (**Automatic Early Redemption Amount(s)**) on the automatic

early redemption date(s) (**Automatic Early Redemption Date(s)**) and following the automatic early redemption event (**Automatic Early Redemption Event**), as specified in the applicable Final Terms.

The Automatic Early Redemption Amount(s) shall be determined as follows:

Automatic Early Redemption Amount(s) = Specified Denomination multiplied by a Product Formula described in the Additional Terms and Conditions relating to Formulae corresponding to the Reference of the Product specified in paragraph "Reference of the Product" in the applicable Final Terms.

In the case of Automatic Early Redemption for Warrant Linked Notes, the Automatic Early Redemption Amount per Calculation Amount will be determined and calculated in accordance with the Additional Terms and Conditions for Warrant Linked Notes.

For the purpose of this Condition:

Product Formula and Reference of the Product shall have the meaning given to them in the Additional Terms and Conditions relating to Formulae.

6.1.3.3 Interest Amount and/or the Redemption Amount switch at the option of the Issuer

For the purposes of this Condition:

(i) Any reference to "Interest Amount" shall be deemed to be a reference to the Fixed Coupon Amount, the Floating Coupon Amount and/or the Structured Interest Amount (each defined above) as the context requires.

(ii) Any reference to "Redemption Amount" shall be deemed to be a reference to the Final Redemption Amount, the Automatic Early Redemption Amount and/or the Optional Redemption Amount (each defined in this Condition 6) as the context requires.

If the applicable Final Terms specify that "Interest Amount and/or the Redemption Amount switch at the option of the Issuer " is "Applicable" and if the market value of the Note is higher than or equal to a predefined market value (the **Market Value for the Switch**), the Issuer shall then have the right (i) to add any Interest Amount or (ii) to replace any Interest and/or Redemption Amount by the other Amounts, described here below.

The applicable Final Terms will specify the Market Value for the Switch, the substitute coupon amount (the **Substitute Coupon Amount**) and the substitute coupon additional amount (the **Additional Substitute Coupon Amount**) if "Substitute Coupon" is "Applicable" and/or the substitute final redemption amount (the **Substitute Final Redemption Amount**) if "Substitute Final Redemption" is "Applicable" and the optional modification date(s) (the **Optional Modification Date(s)**) and the Notice Period (as defined below).
Substitute Coupon Amount means an amount determined in accordance with Condition 4.1 related to Fixed Rate Notes or with Condition 4.2 related to Floating Rate Notes.

Additional Substitute Coupon Amount means an amount determined in accordance with Condition 4.1 related to Fixed Rate Notes or with Condition 4.2 related to Floating Rate Notes.

Substitute Final Redemption Amount means an amount determined in accordance with the following provisions:
Substitute Final Redemption Amount = Specified Denomination multiplied by the percentage specified in the applicable Final Terms
The Issuer may, after having given notice to the Noteholders (in accordance with Condition 13) pursuant to a notice period (the Notice Period) specified in the applicable Final Terms (which notice shall be irrevocable and shall specify the date fixed for the switch), substitute the Interest Amount and/or the Redemption Amount by other Amounts.

Any Notice given by the Issuer pursuant to this Condition shall be void and of no effect in relation to such Note in the event that, prior to the giving of such Notice by the Issuer, the Noteholder had already delivered a Put Notice in relation to that Note in accordance with Condition 6.1.3.1.2.

6.1.3.4 Open-ended Notes

If the applicable Final Terms specify that the Notes are "Open-ended Notes", the Notes will not have a predefined maturity date.

The Issuer and the Noteholders will have the right to redeem the Notes, at their Optional Redemption Amount as per Condition 6.1.3.1.1 or Condition 6.1.3.1.2 and Condition 13.

6.1.3.5 Instalment Notes

If the applicable Final Terms specify that "*Instalment Notes Provisions*" is "Applicable", this Condition applies.
The applicable Final Terms will specify the instalment amount(s) (**Instalment Amount(s)**) and the instalment date(s) (**Instalment Date(s)**).

An adjusted specified denomination (**Adjusted Specified Denomination**) may be used for the purpose of calculating the Instalment Amount(s), and will be then specified in the applicable Final Terms.

In the case of early redemption, the Early Redemption Amount will be determined pursuant to Condition 6.3.

6.1.3.6 Partly Paid Notes

If the applicable Final Terms specify that "*Partly Paid Notes Provisions*" is "Applicable", this Condition applies.

The applicable Final Terms will specify the part payment amount(s) (**Part Payment Amount(s)**) and the part payment date(s) (**Part Payment Date(s)**).

Partly Paid Notes will be subscribed at the Part Payment Amount(s) on the Part Payment Date(s) specified in the applicable Final Terms.
The obligation to pay a Part Payment Amount on the relevant Part Payment Date is only incurred by the Noteholders on such Part Payment Date.

Partly Paid Notes will be redeemed on the Maturity Date at their nominal amount and on any Optional Redemption Date at their paid-up nominal amount as at the date fixed for redemption. In the event that any Noteholder fails to pay a Part Payment Amount on the relevant Part Payment Date (such date a **Part Payment Default Date**), any such Notes held by such Noteholder shall automatically be redeemed on the relevant Early Redemption Date at the Settlement Amount.

For the purposes of this Condition:

Early Redemption Date means, in respect of any Note, the seventh Payment Business Day following a Part Payment Default Date;

Settlement Amount means, in respect of any Note, an amount determined by the Calculation Agent in accordance with the following formula:

Max [0; [Paid-up Nominal Amount – Unwinding Costs]]

Where:

Paid-up Nominal Amount means, in respect of any Part Payment Date, the paid-up nominal amount of the relevant Note up to (and including) the applicable Part Payment Date. Interest will neither accrue nor be payable in respect of the period from and including the applicable Part Payment Default Date to and including the applicable Early Redemption Date; and

Unwinding Costs means the pro rata share, in respect of each Note, of the losses (expressed as a positive number) or the gains (expressed as a negative number) of unwinding all hedging arrangements (taking into account the present value of any Part Payment Amount(s) remaining to be paid in respect of the Notes) entered into or purchased by the Issuer and/or the Guarantor in respect of the Notes.

6.1.3.7 Late Payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to Condition 6 or upon its becoming due and repayable as provided in Condition 9 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as per Condition 4.4 with references therein to the date fixed for the redemption or the date upon which the Zero Coupon Note becomes due and repayable replaced by references to the date which is the earlier of:
(1) the date on which all amounts due in respect of the Zero Coupon Note have been paid; and
(2) five days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Note has been received by the Principal Paying Agent and notice to that effect has been given to the Noteholders in accordance with Condition 13.

6.2 Redemption following a Special Event

A **Special Event** means any of the events as defined below:
- a Tax Event (6.2.1),
- a Special Tax Event (6.2.1),
- a Regulatory Event (except for Eligible Notes) (6.2.1),
- a Force Majeure Event (except for Eligible Notes) (6.2.1),
- an Event of Default (except for Eligible Notes)(6.2.1),
- an Administrator/Benchmark Event (except for Eligible Notes) (6.2.2),
- a Trigger redemption at the option of the Issuer (except for Eligible Notes)(6.2.3),
- a Forced redemption or transfer event of Registered Notes (except for Eligible Notes)(6.2.4), or
- a MREL Disqualification Event (for Eligible Notes only) (6.2.5).

Except as otherwise specified in this Condition 6.2, if a Special Event, as defined in this Condition, occurs in respect of a Series of Notes on or after the Issue Date of the first Tranche of the Series of Notes, the Issuer or the Guarantor (as applicable) and in respect of Eligible Notes, subject to the prior written permission of the Relevant Resolution Authority, may by notice to the Principal Paying Agent and to the Noteholders, elect that the Notes shall be redeemed early on the fourteenth (14th) calendar day after the delivery by the Issuer (or the Guarantor, as applicable) of the applicable notice of early redemption (the **Early Redemption Date**), in accordance with this Condition.
Preference Share Linked Notes and Warrant Linked Notes shall be redeemed at their Early Redemption Amount as defined in the Additional Terms and Conditions for the relevant Notes.

Notes other than Preference Share Linked Notes and Warrant Linked Notes will be redeemed as further described in this Condition. For the purposes of this Condition:

Administrator/Benchmark Event has the meaning given to it in Condition 4.2.3.7.

Change in Law means (i) the adoption, enactment, promulgation, execution or ratification of any applicable new law, regulation or rule (including, without limitation, any applicable tax law, regulation or rule) after the Issue Date of the Notes, (ii) the implementation or application of any applicable law, regulation or rule (including, without limitation, any applicable tax law, regulation or rule) already in force on the Issue Date of the Notes but in respect of which the manner of its implementation or application was not known or unclear at the Issue Date, or (iii) the change of any applicable law, regulation or rule existing at the Issue Date of the Notes, or the change in the interpretation or application or practice relating thereto, existing on the Issue Date of the Notes of any applicable law, regulation or rule, by any competent court, tribunal, regulatory authority or any other entity exercising executive, legislative, judicial, taxing, regulatory or administrative powers or functions of or pertaining to government (including any additional or alternative court, tribunal, authority or entity, to that existing on the Issue Date).

Early Redemption of the Notes means the redemption of the Notes, in whole, but not in part, at any time (in the case of Notes other than Floating Rate Notes or any other interest bearing Notes in respect of which the Rate of Interest is not calculated on a fixed rate basis (Structured Interest Notes)) or on any Interest Payment Date (in the case of Floating Rate Notes or Structured Interest Notes) at the Early Redemption Amount referred to in Condition 6.3, together (if appropriate) with accrued interest to (but excluding) the date of redemption provided that in respect of Preference Share Linked Notes or Warrant Linked Notes, the redemption of the Notes shall be at the relevant Early Redemption Amount as defined in the Additional Terms and Conditions for the relevant Notes.

Event of Default has the meaning given to it in Condition 9.

Force Majeure Event means that, by reason of the occurrence of an event or an act of state, on or after the Issue Date, for which the Relevant Entity (as defined below) is not accountable, it becomes impossible and insurmountable for the Relevant Entity to perform its obligations under the Notes, so that the continuance of the Notes is thereby rendered definitively impossible.

Monetisation with Early Redemption at the option of the Noteholder means that the Issuer will apply "Monetisation until the Maturity Date" in accordance with Condition 6.5 but will also offer the Noteholders the option of having their Notes redeemed prior to the Maturity Date in whole (but not in part). If a Noteholder requires the Issuer to redeem such Notes, the Issuer shall terminate its obligations under such Notes and shall pay or cause to be paid an Early Redemption Amount determined on the basis of Market Value as defined in Condition 6.3.

MREL Disqualification Event means a change in the classification of the Eligible Notes under the MREL Requirements, that was not reasonably foreseeable by Societe Generale at the Issue Date of such Notes, and that would be likely to result in or has resulted in the Eligible Notes being fully or partially excluded from the eligible liabilities available to meet the MREL Requirements (as named or defined by the then applicable laws and regulations or MREL criteria applicable to the Issuer). For the avoidance of doubt, the exclusion of a Series of Eligible Notes from the eligible liabilities available to meet the MREL Requirements due to the remaining term of such Notes being less than any period prescribed thereunder does not constitute a MREL Disqualification Event.

Regulatory Event means, following the occurrence of a Change in Law with respect to the Issuer and/or Societe Generale as Guarantor or in any other capacity (including without limitation as market maker of the Notes or direct or indirect shareholder or sponsor of the Issuer) or any of its affiliates involved in the issue of the Notes (hereafter the **Relevant Affiliates** and each of the Issuer, Societe Generale and the Relevant Affiliates, a **Relevant Entity**) that, after the Issue Date of the Notes, (i) any Relevant Entity would incur a materially increased (as compared with circumstances existing prior to such event) amount of tax, duty, liability, penalty, expense, fee, cost or regulatory capital charge however defined or collateral requirements for performing its obligations under the Notes , including, without limitations, due to clearing requirements of, or the absence of, clearing of the transactions entered into in connection with the issue of the Notes, (ii) the Relevant Entity would be required to obtain any licence, authorization, approval, permit, registration from any governmental, inter-governmental, supranational authority, agency, instrumentality, ministry or department thereof that it does not hold as of the Issue Date or to modify its by-laws to comply with the new requirements (a) to hold, acquire, issue, reissue, substitute, maintain, redeem, settle or as the case may be, guarantee, the Notes, (b) to acquire, hold, sponsor or dispose of any asset(s) (or any interests therein) of any other transaction(s) such Relevant Entity may use in connection with the issue of the Notes , (c) to perform obligations in connection with, the Notes or any contractual arrangement entered into between the Issuer and Societe Generale or any Relevant Affiliate or (d) to hold, acquire, maintain, increase, substitute or redeem all or a substantial part of its direct or indirect shareholding in the Issuer's capital or the capital of any Relevant Affiliate or to directly or indirectly sponsor the Issuer or any Relevant Affiliate, or (iii) there is or may be a material adverse effect on a Relevant Entity in connection with the issue of the Notes.

Relevant Notice means, a notice given in accordance with Condition 13 (i) not less than 30 nor more than 45 days, in respect of a Tax Event, a Regulatory Event or a Force Majeure Event, (ii) not less than 7 nor more than 45 days in respect of a Special Tax Event, to the Noteholders (which notice shall be irrevocable) and to the Principal Paying Agent.

Special Tax Event means that the Issuer or, as the case may be, the Guarantor would, on the occasion of the next payment (including payment of principal or interest, if any) or delivery in respect of the Notes, be prevented by the law of a Tax Jurisdiction (as defined in Condition 7) from causing payment or delivery, as the case may be, to be made to the Noteholders of the full amount then due and payable or deliverable, as the case may be, notwithstanding the undertaking to pay additional amounts contained in Condition 7.2.

Tax Event means that (i) the Issuer or, as the case may be, the Guarantor, has or will become obliged to pay additional amounts as provided or referred to in Condition 7 as a result of any change in, or amendment to, the laws or regulations of a Tax Jurisdiction (as defined in Condition 7) or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the Issue Date of the first Tranche of the Notes, and (ii) such obligation cannot be avoided by the Issuer or, as the case may be, the Guarantor taking reasonable measures available to it.
A Tax Event, Special Tax Event, Regulatory Event or Force Majeure Event are each an **Exceptional Event** and together the **Exceptional Events**.

6.2.1 Redemption for Tax Event, Special Tax Event, Regulatory Event (except for Eligible Notes), Force Majeure Event (except for Eligible Notes) or Event of Default (except for Eligible Notes)

If the applicable Final Terms specify:

(a) “Early Redemption”
then, upon the occurrence of an Exceptional Event, the Calculation Agent may, on giving a Relevant Notice, apply Early Redemption of the Notes as defined above, or

(b) “Early Redemption or Monetisation until the Maturity Date”,
then, upon the occurrence of a Tax Event, Special Tax Event or Regulatory Event, the Calculation Agent may, on giving a Relevant Notice, decide to apply either:

(i) Early Redemption of the Notes, or

(ii) "Monetisation until the Maturity Date″ in accordance with Condition 6.5,
and upon the occurrence of a Force Majeure Event or Event of Default (unless the applicable Final Terms specify that Event of Default is not applicable) and in case of Preference Share Linked Notes and Warrant Linked Notes, the Calculation Agent may only apply Early Redemption of the Notes, or

(c) “Monetisation with Early Redemption at the option of the Noteholders, except for Force Majeure Event or Event of Default”,
then, upon the occurrence of a Tax Event, Special Tax Event or Regulatory Event, the Calculation Agent may, on giving a Relevant Notice, apply Monetisation with Early Redemption at the option of the Noteholder as defined above, and
upon the occurrence of a Force Majeure Event or Event of Default (unless the applicable Final Terms specify that Event of Default is not applicable) and in case of Preference Share Linked Notes and Warrant Linked Notes, the Calculation Agent may only apply Early Redemption of the Notes.

If following the occurrence of Tax Event or Special Tax Event, Early Redemption of the Notes does not apply (in accordance with (b) or (c) above), then Condition 7.2 “Gross-up” will not apply.

If the applicable Final Terms specify that Tax Event or Special Tax Event is not applicable, then in case of occurrence of a Tax Event or Special Tax Event the Notes will remain unchanged.

6.2.2 Redemption upon the occurrence of an Administrator /Benchmark Event (except for Eligible Notes)

Upon the occurrence or likely occurrence, as determined by the Calculation Agent, of an Administrator/Benchmark Event in case of Floating Rate Notes as described in Condition 4.2.3.1 above, on or after the Issue Date and if the Calculation Agent has not been able to determine a Replacement Rate and, as the case may be, an Adjustment Spread in accordance with the provisions of Condition 4.2.3.5.2 above, then the Calculation Agent, acting in good faith, may either:

(i) consider such event as an event triggering an early redemption of the Notes (hereafter, an Early Redemption Event). In that case, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount based on the Market Value as defined in Condition 6.3 below; or

(ii) apply Monetisation until the Maturity Date (as defined in Condition 6.5 below).

6.2.3 Trigger redemption at the option of the Issuer (except for Eligible Notes)

If the applicable Final Terms specify that "*Trigger redemption at the option of the Issuer*" is "Applicable", then in the event that at any time during the life of the Notes and for any reason whatsoever, the Aggregate Outstanding Nominal Amount of the Notes equals or falls below the Outstanding Amount Trigger Level, the Issuer shall have the option, subject to any applicable law and regulation, and in the case of Eligible Notes, subject to the prior written permission of the Relevant Resolution Authority, to redeem the then outstanding Notes in while (but not in part) at the Early Redemption Amount on the basis of Market Value as defined in Condition 6.3 upon giving not less than fifteen (15) Business Days' notice to the Noteholders (in accordance with Condition 13) specifying that the Outstanding Amount Trigger Level has been reached.

For the purposes of this Condition:

Aggregate Outstanding Nominal Amount means, at any time, the product of (a) the Specified Denomination and (b) the number of Notes outstanding held at such time by Noteholders other than Societe Generale or its affiliates for their own account as determined in good faith by the Principal Paying Agent in consultation with the clearing institution(s) in or through which the Notes are held and transactions in such Notes are cleared.

Outstanding Amount Trigger Level means 10% of the Aggregate Nominal Amount of the Notes initially issued or, if different from 10%, the level specified as such in the applicable Final Terms.

6.2.4 [Left blank intentionally] .

6.2.5 Redemption for a MREL Disqualification Event (for Eligible Notes)

Upon the occurrence of a MREL Disqualification Event in respect of Eligible Notes, the Issuer may, at any time, at its option (subject to the prior written permission of the Relevant Resolution Authority) and having given not less than thirty (30) nor more than forty-five (45) calendar days' prior irrevocable notice to the Principal Paying Agent, the Noteholders and the Couponholders, in accordance with Condition 13, redeem the outstanding Notes in whole but not in part at their Early Redemption Amount specified in the applicable Final Terms.

6.3 Early Redemption

Where the amount due to be paid to (or delivered to, in the case of Physical Delivery Notes) a Noteholder as a result of Condition 6.2 and Condition 9 is expressed to be the "Early Redemption Amount", such amount will be determined in accordance with the applicable provisions of this Condition.

The Early Redemption Amount will be calculated as follows:

(1) in the case of Notes with a Final Redemption Amount equal to the Issue Price, at the Final Redemption Amount thereof; or

(2) in the case of Notes (other than Zero Coupon Notes) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Notes are denominated, at the amount determined and calculated pursuant the provisions of Condition 5.1; or

(3) in the case of Notes with an Early Redemption Amount specified as Market Value in the applicable Final Terms:

(i) at an amount determined by the Calculation Agent, which, on the due date for the redemption of the Notes, shall represent the fair market value of the Notes and shall have the effect (after taking into account the costs that cannot be avoided to redeem the fair market value to the Noteholders) of preserving for the Noteholders the economic equivalent of the obligations of the Issuer to make the payments in respect of the Notes which would, but for such early redemption, have fallen due after the relevant early redemption date; or

(ii) in case of Spread Differential Notes only, at an amount determined by the Calculation Agent, which, on the due date for the redemption of
the Notes, shall represent the fair market value of the Notes, shall take into account the relevant Spread Value(t) and shall have the effect (after taking into account the costs that cannot be avoided to redeem the fair market value to the Noteholders) of preserving for the Noteholders the economic equivalent of the obligations of the Issuer to make the payments in respect of the Notes which would, but for such early redemption, have fallen due after the relevant early redemption date; the Market Value may be less than the market value of a Societe Generale vanilla bond having the same coupon and maturity as these Notes; or

(4) in the case of Physical Delivery Notes, at the Physical Delivery Amount specified in the applicable Final Terms; or

(5) in the case of Zero Coupon Notes, at the Early Redemption Amount shall be equal to the Market Value (as defined in paragraph 3 above); or the Amortised Face Amount; or , as specified in the applicable Final Terms.

(6) in the case of Preference Share Linked Notes and Warrant Linked Notes, at the Early Redemption Amount determined and calculated in accordance with the Additional Terms and Conditions for Preference Share Linked Notes and the Additional Terms and Conditions for Warrant Linked Notes or at an amount specified in the applicable Final Terms, as the case may be.
For the avoidance of doubt, for the purpose of calculating the Market Value following an Event of Default pursuant to Condition 9 only, no account shall be taken of the creditworthiness of:

(i) the Issuer, which shall be deemed to be able to perform fully its obligations in respect of the Notes;

(ii) the Guarantor, which shall be deemed to be able to perform fully its obligations under the Guarantee;
in respect of Notes bearing interest, notwithstanding anything to the contrary in these Conditions, the Early Redemption Amount, as determined by the Calculation Agent in accordance with this paragraph shall include any accrued interest to (but excluding) the relevant early redemption date and apart from any such interest included in the Early Redemption Amount, no interest, accrued or otherwise, or any other amount whatsoever will be payable by the Issuer or, as the case may be, the Guarantor in respect of such redemption. Where such calculation is to be made for a period of less than a full year, it shall be made on the basis of the Day Count Fraction, if applicable, as specified in the applicable Final Terms.

6.4 Conditions to early redemption, purchase and cancellation with respect to Eligible Notes issued by Societe Generale

As indicated above, the Notes issued by Societe Generale that are Eligible Notes may be early redeemed, purchased or cancelled pursuant to Conditions 6.1.3.1.1, 6.2, 14.3 and 14.4, as the case may be, subject to prior written permission of the Relevant Resolution Authority.

6.5 Monetisation until the Maturity Date

If (i) for the purpose of Conditions 6.2.1 or 6.2.2. the Issuer elects to apply Monetisation until the Maturity Date or if the applicable Final Terms specify that Early Redemption, will not apply or (ii) if pursuant to the applicable Additional Terms and Conditions specified in the applicable Final Terms, the Calculation Agent elects to apply Monetisation as per this Condition, then the Issuer shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date, and/or (2) the Optional Redemption Amount on the Optional Redemption Date, and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 6.5.1, 6.5.2 and/or 6.5.3 below.

In addition, in respect of Physical Delivery Notes, following the occurrence of an event giving rise to the Monetisation until the Maturity Date, the Issuer shall no longer be liable for delivery of (1) the Physical Delivery Amount related to the Intermediate Amount Payment Date, and/or (2) the Physical Delivery Amount related to the Optional Redemption Date, and/or (3) the Physical Delivery Amount as defined in the applicable Final Terms on the Maturity Date but instead will, in full and final satisfaction of its obligations, deliver Deliverable Asset(s) in an amount equal to the amount described in Conditions 6.5.1, 6.5.2 or 6.5.3 below.
This Condition 6.5 and the Monetisation with Early Redemption at the option of the Noteholder will apply, if “Redemption for Tax Event, Special Tax Event, Regulatory Event, Force Majeure Event or Event of Default", of the applicable Final Terms specifies that “Monetisation with Early Redemption at the option of the Noteholders, except for Force Majeure Event, or Event of Default" applies.
All references to the word "fourth" in the paragraphs below may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

6.5.1 Monetisation of any Intermediate Amount

6.5.1.1 In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which could be as low as zero

Pursuant to the provisions of this Condition , the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that, Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be, would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (b) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.1.2 In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which cannot be in any case lower than an amount strictly positive (the Minimum Intermediate Amount)

Pursuant to the provisions of this Condition, the Issuer shall pay (1) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (2) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

(a) (i) the net positive cash amount that Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (ii) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded), and

(b) an amount equal to the Minimum Intermediate Amount.
For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.2 Monetisation of any Optional Redemption Amount

6.5.2.1 In respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Final Terms could be as low as zero

Pursuant to the provisions of this Condition, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be would be left with on the Optional Full Liquidation Date, as a result of liquidating the Optional Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (b) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).
For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.2.2 In respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Final Terms cannot be in any case lower than an amount strictly positive (the Optional Minimum Redemption Amount)

Pursuant to the provisions of this Condition, the Issuer shall pay on the Optional Redemption Date an amount per Note equal to the Optional Minimum Redemption Amount and on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

(a) (i) the net positive cash amount that Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be would be left with on the Optional Full Liquidation Date, as a result of liquidating, the Optional Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (ii) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded), and

(b) an amount equal to the Optional Minimum Redemption Amount.
For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Optional Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Optional Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.3 Monetisation of the Final Redemption Amount

6.5.3.1 In respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Final Terms could be as low as zero

Pursuant to the provisions of this Condition, the Issuer shall pay on the Maturity Date, an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that Societe Generale or any of its affiliates or a Hypothetical Investor as the case may be would be left with on the Full Liquidation Date, as a result of liquidating the Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (b) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded).

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.3.2 In respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Final Terms cannot be in any case lower than an amount strictly positive (the Minimum Redemption Amount)

Pursuant to the provisions of this Condition, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the sum of (1) the Minimum Redemption Amount and (2) an amount, equal to the positive difference, if any, between:

(a) (i) the net positive cash amount that Societe Generale or any of its affiliates or a Hypothetical Investor, as the case may be, would be left with on the Full Liquidation Date, as a result of liquidating, the Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge

Positions) (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (ii) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded), and

(b) an amount equal to the Minimum Redemption Amount.

For the avoidance of doubt, the liquidation proceeds of any assets held by Societe Generale or any of its affiliates or by a Hypothetical Investor as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Societe Generale or any of its affiliates or by a Hypothetical Investor under its Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

6.5.4 Definitions specific to the Monetisation until the Maturity Date

Adjusted Calculation Amount means (a) in respect of the first Compounding Period of a Calculation Period, the Calculation Amount for that Calculation Period and (b) in respect of any succeeding Compounding Period in that Calculation Period, an amount equal to the sum of the Calculation Amount for that Calculation Period and the Compounding Period Amounts for each of the previous Compounding Periods in that Calculation Period.

Clearing System means the clearing system through which the Notes are cleared and settled, as specified in the applicable Final Terms.

Compounding Date means, in respect of a Calculation Period, each Business Day (as defined in Condition 4.7.1) of such Calculation Period.

Compounding Method means that the amount of interest shall be equal to the sum of the Compounding Period Amounts for each Compounding Period in the related Calculation Period.

Compounding Period means, in respect of a Calculation Period, each period from and including a Compounding Date to but excluding the immediately following Compounding Date during that Calculation Period.

Compounding Period Amount means, in respect of a Compounding Period, the product of (a) the Adjusted Calculation Amount, (b) the Compounding Rate and (c) the Day Count Fraction.

Compounding Rate means, in respect of a Compounding Period Amount, the annualised interest rate that the Issuer offers in the Specified Currency as determined by the Calculation Agent on the first day of the relevant Compounding Period; the specific Compounding Rate used in respect of a Specified Currency shall be available at the office of the Calculation Agent from the first day of a Calculation Period.

Day Count Fraction means, for the purposes of Compounding Method, the exact number of days in a Compounding Period (the first included and the last excluded), divided by 360.

Full Liquidation Date means, in respect of the Maturity Date the date on which the liquidation proceeds of the Hedge Positions (including inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Hedge Positions, if any, with the liquidation proceeds of the assets of such Hedge Positions) are deemed, as determined by the Calculation Agent, to be fully received by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be.

Hedge Positions means any purchase, sale, entry into or maintenance, by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be, of one or more (a) positions or contracts in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) cash deposits or cash borrowings and/or (d) other instruments, arrangements, assets or liabilities howsoever described, in order to hedge individually or on a portfolio basis, part or all of Societe Generale or any of its affiliates' or a Hypothetical Investor, as the case may be, obligations under the Notes due on the Maturity Date apportioned pro rata to each outstanding Note provided that, if the Intermediate Full Liquidation Date and/or the Optional Full Liquidation Date has not occurred on or before the fourth Business Day preceding the Maturity Date, then Hedge Positions will include the Intermediate Hedge Positions and/or the Optional Hedge Positions.

Hypothetical Investor means a hypothetical institutional investor not resident in (a) the applicable Relevant Jurisdiction, Local Jurisdiction and/or the Tax Residence Jurisdiction for the purposes of the tax laws and regulations of the Relevant Jurisdiction, Local Jurisdiction and/or the Tax Residence Jurisdiction, as applicable; or (b) a jurisdiction where any refund, credit or any other benefit, exemption or reduction in relation to any Local Taxes may arise under an applicable tax treaty or any relevant laws or arrangements.

Intermediate Amount means either an Interest Amount or an Instalment Amount.

Intermediate Full Liquidation Date means, in respect of any Intermediate Payment Date, the date on which the liquidation proceeds of the Intermediate Hedge Positions (including inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of such Intermediate Hedge Positions) are deemed, as determined by the Calculation Agent, to be fully received by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be.

Intermediate Hedge Positions means any purchase, sale, entry into or maintenance, by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be, of one or more (a) positions or contracts in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) cash deposits or cash borrowings and/or (d) other instruments, arrangements, assets or liabilities howsoever described, in order to hedge individually or on a portfolio basis, part or all of Societe Generale or any of its affiliates' obligations under the Notes due on an Intermediate Payment Date, apportioned pro rata to each outstanding Note.

Intermediate Payment Date means either an Interest Payment Date or an Instalment Date specified as such in the applicable Final Terms of the relevant Notes.

Local Jurisdiction has the meaning given to it in the Additional Terms and Conditions for Structured Notes.

Local Taxes has the meaning given to it in the Additional Terms and Conditions for Structured Notes.

Maturity Date means the date specified as such in the applicable Final Terms of the relevant Notes.

Optional Redemption Amount means the amount specified as such in the applicable Final Terms of the relevant Notes.

Optional Redemption Date means the date specified as such in the applicable Final Terms of the relevant Notes.

Optional Full Liquidation Date means, in respect of an Optional Redemption Date, the date on which the liquidation proceeds of the Optional Hedge Positions (including inter alia by satisfying any obligations or liabilities in place with respect to all or part of such Optional Hedge Positions, if any, with the liquidation proceeds of the assets of such Optional Hedge Positions) are deemed to be fully received by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be, all as determined by the Calculation Agent.

Optional Hedge Positions means any purchase, sale, entry into or maintenance, by Societe Generale or any of its affiliates or by a Hypothetical Investor, as the case may be, of one or more (a) positions or contracts in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) cash deposits or cash borrowings and/or (d) other instruments, arrangements, assets or liabilities howsoever described, in order to hedge individually or on a portfolio basis, a part or all of Societe Generale or any of its affiliates' obligations under the Notes due on an Optional Redemption Date , apportioned pro rata to each outstanding Notes.

Relevant Spot Exchange Rate means in respect of a date and an amount to be converted into the Specified Currency, the rate of exchange of the currency in which such amount is denominated into the Specified Currency used to convert such amount on such date into the Specified Currency as determined by the Calculation Agent.

Tax Residence Jurisdiction has the meaning given to it in Condition 7.

7. TAXATION

7.1 Withholding taxes

All payments and deliveries in respect of Notes and, if applicable, under the Guarantee, shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any jurisdiction unless such withholding or deduction is required by law and/or if specified otherwise in the Terms and Conditions.

7.2 Gross-up

Unless the applicable Final Terms specify that (i) the Gross-up provision is not applicable or (ii) Early Redemption for the purpose of Condition 7.2 is not applicable, this Condition will apply.

If payments in respect of Notes or (if applicable) under the Guarantee, are subject under the legislation of any Tax Jurisdiction, to a withholding or a deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, the relevant Issuer or, as the case may be, the Guarantor shall, to the fullest extent permitted by law,

(i) if the Notes are not Eligible Notes, in respect of payments of interest (if any) and principal; or
(ii) if the Notes are Eligible Notes, in respect of payments of interest (if any) only,

pay such additional amount as may be necessary, in order that each Noteholder after such withholding or deduction, will receive (in the case of Notes falling within (i) above only) principal and (in the case of any Notes) interest (if any) due and payable provided that no such additional amount shall be payable with respect to any Note:

(1) the holder of which is liable to such taxes, duties, assessments or governmental charges in respect of such Note by reason of their being connected with Luxembourg (in the case of payments by SG Issuer) or France (in the case of payments by Societe Generale) other than by the mere holding of such Note; or

(2) presented for payment more than 30 days after the Relevant Date (as defined below), except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Business Day (as defined in Condition 5.12); or

(3) in respect of Exempt Offers, if the applicable Final Terms indicate that no such additional amounts shall be payable.

[7.3 Left blank intentionally]

7.4. U.S. Taxes

Notwithstanding any other provision of these General Terms and Conditions, in no event will the Issuer or the Guarantor be required to pay any additional amounts in respect of the Notes for, or on account of, any withholding or deduction (i) required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, or any official interpretations thereof, or any law implementing an intergovernmental approach thereto, (ii) imposed pursuant to the Section 871(m) Regulations or (iii) imposed by any other law of the United States. In addition, in determining the amount of Section 871(m) withholding imposed, the Issuer shall be entitled to withhold on any "dividend equivalent" (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

If the Issuer or the Guarantor determines that the Notes are Specified Notes pursuant to Section 871(m) Regulations, the applicable Final Terms will specify the withholding rate, the name of the entity which will withhold the rate and the e-mail address where the Noteholders can request additional information regarding the application of Section 871(m) Regulations.

With respect to Specified Notes that provide for net dividend reinvestment in respect of either an underlying U.S. security (i.e. a security that pays U.S. source dividends) or an index that includes U.S. securities, all payments on Notes that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70%. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer or the Guarantor will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer or the Guarantor will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

For the purpose of this Condition:

Relevant Date has the meaning given to it in Condition 8.

Section 871(m) Regulations means the U.S. Treasury regulations issued under Section 871(m) of the Code.

Specified Notes means, subject to special rules from 2017 through 2026 set out in Notice 2024-44 (the **Notice**), Notes issued on or after 1 January 2017 that substantially replicate the economic performance of one or more U.S. underlying equities as determined by the Issuer on the date for such Notes as of which the expected delta of the product is determined by the Issuer, based on tests set out in the applicable Section 871(m) Regulations (for the purposes of the Notice, such Notes are deemed “delta-one” instruments).

Tax Jurisdiction means either Luxembourg or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by SG Issuer), or France or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by Societe Generale).

8. PRESCRIPTION

Claims for payments in connection with the Swiss Law Notes will be prescribed and become void ten years after the date on which the relevant payment first becomes due and payable, except for payments of interest which will be prescribed and become void five years after the relevant interest payment first becomes due and payable.

9. EVENTS OF DEFAULT

9.1 With respect to Notes other than Eligible Notes

Upon the occurrence of any of the following events (each an **Event of Default**):

(1) default by the Issuer is made in the payment or delivery of any amount due in respect of the Notes and such default continues for a period of 30 days, unless the Guarantor (if any) shall have remedied such default before the expiry of such period, and save that the late delivery of any Deliverable Assets in the circumstances referred to in Condition 5 shall not constitute an Event of Default; or

(2) the Issuer fails to perform or observe any of its other obligations under or in respect of the Notes and the failure continues for a period of 60 days next following the service on the Issuer and (if applicable) the Guarantor of a notice requiring the same to be remedied (except in any case where such failure is incapable of remedy, by the Issuer or the Guarantor, in which case no such continuation here above mentioned will be required); or

(3) the Issuer institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or the jurisdiction of its head office, or the Issuer consents to a

proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or the Issuer consents to a petition for its winding-up or liquidation by it or by such regulator, supervisor or similar official, provided that proceedings instituted or petitions presented by creditors and not consented to by the Issuer shall not constitute an Event of Default; or

(4) in the case of any Notes in respect of which the Guarantee is applicable, the Guarantee ceases to be in full force and effect in respect of such Notes, or notice is given by the Guarantor which would cause the Guarantee to cease to be in full force and effect in respect of such Notes, or is rendered void for any cause or by any means whatsoever except if the same results from the occurrence of a Change in Law which constitutes a Regulatory Event as provided for in Condition 6.2; or

(5) in the case of Secured Notes issued by SG Issuer, a Required Collateral Default Notice is delivered in relation to a Collateral Pool securing such Secured Notes; then

- the Noteholder may give written notice, for Notes issued by SG Issuer or Societe Generale, to the relevant Issuer and the Guarantor (if any) that the Notes are, and they shall accordingly forthwith become, immediately due and repayable at their Early Redemption Amount, together with, if appropriate and subject as otherwise provided herein, interest accrued to the date of repayment.

9.2 With respect to Eligible Notes

Events of Default shall not apply to Eligible Notes and accordingly Noteholders of such Notes and/or the holders of any related Coupons will not be able to accelerate the term of their Eligible Notes and/or any related Coupons.

In any case, if any judgment shall be issued for the judicial liquidation (*liquidation judiciaire*) of Societe Generale or if Societe Generale is liquidated for any other reason, the Eligible Notes shall become immediately due and payable:

- with respect to Eligible Non Structured Notes at their principal amount together with any accrued interest thereon to the date of payment, without any further formality; or

- with respect to Eligible Structured Notes, at the amount to be taken into account for the purposes of Article R 613-46-1-III-2° of the Code. This amount shall be fixed or increasing and shall not exceed the initially paid-up amount of the liability, without any further formality.

The holders of Eligible Notes and, where applicable, any related Coupons shall be responsible for taking all necessary steps for the orderly accomplishment of any such liquidation of Societe Generale in relation to any claims they may have against it.

10. REPLACEMENT OF NOTES, RECEIPTS, COUPONS AND TALONS

Should any Definitive Bearer SIS Note, Receipt, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Principal Paying Agent, subject to relevant stock exchange requirements and all applicable laws and regulations, upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, *inter alia*, that if any allegedly lost, stolen or destroyed Definitive Bearer SIS Note, Receipt, Coupon or Talon is subsequently presented for payment or, as the case may be, for exchange for further Coupons, there shall be paid to the Issuer and/or the Guarantor on demand the amount payable by the Issuer and/or the Guarantor in respect of such Definitive Bearer SIS Notes) and otherwise as the Issuer or if applicable, the Guarantor, may reasonably require. Mutilated or defaced Definitive Bearer SIS Notes, Receipts, Coupons or Talons must be surrendered before replacements will be issued. The replacement of Notes in bearer form and receipts, coupons and talons relating to Notes in bearer form, in the case of loss or theft, is subject to the procedure of the Involuntary Dispossession Act 1996.

11. APPOINTMENT OF AGENTS

11.1 Agents

The Principal Paying Agent may, (if so specified in the applicable Final Terms) delegate certain of its functions and duties in relation to Physical Delivery Notes to a settlement agent (the **Settlement Agent**).

In relation to SIS Notes (including Uncertificated SIS Notes) and any other Notes listed on SIX Swiss Exchange, the Issuer will maintain a Principal Swiss Paying Agent having a specified office in Switzerland (which, in the case of Notes listed on SIX Swiss Exchange, shall at all times be a bank or securities dealer that is subject to supervision by FINMA) whose duties will be set out in the Swiss Paying Agency Agreement, and the Issuer will at all time maintain a Paying Agent in respect of CHF-denominated SIS Notes having a specified office in Switzerland. In relation to SIS Notes, Uncertificated Swiss Notes and any other Notes listed on SIX Swiss Exchange, any reference in these Conditions to the **Principal Paying Agent** shall so far as the context permits be deemed to be a reference to the Principal Swiss Paying Agent.

The Issuer and (if applicable) the Guarantor are entitled to vary or terminate the appointment of any Paying Agent or Settlement Agent and/or appoint additional or other Paying Agents or Settlement Agents and/or approve any change in the specified office through which any Paying Agent or Settlement Agent acts, provided that:

(1) so long as the Notes are listed on any stock exchange or admitted to trading or listing by another relevant authority, there will at all times be a Paying Agent (which may be the Principal Paying Agent) and a Transfer Agent (which may be the Registrar) with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange; and

(2) there will at all times be a Paying Agent (which may be the Principal Paying Agent) with a specified office in a city in Europe; and

(3) there will be one or more Calculation Agent(s) where the Terms and Conditions so require; and

(4) there will at all times be a Principal Paying Agent.

In acting under the Agency Agreement, the Paying Agents act solely as agents of the Issuer and, if applicable, the Guarantor, and do not assume any obligation to, or relationship of agency or trust with, any Noteholders. The Agency Agreement contains provisions permitting any entity into which any Paying Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor paying agent.

11.2 Calculation Agent

In connection with any Notes, if the calculation agent specified in the applicable Final Terms (the **Calculation Agent**) is:

- Societe Generale, such appointment will be governed by the terms of the calculation agency agreement (the **Calculation Agency Agreement**); or

- any entity other than Societe Generale, the terms of such appointment will be summarised in the applicable Final Terms.

12. SUBSTITUTION OF THE ISSUER

Unless the applicable Final Terms specify that “Substitution of the Issuer” is “Not Applicable”, this Condition will apply.
Societe Generale or SG Issuer may be replaced by each other or by any subsidiary of Societe Generale or any other third party as principal obligor in respect of the Notes without the consent of the relevant Noteholders. If any of Societe Generale or SG Issuer determines that it shall be replaced by one another or by any subsidiary of Societe Generale or any other third party (the **Substituted Obligor**), it shall give not less than 30 nor more than 45 days' notice, in accordance with Condition 13, to the Noteholders of such event and, immediately on the expiry of such notice, the Substituted Obligor shall become the principal obligor in place of the relevant Issuer and the Noteholders shall thereupon cease to have any rights or claims whatsoever against the relevant Issuer. However, no such substitution shall take effect:

(1) if the effect of such substitution would, at the time of such substitution, be that payments in respect of the Notes would be required to be made subject to any withholding or deduction which would not otherwise arise in the absence of such substitution;

(2) if the Substituted Obligor is not Societe Generale, until Societe Generale shall have entered into an unconditional and irrevocable guarantee substantially in the form of the Guarantee in respect of the obligations of such Substituted Obligor;

(3) in any case, until the Substituted Obligor shall have provided to the Principal Paying Agent such documents as may be necessary to make the Notes and the Agency Agreement its legal, valid and binding obligations; and

(4) if required by any applicable law or regulation, until such Substituted Obligor shall have been approved in writing by the relevant authorities as able to issue the relevant Notes.

Upon any such substitution, the Notes will be modified as required, and the Noteholders will be notified of the modified terms and conditions of such Notes in accordance with Condition 13.

For the purposes of this Condition, it is expressly agreed that by subscribing to, acquiring or otherwise purchasing Notes, the Noteholders are expressly deemed to have consented to the substitution of the relevant Issuer by the Substituted Obligor and to the release of the relevant Issuer from any and all obligations in respect of the Notes and all the agreements attached thereto and are expressly deemed to have accepted such substitution and the consequences thereof.

13. NOTICES

13.1 [Left blank intentionally]

13.2 Notices regarding SIS Notes and Notes listed on SIX Swiss Exchange

Unless otherwise specified in the relevant Final Terms, notices regarding SIS Notes and, to the extent applicable, information regarding the Issuer, may be given by communication through the Principal Swiss Paying Agent to the Intermediary for forwarding to the Noteholders. Any notice so given shall be deemed to have been validly given with the communication to the Intermediary.

So long as SIS Notes or other Notes are listed on SIX Swiss Exchange and so long as the rules of SIX Swiss Exchange so require, all notices in respect of such Notes will also be given without cost to the Noteholders through the Principal Swiss Paying Agent either:

- by means of electronic publication on the internet website of SIX Swiss Exchange (http://www.six-swiss-exchange.com), where notices are currently published under the address https://www.six-group.com/en/products-services/the-swiss-stock-exchange/market-data/news-tools/official-notices.html#/ (SIX Group); or

- otherwise in accordance with the regulations of SIX Swiss Exchange.

In addition, or as an alternative, notices concerning SIS Notes may be published in a leading daily newspaper (such as, for example, the *Neue Zürcher Zeitung*) having general circulation in Switzerland. Any notice so given shall be deemed to have been validly given on the date of such publication (or, if published more than once, on the date of the first such publication).

14. FURTHER ISSUES AND CONSOLIDATION - SUBSCRIPTIONS AND PURCHASES - CANCELLATION

14.1 Further Issues

The Issuer may from time to time, without the consent of the Noteholders create and issue further Notes ranking *pari passu* in all respects and on the same Terms and Conditions (save for their Issue Date, Interest Commencement Date, Issue Price and/or the amount and date of the first payment of interest thereon), and so that the same shall be consolidated and form a single series with the outstanding Notes.

14.2 Consolidation

If the applicable Final Terms specify that clause "*Consolidation*" is "Applicable", the Issuer may from time to time on any Interest Payment Date occurring on or after the date specified for a redenomination of the Notes pursuant to Condition 1.5, on giving not less than 30 days' prior notice to the Noteholders in accordance with Condition 13, without the consent of Noteholders, consolidate the Notes with one or more issues of other Notes issued by it, whether or not originally issued in one of the European national currencies or in Euro, provided such other Notes have been redenominated in Euro (if not originally denominated or payable in Euro) and which otherwise have, in respect of all periods subsequent to such consolidation, the same terms and conditions as the Notes.

The provisions of this Condition shall not apply to Preference Share Linked Notes or Warrant Linked Notes.

14.3 Subscriptions and Purchases

The Issuer or (if applicable) the Guarantor shall have the right to subscribe and/or to purchase Notes (provided that, in the case of Definitive Bearer SIS Notes, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased (in the case of Preference Share Linked Notes or Warrant Linked Notes, by the Issuer) therewith) at any price in the open market or otherwise, in accordance with applicable laws and regulations.

In respect of Eligible Notes, any such purchase shall be subject to the prior written permission of the Relevant Resolution Authority and held in accordance with applicable law.

14.4 Cancellation

All Notes purchased for cancellation by or on behalf of the Issuer will forthwith be cancelled (together with, in the case of Definitive Bearer SIS Notes, all unmatured Receipts, Coupons and Talons appertaining thereto or surrendered therewith). All Notes purchased and cancelled (together with, in the case of Definitive Bearer SIS Notes, all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Principal Paying Agent and cannot be reissued or resold and the obligations of the Issuer or (if applicable) the Guarantor in respect of any such Notes shall be discharged.

In respect of Eligible Notes, any such cancellation shall be subject to the prior written permission of the Relevant Resolution Authority.

15. CALCULATIONS AND DETERMINATIONS - ADJUSTMENTS AND DISRUPTION

With respect to a Type of Structured Notes (as specified in the applicable Final Terms) to which the relevant Additional Terms and Conditions for Structured Notes apply, the Calculation Agent responsible for determining and calculating any rate, rate of interest, interest payable and any amount payable shall be the Calculation Agent specified in the applicable Final Terms (pursuant to the provisions of Condition 11).

Whenever a Calculation Agent is required to make any calculations, determinations, adjustments or act in any way (and unless otherwise provided herein), it will do so in good faith and in a commercially reasonable manner.

The calculations and determinations of the Calculation Agent will be conclusive and binding upon the Issuer, the Guarantor (if any), the Agent, the Noteholders, in the absence of manifest error or proven error.

Following the occurrence of an event giving rise to an adjustment which is substantial in the opinion of the Calculation Agent or of an extraordinary event affecting, in respect of the relevant Additional Terms and Conditions for Structured Notes:

(i) a relevant Underlying, and/or

(ii) a Selected Obligation or a Deliverable Obligation and/or (iii) a Bond,

the Calculation Agent shall notify the Issuer, which shall in its turn notify the Agent and the Noteholders, pursuant to the provisions of Condition 13, of the relevant adjustment made or decision taken by the Calculation Agent. Details of such adjustment made or decision taken can be obtained by the Noteholders upon request at the Calculation Agent's address specified in the applicable Final Terms.

For the avoidance of doubt, in case of Credit Linked Notes and, pursuant to Successor definition (in Condition 2 of the Additional Terms and Conditions for Credit Linked Notes), when the Successor determinations of the Calculation Agent follow the relevant index source determinations, there will be no related notification sent by the Calculation Agent.

16. MEETINGS OF NOTEHOLDERS

The Agency Agreement contains provisions for convening meetings (including by way of conference call or by use of a video conference platform) of the Noteholders (except holders of the Uncertificated SIS Notes) to consider any matter affecting their interests, including the sanctioning by extraordinary resolution (an **Extraordinary Resolution**) of a modification of the Notes (except Uncertificated SIS Notes), the Receipts, the Coupons or any provisions of the Agency Agreement. Such a meeting may be convened by the Issuer or the Guarantor (if any) at any time or by Noteholders holding not less than 10 per cent. in nominal amount of the Notes for the time being outstanding .

The quorum at any such meeting for passing such Extraordinary Resolution is one or more persons holding or representing in the aggregate not less than 50 per cent. in nominal amount of the Notes for the time being outstanding , or at any adjourned meeting one or more persons being or representing Noteholders whatever the nominal amount of Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Notes (including but not limited to modifying the date of maturity of the Notes, reducing or cancelling the amount of principal or the rate of interest payable in respect of the Notes , or altering the currency of payment of the Notes, Receipts or Coupons modifying of the majority required to pass an Extraordinary Resolution, sanctioning of any scheme or proposal for the exchange or sale of the Notes for, or the conversion of the Notes into, or the cancellation of the Notes in consideration of, shares, stock, notes, bonds, debentures, debenture stock and/or other obligations and/or securities of the Issuer (as further described in the Agency Agreement)), the necessary quorum for passing an Extraordinary Resolution will be one or more persons holding or representing not less than two-thirds, or at any adjourned such meeting not less than one-third, in nominal amount of the Notes for the time being outstanding . The Agency Agreement provides that (i) a resolution passed at a meeting duly convened and held in accordance with the Agency Agreement by a majority consisting of not less than three fourths of the votes cast on such resolution, (ii) a resolution in writing signed by or on behalf of the holders of not less than 90 per cent in nominal amount of the Notes for the time being outstanding or (iii) consent given by way of electronic consents through the clearing systems (in a form satisfactory to the Principal Paying Agent) by or on behalf of the holders of not less than three fourths in nominal amount of the Notes for the time being outstanding shall, in each case, be effective as an Extraordinary Resolution of the Noteholders. In addition, in respect of Eligible Notes, any proposed modification of any provision of the Notes can only be effected with the prior written permission of the Relevant Resolution Authority. An Extraordinary Resolution passed pursuant to the provisions above at any meeting of the Noteholders in writing or by electronic consents, shall be binding on all Noteholders, whether or not they are present at the meeting, and whether or not they voted on the resolution, and on all Receiptholders and Couponholders.

The Principal Paying Agent, the Issuer and the Guarantor (if any) may agree, without the consent of the Noteholders, to any modification of the Notes or the Agency Agreement which is (i) to cure or correct any ambiguity or defective or inconsistent provision contained therein, or which is of a formal, minor or technical nature or (ii) not materially prejudicial to the interests of the Noteholders (provided the proposed modification does not relate to a matter in respect of which an Extraordinary Resolution would be required if a meeting of Noteholders were held to consider such modification) and subject to , in case of Eligible Notes, any prior written permission of the Relevant Resolution Authority, or (iii) to correct a manifest error or proven error or (iv) to comply with mandatory provisions of the law.
Any such modification shall be binding on the Noteholders and any such modification shall be notified to the Noteholders in accordance with Condition 13.

In respect of Uncertificated SIS Notes, the Issuer may decide, without the consent of the Noteholders to make (a) any modification (except such modifications in respect of which an increased quorum is required as mentioned above) of the Notes which is not materially prejudicial to the interests of the Noteholders; or (b) any modification of the Notes which is of formal, minor or technical nature or is made to correct a manifest error or proven error or to comply with mandatory provisions of the law of the jurisdiction in which the Issuer is incorporated. Any such modification shall be binding on the relevant Noteholders and any such modification shall be notified to such Noteholders in accordance with Condition 13.

In respect of SG Issuer only, the provisions of articles 470-1 to 470-19 of the Luxembourg Act dated 10 August 1915 on commercial companies, as amended (the **Companies Act 1915**), shall not apply to the Notes. No Noteholders may initiate proceedings against SG Issuer based on article 470-21 of the Companies Act 1915.

17. SUSPENSION OF TRADING AND DELISTING OF NOTES

Notes that are listed on any regulated market or stock exchange(s) or admitted to trading by a relevant authority may be suspended from trading and/or delisted at any time in accordance with applicable rules and regulations of the relevant regulated market or relevant stock exchange(s).

In addition, the Principal Paying Agent, the Issuer and the Guarantor (if any) may agree at any time and without any further consent from the Noteholders to delist Notes listed on the SIX Swiss Exchange by giving notice to the Noteholders in accordance with Condition 13 at least three months prior to the last trading day stating that such Notes will be delisted from the SIX Swiss Exchange and no longer traded on the SIX Swiss Exchange.

18. WAIVER OF SET-OFF

No holder of any Note may at any time exercise or claim any Waived Set-Off Rights against any right, claim, or liability which the Issuer has or may have or acquire against such holder, directly or indirectly, howsoever arising (and, for the avoidance of doubt, including all such rights, claims and liabilities arising under or in relation to any and all agreements or other instruments of any sort or any non-contractual obligations, in each case whether or not relating to the Notes) and each such holder shall be deemed to have waived all Waived Set-Off Rights to the fullest extent permitted by applicable law in relation to all such actual and potential rights, claims and liabilities.

For the avoidance of doubt, nothing in this Condition is intended to provide or shall be construed as acknowledging any right of deduction, set-off, netting, compensation, retention or counterclaim or that any such right is or would be available to any holder of any Note but for this Condition.

For the purposes of this Condition, **Waived Set-Off Rights** means any and all rights of or claims of any holder of any Note for deduction, set-off, netting, compensation, retention or counterclaim arising directly or indirectly under or in connection with any such Note.

19. LIMITED RECOURSE AGAINST SG ISSUER

Each holder of a Note or Notes issued by SG Issuer is deemed to have acknowledged and undertaken, on its acquisition of such Notes, that, in the event of a default by SG Issuer of payment of principal of (and premium, if any), interest or any other amount in respect thereof (including, without limitation, any Final Redemption Amount(s)) on any such Note(s), whenever such payment falls due (such payment defaults, **Defaulted Payments**), such holder shall not institute any proceeding, judicial or otherwise, or otherwise assert a claim against SG Issuer to enforce such Defaulted Payments and waives all rights to institute such proceedings or make such claims in respect of such Defaulted Payments against the relevant Issuer.

For the avoidance of doubt, such acknowledgement, undertaking and waiver are without prejudice to the holder's rights under the Guarantee and do not alter or impair the Guarantor's obligations under the relevant guarantee and accordingly each holder shall continue to have the right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Guarantor to enforce any obligation due under the relevant guarantee, including without limitation in respect of any Defaulted Payments, subject in all cases to the terms of the Guarantee.

Such acknowledgement, undertaking and waiver do not alter or impair the rights of the Noteholders to require the enforcement of the relevant Pledge Agreement, pursuant to the provisions of the Additional Terms and Conditions relating to Secured Notes.

20. ACKNOWLEDGMENT OF BAIL-IN AND WRITE DOWN OR CONVERSION POWERS

20.1 Acknowledgement of bail-in and write-down or conversion powers on the relevant Societe Generale's or SG Issuer's Liabilities and of the write-down and conversion of Notes of SG Issuer following the bail-in and write-down and conversion of some Societe Generale's Liabilities

By the acquisition of Notes, each Noteholder (which, for the purposes of this Condition, includes any current or future holder of a beneficial interest in the Notes) acknowledges, accepts, consents and agrees:

(1) to be bound by the effect of the exercise of the Bail-in Power (as defined below) by the Relevant Resolution Authority (as defined below) on Societe Generale's and SG Issuer's liabilities under the Notes, which may include and result in any of the following, or some combination thereof:

(i) the reduction of all, or a portion, of the Amounts Due (as defined below), on a permanent basis;

(ii) the conversion of all, or a portion, of the Amounts Due into shares, other securities or other obligations of the relevant Issuer or the Guarantor or another person (and the issue to the Noteholder of such shares, securities or obligations), including by means of an amendment, modification or variation of the terms of the Notes, in which case the Noteholder agrees to accept in lieu of its rights under the Notes any such shares, other securities or other obligations of the relevant Issuer or the Guarantor or another person;

(iii) the cancellation of the Notes; and/or

(iv) the amendment or alteration of the maturity of the Notes or amendment of the amount of interest payable on the Notes, or the date on which the interest becomes payable, including by suspending payment for a temporary period; and

that terms of the Notes are subject to, and may be varied, if necessary, to give effect to the exercise of the Bail-in Power by the Relevant Resolution Authority or the regulator.
(the "**Statutory Bail-in**")

and

(2) in respect of Notes issued by SG Issuer, if the Relevant Resolution Authority (as defined below) exercises its Bail-in Power (as defined below) on liabilities of Societe Generale, pursuant to Article L 613-30-3-I-3 of the Code:

(A) ranking:

(i) junior to liabilities of Societe Generale benefitting from statutorily preferred exceptions pursuant to Article L 613-30-3-I 1°and 2 of the Code;

(ii) pari passu with liabilities of Societe Generale as defined in Article L.613-30-3-I-3 of the Code; and

(iii) senior to liabilities of Societe Generale as defined in Article L.613-30-3-I-4 of the Code; and

(B) which are not *titres non structurés* as defined under Article R.613-28 of the Code, and

(C) which are not or are no longer eligible to be taken into account for the purposes of the MREL (as defined below) ratio of Societe Generale

and such exercise of the Bail-in Power results in the write-down or cancellation of all, or a portion of, the principal amount of, or the outstanding amount payable in respect of, and/or interest on, such liabilities, and/or the conversion of all, or a portion, of the principal amount of, or the outstanding amount payable in respect of, or interest on, such liabilities into shares or other securities or other obligations of Societe Generale or another person, including by means of variation to their terms and conditions in order to give effect to such exercise of Bail-in Power, then SG Issuer's obligations under the Notes (other than Secured Notes) will be limited to (i) payment of the amounts of principal and/or interest as reduced or cancelled that would be recoverable by the Noteholders and/or (ii) the delivery or the payment of value of the shares or other securities or other obligations of Societe Generale or another person that would be paid or delivered to the Noteholders as if, in either case, the Notes had been directly issued by Societe Generale itself and any Amount Due under the Notes had accordingly been directly subject to the exercise of the Bail-in Power (the "**Contractual Bail-in**").

20.2 Consequences of the Statutory Bail-in and Contractual Bail-in

No repayment or payment of the Amounts Due will become due and payable or be paid after the exercise of the Statutory Bail-in with respect to the relevant Issuer or the Guarantor unless, at the time such repayment or payment, respectively, is scheduled to become due, such repayment or payment would be permitted to be made by the relevant Issuer or the Guarantor under the applicable laws and regulations in effect in France or Luxembourg and the European Union applicable to the relevant Issuer or the Guarantor or other members of its group.

No repayment or payment of the Amounts Due will become due and payable or be paid under the Notes issued by SG Issuer after implementation of the Contractual Bail-in.

Upon the exercise of the Statutory Bail-in or upon implementation of the Contractual Bail-in with respect to the Notes, the relevant Issuer or the Guarantor will provide a written notice to the Noteholders in accordance with Condition 13 as soon as practicable regarding such exercise of the Statutory Bail-in or implementation of the Contractual Bail-in. The relevant Issuer or the Guarantor will also deliver a copy of such notice to the Principal Paying Agent for informational purposes, although the Principal Paying Agent shall not be required to send such notice to Noteholders. Any delay or failure by the relevant Issuer or the Guarantor to give notice shall not affect the validity and enforceability of the Statutory Bail-in or Contractual Bail-in nor the effects on the Notes described above.

Neither a cancellation of the Notes, a reduction, in part or in full, of the Amounts Due, the conversion thereof into another security or obligation of the relevant Issuer or the Guarantor or another person, as a result of the exercise of the Statutory Bail-in or the implementation of the Contractual Bail-in with respect to Notes will be an event of default or otherwise constitute non-performance of a contractual obligation, or entitle the Noteholder to any remedies (including equitable remedies) which are hereby expressly waived.

Upon the exercise of any Statutory Bail-in or the implementation of the Contractual Bail-in, the relevant Issuer, the Guarantor (if any) and each Noteholder(including each holder of a beneficial interest in the Notes) hereby agree that (a) the Principal Paying Agent shall not be required to take any directions from Noteholders, and (b) the Agency Agreement shall impose no duties upon the Principal Paying Agent whatsoever, in each case with respect to the exercise of any Statutory Bail-in or implementation of the Contractual Bail-in.

Notwithstanding the foregoing, if, following the completion of the exercise of the Statutory Bail-In or the implementation of the Contractual Bail-in, any Notes remain outstanding (for example, if the exercise of the Statutory Bail-In or the implementation of the Contractual Bail-in results in only a partial write-down of the principal of the Notes), then the Principal Paying Agent's duties under the Agency Agreement shall remain applicable with respect to the Notes following such completion to the extent that the relevant Issuer, the Guarantor (if any) and the Principal Paying Agent shall agree pursuant to an amendment to the Agency Agreement.

If in a Statutory Bail-In the Relevant Resolution Authority exercises the Bail-in Power or if the Contractual Bail-in is implemented, with respect to less than the total Amounts Due, unless the Principal Paying Agent is otherwise instructed by the relevant Issuer or the Guarantor or, as the case may be, the Relevant Resolution Authority, any cancellation, write-off or conversion made in respect of the Notes will be (in the case of a Contractual Bail-In) or may be (in the case of a Statutory Bail-in) made on a pro-rata basis.

The matters set forth in this Condition shall be exhaustive on the foregoing matters to the exclusion of any other agreements, arrangements or understandings between the Issuer, the Guarantor (if any) and each Noteholder

No expenses necessary for the procedures under this Condition, including, but not limited to, those incurred by the relevant Issuer, the Guarantor (if any) and the Principal Paying Agent, shall be borne by any Noteholder.

In the case of resolution pursuant to the exercise of the Bail-in Power (as defined below) by the Relevant Resolution Authority on Societe Generale's liabilities, the claim on Societe Generale with respect to Eligible Structured Notes, will be the amount to be taken into account for the purposes of Article R. 613-46-1 III 2° of the Code; this amount is fixed or increasing and does not exceed the initially paid-up amount of the liability.

For the purpose of this Condition:

Amounts Due means:
- In respect of Notes that are not Eligible Notes, the Market Value of the Notes as defined in Condition 6.3 above,
- In respect of Notes that are Eligible Notes, the amounts specified as such in the Final Terms

Bail-in Power means any statutory cancellation, write-down and/or conversion power existing from time to time under any laws, regulations, rules or requirements relating to the resolution of banks, banking group companies, credit institutions and/or investment firms, including but not limited to any such laws, regulations, rules or requirements that are implemented, adopted or enacted within the context of a European Union directive or regulation of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms, or any other applicable laws or regulations, as amended, or otherwise, pursuant to which obligations of a bank, banking group company, credit institution or investment firm or any of its affiliates can be reduced, cancelled, varied or otherwise modified in any way and/or converted into shares or other securities or obligations of the obligor or any other person.

MREL means the Minimum Requirement for own funds and Eligible Liabilities as defined in Directive 2014/59/EU of the European Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms (as amended from time to time).

Relevant Resolution Authority means any authority with the ability to exercise the Bail-in Power on Societe Generale or SG Issuer as the case may be.

21. GOVERNING LAW AND SUBMISSION TO JURISDICTION

21.1 Governing Law

If the applicable Final Terms indicate that the clause *"Governing law"* is "Swiss law":

- the Notes and any non-contractual obligations arising out of or in connection with the Notes will be governed by, and shall be construed in accordance with, Swiss law.

- Uncertificated SIS Notes and any non-contractual obligations arising out or in connection with these Notes will be governed by, and shall be construed in accordance with, Swiss Law, except in respect of their form, title, transfer, exercise of options and the provisions relating to payments in Condition 1.1.3, 1.2.4, Condition 5.6, 5.7 and 5.9 and Condition 5.17 thereon which shall be governed by the laws, rules and regulations applicable to the relevant central securities depository and clearing institution, being initially Euroclear Sweden, Euroclear Finland, VPS or SIS (or any other clearing institution in Switzerland recognised for such purposes by SIS Swiss Exchange, respectively) or Euroclear France, on which they are respectively admitted or registered.

The Agency Agreement, the Swiss Paying Agency Agreement and any non-contractual obligations arising out of or in connection with the Agency Agreement and the Swiss Paying Agency Agreement will be governed by, and shall be construed in accordance with, English law.

Condition 2.1 (Status of the Notes - Notes issued by Societe Generale) will be governed by, and shall be construed in accordance with, French law.

The Guarantee and any non-contractual obligations arising out of or in connection with the Guarantee will be governed by, and shall be construed in accordance with, French law.

21.2 Submission to jurisdiction

The exclusive place of jurisdiction for any action or other legal proceedings arising out of or in connection with the Swiss Law Notes shall be the courts of the City of Zurich, Switzerland, venue being Zurich 1.

The Issuer waives any objection to the courts of Switzerland on the grounds that they are an inconvenient or inappropriate forum. To the extent allowed by law, the Noteholders may take any suit, action or proceedings (together referred to as **Proceedings**) arising out of or in connection with the Notes and any non-contractual obligations arising out of or in connection with the Notes against the Issuer in any other court of competent jurisdiction and concurrent Proceedings in any number of jurisdictions.

The Issuer appoints Societe Generale, Zurich Branch (**SGZH**), currently of Talacker 50, 8021 Zurich, Switzerland, as its agent for service of process, and undertakes that, in the event of SGZH ceasing so to act or ceasing to be registered in Switzerland, it will appoint another person as its agent for service of process in Zurich in respect of any Proceedings. Nothing herein shall affect the right to serve proceedings in any other manner permitted by law.

The Issuer and, where applicable, the Guarantor have in the Agency Agreement, the EUI Agency Agreement and the Deed of Covenant submitted to the jurisdiction of the English courts and appointed an agent for service of process in terms substantially similar to those set out above.

Any claim against the Guarantor in connection with the Guarantee shall be brought before the commercial court of Paris (*Tribunal des activités économiques de Paris*).

ADDITIONAL TERMS AND CONDITIONS RELATING TO FORMULAE

The following Additional Terms and conditions relating to formulae (the **Additional Terms and Conditions relating to Formulae**) will apply to:

- any Note the applicable Final Terms of which include a clause called "**Reference of the Product**" in which appears a reference to a paragraph of the Condition 3 below.

The definitions used in the Additional Terms and Conditions relating to Formulae may also apply to a Note the applicable Final Terms of which specify that all or part of the capitalized terms used therein have the meaning as described to them in the Additional Terms and Conditions relating to Formulae.

For the purposes of these Additional Terms and Conditions relating to Formulae, a Note to which they apply is a Product.

Each Product forms part of a family of products (the **Family of Product**).

OVERVIEW

Contents and description	
Family of Product	A Family of Products is a group of Product having similar characteristics. For each Family of Product, formulae and variable data are defined in order to determine the Product Amounts (defined below).
Reference of the Product	A Reference of the Product is a three-digit reference number with the first two digits corresponding to the reference of the Family of Product to which the Product belongs and the third digit corresponding to the Product itself. The applicable Final Terms of a Product shall indicate the Reference of the Product (which corresponds to a paragraph of Condition 3 below where are listed all the formulae and variable data used to determine the Product Amounts (defined below)), and as the case may be, the Options and Add-ons necessary to determine these amounts.

Product: a Product is a Note to which these Additional Terms and Conditions relating to Formulae apply and having one or more Structured Interest Amount(s) (if any), one or more Automatic Early Redemption Amount(s) (if any), and a Final Redemption Amount (each a **Product Amount** and together the **Product Amounts**), each determined by the Calculation Agent on the basis of a set of definitions and formulae listed in Condition 3 below in the relevant paragraph corresponding to the Reference of the Product.	
Structured Interest Amount(s) *(as the case may be)* [*as described in Condition 1.1 below*]	Common principles: For each Product, each Product Amount (i.e. Structured Interest Amount(s), Automatic Early Redemption Amount(s) and the Final Redemption Amount) is equal to the formula (Specified Denomination x Product Formula) For each Product and each Product Amount, a **Product Formula** is based on and/or combines one or more specific definitions and formulae, called **Variable Data** and **ReferenceFormula(e).** For the avoidance of doubt, several Variable Data and ReferenceFormula(e) can be associated with a particular Product Formula. Product Formula = Function{Schedule(s); Specific Definition(s); Variable Data; Reference Formula(e); Add-on(s)}
Automatic Early Redemption Amount(s) *(if any)* [*as described in Condition 1.2 below*]	
Final Redemption Amount [*as described in Condition 1.3 below*]	

The following provisions will apply for the Structured Interest Amount(s) (if any), Automatic Early Redemption Amount(s) (if any) and the Final Redemption Amount:	
Schedule [*as described in Condition 2.1 below*]	A Schedule means (i) either Valuation Date(s) or Relevant Valuation Date(s) or any other date(s) listed in the applicable Final Terms, or (ii) Valuation Date(s) or Relevant Valuation Date(s) or any other date(s) comprised within a period defined in the applicable Final Terms. For the avoidance of doubt, several Schedules may be used for the determination and calculation of a particular Product Amount. For ease of reading, Schedules may be renamed (e.g. Period,

	Corridor Period, Interest Period, European Knock-In Period, American Knock-In Period...). Furthermore, in respect of Product Formula and a particular Schedule, also for ease of reading, Valuation Date or Relevant Valuation Date may be renamed (for instance, for a Schedule made of daily Valuation Dates, "Valuation Date" may be renamed "Daily Valuation Date", for a Schedule with annual Relevant Valuation Dates, "Relevant Valuation Date" may be renamed "Annual Valuation Date", for another Schedule relating to a specific Underlying_A, "Valuation Date" may be renamed "Underlying_A Valuation Date",...). For the avoidance of doubt, all these dates whatever their names shall be considered as Valuation Dates as defined in the relevant Additional Terms and Conditions for the relevant Underlying(s), with the exception of the Averaging Date which shall keep the meaning of Averaging Date as defined in the relevant Additional Terms and Conditions for the relevant Underlying(s),
General Definitions [as described in Condition 2.2 below]	Means the definitions in Condition 5 below that may apply to any Family of Product and any Product within a Family of Product.
Specific Definition(s) [*as described in Condition 2.2 below*]	Means, if relevant, definition(s) and formula(e) required for the determination and calculation of a Product Amount, specific to a particular Product. In Condition 3, when the determination of a Product Formula of a Product Amount needs one or several specific definitions, a paragraph "Specific Definitions" will appear in the paragraph of the corresponding Product with either (i) a specific definition contained in these Additional Terms and Conditions relating to Formulae or (ii) the reference(s) to the Conditions below where the Specific Definition(s) is/are necessary for the determination and calculation of the a Product Amount of such Product can be found.
Variable Data [*as described in Condition 2.3 below*]	Means, for the Product Formula of a Product Amount, the variable data used as input(s) in the Product Formula for the determination and calculation of the Product Amount and specified with the relevant (*inter alia*) amount, level, percentage or the value of the ReferenceFormula applied to the Underlying(s) of the Product in the applicable Final Terms.
Reference Formula(e) [*as described in Condition 2.4 below*]	Means, a formula appearing among the list of Reference Formulae appearing in Conditions 4.0 to 4.29 and which serves to notice or to calculate (i) the price of an Underlying called **Reference Price**, (ii) the Level of an Underlying called **Reference Level**, (iii) the Performance of an Underlying called **Reference Performance** and/or (iv) the Fixing of a Reference Rate called **Reference Fixing**, used as the case may be, for one or several Product Formula(e) of one or several Product Amount(s). Any Reference Formula may be indexed to any type of Underlying which terms and conditions are governed by the relevant Additional Terms and Conditions for the relevant Underlying. The Reference Formulae listed in Conditions 4.0 to 4.29 are grouped by family.
Add-on [*as described in Condition 1.4 below*]	Means the list of generic features that can be applied to any standard Product Formula(e) in order to either supplement or modify or supersede these standard Product Formula(e). The clause "*Reference of the Product*" in the applicable Final Terms will specify the Add-on(s) applicable to such Product.
Option 1, 2,…X	Means within a same Family of Product or Add-on the different variations of the Product Formula(e) used for the calculation of a Product Amount. These different Options are described in Condition 3. The clause "Reference *of the Product*" of the applicable Final Terms will indicate the Option applicable to the Product.
Scenario 1, 2,…X	Means, the fact that a Product Amount of a single Product may be determined and calculated in different ways depending on the occurrence of one or more events involving one or more Reference Formula(e) defined below.

1. PROVISIONS AND DEFINITIONS RELATING THE PRODUCT AMOUNTS

The provisions described hereunder are applicable to all the different Product Formula described in Condition 3.

1.1 Structured Interest Amount

For a Product, Structured Interest Amount (if any) means an amount calculated on the basis of a Product Formula and which depends to a condition being met and/or that the price of the Underlying raised a certain level or realized a certain performance.

If the applicable Final Terms of a Product specify that the clause "*Structured Interest Note Provisions*" is stated as being "Applicable", any relevant Product Formula used to determine the Structured Interest Amount(s) of the Product appearing in the paragraph relating to the Reference Product in Condition 3 will be replicated in the clause "*Structured Interest Amount(s)*" of the applicable Final Terms with the values taken by the **Variable Data,** the **ReferenceFormula(e),** the necessaries **Schedule(s),** the indication of the **Specific Definitions** and/or applicable **Add-Ons**:

Structured Interest Amount:	Unless previously redeemed, on [each] [the] Interest Payment Date[(i) (i from t1 to t2)], the Issuer shall pay to the Noteholders, for each Note, an amount determined by the Calculation Agent as follows: [The sum of each Structured Interest Amount(i) determined in respect of each Valuation Date(i) (i from t1 to t2) [occurring before the Interest Payment Date], each Structured Interest Amount(i) being equal to:] **[***Insert the Structured Interest Amount corresponding to the relevant Reference Product. The applicable definitions to the Product Formula(e) will be inserted in the clause "Definitions relating to the Product" of the applicable Final Terms.***]**

1.2 Automatic Early Redemption Amount

1.2.1 *General description*

If the applicable Final Terms specify that the clause "*Automatic Early Redemption*" is stated as being "Applicable", any relevant Product Formula used to determine the Automatic Early Redemption Amount(s) appearing in the paragraph relating to the Reference Product in Condition 3 will be replicated in the clause "*Automatic Early Redemption Amount(s)*" of the applicable Final Terms with the values taken by the Variable Data, the ReferenceFormula(e), the necessaries Schedule(s), the indication of the Specific Definitions and/or applicable Add-ons:

Automatic Early Redemption Amount(s):	Unless previously redeemed, if an Automatic Early Redemption Event has occurred, then the Issuer shall redeem early the Notes on Automatic Early Redemption Date(i) (i from t1 to t2), in accordance with the following provisions in respect of each Note: **[***Insert the Automatic Early Redemption Amount of the Product corresponding to the relevant Reference Product. The applicable definitions to the Product Formula(e) will be inserted in the clause "Definitions relating to the Product" of the applicable Final Terms.***]**

1.2.2 *Automatic Early Redemption Events*

For the purpose of this section, **Reference Date(s)(t), Reference Date(s)(x) or Reference Date(s)(y)** means

- [the Valuation Date(i)] *or*

- [the date(t) (respectively date(x) or date(y)) as defined in the applicable Final Terms] *or*

- [each of Valuation Date(s)(t) (respectively Valuation Date(s)(x) or Valuation Date(s)(y)) within the Automatic Early Redemption Event Schedule(i)] *or*

- [at least one Valuation Date(t) (respectively Valuation Date(s)(x) or Valuation Date(s)(y)) within the Automatic Early Redemption Event Schedule(i)] *or*

- [[*NumberofDays*] consecutive Valuation Date(s)(t) (respectively Valuation Date(s)(x) or Valuation Date(s)(y)) within the Automatic Early Redemption Event Schedule(i)] [*or*

- [at least [*NumberofDays*] [non consecutive] Valuation Date(s)(t) (respectively Valuation Date(s)(x) or Valuation Date(s)(y)) within the Automatic Early Redemption Event Schedule(i)] *or*

- [date(s)(t) (respectively date(x) or date(y)) within the Automatic Early Redemption Event Schedule(i)] *or*

- [each of date(s)(t) (respectively date(x) or date(y)) within the Automatic Early Redemption Event Schedule(i)] *or*

- [at least one date(t) (respectively date(x) or date(y)) within the Automatic Early Redemption Event Schedule(i)] *or*

- [[*NumberofDays*] consecutive date(s)(t) (respectively date(x) or date(y)) within the Automatic Early Redemption Event Schedule(i)] *or*

- [at least [*NumberofDays*] non consecutive date(s)(t) (respectively date(x) or date(y)) within the Automatic Early Redemption Event Schedule(i)] *or*

- [each Scheduled Trading Day][each Fund Business Day][each Fund Valuation Day] that is not a Disrupted Day from and [including][excluding] Valuation Date(t1) to and [including][excluding] Valuation Date(t2)] *or*

- [at least one Scheduled Trading Day][at least one Fund Business Day][at least one Fund Valuation Day] that is not a Disrupted Day from and [including][excluding] Valuation Date(t1) to and [including][excluding] Valuation Date(t2)]

as defined in the applicable Final Terms if the case may be.

a) Description

Mono-Underlying

Automatic Early Redemption Event(i) is deemed to have occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), [[ReferenceFormula_Autocall(t)] or [the Closing Price [S(t)]] or [each Intraday Price [SI(t)]] or [at least one Intraday Price [SI(t)]] is [higher] [lower] than [or equal to] [AutocallBarrier] [AutocallBarrier(i)]] [[and] [or] [on Reference Date(s)(x)] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier][a Range] [a Memory] [a Target] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [on Reference Date(s)(x)] [a European] [an American] [a Low Barrier] [a High Barrier] [a Memory] [a Target] Knock-In Event has [not] occurred] [[and] [or] [ReferenceFormula_Autocall_2(t)] or [the Closing Price [S(t)]] or [each Intraday Price [SI(t)]] or [at least one Intraday Price [SI(t)]] or [at least one Closing Price [S(t)]] is [higher] [lower] than [or equal to] [AutocallBarrier_2] [AutocallBarrier_2(i)]].

Multi-Underlyings

Automatic Early Redemption Event(i) is deemed to have occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), [[ReferenceFormula_Autocall(t)] [ReferenceFormula_Autocall(t,k) of each Underlying(k)] or [the Closing Price [S(t,k)] of each Underlying(k)] or [each Intraday Price [SI(t,k)] of each Underlying(k)] or [at least one Intraday Price [SI(t,k)] of each Underlying(k)] or [ReferenceFormula_Autocall(t,k) of at least one Underlying(k)] or [the Closing Price [S(t,k)] of at least one Underlying(k)] or [each Intraday Price [SI(t,k)] of at least one Underlying(k)] or [at least one Intraday Price [SI(t,k)] of at least one Underlying(k)] is [higher] [lower] than [or equal to] [AutocallBarrier] [AutocallBarrier(i,k)]] [[and] [or] [on Reference Date(s)(x)] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Memory] [a Target] Knock-in Event has [not] occurred] [[and] [or] [on Reference Date(s)(x)] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier][a Second High Barrier] [a Range] [a Memory] [a Target] Knock-in] [a Lock-In] Event has [not] occurred] [[and] [or] [ReferenceFormula_Autocall_2(t)] [ReferenceFormula_Autocall_2(t,k) of each Underlying(k)] or [the Closing Price [S(t,k)] of each Underlying(k)] or [each Intraday Price [SI(t,k)] of each Underlying(k)] or [at least one Intraday Price [SI(t,k)] of each Underlying(k)] or [ReferenceFormula_Autocall_2(t,k) of at least one Underlying(k)] or [the Closing Price [S(t,k)] of at least one Underlying(k)] or [each Intraday Price [SI(t,k)] of at least one Underlying(k)] or [at least one Intraday Price [SI(t,k)] of at least one Underlying(k)] is [higher] [lower] than [or equal to] [AutocallBarrier_2] [AutocallBarrier_2(i,k)]].

b) Variable Data:

NumberofDays; AutocallBarrier; AutocallBarrier_2

These Variable Data are defined under Condition 5.4 herein.

c) Reference Formula(e):

ReferenceFormula_Autocall; ReferenceFormula_Autocall_2; Closing Price; Intraday Price

1.3 Final Redemption Amount

1.3.1 ***General principles***

Any relevant Product Formula used to determine the Final Redemption Amount of the relevant Product appearing in the paragraph relating to the Reference Product in Condition 3 will be replicated in the clause "*Final Redemption Amount*" of the applicable Final Terms with the values taken by the **Variable Data**, the **ReferenceFormula(e)**, the necessaries **Schedule(s)**, the indication of the **Specific Definitions** and/or applicable **Add-ons** set out in Conditions 2.1, 2.2, 2.3, 2.4 and 1.4 below:

Final Redemption Amount:	Unless previously redeemed, the Issuer shall redeem the Notes on the [Scheduled] Maturity Date, in accordance with the following provisions in respect of each Note: **[***Insert the Final Redemption Amount of the Product corresponding to the relevant Reference Product. The applicable definitions to the*

	Product Formula(e) will be inserted in the clause "Definitions relating to the Product" of the applicable Final Terms.]

b) If the Notes are Open-ended Notes or Spread Differential Notes, any product of (i) Specified Denomination and (ii) the Product Formula used to determine a Final Redemption Amount in Condition 3 below may be used as an Optional Redemption Amount in which case such product of (i) Specified Denomination and (ii) Product Formula shall be replicated in the clause "Optional Redemption Amount" of the relevant Final Terms and the Reference Product [and the Option as the case may be] for such Final Redemption Amount shall be indicated in such Final Terms.

1.4 Add-ons relating to Product Formulae

When an Add-on is used in respect of the Product Formula of a Product Amount defined in Condition 3 below, this will supplement, modify or supersede, such Product Formula.
For each Product Amount in respect of which an Add-on is used, the relevant Product Amount section of the applicable Final Terms shall include the reference to (a) the relevant Add-on (Conditions 1.4.1 to 1.4.13), (b) the applicable Option in relation to the relevant Add-on (Conditions 1.4.5 to 1.4.6) and (c) the applicable Product Formula(e) (Condition 3) and / or Variable Data (Condition 5).

1.4.1 ***Add-on relating to Automatic Early Redemption Amount***

If the paragraph *"Automatic Early Redemption Amount*" of a Product of a Family of Product is specified as being "Applicable" in Condition 3 below, this may nevertheless be modified as follows in accordance with the information indicated in the clause "Reference of the Product" of the applicable Final Terms:

- this clause may be set as "Not Applicable" in the applicable Final Terms of the Product and, consequently, no Automatic Early Redemption Amount shall be paid under the Product;

- the Product Formula(e) predefined relating to the Automatic Early Redemption Amount may be superseded by one or more Product Formula(e) relating to the Automatic Early Redemption Amount of any other Product of any other Family of Product described in Condition 3 below.

- the Product Formula(e) predefined relating to the Automatic Early Redemption may be superseded by one or more Product Formula(e) relating to the Final Redemption Amount of any other Product of any other Family of Product described in Condition 3 below, calculated on the relevant valuation date(s) linked to the Automatic Early Redemption Amount.

if the paragraph "*Automatic Early Redemption Amount*" of a Product of a Family of Product is specified as being "Not Applicable" in Condition 3 below, this may nevertheless be modified to" Applicable" in the applicable Final Terms of the Product and, consequently, an Automatic Early Redemption Amount shall be paid for this Product by applying (i) the Product Formula relating to the Automatic Early Redemption Amount of any other Product of any other Family of Product described in Condition 3 below or (ii) the Product Formula(e) relating to the Final Redemption Amount of any other Product of any other Family of Product described in Condition 3 below, calculated on the relevant valuation date(s) linked to the Automatic Early Redemption Amount.

1.4.2 ***Add-on relating to the Structured Interest Amount***

If the paragraph "*Structured Interest Amount*" is specified as "Applicable" in respect of a Product of a Family of Product in Condition 3 below, this may nevertheless be modified as follows in accordance with the information indicated in the clause "*Reference of the Product*" of the applicable Final Terms:

- this clause may be set as "Not Applicable" in the applicable Final Terms of the Product and, consequently, no Structured Interest Amount shall be paid under the Product;

- the Product Formula(e) predefined in Condition 3 below relating to the Structured Interest Amount(s) may be replaced by one or more Product Formula(e) relating to the Structured Interest Amount of any other Product of any other Family of Product described in Condition 3 below.

If the clause "*Structured Interest Amount*" is specified as "Not Applicable" in respect of a Product of a Family of Product in Condition 3 below, this may nevertheless be modified as "Applicable" in the applicable Final Terms of the Product and consequently, a Structured Interest Amount(s) shall be paid under the Product by applying the Product Formula relating to the Structured Interest Amount of any other Product of any other Family of Product described in Condition 3 below.

Any Product Formula defined in Condition 3 below relating to the Structured Interest Amount of a Product of the Family of Products "Credit or Bond Linked Products" may be superseded or supplemented by any other Product Formula relating to the Structured Interest Amount of a Product of any Family of Product other than the Family of Products "Credit or Bond Linked Products" described in Condition 3 below. In addition, in such a case “Specified Denomination” in the formula of the Structured Interest Amount will be adjusted as per below:

- in respect of Single Name Notes and First-to-Default Notes, where relevant, "Specified Denomination" will be replaced by "Nominal Amount" in the formula of the Structured Interest Amount except if the applicable Final Terms stipulate that the clause *"Accrual of Interest upon Credit Event"* is specified as being "Guaranteed Coupon"; and

- in respect of Basket Notes, Tranche Notes and Basket Bond Linked Notes, where relevant, "Specified Denomination" will be replaced by the "Relevant Proportion of the Interest Calculation Amount" in the formula of the Structured Interest Amount except if

the applicable Final Terms stipulate that the clause *"Accrual of Interest upon Credit Event"* or *"Accrual of Interest upon Bond Event"'* (as applicable) is specified as being "Guaranteed Coupon".

1.4.3 ***Add-on relating to*** Credit Linked or Bond Linked Products

Any Product Formula defined in Condition 3 (relating to the Structured Interest Amount and/or the Automatic Early Redemption Amount and/or the Final Redemption Amount) of a Product of the Family of Products other than "Credit or Bond Linked Products" may be superseded or supplemented by any other Product Formula (relating to the Structured Interest Amount and/or the Automatic Early Redemption Amount and/or the Final Redemption Amount) of a Product of the Family of Product "Credit or Bond Linked Products". In such a case, all the provisions applicable to the Family of Product "Credit or Bond Linked Products" in case of occurrence of one or more Credit Event Determination Date(s) or Bond Event Determination Date(s) (as applicable) will apply to a Product Formula, notwithstanding Condition 1.1.1.1.1 and 1.1.2.1 of the Additional Terms and Conditions for Credit Linked Notes, and Condition 1.1.1 of the Additional Terms and Conditions for Bond Linked Notes, as applicable.

In addition, when relevant:

a. The formula of the Structured Interest Amount will be adjusted as per below:

- in respect of Single Name Notes and First-to-Default Notes, where relevant, "Specified Denomination" will be replaced by "Nominal Amount" in the formula of the Structured Interest Amount except if the applicable Final Terms stipulate that the clause "*Accrual of Interest upon Credit Event*" is specified as being "Guaranteed Coupon"; and

- in respect of Basket Notes, Tranche Notes and Basket Bond Linked Notes, where relevant, "Specified Denomination" will be replaced by the "Relevant Proportion of the Interest Calculation Amount" in the formula of the Structured Interest Amount except if the applicable Final Terms stipulate that the clause "*Accrual of Interest upon Credit Event*" or "*Accrual of Interest upon Bond Event*"' (as applicable) is specified as being "Guaranteed Coupon".

b. The formula of the Automatic Early Redemption Amount if one or more Credit Event Determination Date(s) occur(s) will be adjusted as per below:

- "Specified Denomination" will be replaced by "Cash Redemption Amount" in the formula of the Automatic Early Redemption Amount; or

- the full formula of the "Automatic Early Redemption Amount" will be replaced by "Cash Redemption Amount".

c. The formula of the Final Redemption Amount if one or more Credit Event Determination Date(s) occur(s) will be adjusted as per below:

- "Specified Denomination" will be replaced by "Cash Redemption Amount" in the formula of the Final Redemption Amount; or

- the full formula of the "Final Redemption Amount" will be replaced by "Cash Redemption Amount".

1.4.4 ***Add-on relating to Memory Coupon(s)***

Any product formula defined in Condition 3 below and used to determine and calculate a Structured Interest Amount related to a Valuation Date(i) (i from 1 to T) and/or an Automatic Early Redemption Amount and/or determine an Automatic Early Redemption Event related to an Automatic Early Redemption Date(i) (i from 1 to T) and/or a Final Redemption Amount, as the case may be, can be modified as follows in order to take into account the Structured Interest Amount and/or the Automatic Early Redemption Amount crystallised by the Product on all preceding Valuation Date(s).

The memory effect applies at Memory Valuation Dates which are included in the Schedule of Valuation Dates(i) with VD(T) being the last valuation date of this Schedule. The applicable Final Terms shall specify the Valuation Dates as well as the Memory Valuation Dates. There are the two following cases for the same product:

CASE 1: Valuation Date(i) is a Memory Valuation Date:

[Structured Interest Amount(VD(i))] [Automatic Early Redemption Amount(VD(i))] = Max(Floor(i) ; Min(Cap(i) ; Specified Denomination x **Participation_1 x ProductFormula(VD(i))** – **SumCouponsCrystallised(VD(i-1))))**

Or applied to the relevant scenario of the Final Redemption

Final Redemption Amount = Max(Floor_FRA ; Min(Cap_FRA ; Specified Denomination x Participation_FRA x (ConstantRedemptionLevel_FRA + ProductFormula_FRA(VD(T))) – SumCouponsCrystallised(VD(T-1))))

Where:

SumCouponsCrystallised(VD(i-1)) = SumCouponsCrystallised(VD(i-2)) + [Structured Interest Amount(VD(i-1))] [+Fixed Coupon Amount(VD(i-1))] [+ Floating Coupon Amount (VD(i-1))]
SumCouponsCrystallised may be an amount or the observed value of a ReferenceFormula applied to the Product Underlying(s).

With:

[SumCouponsCrystallised(VD(0)) = 0 (zero)] *or* [SumCouponsCrystallised(VD(t1)) = SumCoupons_t1]

CASE 2: Valuation Date(i) is not a Memory Valuation Date

[Structured Interest Amount(VD(i))] [Automatic Early Redemption Amount(VD(i))] = Max(Floor(i); Min(Cap(i) ; Specified Denomination **x Participation_2 x ProductFormula(VD(i)))**

With:

Participation, Floor and Cap being Variable Data specified in the applicable Final Terms.

a) Application: general case

Scenario 1:

If on Valuation Date(i), Performance(VD(i)) is higher than or equal to -5% and Valuation Date(i) is a Memory Valuation Date, then:

Structured Interest Amount(VD(i)) = Specified Denomination x (3% x i) – SumCouponsCrystallised(VD(i-1))

Where:

SumCouponsCrystallised(VD(i-1)) = SumCouponCrystallised(VD(i-2)) + [Structured Interest Amount(VD(i-1))] [+Fixed Coupon Amount (VD(i-1))] [+ Floating Coupon Amount (VD(i-1))]

With:

SumCouponsCrystallised(VD(0)) = 0] *or* [SumCouponsCrystallised(VD(t1)) = SumCoupons_t1]

Scenario 2:

If on Valuation Date(i), Performance(VD(i)) is higher than or equal to -5% and Valuation Date(i) is not a Memory Valuation Date, then:

Structured Interest Amount(VD(i)) = Specified Denomination x 3%

Scenario 3:

If on Valuation Date(i), Performance(VD(i)) is lower than -5%, then:
Structured Interest Amount(VD(i)) = 0 (zero)

b) Specific case: each Valuation Date(i) is a Memory Valuation Date

Any product formula defined in Condition 3 below and used to determine and calculate a Structured Interest Amount related to a Valuation Date(i) (i from 1 to T) and/or an Automatic Early Redemption Amount and/or determine an Automatic Early Redemption Event related to an Automatic Early Redemption Date(i) (i from 1 to T) and/or a Final Redemption Amount, as the case may be, can be modified as follows in order to take into account the Structured Interest Amount and/or the Automatic Early Redemption Amount crystallised by the product on all preceding Valuation Date(s). In this case, the applicable Final Terms will not specify Memory Valuation Dates.

[Structured Interest Amount(i)] [Automatic Early Redemption Amount(i)] = Max(Floor(i) ; Min(Cap(i) ; Specified Denomination x Participation(i) x ProductFormula(i) – SumCouponsCrystallised(i-1)))

Or applied to the relevant scenario of the Final Redemption

Final Redemption Amount = Max(Floor_FRA ; Min(Cap_FRA ; Specified Denomination x Participation_FRA x (ConstantRedemptionLevel_FRA + ProductFormula_FRA(VD(T))) – SumCouponsCrystallised(VD(T-1))))

Where:

SumCouponsCrystallised(i-1) = SumCouponsCrystallised(i-2) + [Structured Interest Amount(i-1)] [+Fixed Coupon Amount (VD(i-1))] [+ Floating Coupon Amount (VD(i-1))]
SumCouponsCrystallised may be an amount or the observed value of a ReferenceFormula applied to the Product Underlying(s).

With:

SumCouponsCrystallised(VD(0)) = 0] *or* [SumCouponsCrystallised(VD(t1)) = SumCoupons_t1]
Participation, Floor and Cap being Variable Data specified in the applicable Final Terms.

1.4.5 ***Add-on relating to Global Factors***

Additional Terms and Conditions relating to Formulae

Any Product Formula defined in Condition 3 below and used to determine and calculate a Product Amount may be modified by the addition of a GlobalCap, GlobalFloor, GlobalAdditiveFactor and GlobalMultiplicativeFactor:

The Variable Data below are defined under Condition 5.4 herein.

Option 1: If a GlobalCap applies, then:

Product Amount = Specified Denomination x Min(GlobalCap ; ProductFormula), with GlobalCap being a Variable Data specified in the applicable Final Terms.

Option 2: If a GlobalFloor applies, then:

Product Amount = Specified Denomination x Max(GlobalFloor ; ProductFormula), with GlobalFloor being a Variable Data specified in the applicable Final Terms.

Option 3: If a GlobalAdditiveFactor applies, then:

Product Amount = Specified Denomination x (ProductFormula + GlobalAdditiveFactor), with GlobalAdditiveFactor being a Variable Data specified in the applicable Final Terms.

Option 4: If a GlobalMultiplicativeFactor applies, then:

Product Amount = Specified Denomination x ProductFormula x GlobalMultiplicativeFactor, with GlobalMultiplicativeFactor being a Variable Data specified in the applicable Final Terms.

1.4.6 *Add-on relating to Foreign Exchange Rates*

Any Product Formula defined in Condition 3 below and used to determine and calculate a Product Amount expressed in a currency other than the Specified Currency may be modified by applying the FX Rate to the Product Formula or to any specific definitions and formulas within the relevant Product Amount in order to ensure that the Product Amount is denominated and paid in the Specified Currency:

Illustration 1:

Product Amount = Specified Denomination x Product Formula [x FXRate(t1)] [/ FXRate(t2)]

Illustration 2:

Product Amount = Specified Denomination x [Max(100%; (Level(i, Strike) [x FXRate(t1)] [/ FXRate(t2)]))]

In the case of Credit Linked Notes or Bond Linked Notes, when relevant:

a. the Aggregate Nominal Amount, expressed in the Specified Currency, may be converted into a currency other than the Specified Currency (the Hedge Currency) at the beginning of the lifetime of the product. In such case, the following precision will be given in the applicable Final Terms with respect to the Aggregate Nominal Amount:

Upon receipt of the proceeds settled and denominated in the Specified Currency relating to the Aggregate Nominal Amount, Societe Generale, when entering into hedging transactions in its role of Issuer of the Notes or in its role of provider of hedging instruments to the Issuer of the Notes, as the case may be, will convert such proceeds denominated in the Specified Currency into the Hedge Currency, in accordance with FXRate(0), and will hedge the product by using the proceeds converted into the Hedge Currency.

b. when the Aggregate Nominal Amount has been converted into the Hedge Currency, the Nominal Amount, the Relevant Proportion of the Interest Calculation Amount, the Cash Redemption Amount, or any amount used to determine an amount to be paid by the Issuer to the Noteholders as specifed in the applicable Final Terms, each of such amount being thus deemed to be expressed in the Hedge Currency, may be converted into the Specified Currency in order to ensure that the related Product Amount, or any other related amount to be paid by the Issuer to Noteholders and not deemed to be a Product Amount, is denominated and paid in the Specified Currency. In such case:

- FXRate(i) (i from 1 to T) shall be multiplied to the Product Formula of the related Product Amount or be taken into account in determining any other related amount to be paid by the Issuer to Noteholders and not deemed to be a Product Amount; and

- the following precision will be given in the applicable Final Terms with respect to the related Product Amount, or any other related amount to be paid by the Issuer to Noteholders and not deemed to be a Product Amount:

Pursuant to the initial conversion into the Hedge Currency of the proceeds settled and denominated in the Specified Currency relating to the Aggregate Nominal Amount, [the Nominal Amount] [the Relevant Proportion of the Interest Calculation Amount] [the Cash Redemption Amount] [any amount used to determine an amount to be paid by the Issuer to the Noteholders as specifed in the applicable Final Terms], and any other related amount, will be deemed to be denominated in the Hedge Currency.

[The related Product Amount] [Any other related amount to be paid by the Issuer to Noteholders and not deemed to be a Product Amount], and when relevant, any other amount relating to the [payment of interest] [reimbursement of capital] to be received by the Noteholders, will be payable in the Specified Currency.

Each FXRate(i) (i from 0 to T) mentioned above will be defined in accordance with Condition 4.0 herein.

1.4.7 Add-on relating to Capitalisation Rate

For some Products for which there is a significant period of time between the Last Valuation Date and the last Payment Date, the Product Formula can become:

Product Amount = Specified Denomination x Product Formula x CapitalisationRate

With CapitalisationRate calculated on the relevant period of calculation.

As an illustration, such CapitalisationRate can be Eonia Rate, …

1.4.8 Add-on relating to hedging fees applicable to a Product Formula

For some Products for which specific hedging fees are applicable, the Product Formula can become:

Product Amount = Specified Denomination x Product Formula x Hedging Fees Factor

And

Hedging Fees Factor(i) = Product(t from 1 to t) [(1 - Factor_1(t-1) × Act(t-1,t)/360) × (1 - (Factor_Fees(t-1)+Factor_Gap(t-1) +Factor_Collat(t-1)+Factor_Quanto(t-1)) × Ac(t-1,t)/360) × (1 + Factor_Rate(t-1) ×Act(t-1,t)/[360][365])]

Where:

Factor_1(t) means [0] [Factor_1, which is an annual commission rate deducted from the value of the Product.] [a rate which is an annual commission rate deducted from the value of the Product. Factor_1(0) is equal to Factor_1 as of Valuation Date(0) and for each subsequent Valuation Date(t), the value of Factor_1(t) may be amended by the Calculation Agent provided that it shall not exceed Factor_1_Max.]

Factor_Fees(t) means [0] [Factor_Fees, which is an annual commission rate deducted from the value of the Product.Max.].] [a rate which is an annual commission rate deducted from the value of the Product. Factor_Fees(t) will be equal to Factor_Fees as of Valuation Date(0) and for each subsequent Valuation Date(t), the value of Factor_Fees(t) may be amended by the Calculation Agent provided that it shall not exceed Factor_Fees_Max.] [the sum of the Factor_AdvisoryFees(t), the Factor_DistributionFees(t) and the Factor_StructuringFees(t).]

Factor_AdvisoryFees(t) means [0] [Factor_AdvisoryFees, which is an annual commission rate deducted from the value of the Product paid to the [Weighting Advisor [Index Advisor].] [a rate which is an annual commission rate deducted from the value of the Product and paid to the [Weighting Advisor][Index Advisor].] Factor_AdvisoryFees(t) will be equal to Factor_AdvisoryFees as of Valuation Date(0) and for each subsequent Valuation Date(t), the value of Factor_AdvisoryFees (t) may be amended by the Calculation Agent provided that it shall not exceed Factor_AdvisoryFees_Max.]

Factor_DistributionFees(t) means [0] [Factor_DistributionFees, which is an annual commission rate deducted from the value of the Product paid to the Distributor.] [a rate which is an annual commission rate deducted from the value of the Product and paid to the Distributor. Factor_DistributionFees(t) will be equal to Factor_DistributionFees as of Valuation Date(0) and for each subsequent Valuation Date(t), the value of Factor_DistributionFees(t) may be amended by the Calculation Agent provided that it shall not exceed Factor_DistributionFees_Max.]

Factor_StructuringFees(t) means [0] [Factor_StructuringFees, which is an annual commission rate deducted from the value of the Product paid to the Calculation Agent.] [a rate which is an annual commission rate deducted from the value of the Product and paid to the Calculation Agent. Factor_StructuringFees(t) will be equal to Factor_StructuringFees as of Valuation Date(0) and for each subsequent Valuation Date(t), the value of Factor_StructuringFees (t) may be amended by the Calculation Agent provided that it shall not exceed Factor_StructuringFees_Max.]

Factor_Gap(t) means [0] [Factor_Gap_Initial as of Valuation Date(0). For each subsequent Valuation Date(t), the value of Factor_Gap(t) may be amended by the Calculation Agent in order to reflect][, in respect of each Valuation Date(t), the annual gap premium rate as of such Valuation Date(t), as determined by the Calculation Agent] [as] [the cost that the Issuer (and/or its affiliates) would charge to replicate the performance of the Product, which includes, *inter alia*, the costs of hedging the risk of the market value of the Product becoming negative].

Factor_Collat(t) means [0][Factor_Collat_Initial as of Valuation Date(0). For each subsequent Valuation Date(t), the value of Factor_Collat(t) may be amended by the Calculation Agent in order to reflect] [, for each Valuation Date(t), an annual rate which shall be determined with respect to such Valuation Date(t) by the Calculation Agent as][the cost that would be incurred by the Issuer (and/or its affiliates) if it were to borrow the Collateral Assets (through, for example, but without limitation, a securities lending or repurchase agreement) for an amount equal to the market value of the Product as of such Valuation Date(t) (as determined by the Calculation Agent)] [multiplied by the Collateralisation Percentage].

Factor_Quanto(t) means [0] [Factor_Quanto_Initial as of Valuation Date(0). For each subsequent Valuation Date(t), the value of Factor_Quanto(t) may be amended by the Calculation Agent in order to reflect][, in respect of each Valuation Date(t), the annual quanto cost as of such Valuation Date(t), as determined by the Calculation Agent] [as] [the cost that the Issuer (and/or its affiliates) would charge to replicate the performance of the Product, which includes, *inter alia*, the costs of hedging the foreign exchange risk under the Product]

Factor_Rate(t) means, in respect of Valuation Date(t), the fixing of Interest_Rate_Overnight, as ascertained by the Calculation Agent based on the Rate Source.

Interest_Rate_Overnight means an interest rate specified in the applicable Final Terms.

Rate Source means a data source specified in the applicable Final Terms.

1.4.9 Add on relating to Optional Redemption Amount(s)

In the case of Notes other than Preference Share Linked Notes and Warrant Linked Notes, if the applicable Final Terms specify that the clause "Redemption at the option of the Issuer" is "Applicable":

- The Product Formula(e) relating to the Optional Redemption Amount may be determined on the basis of one or more Product Formula(e) (i) relating to the Final Redemption Amount of any other Product of any other Family of Product described in Condition 3 below calculated on the valuation date linked to the relevant Optional Redemption Date and (ii) different from the Product Formula of the Final Redemption Amount specified in the applicable Final Terms.

If the applicable Final Terms specify that the clause "Redemption at the option of the Noteholders" is "Applicable":

- The Product Formula(e) relating to the Optional Redemption Amount may be determined on the basis of one or more Product Formula(e) (i) relating to the Final Redemption Amount of any other Product of any other Family of Product described in Condition 3 below calculated on the valuation date linked to the relevant Optional Redemption Date and (ii) different from the Product Formula of the Final Redemption Amount specified in the applicable Final Terms.

1.4.10 Add-on relating to Variable Data

Any Variable Data that may be used to determine and/or to calculate the Product Amount of a Product of any Family of Products defined in Condition 3 below, can be replaced by any Reference Formulae appearing in Conditions 4.0 to 4.29 or by any value yielded by one or several mathematical operations which may imply one or several Reference Formula(e) appearing in Conditions 4.0 to 4.29, and applied to the Underlying(s) of the Product on the relevant valuation date(s) linked to the Product Amount.

***Illustration*:**

For the product 3.3.2 "Digital Coupon Autocall", the paragraph “Variable Data” indicates “CouponBarrier” among other Variable Datas. If the Add-on relating to Variable Data is specified as Applicable, CouponBarrier can be replaced by any Reference Formulae appearing in Conditions 4.0 to 4.29.

As an example, CouponBarrier(i) can be defined as ModifiedTarget(i, Target(i), Threshold(i-1), ReferenceFormula(i-1)).

1.4.11 Add-on relating to Spread Differential

Any product formula defined in Condition 3 below and used to determine and calculate a Structured Interest Amount related to a Valuation Date(i) (i from 1 to T) and/or an Automatic Early Redemption Amount and/or determine an Automatic Early Redemption Event related to an Automatic Early Redemption Date(i) (i from 1 to T) and/or a Final Redemption Amount, as the case may be, can be modified in order to take into account the Arbitrage Opportunity. The applicable Final Terms shall indicate the Reference Formulae from Condition 4 below used in this incoming Product Formula.

where applied to the Structured Interest Amount:

Structured Interest Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = Max [0% ; [Coupon_1 x [DCF(t,t')][(Act(i1,i2) / Act(i3,i4))]] [+ ReferenceFormula_ Arbitrage Opportunity(i)] - Max(Floor_1 ; Min(Cap_1 ; Participation_1 x (ReferenceFormula_SIA _Spread Value(i) – Strike_1))) [– Breakage Costs]]

where applied to the Automatic Early Redemption Amount:

Automatic Early Redemption Amount(i) = Specified Denomination x Product Formula(i)
Product Formula(i) = Max [0% ; ConstantRedemptionLevel_2 [+ Coupon_2 x [DCF(t,t')][(Act(i1,i2) / [Act(i3,i4))]] [+ ReferenceFormula_Arbitrage Opportunity(i)] - Max(Floor_2 ; Min(Cap_2 ; Participation_2 x (ReferenceFormula_AERA _Spread Value(i) –Strike_2))) [– Breakage Costs]]

Or applied to the relevant scenario of the Final Redemption Amount

Final Redemption Amount = Specified Denomination x Product Formula(i)

Product Formula(i) = Max [0% ; ConstantRedemptionLevel_3 [+ Coupon_3 x [DCF(t,t')][(Act(i1,i2) / Act(i3,i4))]] [+ ReferenceFormula_ Arbitrage Opportunity(T)] - Max(Floor_3 ; Min(Cap_3 ; Participation_3 x (ReferenceFormula_Spread Value(T) – Strike_3))) [– Breakage Costs]]

[Where:
Breakage Costs means all Standard Unwind Costs being the costs determined by the Calculation Agent equal to the sum of (without duplication) all costs, fees (if any) that would be paid by a Hypothetical Investor in order to execute an order on the settlement price of the Underlying[s], expenses (including break funding charges/gains and loss or gain of funding, which, for the avoidance of doubt, represents the loss/gain of future interest amounts to be received under the funding arrangement(s) entered into in relation to the Notes), tax and duties incurred directly or indirectly by Societe Generale or any of its affiliates in relation to the [Optional Redemption Amount][Final Redemption Amount] and the related partial or total termination, settlement or re-establishment of any Hedge Positions, such amount to be apportioned pro rata amongst the outstanding Notes.
Where Hedge Positions means any purchase, sale, entry into or maintenance, by Societe Generale or any of its affiliates, of one or more (a) positions or contracts in securities, futures, interest rate transactions or repurchase agreement transactions or foreign exchange transactions, (b) any cash deposits or cash borrowings and/or (c) other instruments, arrangements, assets or liabilities howsoever described in order to hedge individually or on a portfolio basis the part of Societe Generale's or any of its affiliates' obligations under the Notes.
Where Hypothetical Investor has the meaning given to it in the General Terms and Conditions.

DCF(t,t') means the Day Count Fraction convention for a period beginning on Valuation(t) and ending on (but excluding) Valuation Date(t').]

1.4.12 Add-on relating to Day Count Fraction

Any product formula defined in Condition 3 below and used to determine and calculate an Automatic Early Redemption Amount(s) of any Family of Products defined in Condition 3 below, can be modified in order to take into account the Day Count Fraction.

Illustration**:**

where applied to the Product Amount relating to an Automatic Early Redemption Amount(s):

Product Amount = Specified Denomination x Product Formula **x DCF**

where applied to any Variable Data and/or any Reference Formulae that may be used to determine and/or to calculate the Product Amount relating to an Automatic Early Redemption Amount(s):

Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Max(Floor_AERA(i) ; Min(Cap_AERA(i) ; Coupon_AERA(i) **x DCF(i)** + Participation_AERA(i) x (ReferenceFormula_AERA(i) - Strike_AERA)))
or
Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Max(Floor_AERA(i) ; Min(Cap_AERA(i) ; Coupon_AERA(i) + Participation_AERA(i) x (ReferenceFormula_AERA(i) **x DCF(i)** - Strike_AERA)))

Any product formula defined in Condition 3 below and used to determine and calculate the Final Redemption Amount of any Family of Products defined in Condition 3 below, can be modified in order to take into account the Day Count Fraction.

Illustration**:**

where applied to the Product Amount relating to the Final Redemption Amount:

Product Amount = Specified Denomination x Product Formula **x DCF**

where applied to any Variable Data and/or any Reference Formulae that may be used to determine and/or to calculate the Product Amount relating to the Final Redemption Amount:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA **x DCF(T)** + Max(FinalFloor_1 ; Min(FinalCap_1 ; FinalParticipation_1 x (ReferenceFormula_Final_1(RVD(T)) – FinalStrike_1)))
or
Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA + Max(FinalFloor_1 ; Min(FinalCap_1 ; FinalParticipation_1 x (ReferenceFormula_Final_1(RVD(T)) **x DCF(T)** – FinalStrike_1))).

1.4.13 Add-on relating to Physical Delivery

Any product formula defined in Condition 3 below (relating to the Structured Interest Amount and/or the Automatic Early Redemption Amount and/or the Final Redemption Amount) of any Family of Products defined in Condition 3 below, can be superseded by,

supplemented by the addition of, a Physical Delivery Amount as follows in accordance with the information indicated in the clause "Reference of the Product" of the applicable Final Terms:

- the Product Formula(e) relating to the Structured Interest Amount predefined in Condition 3 below may be superseded or supplemented by a Physical Delivery Amount as described in Condition 1.7 below, calculated on the relevant valuation date(s) linked to the Structured Interest Amount;

- the Product Formula(e) relating to the Automatic Early Redemption Amount predefined in Condition 3 below may be superseded or supplemented by a Physical Delivery Amount as described in Condition 1.7 below, calculated on the relevant valuation date(s) linked to the Automatic Early Redemption Amount,

- the Product Formula(e) relating to the Final Redemption Amount predefined in Condition 3 below may be superseded or supplemented by a Physical Delivery Amount as described in Condition 1.7 below, calculated on the relevant valuation date(s) linked to the Automatic Final Redemption Amount.

In such a case, all the provisions applicable to the Family of Product "Physical Delivery Notes" will apply.

Illustration:

where applied to the Product Amount relating to a Structured Interest Amount(s):

Product Amount = **Physical Delivery Amount[(i)][(i,k)]**
or
Product Amount = Specified Denomination x Product Formula **+ Physical Delivery Amount[(i)][(i,k)]**

Illustration:

where applied to the Product Amount relating to an Automatic Early Redemption Amount(s):

Product Amount = **Physical Delivery Amount[(i)][(i,k)]**
or
Product Amount = Specified Denomination x Product Formula **+ Physical Delivery Amount[(i)][(i,k)]**

Illustration:

where applied to the Product Amount relating to the Final Redemption Amount:

Final Redemption Amount = **Physical Delivery Amount[(T)][(T,k)]**
or
Final Redemption Amount = Specified Denomination × Product Formula(T) **+ Physical Delivery Amount[(T)][(T,k)]**

1.4.14 Add-on relating to the Sum of Product Amounts:

For Products that have more than one Underlying, any Product Amount defined in Condition 3 below and used to determine and calculate a Structured Interest Amount and/or a Final Redemption Amount of any Family of Products defined in Condition 3 below, can be modified to respectively a sum of Product Amount(k) in order to observe each Underlying(k) separately, where each Product Amount(k) will be defined in accordance with the information indicated in the clause "Reference of the Product" of the applicable Final Terms:

- the Product Amount relating to the Structured Interest Amount(i) predefined in Condition 3 below may be superseded by a sum of Structured Interest Amount(i,k) calculated on the relevant valuation date(s) linked to the Structured Interest Amount and for the relevant Underlying (k);

- the Product Amount relating to the Final Redemption Amount predefined in Condition 3 below may be superseded by a sum of Final Redemption Amount(k) calculated on the relevant valuation date(s) linked to the Final Redemption Amount and for the relevant Underlying (k).

Illustration:

where applied to the Structured Interest Amount of a Product having a Basket made of N Underlyings where the Reference of the Product is 3.3.2:

Structured Interest Amount(i) = Sum (for k from 1 to N) of Structured Interest Amount(i,k)

Scenario 1:
If [on Valuation Date(i), ReferenceFormula_CouponBarrier(RVD(i,k)) is [higher] [lower] than [or equal to] CouponBarrier(i)] [[and] [or] [[an American] [an European] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event_1(i) has [not] occurred], then:

Structured Interest Amount(i,k) = Specified Denomination x Weight(k) × Product Formula(i,k)

Product Formula(i,k) = Max(Floor_Coupon_1(i) ; Min(Cap_Coupon_1(i) ; Participation_Coupon_1(i) x (ReferenceFormula_Coupon(RVD(i)) – Strike_Coupon_1)))

Scenario 2:
If [on Valuation Date(i), ReferenceFormula_CouponBarrier(RVD(i,k)) is [lower] [higher] than [or equal to] CouponBarrier(i)] [[and] [or] [[an American] [an European] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event_1(i) has [not] occurred], then:

Structured Interest Amount(i,k) = Specified Denomination x Weight(k) × Product Formula(i,k)

Product Formula(i,k) = Max(Floor_Coupon_2(i) ; Min(Cap_Coupon_2(i) ; Participation_Coupon_2(i) x (ReferenceFormula_Coupon(RVD(i)) – Strike_Coupon_2)))

Where Weight(k) means Weight_k.

Illustration:

where applied to the Final Redemption Amount of a Product having a Basket made of N Underlyings where the Family of Products is "Barrier" having Option 1 Applicable:

OPTION 1: ***Final Barrier only***

Final Redemption Amount = Sum (for k from 1 to N) of Final Redemption Amount(k)

Where:

Scenario 1:
If on Valuation Date(T), ReferenceFormula_FinalBarrier(RVD(T,k)) is [higher] [lower] than [or equal to] FinalBarrier, then:

Final Redemption Amount(k) = Specified Denomination x Weight(k) × Product Formula(T,k)

Product Formula(T,k) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA + Max(FinalFloor_1 ; Min(FinalCap_1 ; FinalParticipation_1 x (ReferenceFormula_Final_1(RVD(T)) – FinalStrike_1)))

Scenario 2:
If on Valuation Date(T), ReferenceFormula_FinalBarrier(RVD(T,k)) is [lower] [higher] than [or equal to] FinalBarrier, then:

If settlement by way of cash:
Final Redemption Amount(k) = Specified Denomination x Weight(k) × Product Formula(T,k)

Product Formula(T,k) = ConstantRedemptionLevel_FRA_2 + Max(FinalFloor_2 ; Min(FinalCap_2 ; FinalParticipation_2 x (ReferenceFormula_Final_2(RVD(T)) – FinalStrike_2)))

If settlement by way of physical delivery:
Final Redemption Amount(k) = Physical Delivery Amount(T,k)

Where Weight(k) means Weight_k.

1.5 Payment currency(ies)

Payments in respect of the Product will be made in the Specified Currency, as defined in the applicable Final Terms, except when the applicable Final Terms specify that "Dual Currency Notes Provisions" is applicable, where payments in respect of the Product will be made in the Settlement Currency (which can vary depending of the different scenarios of the Product), as defined in the applicable Final Terms,

In case of Dual Currency Notes, any relevant currency can be specified in the paragraph relating to any Product Amount.

1.6 Instalment products

When the applicable Final Terms specify that "Instalment Note Provisions" is applicable, the Specified Denomination can be replaced by the Adjusted Specified Denomination (as defined the applicable Final Terms) for the purpose of calculating any Product Amount relating to the Product.

1.7 ***Physical Delivery principles***

a) Description of Physical Delivery Amount:

CASE 1: *if a Structured Interest Amount, an Automatic Early Redemption Amount or the Final Redemption Amount of a Product is determined and calculated on the basis of one Underlying and the currency of the Underlying is the same as the Specified Currency:*

An integer number of Deliverable Asset determined and calculated pursuant to the following formula:

Physical Delivery Amount[(i)][(T)] = Specified Denomination [x Product Formula] / PhysicalDeliveryStrikePrice

The fractional part of this number, if any, is paid in cash: this cash amount denominated in the Specified Currency is calculated by multiplying (a) the fractional part by (b) the Closing Price of the [Underlying][Underlying(k)] as of Valuation Date[(i)][(T)]. This cash amount is rounded up to 4 decimals.

CASE 2*: if a Structured Interest Amount, an Automatic Early Redemption Amount or the Final Redemption Amount of a Product is determined and calculated on the basis of one Underlying and the currency of the Underlying is different from the Specified Currency:*

An integer number of Deliverable Asset determined and calculated pursuant to the following formula:

Physical Delivery Amount[(i)][(T)] = Specified Denomination [x Product Formula] / (PhysicalDeliveryStrikePrice x FXRate[(i)][(T)])

The fractional part of this number, if any, is paid in cash: this cash amount denominated in the Specified Currency is calculated by multiplying (a) the fractional part by (b) the Product of (i) the relevant Closing Price of the [Underlying][Underlying(k)] as of Valuation Date[(i)][(T)] and (ii) the relevant FXRate as of Valuation Date[(i)][(T)]. This cash amount is rounded up to 4 decimals.

CASE 3*: if a Structured Interest Amount, an Automatic Early Redemption Amount or the Final Redemption Amount of a Product is determined and calculated on the basis of more than one Underlying and the currency of these Underlyings is the same as the Specified Currency:*

An integer number of Deliverable Asset(k) determined and calculated pursuant to the following formula:

Physical Delivery Amount[(i)][(i,k)][(T)][(T,k)] = Specified Denomination [x Product Formula] / PhysicalDeliveryStrikePrice(k)

With:

(k) being the Underlying with the lowest Performance(T,k), provided that if several Underlyings achieve the same lowest Performance(T,k), the Underlying having the largest market capitalisation is retained;

The fractional part of this number, if any, is paid in cash: this cash amount denominated in the Specified Currency is calculated by multiplying (a) the fractional part by (b) the Closing Price of this Underlying(k) as of Valuation Date[(i)][(T)]. This cash amount is rounded up to 4 decimals.

CASE 4*: if a Structured Interest Amount, an Automatic Early Redemption Amount or the Final Redemption Amount of a Product is determined and calculated on the basis of more than one Underlying and the currency of at least one Underlying is different from the Specified Currency:*

An integer number of Deliverable Asset(k) determined and calculated pursuant to the following formula:

Physical Delivery Amount[(i)][(i,k)][(T)][(T,k)] = Specified Denomination [x Product Formula] / (PhysicalDeliveryStrikePrice(k) x FXRate[(i)][(i,k)][(T)][(T,k)])

With:

(k) being the Underlying with the lowest Performance(T,k), provided that if several Underlyings achieve the same lowest Performance(T,k), the Underlying having the largest market capitalisation is retained;

The fractional part of this number, if any, is paid in cash: this cash amount denominated in the Specified Currency is calculated by multiplying (a) the fractional part by (b) the Product of (i) the relevant Closing Price of this Underlying(k) as of Valuation Date[(i)][(T)] and (ii) the relevant FXRate as of Valuation Date[(i)][(T)]. This cash amount is rounded up to 4 decimals.

Being specified that, in the case where (i) a Non-exempt Offer and (ii) the share in Societe Generale is specified as Deliverable Asset in the applicable Final Terms, the part of the Physical Delivery Amount composed by shares in Societe Generale will be replaced by a cash amount. This cash amount is calculated by multiplying (a) the number of shares in Societe Generale being in the composition of the Physical Delivery Amount by (b) the Closing Price of the share in Societe Generale as of Valuation Date(T) specified in the applicable Final Terms. This cash amount is rounded up to 4 decimals and converted, if any, in the Specified Currency.

b) Variable Data:

PhysicalDeliveryStrikePrice

2. SCHEDULE – GENERAL DEFINITIONS AND SPECIFIC DEFINITION(S) - VARIABLE DATA - REFERENCE FORMULA(E)

2.1 Schedule

A **Schedule** designates either (A) a list of Valuation Date(s) or Relevant Valuation Date(s) or any other date(s), or (B) all Valuation Date(s) or Relevant Valuation Date(s) or any other date(s) comprised within a defined period.

For the avoidance of doubt, several Schedules may be used for the determination and calculation of a Product Amount. For ease of reading, Schedules may be renamed (e.g. Period, Corridor Period, European Knock-In Period, American Knock-In Period,...).

Furthermore, in respect of a Product Formula and a particular Schedule, also for ease of reading, "Valuation Date" or "Relevant Valuation Date" may be renamed (for instance, for a Schedule made of daily Valuation Dates, "Valuation Date" may be renamed "Daily Valuation Date", for a Schedule with annual Valuation Dates, "Valuation Date" may be renamed "Annual Valuation Date", for another Schedule relating to a specific Underlying_A, "Valuation Date" may be renamed "Underlying_A Valuation Date",...).

2.2 General Definitions and Specific Definition(s)

2.2.1 General Definitions: Definitions listed in Condition 5 below are applicable to all the Families of Products and to each Product within a Family of Products.

2.2.2 Specific Definition(s): Definitions used, as the case may be, to determine and calculate a Product Amount and/or the related Reference Formula. One or more specific definitions may be necessary (hereafter the Specific Definition(s)). The Specific Definitions are set out in the paragraph of Condition 5 below corresponding to the relevant Reference of the Product and called "Specific Definitions" and replicated in the applicable Final Terms. When no Specific Definition is necessary to determine and calculate a Product Amount, the paragraph "Specific Definition(s)" shall mention: "No Specific Definition is necessary to determine and calculate a Product Amount".

2.3 Variable Data

One or more variable data are necessary to determine and calculate a Product Amount of a Product (referred to as the **Variable Data**). The definition of the Variable Date that may be used for the Product Amount of a Product of any Family of Products are listed in Condition 5.4 below.

The Variable Data listed in Condition 5.4 and that may be used in respect of one or more Products of a Family of Products are set out in the sub-paragraph titled "Variable Data" of the relevant Family of Product (e.g. 3.3.0).

The Variable Data listed in Condition 5.4 necessary to a specific Product are set out in the paragraph "Variable Data" of such Product.

In the applicable Final Terms, depending on their respective definition set out in Condition 5.4 below, each Variable Data can be an amount, a level, a percentage or the observed value of a Reference Formula applied to the Underlying(s) of the Product.

A Variable Data may depend on a specific Schedule or dates as defined above in Condition 2.1.

o Illustration in respect of Notes:

for the Reference of the Product 3.1.1 "Certificate", the paragraph "Automatic Early Redemption Amount" refers to the Variable Data "ConstantRedemptionLevel_AERA(i)" which is the value of the ConstantRedemptionLevel_AERA on a specific Valuation Date (i), date in respect of which an Automatic Early Redemption Event is deemed to have occurred, as determined by the Calculation Agent:

Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = **ConstantRedemptionLevel_AERA(i)**

If in respect of a Product Formula of a Product Amount of a specific Product, a Variable Data has a value of either 0 (zero) or 1 (one), or is not used or not useful or if a Variable Data is not applicable for the calculation of certain Product Amounts, then Product Formula(e) as specified in the applicable Final Terms may be simplified in the applicable Final Terms for the purpose of improving the reading and intelligibility of formula(e).

o ***Illustration in respect of Notes***: for instance, if the Product Formula of a Product Amount of a particular Product is:

ConstantRedemptionLevel + Min(Cap ; Participation x ReferenceFormula_Coupon)

and the Variable Data "ConstantRedemptionLevel" is equal to 0, "Participation" is equal to 1, and "Cap" is not applicable, then the Product Formula of such Product Amount may be simplified in the applicable Final Terms as follows:

ReferenceFormula_Coupon

2.4 Reference Formula(e)

Reference Formula(e) are pre-defined basic formulae specified under Condition 4 below (referred to as individually the **Reference Formula** and collectively **Reference Formulae**) which are used, as the case may be, as inputs in respect of an Option, a Product Formula and/or one or several Specific Definitions or Add-ons necessary to determine and calculate a Product Amount.

For each Product described in Condition 3 below appears a paragraph called "Reference Formula(e)".

This paragraph indicates:

2.4.1 on one side, the context in which the Reference Formulae of the Product are used, by the suffix which follows the expression "Reference Formula_" e.g.

- "***ReferenceFormula_Final***" which means that the Reference Formula of the Product is used to determine the Final Redemption Amount of the Product and the Product Formula, the Option and/or one or several Specific Definitions necessary to the determination of the Final Redemption Amount contain the instruction "Reference Formula_Final";

For example, for the product 3.5.1.1 "Ressetable Accumulator", the paragraph "Reference Formula(e)" indicates "Reference Formula_ Final" which means that a Reference Formula is used to determine the Final Redemption Amount and the paragraph "Final Redemption" indicates:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemption + Max(Floor ; Min(Cap ; Participation x Max(0 ; **Reference Formula_Final(T)** – Strike)))

"***ReferenceFormula_AERA***" means that the Reference Formula of the Product is used to determine the Automatic Early Redemption Amount of the Product, if any.

For example, for the product 3.1.2 "European Forward", the paragraph "Reference Formula(e)" indicates "ReferenceFormula_AERA" means that a Reference Formula is used to determine the Automatic Early Redemption Amount and the paragraph "Automatic Early Redemption" indicates:

Automatic Early Redemption Amount = Specified Denomination x Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i) + Participation_AERA(i) x **ReferenceFormula_AERA**(i)

"***ReferenceFormula_Coupon***" means that the Reference Formula of the Product is used to determine the Final Redemption Amount of the Product and the Product Formula, the Option and/or one or several Specific Definitions necessary to the determination of the Final Redemption Amount contain the instruction "ReferenceFormula_Coupon ";

For example, for the product 3.5.1 "Accumulator", the paragraph "Reference Formula(e)" indicates "ReferenceFormula_Coupon" means that a Reference Formula is used to determine the Structured Interest Amount and the paragraph "Structured Interest" indicates:

Structured Interest Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = Max(Floor(i) ; Min(Cap(i) ; Participation(i) x **ReferenceFormula_Coupon**(RVD(i))))

2.4.2 on the other side, the name of the applicable Reference Formulae and/or the ones most likely to be applicable to the Product. The paragraph "Reference Formula(e)" will also indicate the Families of Products to which the applicable or the most likely to be applicable Reference Formula(e) belongs to. For example, if the paragraph "Reference Formula(e)" indicates "AverageTimeLevel (as defined under Condition 4.9 below of the Family of "TimeLevel")", it means that the Reference Formula "AverageTimeLevel", belonging to the "TimeLevel" Family as defined in Condition 4.9 below, is applicable or is the most likely to be applicable to the Product.

A Reference Formula will be used to determine either Reference Price(s), Reference Performance(s), Reference Level(s) or Reference Fixing(s).

For the avoidance of doubt, when Reference Formula(e) is/are not relevant for a Product, it shall not appear in the applicable Final Terms of this Product.

Any Reference Formula indicated in Condition 4 below may also, in respect of a Product Formula, be defined as a "Sum of ReferenceFormula", a "Difference of ReferenceFormula" or "ReferenceFormula – 100%" or "100%,- ReferenceFormula" ", or “Max(ReferenceFormula_1 ; ReferenceFormula_2)” or “Min(ReferenceFormula_1 ; ReferenceFormula_2)” or be expressed as a negative component and be preceded by the sign"-".

Where:

o A: "Sum of ReferenceFormula" means that two or more Reference Formulae have been added together in order to determine a new Reference Formula for the purpose of determining a Product Amount.

o B: "Difference ReferenceFormula" means that a Reference Formula have been subtracted from another Reference Formula in order to determine a new Reference Formula for the purpose of determining a Product Amount.

o C: "ReferenceFormula – 100%" means that 100% has been subtracted from a Reference Formula in order to determine a new Reference Formula for the purpose of determining a Product Amount.

o D: "100% - ReferenceFormula" means that a ReferenceFormula has been subtracted from 100% in order to determine the Reference Formula(e) for the purpose of determining a Product Amount.

o E: "Max(ReferenceFormula_1 ; ReferenceFormula_2)" means the maximum between two Reference Formulae in order to determine a new Reference Formula for the purpose of determining a Product Amount.

o F: "Min(ReferenceFormula_1 ; ReferenceFormula_2)" means the minimum between two Reference Formulae in order to determine a new Reference Formula for the purpose of determining a Product Amount.

Provided that options A to D above may be combined: for example a new Reference Formula may be created as a Sum of ReferenceFormula as per option A, and then subtracted from 100% as per option D.

Any Reference Formula defined in a currency other than the Specified Currency may be converted into the Specified Currency based on the applicable Foreign Exchange Rate between the currency of the Product Formula and the Specified Currency.
Reference Formula(e), Variable Data, applicable options and any other term which are defined in brackets "**[…]**" are optional.

3. FAMILIES OF PRODUCTS

Set out below the list of Families of Products and the description of each of the Families:

Reference	Family	Description of the Family
3.1	**Certificate Products**	This family includes Products which provide exposure to the positive or negative performance of an Underlying or a Basket or one or several Underlying(s) within a Basket.
3.2	**Vanilla Products**	This family includes Products which provide exposure to the positive or negative performance of an Underlying or a Basket or one or several Underlying(s) within a Basket, where the Product Amount(s) are determined based on either (a) an amount which depends on the performance or level of the Underlying or Basket or one or several Underlying(s) within a Basket (Calls and Puts) or (b) a pre-defined fixed amount (Digital Calls/Puts) or variable amount (Range Accrual). Performance or level of the Underlying or Basket or one or several Underlying(s) within a Basket can be weighted, leveraged, averaged, locked, floored and/or capped.
3.3	**Barrier Products**	This family includes Products which provide exposure to the positive or negative performance of an Underlying or a Basket of one or several Underlying(s) within a Basket, where the Product Amount(s) are determined based on one or several conditions (categorised in several scenarios). Typically, a condition is satisfied [or not] if the performance or level of an Underlying or Basket of one or several Underlying(s) within a Basket is [higher than] [or] [equal to] [or] [lower than] a pre-defined barrier performance or level. Performance or level of the Underlying or Basket or one or several Underlying(s) within a Basket can be weighted, leveraged, averaged, locked, floored and/or capped.
3.4	**Reserved**	
3.5	**Accumulator and Cliquet Products**	This family includes Products which provide exposure to the performance of an Underlying or a Basket or one or several Underlying(s) within a Basket, where the Product Amount(s) are determined based on an accumulation (either additive or multiplicative) of performances of the

		Underlying or Basket or one or several Underlying(s) within a Basket over several consecutive periods (performances being usually restriked at the beginning of each period). Performances of the Underlying or Basket or one or several Underlying(s) within a Basket can be weighted, leveraged, averaged, locked, floored and/or capped.
3.6	**Multi-underlying Products**	This family includes Products which provide exposure to the positive or negative performance of several Underlyings comprising the Basket, where the Product Amount(s) are determined based on the individual performance or level of each Underlying, provided that this individual performance or level can be weighted, leveraged, averaged, locked, floored and/or capped. Composition of the Basket can be altered over time depending on the individual performance or level of the Underlyings. Performances of the Underlyings or Basket or one or several Underlying(s) within a Basket can be weighted, leveraged, averaged, locked, floored and/or capped.
3.7	**Volatility Products**	This family includes Products which provide exposure to the positive or negative performance of the historical variance or historical volatility of an Underlying or a Basket or one or several Underlying(s) within a Basket. Variance and volatility are measures of the dispersion of Underlying(s) returns. The Product Amount(s) are determined based on (a) performance or level of the Underlying or Basket or one or several Underlying(s) within a Basket and / or (b) historical variance or historical volatility of the Underlying or Basket and / or (c) additional parameters (if relevant). Performance or level or historical variance or historical volatility of the Underlying or Basket can be weighted, leveraged, averaged, locked, floored and/or capped.
3.8	**Reserved**	
3.9	**Rate Products**	This family includes Products commonly used to provide exposure to Reference Rate or Inflation Index, provided that other Family of Products may be indexed to Reference Rate or Inflation Index.
3.10	Credit or Bond Linked Products	This family includes Products which provide exposure to the credit risk of a Reference Entity or a Bond and the financial indebtedness of any such Reference Entity where the Product Amounts are determined according to the occurrence of Credit Event(s) or Bond Event(s) and in the case of the occurrence of Credit Event(s), according to the Cash Redemption Amount or the Physical Delivery Amount (with, if any, the Cash Redemption Amount per Undeliverable Obligations) as applicable, as defined in the Additional Terms and Conditions for Credit Linked Notes or of Bond Event(s), according

		to the Bond Event Amount as defined in the Additional Terms and Conditions for Bond Linked Notes. In addition, the Autocall Credit Linked Products provide exposure to the positive or negative performance of a CDS Spread, where the Product Amount(s) are determined based on one or several conditions, one of which being typically satisfied if the level of the CDS Spread is higher (or lower) than or equal to a pre-defined barrier.
3.11	**Combined Vanilla Products**	This family includes Products which provide exposure to the positive or negative performance of an Underlying or a Basket or one or several Underlying(s) within a Basket, where the Product Amount(s) are determined as a floored, capped or leveraged weighted combination, either additive or multiplicative, of vanilla calls, puts, digits, fixed amounts, and combinations, either additive or multiplicative, of calls, digits and fixed amounts.

3.1 FAMILY OF PRODUCTS "CERTIFICATE"

Set out below the list of Products of the Family of Products "Certificates", the Reference of the Product of which is mentioned in the table below and will be indicated in the applicable Final Terms in the clause *"Reference of the Product".*

Reference of the Product	**Product**
3.1.1	**Certificate**
3.1.2	**European Forward**
3.1.3	**Standard Forward**
3.1.4	**Certificate with Performance Fee**

Description of how the value of the relevant Notes can be affected by the value of the Underlying(s)

The Family "Certificate" comprises Products which provide exposure to the positive or negative performance of an Underlying or a Basket or one or several Underlying(s) within a Basket.

3.1.1 ***Certificate***

If the applicable Final Terms specify that "*Reference of the Product*" is 3.1.1, the following applies:

3.1.1.1 **Product Description**:

- This Product does not pay any Structured Interest Amount.

- An Automatic Early Redemption Amount may be paid under this Product.

o If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a leverage factor.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value increased as the case may be by the value of the ReferenceFormula considered and applied to the Underlying(s) of the Product, which may be subject to a leverage factor.

3.1.1.2 **Structured Interest Amount: Not Applicable**

3.1.1.3 **Automatic Early Redemption Amount**: Applicable

Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i) + Participation_AERA(i) x ReferenceFormula_AERA(i)

3.1.1.4 **Final Redemption Amount**:

Final Redemption Amount = Specified Denomination x Product Formula(T)

If settlement by way of cash:

Product Formula(T) = ConstantRedemptionLevel_FRA + Participation x ReferenceFormula_Final(RVD(T))

If settlement by way of physical delivery:

Final Redemption Amount = Physical Delivery Amount(T)

3.1.1.5 **Specific Definition**(s):

The applicable Final Terms shall indicate, as the case may be, one or more definitions mentioned in Condition 1.2.2 above.

If settlement by way of physical delivery is applicable in the applicable Final Terms, the applicable Final Terms will mention the definitions defined in Condition 1.7.

3.1.1.6 **Variable Data:**

ConstantRedemptionLevel_AERA; ConstantRedemptionLevel_FRA; Coupon_AERA; Participation; Participation_AERA; AutocallBarrier

These Variable Data are defined under Condition 5.4 herein.

3.1.1.7 **Reference Formula(e):**

ReferenceFormula_AERA; ReferenceFormula_Final

Among the Reference Formulae defined under Condition 4 the ones mainly used for these Products are (but without limitation):

Level (as defined under Condition 4.1 of the *Family of "SimpleLevel"*)
BasketLevel (as defined under Condition 4.3 of the Family of "Basket Level")

3.1.2 *European Forward*

If the applicable Final Terms specify that "*Reference of the Product*" is 3.1.2, the following applies:

3.1.2.1 **Product Description:**

- Unless previously redeemed, this Product pays a Structured Interest Amount equal to a predetermined value increased as the case may be by the value of the ReferenceFormula considered and applied to the Underlying(s) which may be subject to a floor and / or a cap and / or with a leverage factor.

- An Automatic Early Redemption Amount may be paid under this Product.

o If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a leverage factor.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equal to the value of the Reference Formula considered, which may be subject to a floor and / or a cap and / or with a leverage factor.

3.1.2.2 **Structured Interest Amount:** Applicable

Structured Interest Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = Max(Floor_Coupon(i) ; Min(Cap_Coupon(i) ; Constant_Coupon + Participation_Coupon(i) x (ReferenceFormula_Coupon(RVD(i)) – Coupon_Strike(i))))

3.1.2.3 **Automatic Early Redemption Amount:** Applicable

Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i) + Participation_AERA(i) x ReferenceFormula_AERA(i)

3.1.2.4 **Final Redemption Amount:**

Final Redemption Amount = Specified Denomination x Product Formula(T)

If settlement by way of cash:

Product Formula(T) = Max(Floor_FRA ; Min(Cap_FRA ; (ConstantRedemptionLevel_FRA + FinalParticipation x (ReferenceFormula_Final(RVD(T)) - FinalStrike))))

If settlement by way of physical delivery:

Final Redemption Amount = Physical Delivery Amount(T)

3.1.2.5 **Specific Definition(s):**

The Final applicable Terms shall indicate, as the case may be, one or more definitions mentioned in Condition 1.2.2 above.

If settlement by way of physical delivery is applicable in the applicable Final Terms, the applicable Final Terms will mention the definitions defined in Condition 1.7.

3.1.2.6 **Variable Data:**

Floor_Coupon; Cap_Coupon; Participation_Coupon; Participation_AERA; Coupon_Strike; Constant_Coupon; ConstantRedemption_AERA; Coupon_AERA; ConstantRedemptionLevel_FRA; FinalParticipation; Floor_FRA; Cap_FRA; FinalStrike

These Variable Data are defined under Condition 5.4 herein.

3.1.2.7 **Reference Formula(e):**

ReferenceFormula_Coupon; ReferenceFormula_AERA; ReferenceFormula_Final
Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

Level (as defined under Condition 4.1 of the Family of "SimpleLevel")
BestLevel (as defined under Condition 4.5 of the Family of "BestLevel")
WorstLevel (as defined under Condition 4.6 of the Family of "WorstLevel")
AverageTimeLevel, MaxTimeLevel or MinTimeLevel (as defined under Condition 4.9 of the Family of "TimeLevel")

3.1.3 ***Standard Forward***

If the applicable Final Terms specify that "Reference of the Product" is 3.1.3, the following disposition applies:

3.1.3.1 **Product Description**

- This Product does not pay any Structured Interest.

- This Product does not pay any Automatic Early Redemption Amount.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value increased as the case may be by the value of the Reference Formula considered, which may be subject to a floor and / or a cap and / or with a leverage factor.

3.1.3.2 **Structured Interest Amount:** Not Applicable

3.1.3.3 **Automatic Early Redemption Amount:** Not Applicable

3.1.3.4 **Final Redemption Amount:**

Final Redemption Amount = Specified Denomination x ProductFormula(T)

If settlement by way of cash:

ProductFormula(T) = Max(Floor_FRA ; Min(Cap_FRA ; ConstantRedemption_FRA + Final Participation x (ReferenceFormula_Final(RVD(T)) – Final Strike)))

If settlement by way of physical delivery:

Final Redemption Amount = Physical Delivery Amount(T)

3.1.3.5 **Specific Definitions:**

If settlement by way of physical delivery is applicable in the applicable Final Terms, the applicable Final Terms will mention the definitions defined in Condition 1.7.

3.1.3.6 **Variable Data:**

ConstantRedemption_FRA; FinalParticipation; Floor_FRA; Cap_FRA; FinalStrike

These variable data are defined under Condition 5.4 herein

3.1.3.7 **Reference Formula(e):**

ReferenceFormula_Final

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

Level (as defined under Condition 4.1 of the Family of "SimpleLevel")
BestLevel (as defined under Condition 4.5 of the Family of "BestLevel")
WorstLevel (as defined under Condition 4.6 of the Family of "WorstLevel")
AverageTimeLevel, MaxTimeLevel or MinTimeLevel (as defined under Condition 4.9 of the Family of "TimeLevel")

3.1.4 ***Certificate with Performance Fee***

If the applicable Final Terms specify that "*Reference of the Product*" is 3.1.4, the following applies:

3.1.4.1 **Product Description**:

- This Product does not pay any Structured Interest Amount.

- This Product does not pay any Automatic Early Redemption Amount.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value increased as the case may be by the value of the Certificate Level, calculated depending on the option selected among 4 possible applied to the Underlying(s) of the Product, net of calculation fees, hedging fees or performance fees, and which may be subject to a leverage factor.

3.1.4.2 **Structured Interest Amount:** Not Applicable

3.1.4.3 **Automatic Early Redemption Amount:** Not Applicable

3.1.4.4 **Final Redemption Amount:**

Final Redemption Amount = Specified Denomination x Product Formula(T)

If settlement by way of cash:

Product Formula(T) = ConstantRedemptionLevel_FRA + Participation x CertificateLevel(RVD(T))

If settlement by way of physical delivery:

Final Redemption Amount = Physical Delivery Amount(T)

3.1.4.5 **Specific Definition(s)**:

The applicable Final Terms shall indicate, as the case may be, one or more definitions mentioned below if relevant :

CertificateLevel(t) = CL(t) / Strike

Option A : [Calculation][Performance] Fee Highwatermark

CL(t) means, in respect of any Valuation Date(t), the value of the product net of hedging fees and [calculation][performance] fees determined by the Calculation Agent as follows:

CL(t) = Max[0% ; (CL(t-1) + [Calculation][Perf] Fee(t-1)) × [S(t) / S(t-1) × Hedging Fee Factor(t) / Hedging Fee Factor(t-1)] - [Calculation][Perf]Fee(t-1) - [Calculation][Perf]Fee(t)]

Where:

CL(0) = ConstantCertificateLevel_0

[Calculation][Perf]Fee(t) means, in respect of any [Calculation Date(t)][Valuation Date(t)], the [calculation][performance] fees to be paid to the [Weighting Advisor][Index Advisor] and determined by the Calculation Agent as follows:

[Calculation][Perf]Fee(t) = Max[0%; PF × ((CL(t-1) + [Calculation][Perf] Fee(t-1)) × [S(t) / S(t-1) × Hedging Fee Factor(t) / Hedging Fee Factor(t-1)] - [Calculation][Perf] Fee(t-1) - BL(t))]

Where :

[Calculation][Perf] Fee(0) = 0 (zero)

BL(t) means the Maximum, for i from tr to t-1, of CL(i)

Option B : [Calculation][Performance] Fee with Fixed Rate Benchmark

CL(t) means, in respect of any Valuation Date(t), the value of the product net of hedging fees and [calculation][performance] fees determined by the Calculation Agent as follows:

CL(t) = Max[0% ; (CL(t-1) + [Calculation][Perf] Fee(t-1)) × [S(t) / S(t-1) × Hedging Fee Factor(t) / Hedging Fee Factor(t-1)] - [Calculation][Perf] Fee(t-1) - [Calculation][Perf] Fee(t)]

Where :

CL(0) = ConstantCertificateLevel_0

[Calculation][Perf] Fee(t) means, in respect of any [Calculation Date(t)][Valuation Date(t)], the [calculation][performance] fees to be paid to the [Weighting Advisor][Index Advisor] and determined by the Calculation Agent as follows:

[Calculation][Perf] Fee(t) = Max[0% ; PF × ((CL(t-1) + [Calculation][Perf] Fee(t-1)) × [S(t) / S(t-1) × Hedging Fee Factor(t) / Hedging Fee Factor(t-1)] - [Calculation][Perf] Fee(t-1) - BL(t))]

Where :
[Calculation][Perf]Fee(0) = 0 (zero)

BL(t) means the Maximum, for i from tr to t-1, of CL(i) x [1 + FixedRate x Act(i,t) / 360]

Option C : Performance Fee Daily

CL(t) means, in respect of any Valuation Date(t), the value of the product net of hedging fees and [calculation][performance] fees determined by the Calculation Agent as follows:

CL(t) = Max[0% ; (CL(t-1) × [S(t) / S(t-1)] - [Calculation][Perf]Fee(t)]

Where:

CL(0) = ConstantCertificateLevel_0

[Calculation][Perf]Fee(t) means, in respect of any [Calculation Date(t)][Valuation Date(t)], the [calculation][performance] fees to be paid to the [Weighting Advisor][Index Advisor] and determined by the Calculation Agent as follows:

[Calculation][Perf]Fee(t) = CL(t-1) × Hedging Fee Factor(t)

Where :

[Calculation][Perf]Fee(0) = 0 (zero)

The applicable Final Terms shall indicate as well, as the case may be, one or more definitions defined below if relevant :

Hedging Fee Factor(t) means Product for i from 1 to t of (1 – (Factor_Fees(i-1)) x (Act(i-1;i) / 360)) except in case Option C : [Calculation][Performance] Feed Daily is elected in which case **Hedging Fee Factor(t)** means [Factor_Fees(t) x (Act(t-1;t) / 360)]

[Where Hedging Fee Factor(0) = 1]

Factor_Fees(t) means [0] [Factor_Fees, which is an annual commission rate deducted from the value of the Product.][the sum of the Factor_AdvisoryFees(t), the Factor_DistributionFees(t) and the Factor_StructuringFees(t).]

Factor_AdvisoryFees(t) means [0] [Factor_AdvisoryFees, which is an annual commission rate deducted from the value of the Product paid to the [Weighting Advisor][Index Advisor].]

Factor_DistributionFees(t) means [0] [Factor_DistributionFees, which is an annual commission rate deducted from the value of the Product paid to the Distributor.]

Factor_StructuringFees(t) means [0] [Factor_StructuringFees, which is an annual commission rate deducted from the value of the Product paid to the Calculation Agent.]

If settlement by way of physical delivery is applicable in the applicable Final Terms, the applicable Final Terms will mention the definitions defined in Condition 1.7.

3.1.4.6 **Variable Data:**

ConstantRedemptionLevel_FRA; Participation; ConstantCertificateLevel;PF; Strike; FixedRate; Factor_Fees; Factor_AdvisoryFees; Factor_DistributionFees; Factor_StructuringFees.

These Variable Data are defined under Condition 5.4 herein.

3.1.4.7 **Reference Formula:**

Among the Reference Formulae defined under Condition 4 the ones mainly used for these Products are (but without limitation):

S (as defined under Condition 4.0 of the Definition of S, SI and FXRate)Fixing
(as defined under Condition 4.25 of the Family of "Reference Fixings")

3.2 FAMILY OF PRODUCTS "VANILLA"

Set out below the list of Products of the Family of Products "Vanilla", the Reference of the Product of which is mentioned in the table below will be indicated in the applicable Final Terms in the clause "*Reference of the Product*".

Reference of the Product	Product
3.2.1	European Call
3.2.2	European Put
3.2.3	Digital Call
3.2.4	Digital Put
3.2.5	Call Standard
3.2.6	Put Standard

Description of how the value of the relevant Notes can be affected by the value of the Underlying(s)

The Family "Vanilla" comprises Products which provide exposure to the positive or negative performance of an Underlying or a Basket or one or several Underlying(s) within a Basket, where the Product Amount(s) are determined based on either (a) an amount which depends on the performance or level of the Underlying or Basket or one or several Underlying(s) within a Basket (European Calls and Puts) or (b) a pre-defined fixed amount (Digital Calls/Puts). Performance or level of the Underlying or Basket or one or several Underlying(s) within a Basket can be weighted, leveraged, averaged, locked, floored and/or capped.

3.2.1 ***European Call***
If the applicable Final Terms specify that "*Reference of the Product*" is 3.2.1, the following applies:

3.2.1 **Product Description:**

- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the scenario occurring among the 2 possible:

  o The occurrence of these scenarios depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to a Strike.

  o The Structured Interest Amount may be equal, depending upon the scenario occurring, to the value of the ReferenceFormula considered which may be subject to a floor and / or a cap and / or with a leverage factor.

- An Automatic Early Redemption Amount may be paid under this Product.

  o If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 2 possible:

o If the value of the ReferenceFormula considered is higher than [or equal to] a Strike, the Final Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or a cap and / or with a leverage factor.

o If the value of the ReferenceFormula considered is lower than or [equal to] a Strike, the Final Redemption Amount equals a predetermined value.

3.2.1.2 **Structured Interest Amount:** Applicable

Scenario 1:
If on Valuation Date((i), ReferenceFormula_Coupon_1(RVD(i)) is higher than [or equal to] Strike(i), then:

Structured Interest Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_1(i) ; Min(Cap_Coupon_1(i) ; Participation_1(i) x (ReferenceFormula_Coupon_2(RVD(i)) – CouponStrike_1(i))))

Scenario 2:

If on Valuation Date((i), ReferenceFormula_Coupon_1(RVD(i)) is lower than [or equal to] Strike(i), then:

Structured Interest Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_2(i) ; Min(Cap_Coupon_2(i) ; Participation_2(i) x (ReferenceFormula_Coupon_3(RVD(i)) – CouponStrike_2(i))))

3.2.1.3 **Automatic Early Redemption Amount:** Applicable

Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = ConstantRedemption_AERA(i) + Coupon_AERA(i)

3.2.1.4 **Final Redemption Amount:**

Scenario 1:
If on Valuation Date(T), ReferenceFormula_Final_1(RVD(T)) is higher than [or equal to] FinalStrike_1, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Max(Floor_FRA ; Min(Cap_FRA ; FinalParticipation x (ReferenceFormula_Final_2(RVD(T)) – FinalStrike_2)))

Scenario 2:

If on Valuation Date(T), ReferenceFormula_Final_1(RVD(T)) is lower than [or equal to] FinalStrike_1, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2

3.2.1.5 **Specific Definition(s):**

The applicable Final Terms shall indicate, as the case may be, one or more definitions mentioned in Condition 1.2.2 above.

3.2.1.6 **Variable Data:**

Strike; Participation_1; Cap_Coupon_1; Floor_Coupon_1; Participation_2; Cap_Coupon_2; Floor_Coupon_2; ConstantRedemption_AERA; Coupon_AERA; CouponStrike_1; CouponStrike_2; FinalStrike_1; FinalStrike_2; Cap_FRA; Floor_FRA; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; FinalParticipation

These Variable Data are defined under Condition 5.4 herein.

3.2.1.7 **Reference Formula(e):**

ReferenceFormula_Coupon_1; ReferenceFormula_Coupon_2; ReferenceFormula_Coupon_3; ReferenceFormula_Final_1; ReferenceFormula_Final_2

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

Level (as defined under Condition 4.1 of the Family of "SimpleLevel")
BestLevel (as defined under Condition 4.5 of the Family of "BestLevel")

WorstLevel (as defined under Condition 4.6 of the Family of "WorstLevel")
AverageTimeLevel, MaxTimeLevel or MinTimeLevel (as defined under Condition 4.9 of the Family of "TimeLevel")

3.2.2 *European Put*

If the applicable Final Terms specify that "*Reference of the Product*" is 3.2.2, the following applies:

3.2.2.1 **Product Description:**

- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the scenario occurring among the 2 possible.

  o The occurrence of these scenarios depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to a Strike.

  o The Structured Interest Amount may be equal, depending upon the scenario occurring, to the value of the ReferenceFormula considered which may be subject to a floor and / or a cap and / or with a leverage factor.

- An Automatic Early Redemption Amount may be paid under this Product

  o If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 2 possible

  o If the value of the ReferenceFormula considered is lower than [or equal to] a Strike, the Final Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or a cap and / or with a leverage factor.

  o If the value of the ReferenceFormula considered is higher than [or equal to] a Strike, the Final Redemption Amount equals a predetermined value.

3.2.2.2 **Structured Interest Amount:** Applicable

Scenario 1:
If on Valuation Date(i), ReferenceFormula_Coupon_1(RVD(i)) is lower than [or equal to] Strike(i), then:

Structured Interest Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_1(i) ; Min(Cap_Coupon_1(i) ; Participation_1(i) x (CouponStrike_1(i) – ReferenceFormula_Coupon_2(RVD(i)))))

Scenario 2:
If on Valuation Date(i), ReferenceFormula_Coupon_1(RVD(i)) is higher than [or equal to] Strike(i), then:

Structured Interest Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_2(i) ; Min(Cap_Coupon_2(i) ; Participation_2(i) x (CouponStrike_2(i) – ReferenceFormula_Coupon_3(RVD(i)))))

3.2.2.3 **Automatic Early Redemption Amount:** Applicable

Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)
Product Formula(i) = ConstantRedemption_AERA(i) + Coupon_AERA(i)

3.2.2.3 **Final Redemption Amount:**

Scenario 1:
If on Valuation Date(T), ReferenceFormula_Final_1(RVD(T)) is lower than [or equal to] FinalStrike_1, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Max(Floor_FRA ; Min(Cap_FRA ; FinalParticipation x (FinalStrike_2 – ReferenceFormula_Final_2(RVD(T)))))

Scenario 2:
If on Valuation Date(T), ReferenceFormula_Final_1(RVD(T)) is higher than [or equal to] FinalStrike_1, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2

3.2.2.5 **Specific Definition(s):**

The applicable Final Terms shall indicate, as the case may be, one or more definitions mentioned in Condition 1.2.2 above.

3.2.2.6 **Variable Data:**

Strike; Participation_1; Cap_Coupon_1; Floor_Coupon_1; Participation_2; Cap_Coupon_2; Floor_Coupon_2; Coupon_AERA; CouponStrike_1; CouponStrike_2; FinalStrike_1; FinalStrike_2; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; ConstantRedemption_AERA; Coupon_AERA; FinalParticipation; Cap_FRA; Floor_FRA

These Variable Data are defined under Condition 5.4 herein.

3.2.2.7 **Reference Formula(e):**

ReferenceFormula_Coupon_1; ReferenceFormula_Coupon_2; ReferenceFormula_Coupon_3; ReferenceFormula_Final_1; ReferenceFormula_Final_2

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):
Level (as defined under Condition 4.1 of the Family "of "SimpleLevel")
BestLevel (as defined under Condition 4.5 of the Family "of "BestLevel")
WorstLevel (as defined under Condition 4.6 of the Family "of "WorstLevel")
AverageTimeLevel, MaxTimeLevel or MinTimeLevel (as defined under Condition 4.9 of the Family "f "TimeLevel")

3.2.3 ***Digital Call***

If the applicable Final Terms specify that "*Reference of the Product*" is 3.2.3, the following applies:

3.2.3.1 **Product Description:**

- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the scenario occurring among the 2 possible:

  o If the value of the ReferenceFormula considered and applied to the Underlying(s) is higher than [or equal to] a Barrier, the Structured Interest Amount equals a predetermined value.

  o If the value of the ReferenceFormula considered is lower than [or equal to] a Barrier, no Structured Interest Amount is paid.

- An Automatic Early Redemption Amount may be paid under this Product

  o If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 2 possible.

  o The occurrence of these scenarios depends upon the value of the ReferenceFormula considered and of its position compared to a Final Barrier.

  o The Final Redemption Amount equals a predetermined value.

3.2.3.2 **Structured Interest Amount:** Applicable

Scenario 1:

If on Valuation Date(i), ReferenceFormula_Barrier(RVD(i)) is higher than [or equal to] Barrier(i), then:

Structured Interest Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = Coupon(i)

Scenario 2:

If on Valuation Date(i), ReferenceFormula_Barrier(RVD(i)) is lower than [or equal to] Barrier(i), then:

Structured Interest Amount(i) = 0 (zero)

3.2.3.3 **Automatic Early Redemption Amount:** Applicable

Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = ConstantRedemption_AERA(i) + Coupon_AERA(i)

3.2.3.4 **Final Redemption Amount:**

Scenario 1:

If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is higher than [or equal to] FinalBarrier, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA

Scenario 2:

If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is lower than [or equal to] FinalBarrier, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2

3.2.3.5 **Specific Definition(s):**

The applicable Final Terms shall indicate, as the case may be, one or more definitions mentioned in Condition 1.2.2 above.

3.2.3.6 **Variable Data:**

Barrier; Coupon; ConstantRedemption_AERA; Coupon_AERA; FinalBarrier; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; Coupon_FRA

These Variable Data are defined under Condition 5.4 herein.

3.2.3.7 **Reference Formula(e):**

ReferenceFormula_Barrier; ReferenceFormula_Final

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):
Level (as defined under Condition 4.1 of the Family of "SimpleLevel")
BestLevel (as defined under Condition 4.5 of the Family of "BestLevel")
WorstLevel (as defined under Condition 4.6 of the Family of "WorstLevel")
AverageTimeLevel, MaxTimeLevel or MinTimeLevel (as defined under Condition 4.9 of the Family of "TimeLevel")

3.2.4 ***Digital Put***

If the applicable Final Terms specify that "*Reference of the Product*" is 3.2.4, the following applies:

3.2.4.1 **Product Description:**

- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the scenario occurring among the 2 possible

  o If the value of the ReferenceFormula considered and applied to the Underlying(s) is lower than [or equal to] Barrier, the Structured Interest Amount equals a predetermined value.

  o If the value of the ReferenceFormula considered is higher than [or equal to] a Barrier, no Structured Interest Amount is paid.

  o An Automatic Early Redemption Amount may be paid under this Product

  o If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 2 possible.

  o The occurrence of these scenarios depends upon the value of the ReferenceFormula considered and of its position compared to a Final Barrier.

  o The Final Redemption Amount equals a predetermined value.

3.2.4.2 **Structured Interest Amount:** Applicable

Scenario 1:

If on Valuation Date(i), ReferenceFormula_Barrier(RVD(i)) is lower than [or equal to] Barrier(i), then:

Structured Interest Amount(i) = Specified Denomination x Product Formula(i)
Product Formula(i) = Coupon(i)

Scenario 2:
If on Valuation Date(i), ReferenceFormula_Barrier(RVD(i)) is higher than [or equal to] Barrier(i), then:

Structured Interest Amount(i) = 0 (zero)

3.2.4.3 **Automatic Early Redemption Amount:** Applicable

Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = ConstantRedemption_AERA(i) + Coupon_AERA(i)

3.2.4.4 **Final Redemption Amount:**

Scenario 1:

If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is lower than [or equal to] FinalBarrier, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA

Scenario 2:

If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is higher than [or equal to] FinalBarrier, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2

3.2.4.5 **Specific Definition(s):**

The applicable Final Terms shall indicate, as the case may be, one or more definitions mentioned in Condition 1.2.2 above.

3.2.4.6 **Variable Data:**

Barrier; Coupon; ConstantRedemption_AERA; Coupon_AERA; FinalBarrier; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; Coupon_FRA

These Variable Data are defined under Condition 5.4 herein.

3.2.4.7 **Reference Formula(e):**

ReferenceFormula_Barrier; ReferenceFormula_Final

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):
Level (as defined under Condition 4.1 of the Family of "SimpleLevel")
BestLevel (as defined under Condition 4.5 of the Family of "BestLevel")
WorstLevel (as defined under Condition 4.6 of the Family of "WorstLevel")
AverageTimeLevel, MaxTimeLevel or MinTimeLevel (as defined under Condition 4.9 of the Family of "TimeLevel")

3.2.5 *Call Standard*

If the applicable Final Terms specify that "*Reference of the Product*" is 3.2.5, the following applies:

3.2.5.1 **Product Description:**

- This Product does not pay any Structured Interest Amount.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 2 possible:

o If the value of the ReferenceFormula considered is higher than [or equal to] a Strike, the Final Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or a cap and / or with a leverage factor.

o If the value of the ReferenceFormula considered is lower than or [equal to] a Strike, the Final Redemption Amount equals a predetermined value.

3.2.5.2 **Structured Interest Amount:** Not Applicable

3.2.5.3 **Automatic Early Redemption Amount:** Not Applicable

3.2.5.4 **Final Redemption Amount:**

Scenario 1:

If on Valuation Date(T), ReferenceFormula_Final_1(RVD(T)) is higher than [or equal to] FinalStrike_1, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Max(Floor_FRA ; Min(Cap_FRA ; FinalParticipation x (ReferenceFormula_Final_2(RVD(T)) – FinalStrike_2)))

Scenario 2:

If on Valuation Date(T), ReferenceFormula_Final_1(RVD(T)) is lower than [or equal to] FinalStrike_1, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2

3.2.5.5 **Specific Definition(s):**

The applicable Final Terms shall indicate, as the case may be, one or more definitions mentioned in Condition 1.2.2 above.

3.2.5.6 **Variable Data:**

FinalStrike_1; FinalStrike_2; Cap_FRA; Floor_FRA; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; FinalParticipation

These Variable Data are defined under Condition 5.4 herein.

3.2.5.7 **Reference Formula(e):**

ReferenceFormula_Final_1; ReferenceFormula_Final_2

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

Level (as defined under Condition 4.1 of the Family of "SimpleLevel")
BestLevel (as defined under Condition 4.5 of the Family of "BestLevel")
WorstLevel (as defined under Condition 4.6 of the Family of "WorstLevel")
AverageTimeLevel, MaxTimeLevel or MinTimeLevel (as defined under Condition 4.9 of the Family of "TimeLevel")

3.2.6 ***Put Standard***

If the applicable Final Terms specify that *"Reference of the Product*" is 3.2.6, the following applies:

3.2.6.1 **Product Description:**

- This Product does not pay any Structured Interest Amount.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 2 possible:

o If the value of the ReferenceFormula considered is lower than [or equal to] a Strike, the Final Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or a cap and / or with a leverage factor.

o If the value of the ReferenceFormula considered is higher than [or equal to] a Strike, the Final Redemption Amount equals a predetermined value.

3.2.6.2 **Structured Interest Amount:** Not Applicable

3.2.6.3 **Automatic Early Redemption Amount:** Not Applicable

3.2.6.4 **Final Redemption Amount:**

Scenario 1:

If on Valuation Date(T), ReferenceFormula_Final_1(RVD(T)) is lower than [or equal to] FinalStrike_1, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Max(Floor_FRA ; Min(Cap_FRA ; FinalParticipation x (FinalStrike_2 - ReferenceFormula_Final_2(RVD(T)))))

Scenario 2:

If on Valuation Date(T), ReferenceFormula_Final_1(RVD(T)) is higher than [or equal to] FinalStrike_1, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2

3.2.6.5 **Specific Definition(s):**

The applicable Final Terms shall indicate, as the case may be, one or more definitions mentioned in Condition 1.2.2 above.

3.2.6.6 **Variable Data:**

FinalStrike_1; FinalStrike_2; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; FinalParticipation; Cap_FRA; Floor_FRA

These Variable Data are defined under Condition 5.4 herein.

3.2.6.7 **Reference Formula(e):**

ReferenceFormula_Final_1; ReferenceFormula_Final_2

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):
Level (as defined under Condition 4.1 of the Family of "SimpleLevel")
BestLevel (as defined under Condition 4.5 of the Family of "BestLevel")
WorstLevel (as defined under Condition 4.6 of the Family of "WorstLevel")
AverageTimeLevel, MaxTimeLevel or MinTimeLevel (as defined under Condition 4.9 of the Family of "TimeLevel")

3.3 FAMILY OF PRODUCTS "BARRIER"

Set out below the list of Products of the Family of Products "Barrier", the Reference of the Product of which is mentioned in the table below and will be indicated in the applicable Final Terms in the clause "*Reference of the Product*".

The clause "*Reference of the Product*" of the applicable Final Terms shall also indicate the applicable Option for the relevant Product selected amongst the Options described below to determine and calculate the Final Redemption Amount of the Notes.

Reference of the Product	**Product**
3.3.1	Reverse Convertible
3.3.2	Digit Coupon Autocall
3.3.3	Digit Coupon Autocall with Memory Effect
3.3.4	Athena, Apollon
3.3.5	Double Opportunity
3.3.6	Digit Coupon Reverse Convertible
3.3.7	Reverse Convertible with Automatic Early Redemption Event

3.3.8	Digit Coupon Autocall with Recall Coupon
3.3.9	Athena Airbag
3.3.10	Twin Win
3.3.11	Spread Differential
3.3.12	Optimal Plus
3.3.13	Reserved
3.3.14	Bonus & Capped Bonus
3.3.15	Bonus Flex
3.3.16	Digit Coupon Jupiter
3.3.17	Phoenix/Athena Jupiter
3.3.18	Triple Opportunity
3.3.19	In-Line
3.3.20	Reserved
3.3.21	Sprint & Outperformance
3.3.22	Reserved
3.3.23	Reverse Capped Bonus
3.3.24	Reserved
3.3.25	Reverse Sprint & Reverse Outperformance
3.3.26	Reserved
3.3.27	Digital Range
3.3.28	Range Coupon
3.3.29	Reserved
3.3.30	Equity Protection
3.3.31	Reverse Equity Protection
3.3.32	Range Accrual

Description of how the value of the relevant Notes can be affected by the value of the Underlying(s)

The Family of Products "Barrier" comprises Products which provide exposure to the positive or negative performance of an Underlying or a Basket of one or several Underlying(s) within a Basket, where the Product Amount(s) are determined based on one or several conditions (categorized in several scenarios). Typically, a condition is satisfied [or not] if the performance or level of an Underlying or Basket of one or several Underlying(s) within a Basket is [higher than] [or] [equal to] [or] [lower than] a pre-defined barrier performance or level. Performance or level of the Underlying or Basket or one or several Underlying(s) within a Basket can be weighted, leveraged, averaged, locked, floored and/or capped.

3.3.0 ***Generic descriptions, Variable Data, relevant Reference Formula(e) and Specific Definition(s) for Barrier Products***

3.3.0.1 *Description of Options relating to the Final Redemption Amount of the Notes*

Set out below a list of different options relating to the Final Redemption Amount. The clause "*Reference of the Product*" of the applicable Final Terms will specify the applicable Option, if any, chosen from the options below, used for determining and calculating the Final Redemption Amount.

If settlement by way of physical delivery is applicable in the applicable Final Terms, the applicable Final Terms will mention the definitions defined in Condition 1.7.

1) OPTION 0: **Constant Redemption Level only**

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA

Option 0 *Description:*

- *Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value.*

2) OPTION 1: *Final Barrier only*

Scenario 1:
If on Valuation Date(T), ReferenceFormula_FinalBarrier(RVD(T)) is [higher] [lower] than [or equal to] FinalBarrier, then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA + Max(FinalFloor_1 ; Min(FinalCap_1 ; FinalParticipation_1 x (ReferenceFormula_Final_1(RVD(T)) – FinalStrike_1)))

Scenario 2:
If on Valuation Date(T), ReferenceFormula_FinalBarrier(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier, then:

If settlement by way of cash:
Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Max(FinalFloor_2 ; Min(FinalCap_2 ; FinalParticipation_2 x (ReferenceFormula_Final_2(RVD(T)) – FinalStrike_2)))

If settlement by way of physical delivery:
Final Redemption Amount = Physical Delivery Amount(T)

Option 1 Description:
- *Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 2 possible:*

o *The occurrence of these scenarios depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to a FinalBarrier.*

o *The Final Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or cap and / or with a leverage factor.*

3) OPTION 2: *Final Barrier and Knock-In feature*

Scenario 1:
If on Valuation Date(T), ReferenceFormula_FinalBarrier(RVD(T)) is [higher] [lower] than [or equal to] FinalBarrier, then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA + Max(FinalFloor_1 ; Min(FinalCap_1 ; FinalParticipation_1 x (ReferenceFormula_Final_1(RVD(T)) – FinalStrike_1)))

Scenario 2:
If [on Valuation Date(T), ReferenceFormula_FinalBarrier(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Max(FinalFloor_2 ; Min(FinalCap_2 ; FinalParticipation_2 x (ReferenceFormula_Final_2(RVD(T)) – FinalStrike_2)))

Scenario 3:
If [on Valuation Date(T), ReferenceFormula_FinalBarrier(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred], then:

If settlement by way of cash:
Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_3 + Max(FinalFloor_3 ; Min(FinalCap_3 ; FinalParticipation_3 x (ReferenceFormula_Final_3(RVD(T)) – FinalStrike_3)))

If settlement by way of physical delivery:
Final Redemption Amount = Physical Delivery Amount(T)

Option 2 Description:
- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 3 possible:

o *The occurrence of these scenarios depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to a FinalBarrier and / or the occurrence of a[n] [[American] [European] [Low Barrier] [High Barrier] [Second Low Barrier] [Second High Barrier] [Range] [Target] [Memory] Knock-In] [a Lock-In] event.*

o *The Final Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or cap and / or with a leverage factor.*

4) OPTION 3: *Knock-In feature*

Scenario 1:
If [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred, then:

If settlement by way of cash:
Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA + Max(FinalFloor_1 ; Min(FinalCap_1 ; FinalBonus_1 + FinalParticipation_1 x (ReferenceFormula_Final_1(RVD(T)) – FinalStrike)))

If settlement by way of physical delivery:
Final Redemption Amount = Physical Delivery Amount(T, PhysicalDeliveryStrikePrice_1)

Scenario 2:
If [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred, then:

If settlement by way of cash:
Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Max(FinalFloor_2 ; Min(FinalCap_2 ; FinalBonus_2 + FinalParticipation_2 x (ReferenceFormula_Final_2(RVD(T)) – FinalStrike_2)))

If settlement by way of physical delivery:
Final Redemption Amount = Physical Delivery Amount(T, PhysicalDeliveryStrikePrice_2)

Option 3 Description:
- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 2 possible:

o *The occurrence of these scenarios depends whether or not a[n] [[American] [European] [Low Barrier] [High Barrier] [Second Low Barrier] [Second High Barrier] [Range] [Target] [Memory] Knock-In] [a Lock-In] Event occurs.*

o *The Final Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or cap and / or with a leverage factor.*

5) OPTION 4: Two Final Barriers

Scenario 1:
If on Valuation Date(T), ReferenceFormula_FinalBarrier_1(RVD(T)) is [higher] [lower] than [or equal to] FinalBarrier_1, then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA + Max(FinalFloor_1 ; Min(FinalCap_1 ; FinalParticipation_1 x (ReferenceFormula_Final_1(RVD(T)) – FinalStrike_1)))

Scenario 2:
If on Valuation Date(T), [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [higher] [lower] than [or equal to] FinalBarrier_2], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Max(FinalFloor_2 ; Min(FinalCap_2 ; FinalParticipation_2 x (ReferenceFormula_Final_2(RVD(T)) – FinalStrike_2)))

Scenario 3:

If on Valuation Date(T), [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2], then:

If settlement by way of cash:
Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_3 + Max(FinalFloor_3 ; Min(FinalCap_3 ; FinalParticipation_3 x (ReferenceFormula_Final_3(RVD(T)) – FinalStrike_3)))

If settlement by way of physical delivery:
Final Redemption Amount = Physical Delivery Amount(T)

Option 4 Description:

- *Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 3 possible:*

  o *The occurrence of these scenarios depends upon the value(s) of the relevant ReferenceFormula(e) applied to the Underlying(s) of the Product and of its (their) position(s) compared to a (several) FinalBarrier(s).*

  o *The Final Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or cap and / or with a leverage factor.*

6) OPTION 5: *Two Final Barriers and Knock-In feature*

Scenario 1:
If on Valuation Date(T), ReferenceFormula_FinalBarrier_1(RVD(T)) is [higher] [lower] than [or equal to] FinalBarrier_1, then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA + Max(FinalFloor_1 ; Min(FinalCap_1 ; FinalParticipation_1 x (ReferenceFormula_Final_1(RVD(T)) – FinalStrike_1)))

Scenario 2:
If on Valuation Date(T), [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [higher] [lower] than [or equal to] FinalBarrier_2], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Max(FinalFloor_2 ; Min(FinalCap_2 ; FinalParticipation_2 x (ReferenceFormula_Final_2(RVD(T)) – FinalStrike_2)))

Scenario 3:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_3 + Max(FinalFloor_3 ; Min(FinalCap_3 ; FinalParticipation_3 x (ReferenceFormula_Final_3(RVD(T)) – FinalStrike_3)))

Scenario 4:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred], then:

If settlement by way of cash:
Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(RVD(T)) = ConstantRedemptionLevel_FRA_4 + Max(FinalFloor_4 ; Min(FinalCap_4 ; FinalParticipation_4 x (ReferenceFormula_Final_4(RVD(T)) – FinalStrike_4)))

If settlement by way of physical delivery:
Final Redemption Amount = Physical Delivery Amount(T)

Option 5 Description:
- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 4 possible:

o *The occurrence of these scenarios depends upon the value(s) of the relevant ReferenceFormula(e) applied to the Underlying(s) of the Product and of its (their) position(s) compared to a (several) FinalBarrier(s) and / or whether or not a[n] [[American] [European] [a Low Barrier] [a High Barrier] [Second Low Barrier] [Second High Barrier] [Range] [Target] [Memory] Knock-In] [a Lock-In] Event occurs.*

7) OPTION 6: *Double opportunity*

Scenario 1:
If [[a European] [an American] [a Low Barrier] [a High Barrier] a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA + Max(FinalFloor_1 ; Min(FinalCap_1 ; FinalParticipation_1 x (ReferenceFormula_Final_1(RVD(T)) – FinalStrike_1)))

Scenario 2:
If [on Valuation Date(T)], [[[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] ReferenceFormula_FinalBarrier(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier], then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Max(FinalFloor_2 ; Min(FinalCap_2 ; FinalParticipation_2 x (ReferenceFormula_Final_2(RVD(T)) – FinalStrike_2)))

Scenario 3:
If [on Valuation Date(T)], [[[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] ReferenceFormula_FinalBarrier(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier], then:

If settlement by way of cash:
Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_3 + Max(FinalFloor_3 ; Min(FinalCap_3 ; FinalParticipation_3 x (ReferenceFormula_Final_3(RVD(T)) – FinalStrike_3)))

If settlement by way of physical delivery:
Final Redemption Amount = Physical Delivery Amount(T)

Option 6 Description:
- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 3 possible:

o *The occurrence of these scenarios depends upon the value(s) of the relevant ReferenceFormula(e) applied to the Underlying(s) of the Product and of its (their) position(s) compared to one (several) FinalBarrier(s) and / or whether or not a[n] [[American] [European] [a Low Barrier] [a High Barrier] [Second Low Barrier] [Second High Barrier] [Range] [Target] [Memory] Knock-In] [a Lock-In] Event occurs.*

o *The Final Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or cap and / or with a leverage factor.*

8) OPTION 7: *Certificate*

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA + Coupon_FRA + Max(FinalFloor ; Min(FinalCap ; FinalBonus + FinalParticipation x (ReferenceFormula_Final(RVD(T)) – FinalStrike)))

Option 7 Description:
- *Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value increased as the case may be by the value of the Reference Formula considered, which may be subject to a floor and / or a cap and / or with a leverage factor.*

9) OPTION 8 *with [2_3_4_5_6] Scenarios*: *Option Multi*

Option 8 with 2 Scenarios

Scenario 1:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-
In] [a Lock-In] Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA_1 + Max(FinalFloor_1 ; Min(FinalCap_1 ; FinalBonus_1 + FinalParticipation_1 x (ReferenceFormula_Final_1(RVD(T)) – FinalStrike_1)))

Scenario 2:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred], then:

If settlement by way of cash:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Coupon_FRA_2 + Max(FinalFloor_2 ; Min(FinalCap_2 ; FinalBonus_2 + FinalParticipation_2 x (ReferenceFormula_Final_2(RVD(T)) – FinalStrike_2)))

If settlement by way of physical delivery:

Final Redemption Amount = Physical Delivery Amount(T)

Option 8 with 3 Scenarios

Scenario 1:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA_1 + Max(FinalFloor_1 ; Min(FinalCap_1 ; FinalBonus_1 + FinalParticipation_1 x (ReferenceFormula_Final_1(RVD(T)) – FinalStrike_1)))

Scenario 2:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Coupon_FRA_2 + Max(FinalFloor_2 ; Min(FinalCap_2 ; FinalBonus_2 + FinalParticipation_2 x (ReferenceFormula_Final_2(RVD(T)) – FinalStrike_2)))

Scenario 3:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range]] [a Lock-In] Knock-In Event has [not] occurred], then:

If settlement by way of cash:
Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_3 + Coupon_FRA_3 + Max(FinalFloor_3 ; Min(FinalCap_3 ; FinalBonus_3 + FinalParticipation_3 x (ReferenceFormula_Final_3(RVD(T)) – FinalStrike_3)))

If settlement by way of physical delivery:
Final Redemption Amount = Physical Delivery Amount(T)

Option 8 with 4 Scenarios

Scenario 1:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA_1 + Max(FinalFloor_1 ; Min(FinalCap_1 ; FinalBonus_1 + FinalParticipation_1 x (ReferenceFormula_Final_1(RVD(T)) – FinalStrike_1)))

Scenario 2:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Coupon_FRA_2 + Max(FinalFloor_2 ; Min(FinalCap_2 ; FinalBonus_2 + FinalParticipation_2 x (ReferenceFormula_Final_2(RVD(T)) – FinalStrike_2)))

Scenario 3:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_3 + Coupon_FRA_3 + Max(FinalFloor_3 ; Min(FinalCap_3 ; FinalBonus_3 + FinalParticipation_3 x (ReferenceFormula_Final_3(RVD(T)) – FinalStrike_3)))

Scenario 4:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred], then:

If settlement by way of cash:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_4 + Coupon_FRA_4 + Max(FinalFloor_4 ; Min(FinalCap_4 ; FinalBonus_4 + FinalParticipation_4 x (ReferenceFormula_Final_4(RVD(T)) – FinalStrike_4)))

If settlement by way of physical delivery:

Final Redemption Amount = Physical Delivery Amount(T)

Option 8 with 5 Scenarios

Scenario 1:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA_1 + Max(FinalFloor_1 ; Min(FinalCap_1 ; FinalBonus_1 + FinalParticipation_1 x (ReferenceFormula_Final_1(RVD(T)) – FinalStrike_1)))

Scenario 2:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Coupon_FRA_2 + Max(FinalFloor_2 ; Min(FinalCap_2 ; FinalBonus_2 + FinalParticipation_2 x (ReferenceFormula_Final_2(RVD(T)) – FinalStrike_2)))

Scenario 3:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Memory] [a Second Low Barrier] [a Second High Barrier] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_3 + Coupon_FRA_3 + Max(FinalFloor_3 ; Min(FinalCap_3 ; FinalBonus_3 + FinalParticipation_3 x (ReferenceFormula_Final_3(RVD(T)) – FinalStrike_3)))

Scenario 4:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_4 + Coupon_FRA_4 + Max(FinalFloor_4 ; Min(FinalCap_4 ; FinalBonus_4 + FinalParticipation_4 x (ReferenceFormula_Final_4(RVD(T)) – FinalStrike_4)))

Scenario 5:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a Second Low Barrier] [a Second High Barrier] [a High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred], then:

If settlement by way of cash:
Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_5 + Coupon_FRA_5 + Max(FinalFloor_5 ; Min(FinalCap_5 ; FinalBonus_5 + FinalParticipation_5 x (ReferenceFormula_Final_5(RVD(T)) – FinalStrike_5)))

If settlement by way of physical delivery:
Final Redemption Amount = Physical Delivery Amount(T)

Option 8 with 6 Scenarios

Scenario 1:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon_FRA_1 + Max(FinalFloor_1 ; Min(FinalCap_1 ; FinalBonus_1 + FinalParticipation_1 x (ReferenceFormula_Final_1(RVD(T)) – FinalStrike_1)))

Scenario 2:

If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2+ Coupon_FRA_2 + Max(FinalFloor_2 ; Min(FinalCap_2 ; FinalBonus_2 + FinalParticipation_2 x (ReferenceFormula_Final_2(RVD(T)) – FinalStrike_2)))

Scenario 3:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_3 + Coupon_FRA_3 + Max(FinalFloor_3 ; Min(FinalCap_3 ; FinalBonus_3 + FinalParticipation_3 x (ReferenceFormula_Final_3(RVD(T)) – FinalStrike_3)))

Scenario 4:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_4 + Coupon_FRA_4 + Max(FinalFloor_4 ; Min(FinalCap_4 ; FinalBonus_4 + FinalParticipation_4 x (ReferenceFormula_Final_4(RVD(T)) – FinalStrike_4)))

Scenario 5:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In [a Lock-In] Event has [not] occurred], then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_5 + Coupon_FRA_5 + Max(FinalFloor_5 ; Min(FinalCap_5 ; FinalBonus_5 + FinalParticipation_5 x (ReferenceFormula_Final_5(RVD(T)) – FinalStrike_5)))

Scenario 6:
If [on Valuation Date(T),] [ReferenceFormula_FinalBarrier_1(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_1] [[and] [or] ReferenceFormula_FinalBarrier_2(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier_2] [[and] [or] [[a European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[n European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Memory] [a Target] [a Range] Knock-In] [a Lock-In] Event has [not] occurred], then:

If settlement by way of cash:
Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_6 + Coupon_FRA_6 + Max(FinalFloor_6 ; Min(FinalCap_6 ; FinalBonus_6 + FinalParticipation_6 x (ReferenceFormula_Final_6(RVD(T)) – FinalStrike_6)))

If settlement by way of physical delivery:
Final Redemption Amount = Physical Delivery Amount(T)

Option 8 *with [2/3/4/5/6] Scenarios Description*:

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 2 (or the 3, or the 4, or the 5, or the 6 depending upon the number of scenarios selected) possible:

o *The occurrence of these scenarios depends upon the value(s) of the relevant ReferenceFormula(e) applied to the Underlying(s) of the Product and of its (their) position(s) compared to one (several) FinalBarrier(s) and / or whether or not a[n] [[American] [European]*

[Low Barrier] [High Barrier] [Second Low Barrier] [Second High Barrier] [Memory] [Target] [a Range] Knock-In] [a Lock-In] Event occurs.

o *The Final Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or cap and / or with a leverage factor*.

3.3.0.2 *Variable Data*

Set out below the list of Variable Data that are necessary to determine and calculate the Final Redemption Amount depending on the Option applicable to the Product (selected amongst the Options described in Condition 3.3.0.1 above and that will be indicated in the clause "*Reference of the Product*" of the applicable Final Terms).

In the table below, "X" means "Applicable".

all the Variable Data below are defined under Condition 5.4 herein.

Variable Data	**Options**								
	0	**1**	**2**	**3**	**4**	**5**	**6**	**7**	**8**
ConstantRedemptionLevel_FRA[_1/2/3/4/5/6]	X	X	X	X	X	X	X	X	X
Coupon_FRA[_1/2/3/4/5/6]		X	X	X	X	X	X	X	X
FinalBarrier[_1/2/3]		X	X		X	X	X	X	X
FinalCap[_1/2/3/4/5/6]		X	X	X	X	X	X	X	X
FinalFloor[_1/2/3/4/5/6]		X	X	X	X	X	X	X	X
FinalBonus[_1/2/3/4/5/6]				X				X	X
FinalParticipation[_1/2/3/4/5/6]		X	X	X	X	X	X	X	X
FinalStrike[_1/2/3/4/5/6]		X	X	X	X	X	X	X	X

3.3.0.3 *Reference Formula(e)*

Set out below a list of Reference Formula(e) applicable to determine and compute the Final Redemption Amount of the Notes, depending on the Option applicable to the Product selected amongst the Options described in Condition 3.3.0.1 above and indicated in the clause *"Reference of the Product*" of the applicable Final Terms.

In the table below, "**X**" means "Applicable"

Reference Formula(e)									
	0	**1**	**2**	**3**	**4**	**5**	**6**	**7**	**8**
ReferenceFormula_FinalBarrier[_1/2]		X	X		X	X	X	X	X
ReferenceFormula_Final[_1/2/3/4/5/6]		X	X	X	X	X	X	X	X

Among the Reference Formulae defined under Condition 4, the ones mainly used for these "Barrier" Products are (but without limitation):

Performance or LeveragePerformance (as defined under Condition 4.1 of the Family of "SimpleLevel")

WorstPerformance or LeverageWorstPerformance (as defined under Condition 4.6 of the Family of "WorstLevel")

BasketPerformance or AverageBasketPerformance (as defined under Condition 4.4 of the Family of Basket Performance")

IntradayMinTimePerformance or WorstIntradayMinTimePerformance (as defined under Condition 4.22 of the Family of "IntradayLevel")

3.3.0.4 *European Knock-In Events*

European Knock-In Event can be renamed European Knock-Out Event, if relevant and appropriate.

a) **Description:**

Mono-Underlying

European Knock-In Event[_1/2/3/4](i) is deemed to have [not] occurred as determined by the Calculation Agent, if on [the Valuation Date(i)] *or* [the date as defined in the applicable Final Terms], [ReferenceFormula_EuropeanKnock-In[_1/2/3/4](i)] *or* [the Closing Price [S(i)]] is [higher] [lower] than [or equal to] the Knock-InThreshold[_1/2/3/4](i).

Multi-Underlyings

European Knock-In Event[_1/2/3/4][(i)][(i,k)] is deemed to have [not] occurred as determined by the Calculation Agent, if on [the Valuation Date(i)] *or* [the date as defined in the applicable Final Terms], [ReferenceFormula_EuropeanKnock-In[_1/2/3/4](i)] *or* [ReferenceFormula_EuropeanKnock-In[_1/2/3/4](i,k) of each Underlying(k)] *or* [the Closing Price [S(i,k)] of each Underlying(k)] *or* [ReferenceFormula_EuropeanKnock-In[_1/2/3/4](i,k) of at least one Underlying(k)] *or* [the Closing Price [S(i,k)] of at least one Underlying(k)] *or* [ReferenceFormula_EuropeanKnock-In[_1/2/3/4](i,k) of the Underlying(k)] *or* [the Closing Price [S(i,k)] of the Underlying(k)] is [higher] [lower] than [or equal to] the [Knock-InThreshold[_1/2/3/4](i)] [Knock-InThreshold[_1/2/3/4](i,k)].

b) **Variable Data:**
Knock-InThreshold[_1/2/3/4]

This Variable Data is defined under Condition 5.4 herein.

c) **Reference Formula(e):**
ReferenceFormula_EuropeanKnock-In[_1/2/3/4]; Closing Price

3.3.0.5 *American Knock-In Events*

For the purpose of this section, **Reference Date(s)(t)** means:

- [Valuation Date(s)(t) within the American Knock-In Event[_1/2/3/4] Schedule(i) as defined in the applicable Final Terms] *or*

- [each of Valuation Date(s)(t) within the American Knock-In Event[_1/2/3/4] Schedule(i)] *or*

- [at least one Valuation Date(t) within the American Knock-In Event[_1/2/3/4] Schedule(i)] *or*

- [[NumberofDays] [consecutive] Valuation Date(s)(t) within the American Knock-In Event[_1/2/3/4] Schedule(i)] *or*

- [at least [NumberofDays] [non consecutive] Valuation Date(s)(t) within the American Knock-In Event[_1/2/3/4] Schedule(i)] *or*

- [the date(s)(t) as defined in the applicable Final Terms within the American Knock-In Event[_1/2/3/4] Schedule(i)] *or*

- [each of the dates(t) as defined in the applicable Final Terms within the American Knock-In Event[_1/2/3/4] Schedule(i)] *or*

- [at least one date(t) as defined in the applicable Final Terms within the American Knock-In Event[_1/2/3/4] Schedule(i)] *or*

- [[NumberofDays] [consecutive] dates(t) as defined in the applicable Final Terms within the American Knock-In Event[_1/2/3/4] Schedule(i)] *or*

- [at least [NumberofDays] [non consecutive] date(s)(t) as defined in the applicable Final Terms within the American Knock-In Event[_1/2/3/4] Schedule(i)] *or*

- [each Scheduled Trading Day that is not a Disrupted Day from and [including][excluding] Valuation Date(t1) to and [including][excluding] Valuation Date(t2)] *or*

- [at least one Scheduled Trading Day that is not a Disrupted Day from and [including][excluding] Valuation Date(t1) to and [including][excluding] Valuation Date(t2)].

An American Knock-In Event[_1/2/3/4] Schedule(i) is applicable for American Knock-In Event[_1/2/3/4](i), but also, if necessary for Low Barrier Knock-In Event, High Barrier Knock-In Event, Second Low Barrier Knock-In Event, Second High Barrier Knock-In Event, Memory Knock-In Event and Issuer Call Event.

American Knock-In Event can be renamed American Knock-Out Event, Knock-In Event or Knock-Out Event, if relevant and appropriate.

a) Description:

Mono-Underlying

American Knock-In Event[_1/2/3/4](i) is deemed to have [not] occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), [ReferenceFormula_AmericanKnock-In[_1/2/3/4](t)] *or* [the Closing Price [S(t)]] *or* [each Intraday Price [SI(t)]] *or* [at least one Intraday Price [SI(t)]] is [higher] [lower] than [or equal to] the [Knock-InThreshold[_1/2/3/4](i)].

Multi-Underlyings

American Knock-In Event[_1/2/3/4][(i)][(i,k)] is deemed to have [not] occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), [ReferenceFormula_AmericanKnock-In[_1/2/3/4](t)] *or* [ReferenceFormula_AmericanKnock-In[_1/2/3/4](t,k) of each Underlying(k)] *or* [the Closing Price [S(t,k)] of each Underlying(k)] *or* [each Intraday Price [SI(t,k)] of each Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of each Underlying(k)] *or* [ReferenceFormula_AmericanKnock-In[_1/2/3/4](t,k) of at least one Underlying(k)] *or* [the Closing Price [S(t,k)] of at least one Underlying(k)] *or* [each Intraday Price [SI(t,k)] of at least one Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of at least one Underlying(k)] *or* [ReferenceFormula_AmericanKnock-In[_1/2/3/4](t,k) of the Underlying(k)] *or* [the Closing Price [S(t,k)] of the Underlying(k)] *or* [each Intraday Price [SI(t,k)] of the Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of the Underlying(k)] is [higher] [lower] than [or equal to] the [Knock-InThreshold[_1/2/3/4](i)] [Knock-InThreshold[_1/2/3/4](i,k)].

b) Variable Data:

Knock-InThreshold[_1/2/3/4]; NumberofDays

These Variable Data are defined under Condition 5.4 herein.

c) Reference Formula(e):

ReferenceFormula_AmericanKnock-In[_1/2/3/4]; Closing Price; Intraday Price

3.3.0.6 *Low and High Knock-In Events*

As it will be detailed, Low and High Knock-In Event can be considered as American or European Knock-In Event. In this Section, Reference Date(s) is defined in Condition 3.3.0.5 above:
Low and High Knock-In Event can be renamed Low and High Knock-Out Event, if relevant and appropriate.

a) Description:

Mono-Underlying

Low Barrier Knock-In Event(i) is deemed to have [not] occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), [ReferenceFormula_LowBarrier(t)] *or* [the Closing Price [S(t)]] *or* [each Intraday Price [SI(t)]] *or* [at least one Intraday Price [SI(t)]] is lower than [or equal to] [LowBarrier(i)] [(such date being referred as to the LowBarrierEventDate)].

High Barrier Knock-In Event(i) is deemed to have [not] occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), [ReferenceFormula_HighBarrier(t)] *or* [the Closing Price [S(t)]] *or* [each Intraday Price [SI(t)]] *or* [at least one Intraday Price [SI(t)]] is higher than [or equal to] [HighBarrier(i)] [(such date being referred as to the HighBarrierEventDate)].

Second Low Barrier Knock-In Event(i) is deemed to have [not] occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), [ReferenceFormula_SecondLowBarrier(t)] *or* [the Closing Price [S(t)]] *or* [each Intraday Price [SI(t)]] *or* [at least one Intraday Price [SI(t)]] is lower than [or equal to] [SecondLowBarrier(i)] [(such date being referred as to the SecondLowBarrierEventDate)].

Second High Barrier Knock-In Event(i) is deemed to have [not] occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), [ReferenceFormula_SecondHighBarrier(t)] *or* [the Closing Price [S(t)]] *or* [each Intraday Price [SI(t)]] *or* [at least one Intraday Price [SI(t)]] is higher than [or equal to] [SecondHighBarrier(i)] [(such date being referred as to the SecondHighBarrierEventDate)].

Multi-Underlyings:

Low Barrier Knock-In Event(i) is deemed to have [not] occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), [ReferenceFormula_LowBarrier(t)] *or* [ReferenceFormula_LowBarrier(t,k) of each Underlying(k)] *or* [the Closing Price [S(t,k)] of each Underlying(k)] *or* [each Intraday Price [SI(t,k)] of each Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of each Underlying(k)] *or* [ReferenceFormula_LowBarrier(t,k) of at least one Underlying(k)] *or* [the Closing Price [S(t,k)] of at least one Underlying(k)] *or* [each Intraday Price [SI(t,k)] of at least one Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of at least one Underlying(k)] is lower than [or equal to] [LowBarrier(i)] [LowBarrier(i,k)] [(such date being referred as to the LowBarrierEventDate)].

High Barrier Knock-In Event(i) is deemed to have [not] occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), [ReferenceFormula_HighBarrier(t)] *or* [ReferenceFormula_HighBarrier(t,k) of each Underlying(k)] *or* [the Closing Price [S(t,k)] of each Underlying(k)] *or* [each Intraday Price [SI(t,k)] of each Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of each Underlying(k)] *or* [ReferenceFormula_HighBarrier(t,k) of at least one Underlying(k)] *or* [the Closing Price [S(t,k)] of at least one Underlying(k)] *or* [each Intraday Price [SI(t,k)] of at least one Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of at least one Underlying(k)] is higher than [or equal to] [HighBarrier(i)] [HighBarrier(i,k)] [(such date being referred as to the HighBarrierEventDate)].

Second Low Barrier Knock-In Event(i) is deemed to [not] have occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), [ReferenceFormula_SecondLowBarrier(t)] *or* [ReferenceFormula_SecondLowBarrier(t,k) of each Underlying(k)] *or* [the Closing Price [S(t,k)] of each Underlying(k)] *or* [each Intraday Price [SI(t,k)] of each Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of each Underlying(k)] *or* [ReferenceFormula_SecondLowBarrier(t,k) of at least one Underlying(k)] *or* [the Closing Price [S(t,k)] of at least one Underlying(k)] *or* [each Intraday Price [SI(t,k)] of at least one Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of at

least one Underlying(k)] is lower than [or equal to] [SecondLowBarrier(k)] [SecondLowBarrier(i,k)] [(such date being referred as to the SecondLowBarrierEventDate)].

Second High Barrier Knock-In Event(i) is deemed to [not] have occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), [ReferenceFormula_SecondHighBarrier(t)] *or* [ReferenceFormula_SecondHighBarrier(t,k) of each Underlying(k)] *or* [the Closing Price [S(t,k)] of each Underlying(k)] *or* [each Intraday Price [SI(t,k)] of each Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of each Underlying(k)] *or* [ReferenceFormula_SecondHighBarrier(t,k) of at least one Underlying(k)] *or* [the Closing Price [S(t,k)] of at least one Underlying(k)] *or* [each Intraday Price [SI(t,k)] of at least one Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of at least one Underlying(k)] is higher than [or equal to] [SecondHighBarrier(k)] [SecondHighBarrier(i,k)] [(such date being referred as to the SecondHighBarrierEventDate)].

b) Variable Data:

Knock-InThreshold[_1/2/3/4]; NumberofDays; LowBarrier; HighBarrier; SecondLowBarrier; SecondHighBarrier

These Variable Data are defined under Condition 5.4 herein

c) Reference Formula(e):

Closing Price; Intraday Price; ReferenceFormula_LowBarrier; ReferenceFormula_HighBarrier; ReferenceFormula_SecondLowBarrier; ReferenceFormula_SecondHighBarrier

3.3.0.7 *Range Knock-In Event*

For the purpose of this section, **Reference Date(t)** means:

- [the Valuation Date(i)] or

- [Valuation Date(t) within Schedule(i) as defined in the applicable Final Terms] *or*

- [each of Valuation Date(s)(t) within the Range Knock-In Event[_1/2/3/4] Schedule(i)] *or*

- [at least one Valuation Date(t) within the Range Knock-In Event[_1/2/3/4] Schedule(i)]

- [[NumberofDays] [consecutive] Valuation Date(s)(t) within the Range Knock-In Event[_1/2/3/4] Schedule(i)] *or*

- [at least [NumberofDays] [non consecutive] Valuation Date(s)(t) within the Range Knock-In Event[_1/2/3/4] Schedule(i)] *or*

- [each of the dates(t) as defined in the applicable Final Terms within the Range Knock-In Event[_1/2/3/4] Schedule(i)] *or*

- [at least one date(t) as defined in the applicable Final Terms within the Range Knock-In Event[_1/2/3/4] Schedule(i)] *or*

- [[NumberofDays] [consecutive] dates(t) as defined in the applicable Final Terms within the Range Knock-In Event[_1/2/3/4] Schedule(i)] *or*

- [at least [NumberofDays] [non consecutive] date(s)(t) as defined in the applicable Final Terms within the Range Knock-In Event[_1/2/3/4] Schedule(i)] *or*

- [the date(t) as defined in the applicable Final Terms] or

- [each Scheduled Trading Day that is not a Disrupted Day from and [including][excluding] Valuation Date(t1) to and [including][excluding] Valuation Date(t2)] *or*

- [at least one Scheduled Trading Day that is not a Disrupted Day from and [including][excluding] Valuation Date(t1) to and [including][excluding] Valuation Date(t2)].

Range Knock-In Event can be renamed Range Knock-Out Event, if relevant and appropriate.

a) Description:

Mono-Underlying

Range Knock-In Event[_1/2/3/4](i) is deemed [not] to have occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), [ReferenceFormula_RangeKnock-In[_1/2/3/4][(t)] *or* [the Closing Price [S(t)]] *or* [each Intraday Price [SI(t)]] *or* [at least one Intraday Price [SI(t)]] is [higher than [or equal to] the LowerBound[(i)]] [and][or] [lower than [or equal to] the UpperBound[(i)]].

Multi-Underlyings

Range Knock-In Event[_1/2/3/4][(i)][(i,k)] is deemed to [not] have occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), [ReferenceFormula_RangeKnock-In[_1/2/3/4](t)] *or* [ReferenceFormula_RangeKnock-In[_1/2/3/4](t,k) of each

Underlying(k)] *or* [the Closing Price [S(t,k)] of each Underlying(k)] *or* [each Intraday Price [SI(t,k)] of each Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of each Underlying(k)] *or* [ReferenceFormula_RangeKnock-In[_1/2/3/4](t,k) of at least one Underlying(k)] *or* [the Closing Price [S(t,k)] of at least one Underlying(k)] *or* [each Intraday Price [SI(t,k)] of at least one Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of at least one Underlying(k)] *or* [ReferenceFormula_RangeKnock-In[_1/2/3/4](t,k) of the Underlying(k)] *or* [the Closing Price [S(t,k)] of the Underlying(k)] *or* [each Intraday Price [SI(t,k)] of the Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of the Underlying(k)] [is higher than [or equal to] the LowerBound[(i)][(i,k)]] [and][or] [is lower than [or equal to] the UpperBound[(i)][(i,k)]].

b) Variable Data:
UpperBound[_1/2/3/4]; LowerBound[_1/2/3/4]

These Variable Data are defined under Condition 5.4 herein.

c) Reference Formula(e):
ReferenceFormula_RangeKnock-In; Closing Price

3.3.0.8 *Target Knock-In Events*

Target Knock-In Event can be renamed Target Knock-Out Event, if relevant and appropriate.

a) **Description:**
Target Knock-In Event is deemed to have [not] occurred, as determined by the Calculation Agent, if on a Valuation Date(i), SumCoupons[Paid](i) is higher than [or equal to] TargetAmount(i).

b) **Variable Data:**
TargetAmount.
This Variable Data is defined under Condition 5.4 herein.

c) **Reference Formula(e):** Not Applicable

d) **Specific Definition(s):**
SumCoupons[Paid](i) = SumCoupons[Paid](i-1) + Structured Interest Amount(i)
With:
[SumCoupons[Paid](0) = 0 (zero)] *or* [SumCoupons[Paid](t1) = SumCoupons_t1]

3.3.0.9 *Memory Knock-In Events*

For the purpose of this section, **Reference Date(t)** means:

- [the Valuation Date(i)] or

- [the date(t) as defined in the applicable Final Terms] or

- [Valuation Date(t) within Schedule(i) as defined in the applicable Final Terms] *or*

- [the date(t) as defined in the applicable Final Terms within Schedule(i)] *or*

- [each Scheduled Trading Day that is not a Disrupted Day from and [including][excluding] Valuation Date(t1) to and [including][excluding] Valuation Date(t2)] *or*

- [at least one Scheduled Trading Day that is not a Disrupted Day from and [including][excluding] Valuation Date(t1) to and [including][excluding] Valuation Date(t2)].

Memory Knock-In Event can be renamed Memory Knock-Out Event, if relevant and appropriate.

a) **Description:**

Mono-Underlying

Memory Knock-In Event[_1/2/3/4](i) is deemed to have [not] occurred as determined by the Calculation Agent, if on Reference Date(s)(t), a MemoryEvent[_1/2/3/4](i) has [not] occurred.

Multi-Underlyings

Memory Knock-In Event[_1/2/3/4](i) is deemed to have [not] occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), a MemoryEvent[_1/2/3/4](i,k) has [not] occurred for [at least one Underlying(k)] [each Underlying(k) observed separately].

b) **Variable Data:**

Knock-InThreshold[_1/2/3/4]
These Variable Data are defined under Condition 5.4 herein.

c) **Reference Formula(e):**

ReferenceFormula_MemoryKnock-In[_1/2/3/4]; Closing Price; Intraday Price

d) **Specific Definition(s):**

Mono-Underlying

MemoryEvent[_1/2/3/4](i,): is deemed to have occurred if on [at least one Valuation Date(t) (t from j to i)] *or* [Reference Date(s)(t)], the [ReferenceFormula_MemoryKnock-In[_1/2/3/4](t)] *or* [the Closing Price [S(t)]] *or* [each Intraday Price [SI(t)]] *or* [at least one Intraday Price [SI(t)]] is [higher] [lower] than [or equal to] the [Knock-InThreshold[_1/2/3/4](i)] [Knock-InThreshold[_1/2/3/4](t)].

Multi-Underlyings

MemoryEvent[_1/2/3/4](i,k): is deemed to have occurred in respect of an Underlying(k) if on [at least one Valuation Date(t) (t from j to i)] or [Reference Date(s)(t)], the [ReferenceFormula_MemoryKnock-In[_1/2/3/4](t,k) of such Underlying(k)] *or* [the Closing Price [S(t,k)] of such Underlying(k)] *or* [each Intraday Price [SI(t,k)] of such Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of such Underlying(k)] is [higher] [lower] than [or equal to] the [Knock-InThreshold[_1/2/3/4](i)] [Knock-InThreshold[_1/2/3/4](i,k)] [Knock-InThreshold[_1/2/3/4](t)] [Knock-InThreshold[_1/2/3/4](t,k)].

3.3.0.10 Issuer *Call Events*

For the purpose of this section, **Reference Date(t)** means:

- [the Valuation Date(i)] or
- -[the date(t) as defined in the applicable Final Terms] or
- -[Valuation Date(t) within Schedule(i) as defined in the applicable Final Terms] or
- -[the date(t) as defined in the applicable Final Terms within Schedule(i)] or
- -[each Scheduled Trading Day that is not a Disrupted Day from and [including][excluding] Valuation Date(t1) to and [including][excluding] Valuation Date(t2)] or
- - [at least one Scheduled Trading Day that is not a Disrupted Day from and [including][excluding] Valuation Date(t1) to and [including][excluding] Valuation Date(t2)].

3.3.0.11 *Lock-In Event*

For the purpose of this section, **Reference Date(t)** means:

-- [the Valuation Date(i)] or
-- [the date(t) as defined in the applicable Final Terms] or
-- [the Valuation Date(t) within Lock-In Event[_1/2/3/4] Schedule(i) as defined in the applicable Final Terms] or
- [at least one Valuation Date(t) within the Lock-In Event[_1/2/3/4] Schedule(i)] *or*
- [[NumberofDays] [consecutive] Valuation Date(s)(t) within the Lock-In Event[_1/2/3/4] Schedule(i)] *or*
- [at least [NumberofDays] [non consecutive] Valuation Date(s)(t) within the Lock-In Event[_1/2/3/4] Schedule(i)] *or*
-- [the date(t) as defined in the applicable Final Terms within Lock-In Event[_1/2/3/4] Schedule(i)] or
- [at least one date(t) as defined in the applicable Final Terms within the Lock-In Event[_1/2/3/4] Schedule(i)] *or*
- [at least one Scheduled Trading Day that is not a Disrupted Day from and [including][excluding] Valuation Date(t1) to and [including][excluding] Valuation Date(t2)].

a) Description:

Mono-Underlying

Lock-In Event(n) is deemed to have [not] occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), for the first time, [ReferenceFormula_Lock-In(t)] *or* [the Closing Price [S(t)]] *or* [each Intraday Price [SI(t)]] *or* [at least one Intraday Price [SI(t)]] is [higher] [lower] than [or equal to] the [Lock-InThreshold(n)].

Multi-Underlyings

Lock-In Event[(n)][(n,k)] is deemed to have [not] occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), for the first time, [ReferenceFormula_Lock-In(t)] *or* [ReferenceFormula_Lock-In(t,k) of each Underlying(k)] *or* [the Closing Price [S(t,k)] of each Underlying(k)] *or* [each Intraday Price [SI(t,k)] of each Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of each Underlying(k)] *or* [ReferenceFormula_Lock-In(t,k) of at least one Underlying(k)] *or* [the Closing Price [S(t,k)] of at least one Underlying(k)] *or* [each Intraday Price [SI(t,k)] of at least one Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of at least one Underlying(k)] *or* [ReferenceFormula_Lock-In(t,k) of the Underlying(k)] *or* [the Closing Price [S(t,k)] of the Underlying(k)] *or* [each Intraday Price [SI(t,k)] of the Underlying(k)] *or* [at least one Intraday Price [SI(t,k)] of the Underlying(k)] is [higher] [lower] than [or equal to] the [Lock-InThreshold(n)] [Lock-InThreshold(n,k)]

b) Variable Data:

Lock-InThreshold

These Variable Data are defined under Condition 5.4 herein.

c) Reference Formula(e):

ReferenceFormula_Lock-In; Closing Price; Intraday Price

a) Description:

Issuer **Call Event** is deemed to have occurred, as determined by the Calculation Agent, if on Reference Date(s)(t) a notice has been given by the Issuer to the Noteholders within the Notice Period (in accordance with Condition 6.1.3.1.4.1 and Condition 13 of the General Terms and Conditions).

b) Variable Data:

Not Applicable

c) Reference Formula(e):

Not Applicable

3.3.1 ***Reverse Convertible***

If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.1, the following applies:

3.3.1.1 **Product Description:**

- This Product does not pay any Structured Interest Amount.
- There is no Automatic Early Redemption under this Product.
- On Maturity Date, this Product pays a Final Redemption Amount determined on the basis of the applicable Option specified in the applicable Final Terms and chosen among the Options described in Condition 3.3.0.1 above.

3.3.1.2 **Structured Interest Amount:** Not Applicable

3.3.1.3 **Automatic Early Redemption Amount:** Not Applicable

3.3.1.4 **Final Redemption Amount:**
The applicable Final Terms shall indicate in the clause "*Reference of the Product*" the Option applicable to such Product, selected amongst the Options described in Condition 3.3.0.1 above.

3.3.1.5 **Specific Definition(s):**
No Specific Definition is necessary to determine and calculate a Product Amount.

3.3.1.6 **Variable Data:**
Any Variable Data applicable to the Product depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.2 above.

3.3.1.7 **Reference Formula(e):**
The applicable Final Terms shall indicate the Reference Formula(e) applicable to the Product depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.3 above.

3.3.2 ***Digital Coupon Autocall***

If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.2, the following applies:

3.3.2.1 **Product Description:**

- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the scenario occurring among the 2 possible.

o The occurrence of these scenarios depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to a CouponBarrier and/or whether or not a[n] [[American] [European] [Low Barrier] [High Barrier] [Second Low Barrier] [Second High Barrier] [Range] [Target] [Memory] Knock-In] [a Lock-In] Event occurs.

o The Structured Interest Amount may be equal, depending upon the scenario occurring, to a predetermined value increased as the case may be by the value of the ReferenceFormula considered which may be subject to a floor and / or a cap and / or with a leverage factor and / or a coupon.

- An Automatic Early Redemption Amount may be paid under this Product.

o If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor, a cap and / or with a leverage factor.

o Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined on the basis of the applicable Option specified in the applicable Final Terms and chosen among the Options described in Condition 3.3.0.1 above.

3.3.2.2 **Structured Interest Amount:** Applicable

Scenario 1:
If [on Valuation Date(i), ReferenceFormula_CouponBarrier(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier(i)] [[and] [or] [[an American] [an European] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event_1(i) has [not] occurred], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_1(i) ; Min(Cap_Coupon_1(i) ; Participation_Coupon_1(i) x (ReferenceFormula_Coupon(RVD(i)) – Strike_Coupon_1)))

Scenario 2:
If [on Valuation Date(i), ReferenceFormula_CouponBarrier(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier(i)] [[and] [or] [[an American] [an European] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event_1(i) has [not] occurred], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_2(i) ; Min(Cap_Coupon_2(i) ; Participation_Coupon_2(i) x (ReferenceFormula_Coupon(RVD(i)) – Strike_Coupon_2)))

3.3.2.3 **Automatic Early Redemption Amount:** Applicable

Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Max(Floor_AERA(i) ; Min(Cap_AERA(i) ; Coupon_AERA(i) + Participation_AERA(i) x (ReferenceFormula_AERA(i) - Strike_AERA)))

3.3.2.4 **Final Redemption Amount:**

The applicable Final Terms shall indicate in the clause "*Reference of the Product*" the Option applicable to such Product, selected amongst the Options described in Condition 3.3.0.1 above.

3.3.2.5 **Specific Definition(s):**

The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 above and Conditions 3.3.0.4 to 3.3.0.7 above.

3.3.2.6 **Variable Data:**

Floor_Coupon_1; Cap_Coupon_1; Participation_Coupon_1; Strike_Coupon_1; Floor_Coupon_2; Cap_Coupon_2; Participation_Coupon_2; Strike_Coupon_2; Participation_AERA; Cap_AERA; CouponBarrier; Coupon_AERA; Floor_AERA; Participation_AERA; ConstantRedemptionLevel_AERA; Strike_AERA
and any Variable Data applicable depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.2 above.

These Variable Data are defined under Condition 5.4 herein.

3.3.2.7 **Reference Formula(e):**

ReferenceFormula_Coupon; ReferenceFormula_CouponBarrier; ReferenceFormula_AERA

Among the Reference Formulae defined under Condition 4, the ones mainly used for these "Barrier" Products are (but without limitation):

Performance or LeveragePerformance (as defined under Condition 4.1 of the Family of "SimpleLevel")

WorstPerformance or LeverageWorstPerformance (as defined under Condition 4.6 of the Family of "WorstLevel")

BasketPerformance or AverageBasketPerformance (as defined under Condition 4.4 of the Family of Basket Performance")

IntradayMinTimePerformance or WorstIntradayMinTimePerformance (as defined under Condition 4.22 of the Family of "IntradayLevel")

The applicable Final Terms shall indicate, as the case may be, the additional Reference Formula(e) applicable to the Product depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.3 above.

3.3.3 *Digital Coupon Autocall with Memory Effect*

If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.3, the following applies:

3.3.3.1 **Product Description:**

o The occurrence of these scenarios depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to a CouponBarrier and/or whether or not a[n] [[American] [European] [Low Barrier] [High Barrier] [Second Low Barrier] [Second High Barrier] [Range] [Target] [Memory] Knock-In] [a Lock-In] Event occurs.

o The Structured Interest Amount may be equal, depending upon the scenario occurring, to (i) a predetermined value dependent of the previously Structured Interest Amount computed or to (ii) zero.

- An Automatic Early Redemption Amount may be paid under this Product
o If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or with a leverage factor.
o Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined on the basis of the applicable Option specified in the applicable Final Terms and chosen among the Options described in Condition 3.3.0.1 above.

3.3.3.2 **Structured Interest Amount:** Applicable

Scenario 1:
If on Valuation Date(i), ReferenceFormula_CouponBarrier(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier(i) [[and] [or] [[an American] [an European] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In][a Lock-In] Event_1(i) has [not] occurred], then:

Structured Interest Amount(i) = Max(Floor(i) ; Min(Cap(i) ; Specified Denomination × Coupon(i) – SumCoupons[Paid](i-1)))

Scenario 2:
If on Valuation Date(i), ReferenceFormula_CouponBarrier(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier(i) [[and] [or] [[an American] [an European] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event_1(i) has [not] occurred], then:

Structured Interest Amount(i) = 0 (zero)

3.3.3.3 **Automatic Early Redemption Amount:** Applicable

Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Max(Coupon_AERA(i) ; Participation(i) x ReferenceFormula_AERA(i))

3.3.3.4 **Final Redemption Amount:**

The applicable Final Terms shall indicate in the clause "*Reference of the Product*", the Option applicable to such Product, selected amongst the Options described in Condition 3.3.0.1 above.

3.3.3.5 **Specific Definition(s):**

SumCoupons[Paid](i) = SumCoupons[Paid](i-1) + Structured Interest Amount(i)

With:
SumCoupons[Paid](0) = 0] or [SumCoupons[Paid](t1) = SumCoupons_t1]

The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 above.

3.3.3.6 **Variable Data:**

CouponBarrier; ConstantRedemptionLevel_AERA; Participation; Cap; Floor; Coupon; Coupon_AERA
and any Variable Data applicable depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.2 above.

These Variable Data are defined under Condition 5.4 herein.

3.3.3.7 **Reference Formula(e):**

ReferenceFormula_CouponBarrier; ReferenceFormula_AERA

Among the Reference Formulae defined under Condition 4, the ones mainly used for these "Barrier" Products are (but without limitation):

Performance or LeveragePerformance (as defined under Condition 4.1 of the Family of "SimpleLevel")

WorstPerformance or LeverageWorstPerformance (as defined under Condition 4.6 of the Family of "WorstLevel")

BasketPerformance or AverageBasketPerformance (as defined under Condition 4.4 of the Family of Basket Performance")

IntradayMinTimePerformance or WorstIntradayMinTimePerformance (as defined under Condition 4.22 of the Family of "IntradayLevel")

The applicable Final Terms shall indicate, as the case may be, the additional Reference Formula(e) applicable to the Product depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.3 above.

3.3.4 ***Athena, Apollon***

If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.4, the following applies:

3.3.4.1 **Product Description:**

- This Product does not pay any Structured Interest Amount.

- An Automatic Early Redemption Amount may be paid under this Product.
  - o If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or with a leverage factor.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined on the basis of the applicable Option specified in the applicable Final Terms and chosen among the Options described in Condition 3.3.0.1 above.

3.3.4.2 **Structured Interest Amount:** Not Applicable

3.3.4.3 **Automatic Early Redemption Amount:** Applicable

Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)
Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Max(Coupon_AERA(i) ; Participation(i) x ReferenceFormula_AERA(i))

3.3.4.4 **Final Redemption Amount:**

The applicable Final Terms shall indicate in the clause "*Reference of the Product*", the Option applicable to such Product, selected amongst the Options described in Condition 3.3.0.1 above.

3.3.4.5 **Specific Definition(s):**

The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 above.

3.3.4.6 **Variable Data:**

ConstantRedemptionLevel_AERA; Participation; Coupon_AERA
and any Variable Data applicable depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.2 above.

These Variable Data are defined under Condition 5.4 herein.

3.3.4.7 **Reference Formula(e):**

ReferenceFormula_AERA

Among the Reference Formulae defined under Condition 4, the ones mainly used for these "Barrier" Products are (but without limitation):

Performance or LeveragePerformance (as defined under Condition 4.1 of the Family of "SimpleLevel")

WorstPerformance or LeverageWorstPerformance (as defined under Condition 4.6 of the Family of "WorstLevel")

BasketPerformance or AverageBasketPerformance (as defined under Condition 4.4 of the Family of Basket Performance")

IntradayMinTimePerformance or WorstIntradayMinTimePerformance (as defined under Condition 4.22 of the Family of "IntradayLevel")

The applicable Final Terms shall indicate, as the case may be, the additional Reference Formula(e) applicable to the Product depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.3 above.

3.3.5 Double Opportunity

If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.5, the following applies:

3.3.5.1 **Product Description:**

Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the scenario occurring among the 3 possible.

- The occurrence of these scenarios depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to two barriers.
- The Structured Interest Amount may be equal, depending upon the scenario occurring, to the value of the ReferenceFormula considered which may be subject to a floor and / or a cap and / or with a leverage factor.

An Automatic Early Redemption Amount may be paid under this Product subject to the occurrence or not of an Automatic Early Redemption Event and / or a Knock-In Event.

- The Automatic Early Redemption Amount equals a predetermined value

Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined on the basis of the applicable Option specified in the applicable Final Terms and chosen among the Options described in Condition 3.3.0.1 above.

3.3.5.2 **Structured Interest Amount:** Applicable

Scenario 1:
If on Valuation Date(i), [ReferenceFormula_CouponBarrier_1(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier_1(i)] [[and] [or] ReferenceFormula_CouponBarrier_2(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier_2(i)], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_1(i) ; Min(Cap_Coupon_1(i) ; Participation_Coupon_1(i) x (ReferenceFormula_Coupon_1(RVD(i)) – CouponStrike_1(i))))

Scenario 2:
If on Valuation Date(i), [ReferenceFormula_CouponBarrier_1(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier_1(i)] [[and] [or] ReferenceFormula_ CouponBarrier_2(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier_2(i)], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_2(i) ; Min(Cap_Coupon_2(i) ; Participation_Coupon_2(i) x (ReferenceFormula_Coupon_2(RVD(i)) – CouponStrike_2(i))))

Scenario 3:
If on Valuation Date(i), [ReferenceFormula_CouponBarrier_1(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier_1(i)] [[and] [or] ReferenceFormula_ CouponBarrier_2 (RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier_2 (i)], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_3(i) ; Min(Cap_Coupon_3(i) ; Participation_Coupon_3(i) x (ReferenceFormula_Coupon_3(RVD(i)) – CouponStrike_3(i))))

3.3.5.3 **Automatic Early Redemption Amount:** Applicable

Automatic Early Redemption Amount(i) = Specified Denomination x Product Formula(i)
Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i)

3.3.5.4 **Final Redemption Amount:**

The applicable Final Terms shall indicate in the clause "*Reference of the Product*", the Option applicable to such Product, selected amongst the Options described in Condition 3.3.0.1 above.

3.3.5.1.5 **Specific Definition(s):**

The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 above and Conditions 3.3.0.4 to 3.3.0.7 above.

3.3.5.6 **Variable Data:**

ConstantRedemptionLevel_AERA; Coupon_AERA; CouponBarrier_1; CouponBarrier_2; Floor_Coupon_1; Cap_Coupon_1; Participation_Coupon_1; CouponStrike_1; Floor_Coupon_2; Cap_Coupon_2; Participation_Coupon_2; CouponStrike_2; Floor_Coupon_3; Cap_Coupon_3; Participation_Coupon_2; CouponStrike_3

and any Variable Data applicable depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.2 above.

These Variable Data are defined under Condition 5.4 herein.

3.3.5.7 **Reference Formula(e):**
ReferenceFormula_CouponBarrier_1;ReferenceFormula_CouponBarrier_2; ReferenceFormula_Coupon_1; ReferenceFormula_Coupon_2; ReferenceFormula_Coupon_3;

Among the Reference Formulae defined under Condition 4, the ones mainly used for these "Barrier" Products are (but without limitation):

Performance or LeveragePerformance (as defined under Condition 4.1 of the Family of "SimpleLevel")

WorstPerformance or LeverageWorstPerformance (as defined under Condition 4.6 of the Family of "WorstLevel")

BasketPerformance or AverageBasketPerformance (as defined under Condition 4.4 of the Family of Basket Performance")

IntradayMinTimePerformance or WorstIntradayMinTimePerformance (as defined under Condition 4.22 of the Family of "IntradayLevel")

The applicable Final Terms shall indicate, as the case may be, the Reference Formula(e) applicable to the Product depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.3 above.

3.3.6 *Digit Coupon Reverse Convertible*

If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.6, the following applies:

3.3.6.1 Product Description:

- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the scenario occurring among the 2 possible.
  - o The occurrence of these scenarios depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to a CouponBarrier.
  - o The Structured Interest Amount may be equal, depending upon the scenario occurring, to a predetermined value or to zero.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined on the basis of the applicable Option specified in the applicable Final Terms and chosen among the Options described in Condition 3.3.0.1 above.

3.3.6.2 **Structured Interest Amount:** Applicable

Scenario 1:
If on Valuation Date(i), ReferenceFormula_CouponBarrier(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier(i), then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Coupon(i)

Scenario 2:
If on Valuation Date(i), ReferenceFormula_CouponBarrier(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier(i), then:

Structured Interest Amount(i) = 0 (zero)

3.3.6.3 **Automatic Early Redemption Amount:** Not Applicable

3.3.6.4 **Final Redemption Amount:**

The applicable Final Terms shall indicate in the clause "*Reference of the Product*", the Option applicable to such Product, selected amongst the Options described in Condition 3.3.0.1 above.

3.3.6.5 **Specific Definition(s):**

No Specific Definition is necessary to determine and calculate a Product Amount.

3.3.6.6 **Variable Data:**
CouponBarrier; Coupon
and any Variable Data applicable depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.2 above.
These Variable Data are defined under Condition 5.4 herein.

3.3.6.7 **Reference Formula(e):**
ReferenceFormula_CouponBarrier

Among the Reference Formulae defined under Condition 4, the ones mainly used for these "Barrier" Products are (but without limitation):

Performance or LeveragePerformance (as defined under Condition 4.1 of the Family of "SimpleLevel")

WorstPerformance or LeverageWorstPerformance (as defined under Condition 4.6 of the Family of "WorstLevel")

BasketPerformance or AverageBasketPerformance (as defined under Condition 4.4 of the Family of Basket Performance")

IntradayMinTimePerformance or WorstIntradayMinTimePerformance (as defined under Condition 4.22 of the Family of "IntradayLevel")

The applicable Final Terms shall indicate as the case may be, the Reference Formula(e) applicable to the Product depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.3 above.

3.3.7 Reverse Convertible with Automatic Early Redemption Event

If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.7, the following applies:

3.3.7.1 **Product Description:**

- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the scenario occurring among the 2 possible.
  - o The occurrence of these scenarios depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to a CouponBarrier and/or whether or not a[n] [[American] [European] [Low Barrier] [High Barrier] [Second Low Barrier] [Second High Barrier] [Range] [Target] [Memory] Knock-In] [Lock-In] Event occurs.

  - o The Structured Interest Amount may be equal, depending upon the scenario occurring, to a predetermined value dependent of the previously Structured Interest Amount computed.

- An Automatic Early Redemption Amount may be paid under this Product.
  - o If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined on the basis of the applicable Option specified in the applicable Final Terms and chosen among the Options described in Condition 3.3.0.1 above.

3.3.7.2 **Structured Interest Amount:** Applicable

For i from t1 to t2

Scenario 1:
If on Valuation Date(i), [ReferenceFormula_CouponBarrier(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier(i)] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Coupon_1(i)

Scenario 2:
If on Valuation Date(i), [ReferenceFormula_CouponBarrier(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier(i)] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Coupon_2(i)

For i from (t2+1)to t3

Scenario 1:
If on Valuation Date(i), [ReferenceFormula_CouponBarrier(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier(i)] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred], then:

Structured Interest Amount(i) = Max(Floor(i) ; Min(Cap(i) ; Specified Denomination x Participation(i) x Coupon_3(i) – SumCoupons[Paid](i-1)))

Scenario 2:
If on Valuation Date(i), [ReferenceFormula_CouponBarrier(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier(i)] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)
Product Formula(i) = Coupon_4(i)

3.3.7.3 **Automatic Early Redemption Amount:** Applicable

Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i)

3.3.7.4 **Final Redemption Amount:**

The applicable Final Terms shall indicate in the clause "*Reference of the Product*", the Option applicable to such Product selected among the Options described in Condition 3.3.0.1 above.

3.3.7.5 **Specific Definition(s):**

SumCoupons[Paid](i) = SumCoupons[Paid](i-1) + Structured Interest Amount(i)

With:
SumCoupons[Paid](0) = 0 (zero)] *or* [SumCoupons[Paid](t1) = SumCoupons_t1]

The applicable Final Terms shall indicate, as the case may be, either "Not Applicable" or one or more of the definitions mentioned in Condition 1.2.2 above.

3.3.7.6 **Variable Data:**

ConstantRedemptionLevel_AERA; CouponBarrier; Coupon[_1/2/3/4]; Coupon_AERA; Participation; Cap; Floor
and any Variable Data applicable depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.2 above.

These Variable Data are defined under Condition 5.4 herein.

3.3.7.7 **Reference Formula(e):**
ReferenceFormula_CouponBarrier

Among the Reference Formulae defined under Condition 4, the ones mainly used for these "Barrier" Products are (but without limitation):

Performance or LeveragePerformance (as defined under Condition 4.1 of the Family of "SimpleLevel")

WorstPerformance or LeverageWorstPerformance (as defined under Condition 4.6 of the Family of "WorstLevel")

BasketPerformance or AverageBasketPerformance (as defined under Condition 4.4 of the Family of Basket Performance")

IntradayMinTimePerformance or WorstIntradayMinTimePerformance (as defined under Condition 4.22 of the Family of "IntradayLevel")

The applicable Final Terms shall indicate as the case may be, the additional Reference Formula(e) applicable to the Product depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.3 above.

3.3.8 Digit Coupon Autocall with Recall Coupon

If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.8, the following applies:

3.3.8.1 **Product Description:**

- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the scenario occurring among the 2 possible.

o The occurrence of these scenarios depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to two Barriers.
o The Structured Interest Amount may be equal, depending upon the scenario occurring, to the value of the ReferenceFormula considered which may be subject to a floor and / or a cap and / or with a leverage factor.

- An Automatic Early Redemption Amount may be paid under this Product.
o If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or with a leverage factor.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined on the basis of the applicable Option specified in the applicable Final Terms and chosen among the Options described in Condition 3.3.0.1 above.

3.3.8.2 **Structured Interest Amount:** Applicable

Scenario 1:
If on Valuation Date(i), [ReferenceFormula_CouponBarrier(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier(i)] [[and] [or] ReferenceFormula_Autocall(RVD(i)) is [lower] [higher] than [or equal to] AutocallBarrier(i)], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_1(i) ; Min(Cap_Coupon_1(i) ; Participation_Coupon_1(i) x (ReferenceFormula_Coupon(RVD(i)) – CouponStrike_1(i))))

Scenario 2:
If on Valuation Date(i), [ReferenceFormula_CouponBarrier(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier(i)] [[and] [or] ReferenceFormula_Autocall(RVD(i)) is [higher] [lower] than [or equal to] AutocallBarrier(i)], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_2(i) ; Min(Cap_Coupon_2(i) ; Participation_Coupon_2(i) x (ReferenceFormula_Coupon(RVD(i)) – CouponStrike_2(i))))

3.3.8.3 **Automatic Early Redemption Amount:** Applicable
Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Max(Coupon_AERA (i) ; Participation_AERA(i) x ReferenceFormula_AERA(i))

3.3.8.4 **Final Redemption Amount:**
The applicable Final Terms shall indicate in the clause "*Reference of the Product*", the Option applicable to such Product, selected amongst the Options described in Condition 3.3.0.1 above.

3.3.8.5 **Specific Definition(s):**
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 above.

3.3.8.6 **Variable Data:**
CouponBarrier; AutocallBarrier; Floor_Coupon_1; Cap_Coupon_1; Participation_Coupon_1; CouponStrike_1; Floor_Coupon_2; Cap_Coupon_2; Participation_Coupon_2; CouponStrike_2; Participation_AERA; Coupon_AERA; ConstantRedemptionLevel_AERA and any Variable Data applicable depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.2 above.

These Variable Data are defined under Condition 5.4 herein.

3.3.8.7 **Reference Formula(e):**
ReferenceFormula_CouponBarrier ReferenceFormula_Autocall ReferenceFormula_AERA

Among the Reference Formulae defined under Condition 4, the ones mainly used for these "Barrier" Products are (but without limitation):

Performance or LeveragePerformance (as defined under Condition 4.1 of the Family of "SimpleLevel")

WorstPerformance or LeverageWorstPerformance (as defined under Condition 4.6 of the Family of "WorstLevel")

BasketPerformance or AverageBasketPerformance (as defined under Condition 4.4 of the Family of Basket Performance")

IntradayMinTimePerformance or WorstIntradayMinTimePerformance (as defined under Condition 4.22 of the Family of "IntradayLevel")
The applicable Final Terms shall indicate, as the case may be, the additional Reference Formula(e) applicable to the Product depending on the Option applicable to such Product and pursuant to the table in Condition .3.3.0.3 above

3.3.9 Athena Airbag

If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.9, the following applies:

3.3.9.1 **Product Description:**

- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the scenario occurring among the 2 possible.
o The occurrence of these scenarios depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to a CouponBarrier and / or subject to the occurrence or not of a[n] [[European] [American] [Low Barrier] [High Barrier] [Second Low Barrier] [Second High Barrier] [Range] [Target] [Memory] Knock-In] [a Lock-In] Event.
o The Structured Interest Amount may be equal, depending upon the scenario occurring, to the value of the ReferenceFormula considered which may be subject to a floor and / or a cap and / or with a leverage factor.

- An Automatic Early Redemption Amount may be paid under this Product.
o If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined on the basis of the applicable Option specified in the applicable Final Terms and chosen among the Options described in Condition 3.3.0.1 above.

3.3.9.2 **Structured Interest Amount:** Applicable

Scenario 1:
If [on Valuation Date(i), ReferenceFormula_CouponBarrier(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier(i)] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event_1(i) has [not] occurred], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_1(i) ; Min(Cap_Coupon_1(i) ; Participation_Coupon_1(i) x (ReferenceFormula_Coupon_1(RVD(i)) – CouponStrike_1)))

Scenario 2:
If [on Valuation Date(i), ReferenceFormula_CouponBarrier(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier(i)] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event_1(i) has [not] occurred], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_2(i) ; Min(Cap_Coupon_2(i) ; Participation_Coupon_2(i) x (ReferenceFormula_Coupon_2(RVD(i)) – CouponStrike_2)))

3.3.9.3 **Automatic Early Redemption Amount:** Applicable
Automatic Early Redemption Amount(i) = Specified Denomination x Product Formula(i)
Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i)

3.3.9.4 **Final Redemption Amount:**
The applicable Final Terms shall indicate in the clause "*Reference of the Product*", the Option applicable to such Product, selected amongst the Options described in Condition 3.3.0.1 above.

3.3.9.5 **Specific Definition(s):**
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 and Conditions 3.3.0.4 to 3.3.0.7 above.

3.3.9.6 **Variable Data:**
CouponBarrier; Floor_Coupon_1; Cap_Coupon_1; Participation_Coupon_1; CouponStrike_1; Floor_Coupon_2; Cap_Coupon_2; Participation_Coupon_2; CouponStrike_2; ConstantRedemptionLevel_AERA; Coupon_AERA

and any Variable Data applicable depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.2 above.

These Variable Data are defined under Condition 5.4 herein.

3.3.9.7 **Reference Formula(e):**
ReferenceFormula_CouponBarrier; ReferenceFormula_Coupon_1; ReferenceFormula_Coupon_2

Among the Reference Formulae defined under Condition 4, the ones mainly used for these "Barrier" Products are (but without limitation):

Performance or LeveragePerformance (as defined under Condition 4.1 of the Family of "SimpleLevel")

WorstPerformance or LeverageWorstPerformance (as defined under Condition 4.6 of the Family of "WorstLevel")

BasketPerformance or AverageBasketPerformance (as defined under Condition 4.4 of the Family of Basket Performance")

IntradayMinTimePerformance or WorstIntradayMinTimePerformance (as defined under Condition 4.22 of the Family of "IntradayLevel")

The applicable Final Terms shall indicate, as the case may be, the additional Reference Formula(e) applicable to the Product depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.3 above.

3.3.10 *Twin Win*

If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.10, the following applies:

3.3.10.1 **Product Description:**

- This Product does not pay any Structured Interest Amount.
- An Automatic Early Redemption Amount may be paid under this Product.
  - o If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value.
- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 3 possible.
  - o The occurrence of these scenarios depends upon (i) the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to a Barrier and upon (ii) the occurrence or not of a Low Barrier Knock-In Event.
  - o The Final Redemption Amount equals a predetermined value increased as the case may be by the value of the relevant Reference Formula considered, which may be subject to a cap and / or with a leverage factor.

3.3.10.2 **Structured Interest Amount:** Not Applicable

3.3.10.3 **Automatic Early Redemption Amount:** Applicable

Automatic Early Redemption Amount(i) = Specified Denomination x Product Formula(i)
Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i)

3.3.10.4 **Final Redemption Amount:**

Scenario 1:
If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is [higher] [lower] than [or equal to] Barrier, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Min(Cap ; CallParticipation x (ReferenceFormula_Final_1(RVD(T)) – Strike_1))

Scenario 2:
If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is [lower] [higher] than [or equal to] Barrier and a Low Barrier Knock-In Event has not occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + PutParticipation x (Strike_2 – ReferenceFormula_Final_2(RVD(T)))

Scenario 3:
If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is [lower] [higher] than [or equal to] Barrier and a Low Barrier Knock-In Event has occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_3 + FinalParticipation x (ReferenceFormula_Finale_3(RVD(T)) – Strike_3)

3.3.10.5 **Specific Definition(s):**
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 above.

3.3.10.6 **Variable Data:**
ConstantRedemptionLevel_AERA; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; ConstantRedemptionLevel_FRA_3; Coupon_AERA; Barrier; Strike_1; Strike_2; Strike_3; CallParticipation; Cap; PutParticipation FinalParticipation

These Variable Data are defined under Condition 5.4 herein.

3.3.10.7 **Reference Formula(e):**
ReferenceFormula_Final; ReferenceFormula_Final_1; ReferenceFormula_Final_2; ReferenceFormula_Final_3

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

For Notes indexed on one Underlying:
Level (as defined under Condition 4.1 of the Family of "SimpleLevel")
For Notes indexed on more than one Underlying:
BasketLevel (as defined under Condition 4.3 of the Family of "Basket Level")
WorstLevel (as defined under Condition 4.6 of the Family of "WorstLevel")

3.3.11 Spread Differential

If the applicable Final Terms specify that "Reference of the Product" is 3.3.11, the following applies:

3.3.11.1 Product Description:

- This Product does not pay a Structured Interest Amount.
- There is no Automatic Early Redemption Amount under this Product.
- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined on the basis of the amount by which the sum of the ConstantRedemptionLevel_FRA and the Arbitrage Opportunity (represented by the Coupon_FRA or the ReferenceFormula_ Arbitrage Opportunity) exceeds the spread value.

3.3.11.2 **Structured Interest Amount: Not Applicable**

3.3.11.3 **Automatic Early Redemption Amount: Not Applicable**

3.3.11.4 **Final Redemption Amount**:

Scenario 1:
If an Underlying Extraordinary Event has not occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = Max [0% ; ConstantRedemptionLevel_FRA_1 [+ Coupon_FRA_1 x [DCF(t,t')][(Act(t1,t2) / Act(t3,t4))]] [+ ReferenceFormula_ Arbitrage Opportunity(T)] - Max(FinalFloor_1 ; Min(FinalCap_1 ; FinalParticipation_1 x (ReferenceFormula_Spread Value(T) – FinalStrike_1)))]

Scenario 2:
If an Underlying Extraordinary Event has occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = Max [0% ; ConstantRedemptionLevel_FRA_2 [+ Coupon_FRA_2 x [DCF(t,t')] [(Act(t5,t6) / Act(t7,t8))]] [+ Max (FinalFloor_2 ; ReferenceFormula_ Arbitrage Opportunity(T))] [- Max(FinalFloor_3 ; Min(FinalCap_2 ; FinalParticipation_2 x (ReferenceFormula_Spread Value(T) – FinalStrike_2))) [– Breakage Costs]]]

[Where:
Breakage Costs means all Standard Unwind Costs being the costs determined by the Calculation Agent equal to the sum of (without duplication) all costs, fees (if any) that would be paid by a Hypothetical Investor in order to execute an order on the settlement price of the Underlying[s], expenses (including break funding charges/gains and loss or gain of funding, which, for the avoidance of doubt, represents the loss/gain of future interest amounts to be received under the funding arrangement(s) entered into in relation to the Notes), tax and duties incurred directly or indirectly by Societe Generale or any of its affiliates in relation to the [Optional Redemption Amount][Final Redemption Amount] and the related partial or total termination, settlement or re-establishment of any Hedge Positions, such amount to be apportioned pro rata amongst the outstanding Notes.
Where Hedge Positions means any purchase, sale, entry into or maintenance, by Societe Generale or any of its affiliates, of one or more (a) positions or contracts in securities, futures, interest rate transactions or repurchase agreement transactions or foreign exchange transactions, (b) any cash deposits or cash borrowings and/or (c) other instruments, arrangements, assets or liabilities howsoever described in order to hedge individually or on a portfolio basis the part of Societe Generale's or any of its affiliates' obligations under the Notes.
Where Hypothetical Investor has the meaning given to it in the General Terms and Conditions.

DCF(t,t'): means the Day Count Fraction convention, for a period beginning on ValuationDate(t) and ending on (but excluding) Valuation Date(t')]

3.11.5 Sp**ecific Definition(s)**:
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Conditions 3.3.0.4 to 3.3.0.7 above.

3.11.6 **Variable Data**:

ConstantRedemptionLevel_FRA_1; Coupon_FRA_1; FinalStrike_1 ; FinalFloor_1 ; FinalCap_1 ; FinalParticipation_1; ConstantRedemptionLevel_FRA_2; Coupon_FRA_2; FinalStrike_2 ; FinalFloor_2 ; FinalCap_2 ; FinalParticipation_2

These Variable Data are defined under Condition 5.4 below.

3.11.7 **Reference Formula(e)**:
ReferenceFormula_ Arbitrage Opportunity; ReferenceFormula_Spread Value
Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

Spread Value(i)
FXSpread Value(i)
Arbitrage Opportunity(i)

3.3.12 Optimal Plus

If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.12, the following applies:

3.3.12.1 **Product Description**:

- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the scenario occurring among the 3 possible.
  - o The occurrence of these scenarios depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to two barriers.
  - o The Structured Interest Amount may be equal, depending upon the scenario occurring, to the value of the ReferenceFormula considered which may be subject to a floor and / or a cap and / or with a leverage factor and dependent of the Memory Amount computed.

- An Automatic Early Redemption Amount may be paid under this Product subject to the occurrence or not of an Automatic Early Redemption Event and / or a Knock-In Event.
  - o The Automatic Early Redemption Amount equals a predetermined value

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined on the basis of the applicable Option specified in the applicable Final Terms and chosen among the Options described in Condition 3.3.0.1 above.

3.3.12.2 **Structured Interest Amount**: Applicable

Scenario 1:

If on Valuation Date(i), [ReferenceFormula_CouponBarrier_1(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier_1(i)] [[and] [or] ReferenceFormula_CouponBarrier_2(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier_2(i)], then:

Structured Interest Amount(i) = Max(Floor_Coupon_1(i) ; Min(Cap_Coupon_1(i) ; Specified Denomination x Participation_Coupon_1(i) x (ReferenceFormula_Coupon_1(RVD(i)) – CouponStrike_1(i)) + Memory Amount(i)))

Scenario 2:

If on Valuation Date(i), [ReferenceFormula_CouponBarrier_1(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier_1(i)] [[and] [or] ReferenceFormula_ CouponBarrier_2(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier_2(i)], then:

Structured Interest Amount(i) = Max(Floor_Coupon_2(i) ; Min(Cap_Coupon_2(i) ; Specified Denomination x Participation_Coupon_2(i) x (ReferenceFormula_Coupon_2(RVD(i)) – CouponStrike_2(i)) + Memory Amount(i)))

Scenario 3:

If on Valuation Date(i), [ReferenceFormula_CouponBarrier_1(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier_1(i)] [[and] [or] ReferenceFormula_ CouponBarrier_2 (RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier_2 (i)], then:

Structured Interest Amount(i) = 0 (zero)

3.3.12.3 **Automatic Early Redemption Amount: Applicable**

Automatic Early Redemption Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i)

3.3.12.4 **Final Redemption Amount:**

The applicable Final Terms shall indicate in the clause "Reference of the Product", the Option applicable to such Product, selected amongst the Options described in Condition 3.3.0.1 above.

3.3.12.4 **Specific Definition(s):**

Memory Amount(i) means :

Scenario 1:

If on Valuation Date(i), ReferenceFormula_CouponBarrier(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier(i), then:

Memory Amount(i) = Max(Floor(i) ; Min(Cap(i) ; Specified Denomination × Participartion(i) x Coupon(i) – SumCouponsMemorized(i-1)))

Scenario 2:

If on Valuation Date(i), ReferenceFormula_CouponBarrier(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier(i), then:

Memory Amount(i) = 0 (zero)

Where

SumCouponsMemorized(i-1) = SumCouponsMemorized(i-2) + Memory Amount(i-1)

With

SumCouponsMemorized(0) = 0 (zero)

The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 and Conditions 3.3.0.4 to 3.3.0.7 above.

3.3.12.6 **Variable Data:**

ConstantRedemptionLevel_AERA; Coupon_AERA; Coupon; CouponBarrier; CouponBarrier_1; CouponBarrier_2; Floor_Coupon_1; Cap; Floor; Participation; Cap_Coupon_1; Participation_Coupon_1; CouponStrike_1; Floor_Coupon_2; Cap_Coupon_2; Participation_Coupon_2; CouponStrike_2;

and any Variable Data applicable depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.2 above.

These Variable Data are defined under Condition 5.4 herein.

3.3.12.7 **Reference Formula(e):**

ReferenceFormula_CouponBarrier; ReferenceFormula_CouponBarrier_1;ReferenceFormula_CouponBarrier_2; ReferenceFormula_Coupon_1; ReferenceFormula_Coupon_2; ReferenceFormula_Coupon_3;

Among the Reference Formulae defined under Condition 4, the ones mainly used for these "Barrier" Products are (but without limitation):

Performance or LeveragePerformance (as defined under Condition 4.1 of the Family of "SimpleLevel")

WorstPerformance or LeverageWorstPerformance (as defined under Condition 4.6 of the Family of "WorstLevel")

BasketPerformance or AverageBasketPerformance (as defined under Condition 4.4 of the Family of Basket Performance")

IntradayMinTimePerformance or WorstIntradayMinTimePerformance (as defined under Condition 4.22 of the Family of "IntradayLevel")

The applicable Final Terms shall indicate, as the case may be, the Reference Formula(e) applicable to the Product depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.3 above.

3.3.13 ***Reserved***

3.3.14 ***Bonus & Capped Bonus***

If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.14, the following applies:

3.3.14.1 **Product Description:**
- This Product does not pay any Structured Interest Amount.

- An Automatic Early Redemption Amount may be paid under this Product
  - o If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 2 possible:
  o The occurrence of these scenarios is subject to the occurrence or not of a Low Barrier Knock-In Event or a European Knock-In Event.
  o The Final Redemption Amount equals a predetermined value increased as the case may be by the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product, which may be subject to a floor and / or a cap and /or with a leverage factor.

3.3.14.2 **Structured Interest Amount**: Not Applicable

3.3.14.3 **Automatic Early Redemption Amount**: Applicable

Automatic Early Redemption Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i)

3.3.14.4 **Final Redemption Amount**:

Scenario 1:
If a [Low Barrier Knock-In Event] [European Knock-In Event] has not occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Max(Bonus; Min(Cap_1 ; Participation_1 x (ReferenceFormula_Final_1(T) – Strike_1)))

Scenario 2:
If a [Low Barrier Knock-In Event] [European Knock-In Event] has occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Min(Cap_2 ; Participation_2 x (ReferenceFormula_Final_2(T) – Strike_2))

3.3.14.5 **Specific Definition(s)**:

The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 and Conditions 3.3.0.4 to 3.3.0.7 above.

3.3.14.6 **Variable Data**:
ConstantRedemptionLevel_AERA; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; Coupon_AERA; Bonus; Participation_1; Participation_2; Strike_1; Strike_2; Cap_1; Cap_2

These Variable Data are defined under Condition 5.4 herein.

3.3.14.7 **Reference Formula(e)**:
ReferenceFormula_Final_1; ReferenceFormula_Final_2

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

For Notes indexed on one Underlying:
Level (as defined under Condition 4.1 of the Family of "SimpleLevel")

For Notes indexed on more than one Underlying:
BasketLevel (as defined under Condition 4.3 of the Family of "Basket Level")
WorstLevel (as defined under Condition 4.6 of the Family of "WorstLevel")

3.3.15 *Bonus Flex*
If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.15, the following applies:

3.3.15.1 **Product Description**:
- This Product does not pay any Structured Interest Amount.

- An Automatic Early Redemption Amount may be paid under this Product
  o If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 3 possible:
  o The occurrence of these scenarios is subject to the occurrence or not of a [High] [Low] Barrier Knock-In Event and of a Second [High] [Low] Barrier Knock-In Event.

o The Final Redemption Amount equals a predetermined value increased as the case may be by the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product, which may be subject to a floor and / or a cap and /or with a leverage factor.

3.3.15.2 **Structured Interest Amount**: Not Applicable

3.3.15.3 **Automatic Early Redemption Amount**: Applicable
Automatic Early Redemption Amount(i) = Specified Denomination x Product Formula(i)
Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i)

3.3.15.4 **Final Redemption Amount**:

Scenario 1:
If a [Low Barrier Knock-In Event] [High Barrier Knock-In Event] has not occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Max(HighBonus ; Min(Cap_1 ; Participation_1 x (ReferenceFormula_Final_1(RVD(T)) – Strike_1)))

Scenario 2:
If a [Low Barrier Knock-In Event] [High Barrier Knock-In Event] has occurred and a [Second Low Barrier Knock-In Event] [Second High Barrier Knock-In Event] has not occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Max(LowBonus; Min(Cap_2 ; Participation_2 x (ReferenceFormula_Final_2(RVD(T)) – Strike_2)))

Scenario 3:
If a [Low Barrier Knock-In Event] [High Barrier Knock-In Event] has occurred and a [Second Low Barrier Knock-In Event] [Second High Barrier Knock-In Event] has occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_3 + Min(Cap_3 ; Participation_3 x (ReferenceFormula_Final_3(RVD(T)) – Strike_3))

3.3.15.5 **Specific Definition(s)**:
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 and Conditions 3.3.0.4 to 3.3.0.7 above.

3.3.15.6 **Variable Data**:
ConstantRedemptionLevel_AERA; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; ConstantRedemptionLevel_FRA_3; Coupon_AERA; HighBonus; Participation_1; Participation_2; Participation_3; Strike_1; Strike_2; Strike_3; Cap_1; Cap_2; Cap_3; LowBonus

These Variable Data are defined under Condition 5.4 herein.

3.3.15.7 **Reference Formula(e)**:
ReferenceFormula_Final_1; ReferenceFormula_Final_2; ReferenceFormula_Final_3

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

For Notes indexed on one Underlying:
Level (as defined under Condition 4.1 of the Family of "SimpleLevel")

For Notes indexed on more than one Underlying:
BasketLevel (as defined under Condition 4.3 of the Family of "Basket Level")
WorstLevel (as defined under Condition 4.6 of the Family of "WorstLevel")

3.3.16 Digit Coupon Jupiter

If the applicable Final Terms specify that "Reference of the Product" is 3.3.16, the following applies:

3.3.16.1 **Product Description**:

- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the scenario occurring among the 2 possible.
o The occurrence of these scenarios depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to one or two barrier(s) and/or whether or not a[n] [[American] [European] [Low Barrier] [High

Barrier] [Second Low Barrier] [Second High Barrier] [Range] [Target] [Memory] Knock-In] [a Lock-In] Event occurs and/or whether or not an Issuer Call Event occurs.

o The Structured Interest Amount may be equal, depending upon the scenario occurring, to the value of the ReferenceFormula considered which may be subject to a floor and / or a cap and / or with a leverage factor and / or a coupon.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined on the basis of the applicable Option specified in the applicable Final Terms and chosen among the Options described in Condition 3.3.0.1 above.

3.3.16.2 **Structured Interest Amount**: Applicable

Scenario 1:

If [on Valuation Date(i),] [ReferenceFormula_CouponBarrier_1(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier_1(i)] [[and] [or] ReferenceFormula_CouponBarrier_2(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier_2(i)] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] an Issuer Call Event has [not] occurred], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_1(i) ; Min(Cap_Coupon_1(i) ; Bonus_Coupon_1(i) + Coupon_1(i) + Participation_Coupon_1(i) x (ReferenceFormula_Coupon_1(RVD(i)) – CouponStrike_1(i))))

Scenario 2:

If [on Valuation Date(i),] [ReferenceFormula_CouponBarrier_1(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier_1(i)] [[and] [or] ReferenceFormula_CouponBarrier_2(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier_2(i)] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In]Event has [not] occurred] [[and] [or] an Issuer Call Event has [not] occurred], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_2(i) ; Min(Cap_Coupon_2(i) ; Bonus_Coupon_2(i) + Coupon_2(i) + Participation_Coupon_2(i) x (ReferenceFormula_Coupon_2(RVD(i)) – CouponStrike_2(i))))

3.3.16.3 **Automatic Early Redemption Amount:** Not Applicable

3.3.16.4 **Final Redemption Amount**:
The applicable Final Terms shall indicate in the clause "Reference of the Product", the Option applicable to such Product, selected amongst the Options described in Condition 3.3.0.1 above.

3.3.16.5 **Specific Definition(s)**:
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 and Conditions 3.3.0.4 to 3.3.0.10 above.

3.3.16.6 **Variable Data**:

CouponBarrier_1; CouponBarrier_2; Floor_Coupon_1; Cap_Coupon_1; Participation_Coupon_1; CouponStrike_1; Bonus_Coupon_1; Coupon_1; Floor_Coupon_2; Cap_Coupon_2; Participation_Coupon_2; CouponStrike_2; Bonus_Coupon_2; Coupon_2

and any Variable Data applicable depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.2 above.

These Variable Data are defined under Condition 5.4 herein.

3.3.16.7 **Reference Formula(e)**:

ReferenceFormula_CouponBarrier_1;ReferenceFormula_CouponBarrier_2; ReferenceFormula_Coupon_1; ReferenceFormula_Coupon_2

Among the Reference Formulae defined under Condition 4, the ones mainly used for these "Barrier" Products are (but without limitation):

Performance or LeveragePerformance (as defined under Condition 4.1 of the Family of "SimpleLevel")

WorstPerformance or LeverageWorstPerformance (as defined under Condition 4.6 of the Family of "WorstLevel")

BasketPerformance or AverageBasketPerformance (as defined under Condition 4.4 of the Family of Basket Performance")

IntradayMinTimePerformance or WorstIntradayMinTimePerformance (as defined under Condition 4.22 of the Family of "IntradayLevel")

The applicable Final Terms shall indicate, as the case may be, the Reference Formula(e) applicable to the Product depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.3 above.

3.3.17 Phoenix/Athena Jupiter

If the applicable Final Terms specify that "Reference of the Product" is 3.3.16, the following applies:

3.3.17.1 **Product Description**:

- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the scenario occurring among the 3 possible.
  - o The occurrence of these scenarios depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to one or two barrier(s) and/or whether or not a[n] [[American] [European] [Low Barrier] [High Barrier] [Second Low Barrier] [Second High Barrier] [Range] [Target] [Memory] Knock-In] [a Lock-In] Event occurs and/or whether or not an Issuer Call Event occurs.
  - o The Structured Interest Amount may be equal, depending upon the scenario occurring, to the value of the ReferenceFormula considered which may be subject to a floor and / or a cap and / or with a leverage factor and / or a coupon.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined on the basis of the applicable Option specified in the applicable Final Terms and chosen among the Options described in Condition 3.3.0.1 above.

3.3.17.2 **Structured Interest Amount**: Applicable

Scenario 1:

If [on Valuation Date(i),] [ReferenceFormula_CouponBarrier_1(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier_1(i)] [[and] [or] ReferenceFormula_CouponBarrier_2(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier_2(i)] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] an Issuer Call Event has [not] occurred], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_1(i) ; Min(Cap_Coupon_1(i) ; Bonus_Coupon_1(i) + Coupon_1(i) + Participation_Coupon_1(i) x (ReferenceFormula_Coupon_1(RVD(i)) – CouponStrike_1(i))))

Scenario 2:

If [on Valuation Date(i),] [ReferenceFormula_CouponBarrier_1(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier_1(i)] [[and] [or] ReferenceFormula_CouponBarrier_2(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier_2(i)] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] an Issuer Call Event has [not] occurred], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_2(i) ; Min(Cap_Coupon_2(i) ; Bonus_Coupon_2(i) + Coupon_2(i) + Participation_Coupon_2(i) x (ReferenceFormula_Coupon_2(RVD(i)) – CouponStrike_2(i))))

Scenario 3:

If [on Valuation Date(i),] [ReferenceFormula_CouponBarrier_1(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier_1(i)] [[and] [or] ReferenceFormula_CouponBarrier_2(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier_2(i)] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] an Issuer Call Event has [not] occurred], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_3(i) ; Min(Cap_Coupon_3(i) ; Bonus_Coupon_3(i) + Coupon_3(i) + Participation_Coupon_3(i) x (ReferenceFormula_Coupon_3(RVD(i)) – CouponStrike_3(i))))

3.3.17.3 **Automatic Early Redemption Amount**: Not Applicable

3.3.17.4 **Final Redemption Amount**:
The applicable Final Terms shall indicate in the clause "Reference of the Product", the Option applicable to such Product, selected amongst the Options described in Condition 3.3.0.1 above.

3.3.17.5 **Specific Definition(s)**:

The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 and Conditions 3.3.0.4 to 3.3.0.10 above.

3.3.17.6 **Variable Data**:
CouponBarrier_1; CouponBarrier_2; Floor_Coupon_1; Cap_Coupon_1; Participation_Coupon_1; CouponStrike_1; Bonus_Coupon_1; Coupon_1; Floor_Coupon_2; Cap_Coupon_2; Participation_Coupon_2; CouponStrike_2; Bonus_Coupon_2; Coupon_2; Floor_Coupon_3; Cap_Coupon_3; Participation_Coupon_3; CouponStrike_3; Bonus_Coupon_3; Coupon_3

and any Variable Data applicable depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.2 above.

These Variable Data are defined under Condition 5.4 herein.

3.3.17.7 **Reference Formula(e)**:
ReferenceFormula_CouponBarrier_1;ReferenceFormula_CouponBarrier_2; ReferenceFormula_Coupon_1; ReferenceFormula_Coupon_2; ReferenceFormula_Coupon_3;

The applicable Final Terms shall indicate, as the case may be, the Reference Formula(e) applicable to the Product depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.3 above.

3.3.18 ***Triple Opportunity***

If the applicable Final Terms specify that "Reference of the Product" is 3.3.18, the following applies:

3.3.18.1 **Product Description**:
- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the scenario occurring among the 4 possible.
  - o The occurrence of these scenarios depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to one or two barriers() and/or whether or not a[n] [[American] [European] [Low Barrier] [High Barrier] [Second Low Barrier] [Second High Barrier] [Range] [Target] [Memory] Knock-In] [Lock-In] Event occurs and/or whether or not an Issuer Call Event occurs.
  - o The Structured Interest Amount may be equal, depending upon the scenario occurring, to the value of the ReferenceFormula considered which may be subject to a floor and/or a cap and/or with a leverage factor and/or a coupon.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined on the basis of the applicable Option specified in the applicable Final Terms and chosen among the Options described in Condition 3.3.0.1 above.

3.3.18.2 **Structured Interest Amount**: Applicable

Scenario 1:

If [on Valuation Date(i),] [ReferenceFormula_CouponBarrier_1(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier_1(i)] [[and] [or] ReferenceFormula_CouponBarrier_2(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier_2(i)] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] an Issuer Call Event has [not] occurred], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_1(i) ; Min(Cap_Coupon_1(i) ; Bonus_Coupon_1(i) + Coupon_1(i) + Participation_Coupon_1(i) x (ReferenceFormula_Coupon_1(RVD(i)) – CouponStrike_1(i))))

Scenario 2:

If [on Valuation Date(i),] [ReferenceFormula_CouponBarrier_1(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier_1(i)] [[and] [or] ReferenceFormula_CouponBarrier_2(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier_2(i)] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] an Issuer Call Event has [not] occurred], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_2(i) ; Min(Cap_Coupon_2(i) ; Bonus_Coupon_2(i) + Coupon_2(i) + Participation_Coupon_2(i) x (ReferenceFormula_Coupon_2(RVD(i)) – CouponStrike_2(i))))

Scenario 3:

If [on Valuation Date(i),] [ReferenceFormula_CouponBarrier_1(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier_1(i)] [[and] [or] ReferenceFormula_CouponBarrier_2(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier_2(i)] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [a European] [an American] Knock-In Event has [not] occurred] [[and] [or] an Issuer Call Event has [not] occurred], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_3(i) ; Min(Cap_Coupon_3(i) ; Bonus_Coupon_3(i) + Coupon_3(i) + Participation_Coupon_3(i) x (ReferenceFormula_Coupon_3(RVD(i)) – CouponStrike_3(i))))

Scenario 4:

If [on Valuation Date(i),] [ReferenceFormula_CouponBarrier_1(RVD(i)) is [higher] [lower] than [or equal to] CouponBarrier_1(i)] [[and] [or] ReferenceFormula_CouponBarrier_2(RVD(i)) is [lower] [higher] than [or equal to] CouponBarrier_2(i)] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] [[an European] [an American] [a Low Barrier] [a High Barrier] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Target] [a Memory] Knock-In] [a Lock-In] Event has [not] occurred] [[and] [or] an Issuer Call Event has [not] occurred], then:

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon_4(i) ; Min(Cap_Coupon_4(i) ; Bonus_Coupon_4(i) + Coupon_4(i) + Participation_Coupon_4(i) x (ReferenceFormula_Coupon_4(RVD(i)) – CouponStrike_4(i))))

3.3.18.3 **Automatic Early Redemption Amount**: Not Applicable

3.3.18.4 **Final Redemption Amount**:
The applicable Final Terms shall indicate in the clause "Reference of the Product", the Option applicable to such Product, selected amongst the Options described in Condition 3.3.0.1 above.

3.3.18.5 **Specific Definition(s)**:
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 and Conditions 3.3.0.4 to 3.3.0.7 above.

3.3.18.6 **Variable Data**:
CouponBarrier_1; CouponBarrier_2; Floor_Coupon_1; Cap_Coupon_1; Participation_Coupon_1; CouponStrike_1; Bonus_Coupon_1; Coupon_1; Floor_Coupon_2; Cap_Coupon_2; Participation_Coupon_2; CouponStrike_2; Bonus_Coupon_2; Coupon_2; Floor_Coupon_3; Cap_Coupon_3; Participation_Coupon_3; CouponStrike_3; Bonus_Coupon_3; Coupon_3; Floor_Coupon_4; Cap_Coupon_4; Participation_Coupon_4; CouponStrike_4; Bonus_Coupon_4; Coupon_4

and any Variable Data applicable depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.2 above.

These Variable Data are defined under Condition 5.4 herein.

3.3.18.7 **Reference Formula(e)**:
ReferenceFormula_CouponBarrier_1;ReferenceFormula_CouponBarrier_2; ReferenceFormula_Coupon_1; ReferenceFormula_Coupon_2; ReferenceFormula_Coupon_3; ReferenceFormula_Coupon_4

Among the Reference Formulae defined under Condition 4, the ones mainly used for these "Barrier" Products are (but without limitation):

Performance or LeveragePerformance (as defined under Condition 4.1 of the Family of "SimpleLevel")

WorstPerformance or LeverageWorstPerformance (as defined under Condition 4.6 of the Family of "WorstLevel")

BasketPerformance or AverageBasketPerformance (as defined under Condition 4.4 of the Family of Basket Performance")

IntradayMinTimePerformance or WorstIntradayMinTimePerformance (as defined under Condition 4.22 of the Family of "IntradayLevel")

The applicable Final Terms shall indicate, as the case may be, the Reference Formula(e) applicable to the Product depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.3 above.

3.3.19 *In-Line*

If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.19, the following applies:

3.3.19.1 **Product Description**:

- This Product does not pay any Structured Interest Amount.

- An Automatic Early Redemption Amount may be paid under this Product
  o If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 2 possible.
  o The occurrence of these scenarios depends upon the occurrence or not of a Low Barrier Knock-In Event and of a High Barrier Knock-In Event.
  o The Final Redemption Amount equals a predetermined value.

3.3.19.2 **Structured Interest Amount**: Not Applicable

3.3.19.3 **Automatic Early Redemption Amount**: Applicable
Automatic Early Redemption Amount(i) = Specified Denomination x Product Formula(i)
Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i)

3.3.19.4 **Final Redemption Amount**:

Scenario 1:
If a Low Barrier Knock-In Event has not occurred and a High Barrier Knock-In Event has not occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Bonus

Scenario 2:
If a Low Barrier Knock-In Event has occurred or a High Barrier Knock-In Event has occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2

3.3.19.5 **Specific Definition(s)**:
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions described in Conditions 3.3.0.4 to 3.3.0.7 above.

3.3.19.6 **Variable Data**:
ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; Bonus; ConstantRedemptionLevel_AERA; Coupon_AERA

These Variable Data are defined under Condition 5.4 herein.

3.3.19.7 **Reference Formula(e)**: Not Applicable

3.3.20 ***Reserved***

3.3.21 ***Sprint & Outperformance***
If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.21, the following applies:

3.3.21.1 Product Description:
- This Product does not pay any Structured Interest Amount.

- An Automatic Early Redemption Amount may be paid under this Product

If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 2 (or 3 depending upon the Option selected) possible.

The occurrence of these scenarios depends upon (i) the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product compared to a Barrier and (ii) (if applicable) whether or not a Low Barrier Knock-In Event occurs or a European Knock-In Event.

The Final Redemption Amount equals a predetermined value increased as the case may be by the value of the relevant ReferenceFormula, which may be subject to cap and/or with a leverage factor.

3.3.21.2 Structured Interest Amount: Not Applicable

3.3.21.3 Automatic Early Redemption Amount: Applicable

Automatic Early Redemption Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i)

3.3.21.4 Final Redemption Amount:

Scenario 1:
If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is [higher] [lower] than [or equal to] Barrier, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Min(Cap ; Participation_1 x (ReferenceFormula_Final_1(RVD(T)) – Strike_1))

Final Redemption Amount – Option A:

Scenario 2:
If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is [lower] [higher] than [or equal to] Barrier and a [Low Barrier Knock-In Event] [European Knock-In Event] has not occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2

Scenario 3:
If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is [lower] [higher] than [or equal to] Barrier and a [Low Barrier Knock-In Event] [European Knock-In Event] has occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_3 + Participation_2 x (ReferenceFormula_Final_2(RVD(T)) – Strike_2)

Final Redemption Amount – Option B:

Scenario 2:
If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is [lower] [higher] than [or equal to] Barrier, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Participation_2 x (ReferenceFormula_Final_2(RVD(T)) – Strike_2)

3.3.21.5 Specific Definition(s):
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 and Conditions 3.3.0.4 to 3.3.0.7 above.

3.3.21.6 Variable Data:
ConstantRedemptionLevel_AERA; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; ConstantRedemptionLevel_FRA_3; Coupon_AERA; Barrier; Strike_1; Strike_2; Participation_1; Participation_2; Cap

These Variable Data are defined under Condition 5.4 herein.

3.3.21.7 Reference Formula(e):
ReferenceFormula_Final; ReferenceFormula_Final_1; ReferenceFormula_Final_2

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

For Notes indexed on one Underlying:
Level (as defined under Condition 4.1 of the Family of "SimpleLevel")

For Notes indexed on more than one Underlying:
BasketLevel (as defined under Condition 4.3 of the Family of "Basket Level")
WorstLevel (as defined under Condition 4.6 of the Family of "WorstLevel")

3.3.22 *Reserved*

3.3.23 *Reverse Capped Bonus*
If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.23, the following applies:

3.3.23.1 Product Description:
- This Product does not pay any Structured Interest Amount.

- An Automatic Early Redemption Amount may be paid under this Product

If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 2 possible.

The occurrence of these scenarios is subject to the occurrence or not of a High Barrier Knock-In Event or a European Knock-In Event.

The Final Redemption Amount equals a predetermined value increased as the case may be by the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product, which may be subject to a floor and/or a cap and/or with a leverage factor.

3.3.23.2 Structured Interest Amount: Not Applicable

3.3.23.3 Automatic Early Redemption Amount: Applicable
Automatic Early Redemption Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i)

3.3.23.4 Final Redemption Amount:

Scenario 1:
If a [High Barrier Knock-In Event] [European Knock-In Event] has not occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Max(Bonus ; Min(Cap_1 ; Participation_1 x (Strike_1 - ReferenceFormula_Final_1(RVD(T)))))

Scenario 2:
If a [High Barrier Knock-In Event] [European Knock-In Event] has occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Max(Floor ; Min(Cap_2 ;
Participation_2 x (Strike_2 - ReferenceFormula_Final_2(RVD(T)))))

3.3.23.5 Specific Definition(s):
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 and Conditions 3.3.0.4 to 3.3.0.7 above.

3.3.23.6 Variable Data:
ConstantRedemptionLevel_AERA; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; Coupon_AERA; Bonus; Participation_1; Participation_2; Strike_1; Strike_2; Cap_1; Cap_2; Floor

These Variable Data are defined under Condition 5.4 herein.

3.3.23.7 Reference Formula(e):
ReferenceFormula_Final_1; ReferenceFormula_Final_2

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

For Notes indexed on one Underlying:
Level (as defined under Condition 4.1 of the Family of "SimpleLevel")

For Notes indexed on more than one Underlying:
BasketLevel (as defined under Condition 4.3 of the Family of "Basket Level")
BestLevel (as defined under Condition 4.5 of the Family of "BestLevel")

3.3.24 *Reserved*

3.3.25 *Reverse Sprint & Reverse Outperformance*
If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.25, the following applies:

3.3.25.1 Product Description:

- This Product does not pay any Structured Interest Amount

- An Automatic Early Redemption Amount may be paid under this Product.

o If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 2 (or 3 depending on the chosen Option) possible:

o The occurrence of these scenarios depends upon (i) the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to a Barrier and (ii) (if applicable) whether or not a HighBarrier Knock-In Event or a European Knock-In Event occurs.

o The Final Redemption Amount is equal, depending upon the scenario occurring, to a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or a cap and / or with a leverage factor

3.3.25.2 Structured Interest Amount: Not Applicable

3.3.25.3 Automatic Early Redemption Amount: Applicable

Automatic Early Redemption Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i)

3.3.25.4 Final Redemption Amount:

Scenario 1:
If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is [lower] [higher] than [or equal to] Barrier, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Min(Cap ; Participation_1 x (Strike_1 – ReferenceFormula_Final_1(RVD(T))))

Final Redemption Amount – Option A:

Scenario 2:
If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is [higher] [lower] than [or equal to] Barrier and a [High Barrier Knock-In Event] [European Knock-In Event] has not occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2

Scenario 3:
If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is [higher] [lower] than [or equal to] Barrier and a [High Barrier Knock-In Event] [European Knock-In Event] has occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_3 + Max(Floor ; Participation_2 x (Strike_2 – ReferenceFormula_Final_2(RVD(T))))

Final Redemption Amount – Option B:

Scenario 2:
If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is [higher] [lower] than [or equal to] Barrier, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Max(Floor ; Participation_2 x (Strike_2 – ReferenceFormula_Final_2(RVD(T))))

3.3.25.5 Specific Definition(s):
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 and Conditions 3.3.0.4 to 3.3.0.7 above.

3.3.25.6 Variable Data:
ConstantRedemptionLevel_AERA; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; ConstantRedemptionLevel_FRA_3; Coupon_AERA; Floor; Barrier; Strike_1; Strike_2; Participation_1; Participation_2; Cap

These Variable Data are defined under Condition 5.4 herein.

3.3.25.7 Reference Formula(e):
ReferenceFormula_Final; ReferenceFormula_Final_1; ReferenceFormula_Final_2

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

For Notes indexed on one Underlying:
Level (as defined under Condition 4.1 of the Family of "SimpleLevel")

For Notes indexed on more than one Underlying:
BasketLevel (as defined under Condition 4.3 of the Family of "Basket Level")
BestLevel (as defined under Condition 4.5 of the Family of "BestLevel")

3.3.26 *Reserved*

3.3.27 *Digital Range*
If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.27, the following applies:

3.3.27.1 Product Description:
-This Product does not pay any Structured Interest Amount.

- An Automatic Early Redemption Amount may be paid under this Product.

If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 5 possible:

The occurrence of these scenarios depends upon the occurrence or not of (i) a LowBarrier Knock-In Event and of (ii) a HighBarrier Knock-In Event and upon (iii) the date the HighBarrier Event occurs compared to the LowBarrier Event.

The Final Redemption Amount is equal, depending upon the scenario occurring, to a predetermined value increased as the case may be by the value of the ReferenceFormula considered and applied to the Underlying(s), which may be subject to a floor and / or a cap and / or with a leverage factor.

3.3.27.2 Structured Interest Amount: Not Applicable

3.3.27.3 Automatic Early Redemption Amount: Applicable

Automatic Early Redemption Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i)

3.3.27.4 Final Redemption Amount:

Scenario 1:
If a Low Barrier Knock-In Event has not occurred and a High Barrier Knock-In Event has not occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Bonus

Scenario 2:
If a Low Barrier Knock-In Event has occurred and a High Barrier Knock-In Event has not occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Min(UpCap_1 ; CallParticipation_1 x (ReferenceFormula_Final_1(RVD(T)) – StrikeCall_1))

Scenario 3:
If a Low Barrier Knock-In Event has occurred and a High Barrier Knock-In Event has occurred and the LowBarrierEventDate is before the HighBarrierEventDate, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_3 + Min(UpCap_2 ; CallParticipation_2 x (ReferenceFormula_Final_2(RVD(T)) – StrikeCall_2))

Scenario 4:

If a High Barrier Knock-In Event has occurred and a Low Barrier Knock-In Event has occurred and the HighBarrierEventDate is before the LowBarrierEventDate, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_4 + Min(DownCap_1 ; Max(Floor_1 ; PutParticipation_1 x (StrikePut_1 – ReferenceFormula_Final_3(RVD(T)))))

Scenario 5:
If a High Barrier Knock-In Event has occurred and a Low Barrier Knock-In Event has not occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_5 + Max(Floor ; PutParticipation_2 x (StrikePut_2 – ReferenceFormula_Final_4(RVD(T))))

3.3.27.5 Specific Definition(s):
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 and Conditions 3.3.0.4 to 3.3.0.7 above.

3.3.27.6 Variable Data:
ConstantRedemptionLevel_AERA; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; ConstantRedemptionLevel_FRA_3; ConstantRedemptionLevel_FRA_4; ConstantRedemptionLevel_FRA_5; Coupon_AERA; Bonus; UpCap_1; CallParticipation_1; StrikeCall_1; DownCap_1; Floor_1; PutParticipation_1; StrikePut_1; UpCap_2; CallParticipation_2; CallStrike_2; DownCap_2; Floor_2; PutParticipation_2; PutStrike_2

These Variable Data are defined under Condition 5.4 herein.

3.3.27.7 Reference Formula(e):
ReferenceFormula_Final_1; ReferenceFormula_Final_2; ReferenceFormula_Final_3; ReferenceFormula_Final_4

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

For Notes indexed on one Underlying:
Level (as defined under Condition 4.1 of the Family of "SimpleLevel")

For Notes indexed on more than one Underlying:
BasketLevel (as defined under Condition 4.3 of the Family of "Basket Level")
WorstLevel (as defined under Condition 4.6 of the Family of "WorstLevel")
BestLevel (as defined under Condition 4.5 of the Family of "BestLevel")

3.3.28 Range Coupon

If the applicable Final Terms specify that *"Reference of the Product"* is 3.3.28, the following applies:

3.3.28.1 Product Description:
- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the scenario occurring among the 2 possible.

The occurrence of these scenarios is subject to the occurrence or not of a LowBarrier Knock-In Event and of a HighBarrier Knock-In Event.

The Structured Interest Amount may be equal, depending upon the scenario occurring, to a predetermined value or to zero.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value.

3.3.28.2 Structured Interest Amount: Applicable

Scenario 1:
If a Low Barrier Knock-In Event(i) has not occurred and a High Barrier Knock-In Event(i) has not occurred, then:

Structured Interest Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = Coupon(i)

Scenario 2:
If a Low Barrier Knock-In Event(i) has occurred or a High Barrier Knock-In Event(i) has occurred, then:

Structured Interest Amount(i) = 0 (zero)

3.3.28.3 Automatic Early Redemption Amount: Not Applicable

3.3.28.4 Final Redemption Amount:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA

3.3.28.5 Specific Definition(s):
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Conditions 3.3.0.4 to 3.3.0.7 above.

3.3.28.6 Variable Data:
Coupon; ConstantRedemptionLevel_ FRA

These Variable Data are defined under Condition 5.4 herein.

3.3.28.7 Reference Formula(e): Not Applicable

3.3.29 *Reserved*

3.3.30 Equity Protection
If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.30, the following applies:

3.3.30.1 Product Description:
- This Product does not pay any Structured Interest Amount.

- An Automatic Early Redemption Amount may be paid under this Product.

If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 3 possible

The occurrence of these scenarios depends upon (i) the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to a Barrier and of (ii) whether or not a LowBarrier Knock-In Event occurs.

The Final Redemption Amount is equal, depending upon the scenario occurring, to a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or with a leverage factor.

3.3.30.2 Structured Interest Amount: Not Applicable

3.3.30.3 Automatic Early Redemption Amount: Applicable

Automatic Early Redemption Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i)

3.3.30.4 Final Redemption Amount:

Scenario 1:
If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is [higher] [lower] than [or equal to] Barrier, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Min(Cap ; Participation_1 x (ReferenceFormula_Final_1(RVD(T)) – Strike_1))

Scenario 2:
If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is [lower] [higher] than [or equal to] Barrier and a Low Barrier Knock-In Event has not occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Participation_2 x (ReferenceFormula_Final_2(RVD(T)) – Strike_2)

Scenario 3:
If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is [lower] [higher] than [or equal to] Barrier and a Low Barrier Knock-In Event has occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_3 + Floor

3.3.30.5 Specific Definition(s):
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 and Conditions 3.3.0.4 to 3.3.0.7 above.

3.3.30.6 Variable Data:
ConstantRedemptionLevel_AERA; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; ConstantRedemptionLevel_FRA_3; Cap; Coupon_AERA; Participation_1; Participation_2; Barrier; Strike_1; Strike_2; Floor

These Variable Data are defined under Condition 5.4 herein.

3.3.30.7 Reference Formula(e):
ReferenceFormula_Final; ReferenceFormula_Final_1; ReferenceFormula_Final_2

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

For Notes indexed on one Underlying:
Level (as defined under Condition 4.1 of the Family of "SimpleLevel")

For Notes indexed on more than one Underlying:
BasketLevel (as defined under Condition 4.3 of the Family of "Basket Level")
WorstLevel (as defined under Condition 4.6 of the Family of "WorstLevel")

3.3.31 *Reverse Equity Protection*
If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.31, the following applies:

3.3.31.1 Product Description:
- This Product does not pay any Structured Interest Amount.

- An Automatic Early Redemption Amount may be paid under this Product.
If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the 3 possible:

The occurrence of these scenarios depends upon (i) the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product and of its position compared to a Barrier and of (ii) whether or not a HighBarrier Knock-In Event occurs

The Final Redemption Amount is equal, depending upon the scenario occurring, to a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a cap and / or with a leverage factor

3.3.31.2 Structured Interest Amount: Not Applicable

3.3.31.3 Automatic Early Redemption Amount: Applicable

Automatic Early Redemption Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i)

3.3.31.4 Final Redemption Amount:

Scenario 1:
If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is [lower] [higher] than [or equal to] Barrier, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Min(Cap ; Participation_1 x (Strike_1 – ReferenceFormula_Final_1(RVD(T))))

Scenario 2:
If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is [higher] [lower] than [or equal to] Barrier and a High Barrier Knock-In Event has not occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Participation_2 x (Strike_2 – ReferenceFormula_Final_2(RVD(T)))

Scenario 3:
If on Valuation Date(T), ReferenceFormula_Final(RVD(T)) is [higher] [lower] than [or equal to] Barrier and a High Barrier Knock-In Event has occurred, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_3 + Floor

3.3.31.5 Specific Definition(s):
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 and Conditions 3.3.0.4 to 3.3.0.7 above.

3.3.31.6 Variable Data:
ConstantRedemptionLevel_AERA; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; ConstantRedemptionLevel_FRA_3; Cap; Coupon_AERA; Participation_1; Participation_2; Barrier; Strike_1; Strike_2; Floor

These Variable Data are defined under Condition 5.4 herein.

3.3.31.7 Reference Formula(e):
ReferenceFormula_Final; ReferenceFormula_Final_1; ReferenceFormula_Final_2

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

For Notes indexed on one Underlying:
Level (as defined under Condition 4.1 of the Family of "SimpleLevel")

For Notes indexed on more than one Underlying:
BasketLevel (as defined under Condition 4.3 of the Family of "Basket Level")
BestLevel (as defined under Condition 4.5 of the Family of "BestLevel")

3.3.32 *Range Accrual*
If the applicable Final Terms specify that "*Reference of the Product*" is 3.3.32, the following applies:

3.3.32.1 Product Description:

- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product.

- An Automatic Early Redemption Amount may be paid under this Product.
If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined on the basis of the applicable Option specified in the applicable Final Terms and chosen among the Options described in Condition 3.3.0.1 above.

3.3.32.2 Structured Interest Amount: Applicable

Structured Interest Amount (i) = Specified Denomination x Product Formula(i)

Product Formula(i) = Coupon(i) x ReferenceFormula_Coupon(RVD(i)) [x DayCountFraction]

3.3.32.3 Automatic Early Redemption Amount: Applicable

Automatic Early Redemption Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + Coupon_AERA(i)

3.3.32.4 Final Redemption Amount:
The applicable Final Terms shall indicate in the clause "*Reference of the Prod*uct", the Option applicable to such Product, selected amongst the Options described in Condition 3.3.0.1 above.

3.3.32.5 Specific Definition(s):
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 above.

3.3.32.6 Variable Data:
Coupon; DayCountFraction; ConstantRedemptionLevel_AERA; Coupon_AERA

And any Variable Data applicable to the Product depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.2 above.

These Variable Data are defined under Condition 5.4 herein.

3.3.32.7 Reference Formula(e):
ReferenceFormula_Coupon

Among the Reference Formulae defined under Condition 4, the ones mainly used for these "Barrier" Products are (but without limitation):

Performance or LeveragePerformance (as defined under Condition 4.1 of the Family of "SimpleLevel")

WorstPerformance or LeverageWorstPerformance (as defined under Condition 4.6 of the Family of "WorstLevel")

BasketPerformance or AverageBasketPerformance (as defined under Condition 4.4 of the Family of Basket Performance")

IntradayMinTimePerformance or WorstIntradayMinTimePerformance (as defined under Condition 4.22 of the Family of "IntradayLevel")

The applicable Final Terms shall indicate as the case may be, the additional Reference Formula(e) applicable to the Product depending on the Option applicable to such Product and pursuant to the table in Condition 3.3.0.3 above.

3.4 Reserved

3.5 FAMILY OF PRODUCTS "ACCUMULATOR AND CLIQUET"

Set out below, the list of Products of the Family of Products "Accumulator and Cliquet", the Reference of the Product of which is mentioned in the table below and will be indicated in the applicable Final Terms in the clause "*Reference of the Product*":

Reference of the Product	**Product**
3.5.1	Resettable Accumulator
3.5.2	Lock-In
3.5.3	Accumulative Best Entry
3.5.4	Best Entry

Description of how the value of the relevant Notes can be affected by the value of the Underlying(s)

The Family "Accumulator and Cliquet" comprises Products which provide exposure to the performance of an Underlying or a Basket or one or several Underlying(s) within a Basket, where the Product Amount(s) are determined based on an accumulation (either additive or multiplicative) of performances of the Underlying or Basket or one or several Underlying(s) within a Basket over several consecutive periods (performances being usually restriked at the beginning of each period). Performances of the Underlying or Basket or one or several Underlying(s) within a Basket can be weighted, leveraged, averaged, locked, floored and/or capped.

3.5.1 *Resettable Accumulator*
If the applicable Final Terms specify that "*Reference of the Product*" is 3.5.1, the following applies:

3.5.1.1 Product Description:
- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product, which may be subject to a floor and / or a cap and / or with a leverage factor.

- There is no Automatic Early Redemption under this Product.
Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value.

3.5.1.2 Structured Interest Amount: Applicable
Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor(i) ; Min(Cap(i) ; Participation(i) x (ReferenceFormula_Coupon(RVD(i)) – ReferenceFormula_Coupon(RVD(i-1)))))

With:
ReferenceFormula_Coupon(0) = 0 (zero)

3.5.1.3 Automatic Early Redemption Amount: Not Applicable

3.5.1.4 Final Redemption Amount:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel

3.5.1.5 Variable Data:

Floor; Cap; Participation; ConstantRedemptionLevel

These Variable Data are defined under Condition 5.4 herein.

3.5.1.6 Reference Formula(e):

ReferenceFormula_Coupon

Among the Reference Formulae defined under Condition 4, the one mainly used for these Products is (but without limitation):

SumTimeRestrikePerformance (as defined under Condition 4.17 of the Family of "Restrike Performance")

3.5.2 Lock-In

3.5.2.1 Product Description:
- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the value of the relevant ReferenceFormula applied to the Underlying(s) of the Product, which may be subject to a floor and / or a cap and / or with a leverage factor.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value.

3.5.2.2 Structured Interest Amount: Applicable

Structured Interest Amount(i) = Max(Floor(i) ; Min(Cap(i) ; Specified Denomination × Participation_Coupon x LockedCoupon(i) – SumCoupons[Paid](i-1)))

3.5.2.3 Automatic Early Redemption Amount: Not Applicable

3.5.2.4 Final Redemption Amount:

Scenario 1:
If on Valuation Date(T), ReferenceFormula_ FinalBarrier(RVD(T)) is [higher] [lower] than [or equal to] FinalBarrier, then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Max(FinalFloor_1 ; FinalParticipation_1 x Max(LockedCoupon(T); ReferenceFormula_Final_1(RVD(T))) – Participation x SumCoupons[Paid](T-1))

Scenario 2:

If on Valuation Date(T), ReferenceFormula_FinalBarrier(RVD(T)) is [lower] [higher] than [or equal to] FinalBarrier, then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2

3.5.2.5 Specific Definitions:

The applicable Final Terms shall indicate, as the case may be, one or more definitions mentioned below if relevant :

LockedCoupon(i[, Strike]) means LockinValue(i[, Strike]) x Lockin Level

LockinValue(i[, Strike]) means INT(ReferenceFormula_LockIn(i[, Strike]) / Lockin Level)

SumCoupons[Paid](i-1) means SumCoupons[Paid](i-1) = SumCoupons[Paid](i-2) + Structured Interest Amount(i-1)
With
SumCoupons[Paid](0) = 0] or [SumCoupons[Paid](t1) = SumCoupons_t1]

3.5.2.6 Variable Data:

Floor; Cap; Participation_Coupon; Participation; FinalFloor; FinalBarrier; FinalParticipation; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; Lockin_Level

These Variable Data are defined under Condition 5.4 herein.

3.5.2.7 Reference Formula(e):

ReferenceFormula_ FinalBarrier, ReferenceFormula_LockIn

Among the Reference Formulae defined under Condition 4, the one mainly used for these Products is (but without limitation):

Level (as defined under Condition 4.1 of the Family of "SimpleLevel")
Performance (as defined under Condition 4.1 of the Family of "SimpleLevel")
BasketLevel *(as defined under Condition 4.3 of the Family of "BasketLevel")*
BasketPerformance (as defined under Condition 4.4 of the Family of "BasketPerformance")
WorstPerformance (as defined under Condition 4.6 of the Family of "WorstLevel")
*MaxTimePerformance(i) (as defined under Condition 4.9 of the Family of "*TimeLevel*")*

3.5.3 Accumulative Best Entry
If the applicable Final Terms specify that "*Reference of the Product*" is 3.5.3, the following applies:

3.5.3.1 Product Description:
- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the sum of each weighted value of the Coupon, which may be subject to a floor and/or a cap.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equals to a predetermined value increased as the case may be by the value of the weighted average of the relevant ReferenceFormula applied to the Underlying(s) of the Product, which may be subject to a floor and / or a cap.

3.5.3.2 Structured Interest Amount: Applicable

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon(i) ; Min(Cap_Coupon(i) ; Coupon(i) x Sum (for t from t1 to t2) Weight_Coupon(t) x Act(t3,t4)/360))

3.5.3.3 Automatic Early Redemption Amount: Not Applicable

3.5.3.4 Final Redemption Amount:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA + Weight_Coupon(RVD(T)) + Max(FinalFloor ; Min(FinalCap ; Weight_1 x ReferenceFormula_Final(RVD(T)) / ReferenceFormula_Final(t0) + Sum (for i from 1 to RVD(T))(n from 1 to LockNumber) (Weight(i, n) x ReferenceFormula_Final(RVD(t)) / ReferenceFormula_Final(i))))

3.5.3.5 Specific Definitions:

The applicable Final Terms shall indicate, as the case may be, one or more definitions mentioned below if relevant :

Lock-In Event(n) is deemed to have occurred, as determined by the Calculation Agent, if on Reference Date(s)(t), [ReferenceFormula_Lock-In(t)] [the Closing of the Underlying] is [higher] [lower] than [or equal to] the LockInBarrier_1(n) [[and][or] [ReferenceFormula_Lock-In(t)] [the Closing of the Underlying] is [higher] [lower] than [or equal to] the LockInBarrier_2(n)].

Weight_Coupon(i) means :
For i = y1, Weight_Coupon(i) = Initial_Cash
For i from (y1+1) to y2, Weight_Coupon(i) = Max(0%; Initial_Cash – Sum(j from 1 to i-1)(n from 1 to LockNumber) [Weight(j, n)])

Weight(i, n) means :
If on Valuation Date(i), Lock-In Event(n) has occurred:
Weight(i, n) = Min(Weight(n), Weight_Coupon(i))

If on Valuation Date(i), Lock-In Event(n) has not occurred :
Weight(i, n) = 0%

Definitions relating to date(s)

For the purpose of this section, unless specified otherwise in the applicable Final Terms:

Reference Date(s)(t) means:

- [Valuation Date(i)] or

- [Daily Valuation Date(i)] or
- [the date(t) as defined in the applicable Final Terms]

3.5.3.6 Variable Data:

Floor_Coupon; Cap_Coupon; Coupon; LockNumber; Weight_Coupon; Initial_Cash; ConstantRedemptionLevel_FRA ; FinalFloor; FinalCap; Weight_1; Weight; FinalBarrier; LockInBarrier_1; LockInBarrier_2.

These Variable Data are defined under Condition 5.4 herein.

3.5.3.7 Reference Formula(e):
ReferenceFormula_Final; ReferenceFormula_Lock-In

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

For Notes indexed on one Underlying:
Level (as defined under Condition 4.1 of the Family of "SimpleLevel")
Price (as defined under Condition 4.1 of the Family of "SimpleLevel")

For Notes indexed on more than one Underlying:
BasketLevel (as defined under Condition 4.3 of the Family of "Basket Level")

3.5.4 *Best Entry*
If the applicable Final Terms specify that "*Reference of the Product*" is 3.5.4, the following applies:

3.5.4.1 Product Description:
- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends upon the sum of each weighted value of BestEntryPeriod, which may be subject to a floor and/or a cap.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount which depends upon the scenario occurring among the only 1 (or 2 depending upon the Option selected) possible.

When relevant, the occurrence of these scenarios depends upon the value of the weighted average of the relevant ReferenceFormula applied to the Underlying(s) of the Product and the sum of each value of BestEntryLevel, compared to a Barrier.

The Final Redemption Amount equals a predetermined value increased as the case may be by the value of the weighted average of the relevant ReferenceFormula applied to the Underlying(s) of the Product and the sum of each value of BestEntryLevel, which may be subject to a floor and / or a cap.

3.5.4.2 Structured Interest Amount: Applicable

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor_Coupon(i) ; Min(Cap_Coupon(i) ; Coupon(i) x [Sum (for n from 1 to LockNumber)] Weight_Coupon(n) x BestEntryPeriod(n,i)/TimeBasis))

3.5.4.3 Automatic Early Redemption Amount: Not Applicable

3.5.4.4 Final Redemption Amount:

Final Redemption Amount – Option A: Certificate

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA + Max(FinalFloor ; Min(FinalCap ; Weight_1 x ReferenceFormula_Final(RVD(T)) + [Sum (for n from 1 to LockNumber)] Weight 2(n) x BestEntry[Basket]Level(n, RVD(T))))

Final Redemption Amount – Option B: Simplified Best Entry

Scenario 1:
If on Valuation Date(T), the Lock-In Event(n) has not occurred, then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Max(FinalFloor_1 ; Min(FinalCap_1 ; Weight_1 x ReferenceFormula_Final(RVD(T))))

Scenario 2:

If on Valuation Date(T), the Lock-In Event(n) has occurred, then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Max(FinalFloor_2 ; Min(FinalCap_2 ; BestEntry[Basket]Level(n, RVD(T))))

Final Redemption Amount – Option C: Digital

Scenario 1:

If on Valuation Date(T), Weight_1 x ReferenceFormula_Final(RVD(T)) + [Sum (for n from 1 to LockNumber)] Weight_2(n) x BestEntry[Basket]Level(n, RVD(T)) is [higher] [lower] than [or equal to] FinalBarrier, then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Max(FinalFloor_1 ; Min(FinalCap_1 ; Weight_1 x ReferenceFormula_Final(RVD(T)) + [Sum (for n from 1 to LockNumber)] Weight_2(n) x BestEntry[Basket]Level(n, RVD(T))))

Scenario 2:

If on Valuation Date(T), Weight_1 x ReferenceFormula_Final(RVD(T)) + [Sum (for n from 1 to LockNumber)] Weight_2(n) x BestEntry[Basket]Level(n) is [higher] [lower] than [or equal to] FinalBarrier, then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2 + Max(FinalFloor_2 ; Min(FinalCap_2 ; Weight_1 x ReferenceFormula_Final(RVD(T)) + [Sum (for n from 1 to LockNumber)] Weight_2(n) x BestEntry[Basket]Level(n, RVD(T))))

3.5.4.5 Specific Definitions:

The applicable Final Terms shall indicate, as the case may be, one or more definitions mentioned below if relevant :

BestEntryPeriod(n,i) means, in respect of [each] [the] Lock-In Event(n):

- if Lock-In Valuation Date(n) falls before Schedule(i), then BestEntryPeriod(n,i) is equal to 0 (zero);

- if Lock-In Valuation Date(n) falls within Schedule(i), then BestEntryPeriod(n,i) is equal to the number of calendar days from and excluding:
  (i) the later of the Valuation Date(i-1) and Lock-In Valuation Date(n-1) to and including
  (ii) the Lock-In Valuation Date(n);

- if Lock-In Valuation Date(n) falls after Schedule(i) or Lock In Event(n) has not occurred, then:
  a) if Lock-In Valuation Date(n-1) falls before or within Schedule(i), then BestEntryPeriod(n,i) is equal to the number of calendar days from and excluding
  (i) the later of the Valuation Date(i-1) and Lock-In Valuation Date(n-1) to and including
  (ii) the Valuation Date(i)
  b) if Lock-In Valuation Date(n-1) falls after Schedule(i) or Lock In Event(n-1) has not occurred, then BestEntryPeriod(n,i) is equal to 0 (zero).

[Lock-In Event(0) is deemed to have occurred on Valuation Date(0)]

Lock-In Event(n) is deemed to have occurred, as determined by the Calculation Agent, if on any Reference Date(s)(t), for the first time, [ReferenceFormula_Lock-In(t)] [the Closing of the Underlying] is [higher] [lower] than [or equal to] the LockInBarrier(n).

[*Option A: Mono-Underlying*

BestEntryLevel(n, i) means, in respect of [each] [the] Lock-In Event(n):
- if Lock-In Event(n) has occurred:
BestEntryLevel(n, i) = S(i) / BestEntryStrike(n).
- If Lock-In Event(n) has not occurred:
BestEntryLevel(n, i) = 100%.

BestEntryStrike(n) means, [in respect of [each] [the] Lock-In Event(n) which has occurred, the Minimum of the Closing Prices of the Underlying observed on each Daily Valuation Date(i) from and excluding the Valuation Date(i) immediately preceding the Lock-In Valuation Date(n) to and including the Lock-In Valuation Date(n)] [the Closing Price of the Underlying on Reference Date(s)(t0)] [LockInBarrier(n)] [LockInBarrier(n) x S(0)].**]**

[*Option B: Multi-Underlyings*

BestEntryBasketLevel(n, i) means the Sum, for k from 1 to N, of the Product of W(i, k) and BestEntryLevel(n, i, k).

BestEntryLevel(n, i, k) means, in respect of [each][the] Lock-In Event(n):

- If Lock-In Event(n) has occurred:
BestEntryLevel(n, i, k) = S(i, k) / BestEntryStrike(n, k)
- If Lock-In Event(n) has not occurred:
BestEntryLevel(n, i, k) = 100%.

BestEntryStrike(n, k) means, in [respect of [each] [the] Lock-In Event(n) which has occurred, the Closing Price of the Underlying(k) observed on the specific Daily Valuation Date(i) on which ReferenceFormula_Lock-In(RVD(i)) reached its [lowest][highest] level from and excluding the Valuation Date(i) immediately preceding the Lock-In Valuation Date(n) to and including the Lock-In Valuation Date(n).] [the Closing Price of the Underlying(k) on Reference Date(s)(t0)] [LockInBarrier(n)] [LockInBarrier(n) x S(0,k)].**]**

Definitions relating to date(s)

For the purpose of this section, unless specified otherwise in the applicable Final Terms:

Lock-In Valuation Date(n) means, in respect of [each] [the] Lock-In Event(n), the specific Reference Date(s)(t) on which such Lock-In Event(n) has occurred.

Reference Date(s)(t) means:

- [Valuation Date(i)] or
- [Daily Valuation Date(i)] or
- [the date(t) as defined in the applicable Final Terms]

Reference Date(s)(t0) means:

- [Valuation Date(t0)] or
- [Lock-In Valuation Date(n)] or
- [the date(t0) as defined in the applicable Final Terms]

3.5.4.6 Variable Data:

Floor_Coupon; Cap_Coupon; Coupon; LockNumber; Weight_Coupon; ConstantRedemptionLevel_FRA ; FinalFloor; FinalCap; Weight_1; Weight_2; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; FinalFloor_1; FinalFloor_2; FinalCap _1; FinalCap_2; FinalBarrier; LockInBarrier.

These Variable Data are defined under Condition 5.4 herein.

3.5.4.7 Reference Formula(e):
ReferenceFormula_Final; ReferenceFormula_Lock-In

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

For Notes indexed on one Underlying:
Level (as defined under Condition 4.1 of the Family of "SimpleLevel")

For Notes indexed on more than one Underlying:
BasketLevel (as defined under Condition 4.3 of the Family of "Basket Level")
WorstLevel (as defined under Condition 4.6 of the Family of "WorstLevel")

S(i) is defined under Condition 4.0 relating to the definition of S, SI and FXRate.

3.6 FAMILY OF PRODUCTS "MULTI-UNDERLYING"
Set out below the list of Products of the Family of Products "Multi-Underlying", the Reference of the Product of which is mentioned in the table below and will be indicated in the applicable Final Terms in the clause "*Reference of the Product*":

Reference of the Product	**Product**
3.6.1	Reserved
3.6.2	Reserved
3.6.3	Palladium
3.6.4	Reserved

3.6.5	Reserved

Description of how the value of the relevant Notes can be affected by the value of the Underlying(s)

The Family "MULTI-UNDERLYING" comprises Products which provide exposure to the positive or negative performance of several Underlyings composing the Basket, where the Product Amount(s) is(are) are determined based on the individual performance or level of each Underlying, provided that this individual performance or level can be weighted, leveraged, averaged, locked, floored and/or capped. Composition of the Basket can be altered over time depending on the individual performance or level of the Underlyings. Performance of the Underlyings or Basket or one or several Underlying(s) within a Basket can be weighted, leveraged, averaged, locked, floored and/or capped.

3.6.1 Reserved
3.6.2 Reserved
3.6.3 *Palladium*
If the applicable Final Terms specify that "*Reference of the Product*" is 3.6.3, the following applies:

3.6.3.1 Product Description:
- This Product does not pay any Structured Interest Amount.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value increased as the case may be by the value of the Palladium Level, which may be subject to a floor and / or a cap and / or with a leverage factor.

3.6.3.2 Structured Interest Amount: Not Applicable

3.6.3.3 Automatic Early Redemption Amount: Not Applicable

3.6.3.4 Final Redemption Amount:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel + Min(Cap ; Max(Floor ; LeverageFactor x (PalladiumLevel(RVD(T)) – Strike)))

3.6.3.5 Specific Definition(s):
PalladiumLevel(i) = (1/N) x Sum(for k from 1 to N) [ABS(Level(i,k) – (1/N) x Sum(for s from 1 to N) Level(i,s))]

3.6.3.6 Reference Formula(e):
The Reference Formula defined under Condition 4 and used for these Products is:
Level

3.6.3.7 Variable Data:
ConstantRedemptionLevel; Cap; Floor; LeverageFactor; Strike

These Variable Data are defined under Condition 5.4 herein.
3.6.4 Reserved

3.6.5 Reserved
3.7 FAMILY OF PRODUCTS "VOLATILITY"

Set out below the list of Products of the Family of Products "Volatility", the Reference of the Product of which is mentioned in the table below and will be indicated in the applicable Final Terms in the clause "*Reference of the Product*":

Reference of the Product	Product
3.7.1	Variance European Options
3.7.2	Reserved
3.7.3	Reserved
3.7.4	Volatility European Options
3.7.5	Volatility Target Strategy

3.7.6	Reserved
3.7.7	Sharpe Ratio & Restriked Sharpe Ratio
3.7.8	Reserved
3.7.9	CMS Sharpe Ratio & Restriked CMS Sharpe Ratio
3.7.10	Reserved
3.7.11	Reserved

Description of how the value of the Notes can be affected by the value of the Underlying(s)

The Family "VOLATILITY" comprises Products which provide exposure to the positive or negative performance of the historical variance or historical volatility of an Underlying or a Basket or one or several Underlying(s) within a Basket. Variance and volatility are measures of the dispersion of Underlying(s) returns. The Product Amount(s) are determined based on (a) performance or level of the Underlying or Basket or one or several Underlying(s) within a Basket, and / or (b) historical variance or historical volatility of the Underlying or Basket and / or (c) additional parameters (if relevant). Performance or level or historical variance or historical volatility of the Underlying or Basket can be weighted, leveraged, averaged, locked, floored and/or capped.

3.7.1 ***Variance European Options***
If the applicable Final Terms specify that "*Reference of the Product*" is 3.7.1, the following applies:

3.7.1.1 Product Description:
- This Product does not pay any Structured Interest Amount.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the two possible and the Option selected:

If the Historical Variance ReferenceFormula considered is [higher] [lower] [or equal] to a Strike, the Final Redemption Amount equals a predetermined value increased as the case may be the value of the Historical Variance ReferenceFormula, which may be subject to a leverage factor.

Otherwise, the Final Redemption Amount equals a predetermined value.

3.7.1.2 Structured Interest Amount: Not Applicable

3.7.1.3 Automatic Early Redemption Amount: Not Applicable

3.7.1.4 Final Redemption Amount:

Final Redemption Amount – Option A: Variance Call

Scenario 1:
If on Valuation Date(T), HistoricalVarianceLevel(T, DetrendFactor) is higher than [or equal to] Strike, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_1 + Participation x (HistoricalVarianceLevel(T, DetrendFactor) - FinalStrike)

Scenario 2:
If on Valuation Date(T), HistoricalVarianceLevel(T, DetrendFactor) is lower than [or equal to] Strike, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_2

Final Redemption Amount – Option B: Variance Put

Scenario 1:
If on Valuation Date(T), HistoricalVarianceLevel(T, DetrendFactor) is lower than [or equal to] Strike, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_1 + Participation x (FinalStrike - HistoricalVarianceLevel(T, DetrendFactor))

Scenario 2:
If on Valuation Date(T), HistoricalVarianceLevel(T, DetrendFactor) is higher than [or equal to] Strike, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_2

Final Redemption Amount – Option C: Variance Digit

Scenario 1:
If on Valuation Date(T), HistoricalVarianceLevel(T, DetrendFactor) is higher than [or equal to] Strike, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_1

Scenario 2:
If on Valuation Date(T), HistoricalVarianceLevel(T, DetrendFactor) is lower than [or equal to] Strike, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_2

3.7.1.5 Variable Data:
ConstantRedemptionLevel_1; ConstantRedemptionLevel_2; DetrendFactorParticipation; Strike; FinalStrike

These Variable Data are defined under Condition 5.4 herein.

3.7.1.6 Reference Formula(e):
HistoricalVarianceLevel is defined under Condition 4.23 of the Family of "VolatilityLevel".

3.7.2 Reserved
3.7.3 Reserved
3.7.4 Volatility European Options
If the applicable Final Terms specify that "*Reference of the Product*" is 3.7.4, the following applies:

3.7.4.1 Product Description:
- This Product does not pay any Structured Interest Amount

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends upon the scenario occurring among the two possible and the Option selected:

If the Volatility ReferenceFormula considered is [higher] [lower] [or equal] to a Strike, the Final Redemption Amount equals a predetermined value increased as the case may be the value of the Volatility ReferenceFormula, which may be subject to a leverage factor.

Otherwise, the Final Redemption Amount equals a predetermined value.

3.7.4.2 Structured Interest Amount: Not Applicable

3.7.4.3 Automatic Early Redemption Amount: Not Applicable

3.7.4.4 Final Redemption Amount:

Final Redemption Amount – Option A: Volatility Call

Scenario 1:
If on Valuation Date(T), ReferenceFormula_VolatilityFinal(RVD(T)) is higher than [or equal to] Strike, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel + Participation x (ReferenceFormula_VolatilityFinal(RVD(T)) – FinalStrike)

Scenario 2:
If on Valuation Date(T), ReferenceFormula_VolatilityFinal(RVD(T)) is lower than [or equal to] Strike, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel

Final Redemption Amount – Option B:Volatility Put

Scenario 1:
If on Valuation Date(T), ReferenceFormula_VolatilityFinal(RVD(T)) is lower than [or equal to] Strike, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel + Participation x (FinalStrike - ReferenceFormula_VolatilityFinal(RVD(T)))

Scenario 2:
If on Valuation Date(T), ReferenceFormula_VolatilityFinal(RVD(T)) is higher than [or equal to] Strike, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel

Final Redemption Amount – Option C: Volatility Digit

Scenario 1:
If on Valuation Date(T), HistoricalVolatilityLevel(i, DetrendFactor, AnnualObservationNumber) is higher than [or equal to] Barrier, then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + Coupon

Scenario 2:
If on Valuation Date(T), HistoricalVolatilityLevel(i, DetrendFactor, AnnualObservationNumber) is lower than [or equal to] Barrier then:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2

3.7.4.5 Variable Data:
ConstantRedemptionLevel; Participation; Strike; FinalStrike

These Variable Data are defined under Condition 5.4 herein.

3.7.4.6 Reference Formula(e):
ReferenceFormula_VolatilityFinal

Among the Reference Formulae defined under Condition 4, the ones used for these Products are:

HistoricalVolatilityLevel and RestrikeHistoricalVolatilityLevel (as defined under Condition 4.23 of the Family of "VolatilityLevel")

3.7.5 Volatility Target Strategy

If the applicable Final Terms specify that "*Reference of the Product*" is 3.7.5, the following applies:

3.7.5.1 Product Description:

- This Product does not pay any Structured Interest Amount

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value increased as the case may be by the value of the ReferenceFormula considered, which may be subject to a floor and / or a cap and / or with a leverage factor.

3.7.5.2 Structured Interest Amount: Not Applicable

3.7.5.3 Automatic Early Redemption Amount: Not Applicable

3.7.5.4 Final Redemption Amount:

Final Redemption Amount – Option A: Target Volatility

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel + Max(Floor; Min(Cap; Participation x (ReferenceFormula_VolatilityStrategyFinal(RVD(T)) – FinalStrike)))

Final Redemption Amount – Option B: Locked Coupon Target Volatility

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel + Max(Floor; Min(Cap; Participation x Max(LockedCoupon; (AverageTimeVolatilityStrategyPerformance(RVD(T)) – Strike))))

3.7.5.5 Specific Definitions:

The applicable Final Terms shall indicate, as the case may be, one or more definitions mentioned below if relevant :

AverageTimeVolatilityStrategy(t1,t2), means the Arithmetic Average, for i from t1 to t2 of the VolatilityStrategy(i).
For the avoidance of doubt, t1, t2 could be renamed j1, j2 or Schedule or Schedule(i) and will refer to any date relating to a Valuation Date, a Relevant Valuation Date or an Averaging Date.

AverageTimeVolatilityStrategyPerformance(t1,t2) means AverageTimeVolatilityStrategy(t1,t2)/ StrikeVolatilityStrategy.

For the avoidance of doubt, t1, t2 could be renamed j1, j2 or Schedule or Schedule(i) and will refer to any date relating to a Valuation Date, a Relevant Valuation Date or an Averaging Date.

CashReturn(i) means Rate(i-1)×Act(i−1,i)/TimeBasis

DynamicLeverage(i) means Min(Leverage_Cap; Target_Volatility/ LeveragedVolatility(i-Lag))

ExcessReturn(i) means TotalReturn(i) – CashReturn(i)

LeveragedVolatility(i) means [Realized_Volatility(i, RVP)] *or* [Max(Realized_Volatility(i, RVP_1);Realized_Volatility(i, RVP_2))], as specified in the applicable Final Terms

LockedPayout means INT(MaxTimeVolatilityStrategyPerformance(t1,t2)/LockInLevel) x LockInLevel

MaxTimeVolatilityStrategyPerformance(t1,t2), means the maximum, for i from t1 to t2, of VolatilityStrategyPerformance(i).
For the avoidance of doubt, t1, t2 could be renamed to j1, j2 or Schedule or Schedule(i) and will refer to any date relating to a Valuation Date, Relevant Valuation Date or an Averaging Date.

Rate(i) means a rate (usually overnight), specified in the applicable Final Terms, which is used to determine CashReturn(i)

Realized Volatility(i, RVP) means [((AF / VD(i)) x (Sum(t from i – RVP + 1 to i) ((LN(1 + VolReturn(t)))^2))) ^(0.5)] ***or*** [((AF / VD(i)) x (Sum(t from i – RVP + 1 to i) ((LN(1 + VolReturn(t)))^2) – (1/RVP) x (Sum(t from i – RVP + 1 to i) (LN(1 + VolReturn(t))))^2)) ^(0.5)], as specified in the applicable Final Terms.

Return(i), means [ExcessReturn(i)] *or* [TotalReturn(i)], as specified in the applicable Final Terms

StrikeVolatilityStrategy, means [VolatilityStrategy(0)] *or* [AverageTimeVolatilityStrategy(t1,t2)], as specified in the applicable Final Terms.
For the avoidance of doubt, t1, t2 could be renamed to j1, j2 or Schedule or Schedule(i) and will refer to any date relating to a Valuation Date, Relevant Valuation Date or an Averaging Date.

TotalReturn(i) means [(BasketRestrikeLevel(i) – 100%)] *or* [RestrikeLevel(i) – 100%], as specified in the applicable Final Terms.

VolDenominator(i) (or VD(i)) means [Act(i – RVP,i)] *or* [RVP] *or* (RVP-1)], as specified in the applicable Final Terms

VolatilityStrategy(i) means [VolatilityStrategy(i-1) x (1 + DynamicLeverage(i-1) x Return(i) + ((1 – DynamicLeverage(i-1)) x CashReturn(i))) - [SD x Act(i-1,i) / 365])] *or* [VolatilityStrategy(i-1) x (1 + DynamicLeverage(i-1) x Return(i) - [SD x Act(i-1,i) / 365])], as specified in the applicable Final Terms.
Where **VolatilityStrategy(0)** = ConstantVolatilityStrategy_0

VolatilityStrategyPerformance(i) means VolatilityStrategy(i)/StrikeVolatilityStrategy

VolReturn(i) means [ExcessReturn(i)] *or* [TotalReturn(i)], as specified in the applicable Final Terms

3.7.5.6 Variable Data:

AF, Cap, ConstantRedemptionLevel, ConstantVolatilityStrategy_0, Floor, Lag, Leverage_Cap, LockInLevel, Participation, RVP, SD, Strike, Target_Volatility.

These Variable Data are defined under Condition 5.4 herein.

3.7.5.7 Reference Formula(e):

RestrikeLevel (as defined under Condition 4.17 of the Family of "RestrikePerformance"
BasketRestrikeLevel (as defined under Condition 4.17 of the Family of "RestrikePerformance"
3.7.6 Reserved
3.7.7 *Sharpe Ratio & Restriked Sharpe Ratio*
If the applicable Final Terms specify that "*Reference of the Product*" is 3.7.7, the following applies:

3.7.7.1 Product Description:
- Unless previously redeemed, this Product pays a Structured Interest Amount equal to the value of the [Sharpe Ratio] [Restriked Sharpe Ratio] considered and applied to the Underlying(s) which may be subject to a floor and/or a cap and/or with a leverage factor.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value.

3.7.7.2 Structured Interest Amount: Applicable

Structured Interest Amount – Option A: Sharpe Ratio

Structured Interest Amount (i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor(i) ; Min(Cap(i) ; Participation(i) x SharpeRatio(i)))

Structured Interest Amount – Option B: Restriked Sharpe Ratio

Structured Interest Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor(i) ; Min(Cap(i) ; Participation(i) x RestrikedSharpeRatio(i)))]

3.7.7.3 Automatic Early Redemption Amount: Not Applicable

3.7.7.4 Final Redemption Amount:
Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel

3.7.7.5 Specific Definition(s):
SharpeRatio(i) = Max(0 ; ReferenceFormula_Coupon(RVD(i)) – ReferenceFormula_StrikeCoupon(RVD(i))) / Max(VolFloor ; ReferenceFormula_VolatilityCoupon(RVD(i)))

RestrikedSharpeRatio(i) = Max(0 ; ReferenceFormula_Coupon(RVD(i)) / ReferenceFormula_Coupon(RVD(i-1)) – ReferenceFormula_StrikeCoupon(RVD(i)) / ReferenceFormula_StrikeCoupon(RVD(i-1))) / Max(VolFloor ; ReferenceFormula_VolatilityCoupon(RVD(i)))

With:
VolFloor means the minimum percentage that can be reached by the realized volatility of the element to which it is applied.

3.7.7.6 Variable Data:
Floor; Cap; Participation; ConstantRedemptionLevel

These Variable Data are defined under Condition 5.4 herein.
VolFloor

This Variable Data is defined under Condition 3.7.7.4 herein.

3.7.7.7 Reference Formula(e):
ReferenceFormula_Coupon; ReferenceFormula_StrikeCoupon; ReferenceFormula_VolatilityCoupon

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

Level (as defined under Condition 4.1 of the Family of "Simple Level")
HistoricalVolatilityLevel (as defined under Condition 4.23 of the Family of "VolatilityLevel"
RestrikeHistoricalVolatilityLevel (as defined under Condition 4.23 of the Family of " VolatilityLevel")
CapiReferenceLevel (as defined under Condition 4.25 of the Family of "Reference Fixings")
3.7.8 Reserved
3.7.9 CMS Sharpe Ratio
If the applicable Final Terms specify that "*Reference of the Product*" is 3.7.9, the following applies:

3.7.9.1 Product Description:

- Unless previously redeemed, this Product pays a Structured Interest Amount depending upon the values of a Rate ReferenceFormula and of the [Sharpe Ratio] [Restriked Sharpe Ratio] considered.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value.

3.7.9.2 Structured Interest Amount: Applicable

Structured Interest Amount – Option A: CMS SharpeRatio

Structured Interest Amount (i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor(i) ; Min(Cap(i) ; ReferenceFormula_RateCMS(RVD(i)) + SpreadCMS(RVD(i)))) x Participation(i) x SharpeRatio(i)

Structured Interest Amount – Option B: Restriked CMS SharpeRatio

Structured Interest Amount (i) = Specified Denomination × Product Formula(i)

Product Formula(i) = Max(Floor(i) ; Min(Cap(i) ; ReferenceFormula_RateCMS(RVD(i)) + SpreadCMS(RVD(i)))) x Participation(i) x RestrikedSharpeRatio(i)

With:
SpreadCMS means the spread, expressed in percentage, to be added to the ReferenceFormula_RateCMS.

3.7.9.3 Automatic Early Redemption Amount: Not Applicable

3.7.9.4 Final Redemption Amount:
Final Redemption Amount = Specified Denomination x Product Formula(T)
Product Formula(T) = ConstantRedemptionLevel

3.7.9.5 Specific Definition(s):
SharpeRatio(i) = Max(0 ; ReferenceFormula_Coupon(RVD(i)) – ReferenceFormula_StrikeCoupon(RVD(i))) / Max(VolFloor ; ReferenceFormula_VolatilityCoupon(RVD(i)))

RestrikedSharpeRatio(i) = Max(0 ; ReferenceFormula_Coupon(RVD(i)) / ReferenceFormula_Coupon(RVD(i-1)) – ReferenceFormula_StrikeCoupon(RVD(i)) / ReferenceFormula_StrikeCoupon(RVD(i-1))) / Max(VolFloor ; ReferenceFormula_VolatilityCoupon(RVD(i)))

With:
VolFloor means the minimum percentage that can be reached by the realized volatility of the element to which it is applied.

3.7.9.6 Variable Data:

3.9 FAMILY OF PRODUCTS "RATE"

Set out below the list of Products of the Family of Products "Rate", the Reference of the Product of which is mentioned in the table below and will be indicated in the applicable Final Terms in the clause "*Reference of the Product*".

Reference of the Product	**Product**
3.9.1	Structured Floating Rate Notes
3.9.2	Corridor
3.9.3	Ratchet Corridor
3.9.4	Constant Maturity Forward

Description of how the value of the relevant Notes can be affected by the value of the Underlying(s)

The Family "RATE**"** comprises Products commonly used to provide exposure to Reference Rate or Inflation Index, provided that other Family of Products may be indexed to Reference Rate or Inflation Index.

3.9.0 ***Generic descriptions for Rate Products***

3.9.0.1 Upper Bound Trigger Event

a) Description:
Upper Bound Trigger Event is deemed to have occurred, as determined by the Calculation Agent, if on a Valuation Date(i), ReferenceFormula_Autocall(i) is higher than [or equal to] AutocallBarrierUpperBound(i).

b) Variable Data:
AutocallBarrierUpperBound.
This Variable Data is defined under Condition 5.4 herein.

c) Reference Formula(e):
ReferenceFormula_Autocall

3.9.0.2 Lower Bound Trigger Event

a) Description:
Lower Bound Trigger Event is deemed to have occurred, as determined by the Calculation Agent, if on a Valuation Date(i), ReferenceFormula_Autocall(i) is lower than [or equal to] AutocallBarrierLowerBound(i).

b) Variable Data:
AutocallBarrierLowerBound.
This Variable Data is defined under Condition 5.4 herein.

c) Reference Formula(e):
ReferenceFormula_Autocall

3.9.0.3 Target Knock-In Event

a) Description:
Target Knock-In Event is deemed to have [not] occurred, as determined by the Calculation Agent, if on a Valuation Date(i), SumCoupons[Paid](i) is higher than [or equal to] TargetAmount(i).

b) Variable Data:
TargetAmount.

This Variable Data is defined under Condition 5.4 herein.

c) Reference Formula(e): Not Applicable

d) Specific Definition(s):
SumCoupons[Paid](i) = SumCoupons[Paid](i-1) + Structured Interest Amount(i)
With:
[SumCoupons[Paid](0) = 0 (zero)] *or* [SumCoupons[Paid](t1) = SumCoupons_t1]

3.9.0.4 Automatic Early Redemption Events

Set out below a list of different Options relating to the Family of Products "Rate". The clause "*Reference of the Product*" of the applicable Final Terms shall indicate the Option applicable to the Product selected amongst the Options described below, to determine and calculate the Automatic Early Redemption Amount.

OPTION 1: *Upper Bound Trigger Event for Automatic Early Redemption*
If on a Valuation Date(i), an Upper Bound Trigger Event has [not] occurred, then:

Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i)

OPTION 2: *Lower Bound Trigger Event for Automatic Early Redemption*
If on a Valuation Date(i), a Lower Bound Trigger Event has [not] occurred, then:

Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i)

OPTION 3: *Target Knock-In Event for Automatic Early Redemption*
If on a Valuation Date(i), a Target Knock-In Event has [not] occurred, then:

Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i)

3.9.1 Structured Floating Rate Notes
If the applicable Final Terms specify that "*Reference of the Product*" is 3.9.1, the following applies:

3.9.1.1 Product Description:
- Unless previously redeemed, this Product pays a Structured Interest Amount the calculation of which depends on the Option selected among the 2 possible:

If **Option No Global Cap** is selected, a Structured Interest Amount equal to the value of the ReferenceFormula considered and applied to the Underlying(s) which may be subject to a floor and/or a cap and/or with a leverage factor and/or with a Day Count Fraction.

If **Option With Global Cap** is selected, a Structured Interest Amount (i) equal to the value of the ReferenceFormula considered and applied to the Underlying(s) which may be subject to a floor and / or a cap and / or with a leverage factor and / or with a Day Count Fraction (ii) and dependent of the Structured Interest Amount previously computed.

- A priori, there is no Automatic Early Redemption under this Product unless an Option is specified applicable to the Product amongst the Options described in Condition 3.9.0.4 above.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount the calculation of which depends on the Option selected among the 2 possible:

If **Option No Global Floor** is selected, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value.

If **Option With Global Floor** is selected, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value which may be subject to cap and/or with a leverage factors and may be dependent of the Structured Interest Amount previously computed.

3.9.1.2 Structured Interest Amount: Applicable

Structured Interest Amount – *Option No Global Cap*
Structured Interest Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = Max(Floor(i) ; Min(Cap(i) ; Participation1(i) x (Participation2(i) x (ReferenceFormula_Coupon(RVD(i)) – Strike(i)) + Spread(i)))) [x DayCountFraction]

Structured Interest Amount – *Option With Global Cap*
Structured Interest Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = Min(Target(i) – Participation (i) x SumCoupons[Paid](i-1); (Max(Floor(i) ; Min(Cap(i) ; Participation1(i) x (Participation2(i) x (ReferenceFormula_Coupon(RVD(i)) – Strike(i)) + Spread(i)))) [x DayCountFraction]))

3.9.1.3 Automatic Early Redemption:
The applicable Final Terms shall indicate either "Not Applicable" or the Option applicable to the Product amongst the Options described in Condition 3.9.0.4 above.

3.9.1.4 Final Redemption Amount:

Final Redemption Amount – *Option No Global Floor*
Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA

Final Redemption Amount – *Option With Global Floor*
Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA + Max(Floor(T); Target(T) – Participation(T) x SumCoupons[Paid](T))

3.9.1.5 Specific Definition(s):
SumCoupons[Paid](i) = SumCoupons[Paid](i-1) + Structured Interest Amount(i)

With:
[SumCoupons[Paid](0) = 0] *or* [SumCoupons[Paid](t1) = SumCoupons_t1]

The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 above.

3.9.1.6 Variable Data:
Cap; Floor; Target, Participation, Participation1; Participation2; Strike; Spread; DayCountFraction; ConstantRedemptionLevel_AERA (when applicable); ConstantRedemptionLevel_FRA.
These Variable Data are defined under Condition 5.4 herein.

3.9.1.7 Reference Formula(e):
ReferenceFormula_Coupon
Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

For Notes indexed on one Underlying:
Fixing (as defined under Condition 4.25 of the Family of "Reference Fixings")
Performance (as defined under Condition 4.1 of the Family of "SimpleLevel")
RestrikePerformance (as defined under Condition 4.17 of the Family of "RestrikePerformance")

For Notes indexed on more than one Underlying:
BestFixing, WorstFixing, AverageFixing, BasketFixing, BasketFixing, BasketFixing or SpreadFixing (as defined under Condition 4.25 of the Family of "Reference Fixings")
BasketPerformance or BasketRestrikePerformance (as defined under Condition 4.4 of the Family of "BasketPerformance")

3.9.2 *Corridor*
If the applicable Final Terms specify that *"Reference of the Product*" is 3.9.2, the following applies:

3.9.2.1 Product Description:
- Unless previously redeemed, this Product pays a Structured Interest Amount that depends both upon (i) the value of the ReferenceFormula considered and applied to the Underlying(s) of the Product and (ii) the value of a ReferenceFormula considered among the "Range Accrual" Family, which may be subject to a floor and/or a cap and/or with a leverage factor and a Day Count Fraction.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value.

3.9.2.2 Structured Interest Amount: Applicable

Structured Interest Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = Max(Floor(i) ; Min(Cap(i) ; Participation(i) x (ReferenceFormula_Coupon(RVD(i)) + Spread(i)) x ReferenceFormula_RangeAccrual(RVD(i)))) x DayCountFraction

3.9.2.3 Automatic Early Redemption:

The applicable Final Terms shall indicate either "Not Applicable" or the Option applicable to the Product amongst the Options described in Condition 3.9.0.4 above.

3.9.2.4 Final Redemption Amount:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA

3.9.2.5 Specific Definition(s):

The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 above.

3.9.2.6 Variable Data:

Floor; Cap; Participation; Spread; DayCountFraction; ConstantRedemptionLevel_AERA (when applicable); ConstantRedemptionLevel_FRA.

These Variable Data are defined under Condition 5.4 herein.

3.9.2.7 Reference Formula(e):
ReferenceFormula_Coupon; ReferenceFormula_RangeAccrual

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):
RangeAccrualFormula, DualRangeAccrualFormula, or BinaryRangeAccrualFormula (as defined under Condition 4.21 of the Family of "RangeAccrual")

3.9.3 *Ratchet Corridor*
If the applicable Final Terms specify that "*Reference of the Product*" is 3.9.3, the following applies:

3.9.3.1 Product Description:
- Unless previously redeemed, this Product pays a Structured Interest Amount that depends upon the combination of (i) the value of the ReferenceFormula considered and applied to the Underlying(s) of the Product and (ii) the values of a ReferenceFormula considered among the "Range Accrual" Family and observed at two Dates, which may be subject to a floor and / or a cap and / or with a leverage factor and to a Day Count Fraction.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value.

3.9.3.2 Structured Interest Amount: Applicable

Structured Interest Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = Max(Floor(i) ; Min(Cap(i) ; Participation(i) x (ReferenceFormula_Coupon(RVD(i)) + Spread(i)) x ReferenceFormula_RangeAccrual(RVD(i)) x ReferenceFormula_RangeAccrual(RVD(i-1)))) x DayCountFraction

3.9.3.3 Automatic Early Redemption:

The applicable Final Terms shall indicate either "Not Applicable" or the Option applicable to the Product amongst the Options described in Condition 3.9.0.4 above.

3.9.3.4 Final Redemption Amount:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA

3.9.3.5 Specific Definition(s):
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 above.

3.9.3.6 Variable Data:
Floor; Cap; Participation; Spread; DayCountFraction; ConstantRedemptionLevel_AERA (when applicable); ConstantRedemptionLevel_FRA.

These Variable Data are defined under Condition 5.4 herein.

3.9.3.7 Reference Formula(e):
ReferenceFormula_Coupon; ReferenceFormula_RangeAccrual

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):
RangeAccrualFormula, DualRangeAccrualFormula, or BinaryRangeAccrualFormula (as defined under Condition 4.21 of the Family of "RangeAccrual")

3.9.4 *Constant Maturity Forward*
If the applicable Final Terms specify that "Reference of the Product" is 3.9.4, the following applies:

3.9.4.1 Product Description:
- Unless previously redeemed, this Product pays a Structured Interest Amount equal to the value of Reference Formulas considered and applied to the Underlying(s) which may be subject to a floor and / or a cap and / or with a leverage factor and with a Day Count Fraction.

- A priori, there is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount equal to a predetermined value.

3.9.4.2 Structured Interest Amount: Applicable

Structured Interest Amount(i) = Specified Denomination x Product Formula(i)

Product Formula(i) = Max(Floor(i) ; Min(Cap(i) ; Participation(i) x (ReferenceFormula_Coupon_1(RVD(i)) + (1 + ReferenceFormula_Coupon_1(RVD(i))) ^ n2 x ReferenceFormula_Coupon_1(RVD(i)) – (1 + ReferenceFormula_Coupon_2(RVD(i))) ^ n2 x ReferenceFormula_Coupon_2(RVD(i)) + Spread(i)))) [x DayCountFraction]

3.9.4.3 Automatic Early Redemption:
The applicable Final Terms shall indicate either "Not Applicable" or the Option applicable to the Product amongst the Options described in Condition 3.9.0.4 above.

3.9.4.4 Final Redemption Amount:
Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA

3.9.4.5 Specific Definition(s):
The applicable Final Terms shall indicate, as the case may be, one or more of the definitions mentioned in Condition 1.2.2 above.

3.9.4.6 Variable Data:
Cap; Floor; Participation; n1, n2 ; Strike; Spread; DayCountFraction; ConstantRedemptionLevel_AERA (when applicable); ConstantRedemptionLevel_FRA.

These Variable Data are defined under Condition 5.4 herein.

3.9.4.7 Reference Formula(e):
ReferenceFormula_Coupon_1; ReferenceFormula_Coupon_2

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products are (but without limitation):

Fixing (as defined under Condition 4.25 of the Family of "Reference Fixings")

Performance (as defined under Condition 4.1 of the Family of "SimpleLevel")

RestrikePerformance (as defined under Condition 4.17 of the Family of "RestrikePerformance")

BestFixing, WorstFixing, AverageFixing, BasketFixing, BasketFixing, BasketFixing or SpreadFixing (as defined under Condition 4.25 of the Family of "Reference Fixings")

3.10 FAMILY OF PRODUCTS "CREDIT OR BOND LINKED"
Set out below the list of Products of the Family of Products "CREDIT OR BOND LINKED" , the Reference of the Product of which is mentioned in the table below will be indicated in the applicable Final Terms in the clause "*Reference of the Product*":

Reference of the Product	**Product**
3.10.1	Credit Linked Products
3.10.2	Bond Linked Products
3.10.3	Autocall Credit Linked Products
3.10.4	Long Recovery Credit Linked Products
3.10.5	Basket of Tranches Credit Linked Products
3.10.6	Evolutive Tranche Credit Linked Products
3.10.7	Leveraged Credit Linked Products
3.10.8	Reverse Convertible Bond Linked Products

For each Reference of the Product mentioned in the table above, any reference from the Additional Terms and Conditions for Credit Linked Notes or from the Additional Terms and Conditions for Bond Linked Notes, including any reference not relating to a Product Amount, may be enumerated as many times as the context may require.

The original reference that is enumerated shall be construed as a reference to, and shall apply *mutatis mutandis* to, each of its enumeration, unless the Reference of the Product indicates a definition of the original reference that is enumerated specific to the enumeration and, in such case, the definition of the Reference of the Product shall prevail.

In case several references from the Additional Terms and Conditions for Credit Linked Notes or from the Additional Terms and Conditions for Bond Linked Notes, including any reference not relating to a Product Amount, are enumerated, all the distinct references enumerated with the same enumeration shall be deemed, *mutatis mutandis*, to be part of the same set of references and, when relevant, linked to one another.

Illustration:
For the product 3.10.5, Aggregate Loss Amount, Tranche Subordination Amount and Interest Recovery Rate, non-exhaustively, may be enumerated into, respectively:

Aggregate Loss Amount(1), Aggregate Loss Amount(2) and Aggregate Loss Amount(3);

Tranche Subordination Amount(1), Tranche Subordination Amount(2) and Tranche Subordination Amount(3);

Interest Recovery Rate(1), Interest Recovery Rate(2) and Interest Recovery Rate(3).

The definition of Aggregate Loss Amount shall be construed as a reference to, and shall apply *mutatis mutandis* to, Aggregate Loss Amount(1), Aggregate Loss Amount(2) and Aggregate Loss Amount(3).

The definition of Tranche Subordination Amount shall be construed as a reference to, and shall apply *mutatis mutandis* to, Tranche Subordination Amount(1), Tranche Subordination Amount(2) and Tranche Subordination Amount(3).

The definition of Interest Recovery Rate shall be construed as a reference to, and shall apply *mutatis mutandis* to, Interest Recovery Rate(1), Interest Recovery Rate(2) and Interest Recovery Rate(3).

Aggregate Loss Amount(1), Tranche Subordination Amount(1) and Interest Recovery Rate(1) if relevant shall be deemed, *mutatis mutandis*, to be part of the same set of references (i.e. the set of references enumerated with the enumeration (1)) and, when relevant, linked to one another.

Aggregate Loss Amount(2), Tranche Subordination Amount(2) and Interest Recovery Rate(2) if relevant shall be deemed, *mutatis mutandis*, to be part of the same set of references (i.e. the set of references enumerated with the enumeration (2)) and, when relevant, linked to one another.

Aggregate Loss Amount(3), Tranche Subordination Amount(3) and Interest Recovery Rate(3) if relevant shall be deemed, *mutatis mutandis*, to be part of the same set of references (i.e. the set of references enumerated with the enumeration (3)) and, when relevant, linked to one another.

Description of how the value of the relevant Notes can be affected by the value of the Underlying(s)

The Family "CREDIT OR BOND LINKED" comprises Products which provide exposure to the credit risk of a Reference Entity or a Reference Portfolio comprising several Reference Entities (in respect of Credit Linked Notes) or a Bond or a Reference Portfolio comprising several Bonds (in respect of Bond Linked Notes) and the financial indebtedness of any such Reference Entity or one or several Reference Entity(ies) within the Reference Portfolio (in respect of Credit Linked Notes), where the Product Amounts are determined according to the occurrence of Credit Event(s) or Bond Event(s) and in the case of the occurrence of Credit Event(s), according to the Cash Redemption Amount or the Physical Delivery Amount (with, if any, the Cash Redemption Amount per Undeliverable Obligations), as applicable, as defined in the Additional Terms and Conditions for Credit Linked Notes or of Bond Event(s), according to the Cash Redemption Amount as defined in the Additional Terms and Conditions for Bond Linked Notes. In addition, the Autocall Credit Linked Products provide exposure to the positive or negative performance of a CDS Spread, where the Product Amount(s) are determined based on one or several conditions, one of which being typically satisfied if the level of the CDS Spread is higher (or lower) than or equal to a pre-defined barrier.

3.10.1 *Credit Linked Products*

If the applicable Final Terms specify that "*Reference of the Product*" is 3.10.1, the following applies:

3.10.1.1 Product Description:

- This Product does not pay any Structured Interest Amount.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined according to the occurrence of Credit Event(s).

3.10.1.2 Structured Interest Amount: Not Applicable

3.10.1.3 Automatic Early Redemption Amount: Not Applicable

3.10.1.4 Final Redemption Amount:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel

[*If settlement by way of cash*:
Provided that if one or more Credit Event Determination Date(s) occur(s), the Issuer will, on the Maturity Date, redeem each Note at the Cash Redemption Amount, subject to provisions of the Additional Terms and Conditions for Credit Linked Notes.]

Cash Redemption Amount means,
[*if Single Name Notes or First-to-Default Notes where the Principal Credit Factor and the Principal Loss Factor are both equal to 100%*] an amount, subject to a minimum of zero, equal to the product of the Final Value multiplied by the Nominal Amount of each Note, minus the Unwind Costs in respect of the Credit Event Determination Date.

[*if Single Name Notes or First-to-Default Notes where the Principal Credit Factor and/or the Principal Loss Factor is different from 100%*] an amount, subject to a minimum of zero, equal to the product of (i) the Principal Credit Factor and (ii) the Nominal Amount of each Note, minus the product of (a) the Nominal Amount of each Note, (b) the Principal Loss Factor and (c) the difference between the Reference Price and the Final Value, minus the Unwind Costs in respect of the Credit Event Determination Date.

[*If Basket Notes or Tranche Notes where the Principal Credit Factor and the Principal Loss Factor are both equal to 100%*], an amount, subject to a minimum of zero, equal for each Note to (i) the Relevant Proportion of the difference between the Aggregate Nominal Amount and the Aggregate Loss Amount minus (ii) the aggregate of the Unwind Costs calculated in respect of all Credit Event Determination Dates, as at the Maturity Date.

[*If Basket Notes or Tranche Notes where the Principal Credit Factor and/or the Principal Loss Factor is different from 100%*], an amount, subject to a minimum of zero, equal for each Note to the product of (i) the Principal Credit Factor and (ii) the difference between (x) the Relevant Proportion of the difference between the Aggregate Nominal Amount and the product of the Principal Loss Factor and the Aggregate Loss Amount and (y) the aggregate of the Unwind Costs calculated in respect of all Credit Event Determination Dates, as at the Maturity Date.

[*If settlement by way of physical delivery only applicable for Single Name Notes and First-to-Default Notes*:
provided that if one or more Credit Event Determination Date(s) occur(s), the Issuer will, on the Maturity Date, deliver the Physical Delivery Amount to the Noteholders, subject to provisions of the Additional Terms and Conditions for Credit Linked Notes.]

Physical Delivery Amount means, for each Note, Specified Deliverable Obligations with (a) an Outstanding Principal Balance (where such Specified Deliverable Obligations are Borrowed Money) or (b) a Due and Payable Amount (where such Specified Deliverable Obligations are not Borrowed Money),

in each case determined by the Calculation Agent in accordance with the following formula, subject to a minimum of zero: **A x (B– C)**

Where:
A means the Principal Credit Factor;

B means either (i) the Nominal Amount or (ii) the Partial Redemption Amount (in the event of a Restructuring as contemplated in Condition 1.4 of the Additional Terms and Conditions for Credit Linked Notes) or (iii) the multiple Successor Notional Amount (in the circumstances contemplated in Condition 1.5 of the Additional Terms and Conditions for Credit Linked Notes); and

C means an equivalent number of Specified Deliverable Obligations with a market value equal to the amount of the Unwind Costs

3.10.1.5 Variable Data:
ConstantRedemptionLevel.

This Variable Data is defined under Condition 5.4 herein.

3.10.2 Bond Linked Products

If the applicable Final Terms specify that "*Reference of the Product*" is 3.10.2, the following applies:

3.10.2.1 Product Description:
- This Product does not pay any Structured Interest Amount.
- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined according to the occurrence of Bond Event(s).

3.10.2.2 Structured Interest Amount: Not Applicable

3.10.2.3 Automatic Early Redemption Amount: Not **Applicable**

3.10.2.4 Final Redemption Amount:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel

Provided that if one or more Bond Event Determination Date(s) occur(s), the Issuer will, on the Maturity Date, redeem each Note at the Cash Redemption Amount, subject to provisions of the Additional Terms and Conditions for Bond Linked Notes.

Cash Redemption Amount means the maximum of zero and:
[*If Single Bond Linked Notes where the Bond Currency is the same as the Specified Currency of the Notes*] an amount equal for each Note to the sum (subject to a minimum of zero) of (A) (i) the product of the Bond Final Value and the Specified Denomination of each Note and (ii) the product of the Relevant Proportion and the Breakage Cost Amount of the Bond if this option is specified as Applicable in the applicable Final Terms or zero if this option is specified as not applicable in the applicable Final Terms minus (B) the product of the Specified Denomination of each Note and the Reference Transaction Price (unless Reference Transaction Price is specified as "Not Applicable" in the applicable Final Terms).

[*If Single Bond Linked Notes where the Bond Currency is different from the Specified Currency of the Notes*] an amount equal for each Note to the sum (subject to a minimum of zero) of (A) (i) the product of the Bond Final Value and the Relevant Proportion of the Bond Notional Amount (converted in the Specified Currency of the Notes using the Relevant Spot Exchange Rate on or around the Bond Final Value Determination Date) and (ii) the product of the Relevant Proportion and the Breakage Cost Amount of the Bond (in the case of (ii) which may be a negative amount) if this option is specified as "Applicable" in the applicable Final Terms or zero if this option is specified as "Not Applicable" in the applicable Final Terms minus (B) the product of the Specified Denomination of each Note and the Reference Transaction Price (unless Reference Transaction Price is specified as "Not Applicable" in the applicable Final Terms).

[*If Basket Bond Linked Notes*] an amount equal for each Note to the sum (subject to a minimum of zero) of (A) (i) the product of the Relevant Proportion and the difference between the Aggregate Nominal Amount and the Aggregate Loss Amount as at the Maturity Date and (ii) the product of the Relevant Proportion and the aggregate Breakage Cost Amount of each of the relevant Bonds if this option is specified as Applicable in the applicable Final Terms or zero if this option is specified as not applicable in the applicable Final Terms minus (B) the product of the Specified Denomination of each Note and the aggregate Reference Transaction Price of each of the relevant Bonds (unless Reference Transaction Price is specified as "Not Applicable" in the applicable Final Terms.

3.10.2.5 Variable Data:
ConstantRedemptionLevel.

This Variable Data is defined under Condition 5.4 herein.

3.10.3 *Autocall Credit Linked Products*
If the applicable Final Terms specify that "*Reference of the Product*" is 3.10.3, the following applies:

3.10.3.1 Product Description:
- This Product does not pay any Structured Interest Amount.
- An Automatic Early Redemption Amount may be paid under this Product: If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals a predetermined value.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined on the basis of the Reference Formula and according to the occurrence of Credit Event(s).

3.10.3.2 **Structured Interest Amount:** Not Applicable

3.10.3.3 Automatic Early Redemption Amount: Applicable

Automatic Early Redemption Event is deemed to have occurred, as determined by the Calculation Agent, if (1) on a Valuation Date(i), [[an European] [an American] [a Second Low Barrier] [a Second High Barrier] [a Range] [a Memory] [a Target] Knock In] [a Lock-In] Event has [not] occurred] [[and][or] ReferenceFormula_Autocall(RVD(i)) is [higher] [lower] than [or equal to] AutocallBarrier(i)], (2) no Credit Event Determination Date has occurred on or before the Automatic Early Redemption Date(RVD(i)), and (3) no Potential Repudiation/Moratorium or Potential Failure to Pay (if applicable) has occurred and is continuing at the Automatic Early Redemption Date(RVD(i)), then:

Automatic Early Redemption Amount(i) = Specified Denomination × Product Formula(i)

Product Formula(i) = ConstantRedemptionLevel_AERA(i) + [Coupon_AERA [x i] [x DCF(i)]]

3.10.3.4 Final Redemption Amount:

Scenario 1:
If on Valuation Date(T), ReferenceFormula_FinalBarrier(T) is [higher] [lower] than [or equal to] FinalBarrier, then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_1 + [Coupon_FRA [x T] [x DCF(T)]]

Scenario 2:
If on Valuation Date(T), ReferenceFormula_FinalBarrier(T) is [lower] [higher] than [or equal to] FinalBarrier, then:

Final Redemption Amount = Specified Denomination × Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel_FRA_2

[*If settlement by way of cash*:
Provided that if one or more Credit Event Determination Date(s) occur(s), the Issuer will, on the Maturity Date, redeem each Note at the Cash Redemption Amount, subject to provisions of the Additional Terms and Conditions for Credit Linked Notes.]

Cash Redemption Amount means
[*where the Principal Credit Factor and the Principal Loss Factor are both equal to 100%*] an amount, subject to a minimum of zero, equal to the product of the Final Value multiplied by the Nominal Amount of each Note, minus the Unwind Costs in respect of the Credit Event Determination Date.

[*where the Principal Credit Factor and/or the Principal Loss Factor is different from 100%*] an amount, subject to a minimum of zero, equal to the product of (i) the Principal Credit Factor and (ii) the Nominal Amount of each Note, minus the product of (a) the Nominal Amount of each Note, (b) the Principal Loss Factor and (c) the difference between the Reference Price and the Final Value, minus the Unwind Costs in respect of the Credit Event Determination Date.

[*If settlement by way of physical delivery only applicable for Single Name Notes*:
provided that if one or more Credit Event Determination Date(s) occur(s), the Issuer will, on the Maturity Date, deliver the Physical Delivery Amount to the Noteholders, subject to provisions of the Additional Terms and Conditions for Credit Linked Notes.]

Physical Delivery Amount means, for each Note, Specified Deliverable Obligations with (a) an Outstanding Principal Balance (where such Specified Deliverable Obligations are Borrowed Money) or (b) a Due and Payable Amount (where such Specified Deliverable Obligations are not Borrowed Money), in each case determined by the Calculation Agent in accordance with the following formula, subject to a minimum of zero: **A x (B– C)**

Where:

A means the Principal Credit Factor;

B means either (i) the Nominal Amount or (ii) the Partial Redemption Amount (in the event of a Restructuring as contemplated in Condition 1.4 of the Additional Terms and Conditions for Credit Linked Notes) or (iii) the multiple Successor Notional Amount (in the circumstances contemplated in Condition 1.5 of the Additional Terms and Conditions for Credit Linked Notes); and

C means an equivalent number of Specified Deliverable Obligations with a market value equal to the amount of the Unwind Costs

3.10.3.5 Variable Data:
AutocallBarrier; FinalBarrier; ConstantRedemptionLevel_AERA; ConstantRedemptionLevel_FRA_1; ConstantRedemptionLevel_FRA_2; Coupon_FRA; Coupon_AERA.

These Variable Data are defined under Condition 5.4 herein.

3.10.3.6 Reference Formula(e):
ReferenceFormula_Autocall; ReferenceFormula_FinalBarrier

Among the Reference Formulae defined under Condition 4, the ones mainly used for these Products is (but without limitation): *CDS Spread.*

3.10.4 *Long Recovery Credit Linked Products*
If the applicable Final Terms specify that "*Reference of the Product*" is 3.10.4, the following applies:

3.10.4.1 Product Description:

- This Product does not pay any Structured Interest Amount.
-
- There is no Automatic Early Redemption under this Product.
-
- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined according to (i) the occurrence of Credit Event(s) and (ii) the value of the weighted average of the floating recovery(ies) compared to a Barrier.

3.10.4.2 Structured Interest Amount: Not Applicable

3.10.4.3 Automatic Early Redemption Amount: Not Applicable

3.10.4.4 Final Redemption Amount:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel

[*If settlement by way of cash:*
Provided that if (i) one or more Credit Event Determination Date(s) occur(s) and (ii) the Average Recovery Value is [lower] [higher] than [or equal to] the Barrier, the Issuer will, on the Maturity Date, redeem each Note at the Cash Redemption Amount, subject to provisions of the Additional Terms and Conditions for Credit Linked Notes.]

[*If Basket Notes or Tranche Notes where the Principal Credit Factor and the Principal Loss Factor are both equal to 100%:*

Cash Redemption Amount means, an amount, subject to a minimum of zero, equal for each Note to (i) the Relevant Proportion of the difference between the Aggregate Nominal Amount and the Aggregate Loss Amount minus (ii) the aggregate of the Unwind Costs calculated in respect of all Credit Event Determination Dates, as at the Maturity Date.

Average Recovery Value means the weighted average of the Final Value determined for all Reference Entities in respect of which a Credit Event Determination Date has occurred, each such Final Value being weighted according to the relevant Reference Entity Weighting.

Preliminary Cash Redemption is Not Applicable.]
[*If Basket Notes where the Principal Credit Factor and the Principal Loss Factor are both equal to 100%:*

Aggregate Loss Amount means, as per Condition 2 of the Additional Terms and Conditions for Credit Linked Notes, at any time for a Basket Note that is not a Tranche Note, the aggregate of the Loss Amount in respect of all Reference Entities in respect of which a Credit Event Determination Date has occurred.

Loss Amount means, notwithstanding the definition in Condition 2 of the Additional Terms and Conditions for Credit Linked Notes, means, in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred, an amount equal to the product of (i) the Reference Entity Notional Amount and (ii) the Reference Price, subject to a minimum of zero.]
[*If Tranche Notes where the Principal Credit Factor and the Principal Loss Factor are both equal to 100%:*

Aggregate Loss Amount means, as per Condition 2 of the Additional Terms and Conditions for Credit Linked Notes, at any time for a Tranche Note, the lowest of (i) the Tranche Notional Amount; and (ii) the highest of (x) zero and (y) the difference between (xx) the aggregate of the Loss Amount for all Reference Entities in respect of which a Credit Event Determination Date has occurred and (xy) the Tranche Subordination Amount.

Loss Amount means, notwithstanding the definition in Condition 2 of the Additional Terms and Conditions for Credit Linked Notes, means, in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred, an amount equal to the product of (i) the Reference Entity Notional Amount and (ii) the Reference Price, subject to a minimum of zero.]

3.10.4.5 Variable Data:
ConstantRedemptionLevel; Barrier.

These Variable Data are defined under Condition 5.4 herein.

3.10.5 *Basket of Tranches Credit Linked Products*
If the applicable Final Terms specify that (i) "Reference of the Product" is 3.10.5 and (ii) the Type of Credit Linked Notes is Tranche Notes the following applies:

3.10.5.1 Product Description:
- This Product may pay a Fixed Coupon Amount and/or a Floating Coupon Amount. None of these two amounts shall be deemed to be a Product Amount, because each of these two amounts may be expressed differently from the formula (Specified Denomination x Product Formula).

- This Product does not pay any Structured Interest Amount.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined according to the occurrence of Credit Event(s) and each of such Credit Event(s) may fall within a tranche related to a certain Reference Portfolio having a predetermined Reference Portfolio Weight.

3.10.5.2 Structured Interest Amount: Not Applicable

3.10.5.3 Automatic Early Redemption Amount: Not Applicable

3.10.5.4 Final Redemption Amount:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel

[If settlement by way of cash:
Provided that if one or more Credit Event Determination Date(s) occur(s), the Issuer will, on the Maturity Date, redeem each Note at the Cash Redemption Amount, subject to provisions of the Additional Terms and Conditions for Credit Linked Notes.]

[If the Principal Credit Factor and the Principal Loss Factor are both equal to 100%:

Cash Redemption Amount means, an amount, subject to a minimum of zero, equal for each Note to the Relevant Proportion of the Sum, for k from 1 to N, of the Product of (x) the Reference Portfolio Weight(k) and (y) the difference between (xx) the difference between (a) the Aggregate Nominal Amount and (b) the Aggregate Loss Amount(k) and (xy) the aggregate of the Unwind Costs(k) calculated in respect of all Credit Event Determination Dates, as at the Maturity Date.

Reference Portfolio Weight(k) (k from 1 to N) means Weight_k.

Aggregate Loss Amount(k) (k from 1 to N) means at any time for a Tranche Note, the lowest of (i) the Tranche Notional Amount; and (ii) the highest of (x) zero and (y) the difference between (xx) the aggregate of the Loss Amount(k) for all Reference Entities in the Reference Portfolio(k) and in respect of which a Credit Event Determination Date has occurred and (xy) the Tranche Subordination Amount(k).

Each original reference from the Additional Terms and Conditions for Credit Linked Notes that is enumerated above, and the definition of which is not detailed above, shall be construed as a reference to, and shall apply mutatis mutandis to, each of its enumeration in accordance with its meaning given in the Additional Terms and Conditions for Credit Linked Notes.]

3.10.5.5 Variable Data:
ConstantRedemptionLevel, Weight_k (k from 1 to N).

These Variable Data are defined under Condition 5.4 herein.

3.10.5.6 Other amounts:
[If the Interest Credit Factor and the Interest Loss Factor are both equal to 100%, the applicable Final Terms specify that (i) the clause "Accrual of Interest upon Credit Event" is stated as being different from "Guaranteed Coupon" and (ii) the clause "Interest Recovery" is stated as being "Fixed Interest Recovery", and the Product pays a Fixed Coupon Amount and/or a Floating Coupon Amount, then, for each of the Fixed Coupon Amount and the Floating Coupon Amount:

Daily Interest Calculation Amount means, in respect of any day during an Interest Period, an amount, subject to a minimum of zero, equal to the Sum, for k from 1 to N, of the Product of (x) the Reference Portfolio Weight(k) and (y) the difference between (xx) the Aggregate Nominal Amount and (xy) an amount equal to the Aggregate Loss Amount(k) that would be calculated if the Final Value(k) for all Reference Entities in the Reference Portfolio(k) and in respect of which a Credit Event Determination Date has occurred was deemed to be equal to the Interest Recovery Rate(k).

Each original reference from the Additional Terms and Conditions for Credit Linked Notes that is enumerated above, and the definition of which is not detailed above, shall be construed as a reference to, and shall apply mutatis mutandis to, each of its enumeration in accordance with its meaning given in the Additional Terms and Conditions for Credit Linked Notes.]

3.10.6 *Evolutive Tranche Credit Linked Products*
If the applicable Final Terms specify that (i) "Reference of the Product" is 3.10.6 and (ii) the Type of Credit Linked Notes is Tranche Notes, the following applies:

3.10.6.1 Product Description:
- This Product may pay a Fixed Coupon Amount and/or a Floating Coupon Amount. None of these two amounts shall be deemed to be a Product Amount, because each of these two amounts may be expressed differently from the formula (Specified Denomination x Product Formula).

- This Product does not pay any Structured Interest Amount.

- There is no Automatic Early Redemption under this Product.

- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined according to the occurrence of Credit Event(s) and each of such Credit Event(s) may fall within a tranche the width of which, marked in particular by the Attachment Point and the Detachment Point, automatically changes on the Tranche Switch Date.

3.10.6.2 Structured Interest Amount: Not Applicable

3.10.6.3 Automatic Early Redemption Amount: Not Applicable

3.10.6.4 Final Redemption Amount:

Final Redemption Amount = Specified Denomination x Product Formula(T)

Product Formula(T) = ConstantRedemptionLevel

[If settlement by way of cash:
Provided that if one or more Credit Event Determination Date(s) occur(s), the Issuer will, on the Maturity Date, redeem each Note at the Cash Redemption Amount, subject to provisions of the Additional Terms and Conditions for Credit Linked Notes.]

[If the Principal Credit Factor and the Principal Loss Factor are both equal to 100%:

Cash Redemption Amount means, an amount, subject to a minimum of zero, equal for each Note to (i) the Relevant Proportion of the product of (x) the difference between the Aggregate Nominal Amount and the Aggregate Loss Amount(1) and (y) the difference between 1 and the division of (xx) the Aggregate Loss Amount(2) by (xy) the Aggregate Nominal Amount minus (ii) the aggregate of the Unwind Costs calculated in respect of all Credit Event Determination Dates, as at the Maturity Date.

Aggregate Loss Amount(1) means at any time for a Tranche Note, the lowest of (i) the Tranche Notional Amount; and (ii) the highest of (x) zero and (y) the difference between (xx) the aggregate of the Loss Amount(1) for all Reference Entities in respect of which a Credit Event Determination Date has occurred from and including the First Credit Event Occurrence Date to and excluding the Tranche Switch Date and (xy) the Tranche Subordination Amount(1).

Aggregate Loss Amount(2) means at any time for a Tranche Note, the lowest of (i) the Tranche Notional Amount; and (ii) the highest of (x) zero and (y) the difference between (xx) the aggregate of the Loss Amount(2) for all Reference Entities in respect of which a Credit Event Determination Date has occurred from and including the First Credit Event Occurrence Date to and including the Scheduled Last Credit Event Occurrence Date and (xy) the Tranche Subordination Amount(2).

Tranche Switch Date means the date specified as such in the applicable Final Terms. The Tranche Switch Date must be comprised within the period from and excluding the First Credit Event Occurrence Date to and excluding the Scheduled Last Credit Event Occurrence Date.

Each original reference from the Additional Terms and Conditions for Credit Linked Notes that is enumerated above, and the definition of which is not detailed above, shall be construed as a reference to, and shall apply mutatis mutandis to, each of its enumeration in accordance with its meaning given in the Additional Terms and Conditions for Credit Linked Notes.]

3.10.6.5 Variable Data:
ConstantRedemptionLevel.

This Variable Data is defined under Condition 5.4 herein.

3.10.6.6 Other amounts:
[If the Interest Credit Factor and the Interest Loss Factor are both equal to 100%, the applicable Final Terms specify that (i) the clause "Accrual of Interest upon Credit Event" is stated as being different from "Guaranteed Coupon" and (ii) the clause "Interest Recovery" is stated as being "Fixed Interest Recovery", and the Product pays a Fixed Coupon Amount and/or a Floating Coupon Amount, then, for each of the Fixed Coupon Amount and the Floating Coupon Amount:

Daily Interest Calculation Amount means, in respect of any day during an Interest Period, an amount, subject to a minimum of zero, equal to the product of:
(x) the difference between the Aggregate Nominal Amount and the Aggregate Loss Amount(1) that would be calculated if the Final Value for all Reference Entities and in respect of which a Credit Event Determination Date occurred from and including the First Credit Event Occurrence Date to and excluding the Tranche Switch Date has occurred was deemed to be equal to the Interest Recovery Rate

and

(y) the difference between 1 and the division of:
(xx) the Aggregate Loss Amount(2) that would be calculated if the Final Value for all Reference Entities and in respect of which a Credit Event Determination Date occurred from and including the First Credit Event Occurrence Date to and including the Scheduled Last Credit Event Occurrence Date has occurred was deemed to be equal to the Interest Recovery Rate

by

(xy) the Aggregate Nominal Amount.
Each original reference from the Additional Terms and Conditions for Credit Linked Notes that is enumerated above, and the definition of which is not detailed above, shall be construed as a reference to, and shall apply mutatis mutandis to, each of its enumeration in accordance with its meaning given in the Additional Terms and Conditions for Credit Linked Notes.]

3.10.7 ***Leveraged Credit Linked Products***

If the applicable Final Terms specify that "*Reference of the Product*" is 3.10.7, the following applies and the terms defined herein prevail:

3.10.7.1 **Product Description:**

- This Product does not pay any Structured Interest Amount.
- An Automatic Early Redemption Amount may be paid under this Product: If an Automatic Early Redemption Event is deemed to have occurred, the Automatic Early Redemption Amount equals the Market Value.
- Unless previously redeemed, this Product pays on Maturity Date a Final Redemption Amount determined according to the occurrence of Credit Event(s), and subject to a Leverage on the loss amount if a Credit Event Occurs.

3.10.7.2 **Structured Interest Amount: Not Applicable**

3.10.7.3 **Automatic Early Redemption Amount: Applicable**

Automatic Early Redemption Amount(i) = Market Value

Where :

Market Value means, as per Condition 6.3 of the General Terms and Conditions, an amount determined by the Calculation Agent, which, on the due date for the redemption of the Note, shall represent the fair market value of the Notes and shall have the effect (after taking into account the costs that cannot be avoided to redeem the fair market value to the Noteholders) of preserving for the Noteholders the economic equivalent of the obligations of the Issuer to make the payments in respect of the Notes which would, but for such early redemption, have fallen due after the relevant early redemption date.

Automatic Early Redemption Event is deemed to have occurred, as determined by the Calculation Agent, if on a Valuation Date(i)(i from 1 to T):

[*if Single Name Notes*

(i) the Reference Entity Spread on such day is higher than or equal to Barrier_Single
[or (ii) a Credit Event Determination Date occurs in respect of the Reference Entity.**]**
[and [(ii)][(iii)] the Current Market Value of the Note is lower than or equal to Barrier_ AER]**]**

[*if Basket Notes and Credit Index Option is not Applicable*

(i) the Average Spread on such day is higher than or equal to Barrier_Basket

[or (ii) the Reference Entity Spread with respect to any Reference Entity(k) on such day is higher than or equal to Barrier_Single(k)]

[or [(ii)][(iii)] a Credit Event Determination Date occurs in respect of one or more Reference Entities. **]**

[and [(ii)][(iii)][(iv)] the Current Market Value of the Note is lower than or equal to the Barrier_AER]**]**

[*if Basket Notes and Credit Index Option is Applicable*
(i) the Credit Index Spread on such day is higher than or equal to Barrier _Index
and
(ii) the Current Market Value of the Note is lower than or equal to the Barrier_AER.**]**

Automatic Early Redemption Event Determination Date means the day on which the Automatic Early Redemption Event Notice is delivered.

Automatic Early Redemption Event Notice means an irrevocable notice delivered by or on behalf of the Issuer to the Noteholders informing the Noteholders that an Automatic Early Redemption Event has occurred and specifying the Automatic Early Redemption Date and the Automatic Early Redemption Amount. The Automatic Early Redemption Event that is the subject of an Automatic Early Redemption Event Notice does not need to be continuing on the Automatic Early Redemption Event Determination Date.

Current Market Value means an amount determined by the Calculation Agent, which, on the relevant Valuation Date(i) (i from 1 to T), shall represent the Market Value of the Notes that would be computed if the Notes were to be redeemed as of such Valuation Date(i) (i from 1 to T).

Dealer means any dealer (other than Societe Generale) determined by the Calculation Agent in its sole and absolute discretion as being a dealer in respect of providing quotations in respect of credit default swap transactions.

Dealer Poll Method means that, on any day, the Reference Entity Spread will be determined by the Calculation Agent as follows:

(A) the Calculation Agent will attempt to obtain offer quotations from five Dealers, whereby:
